Ms. Katherine Young
Food Service Warehouse
84 Inverness Circle East
Englewood, CO 80112

Dear Katherine:

Please accept this correspondence as the formal proposal of HYPERAMS, LLC (collectively, the "Auctioneer") to handle the liquidation of the test kitchen, technology assets and any other equipment (collectively, "the Assets") of Food Service Warehouse. ("the Company"). The Assets are currently located 84 Inverness Circle East, Englewood, CO 80112 (the "Facility"). We appreciate this opportunity and know we can provide a complete solution to your disposition needs.

Executive Summary

Summary of experience – with over 50 years of combined experience, our team brings proven, best-in-class solutions to the tasks involved in this project.

HYPERAMS is a full service disposition, appraisal, and advisory firm that concentrates on investing in the excess assets of healthy and distressed companies alike. We buy and manage the resale and redeployment of excess assets, including machinery and equipment, inventory, commercial accounts receivable and real estate. Since its formation four years ago, HYPERAMS has executed over one hundred auction sales in a variety of industries, as well as completed machinery and equipment appraisals on behalf of many financial institutions.

Project Strategy/Operational Outline

In terms of a liquidation strategy for the Assets we would propose a single auction event featuring timed online only bidding. The Auctioneer would propose to handle all aspects of the transaction from concept through execution, including: preparing, photographing and cataloging all Assets to be sold; negotiating sales; invoicing and collecting proceeds; providing sale execution, logistics coordination and overall operational control; designing and placing a comprehensive marketing campaign which may include newspaper and industry trade advertising, printing and distributing a sale brochure or postcard, email notifications, and telephone solicitations; posting sale information brochure on appropriate websites, citing the terms and conditions of the sale and further detailing all equipment specifications; providing onsite setup and removal execution and support services as may be needed; and finally, providing detailed financial accounting with support documentation.

All occupancy costs during our sale process would be the responsibility of the Company.

Project Timeline

The Auctioneer presents the following estimated timeline for the sale:

July 27 – Formal Proposal Submitted
July 29 – Verbal Agreement Reached
August 2 – Formal Agreement Executed and Submitted for Court Approval
August 12 – Court Approval Received
August 15 – Begin Set Up and Marketing
August 29 – Auction Live on Website
September 7 – Auction Buyer Inspection
September 8 – Online Only Auction Closes
September 12 - 16 – Asset Pick Up

Please note that this timeline is only an estimate, and is subject to change based on asset inspection, marketing period, Company needs, and ultimate award and court approval of an Agreement.

The Company would be required to allow us undisturbed access to the Facility, inclusive of all utilities, at no cost or expense for the timeline noted. The Auctioneer would be entitled to abandon in place any of the Assets that are not sold either during or after the auction Sale.

We would offer the following structure for your consideration.

Fee for Service Structure:

We will conduct the auction sale on behalf of the Company for a commission of ten percent (10%) of the first $100,000 of gross auction proceeds, and no commission thereafter. Any industry standard Buyer's Premium that is paid for by the auction buyers would also be retained by the Auctioneer as part of its compensation. Under this scenario, we would also request a direct Sale Expense Allowance of $20,000. The direct sale expenses would mainly include compensation for set up and removal, marketing costs, and the cost of the online auction sale. All Sale Expenses are advanced by the Auctioneer and reimbursed from the Sale Proceeds.

We greatly appreciate the opportunity to issue this proposal, and will work very hard to ensure that the Company is pleased with the overall experience. I look forward to the next steps in this process.

Thank you again for your time and consideration in this matter.

Sincerely,

/s/ Thomas E. Pabst
