The balance sheets presented are estimates based on the transfer of assets in connection with sales transaction completed on August 23, 2012. The terms of the transaction allow for an adjustment based on a final calculation of the company's working capital. Additionally, there are various amounts held in reserve and escrow in accordance with the asset purchase agreement. The resolution of the working capital adjustment, if any, and the terms of the reserve and escrow accounts will result in adjustments to the balance sheet noted above.

Debtors**

**Chapter 11
Case No. 12-11817**

To the best of my knowledge, the Debtors have made all required post-petition tax payments on a timely basis as it relates to all employee payroll related tax payments through August 31, 2012. The Debtors use a third party service for the remittance of employee payroll related tax payments through August 31, 2012. The Debtors have no employees subsequent to the sale effective August 23, 2012 and consequently, there are no employee payroll related tax payments in June 2013.

The Debtors filed the consolidated federal income tax returns in September 2012 and the required state income tax returns in October 2012. The Debtors are currently working with the IRS on an audit of the tax return filings from 2007 through 2010. In conjunction with resolving that audit, the Debtors will be required to file Form 1042's for certain of the years under audit. The Debtors did file for an extension for the 2012 income tax returns in March 2013. The Debtors have not had any other state or local tax returns or payments due during the period June 14, 2012 through June 30, 2013.
