#### I. INTRODUCTION

7 This is the Disclosure Statement Dated and Filed July 8, 2016 (the "Disclosure State-8 ment") in the individual chapter 11 case of Daniel Major Edstrom Sr. (the "Debtor"). This 9 Disclosure Statement contains information about the Debtor and describes the "Plan of Reor-10 ganization of Daniel Major Edstrom Sr. Dated and Filed July 8, 2016" (the "Plan") filed on 11 July 8, 2016, in accordance with the United States Bankruptcy Code, 11 U.S.C. §§ 101, et seq. 12 (the "Bankruptcy Code"). A full copy of the Plan is attached to this Disclosure Statement as 13 Exhibit 1. A copy of the ballot form by which holders of impaired claims may vote to accept or 14 reject the Plan is attached to this Disclosure Statement as Exhibit 2.

YOUR RIGHTS MAY BE AFFECTED. YOU SHOULD READ THE PLAN AND
THIS DISCLOSURE STATEMENT CAREFULLY AND DISCUSS THEM WITH YOUR
ATTORNEY. IF YOU DO NOT HAVE AN ATTORNEY, YOU MAY WISH TO CONSULT
ONE.

### **PURPOSE OF THIS DOCUMENT:**

20 DANIEL MAJOR EDSTROM SR., Debtor-in-possession, provides this Disclosure 21 Statement in support of Debtor's plan of reorganization under Chapter 11, U.S. Code, pursuant 22 to 11 U.S.C. § 1125 to provide persons and entities entitled to vote to accept or reject Debtor's 23 Plan with information in assistance of evaluation of the merits of the Plan. A copy of the Plan 24 is attached to this Disclosure Statement as Exhibit 1. Before the Debtor or any other person, 25 committee, or creditor can solicit your acceptance or rejection of this Plan, the Court must re-26 view and approve this Disclosure Statement, after notice and a hearing, as containing adequate 27 information of a kind, and in sufficient detail, as far as is reasonably practicable in light of the

1	nature and history of the Debtor and the condition of the Debtor's books and records, that			
2	would enable a hypothetical reasonable investor typical of holders of claims or interests of the			
3	relevant class to make an informed judgment about this Plan, as provided by 11 U.S.C. §			
4	1125(a)(1). Should the Court approve this Disclosure Statement, a copy of the Court's Order			
5	will be provided to you, along with a ballot and other information to permit you to vote to ac-			
6	cept or reject this Plan. At that time, you will be directed to complete and forward your ballots			
7	to Daniel Major Edstrom Sr., the Debtor, at 2690 Brown Bear Court, Cool, CA 95614.			
8	This Disclosure Statement describes:			
9	• The Debtor and the significant events during the bankruptcy case;			
10	• How the Plan proposes to treat claims of the type you hold (i.e., what you will receive			
11	for your claim if the plan is confirmed);			
12	• Who can vote on or object to the Plan;			
13	• What factors the Bankruptcy Court (the "Court") will consider when deciding wheth-			
14	er to confirm the Plan;			
15	• Why the Debtor believes the Plan is feasible, and how the treatment of your claim un-			
16	der the Plan compares to what you would receive on your claim in a liquidation under Chapter			
17	7; and			
18	• The effect of confirmation of the Plan.			
19	As stated above, the Court has not yet confirmed the Plan described in this Disclosure			
20	Statement. Only if and when Debtor's Disclosure Statement is approved by the Court will the			
21	Court hear the issue of whether or not to confirm Debtor's proposed Plan. If the Court does ap-			
22	prove Debtor's Disclosure Statement, very shortly after the time of this approval, Debtors,			
23	through their counsel, will provide to you an Order Approving Disclosure Statement, a copy of			
24	Debtor's Plan, and a ballot which impaired claim-holders may use to vote to accept or reject			
25	Debtor's Plan. The Order Approving Disclosure Statement will include dates, fixed by the			
26	Court, which will include the date on or before which all ballots to accept or reject Debtor's			
27	Plan are to be submitted to Debtor's counsel, the date on or before which all objections to con-

	Disclosure Statement			

firmation of Debtor's Plan are to be filed with the Court and served on Debtor's counsel, and
 the date and time of the Court's hearing on the confirmation of Debtor's Plan.

Be sure to read the Plan as well as the Disclosure Statement. This Disclosure Statement describes the Plan, but it is the Plan itself, if and when confirmed, that will establish and control your rights. Please be advised that if the Plan is confirmed, the Plan will be controlling and determine your rights, even if you did not vote to accept the Plan, and thus it is important you review the Plan as well as this Disclosure Statement thoroughly.

therefrom.

"Creditor" shall mean any person or entity that has a claim against the debtor.

"Debtor" or "Debtors" shall mean Daniel Major Edstrom, Sr.

26 "Effective Date" shall mean the fifteenth business day following the date of the entry
27 of the confirmation order. But if a stay of the confirmation order is in effect on that date, the

28

24

25

effective date will be the first business day after that date on which no stay of the confirmation
 order is in effect, provided that the confirmation order has not been vacated.

3

28

"Indebtedness" as applied to the Debtor shall mean:

4 (a) all indebtedness or other obligations of the Debtor for borrowed money for the
5 deferred purchase price of property or services.

(b) all indebtedness of the Debtor, contingent, direct or otherwise, secured (or for
which the holder of such indebtedness has an existing right contingent or otherwise to be secured) by any mortgage, pledge, lien, security interest or vender's interest under any conditional sale or other title retention agreement existing on any property or asset owned or held by the
Debtor, whether or not the indebtedness secured thereby shall have been assumed by the Debtor (hereinafter "Secured Indebtedness"); or

12 (c) all indebtedness of others, secured or unsecured, directly or indirectly guaranteed, endorsed, or discounted with recourse by the Debtor, or in respect of which the Debtor is 13 14 otherwise directly or indirectly liable, including without limitation, indebtedness in effect guaranteed by the Debtor through any agreement (contingent or otherwise) to purchase, repur-15 16 chase or otherwise acquire such indebtedness or any security therefore, or to provide funds for 17 the payment or discharge of such indebtedness or of any other liability of the obligor of such 18 indebtedness (whether in the form of loans, advances, stock purchases, capital contributions or 19 otherwise), or to maintain the solvency or any balance sheet or other financial condition of the 20 obligor of such indebtedness, or to make payment for any products, materials or supplies or for 21 any transportation or services regardless of the non-delivery or non-furnishing thereof.

22 "Net Income" shall have the same definition as is used on Schedule J of the Official
23 Bankruptcy Forms, specifically line 20.c.

24 "Order of Confirmation" shall mean the order entered by the court confirming the
25 Plan in accordance with the provisions of Chapter 11 of the Code which order is no longer sub26 ject to appeal or certiorari proceeding or as to which no appeal or certiorari proceeding is pend27 ing.

"**Person**" shall mean an individual, corporation, partnership, joint venture, trust, estate, unincorporated organization, or a government or any agency or political subdivision thereof.

# III. BACKGROUND OF DEBTOR / HISTORY TO BANKRUPTCY FILING

19 Daniel Major Edstrom Sr., Debtor-in-Possession, is a self-employed individual who 20 conducts his independent business activities through his Corporation. The Debtor currently has 21 no employees. At present, in addition to this, Debtor just ended a 22-month contract with Mas-22 tech as a W-2 contract employee. Mastech placed Debtor on a contract at Kaiser Permanente as 23 Operations Lead for one of the largest SharePoint deployments in the world. Debtor uses his 24 substantial experience in Information Technology (20+ years) and his substantial experience in 25 SharePoint and SQL Server technologies as the Operations Lead for Kaiser where he interfaced 26 between IBM personnel, who manage the physical infrastructure, and Kaiser personnel, who 27 manage the applications and services. The nature of Debtor's personal employment and busi-

28

nesses is in information technology. Additionally, Debtors business consists of litigation sup port, legal project management and Securitization Reverse Engineering and Failure Analysis.

3 Debtor commenced this bankruptcy case on July 8, 2016, when, under substantial, im-4 mediate, and urgent pressure from the ending of his W-2 employment contract, the continuing 5 fraudulent foreclosure, and compounded by late bills, he filed his petition. Debtor's problems 6 began with and flowed from the severe downturn in the real estate market and general econom-7 ic environment in general. Debtor is a software, network and web architect who recently, be-8 cause of the mortgage meltdown moved into the emerging market of researching complex Wall 9 Street financial engineering transactions as well as litigation support and legal project man-10 agement for attorneys helping homeowners with fabricated documents and fraudulent foreclo-11 sure related issues. At the worst of the real estate downturn Debtor's jobs, and prospects for the 12 same, had reached very low levels. While the market appears to be in recovery, the market is 13 still oscillating quite a bit. It is as a consequence of this that Debtor was unable to continue to 14 meet his financial obligations, and bankruptcy protection and reorganization became necessary.

15 Debtor's real property is essential to the estate as Debtor relies on this property for his 16 residence as well as running his business from this property. Debtor has dedicated a portion of 17 his residence dedicated to business use and has office equipment including computers, printers, 18 desks, a library of reference books, and many other types of equipment and supplies accumu-19 lated over the last 19 years of business operations. If Debtor were to lose possession of the 20 property it would be necessary for further additional expenses for operating the business else-21 where, the disruption of moving office equipment and finally the disruption of moving com-22 munications services including telephone and Internet providers. The value of Debtors property 23 is not known at this time, Debtor will provide a valuation prior to the hearing to approve Debt-24 ors disclosure statement. There are multiple false competing claims which are clouds on title 25 (rendering title to this property unmarketable).

# IV. MAJOR EVENTS SUBSEQUENT TO THE FILING OF THIS BANKRUPTCY

Debtor filed this Disclosure Statement with the filing of the petition so this section is
not applicable. When/if Debtor amends this disclosure statement this section will be updated.

# V. CREDITORS OF THIS BANKRUPTCY ESTATE

On July 8, 2016, Debtor filed Schedules identifying the nature and amount of what he
understood to be his prepetition obligations. Since the time of filing the petition, Debtor has
incurred no further obligations.

8 The creditors and interest-holders of this estate, together with their status and the 9 amount of their claims as reflected in any proofs of claim are shown below. Debtor filed his 10 Plan on the same date as the petition and the Claims Registry was empty. Debtor will regularly 11 review the Claims Registry and amend the Plan and Disclosure Statement accordingly and/or 12 will file an objection to proof of claim as necessary. In all applicable instances in which a cred-13 itor files a claim, the claim amount given on the filed claim will be used to amend the Plan and 14 Disclosure Statement if applicable; in all other cases the amount scheduled by the Debtor is 15 used. The statements in these lists are made without admission, however, that the Debtor 16 agrees or has stipulated to the amount or nature of such claim, or that no objection will be 17 made by this estate.

14	not on title) kept at Debtors residence.						
15	Item (4) is a trust account with Debtors previous lawyer (Bottomline Lawyers) alleged-						
16	ly holding \$18,000.00 of Debtors money (in trust). Creditor Bottomline Lawyers (discharged in						
17	Debtors previous Chp. 7 bankruptcy) alleges the full amount of this \$18,000.00 is earned. To						
18	the extent the creditor is still holding any portion of this \$18,000.00 on behalf of the estate, it is

Schedule C.

4 Item (8) is the one (1) real property owned in title by Debtor and his non-filing spouse. 5 The full Property address is 2690 Brown Bear Court, Cool, CA 95614. Debtor does not have 6 enough information to value this property in the current market. Debtor will value this property 7 prior to (or contemporaneously with) the hearing to approve Debtors disclosure statement. 8 There are multiple false competing claims which are clouds on title (rendering title to this 9 property unmarketable). In 2012 (prior to filing the petition) debtor and debtors non-filing 10 spouse recorded a homestead in the Official Records of the County of El Dorado Recorders 11 Office. This declared homestead is listed on Schedule C.

# VII. PENDING LITIGATION AND MATERIAL DISPUTES

Debtor is not a party to any pending litigation.

14 Debtors real property is clouded by multiple competing claims, all of which have been 15 previously disputed and the corresponding debts discharged. No valid pre-petition secured 16 claims were perfected prior to Debtors previous bankruptcy (filed May 15, 2012) and no valid 17 pre-petition secured claims exist prior to the petition in this bankruptcy (filed July 8, 2016). All 18 claims have been abandoned in Debtors previous bankruptcy, where the claims were listed as 19 unsecured and disputed. A creditor filed a secured Proof of Claim in the previous bankruptcy, 20 even though there was no perfected lien listed in the claim, and then abandoned the form and 21 substance of their claim after Debtor filed a claim objection. Debtor will seek to remove these 22 clouds through an adversary proceeding once Debtors plan is confirmed, or earlier if any of the 23 purported creditors seeks to breathe life into one of these false claims by filing another false 24 proof of claim.

25

#### VIII. EXEMPTIONS

26 Debtor has claimed and scheduled the property of this estate exempt, except where not 27 set forth as exempt on Schedule C and furthermore reported as not exempted herein under Ro-

28

1	man Numeral VI above. Most personal property is exempted, as is set forth in the table under
2	the heading of Roman Numeral VI above. Debtor's cash is not exempt, nor his is interest in
3	DTC Systems and nor is any of the attorney trust funds allegedly held by BottomLine Lawyers.
4	Finally Debtors cars and trailer are only exempted to \$3,050.00, leaving \$300.00 as not ex-
5	empt. Debtor does not have legal title to the Cadillac Escalade owned by his non-filing spouse,
6	so no related exemption has been given. All other property of this estate is exempted. Debtor
7	holds a recorded homestead on his real property together with his non-filing spouse. This de-
8	clared homestead was executed May 9, 2012 and recorded on May 10, 2012 as Document
9	2012-0022565-00 in the Official Records of the El Dorado County Recorder's Office. Debtor
10	and his family, including his non-filing spouse have resided in the property as their principal
11	residence at all times since the homestead was executed and recorded. Debtors real property
12	value is unknown and therefore the extent of the exemptions on his real property are unknown.
13	Going further, Debtor claims that all property of the estate is exempt by operation of
14	law, specifically under 11 U.S.C. § 1129, because there are no holders of any impaired claims
15	or interests, and all creditors will receive or retain under the plan 100% of their pre-petition
16	claims plus interest.
17	There is no pending litigation over the nature or amount, or of the exempt/nonexempt
18	status of any property of this estate.
19	IX. SUMMARY OF PLAN OF REORGANIZATION
20	Under the Debtor's Plan, Daniel Major Edstrom Sr. will continue at his business going
21	forward.
22	This Chapter 11 reorganization contains a total of all claims of approximately
23	\$29,425.58, with one (1) secured claim, eight (8) unsecured claims and one (1) general unse-
24	cured claim, which is listed as disputed. The Plan provides for full payment of the allowed

25 amount of all claims. The unimpaired secured claim (Class 1, to State Farm Insurance, secured

- 26 || by Debtors Whole Life Insurance Policy) is to be paid monthly as agreed in the original pre-
- 27 || petition agreements. The unimpaired unsecured Class 2, Class 3, Class 4, Class 5, Class 6,
- 28

Class 7 and Class 8 claims, are to be paid in full by making yearly payments over five (5)
years. There are currently no undisputed and allowed general unsecured claims in Class 9<sup>1</sup>, but
if this plan is modified to include any general unsecured claims from Proof of Claims that are
filed, they will be paid in full over 5 years with 1 payment per year. Finally, the plan provides a
class (class 10) for Debtor's interest in the property of this bankruptcy estate, which entirely
revests in the Debtor upon confirmation, and thus this class is unimpaired. There are no impaired classes of claims in this plan.

8 The Debtor's Plan provides that all prepetition tax debt shall be paid prior to July 1, 9 2021, and this includes all claims held by a taxing authority and of the type and priority pro-10 vided for under Section 507(a)(8) of the Code, and described under Section 1129(a)(9)(C) of 11 the Code. Thus, the Debtor's Plan provides payment of the full allowed amount of each unclas-12 sified tax claim over a period that will be completed less than 5 years after the order for relief 13 under Section 301 of the Code, and in a manner not less favorable than the most favored 14 nonpriority unsecured claim provided for by the Plan, and thus in a manner fully compliant 15 with Section 1129(a)(9) of the Code. The plan provides that any other administrative claims 16 shall be paid in full, upon Court review and Court Order. The Debtor's Plan classifies claims 17 into various classes and provides for payment or treatment of each class in installments paid 18 over time (or, for Section 507(a)(2) administrative claims, if any, upon Court Order). Although 19 the Debtor's Plan is summarized below, Creditors should review the Plan to determine the spe-20 cific classification and treatment of their claim(s).

5	Class 9 (Unsecured Claim) (¶ 3.9)
6	Class 10 (Debtor's Interest in Property of This Bankruptcy Estate) (¶ 3.10)
7	A class of claims or interests is unimpaired if in general, the Debtor's Plan leaves unal-
8	tered the legal, equitable, and contractual rights to which the claim or interest entitles the hold-
9	er of such claim or interest, except that the Debtor's Plan may, under certain circumstances,
10	prohibit the exercise of any right to pursue co-Debtor or accelerate the payments due on ac-
11	count of any Claim.
12	b. Impaired Classes
13	The following classes are impaired under the Debtor's Plan. The paragraph number set
14	forth next to the class indicates the paragraph of the Debtor's Plan that sets forth the specific
15	treatment of the class.
16	There are no impaired classes of claims in Debtors plan.
17	Each holder of a claim or claims in impaired classes should refer to the Debtor's Plan,
18	and in particular, to the pertinent paragraph(s) of the Debtor's Plan set forth above, to deter-
19	mine the exact treatment of such claim under the Debtor's Plan.
20	X. LIQUIDATION SUMMARY
21	In the event that the Debtor's Plan, as it may be amended from time to time, is not ac-
22	cepted by the requisite vote, or is not confirmed by Order of this court, and no further amend-
23	ments are possible or are permitted by court order, one alternative normally available would be
24	to convert this matter to a liquidation proceeding under Chapter 7 of the Bankruptcy Code.
25	However, Debtor has already been liquidated in a Chapter 7 and received a bankruptcy dis-
26	charge in December 23, 2014. Additionally, Debtors plan is to pay his creditors 100% of their
27	claims. Thus there is no possibility of a liquidation or the need for a liquidation analysis.
28	18
	Disclosure Statement In re Daniel Major Edstrom Sr.; Case No. 2016-

Debtors plan to pay creditors 100% of their claims is certainly more than what creditors
would receive under a hypothetical liquidation as shown by a cursory review of Debtors exemptions. Even though the non-exempt property is very close to the amount of claims, and
possibly exceeds them, most of this non-exempt property can only be recovered through litigation (if at all) or through liquidation of Debtors half of DTC Systems, Inc. or through a partial
exemption of Debtors vehicles.

7 Nevertheless, Debtor includes the following hypothetical liquidation summary as if the
8 Debtor could be liquidated in a Chapter 7.

9 In the event Debtors bankruptcy is converted to a Chapter 7, a trustee would be ap-10 pointed with authority to liquidate all nonexempt property of this estate, to the extent of any 11 existing equity. The trustee's fee, the fees of any professional persons employed to assist the 12 trustee, and any costs of liquidation, including storage, maintenance, preparation, and sale 13 would be deducted from the proceeds of such liquidation. All creditors holding perfected, una-14 voidable liens would be entitled to receive either their collateral or the value of such property. 15 All priority claims would be entitled to receive payment from the remaining balance of any 16 proceeds, and if any monies remained, a distribution would then be made to unsecured credi-17 tors.

# SUMMARY OF LIQUIDATION ANALYSIS:

Section 1129(a)(7) of the Bankruptcy Code provides that each holder of an impaired
claim or interest (i) has accepted the Plan of Reorganization ("Plan"); or (ii) will receive or retain under the Plan, on account of such claim or interest, property of a value, as of the Effective
Date of the Plan, that is not less than the amount that such holder would so receive or retain if
the Debtor were liquidated under Chapter 7 of the Bankruptcy Code on such date.

This Liquidation Analysis indicates the values that may be obtained by Classes of Claims and Interests upon the disposition of assets pursuant to a Chapter 7 liquidation, as an alternative to continued operation of the business and payments under the Plan. Accordingly,

collateral (property of the estate) values discussed herein may be different from amounts re-2 ferred to in the Plan.

3 The Liquidation Analysis is based upon estimates and assumptions, which although ra-4 tionally based and considered reasonable by Debtor, are inherently subject to significant eco-5 nomic and competitive uncertainties and contingencies beyond the control of the Debtor.

6 Accordingly, there can be no assurances that the values reflected in this Liquidation 7 Analysis would be realized if the Debtor were, in fact, to undergo such a liquidation. In addi-8 tion to the assumptions that are set forth herein, there are significant areas of uncertainty that 9 exist with respect to the liquidation process and hence this Liquidation Analysis, with the as-10 sumption regarding the liquidation process as follows:

11 (1) The Liquidation Analysis assumes that the liquidation of the Debtor's estate would 12 commence on or about September 1, 2016 and be substantially completed within a 90-day pe-13 riod. Upon such a liquidation, the Debtor assumes, with a high degree certainty, that Debtor 14 business interest (50% ownership of DTC Systems) of all Debtor's current and ongoing areas 15 of business would want to immediately terminate their agreements and seek similar ser-16 vices/consulting elsewhere, and moreover, the Debtor would need to halt their business opera-17 tions in order to liquidate, which would require the Debtor wind-up his business affairs. Thus 18 the Debtor would halt his services, although certainly in a cooperative fashion with his current 19 principals, and do so in a relatively short amount of time, most likely within approximately 30 20 days.

21 (2) During the 90-day period, all management operations of DTC Systems would be 22 wound down or transferred to others. No substantive phase-out of employment positions would 23 be required, because all or most business operations are being performed by the Debtor (or 24 Debtors non-filing spouse, who owns the remaining 50% of the business). The Debtor would 25 remain involved and engaged as necessary to support the completion of an orderly liquidation.

26 (3) After wind-up of operations, the assets of the estate would be liquidated in an order-27 ly fashion. An orderly liquidation of all assets would include activities such as the sale of vari-

28

1

1 || ous assets to a purchaser of such assets, and the completion of the claims reconciliation pro2 || cess.

(4) The wind down costs during the 90-day period have been estimated by the Debtor,
with the only two substantial costs foreseen to be (i) the cost of the sale of Debtors 50% interest in DTC Systems in which equity exists to be realized, and (ii) the Chapter 7 Trustee fee.
While each of these are set and unavoidable, each may be estimated to a relatively high degree
of accuracy and neither is in any direct way dependent upon time, and thus no substantial deviation from the following estimate that would flow consequentially from a deviation from the
90-days time requirement estimate is foreseeable.

(5) In any liquidation there is a general risk of unanticipated events that could have a
significant impact on the projected cash receipts and disbursements. These events include unforeseen near-term changes in general economic conditions and changes in the market value of
the Debtor's assets.

(6) Although entirely unanticipated by the Debtor as being pertinent, the issues potential recoveries from avoidance actions and final bankruptcy claims reconciliation have not been
addressed in the Liquidation Analysis.

#### RECOVERIES UNDER THE PLAN VERSUS RECOVERIES IN A LIQUIDATION:

The following table sets forth an estimated distribution of \$ 6,800.55 in net proceeds from the Debtor in a hypothetical Chapter 7 liquidation of the Debtors, commencing September 1, 2016. The estimated value of the assets were obtained as described in the Notes that follow the table. Values may vary significantly due to a variety of factors, with the identifiable significant risk here including increased inventory of aged accounts receivable, due to the recent increase in financially distressed companies and individuals, and the generally poor economic conditions at present.

1 Systems of at least \$8,579.60 in gross business revenue (before taxes) per month to fund Debt-2 ors business expenses, Debtors income and draws, and thus plan payments. Debtor will also 3 use income from his non-filing spouse, which will add an additional \$175.00 per month to fund 4 business expenses, income and draws, and plan payments. Total gross revenue is estimated at 5 \$8,759.27 per month (including \$4.67 per month interest income). Debtor expects increased 6 income based on Debtors litigation support, legal project management, and Securitization 7 Analysis business (part of DTC Systems, Inc). For the most reasonably-based estimate availa-8 ble for this feasibility analysis, Debtor utilizes the January 2016 through June 2016 actual W-2 9 revenues received (all pre-petition), which are the months directly prior to the filing of Debtors 10 petition, Debtors Plan of Reorganization and Debtors Disclosure Statement. in which Debtor 11 focused his amount of time and effort on his employment, at a rate equivalent to all months 12 going forward.

13 No assumptions are made that lack a material basis and foundation that Debtor has in 14 fact actualized during the pre-petition period and most recently actualized on a monthly basis, 15 and consequently the Plan is based upon a very cautious and conservative forward projection 16 based on Debtor's actual recent pre-petition performance within the current challenging and 17 difficult economic and market conditions. As such the Debtor considers the Plan certainly fea-18 sible, because the Debtor will be able to fully fund and perform the Plan from his ongoing op-19 erations, even if the current stressed environment and Debtor's now-established current actual 20 performance and anticipated contractual performance therein continue forward, without any 21 improvement in the duration of the Plan.

To address feasibility, Debtor utilizes a summary tables of required plan payments plus all other/living expenses in comparison with total revenues based upon his six most recent months, namely January 1, 2016 through June 30 2016. This approach demonstrates the plan to be feasible, as follows:

26	SURPLUS (Average yearly	revenues less average	yearly expen	ses)	\$ 4,470.03				
27									
28	<sup>3</sup> Debtor does not include interest income, which historically (pre-petition) is approximately \$4.67 per month 26 Disclosure Statement In re Daniel Major Edstrom Sr.; Case No. 2016-								

The projected revenue going forward is based upon six months' revenue received for
established stability, which will generate a consistent revenue that totals \$8,754.60 per month
in gross business revenue. Debtor's Information Technology services with SharePoint are currently in high demand as is Debtors services providing litigation support, project management
and Reverse Engineering and Failure Analysis provided to lawyers. The business revenue /
employment income used for Debtors projections is gross (before taxes).

Projected costs going forward are based upon current total costs of Debtor and his business operations. Personal expenses are projected in this manner. Projected costs are the actual
monthly expenses, where they are fixed and known, and where variable estimated as the average of known January 2016 through June 2016 monthly actual figures.

11 In summary, based on his most recent actual performance and history, the Debtor earns 12 enough revenue, consistently on a monthly basis, which translates to enough after-tax net prof-13 it, that his total Plan debt repayment commitment / monthly expense commitment of \$8,382.10 14 (\$ 100,585.17 per year) is to be approximately 95.745% of Debtors before tax gross revenue 15 [not including one-time administrative costs that may arise]. The 4.255% cushion (equating to 16 approximately \$ 372.50 per month or \$ 4,470.03 per year) allows for the inevitable month-to-17 month variance and unanticipated one-time expenses that cannot be predicted. Most important-18 ly, because the revenues and cash flows themselves are based upon a historical and/or actual 19 present material basis, none of the revenue assumptions are speculative, hypothetical, or oth-20 erwise contingent on unsubstantiated assumptions, and thus judged by present-day actual-fact 21 material conditions, the Plan is feasible.

Further this 95.745% percentage is projected to and with very high likelihood will decrease somewhat in the very near future upon the closure of the case and completion of U.S. Trustee fees. In the event Debtor closes the bankruptcy case early while continuing the plan outside of the bankruptcy court, Debtor will not be required to re-open the bankruptcy case to receive a discharge as Debtor is not entitled to a discharge (Debtor already received his discharge from a previous bankruptcy in December 2014).

28

Additionally, the priority tax claims of the IRS end in the 3<sup>rd</sup> year after plan confirmation, leaving additional surplus for years 4 and 5 of the plan.

Finally, in addition to Debtors plan as described, Debtor will seek post-petition financing of his property (real and/or personal) in order to consolidate the unsecured claims in this
case and pay them off early (Classes 2 through 9 and the priority tax claim of the IRS). Debtor
will additionally seek to sell property (real and/or personal) to payoff the unsecured claims in
this case early (Classes 2 through 9 and the priority tax claim of the IRS).

8 Even though the pro forma projections are formulated very cautiously and conserva-9 tively, without any assumptions of future results not historically realized in the recent prepeti-10 tion time-period and without any trend-extrapolation of recent (prepetition) actual performance 11 and results, the future performance of the Debtor may either over perform or under perform 12 these projections. The Debtor's performance will depend upon his continued revenue from his 13 business activities and/or any employment at the same rate as at present (or as most recently 14 prior to filing the petition). Creditors should review the attached projections (Exhibit 3) care-15 fully to reach their own decision regarding whether or not to vote for the Debtor's Plan.

#### XII. POST-CONFIRMATION MANAGEMENT

Debtor will continue to self-manage all of his business activities directly. As such no
disclosure regarding compensation to any corporate "insider" pursuant to Section 1129(a) of
the Code is required.
