Production statement

The following General Motors facilities in North America have been affected by the labor dispute between the UAW and American Axle. This document is solely to provide an update on production at GM operations. We will not speculate on the amount of production impacted at each facility. Updates will be posted, as needed, but generally at 9 a.m. and 5 p.m. daily at www.gmmanufacturing.info.

Contact: Tom Wickham,

Affected facilities (this only includes assembly facilities where employees have been sent home)
