AMO will deposit additional amounts which, together with the Escrow Issuer Proceeds, would be sufficient to redeem the notes at the issue price in connection with a special mandatory redemption, into an escrow account until the date that the escrow release conditions are satisfied or a special mandatory redemption is required.

Escrow funds will be released to effect a special mandatory redemption if (i) the Bankruptcy Court does not approve the prepackaged plan of reorganization of AMO and certain of its subsidiaries (the “Plan”) within 60 days of the issue date, subject to extension for an additional 35 days on no more than one occasion, if certain conditions are satisfied or (ii) prior to the date specified in clause (i) if the Escrow Issuer has determined, in its reasonable discretion, that the following escrow release conditions, among others, cannot be satisfied by such date:

The special mandatory redemption price for the first lien notes is equal to 100% of the issue price of such notes plus accrued

and unpaid interest on such notes from the issue date up to but not including the date of the special mandatory redemption.

Guarantees Upon AMO's emergence from bankruptcy and the release of the funds from escrow, the first lien notes will be guaranteed on a first lien senior secured basis by each of AMO's domestic subsidiaries that guarantees obligations under the new revolving credit facility.

Collateral Upon AMO's emergence from bankruptcy and the release of the funds from escrow, the first lien notes and the guarantees of the first lien notes will be secured by a first-priority lien on the assets that from time to time secure the obligations of AMO and the guarantors under the new revolving credit facility, subject to permitted liens and certain exceptions. With respect to the collateral, the indebtedness and obligations under the first lien notes and the new revolving credit facility will have first-priority liens. Under the terms of the First Lien Intercreditor Agreement (as defined below), however, in the event of a foreclosure on the collateral or insolvency proceedings, the holders of the first lien notes will receive proceeds from the collateral only after obligations under the new revolving credit facility have been paid in full.

Ranking Upon AMO's emergence from bankruptcy and the release of the funds from escrow, the first lien notes and the guarantees of the first lien notes will be AMO's and the guarantors' first lien senior secured obligations. The indebtedness evidenced by the first lien notes and the guarantees of the first lien notes will:

- rank senior in right of payment to AMO's and the guarantors' future subordinated indebtedness;
- rank equally in right of payment to all of AMO's and the guarantors' existing and future senior indebtedness, including obligations under the new revolving credit facility and any new second lien notes;
- rank equally in lien priority with AMO's and the guarantors' obligations under the new revolving credit facility and any other pari passu lien obligations incurred after the escrow release date to the extent of the value of the collateral; provided that in the event of a foreclosure on the collateral or insolvency proceedings, the holders of the first lien notes and any other pari passu lien indebtedness will receive proceeds from the collateral only after obligations under the new revolving credit facility have been paid in full;
- be effectively senior to all of AMO's and the guarantors' future junior lien and unsecured indebtedness, including any new second lien notes, to the extent of value of the collateral; and

- be structurally junior to all existing and future indebtedness and other liabilities of each of AMO's subsidiaries that is not a guarantor of the notes.

Intercreditor agreements Upon AMO's emergence from bankruptcy and the release of the funds from escrow, the trustee and the collateral agent under the indenture governing the first lien notes and the administrative agent and collateral agent under the new revolving credit agreement will enter into an intercreditor agreement (the "First Lien Intercreditor Agreement") as to the relative priorities of their respective security interests in the assets securing the first lien notes and obligations under AMO's new revolving credit facility and certain other matters relating to the administration of security interests, exercise of remedies, certain bankruptcy-related provisions and other intercreditor matters. The First Lien Intercreditor Agreement will also provide that in the event of a foreclosure on the collateral or insolvency proceedings, the holders of first lien notes will receive proceeds from the collateral only after obligations under the new revolving credit facility have been paid in full.

Upon AMO's emergence from bankruptcy and the release of the funds from escrow, the trustee and collateral agent under the indenture governing the second lien notes, the administrative agent and collateral agent under the new revolving credit facility and the first lien collateral trustee will enter into an intercreditor agreement as to the relative priorities of their respective security interests in the assets securing the second lien notes and obligations under AMO's new revolving credit facility and certain other matters relating to the administration of security interests, exercise of remedies, amendments to second lien documentation, if any, certain bankruptcy-related provisions and other intercreditor matters.

Change of control, asset sales Upon certain types of changes in control, AMO will be required to make an offer to purchase each holder's notes at a purchase price of 101% of the principal amount thereof, plus accrued and unpaid interest, to the date of purchase.

If AMO sells assets under certain circumstances, it will be required to make an offer to purchase the notes at 100% of their face amount, plus accrued and unpaid interest to the date of purchase.

Certain covenants The indenture governing the first lien notes will contain covenants that will, among other things, limit the ability of AMO and its restricted subsidiaries, subject to exceptions and qualifications, to:

- incur or guarantee additional indebtedness or issue certain preferred equity;
- pay dividends and make certain distributions in respect of capital stock or make other restricted payments;

- make certain investments;
- create or incur certain liens;
- sell or otherwise dispose of certain assets;
- enter into certain transactions with affiliates;
- limit the ability of AMO's restricted subsidiaries to make payments to AMO;
- merge, consolidate, sell or otherwise dispose of all or substantially all of the assets of AMO; and
- designate AMO's subsidiaries as unrestricted subsidiaries.

Activities of the Escrow

Issuer The indenture governing the notes will require the Escrow Issuer's activities to be restricted to issuing the notes and any second lien notes, performing its obligations with respect to the notes under the applicable indentures and the escrow agreement for the notes and, if applicable, the second lien notes and consummating the merger of the Escrow Issuer with and into AMO or redeeming the first lien notes pursuant to a special mandatory redemption, as applicable. The Escrow Issuer may not own, hold or otherwise have any interest in any assets other than the escrow account and cash or certain cash equivalents.

Registration rights; exchange offer

Pursuant to a registration rights agreement to be executed as part of the offering, the Escrow Issuer will agree and, upon AMO's emergence from bankruptcy and the release of funds from escrow, AMO and the guarantors will agree, to use commercially reasonable efforts (a) to register with the SEC exchange notes having substantially identical terms as the first lien notes offered pursuant to the notes offering, (b) to have an exchange offer completed no later than 450 calendar days after the issue date and (c) under certain circumstances, file a shelf registration statement with respect to the notes. If AMO fails to meet the conditions set forth in the registration rights agreement, the annual interest on the notes will increase by 0.25% per annum. The annual interest rate on the notes will increase by an additional 0.25% per annum for each subsequent 90-day period up to a maximum additional interest rate of 1.00% per annum.

Transfer restrictions The notes and the guarantees are not being registered under the Securities Act and are subject to restrictions on transfer.

No prior market The notes will be a new class of securities for which there is currently no established trading market. Although, the initial purchasers have advised AMO that they intend to make a market in the notes, they are not obligated to do so and may discontinue market-making activities at any time without notice. Accordingly, a liquid market for the notes may not develop or be maintained.

Use of proceeds Upon satisfaction of the escrow release conditions, AMO will use the net proceeds of the offering, along with cash on hand and borrowings under the new revolving credit facility, if

necessary, to finance its emergence from bankruptcy and pay related fees and expenses.

**Conditions to
consummating the
offering**

The consummation of the offering will be subject to the Bankruptcy Court issuing the Escrow Issuer Approval Order (as defined below), receipt of the required votes to approve the Plan, filing of the Chapter 11 Cases (as defined in the offering memorandum for the notes offering), receipt of corporate family ratings for AMO from Moody's Investors Services, Inc. and the satisfaction of certain other conditions, prior to the scheduled date of issuance of the notes.

The "Escrow Issuer Approval Order" means one or more orders (i) approving the contribution of amounts by AMO to the Escrow Issuer in an amount such that, taken together with the proceeds to the Escrow Issuer from the notes, the Escrow Issuer has funds sufficient to satisfy the special mandatory redemption, (ii) approving the issuance of the first lien notes, and (iii) finding that the Escrow Issuer and its parent, a newly established non-debtor Delaware company that is wholly owned by AMO, are non-debtor entities and that any proceeds or assets they have or will have will not be deemed property of the debtors' estates and will not be consolidated with the debtors' assets or estates.
