

Objection to Visteon Bankruptcy

We petition the Court

From the past ex-employees of Visteon

Hourly & Salary & Dependents

We the ex-employees of Visteon object to the Bankruptcy, based on the fact it is not a US Market. It is a World Wide Organization that is traded on the Stock Market.

They have other entities in Mexico, China and Europe. The assets of these should be brought into account of the Bankruptcy. Our jobs have went to these other countries, avoiding labor costs, insurance, retirements. This has been going on for years. The people in the states, would still have employment, had this not happened.

The people here in the states hope that mercy of the court will take this into account. If we lose everything we have worked for, our efforts are a loss. We hope the Court and our Legislators will look at this.

Thank you from the ex-employees of Visteon.
