5. Events that Caused the Filing:

Esser Family Dental was one of only 2 dental practices in northwestern Pennsylvania that could provide treatment for children with Medicaid in an outpatient surgery center from 1997 through 2012.

Esser Family Dental had two lines of business, a traditional family dental practice that was started from scratch in 1993, and a surgery center that treated children with a state funded dental plan via United Healthcare at an outpatient surgery center for extensive dental caries. Each accounted for 50% of Esser Family Dental's revenue.

Prior to October 2012, Medicaid benefits were administered in the region via the PA ACCESS Program, or the voluntary MCO providers: United Healthcare and Gateway.

In Oct 2012, the Commonwealth of Pennsylvania restructured the administration of Medicaid Benefits in northwestern Pennsylvania. The PA ACCESS program was discontinued for the patient population served and Pennsylvania declined to renew United Healthcare's contract. Coventry Cares, UPMC for You, and AmeriHealth Mercy joined Gateway as the mandated MCO choices for the New West Region created by the Department of Public Welfare. The four new companies would only offer a provider contract to Esser Family Dental if a new fee schedule was agreed to, and the new fee schedule was only 40% of the usual dental fees and 50% of previous contracts.

The Dept. of Public Welfare and the Governor's office was notified that Esser Family Dental could not continue to provide critical dental services under the terms offered by the MCOs. They were informed of the impact this would have on the community. Jobs would be lost and Access To Care for children with dental caries would worsen.

Esser Family Dental was operating at 75-80% overhead after debt service in 2012. The proposed MCO contracts would not allow Esser Family Dental to remain profitable.
