

July 22, 2009

Your Most Honorable Judge Richard S. Schmidt,

We the employees of Asarco LLC, have decided to invest some time in forwarding to you our thoughts and concerns regarding our future at Asarco should Grupo Mexico take possession again.

Seasoned workers and those just venturing out into the mining industry, we all have a commonality; to stand united in our beliefs that we deserve the right to have a job that is safe, secure, and consistent. We provide the hard work, and expect our employer to reward us with the above; a "give and take" basic approach that continues to function here and in work environments worldwide.

We have worked for Grupo Mexico before and unfortunately for all concerned, we witnessed and experienced more of the "take" approach on behalf of Grupo Mexico.

Our concerns this time are, that we will someday show up for work and find the gates to our workplace closed and in bankruptcy again. Thus, we all stand to lose our jobs and homes that we have all invested so much in.

Grupo Mexico has a track record of a negative approach when it comes to job security, safety, consistency and fairness to their employees. We know, because we have been there. We are also aware of how Grupo Mexico's employees have lost their jobs and lives in Mexico.

We have had this concern with us for quite some time. We need to finally put this issue to rest so that we may continue to work for someone who will respect our work ethic and provide a safe workplace. We ask that before you make a final decision on the outcome of the bankruptcy, that you take our concerns into consideration. We ask that you not forget what we have already gone through.

Sincerely,

Employees and families of Mission & Silver Bell Units  
Asarco LLC.
