# SCHEDULE 6

# EXISTING FINANCIAL INDEBTEDNESS: OBLIGORS

# PART C

# COMPROMISED DEBT

# (xv) INTRAGROUP DEBT

The restructuring carried out in respect of the intragroup loans consists on the transfer between companies of the Group of the creditor and/or debtor position of certain intragroup loans in which either the debtor or the creditor is a non Spanish company.

The consideration of all the transfers of the creditor and/or debtor position carried out will be another intragroup loan between transferor and transferee for the face value of the transferred loan, so the effect of the transfer will be neutral: any company acquiring a loan will symmetrically assume a debt for the same amount with the transferor. All the intragroup loans arising as a consequence of such restructuring that are considered Intragruup Affected Debt (because the debtor position is held after the transfers by an Obligor), will be subject so the Standard Restructuring Terms. Some intra-group loans with non Spanish borrowers, in which the creditor is the shareholder of the borrower would be capitalised.

As a consequence of the restructuring, certain intragroup loans will be re-allocated at the level of the direct shareholder of the intragroup debtor. This permits that, when possible and recommendable, the intragroup loans with non Spanish companies are cancelled by means of a share for equity deal between the parent company and its fully owned non Spanish subsidiary, which effect is equivalent to the application of the Standard Restructuring Terms (i.e. the outcome for the intragroup debtor and the intragroup creditor is equivalent to the application of the Standard Restructuring Terms). It seems also natural, from an economic perspective, that a rationalisation of the Affected Intragroup Debt leads to intragroup debt held between companies that are ultimately 100% controlled by the same parent company. In addition, certain loans with non Spanish companies will be assigned to companies that have also a debt vis-a-vis the relevant borrower of the transferred loan, so that the execution of the Standard Restructuring Terms results in a mutual waiver of their respective loans.

Note: For the avoidance of doubt, those Affected Debt Instruments listed on these Schedules held by any Creditor vis-à-vis a debtor company that is not en Obligor to the MRA (due to such debtor company not appearing as a party thereto) shall only be deemed Affected Instruments as regards the recourse held by such Creditor vis-à-vis the relevant Obligor guaranteeing the debt thereunder.

(*) Non-Spanish Debt to be Restructured guaranteed by Spanish Obligors. Non-Spanish Debt to be Restructured shall be restructured as set out in Clause 3.1.2. Guarantees granted by Spanish Obligors in respect of Non-Spanish Debt to be Restructured constitutes Affected Debt and in particular, Compromised Debt, pursuant to the terms of this Agreement and will be restructured contractually via this Agreement or pursuant to the Homologation.

## PART 1
## RESTRUCTURING TERMS AND MECHANICS

### (A) Categories of Existing Financial Indebtedness

**Non-Compromised Debt:**

(a) September 2015 Bank Facility

(b) December 2015 Bank Facility

(c) TCI Margin Loan, except to the extent previously refinanced by a New Interim Facility

(d) March 2016 Interim Facility

(e) Any further interim financing(s) entered into on or after 4 August 2016 and prior to the Restructuring Steps Commencement Date in accordance with the Restructuring Agreement, regardless of its guarantee and security package (each a "**New Interim Facility**")

**Existing Loans/Notes:**

(a) Existing NY Law Notes

(b) Existing English Law Notes

(c) September 2014 Bank Facility

(d) The (i) other Compromised Debt and (ii) Non-Spanish Debt to be Restructured of Consenting Existing Creditors, excluding the Existing Bonding Facilities

**Existing Bonding Facilities (*avales*):**

To be listed in the schedules to the Restructuring Agreement and comprising:

(a) Called Existing Bonding Facilities (being existing bonding called prior to the Signing Date); and

(b) Uncalled Existing Bonding Facilities (being existing bonding uncalled at the Signing Date),

provided that with respect to the Initial Bonding Providers, if any bonding issued by an Initial Bonding Provider prior to the date on which that Initial Bonding Provider signs the New Bonding Commitment Letter is called prior to the Signing Date, such Initial Bonding Provider's existing bonding which is called after the date on which it signs the New Bonding Commitment Letter but prior to the Signing Date will be treated as Uncalled Existing Bonding Facilities.

Definitions of each sub-category of Affected Debt and Non-Spanish Debt to be Restructured and a list of Non-Affected Debt are to be set out in the Restructuring Agreement. For the avoidance of doubt, the treatment of the Administration Costs (as defined in the Restructuring

Agreement) will be as set forth in the Restructuring Agreement.

The treatment of Affected Debt, including Non-Spanish Debt to be Restructured of Consenting Existing Creditors is set out in section (C).

(B) **Post-Restructuring Capital Structure**

**New Money Tranche 1:** EUR945.1m, comprising (i) Tranche 1A, being EUR839.1m which includes the refinanced TCI Margin Loan (except to the extent previously refinanced by an New Interim Facility) and refinanced or exchanged March 2016 Interim Facility and (subject to the New Interim Facility section below) any New Interim Facility and related fees, costs and expenses, to be documented in the form of New Money Loans and New Money Notes; and (ii) Tranche 1B, being EUR 106m of principal amount comprising part of the refinanced December 2015 Bank Facility, to be documented in the form of New Money Loans. Any advance under the Non-Compromised Debt on or after the date of the New Money Financing Commitment Letter but prior to the Restructuring Steps Commencement Date will be refinanced as part of New Money Tranche 1A (subject to the New Interim Facility section below).

**New Money Tranche 2:** EUR194.5m, comprising (a) the refinanced (i) principal amount of the September 2015 Bank Facility and (ii) the fees, costs and amounts other than principal under the December 2015 Bank Facility and the September 2015 Bank Facility; and (b) OID/Upfront/Structuring fees, PIK interest and back-end fees on New Money Tranche 1B and underwriting fees on New Money Tranche 2, to be documented in the form of New Money Loans and New Money Notes.

**New Money Tranche 3:** A EUR30m term facility to provide guaranteed funding for an A3T funding shortfall under certain circumstances, to be documented in the same document as New Money Tranche 1.

**New Bonding Facilities:** New Bonding Facilities comprising:

(a) New Syndicated Bonding Tranche: a new tranche syndicated between the Initial Bonding Providers of at least EUR209m for the purpose of issuing new bonding (but not, for the avoidance of doubt, any extension, amendment or replacement of existing bonding for the same project and purpose).

(b) Roll Over Bonding Tranche: a roll over tranche syndicated between the Initial Bonding Providers of EUR98m for the purpose of issuing new bonding (but not, for the avoidance of doubt, any extension, amendment or replacement of existing bonding for the

same project and purpose). An Initial Bonding Provider's commitment under the Roll Over Tranche will become available as and when its Uncalled Existing Bonding Facilities are released.

(c) New Bilateral Bonding Tranche: a new bilateral bonding tranche provided on a bilateral basis by existing creditors in respect of Existing Bonding Facilities which elect to commit on the date on which they accede to the Restructuring Agreement to provide bilateral commitments for the purpose of issuing new bonding (but not, for the avoidance of doubt, any extension, amendment or replacement of existing bonding for the same project and purpose).

Any new bond (*aval*) issued by an Initial Bonding Provider after the date on which the New Bonding Commitment Letter is signed by the Initial Bonding Providers but prior to the Restructuring Completion Date will be deemed to be part of the New Syndicated Bonding Tranche or the Roll Over Bonding Tranche (at the option of the Initial Bonding Provider).

**Consenting Existing Bonding Facilities:** Uncalled Existing Bonding Facilities provided by Consenting Existing Creditors.

**Consenting Old Money:** Up to EUR 2,700m including accrued but unpaid interest until 30 September 2016 divided as follows:

(a) a non-contingent tranche equal to an initial 70% reduction in the principal and accrued but unpaid interest amount as at 30 September 2016 of such Existing Loans/Notes and Called Existing Bonding Facilities of Consenting Existing Creditors, calculated at the Restructuring Steps Commencement Date to be treated as Senior Old Money Loans/Notes or Junior Old Money Loans/Notes as provided in Section (C) below and subject to the additional subsequent reduction set out below; and

(b) a contingent tranche in order to fund the crystallisation of contingent claims of Consenting Existing Creditors deriving from:

(i) Uncalled Existing Bonding Facilities which are subsequently called; and/or

(ii) the enforcement of guarantees which are restructured through the Alternative Restructuring Terms,

without double counting, to be treated as Senior Old Money Loans/Notes or Junior Old Money Loans/Notes as provided in Section (C) below (and the Parent will be authorised to crystallise such guarantee claims and effect the reduction on behalf of the relevant creditors in accordance with the Restructuring Agreement).

Therefore, both the contingent tranche and the non-contingent tranche will be divided between Junior Old Money Loans/Notes and Senior Old Money Loans/Notes following the mechanics set out in Section (C) below.

No ordinary interest of Existing Loans/Notes and Called Existing Bonding Facilities of Consenting Existing Creditors will accrue after 30 September 2016 unless the Restructuring Completion Date has not occurred by the the date specified in paragraph 9.1(b) of the New Money Financing Commitment Letter.

Any unpaid default interest accrued under the Existing Loans/Notes and Called Existing Bonding Facilities of Consenting Existing Creditors shall not be payable under the terms of the Restructuring Agreement.

If the aggregate amount of the Consenting Old Money would exceed EUR 2,700m at any time after the Signing Date (because contingent claims from Consenting Existing Creditors which crystallise after the Signing Date exceed those expected in the Business Plan), the Junior Old Money Loans/Notes (whether under the contingent or the non-contingent tranche) will be subject to an additional reduction in accordance with paragraph (a) above in the amount necessary to ensure that the aggregate amount of Consenting Old Money does not at any time exceed EUR 2,700m provided that the total reduction applied to Junior Old Money Loans/Notes does not exceed 80% of their original nominal value and any subsequent contingent claims which are crystallised will be subject to the same reduction as is then applicable to the Junior Old Money Loans/Notes.

No additional reduction will apply to the Senior Old Money Loans/Notes.

**New Interim Facility:** To be repaid or (in the case of the first New Interim Facility at the option of each lender under such New Interim Facility) exchanged as part of New Money Tranche 1A other than in respect of any fees set out in such New Interim Facility documents, payment of which is expressly permitted under such New Money Interim Facility to be postponed at the option of the borrower under such facility. Any such obligations under the New Interim Facility not refinanced or

exchanged as part of New Money Tranche 1A will, following the Restructuring Completion Date, be unsecured and subordinated to New Money Tranche 3, New Money Tranche 2, New Bonding Facilities and New Money Tranche 1 but rank ahead of the Senior Old Money Loans/Notes and Junior Old Money Loans/Notes. The aggregate amount of any such obligations shall not exceed EUR11m. Provided always that the New Interim Facility must be permitted under the finance documents for the September 2015 Bank Facility, December 2015 Bank Facility and March 2016 Interim Facility.

**Non-Consenting Existing Debt:** Existing Loans/Notes and Existing Bonding Facilities of (i) Non-Consenting Creditors and (ii) creditors that enter into the Restructuring Agreement and do not elect the Alternative Restructuring Terms.

**Equity:** Class A and Class B shares in the Parent in proportion to the number of shares of each class existing at the relevant time, listed on the Madrid and Barcelona Stock Exchanges (and, if so determined in accordance with Part 5, the NASDAQ stock exchange or another regulated exchange to be agreed) and owned as follows at the Restructuring Completion Date:

(a) 30% owned by the creditors in respect of New Money Tranche 1 *pro rata* to their commitments under New Money Tranche 1 as at a reference date to be determined in accordance with the Restructuring Agreement;

(b) 15% owned by the creditors in respect of New Money Tranche 2 *pro rata* to their commitments under New Money Tranche 2 as at a reference date to be determined in accordance with the Restructuring Agreement;

(c) 5% owned by the creditors in respect of New Money Tranche 3 *pro rata* to their commitments under New Money Tranche 3 as at a reference date to be determined in accordance with the Restructuring Agreement;

(d) 40% owned by the creditors in respect of (i) 70% of the Existing Loans/Notes and Called Existing Bonding Facilities of Consenting Existing Creditors (the residual 30% of which constitute Consenting Old Money), and (ii) 70% of the amount of the guarantees which are restructured through the Alternative Restructuring Terms and voluntarily crystallised by the relevant creditor (such decision to be made on the date on which the relevant creditor signs or accedes to the Restructuring Agreement and to take effect on the

Restructuring Completion Date) *pro rata* to their claims thereunder.

Consenting Existing Creditors in respect of Existing Loans/Notes and Called Existing Bonding Facilities may choose to take up (i) no equity; (ii) equity in a maximum amount of 4.9% or (iii) their pro rata share of the remaining equity to be allocated to the remaining Consenting Existing Creditors in respect of Existing Loans/Notes and Called Existing Bonding Facilities taking into account paragraphs (i) and (ii). Consenting Existing Creditors opting for paragraph (i) or (ii) above, will replace equitisation of all or part of their Existing Loans/Notes and Called Existing Bonding Facilities with an equivalent reduction in such claims.

The above allocation of equity will not prevent any Consenting Existing Creditor from (A) transferring all or part of their Consenting Old Money in accordance with the Restructuring Agreement; or (B) transferring its right to receive shares of the Parent.

(e) 5% owned by the providers of New Syndicated Bonding Tranche and the New Bilateral Bonding Tranche at the last day of the period for acceding to the Restructuring Agreement pro rata to their commitments under the New Syndicated Bonding Tranche and the New Bilateral Bonding Tranche as at a reference date to be determined in accordance with the Restructuring Agreement; and

(f) 5% owned by the existing shareholders pro rata to their existing shareholdings immediately prior to the reference date to be determined in accordance with the Restructuring Agreement with warrants in respect of an additional 5% of the Parent's share capital immediately after the Restructuring Completion Date, issued in favour of the existing shareholders pro rata to their existing shareholdings at as at a reference date to be determined in accordance with the Restructuring Agreement. Such warrants will be issued for no consideration and will be exercisable at nominal value (i.e. face value of the shares to be subscribed) within 96 months of the Restructuring Completion Date following full repayment of all outstanding amounts under the Debt Instruments.

The precise equity capitalisation mechanics are to be determined in the Restructuring Agreement and may differ from those set out in the term sheet provided that they have the

same commercial effect.

(C) **Treatment of Affected Debt, including Non-Spanish Debt to be Restructured of Consenting Existing Creditors in Restructuring**

**Non-Compromised Debt Participation:**

(a) The TCI Margin Loan will be refinanced from New Money Tranche 1A (except to the extent previously refinanced by a New Interim Facility).

(b) The March 2016 Interim Facility and (subject to the New Interim Facility in Section (B) of Part 1) any New Interim Facility will be refinanced from, or exchanged for a participation in, New Money Tranche 1A.

(c) The original principal amount of the December 2015 Bank Facility will be refinanced from New Money Tranche 1B.

(d) The principal amount of the September 2015 Bank Facility and the fees, costs and amounts other than principal under the December 2015 Bank Facility and the September 2015 Bank Facility will be refinanced from New Money Tranche 2.

**Existing Bonding Facilities (other than Non-Consenting Existing Debt):**

(a) The Called Existing Bonding Facilities of Consenting Existing Creditors will be subject to the Consenting Old Money Reduction and will, subject to the "Consenting Old Money Elevation" section below, be treated as Junior Old Money Loans/Notes under the non-contingent tranche of the Consenting Old Money.

(b) As regards the Uncalled Existing Bonding Facilities, a Consenting Existing Creditor which agrees to participate in the New Bonding Facilities on the date on which it signs or accedes to the Restructuring Agreement will be entitled to have EUR1.0 of its Uncalled Existing Bonding Facilities, if and when called, exempted from any reduction and the residual par value claim will be treated as Senior Old Money Loans/Notes under the contingent tranche of the Consenting Old Money (when called) per EUR 1.0 contribution in the New Bonding Facilities. Subject to Section (B) of Part 2, the remaining Uncalled Existing Bonding Facilities will, if and when called, be subject to the Consenting Old Money Reduction and the residual claim will be treated as Junior Old Money Loans/Notes under the contingent tranche of the Consenting Old Money, subject to the elevation set out in the "Consenting Old Money Elevation" section below.

Uncalled Existing Bonding Facilities which are uncalled as at their maturity date will expire and there will be no obligation on any provider of any such bonding facility to extend or replace any such bonding which has expired uncalled.

(c) If a Consenting Existing Creditor does not agree to participate in the New Bonding Facilities on the date on which it signs or accedes to the Restructuring Agreement then, subject to Section (B) of Part 2, all of that creditor's Uncalled Existing Bonding Facilities, if and when called, will be subject to the Consenting Old Money Reduction and the residual claim will be treated as Junior Old Money Loans/Notes under the contingent tranche of the Consenting Old Money.

(d) Accrued but unpaid fees of Uncalled Existing Bonding Facilities (as long as they remained uncalled as at the Restructuring Completion Date) shall not be subject to any reduction nor treated as Affected Debt and therefore, the relevant company of the Group obliged to pay the said fees must pay them on the Restructuring Completion Date.

**Existing Bonding Facilities unlawfully enforced according to a judicial/arbitral ruling:**

If a court or arbitral tribunal provides a final ruling that a call (whether before or after the date on which it signs or accedes to the Restructuring Agreement Date) of an Existing Bonding Facility provided by a Consenting Existing Creditor (or a group of Consenting Existing Creditors) was unlawful and orders the reimbursement of all or part of the amount paid by such Consenting Existing Creditor(s) under that Existing Bonding Facility, the relevant Consenting Existing Creditor(s) will be entitled to receive the full amount of the reimbursement pro rata to the amount paid out (the "**Reimbursement Amount**"). If the Reimbursement Amount is received prior to a final ruling, the relevant Consenting Existing Creditor receiving such amount must undertake to pay back such amount if the ruling is overturned.

If a Consenting Existing Creditor receives a Reimbursement Amount after the date on which it signs or accedes to the Restructuring Agreement, the Senior Old Money Loans/Notes or Junior Old Money Loans/Notes (as applicable) relating to the relevant Existing Bonding Facility will be automatically discharged and that Consenting Existing Creditor shall, if it holds any equity, surrender the equity received in respect of such Reimbursement Amount or, if it has transferred the equity, pay an equivalent amount of cash (based on the arm's length price at which it sold the equity) to the Parent. If the ruling is overturned, then the Consenting Existing Creditor will be entitled (a) to the same portion of Senior Old Money

Loans/Notes or Junior Old Money Loans/Notes (as applicable) discharged upon receipt of the Reimbursement Amount and (b) to receive an equivalent amount of cash in respect of the equity surrendered (based on the market price at the time of the surrender) or the cash paid in respect of equity it had transferred.

**Existing Loans/Notes (other than Non-Consenting Existing Debt):**

Each Consenting Existing Creditor's Existing Loans/Notes will be subject to the Consenting Old Money Reduction and, subject to the "Consenting Old Money Elevation" section below, will be treated as Junior Old Money Loans/Notes under the non-contingent tranche of the Consenting Old Money.

**Consenting Old Money Elevation:**

If a Consenting Existing Creditor agrees, on or prior to the date on which it signs or accedes to the Restructuring Agreement, to participate in New Money Tranche 1, New Money Tranche 2, New Money Tranche 3, the New Syndicated Bonding Tranche or the New Bilateral Bonding Tranche, it will be entitled to an elevation into the Senior Old Money Loans/Notes (other than the Uncalled Existing Bonding Facilities, even if subsequently called) of EUR1.0 (prior to the reduction contemplated in the "Consenting Old Money Reduction" section above which is to be effected to the mechanics described in the "Equity" section above) of Consenting Old Money per EUR 0.16 contribution in New Money Tranche 1, New Money Tranche 2, New Money Tranche 3, the New Syndicated Bonding Tranche and the New Bilateral Bonding Tranche.

If a Consenting Existing Creditor agrees to provide its Pro Rata Amount (as defined in the New Money Financing Commitment Letter) of New Money Tranche 1 or New Money Tranche 2 and its participation is scaled back, it will be treated for this purpose as if it had provided its Pro Rata Amount (as defined in the New Money Financing Commitment Letter).[1]

For the avoidance of doubt, the rolling over of amounts owing under the Non-Compromised Debt into the New Money Financing will constitute a participation in the New Money Financing.

---

[1] For the purposes of calculating the Pro Rata Amount:

(i) the Pro Rata Amount will be equal to 15.9 per cent. of the Existing Loans/Notes of the Anchor Funder or Potential Additional Funder (as defined in the New Money Financing Commitment Letter) as at the Signing Date; and

(ii) the commitments under the New Bonding Facilities shall be capped at EUR307,000,000.

For the avoidance of doubt, any Consenting Existing Creditor committing its Pro Rata Amount will benefit from full elevation in respect of its Existing Loans/Notes as at the Signing Date.

Elevation of Consenting Old Money will operate with reference to affiliates and related funds rather than on an entity by entity basis provided that, in the case of any Existing Loans/Notes or Existing Bonding Facilities, totally or partially, guaranteed by ECAs/sureties as set out in the Restructuring Agreement, the guaranteed portion of the Existing Loans/Notes or Existing Bonding Facilities will be treated for these purposes as if they are held by the relevant ECA/surety rather than the lender of record. For the avoidance of doubt, the portion of the Existing Loans/Notes or Existing Bonding Facilities not guaranteed by ECAs/sureties would be deemed to be held by the relevant Consenting Existing Creditor of record. There will be no ability for a Consenting Existing Creditor to (a) front for any person other than its affiliates and related funds to enable the Consenting Existing Creditor to benefit from elevation or (b) nominate any person other than its affiliates and related funds to receive the benefit of its elevation rights.

In respect of those ECAs that are not allowed pursuant to their regulations to commit to provide new bonding/guarantees until the specific underlying project has been approved, the Restructuring Agreement will allow them to benefit from the elevation right set out above provided that within the 18 months following the Restructuring Completion Date, they provide such additional bonding/guarantee facilities in respect of projects complying with the requirements established in their regulations. Therefore, the amount guaranteed by the relevant ECA will benefit from the elevation right in accordance with the ratio set out in the first paragraph of this section as from the date of issuance of such bonding/guarantees. However, if for whatever reason new bonds/guarantees have not been provided under any portion of the relevant additional bonding/guarantee facility (even if they have been committed) within 18 months following the Restructuring Completion Date, the relevant ECA will not benefit from the above elevation right in respect of that portion of the relevant additional bonding/guarantee facility.

**Senior Tranche 3 Entitlement** The New Money Tranche 3 providers as at the last day of the period for accession to the Restructuring Agreement will be entitled to an additional EUR1 of Senior Old Money Loans/Notes for each EUR1 of New Money Tranche 3 commitment.

**New Money Financing:** Each existing creditor in respect of Existing Loans/Notes will, subject to U.S., EU, Spanish and any other applicable securities laws and the Transfers and Assignments section in Part 4, be offered the opportunity to participate in the New Money Financing on the terms set out in the New Money

Financing Commitment Letter. The New Money Financing Commitment Letter will provide that each qualifying existing creditor will be entitled to participate *pro rata* to their holdings of Existing Loans/Notes in New Money Tranche 1 and/or New Money Tranche 2 (subject to any pro rata scale back required to reflect the fact that entities who have agreed to underwrite any portion of New Money Tranche 1 will be entitled to an allocation of at least 50% of the amount of New Money Tranche 1 underwritten in addition to their pro rata entitlement). New Money Tranche 3 will be fully underwritten with at least 50% offered to qualifying existing creditors.

Each existing creditor in respect of Existing Bonding Facilities will be offered the opportunity by the Parent to participate in the New Bilateral Bonding Tranche by agreeing to do so on the date on which it signs or accedes to the Restructuring Agreement.

**Non-Consenting Existing Debt:**

Each Non-Consenting Creditor's Existing Loans/Notes and Existing Bonding Facilities (if and/or when called) will be subject to the Standard Restructuring Terms or, to the extent provided in the Restructuring Agreement, the Alternative Restructuring Terms. The terms in Part 2 to Part 5 of this Term Sheet do not apply to the Non-Consenting Existing Debt (save for section (F) of Part 2 below) subject to the Standard Restructuring Terms.

**Unsecured Claims resulting from Non-Affected Debt**

If an Existing Creditor under Non-Affected Debt:

(a) does not sign or accede to the Restructuring Agreement; and

(b) the proceeds resulting from the enforcement of its security are not enough to repay in full the relevant Non-Affected Debt (the "**Unsecured Claim**"),

provided that such Existing Creditors have recourse against any of the Obligors for such secured claims, such Unsecured Claim shall automatically become Affected Debt and be subject to the Standard Restructuring Terms.

If an Existing Creditor under Non-Affected Debt signs or accedes to the Restructuring Agreement and:

(a) determines at such time that a portion of its Non-Affected Debt is unsecured (the "**Determined Unsecured Claim**"):

(i) such Existing Creditor waives its security only in respect of such Determined Unsecured

Claim; and

(ii) such Determined Unsecured Claim shall automatically become Affected Debt and be subject to the Alternative Restructuring Terms; or

(b) does not determine at such time that a portion of its Non-Affected Debt is unsecured and the proceeds resulting from the enforcement of its security are not enough to repay in full the relevant Non-Affected Debt, such remaining amounts shall automatically:

(i) become Affected Debt; and

(ii) be subject to the Alternatives Restructuring Terms but such Existing Creditor shall not be entitled to any equity.

(D) **Overview of Restructuring Process**

Under the terms of the Existing Financial Indebtedness, the Restructuring requires in most (but not all) cases the consent of all of the lenders under each relevant instrument.

If unanimous consent of lenders of Existing Financial Indebtedness is not obtained, it is intended that the Restructuring will be implemented by any other means that may be effective to consummate the Restructuring, including, without limitation, by way of the following:

(a) with respect to the Parent and the 5bis Companies, a *homologación* procedure pursuant to Additional Provision Four of the Spanish Insolvency Act. The Restructuring Agreement will provide each creditor with the option (at its sole discretion) to agree to the terms applicable to Existing Financial Indebtedness other than Non-Consenting Existing Debt as further described in this Term Sheet. If a financial creditor does not enter into the Restructuring Agreement or enters into the Restructuring Agreement but fails to elect the terms applicable to Existing Financial Indebtedness other than Non-Consenting Existing Debt as described in this Term Sheet, the *homologación* will extend the Standard Restructuring Terms to such financial creditor and therefore its debt will be subject to the Standard Restructuring Terms, being the percentage reduction set out in the Restructuring Agreement and a 10 year deferral of payment with a 0% coupon;

(b) with respect to U.S. existing guarantors and certain other Group companies, proceedings pursuant to Chapter 11 of the United States Bankruptcy Code;

(c) with respect to the Mexican and Brazilian existing guarantors and certain other Group companies, local insolvency/cram-down proceedings to be agreed;

(d) with respect to Abengoa Concessions Investments Limited, an English law governed Company Voluntary Arrangement pursuant to Part I of the Insolvency Act 1986; and

(e) local recognition procedures in relevant jurisdictions, including pursuant to chapter 15 of the United States Bankruptcy Code, the EU Regulation on Insolvency Proceedings

(1346/2000), the Cross Border Insolvency Regulations and analogous proceedings elsewhere as required.

(E) **Initial Conditions Precedent**

Any agreement to effect the Restructuring will be subject to the terms of an agreed implementation plan and customary conditions precedent including, without limitation, the matters set out in Schedule 1 (*Initial Conditions Precedent*).

## PART 2
## POST-RESTRUCTURING COMMERCIAL TERMS: DEBT

(A) **New Money Financing**

| | |
|---|---|
| **Amount:** | EUR945.1m, comprising (i) Tranche 1A, being EUR839.1m, which includes the refinanced TCI Margin Loan (except to the extent previously refinanced by an New Interim Facility) and refinanced or exchanged Interim March 2016 Facility and (subject to the New Interim Facility in Section (B) of Part 1) any New Interim Facility and related fees, costs and expenses, to be documented in the form of New Money Loans and New Money Notes; and (ii) Tranche 1B, being EUR 106m comprising the principal amount refinanced December 2015 Bank Facility, to be documented in the form of New Money Loans.<br><br>Tranche 2: EUR194.5m, comprising (a) the refinanced (i) principal amount of the September 2015 Bank Facility and (ii) fees, costs and amounts other than principal under the December 2015 Bank Facility and the September 2015 Bank Facility and (b) OID/Upfront/Structuring fees, PIK interest and back-end fees on New Money Tranche 1B and underwriting fees on New Money Tranche 2, to be documented in the form of New Money Loans and New Money Notes.<br><br>Tranche 3: EUR30m. |
| **Form:** | Tranche 1A: Loan and Note.<br><br>Tranche 1B: Loan.<br><br>Tranche 2: Loan and Note.<br><br>Tranche 3: Loan<br><br>Tranche 1A, Tranche 1B and Tranche 3 will be documented in a separate Debt Instrument to Tranche 2 or any other indebtedness. |
| **Facility/Issuance Type:** | Tranche 1: Term.<br><br>Tranche 2: Term.<br><br>Tranche 3: Term with multiple drawdowns. |
| **Purposes:** | Refinancing or replacing the Non-Compromised Debt, funding certain projects, servicing interest and fee payments on the Debt Instruments and general corporate purposes (including financial and legal advisors' fees in respect of the Restructuring), in each case in accordance with the agreed Business Plan and detailed "sources and uses", provided that |

EUR220m of Tranche 1 will be funded into an escrow account to be released only upon (a) confirmation by the NM1 Monitor that certain milestones to be agreed have been met; and (b) unless otherwise agreed by the Majority Qualifying NM1 Creditors, no default outstanding at the time of any such release, for the purpose of finalising the construction of A3T. Any amounts remaining in the escrow account on the completion of construction of A3T will be released from escrow and will be available for use in the same manner as the other Tranche 1 proceeds (i.e. for general corporate purposes in accordance with the Business Plan).

Tranche 3 will comprise a term facility granted in favour of Orphan Holdco to be available for A3T only (and not for general corporate purposes) to fund any A3T costs including, without limitation, increased construction costs, increased operating expenditure and increased commercialisation costs, provided that the NM1 Monitor or A3T reasonably expects that the proceeds will be required for the intended purpose and notifies so in writing to the New Money Tranche 3 provider. Tranche 3 providers will be required to fund utilisations in all circumstances where the utilisation conditions (as set out above) are met (including where the New Money Tranche 2, New Bonding Facilities and/or the Consenting Old Money has been accelerated), unless the New Money Tranche 1 has been accelerated.

**Currency:** EUR (provided that a portion (to be agreed) of Tranche 1A will be funded in USD).

**Borrower/Issuer:** AbeNewco1 (or, in the case of (a) New Money Tranche 1, Orphan Holdco (which will become the direct or indirect holding company of A3T and the ABY shares following the title transfer collateral arrangements) and on-lent by Orphan Holdco to ACIL Luxco2 and A3TLuxco2) and (b) New Money Tranche 3, Orphan Holdco and on-lent by Orphan Holdco to A3T.

Terms of proceeds loans from Orphan Holdco to each of ACIL Luxco2, A3TLuxco2 and A3T to be agreed.

**Guarantors:** In the case of New Money Tranche 1 and New Money Tranche 3 only, all members of the NM1 Group (other than Orphan Holdco and A3T HoldCo España S.A.).

In the case of each Tranche, all members of the Group (including, without limitation, the Parent, but excluding AbeNewco2 and AbeNewco1) save as may be agreed taking into account customary tax, legal and agreed cost/benefit exceptions and local (project finance) instrument limitations, which will guarantee the New Money Financing in the order of

priority set out in Part 4.

A3T HoldCo España S.A., AbeNewco1 and AbeNewco2 will not grant any guarantees.

For the avoidance of doubt, the members of the NM1 Group which grant guarantees will only guarantee New Money Tranche 1 and New Money Tranche 3 and not any other Tranche.

**Security:**

In the case of New Money Tranche 1 and New Money Tranche 3 only, security over all material assets of each member of the NM1 Group, (including A3T, all of the shares in A3T and all of the shares currently held by the Group in ABY, but excluding the accounts of ACIL Luxco2 and A3TLuxco2 into which the NM1 Priority Collateral Surplus Value is to be deposited and the NM1 Priority Collateral Surplus Proceeds) and security over the shares in and claims into Orphan Holdco, Abengoa Concessions Investments Limited, ACIL Luxco2, A3TLuxco2 and A3T Holdco España S.A. Certain security will be granted by way of title transfer collateral arrangements, and the New Money Tranche 1 and New Money Tranche 3 creditors will have rights of set-off and retention in respect of assets subject to such security.

In the case of New Money Tranche 2 only (along with the New Bonding Facilities), security over the accounts of ACIL Luxco2 and A3TLuxco2 into which the NM1 Priority Collateral Surplus Value is required to be deposited and the NM1 Priority Collateral Surplus Proceeds, provided that no enforcement of the security over the accounts into which the NM1 Priority Collateral Surplus Value is required to be deposited or the security over the NM1 Priority Collateral Surplus Proceeds shall be permitted until New Money Tranche 1 and New Money Tranche 3 have been repaid in full. New Money Tranche 2 only (along with the New Bonding Facilities) will benefit from security over 100% of the shares in and shareholder loans made to AbeNewco1.

In the case of each Tranche, save as may be agreed (taking into account customary tax, legal and agreed cost/benefit exceptions and local (project finance) instrument limitations), security (ranking as set out in Part 4) over (i) 100% of the shares in each member of the Group (other than AbeNewco2) and (ii) all material assets of each member of the Group (other than AbeNewco2) which is an Obligor, in each case other than the shares in and shareholder loans made to AbeNewco1 or AbeNewco2, which will not secure New Money Tranche 1 or New Money Tranche 3.

Following discharge in full of the New Money Tranche 1 and

New Money Tranche 3 and unwind of the title transfer arrangements, the relevant members of the Group shall procure that the relevant members of the NM1 Group that were subject to the title transfer arrangements grant guarantees and security in favour of the New Money Tranche 2 and New Bonding Facilities subject to customary agreed security principles.

**Upfront/ Structuring Fee:** In the case of New Money Tranche 1 and New Money Tranche 2 only:

(a) 4.00% of the portion of the total commitments at the Restructuring Completion Date which is allocated to creditors that commit by the First Acceptance Deadline (as defined in the New Money Financing Commitment Letter).

(b) (subject to the final paragraph in this section) 2.00% of the remaining total commitments at the Restructuring Completion Date.

The Upfront/Structuring Fee for New Money Tranche 1A will be retained from the proceeds of utilisation of New Money Tranche 1A.

The Upfront/Structuring Fee for each of New Money Tranche 1B and New Money Tranche 2 will accrue and be capitalised as part of New Money Tranche 2. For the avoidance of doubt, no member of the NM1 Group will have any obligations in respect of, or arising as a result of, the Upfront/Structuring Fee for New Money Tranche 1B.

In the case of New Money Tranche 3 only, Upfront/Structuring Fee of:

(a) 4.00% of the commitments under New Money Tranche 3 drawn at any time during the availability period of New Money Tranche 3; and

(b) 2.00% of the portion of New Money Tranche 3 never drawn during the availability period of New Money Tranche 3 (if any).

The Upfront/Structuring Fee for New Money Tranche 3 will accrue on the Restructuring Completion Date and will be payable in cash at maturity, or on cancellation in full, of New Money Tranche 3, pro rata to the New Money Tranche 3 commitments on the date on which the fee is payable.

The Parent may agree with a creditor to pay an Upfront/Structuring Fee of up to 4.00% of the portion of the total commitments at the Restructuring Completion Date

which that creditor agrees to assume in circumstances where the aggregate commitments under a Tranche are less than the expected total commitments under that tranche due to a failure of another creditor to fund or otherwise, as further detailed in the New Money Financing Commitment Letter.

**Underwriting Fee:** In the case of New Money Tranche 1 and New Money Tranche 2 only, 2.00% of the portion of the total commitments of any New Money Financing creditors as at the Signing Date (or such later date as set out in the New Money Financing Commitment Letter) in accordance with the New Money Financing Commitment Letter. The underwriting fee payable to (or as directed by) the New Money Tranche 1 creditors is payable in cash whether or not the Restructuring Completion Date occurs, provided that the requisite consent threshold is achieved under the Restructuring Agreement. The underwriting fee on New Money Tranche 2 will accrue and be capitalised as part of New Money Tranche 2, and will only be payable if the Restructuring Completion Date occurs. There will be no underwriting fee in respect of New Money Tranche 3.

**Interest:**

(a) For New Money Tranche 1 and New Money Tranche 2, cash pay interest of 5.00% per annum accruing daily on the amount outstanding and payable in cash at the end of each interest period.

(b) For New Money Tranche 1 and New Money Tranche 2 PIK interest of 9.00% per annum accruing daily on the amount outstanding and capitalised and added to the principal amount of the loans/notes under the Tranche on which it accrued at the end of each interest period (and once added to the principal amount, such amount will itself bear cash pay and PIK interest at the rates set out in this section).

(c) For New Money Tranche 3, PIK interest of 7.00% on any drawn portion and 5.00% on any undrawn portion, both per annum accruing daily and capitalised and added to the principal amount of the New Money Tranche 3 at the end of each interest period (and once added to the principal amount, such amount will itself bear PIK interest at the rates set out in this section).

Cash pay interest on New Money Tranche 1 will be funded first from the ABY distributions and second from A3T distributions standing to the credit of the blocked accounts comprising part of the NM1 Priority Collateral. Thereafter, up to EUR15m of surplus ABY distributions in aggregate from the third and fourth quarters of 2016 will be available to the NM1 Group and the Group (as the Parent considers

appropriate in accordance with the Business Plan) for working capital purposes. Any other surplus ABY distributions and A3T distributions will be used to fund the NM1 DSRA and thereafter to pay interest or principal on New Money Tranche 1.

PIK interest on New Money Tranche 1B will accrue and be capitalised as part of New Money Tranche 2. For the avoidance of doubt, no member of the NM1 Group will have any obligations in respect of, or arising as a result of, the PIK interest for New Money Tranche 1B.

**Interest Periods:** 3 months, synchronised between the New Money Financing tranches and the Consenting Old Money.

**NM1 DSRA:** A debt service reserve account will be maintained by Orphan Holdco at a level reflecting an amount equal to one interest period's cash interest on New Money Tranche 1 (subject to a remedy period to be agreed if the balance falls below the required level) and used solely to service cash interest payments due on New Money Tranche 1.

**Maturity Date:** New Money Tranche 1: 47 months after the Restructuring Completion Date.

New Money Tranche 2 and New Money Tranche 3: 48 Months after the Restructuring Completion Date.

**Back-end Fee:** For New Money Tranche 1 and New Money Tranche 2, a back-end fee will be payable in cash on all repayments or prepayments made or required to be made (whether as a result of acceleration or otherwise and whether or not insolvency proceedings have commenced and/or any automatic acceleration has occurred) at the rate of:

(a) 5.00% of the amount repaid or prepaid or required to be repaid or prepaid (whether as a result of acceleration or otherwise) in respect of any amount repaid or prepaid during the period from the Restructuring Completion Date to (and including) the date falling 24 months after the Restructuring Completion Date; and

(b) 10.00% of the amount repaid or prepaid or required to be repaid or prepaid (whether as a result of acceleration or otherwise) in respect of any amount repaid or prepaid at any time after the date falling 24 months after the Restructuring Completion Date.

The New Money Tranche 1 and New Money Tranche 2 creditors will act in good faith and will not intentionally delay such prepayment or repayment until a date falling more than

24 months after the Restructuring Completion Date with the primary purpose of increasing the applicable back-end fee.

The back-end fee on New Money Tranche 1B will accrue and be treated and capitalised as part of New Money Tranche 2. For the avoidance of doubt, no member of the NM1 Group will have any obligations in respect of, or arising as a result of, the back-end fee for New Money Tranche 1B.

**Availability Period:**

In the case of New Money Tranche 1 and New Money Tranche 2, the availability period will be from the Signing Date to and including the earlier of (1) the date specified in paragraph 9.1(b) of the New Money Financing Commitment Letter; and (2) the Restructuring Completion Date.

In the case of New Money Tranche 3, the availability period will be from the Restructuring Completion Date to and including the earlier of (a) the date on which A3T is directly or indirectly sold or otherwise transferred to a person which is not a member of the Group or a member of the NM1 Group; (b) completion of construction of A3T and; (c) one month prior to the New Money Tranche 3 Maturity Date.

New Money Tranche 3 may be cancelled at any time following the repayment in full of New Money Tranche 1 provided that an amount equal to the undrawn New Money Tranche 3 commitments is funded into an escrow account to be released in the same circumstances as New Money Tranche 3 is capable of being utilised.

**Additional NM1 Drawdown Conditions:**

(a) The average ABY share price being above USD14 during the 10 trading days before the date of utilisation of New Money Tranche 1; and the ABY shares not having been suspended from trading at any time during the 10 business days before the date of utilisation of New Money Tranche 1.

(b) Satisfaction of a liquidity covenant pursuant to which the projected (next 6 months) liquidity for the Group as at the date of utilisation of New Money Tranche 1 exceeds a minimum level to be agreed, as reported on by an independent third party approved by the Majority Qualifying NM1 Creditors.

(c) The absence of any event or circumstance that would have a material adverse impact on the development, business, assets, financial condition or prospects of A3T including, without limitation:

(i) the average of the CFE's regulated HM tariff[2] calculated over the immediately preceding two months (for the avoidance of doubt, CFE's HM tariff applies to Industrial, Mid-Tension, >100 KW installed capacity offtakers) is less than 1,294 MXP/KWh;

(ii) an event or circumstances affecting the economy of any region or jurisdiction in which A3T conducts business or operates, including changes in the credit, debt, capital, securities, or financial markets (for the avoidance of doubt, including changes in interest or exchange rates);

(iii) political or regulatory changes in any jurisdiction in which A3T conducts business or operates; and

(iv) an event or circumstances generally affecting the industries in which A3T conducts business or operates,

in the case of (ii), (iii) and (iv) only, having individually or cumulatively a material adverse impact on the development, business, assets, financial condition or prospects of A3T.

The Additional NM1 Drawdown Conditions in paragraphs (a), (b) and (c) above can only be waived with the consent of the Super Majority Qualifying NM1 Creditors. If the above conditions are not met or duly waived, the Restructuring Steps Commencement Date will not occur.

**Majority Qualifying NM1 Creditors:** Any misrepresentation by a New Money Tranche 1 creditor of its status as a Qualifying NM1 Creditor will result in liquidated damages payable to the other New Money Tranche 1 creditors.

(B) **New Bonding Facilities (*línea de avales*)**

**Amount:** (a) New Syndicated Bonding Tranche: a new tranche syndicated between the Initial Bonding Providers of at

---

[2] The monthly HM tariff will be calculated as the average of all regions' HM tariffs ("regional HM tariff", as described below), excluding Baja California and Baja California Sur, using data published by the CFE on its website on a monthly basis.

The regional HM tariff will be calculated as the sum of the following divided by the total number of hours in each month:

(i) Electricity Cost (MXP/KW), calculated as the peak, intermediate and base energy CHARGE (MXP/kwh) times the number of hours attributable to each plus;

(ii) Demand Cost (MXP/KW), calculated [ (1 / 60%) * Invoiceable Demand CHARGE (MXP /kW) ], 60% being the load factor and Invoiceable Demand charge being "Cargo por Demanda Facturable".

least EUR209m for the purpose of issuing new bonding (but not, for the avoidance of doubt, any extension, amendment or replacement of existing bonding for the same project and purpose).

(b) Roll Over Bonding Tranche: a roll over tranche syndicated between the Initial Bonding Providers of EUR98m for the purpose of issuing new bonding (but not, for the avoidance of doubt, any extension, amendment or replacement of existing bonding for the same project and purpose). An Initial Bonding Provider's commitment under the Roll Over Tranche will become available as and when its Uncalled Existing Bonding Facilities are released.

(c) New Bilateral Bonding Tranche: a new bilateral bonding tranche provided on a bilateral basis by existing creditors in respect of Existing Bonding Facilities which elect to commit on the date on which they sign or accede to the Restructuring Agreement to provide bilateral commitments for the purpose of issuing new bonding (but not, for the avoidance of doubt, any extension, amendment or replacement of existing bonding for the same project and purpose).

Any new bond (*aval*) issued by an Initial Bonding Provider after the date on which the New Bonding Commitment Letter is signed by the Initial Bonding Providers but prior to the Restructuring Completion Date will be deemed to be part of the New Syndicated Bonding Tranche or the Roll Over Bonding Tranche (at the option of the Initial Bonding Provider).

The Finance Documents will provide flexibility to raise additional bonding facilities for the purpose of issuing new bonding (but not, for the avoidance of doubt, any extension, amendment or replacement of existing bonding for the same project and purpose) subject to parameters to be agreed, provided that under no circumstances can such additional bonding facilities have recourse to the NM1 Group or the NM1 Priority Collateral whether directly or indirectly by way of subrogation. To the extent a Consenting Existing Creditor agrees to provide such new bonding, whether or not it has participated in the New Bonding Facilities, such Consenting Existing Creditor will be entitled to have EUR1.0 of its Uncalled Existing Bonding Facilities at that time (to the extent not called at the time the additional bonding facility is provided), if and when called, exempted from any reduction and the residual par value claim will be treated as Senior Old Money Loans/Notes under the contingent tranche of the Consenting Old Money (when called) per EUR 1.0

| | |
|---|---|
| | contribution by way of new bonds issued. Such Consenting Existing Creditor will not receive any equity, will not share in the transaction security and will not (other than as expressly provided in the case of ECAs) benefit from the Consenting Old Money Elevation set out in Section (C) of Part 1 above as a consequence of the provisions of such additional bonding. |
| **Form:** | New Syndicated Bonding Tranche and Roll Over Bonding Tranche: committed syndicated bonding facility. Facility agent for the New Bonding Facilities to be appointed by New Bonding Facilities creditors.<br><br>New Bilateral Bonding Tranche: committed bilateral bonding facility. |
| **Facility Type:** | Revolving. |
| **Currency:** | EUR/USD and certain other currencies to be agreed among the New Bonding Facilities creditors. |
| **Borrower:** | AbeNewco1 (provided that the member of the Group in respect of which the relevant bond is issued will also be jointly and severally liable with respect to that bond). |
| **Guarantors:** | All members of the Group (including, without limitation, the Parent, but excluding AbeNewco2, AbeNewco1 and the NM1 Group) save as may be agreed taking into account customary tax and agreed cost/benefit exceptions and local (project finance) instrument limitations, which will guarantee the New Money Financing in the order of priority set out in Part 4.<br><br>AbeNewco1 and AbeNewco2 will not grant any guarantees and will only be liable in respect of the Debt Instruments issued or borrowed by them directly. |
| **Security:** | Save as may be agreed (taking into account customary tax and agreed cost/benefit exceptions and local (project finance) instrument limitations), security over (i) 100% of the shares in and shareholder loans made to AbeNewco1 and other material members of the Group (other than AbeNewco2); (ii) all material assets of each member of the Group (other than AbeNewco2) which is an Obligor; and (iii) security over the account into which the NM1 Priority Collateral Surplus Value must be deposited by ACIL Luxco2 and A3TLuxco2 and the NM1 Priority Collateral Surplus Proceeds provided that no enforcement of the security over the accounts into which the NM1 Priority Collateral Surplus Value is required to be deposited or the security over the NM1 Priority Collateral Surplus Proceeds shall be permitted until New Money Tranche 1 and New Money Tranche 3 have been repaid in full. |

| | |
|---|---|
| **Structuring Fee:** | In respect of the New Syndicated Bonding Tranche and the New Bilateral Bonding Tranche, 1.00% payable in cash on the Restructuring Steps Commencement Date.<br><br>In respect of the Roll Over Bonding Tranche, 1.00% payable in cash on each portion of the commitments under the Roll Over Bonding Tranche on the date on which those commitments under the Roll Over Bonding Tranche are first utilised. |
| **Issuance Fee:** | 5.00% per annum accruing daily and payable in cash every 3 months, synchronised with the interest periods on the New Money Financing, on the amount utilised. |
| **Cancellation:** | At any time by the Borrower (with no fee or other additional payment) on 5 business days' notice of any New Bonding Facilities commitment.<br><br>If any Uncalled Existing Bonding Facilities of an Initial Bonding Provider are called on or before the Restructuring Completion Date, that Initial Bonding Provider will be entitled to cancel its commitment under the New Bonding Facilities (in such tranches as it determines at its discretion) in an equal amount. |
| **Treatment upon Call:** | Any call on a bond under the New Bonding Facilities will be paid immediately from the Group's cashflow. For the avoidance of doubt, non-payment of any amounts under the New Bonding Facilities will constitute an Event of Default and a drawstop unless and until paid. |
| **Maturity Date:** | 48 months after the Restructuring Completion Date. |
| **Availability Period:** | From and including the Restructuring Completion Date to and including the date falling one interest period prior to the Maturity Date. |
| **Drawdown Conditions:** | (a) No Event of Default to be continuing.<br><br>(b) In the case of the New Bonding Facilities provided by the Initial Bonding Providers only:<br><br>(i) CESCE formal approval and commitment on or before the Restructuring Steps Commencement Date to guarantee at least 50% of the aggregate amount committed by the Initial Bonding Providers under the New Bonding Facilities. If the final guaranteed amount committed by CESCE is below 50% of such amount, the amount committed by the Initial Bonding Providers will be reduced accordingly (by |

reducing the amount from one or both tranches at their discretion) unless the guaranteed amount by CESCE results in an aggregate commitment of the Initial Bonding Providers below EUR 250m in which case the Initial Bonding Providers will be entitled to terminate their New Bonding Facility commitments in full; and

(ii) a CESCE guarantee for at least 50% of the relevant bond must be in place (including approval by CESCE of the terms and conditions of the bond).

(c) Bonds requested must be used for (i) any project to be developed pursuant to the Business Plan; or (ii) any bidding processes identified by the Parent to the satisfaction of the providers of the New Bonding Facilities in the Debt Instrument for the New Bonding Facilities or otherwise approved by the Majority New Bonding Creditors. For the avoidance of doubt, New Bonding Facilities creditors will not be obliged to issue new bonding in respect of projects that are expected to be postponed or abandoned according to the then current Business Plan (including Atacama II, Atacama III, ATN III, Norte III, A4T, etc.) and will only be obliged to issue new bonds in relation to Atacama I if the conditions precedent in paragraph 35(aa) of Schedule 1 (*Initial Conditions Precedent*) has been satisfied, in each case, unless approved by the Majority New Bonding Creditors.

(d) Bonds requested must be technical bonding (*avales técnicos*), bid bonds, advance payment bonds and other types of bonds contemplated in the Business Plan or otherwise approved by the Majority New Bonding Creditors.

(e) Customary documentation for the project must be delivered to the New Bonding Facilities creditors by the Group.

(f) The project must be in an approved jurisdiction and the bond must be issued in an approved currency (such jurisdictions and countries to include, without limitation, those specifically contemplated in the Business Plan).

(g) Other customary drawdown conditions in respect of projects (including formal legal approval of the wording of each bond to be issued, with certain forms

to be pre-agreed and an ability for a 66⅔% majority of the New Bonding Facility creditors (calculated on the same basis as the Majority New Bonding Creditors) to decline to issue a particular bond in specific circumstances to be agreed).

(C) **Senior Old Money Loans/Notes**

| | |
|---|---|
| **Amount:** | Subject to decision of creditors in respect of Existing Loans/Notes and Existing Bonding Facilities. |
| **Form:** | Loan and/or Note. The Loan form will include an option to exchange the Loans for Notes on dates to be agreed. |
| **Currency:** | Same as the relevant legacy Affected Debt. |
| **Borrower/Issuer:** | AbeNewco2. |
| **Guarantors:** | Parent and existing guarantors (to the extent legally possible) of the relevant instrument plus additional guarantees to be granted (on a subordinated basis) by all other guarantors of the New Money Financing other than AbeNewco2, AbeNewco1 and the NM1 Group in the order of priority set out in Part 4. |
| **Security:** | First ranking security over 100% of the shares in AbeNewco2. Consenting Existing Creditors under Senior Old Money Loans/Notes must cancel and agree to release all existing security (if any). |
| **Interest Rate:** | (a) Cash pay interest of 0.25% per annum accruing daily on the amount outstanding and payable in cash at the end of each interest period.<br><br>(b) PIYC interest of 1.25% per annum accruing daily on the amount outstanding and payable in cash (or, to the extent that the Borrower confirms that cash available after payment of interest would be less than EUR200m, capitalised and added to the amount of the loans/notes under the Tranche on which it accrued) at the end of each interest period. |
| **Interest Periods:** | Every 3 months, synchronised with Junior Old Money Loans/Notes. |
| **Maturity Date:** | 66 months after the Restructuring Completion Date, provided that the Maturity Date of the Senior Old Money Loans/Notes and Junior Old Money Loans/Notes may be extended for up to a further 24 months with the consent of the Majority Senior Old Money Creditors. |

**Scheduled Amortisation:**

(a) on the date falling 60 months after the Restructuring Completion Date, 2.00% of the commitments under the Senior Old Money Loans/Notes as at the last day of the period for accession to the Restructuring Agreement.

(b) if the Maturity Date has been extended, on the date falling 72 months after the Restructuring Completion Date, a further 2.00% of the commitments under the Senior Old Money Loans/Notes as at the last day of the period for accession to the Restructuring Agreement.

(c) if the Maturity Date has been extended, on the date falling 84 months after the Restructuring Completion Date, a further 2.00% of the commitments under the Senior Old Money Loans/Notes as at the last day of the period for accession to the Restructuring Agreement.

Any voluntary or mandatory prepayments (other than as a result of illegality) prior to the Scheduled Amortisations will reduce the Scheduled Amortisations in inverse chronological order.

(D) **Junior Old Money Loans/Notes**

**Amount:** Subject to decision of creditors in respect of Existing Loans/Notes and Existing Bonding Facilities.

**Form:** Loan and Note. The Loan form will include an option to exchange the Loans for Notes on dates to be agreed.

**Currency:** Same as the relevant legacy Affected Debt.

**Borrower/Issuer:** AbeNewco2, fully subordinated to the Senior Old Money Loans/Notes.

**Guarantors:** Same as Senior Old Money Loans/Notes but fully subordinated to the Senior Old Money Loans/Notes.

**Security:** Second-ranking security over 100% of the shares in AbeNewco2. Consenting Existing Creditors under Junior Old Money Loans/Notes must cancel and agree to release all existing security (if any).

**Interest Rate:**

(a) Cash pay interest of 0.25% per annum accruing daily on the amount outstanding and payable in cash at the end of each interest period.

(b) PIYC interest of 1.25% per annum accruing daily and payable in cash (or, to the extent that the Borrower confirms that cash available after payment of interest would be less than EUR200m, capitalised and added to the amount of the loans/notes under the Tranche on

which it accrued) at the end of each interest period.

**Interest Periods:** Every 3 months, synchronised with Senior Old Money Loans/Notes.

**Maturity Date:** 72 months after the Restructuring Completion Date, provided that the Maturity Date of the Senior Old Money Loans/Notes and Junior Old Money Loans/Notes may be extended for up to a further 24 months with the consent of the Majority Senior Old Money Creditors.

**Scheduled Amortisation:**

(a) on the date falling 60 months after the Restructuring Completion Date, 2.00% of the commitments under the Junior Old Money Loans/Notes as at the last day of the period for accession to the Restructuring Agreement.

(b) if the Maturity Date has been extended, on the date falling 72 months after the Restructuring Completion Date, a further 2.00% of the commitments under the Junior Old Money Loans/Notes as at the last day of the period for accession to the Restructuring Agreement.

(c) if the Maturity Date has been extended, on the date falling 84 months after the Restructuring Completion Date, a further 2.00% of the commitments under the Junior Old Money Loans/Notes as at the last day of the period for accession to the Restructuring Agreement.

Any voluntary or mandatory prepayments (other than as a result of illegality) prior to the Scheduled Amortisations will reduce the Scheduled Amortisations in inverse chronological order.

(E) **Contingent Tranche**

**Amount:** Initial amount of EUR240m, subject to increase based on crystallisation of contingencies to be included in this tranche provided that the aggregate amount of Consenting Old Money does not exceed EUR 2,700m.

**Purpose:** This tranche will be used to cover the potential crystallisation of the outstanding amounts after the Consenting Old Money Reduction of contingent claims deriving from:

(a) Uncalled Existing Bonding Facilities which are subsequently called. The Consenting Old Money Reduction will apply unless the claim is exempted from such reduction pursuant to paragraph (b) of the "Existing Bonding Facilities (other than Non-Consenting Existing Debt) section of Section (C) of Part 1; and

(b) the enforcement of guarantees which are restructured through the Alternative Restructuring Terms.

**Reduction mechanics applicable to the claims included in the contingent tranche of the Consenting Old Money:**

(a) Claims deriving from Uncalled Existing Bonding Facilities held by creditors which have not agreed to participate in the New Syndicated Bonding Tranche or the New Bilateral Bonding Tranche which are subsequently called: Consenting Old Money Reduction applicable to these claims.

(b) Claims deriving from guarantees which are restructured through the Alternative Restructuring Terms: Consenting Existing Creditors of claims under guarantees which are restructured through the Alternative Restructuring Terms will have the following options:

(i) expressly agree to crystallise the claims on the date on which they sign or accede to the Restructuring Agreement and capitalise 70% of such claims (and subject to any subsequent Consenting Old Money Reduction) (in order to do so, the relevant creditors must release and subrogate the Parent in an amount of the primary claim in respect of which the relevant guarantee is granted, equal to the claim crystallised); or

(ii) if they do not agree to such crystallisation on the date on which they sign or accede to the Restructuring Agreement, suffer a direct reduction equal to the Consenting Old Money Reduction if/when the guarantees are enforced and the relevant creditor must discharge and subrogate the Parent in, at least, a percentage of the primary claim equal to the difference between 100% and the Consenting Old Money Reduction applied to its guarantee.

(F) **Non-Consenting Affected Debt**

**Amount:** Subject to decisions of existing creditors after applying the percentage reduction set out in the Restructuring Agreement according to the Standard Restructuring Terms.

**Form:** Same as the relevant legacy Affected Debt.

**Currency:** Same as the relevant legacy Affected Debt.

**Borrower/Issuer:** Same as the relevant legacy Affected Debt.

| | |
|---|---|
| **Guarantors:** | Same as the relevant legacy Affected Debt. |
| **Security:** | None (unsecured). |
| **Interest Rate:** | 0% coupon. |
| **Maturity Date:** | 120 months after the Restructuring Completion Date. |

(G) **Non-Spanish Debt to be Restructured**

The Parent shall ensure that by no later than the Restructuring Completion Date all Non-Spanish Debt to be Restructured is effectively restructured in accordance with the Restructuring Agreement.

## PART 3
## POST-RESTRUCTURING COMMON TERMS: DEBT

| | |
|---|---|
| **Facility Agents:** | To be appointed. |
| **Note Trustees:** | To be appointed. |
| **Security Agent:** | To be appointed. |
| **Custodian:** | To be appointed. |
| **Agency fee:** | To be agreed by the different facility agents with the relevant borrower. |
| **Voluntary Prepayments:** | Permitted on 5 business days' notice from excess cashflow (subject to a liquidity buffer of EUR200m) and subject to the "Back-end Fee" section above, provided that no voluntary prepayment of Consenting Old Money is permitted until the New Money Financing has been repaid in full and New Money Tranche 2 and New Money Tranche 3 may not be voluntarily prepaid until New Money Tranche 1 has been repaid in full. |
| **Mandatory Prepayments:** | The New Money Financing, New Bonding Facilities and (where applicable) the Consenting Old Money will benefit from the following mandatory prepayment provisions (including the back-end fee set out in the "Back-end Fee" section above): |

(a) *Illegality* (in the case of loan facilities only).

(b) *Exit*

In respect of the New Money Financing and New Bonding Facilities only, on a Change of Control or sale of all or substantially all of the assets or business of the NM1 Group and/or the Group. For this purpose, "Change of Control" means any person or group of persons acting in concert (other than permitted owners, being strategic investors which meet minimum solvency requirements in respect of sales/EBITDA and ratings to be agreed) controls more than 50% of the issued share capital of the Parent.

(c) *NM1 Priority Collateral Proceeds*

Net Proceeds from a disposal, insurance claim or termination compensation in respect of NM1 Priority Collateral will be applied in the following order:

(i) first, New Money Tranche 1; and

(ii) second, New Money Tranche 3 (if not

accelerated, as cash collateral for the aggregate amounts outstanding and available under New Money Tranche 3).

Following the full repayment and discharge of New Money Tranche 1 and New Money Tranche 3, any NM1 Priority Collateral Surplus Value or NM1 Priority Collateral Surplus Proceeds would be treated as NM2 Priority Collateral.

(d) *NM2 Priority Collateral Proceeds*

Net Proceeds from a disposal, project financing, insurance claim or termination compensation in respect of NM2 Priority Collateral (including any NM1 Priority Collateral Surplus Value or NM1 Priority Collateral Surplus Proceeds) will be applied (or its application will be procured) by AbeNewco1 in the following order:

(i) first, New Money Tranche 3 (if not accelerated, as cash collateral for the aggregate amounts outstanding and available under New Money Tranche 3) other than in the case of the NM1 Priority Collateral Surplus Value or NM1 Priority Collateral Surplus Proceeds;

(ii) second, New Money Tranche 2;

(iii) third, New Money Tranche 1 and New Bonding Facilities (if not accelerated, as cash collateral for bonds issued and available commitments under the New Bonding Facilities) on a *pari passu* basis;

(iv) fourth, Senior Old Money Loans/Notes; and

(v) fifth, Junior Old Money Loans/Notes.

(e) *Refinancing / Debt Capital Raising Proceeds*

The Net Proceeds of any refinancing or debt capital raising at the level of the NM1 Group will be applied in prepayment of New Money Tranche 1, subject to such prepayment being waived by the Majority Qualifying NM1 Creditors. Any refinancing or debt capital raising at the level of the NM1 Group will require the consent of the Majority Qualifying NM1 Creditors.

(f) *Share Capital Proceeds*

Net Proceeds of a share capital issuance by the Parent may be applied in prepayment as determined by the board of directors.

(g) *Excess Cashflow*

100% of semi-annual excess cashflow of the Group (excluding any excess cashflow relating to the NM1 Priority Collateral) will be applied in prepayment in the following order:

(i) following an Event of Default which is continuing only:

(A) first, New Bonding Facilities (if not accelerated, as cash collateral for bonds issued and available commitments under the New Bonding Facilities);

(B) second, New Money Tranche 3 (if not accelerated, as cash collateral for the aggregate amounts outstanding and available under New Money Tranche 3);

(C) third, New Money Tranche 2;

(D) fourth, New Money Tranche 1;

(E) fifth, Senior Old Money Loans/Notes; and

(F) sixth, Junior Old Money Loans/Notes.

(ii) following repayment in full of the New Money Financing and release or cash collateralisation of all bonds outstanding and any amounts available for utilisation under the New Bonding Facilities:

(A) first, Senior Old Money Loans/Notes; and

(B) second, Junior Old Money Loans/Notes.

Excess cashflow shall include cash generated by the EPC business and all dividends received from all projects within the EPC Sub-Group.

**Fair Value Opinion:** Other than in respect of a distressed disposal or a disposal pursuant to the undertakings set out in the "Undertakings in relation to A3T and ABY" section below, permitted disposals must be for cash subject to customary exceptions to be agreed

and if the higher of (1) the book value; and (2) the directors' good faith determination of the value of the asset subject to such disposal or as the consideration for a Debt Buyback (or a series of related disposals or buybacks) are in excess of EUR50m (or EUR5m in the case of a related party transaction) and the Majority NM1/NM3 Creditors or Majority NM2 Creditors so request, the Parent will obtain a customary fairness opinion from a reputable and independent international investment bank or accounting firm (other than the then-current auditor of the Group) confirming that the consideration is fair from a financial point of view taking into account all relevant circumstances, including without limitation the method of disposal.

**Representations:**

Customary for a financing of this nature and based on the LMA Precedent supplemented as appropriate to incorporate project financing representations and other representations appropriate for this transaction.

In addition, the Parent shall give (for the benefit of all Consenting Existing Creditors) in the Restructuring Agreement certain representations and warranties to be agreed in respect of the Business Plan and its viability, the amount of contingencies contemplated therein and other material assumptions in which the Business Plan is based confirming that such assumptions have been made based on proper advice. It must be clearly stated that, without those representations and the advice behind them, Consenting Existing Creditors would not have supported nor executed the Restructuring Agreement. The board of directors resolution must specifically address these representations (including the wording agreed in the Restructuring Agreement) and expressly approve, in addition to the Business Plan, the granting of them on behalf of the Parent.

**Undertakings in relation to A3T and ABY:**

For the benefit of New Money Tranche 1 and New Money Tranche 3 only, customary undertakings for a financing of this nature and based on the LMA Precedent, relating to the NM1 Group and the ABY Group including, without limitation, (i) customary COMI undertakings in relation to each double Luxco structure in respect of ABY shares and A3T, including, without limitation, restrictions on any US, Spanish or other non-Luxembourg nexus; (ii) additional undertakings to be included in respect of commercial arrangements and intercompany loans as between the Group and the NM1 Group and the ABY Group to ring-fence the NM1 Group and the ABY Group; (iii) comprehensive ringfencing of A3T Holdco España S.A.; (iv) undertakings to include non-petition and limited recourse language in all agreement under which Orphan Holdco, ACIL Luxco1, A3TLuxco1, ACIL Luxco2,

A3TLuxco2, OrphanCo incurs any liabilities, as part of usual bankruptcy remoteness protections of a securitisation vehicle to be included in respect of Orphan Holdco, ACIL Luxco1, A3TLuxco1, ACIL Luxco 2, A3TLuxco2 and OrphanCo (but without prejudicing the New Money Tranche 1 creditors' and New Money Tranche 3 creditors' rights to enforce the NM1 Priority Collateral or the liability of any member of the NM1 Group to the New Money Tranche 1 creditors and New Money Tranche 3 creditors in respect of undertakings given under the Finance Documents); (v) holding company undertakings in respect of each of ACIL, A3T Holdco España S.A., A3TLuxco2 and ACIL Luxco2 prohibiting any activity (including the incurrence of any indebtedness) other than holding shares in its subsidiaries; (vi) general undertakings restricting members of the NM1 Group from incurring debt, granting guarantees or indemnities, disposing of assets, granting security, making any dividend or shareholder payments, making any loans or grant any credit, entering into any acquisitions/joint ventures or making any changes to the business, subject to carve outs to be agreed permitting transactions in the ordinary course of business of A3T; and (vii) project financing undertakings and other undertakings appropriate for this transaction (including without limitation, undertakings on ACIL Luxco1 to procure that the ABY Group complies with undertakings to the extent possible as a minority shareholder of ABY).

Key covenants for the benefit of the New Money Tranche 1 creditors and New Money Tranche 3 creditors will include the following:

*A3T:*

1. An obligation to secure the correct right of way for transmission lines (or to change the route as necessary). If there is a failure to meet any of the milestones set out in a timeline to be agreed, by the dates set out in such timeline, then the NM1 Investor Director will take control of the process. If the entire right of way that is required is not secured by a long stop date to be agreed then an Event of Default will arise, the decision to accelerate and enforce the NM1 Priority Collateral on the basis of this Event of Default will be a Qualifying NM1 Creditor Decision and the NM1 Investor Director may require a sale of some or all of the NM1 Priority Collateral (at any price but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below). If there are any related cost overruns, such cost overrun would result in a drawdown under the New Money Tranche 3 facility.

2. An obligation to ensure compliance with budget and schedule. Any cost overruns would result in a drawdown under the New Money Tranche 3 facility. In addition:

   (i) if the projected cost overrun exceeds the funding available under New Money Tranche 3 or there is a failure to meet any of the milestones set out in a timeline to be agreed by the dates set out in such timeline, then the NM1 Investor Director will be entitled to appoint a replacement EPC contractor; and

   (ii) if the projected cost overrun exceeds an amount to be agreed or there is a failure to meet any of the milestones set out in a timeline to be agreed by the dates set out in such timeline or a drawdown request under the New Money Tranche 3 is not met, then an Event of Default will arise, the decision to accelerate and enforce the NM1 Priority Collateral on the basis of this Event of Default will be a Qualifying NM1 Creditor Decision and the NM1 Investor Director may require a sale of some or all of the NM1 Priority Collateral (at any price but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below).

3. At any time (i) the average net price (definition to be agreed) of Acceptable PPAs must be above MXP700/MWh; and (ii) no more than a percentage to be agreed of the contracted capacity shall be subject to a net price below MXP 600/MWh. If the requirements in paragraphs (i) or (ii) are not satisfied then an Event of Default will arise, the decision to accelerate and enforce the NM1 Priority Collateral on the basis of this Event of Default will be a Qualifying NM1 Creditor Decision and the NM1 Investor Director may require a sale of some or all of the NM1 Priority Collateral (at any price but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below).

4. If there is (i) any failure to meet the milestones for the % of contracted capacity set out in a timeline to be agreed by the dates set out in such timeline then the NM1 Investor Director will be entitled to appoint external brokers and to enter into Acceptable PPAs on behalf of A3T; and (ii) any failure to meet the milestones for the percentage of contracted capacity set

out in a timeline to be agreed by the dates set out in such timeline then an Event of Default will arise, the decision to accelerate and enforce the NM1 Priority Collateral on the basis of this Event of Default will be a Qualifying NM1 Creditor Decision and the NM1 Investor Director may require a sale of some or all of the NM1 Priority Collateral (at any price but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below).

5. An obligation if required by the Majority Qualifying NM1 Creditors to dispose of ABY and/or A3T (at any price but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below) if an Event of Default is continuing or from the earlier of (i) completion of A3T; and (ii) the date falling 18 months after the Restructuring Completion Date.

For the purposes of these undertakings an "**Acceptable PPA**" means a PPA (a) under which the counterparty meets a minimum credit worthiness test to be agreed; (b) under which the term is a minimum of 10 years; and (c) which hedges out fluctuations in gas price.

***ABY:***

1. An Event of Default if the ABY share price is, at any time, below the minimum price (initially being USD14, increasing at a compounding daily rate of 15% per annum from the Restructuring Completion Date). Any decision to accelerate and enforce the NM1 Priority Collateral on the basis of this Event of Default will be a Qualifying NM1 Creditor Decision and the NM1 Investor Director may require a sale of some or all of the NM1 Priority Collateral (at any price but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below);

2. An obligation to dispose of 50% (or such lower percentage as the NM1 Investor Director may agree) of the ABY shares at any time when the ABY share price is at least USD23 if required by the NM1 Investor Director or the Majority Qualifying NM1 Creditors (provided that such shares are sold at a price of more than USD22 per share, but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below). If the requirement is not satisfied by a long stop date to be agreed then an Event of Default will arise, the decision to accelerate and enforce the NM1 Priority Collateral

relating to the ABY shares on the basis of this Event of Default will be a Qualifying NM1 Creditor Decision and the NM1 Investor Director may require a sale of some or all of the NM1 Priority Collateral relating to the ABY shares at a price of more than USD22 per share (but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below); and

3. An obligation if required by the NM1 Investor Director or the Majority Qualifying NM1 Creditors to instruct a reputable international investment bank to market and sell 100% of the ABY shares and/or the A3T shares if at any time after 31 March 2017 the share price is below USD21 (but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below).

Any decision to accelerate and enforce the NM1 Priority Collateral on the basis of these Events of Default will be a Qualifying NM1 Creditor Decision and the NM1 Investor Director may require a sale of some or all of the NM1 Priority Collateral (at any price but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below).

**Undertakings in relation to the NM1 Group:**

New Money Tranche 2, the New Bonding Facilities and the Senior Old Money Loans/Notes will have the benefit of limited additional undertakings given by the Parent with respect to the NM1 Group including:

1. a restriction on distributions, payments and disposals from A3TLuxco1 and ACIL Luxco1 to Orphan Holdco except for the purposes of servicing interest, principal or other amounts pursuant to New Money Tranche 1 and New Money Tranche 3, payment into the NM1 DSRA and other purposes specified in the Finance Documents;

2. a restriction on any indebtedness other than New Money Tranche 1, New Money Tranche 3, intra-NM1 Group indebtedness and any other indebtedness contemplated in the Business Plan or otherwise to fund (a) A3T costs including, without limitation, increased construction costs, increased operating expenditure and increased commercialisation costs and/or (b) discharge of obligations of the Group or NM1 Group in respect of any member of the ABY Group if they fail to do so; and/or (c) in repayment of New Money Tranche 1 provided that for the avoidance of doubt no such refinancing indebtedness will benefit from the title

transfer arrangements forming part of the transaction security and the title transfer arrangements will therefore be collapsed and Orphan Holdco will return the relevant shares to A3TLuxco2 and ACIL Luxco2 (as applicable) upon refinancing in full of New Money Tranche 1 and New Money Tranche 3;

3. holding company covenants in respect of the A3TLuxco2 and ACIL Luxco2 restricting trading, business activities, provision of loans or guarantees, ownership of assets and incurrence of liabilities, other than those envisaged under the relevant Debt Instruments to which it is a party as of the Restructuring Completion Date; and

4. change of business of the NM1 Group.

In addition, each of A3TLuxco2 and ACIL Luxco2 shall undertake for the benefit of the New Money Tranche 2 creditors and the New Bonding Facilities creditors that it will not waive, amend, compromise, transfer or assign any of its rights, interest or claim under or in connection with the title transfer arrangements without the consent of the New Money Tranche 2 creditors and the New Bonding Facilities creditors.

**Undertakings in relation to the Group and the Business Plan:**

For the benefit of the New Money Financing creditors (other than New Money Tranche 1 creditors) and the New Bonding Facilities creditors, customary undertakings for a financing of this nature and based on the LMA Precedent, relating to the Group (and excluding the NM1 Group).

Key covenants for the benefit of the New Money Financing creditors (other than New Money Tranche 1 creditors) and the New Bonding Facilities creditors will include the following:

1. Project financing undertakings and other undertakings appropriate for this transaction to include compliance with an agreed asset disposal program/milestones and a trade creditor liability reduction program.

2. Compliance with Business Plan (including in respect of the disposal of A3T and ABY within 24 and 18 months respectively following the Signing Date and, at least, in the amounts foreseen therein) within timeframes and amounts foreseen therein (subject to independent third party verification at the cost of the Parent).

3. Selling, general and administrative expenses shall not exceed the maximum amount foreseen in the Business Plan (subject to independent third party verification at

the cost of the Parent).

4. Commercially reasonable endeavours to obtain consent from (i) the lenders under each project finance; and, if applicable, (ii) the concession-granting authority, to the creation of junior-ranking security (as part of NM2 Priority Collateral) over the shares of the project companies owning and developing the Zapotillo, SAWS and Cárcel projects.

New Money Financing creditors and the New Bonding Facilities creditors will have the benefit of limited undertakings with respect to the Group including:

1. Holding company covenants in respect of the Parent, AbeNewco1 and AbeNewco2 restricting trading, business activities, ownership of assets and incurrence of liabilities, other than those envisaged under the relevant Debt Instruments to which it is a party and other customary exclusions in respect of such entity acting as a holding company for its subsidiaries.

2. A requirement that (i) the Parent will continue to directly own 100% of the shares in AbeNewco1 and will have no other subsidiaries; (ii) AbeNewco1 will continue to directly own 100% of the shares in AbeNewco2 and will have no other subsidiaries; and (iii) AbeNewco2 will continue to directly own the same proportion of shares in its subsidiaries as it owns at the Restructuring Completion Date.

3. Restriction on distributions, payments and other disposals from AbeNewco1 and its subsidiaries to the Parent, AbeNewco2 or the shareholders of the Parent.

4. Full subordination of claims from the Parent, AbeNewco2 or any shareholder of the Parent into AbeNewCo1 and its subsidiaries

5. Restriction on granting any additional security, guarantees or assurances against loss for any Senior Old Money Loans/Notes, Junior Old Money Loans/Notes or Standard Restructuring Terms debt (or any debt which fully or partially refinances such debt).

6. Customary requirements as to sanctions, anti-corruption and compliance with applicable laws.

7. Further assurances in relation to guarantees and security.

| | |
|---|---|
| **Information Undertakings:** | Customary for a financing of this nature and based on the LMA Precedent supplemented as appropriate to incorporate project financing information undertakings and other information undertakings appropriate for this transaction. Format and content of reporting package to be agreed with the New Money Financing creditors and the New Bonding Facilities creditors; *provided, that* the Parent will designate information provided pursuant to the information undertakings to be either "Public" (in which case the Parent will ensure that it is made public contemporaneously with its provision to New Money Financing creditors and the New Bonding Facilities creditors) or "Private" and each New Money Financing creditor and each New Bonding Facilities creditor will have the option, from time to time and in its sole discretion, to receive either category of information; *provided, further*, that it is understood and agreed that, except as set forth under "Information to noteholders" below, the Parent will have no ongoing obligation to cause any information that has been designated as "Private" to be cleansed or otherwise publicly disclosed.<br><br>To include, for a period of at least 2 years following the Restructuring Completion Date:<br><br>(a) monthly public calls in English for the CEO and/or CFO to provide a reasonably detailed update on performance against the Business Plan; and<br><br>(b) quarterly public earnings calls by the CEO and/or CFO in English. |
| **Financial Covenants:** | New Money Financing creditors and the New Bonding Facilities creditors will benefit from a liquidity covenant (the "**Liquidity Covenant**") pursuant to which the actual (last 6 month) and projected (next 6 month) liquidity for the Group exceeds a minimum level to be agreed. The Liquidity Covenant will be tested each month on a rolling 6 month basis with the first test date being the first quarter date after the Restructuring Completion Date and will be reported on by an independent third party approved by the New Money Tranche 1 creditors.<br><br>Additional financial covenants for New Money Tranche 2, New Money Tranche 3, the New Bonding Facilities and the Senior Old Money Loans/Notes will relate to the Group (and excluding any part of the NM1 Group) and be based on the projections contained in the Business Plan (but, in the case of the Senior Old Money Loans/Notes, with additional headroom of 25%). |
| **Events of Default** | New Money Tranche 1 creditors and New Money Tranche 3 |

**(Loans/Notes):**

creditors will have the benefit of events of default in respect of the NM1 Group and ABY only which are customary for a financing of this nature and based on the LMA Precedent supplemented as appropriate to incorporate project financing events of default and other events of default appropriate for this transaction (including, without limitation, any event or circumstance which has or is reasonably likely to have a material adverse effect on the NM1 Group or the NM1 Priority Collateral. In addition, the New Money Tranche 1 creditors and New Money Tranche 3 creditors will have the benefit of the following events of default in respect of the Group:

(a) misrepresentation to the extent that representations such as those relating to the position at the Signing Date and the Restructuring Completion Date relate to the Group as well as the NM1 Group;

(b) if the aggregate amount of Consenting Old Money exceeds EUR2,700m due to crystallisation of contingent claims of Consenting Existing Creditors after the maximum reduction has been applied, provided that no event of default will occur if the Consenting Old Money creditors restructure the Consenting Old Money by a longstop date to be agreed, whether by additional reductions or equitisation of their claims, extending the maturity of the Consenting Old Money or otherwise, in a manner that is consistent with the then current Business Plan and does not affect the NM1 Priority Collateral or the NM1 Group, in order that the aggregate amount of the Consenting Old Money does not exceed EUR2,700m;

(c) insolvency, insolvency proceedings (including, without limitation, *homologacion*) or creditor's process in relation to the Parent or any other member of the Group which contracts, provides any guarantee in respect of or provides services to any member of the NM1 Group or the ABY Group;

(d) breach of the Liquidity Covenant;

(e) use of New Money Tranche 3 for purposes other than funding A3T construction costs;

(f) non-payment by a member of the Group of amounts due to any member of the NM1 Group or ABY;

(g) breach of any of the undertakings for the benefit of the New Money Tranche 1 creditors and New Money Tranche 3 creditors listed in the "Undertakings in relation to the Group and the Business Plan" section

above; and

(h) cross-acceleration (including non-payment) with respect to financial indebtedness of the Group (with no threshold in the case of New Money Tranche 2, New Money Tranche 3, New Bonding Facilities and Consenting Old Money).

New Money Tranche 2, New Money Tranche 3, the New Bonding Facilities and the Senior Old Money Loans/Notes will have the benefit of events of default in respect of the Group only which are customary for a financing of this nature and based on the LMA Precedent supplemented as appropriate to incorporate events of default appropriate for this transaction and including:

(a) any event or circumstance which has or is reasonably likely to have a material adverse effect on the Group or on the material assumptions or contingencies on which the Business Plan is based;

(b) breach of undertakings described in "Undertakings in relation to the Group and the Business Plan" section above;

(c) if the aggregate amount of Consenting Old Money exceeds EUR2,700m due to crystallisation of contingent claims of Consenting Existing Creditors after the maximum reduction has been applied, provided that no event of default will occur if the Consenting Old Money creditors restructure the Consenting Old Money within a grace period to be agreed, whether by additional reductions or equitisation of their claims, extending the maturity of the Consenting Old Money or otherwise, in a manner that is consistent with the then current Business Plan and does not affect the NM1 Priority Collateral or the NM1 Group, such that the aggregate amount of the Consenting Old Money does not exceed EUR2,700m;

(d) breach of the Liquidity Covenant;

(e) use of New Money Tranche 3 for purposes other than funding A3T construction costs;

(f) breach of any of the undertakings for the benefit of the New Money Financing creditors (other than New Money Tranche 1 creditors) and New Bonding Facilities creditors listed in the "Undertakings in relation to the NM1 Group" section above; and

(g) cross-acceleration (including non-payment) with respect to financial indebtedness of the Group (with no threshold in the case of New Money Tranche 1, New Money Tranche 2, New Money Tranche 3, New Bonding Facilities and Consenting Old Money).

The Junior Old Money Loans/Notes will have the benefit of events of default limited only to non-payment of Junior Old Money Loans/Notes and cross-acceleration (including non-payment) with respect to financial indebtedness of the Group (with no threshold in the case of New Money Tranche 1, New Money Tranche 2, New Money Tranche 3, New Bonding Facilities and Consenting Old Money).

**Listing:**

The New Money Notes and any notes in respect of the Senior Old Money Loans/Notes and Junior Old Money Loans/Notes will be listed on a regulated or unregulated exchange.

**Information to noteholders:**

Where Consenting Existing Creditors who are noteholders (the "**Consenting Noteholders**") are required to vote on a consent requested by the Parent and the relevant Consenting Noteholders will need to receive confidential, non-public information in order for them to have sufficient information to vote on such consent, the Parent shall offer to provide the Consenting Noteholders the relevant confidential, non-public information (the "**Relevant Information**") (subject to, to the extent necessary, the Consenting Noteholder having entered or entering into satisfactory confidentiality arrangements). If a Consenting Noteholder fails to (i) elect to receive the Relevant Information within a specified period after the Parent's offer (without prejudice to such Consenting Noteholder's right to request and receive the Relevant Information after such period) or (ii) respond within the later of (x) 10 business days after the Parent's initial notification of the consent request and (y) if applicable, a specified period after receipt of the Relevant Information, the aggregate nominal amount of the New Money Notes, any notes in respect of the Senior Old Money Loans/Notes and any notes in respect of the Junior Old Money Loans/Notes held by such Consenting Noteholder shall not be included when calculating whether a relevant required consent threshold has been achieved in respect of such consent.

The Parent shall use all reasonable efforts to disclose the Relevant Information as soon as reasonably practicable such that it no longer constitutes non-public information in any relevant jurisdiction.

On or any time after the occurrence of an Event of Default which is continuing, a Consenting Noteholder which has received Relevant Information may disclose such Relevant Information to the public markets as the Consenting

| | |
|---|---|
| | Noteholder considers reasonably necessary to allow it to trade any New Money Notes, any notes in respect of the Senior Old Money Loans/Notes and/or any notes in respect of the Junior Old Money Loans/Notes it holds without being in breach of any applicable laws or regulations or principles of conduct of any relevant jurisdiction. |
| **Transfers and Assignments:** | Other than in respect of New Money Tranche 3 and New Bonding Facilities, no restrictions (save for customary regulatory and securities law restrictions) following the Restructuring Completion Date.<br><br>New Money Tranche 3 creditors must be commercial banks with a rating for its long term unsecured unsubordinated debt of at least A from Standard & Poor's or A1 from Moody's. Transfers of New Money Tranche 3 commitments must be in minimum amounts of EUR5m while the New Money Tranche 1 is outstanding.<br><br>New Bonding Facilities creditors must be banks or other financial entities that provide bonding as part of their customary business.<br><br>Assignments or transfers by an Obligor of its rights and/or obligations under a Debt Instrument will be prohibited. |
| **Debt Buybacks:** | With the prior consent of the Majority New Money Creditors or following repayment in full of the New Money Financing and release or collaterisation of all bonds outstanding under the New Bonding Facilities, members of the Group may buy-back debt subject to customary parameters, including that any such debt buyback may only be made from excess cashflow (subject to a liquidity buffer of EUR200m) of the Group and will be applied as reasonably determined by the board of directors of the Parent subject to the "Fair Value Opinion" section above. |
| **Governing Law and Jurisdiction:** | Spanish law for the Restructuring Agreement and the New Bonding Facilities and New Money Tranche 2 Debt Instrument; English law and/or Spanish law for Consenting Old Money Debt Instruments; English law for each other Finance Documents (save where appropriate in relation to security documents). |
| **Miscellaneous (including Default Interest; Tax Gross Up etc):** | Tax gross up for qualifying lenders (applying customary qualifying lender criteria) of New Money Financing but not otherwise; default interest at up to an additional 5% payable in cash; customary snooze / lose and replacement of non-consenting creditor provisions. |

## PART 4
## POST-RESTRUCTURING INTERCREDITOR ARRANGEMENTS: DEBT

**Ranking of Claims:**

The unsecured claims of creditors against members of the Group (excluding members of the Group forming part of the NM2 Priority Collateral) will rank as follows:

(a) first, New Bonding Facilities (if not accelerated, as cash collateral for bonds issued and available commitments under the New Bonding Facilities);

(b) second, New Money Tranche 3 (if not accelerated, as cash collateral for the aggregate amounts outstanding and available under New Money Tranche 3);

(c) third, New Money Tranche 2;

(d) fourth, New Money Tranche 1;

(e) fifth, Senior Old Money Loans/Notes; and

(f) sixth, Junior Old Money Loans/Notes.

The unsecured claims of creditors against members of the Group forming part of the NM2 Priority Collateral will rank as follows:

(a) first, New Money Tranche 3 (if not accelerated, as cash collateral for the aggregate amounts outstanding and available under New Money Tranche 3);

(b) second, New Money Tranche 2;

(c) third, New Money Tranche 1 and the New Bonding Facilities (if not accelerated, as cash collateral for bonds issued and available commitments under the New Bonding Facilities) on a pari passu basis;

(d) fourth, Senior Old Money Loans/Notes; and

(e) fifth, Junior Old Money Loans/Notes.

The unsecured claims of creditors against members of the NM1 Group forming part of the NM1 Priority Collateral will rank as follows:

(a) first, New Money Tranche 1; and

(b) second, New Money Tranche 3 (if not accelerated, as cash collateral for the aggregate amounts outstanding and available under New Money Tranche 3).

For the avoidance of doubt, no financial creditor other than the New Money Tranche 1 creditors and the New Money Tranche 3 creditors will have any direct claim in respect of the NM1 Group or the NM1 Priority Collateral other than in respect of the NM1 Priority Collateral Surplus Proceeds and the accounts into which the NM1 Priority Collateral Surplus Value must be deposited.

Intra-group claims will be subordinated.

Security granted by members of the Group and/or the NM1 Group will rank as follows:

(a) *NM1 Priority Collateral*

(i) first, New Money Tranche 1; and

(ii) second, New Money Tranche 3 (if not accelerated, as cash collateral for the aggregate amounts outstanding and available under New Money Tranche 3),

(provided that the NM1 Priority Collateral will exclude the residual value comprising the NM1 Priority Collateral Surplus Value or NM1 Priority Collateral Surplus Proceeds which will be treated as part of the NM2 Priority Collateral).

(b) *NM2 Priority Collateral*

(i) first, New Money Tranche 3 (if not accelerated, as cash collateral for the aggregate amounts outstanding and available under New Money Tranche 3) (provided New Money Tranche 3 shall not have security over the NM1 Priority Collateral Surplus Value or NM1 Priority Collateral Surplus Proceeds);

(ii) second, New Money Tranche 2; and

(iii) third, New Money Tranche 1 (provided New Money Tranche 1 shall not have security over the NM1 Priority Collateral Surplus Value or NM1 Priority Collateral Surplus Proceeds) and New Bonding Facilities, on a *pari passu* basis.

(c) *EPC Sub-Group*

(i) first, New Bonding Facilities (if not accelerated, as cash collateral for bonds issued and available commitments under the New Bonding Facilities);

(ii) second, New Money Tranche 3 (if not accelerated, as cash collateral for the aggregate amounts outstanding and available under New Money Tranche 3);

(iii) third, New Money Tranche 2; and

(iv) fourth, New Money Tranche 1.

(d) *Old Money Collateral*

(i) first, Senior Old Money Loans/Notes; and

(ii) second, Junior Old Money Loans/Notes;

Customary treatment of creditors in the event of equitable subordination will be included as appropriate.

**Turnover:** Full turnover obligation on all creditors, with the proceeds waterfall depending on the source of the payment.

**Consenting Old Money Enforcement Rights:**

(a) *Acceleration / making demand under guarantees*

Senior Old Money Loans/Notes will be subject to a 6 month standstill on any enforcement action.

Junior Old Money Loans/Notes will be subject to a 9 month standstill on any enforcement action.

Consent of 66.67% of the Senior Old Money Loans/Notes or Junior Old Money Loans/Notes (as applicable) will be required to instruct any acceleration or enforcement of guarantees.

Notwithstanding the above, if the New Money Financing creditors accelerate or enforce guarantees in respect of the New Money Financing, the creditors of the Senior Old Money Loans/Notes and Junior Old Money Loans/Notes may take the same enforcement action against the same entity (to the extent permitted to do so under the documentation for the Consenting Old Money), provided that if the creditors in respect of the New Money Financing have notified the creditors of the Consenting Old Money that they are taking or have instructed the Security Agent to take enforcement action in relation to any Obligor or the transaction security in relation to any Obligor or its subsidiaries, no creditors of the Consenting Old Money may take any action in relation to such entity while any such enforcement action is ongoing where such action might be reasonably likely to adversely affect such enforcement action or the

question of proceeds to be realised from such enforcement action.

(b) *Security enforcement*

Consent of Majority Senior Old Money Creditors will be required to instruct any enforcement of the Old Money Collateral.

Senior Old Money Loans/Notes and Junior Old Money Loans/Notes will not be permitted to enforce the Old Money Collateral unless the New Money Financing has been repaid in full and all the bonds outstanding under the New Bonding Facilities have been released or collateralised in full.

**Relationship between Junior Old Money Loans/Notes and Senior Old Money Loans/Notes:**

The intercreditor agreement will expressly provide that no restructuring of the Junior Old Money Loans/Notes which may affect the rights and obligations of the Senior Old Money Loans/Notes creditors may be effected without the consent of the Majority Senior Old Money Creditors.

**Enforcement Rights of Other Creditors:**

(a) *New Bonding Facilities acceleration, making demand under guarantees and security enforcement*:

*Against the EPC Sub-Group:* 66.67% majority subject to a 90 day standstill (save where the New Money Financing creditors or Consenting Old Money creditors have accelerated or New Money Tranche 1 has been repaid in full).

*Against other members of the Group:* 66.67% majority, only on non-payment or where the New Money Financing creditors or Consenting Old Money creditors have accelerated, made demand under guarantees or taken other enforcement action.

(b) *New Money Financing acceleration and security enforcement*

Acceleration of New Money Tranche 1 and New Money Tranche 3, enforcement of guarantees in respect of New Money Tranche 1 and New Money Tranche 3 granted by the NM1 Group and NM1 Priority Collateral security enforcement to be controlled by the Majority NM1/NM3 Creditors (save in the case of Qualifying NM1 Creditor Decisions, where acceleration, enforcement of guarantees in respect of New Money Tranche 1 and New Money Tranche 3 and NM1 Priority Collateral security enforcement will be controlled by the Majority

Qualifying NM1 Creditors). In relation to Qualifying NM1 Creditor Decisions, the Majority Qualifying NM1 Creditors will also be entitled to require a sale of all or any part of the NM1 Priority Collateral at their discretion (at any price but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below). If the Majority Qualifying NM1 Creditors have not exercised or waived their right to accelerate / enforce / require a sale within a period of 90 days, the Majority NM1/NM3 Creditors (ignoring for this purpose paragraph (b)(i) of the definition of Majority NM1/NM3 Creditors) may exercise such right.

The New Money Tranche 3 creditors will not have any separate rights to accelerate New Money Tranche 3 or enforce the NM1 Priority Collateral other than as part of the Majority NM1/NM3 Creditors, provided that, following an event of default under New Money Tranche 3, subject to a 90 day standstill the Majority NM3 Creditors may require any member of the Group (excluding the NM1 Group) that has granted guarantees in respect of New Money Tranche 3 to provide cash collateral in respect of the outstanding amounts under New Money Tranche 3. If no, or an insufficient amount of, cash collateral is provided, the Majority NM3 Creditors may enforce guarantees granted by the Group (excluding the NM1 Group) in respect of New Money Tranche 3 subject to a 90 day standstill (save where the New Money Tranche 1 creditors or Consenting Old Money creditors have accelerated or New Money Tranche 1 has been repaid in full).

Enforcement of guarantees granted by the Group (excluding the NM1 Group) in respect of New Money Tranche 1 to be controlled by the Majority NM1 Creditors subject to prior enforcement by New Money Tranche 2, New Bonding Facilities and/or New Money Tranche 3 (as applicable) (save where the Consenting Old Money creditors have accelerated, made demand under guarantees or taken other enforcement action and the other customary exceptions consistent with the definition of "Enforcement Action" in the LMA Precedent, including where such action is necessary to preserve the validity, existing or priority of the claim).

Acceleration of New Money Tranche 2 and enforcement of guarantees in respect of New Money Tranche 2 to be controlled by a 50.1% majority of New Money Tranche 2 creditors subject to a 90 day standstill (save where the

New Money Tranche 1 creditors or Consenting Old Money creditors have accelerated or New Money Tranche 1 has been repaid in full).

Enforcement of the NM2 Priority Collateral security to be controlled by a 50.1% majority (based on the aggregate outstanding amount) of New Money Tranche 2 and New Money Tranche 3 creditors subject to a 90 day standstill (save where the New Money Tranche 1 creditors or Consenting Old Money creditors have accelerated or New Money Tranche 1 has been repaid in full), provided that no enforcement of the security over the accounts into which the NM1 Priority Collateral Surplus Value is required to be deposited or the security over the NM1 Priority Collateral Surplus Proceeds shall be permitted until New Money Tranche 1 has been repaid in full.

Enforcement of security other than NM1 Priority Collateral, NM2 Priority Collateral and Old Money Collateral to be controlled by a 66.67% majority (based on aggregate amounts outstanding of New Bonding Facilities creditors subject to a 90 day standstill (save where the New Money Tranche 1 creditors or Consenting Old Money creditors have accelerated or New Money Tranche 1 has been repaid in full), provided that no enforcement of the security over the shares of AbeNewCo1 shall be permitted where such enforcement would have an adverse impact on ABY.

**Release of Claims / Security on Enforcement and Fair Value Requirements:**

With respect to any distressed disposal other than a distressed disposal of NM1 Priority Collateral (whether by way of enforcement of the transaction security or otherwise), the relevant Security Agent will be authorised to release or transfer claims under or in connection with the Consenting Old Money and junior-ranking secured creditors with respect to the Group (including claims of the New Money Tranche 1 creditors in respect of guarantees and security granted by members of the Group) provided that the distressed disposal is effected through (a) a public auction, court approved process, sale by court supervised officer, competitive sales process or (b) any other method provided the Security Agent has obtained an opinion from a reputable and independent international investment bank or accounting firm (other than the then-current auditor of the Group) confirming that the consideration for the distressed disposal is fair from a financial point of view taking into account all relevant circumstances, including, without limitation, the method of the disposal.

With respect to any distressed disposal of the NM1 Priority Collateral (whether by way of enforcement of the transaction

security or otherwise) or a disposal pursuant to the right to dispose assets as set out in the "Undertakings in relation to A3T and ABY" section above the relevant Security Agent (or NM1 Investor Director or facility agent as applicable) will be under an obligation to the New Money Tranche 2, New Money Tranche 3 and New Bonding Facilities creditors to satisfy the following requirements:

(a) without prejudice to paragraph (b) below, with respect to NM1 Priority Collateral, to effect the disposal or enforcement through (i) a public auction, court approved process, sale by public officer or court supervised officer or competitive sales process; or (ii) any other method provided the Security Agent (or NM1 Investor Director or facility agent as applicable) has obtained an opinion from a reputable and independent international investment bank or accounting firm (other than the then-current auditor of the Group) confirming that the consideration for the disposal or enforcement is fair from a financial point of view taking into account all relevant circumstances, including, without limitation, the method of disposal or enforcement; or

(b) at the option of the Security Agent (or the NM1 Investor Director or facility agent, as applicable) as an alternative to the requirements in paragraph (a) above with respect to disposal or enforcement of NM1 Priority Collateral comprising shares in ABY or (provided that ACIL Luxco1 has no material assets other than the ABY shares and any rights related to such shares, cash, intercompany claims between ACIL Luxco1 and its subsidiaries and (if any) shares in any intermediate holding companies that hold the ABY shares) all of the shares in ACIL Luxco1, to effect the disposal or enforcement at a value determined:

(i) with reference to a marketing process in respect of all or part of the shares in ABY (to be taken into account also, for the avoidance of doubt, in the case of a disposal or enforcement of the shares in ACIL Luxco1) conducted at or around the time of enforcement or disposal (or as soon as reasonably practicable (having regard to all of the circumstances including, without limitation, the practicalities of marketing the shares in ABY arising from relevant securities law and regulation) following the date of the disposal or enforcement) by an independent internationally recognised investment bank appointed by or on behalf of the Security Agent (or NM1 Investor

Director or facility agent as applicable); and/or

(ii) with respect to an enforcement (including appropriation) other than by way of disposal of shares in ABY or ACIL Luxco1, by applying a discount to the market price of the shares in ABY the subject (direct or indirect) of the enforcement (to be taken into account also, for the avoidance of doubt, in the case of an enforcement of the shares in ACIL Luxco1) which takes account of all information which is available to the Security Agent (or NM1 Investor Director or facility agent as applicable) in its capacity as such, whether publicly or otherwise, and considered by the Security Agent (or NM1 Investor Director or facility agent as applicable) acting in good faith to be relevant to such determination; and

(iii) with respect to cash of ACIL Luxco1 and its subsidiaries, at face value,

and, in each case, the Security Agent will be authorised to release or transfer claims (including with respect to New Money Tranche 3) in relation to the NM1 Group and the NM1 Priority Collateral.

In respect of any distressed disposal (whether by way of enforcement of the transaction security or otherwise including, without limitation, enforcement of the title transfer collateral arrangements without transferring legal title to such collateral) of:

(c) all of the shares of any holding company ("**A3T Holding Company**") of which A3T is a (directly or indirectly) wholly-owned subsidiary or which otherwise holds (directly or indirectly) all of the assets of A3T ("**A3T Holding Company Distressed Disposal**"); or

(d) all of the shares of any holding company ("**ABY Holding Company**") that (directly or indirectly) holds all of the shares in ABY forming part of the NM1 Priority Collateral ("**ABY Holding Company Distressed Disposal**" and, together with A3T Holding Company Distressed Disposal, each a "**Holding Company Distressed Disposal**"),

the relevant Security Agent (or NM1 Investor Director or facility agent as applicable) will only be under an obligation to the New Money Tranche 2, New Money Tranche 3 and New Bonding Facilities creditors to satisfy the requirements in the above paragraph once and will not be required to satisfy the

requirements in the above paragraph with respect to any subsequent distressed disposal or enforcement of:

(i) in the case of an A3T Holding Company Distressed Disposal, any A3T Holding Company, any wholly-owned subsidiary of the A3T Holding Company or the assets of A3T; or

(ii) in the case of an ABY Holding Company Distressed Disposal, any ABY Holding Company, any wholly-owned subsidiary of the ABY Holding Company or any of the shares of ABY forming part of the NM1 Priority Collateral,

(each a "**Subsequent Disposal**"), and such Subsequent Disposal may be effected by any method, and at such value, as determined in accordance with any applicable law (and subject to the terms of the transaction security documents) and otherwise in the discretion of the relevant Security Agent (or NM1 Investor Director or facility agent as applicable) in accordance with the terms of the relevant intercreditor agreement.

The release of claims and security enforcement with respect to the NM1 Group and NM1 Priority Collateral will be separately regulated by an intercreditor agreement involving the New Money Tranche 1 creditors, the New Money Tranche 3 creditors and the members of the NM1 Group, provided that the New Money Tranche 2 Security Agent and the New Bonding Facilities Security Agent will be a party to this intercreditor agreement solely for the purpose of benefiting from the protection set out in this section.

For the purposes of this section "Release of Claims / Security on Enforcement and Fair Value Requirements" a "distressed disposal" shall be deemed to include any enforcement of the title transfer collateral arrangements resulting in the termination of A3TLuxco2 and/or ACIL Luxco2's rights to require a retransfer of the shares of A3TLuxco1 or ACIL Luxco2.

**NM1 Priority Collateral Surplus Value:**

The accounts of A3T Luxco2 and ACIL Luxco2 into which the cash proceeds of NM1 Priority Collateral Surplus Value must be deposited will be subject to an account bank arrangement pursuant to which the only deposits that may be made into such accounts are the deposit of NM1 Priority Collateral Surplus Value by the NM1 Priority Collateral security agent.

NM1 Priority Collateral Surplus Value must be returned in the form of cash and/or return of NM1 Priority Collateral (provided that the collateral returned is not a shareholding of less than

100% in any of the NM1 Group members) but not alternative/substitute securities or assets.

## PART 5
## POST-RESTRUCTURING TERMS AND GOVERNANCE: EQUITY

### Shares

The intention is to capitalise amounts to achieve the equity allocation described in Part 1 of the Term Sheet and collapse the dual class shares of the Parent.

The capitalisation will be executed by means of share capital increases to offset credits (*aumento por compensación de créditos*) through the issue of, and subscription to, Class A and Class B shares proportionally to the number of shares of each class existing at that time.

The collapse of the dual–class shares into one single class of ordinary shares will be submitted for approval at the same shareholders' meeting of the Parent as the capitalization under a separate agenda item immediately following the agenda item dealing with the capitalisation.

A separate class vote of each of Class A and Class B shares will be required to approve the collapse of the two classes.

If the dual–class collapse resolution is not approved, the dual–class share structure will remain in place.

A management incentive plan will be put in place on terms approved by the Majority New Money Creditors. The management incentive plan will, among other things, incentivise:

(a) repayment of New Money Tranche 1, New Money Tranche 2 and full payment or release of bonds issued under the Bonding Facilities, as well as avoiding utilisation of New Money Tranche 3;

(b) completion of A3T, NM2 Priority Collateral and other projects comprising collateral on time and on budget; and

(c) achieving any outstanding change of control and cross-default waivers and other ring-fencing steps with respect to ABY. The board of directors of the Parent will be entitled to issue shares as part of the management incentive plan up to a maximum amount to be determined by the general shareholders meeting.

### Warrants

Warrants will be issued to the existing shareholders of the Parent as described in Part 1 of this Term Sheet. Warrant issuance will require:

(a) a directors' report on the conversion and anti-dilution mechanics (confirming that the dilution is no greater than it would have been had the shareholders received an additional 5% of the shares in the Parent on the Restructuring Completion Date); and

(b) a report from an independent expert to be appointed by the commercial registry on the directors' report.

**Corporate Governance and Board Composition**

New by-laws and new regulations of the board of directors of the Parent will need to be approved in order to comply with the most recent Good Governance Code of Listed Companies published by CMNV (and will, among other things, provide for a majority of the board of directors of the Parent to be independent directors).

In addition to a technical improvement, the new by-laws will establish, among other corporate governance principles, the separation of the roles of chairman of the board of directors of the Parent and of chief executive officer of the Group and will include a more balanced regulation on the remuneration of directors.

The following board observer may be appointed to the board of directors of the Parent:

(a) the Majority Qualifying NM1 Creditors may appoint one board observer;

(b) the Majority NM1 Creditors may appoint one board observer; and

(c) the Majority NM2 Creditors may appoint one board observer.

Fees and other costs of board observers will be borne by relevant creditors (or relevant majority of creditor) requiring the observer.

Board composition of Orphan Holdco and A3T to be agreed by the Majority Qualifying NM1 Creditors.

In order to facilitate the Restructuring process and ensure that the Parent operates in a manner consistent with the Business Plan and meets the highest standards of corporate governance, the Parent has proposed to undertake certain actions and comply with certain requirements. At the request of the Parent, such actions and requirements will be included in the Restructuring Agreement as follows:

(a) within the context of the Restructuring and until its implementation, the Parent will appoint an independent individual as adviser to the board of directors (the "**Adviser**") for matters related with the Business Plan (specifically including consistency of disinvestments and cash uses with the Business Plan during the interim period) and the fulfilment of the conditions precedent for the effectiveness of the Restructuring Agreement. The Adviser shall not have any executive or management functions; it will only be available by both the Parent and its creditors to verify and confirm whether the actions carried out by the Parent during the interim period are consistent with the Business Plan and the conditions precedent to the Restructuring are being met and complied with. The removal, lack of delivery of information and/or any other impediments to the exercise of its roles by the Adviser, shall be deemed to constitute a termination event under the Restructuring Agreement. The Adviser is to be appointed prior to the Signing Date, at the proposal of the human resources firm Spencer Stuart (the "**Consultant**"), which has been hired by the Parent for these purposes;

(b) until a new board of directors is appointed once the Restructuring Agreement has been approved by the Seville Court through the "homologación judicial", any removal of members of the current board of directors (as the one responsible for launching the restructuring proposal contained in the Restructuring Agreement) or of the roles of

their members shall be deemed to constitute a termination event under the Restructuring Agreement; and

(c) a general shareholders' meeting of the Parent is to be called and take place as soon as the Restructuring Agreement has been approved by the Seville Court through the "homologación judicial", in which agenda the appointment of new members of the board of directors will be included. Such general shareholders' meeting shall appoint a completely new board of independent directors, following a proposal made by the Consultant. If any of these actions are not carried out within the terms above, a termination event under the Restructuring Agreement will be deemed to have occurred.

**NM1 Monitor / NM1 Investor Director – NM1 Group**

The Majority Qualifying NM1 Creditors will be entitled to appoint and remove the NM1 Investor Director.

The Majority Qualifying NM1 Creditors will be entitled to monitoring rights to be agreed in respect of the NM1 Priority Collateral including, without limitation, the appointment of an NM1 Monitor.

The senior management team of members of the NM1 Group proposed by the board must be acceptable to the Majority Qualifying NM1 Creditors.

**Other Governance Arrangements**

Board to consider the Parent becoming a US registrant and, if requirements are met, admission to listing of the shares of the Parent on the NASDAQ Stock Exchange or another regulated exchange to be agreed in addition to maintaining the list of the Madrid and Barcelona Stock Exchanges.

The arrangements in relation to notification for insolvency filings and protection against COMI changes described in Schedule 1 will be maintained.

## PART 6
## DEFINITIONS

"**A3T**" means Abent 3T, S. de R.L. de C.V., a company incorporated in Mexico.

"**A3TLuxco1**" means a newly incorporated Luxembourg special purpose vehicle company (s.à r.l) to be fully-owned by (a) prior to the title transfer collateral arrangements, A3TLuxco2 and (b) following the title transfer collateral arrangements, Orphan Holdco, and that will act as the holding company for A3T.

"**A3TLuxco2**" means a newly incorporated Luxembourg special purpose vehicle company (s.à r.l) to be fully-owned by A3T Energia S.A, A3T Holdco España S.A. and Abengoa Mexico S.A and that will, prior to the title transfer collateral arrangements, own the 100% shares in A3TLuxco1.

"**AbeNewco2**" means a newly incorporated Spanish special purpose vehicle company (*sociedad anónima*) to be fully-owned by Parent and that will own the 100% shares in AbeNewco1.

"**AbeNewco1**" means a newly incorporated Spanish special purpose vehicle company *sociedad anónima*) to be fully-owned by AbeNewco2 and that will hold (i) all shares and participations currently owned by Parent in its direct subsidiaries and (ii) any other Parent's asset that is capable of being contributed without consent of holders of liabilities in respect of that asset.

"**ABY**" means Atlantica Yield plc (previously Abengoa Yield plc), a public limited company incorporated in England with company number 08818211 having its registered office at Great West House (GW1), Great West Road, Brentford, Middlesex, Greater London, United Kingdom, TW8 9DF.

"**ABY Group**" means ABY and its subsidiaries.

"**ACIL Luxco2**" means a newly incorporated Luxembourg special purpose vehicle company (s.à r.l) to be fully-owned by Abengoa Concessions Investments Limited and that will, prior to the title transfer collateral arrangements, own the 100% shares in ACIL Luxco1.

"**ACIL Luxco1**" means a newly incorporated Luxembourg special purpose vehicle company (s.à r.l) to be fully-owned by (a) prior to the title transfer collateral arrangements, ACIL Luxco2 and (b) following the title transfer collateral arrangements, Orphan Holdco, and that will own the ABY shares currently owned by Abengoa Concessions Investments Limited.

"**Alternative Restructuring Terms**" means the restructuring terms described (without limitation) in Sections (B) and (C) of Part 1; Sections (D), (E) and (F) of Part 2; Part 3 and Part 4 of this Term Sheet.

"**Brazilian Excluded Entities**" means each member of the Group not forming an integral part of the future Business Plan and identified as such in the Restructuring Steps Plan.

"**Bioenergy Excluded Entities**" means each member of the Group not forming an integral part of the future Business Plan and identified as such in the Restructuring Steps Plan.

"**Business Plan**" means the "Updated Viability Plan and Restructuring Proposal" prepared and approved by the board of directors of the Parent on 24 May 2016 with external advice from its financial and legal advisors.

"**Chilean Excluded Entities**" means each member of the Group not forming an integral part of the future Business Plan and identified as such in the Restructuring Steps Plan.

"**Consenting Existing Creditors**" means Existing Creditors who sign or accede to the Restructuring Agreement in accordance with its terms and elect for the Alternative Restructuring Terms.

"**Consenting Old Money Reduction**" means the initial 70% reduction in the principal and accrued but unpaid interest applicable to the Existing Loans/Notes and Existing Bonding Facilities, any subsequent additional reduction set out in the "Consenting Old Money" section of Section (B) of Part 1, and any further reduction agreed by the Consenting Old Money creditors.

"**Debt Instruments**" means the principal financing documents for the New Money Financing, the New Bonding Facilities and the Consenting Old Money.

"**EPC Sub-Group**" means the Group other than the NM2 Priority Collateral and the Old Money Collateral (and, for the avoidance of doubt, excluding the NM1 Group).

"**Excluded Entities**" means the Brazilian Excluded Entities, the Chilean Excluded Entities and the Bioenergy Excluded Entities.

"**Existing Creditors**" means creditors in respect of Affected Debt and/or Non-Spanish Debt to be Restructured.

"**Existing English Law Notes**" means the existing English law governed notes to be detailed in the relevant schedule of the Restructuring Agreement.

"**Existing NY Law Notes**" means the existing New York law governed notes to be detailed in the relevant schedule of the Restructuring Agreement.

"**Finance Documents**" means the Restructuring Agreement, the Debt Instruments and related financing documents identified as such in the Debt Instruments (including without limitation intercreditor agreements, security documents and fee letters).

"**Group**" means the Parent and all companies which are controlled directly or indirectly by the Parent in the terms of Article 42 of the Spanish Commercial Code (or any other article which may substitute or replace such Article) but excluding the NM1 Group.

"**Initial Bonding Providers**" means Banco Popular Español, S.A., Banco Santander, S.A., Bankia, S.A., Caixabank, S.A. and Credit Agricole Corporate and Investment Bank, Sucursal en España.

"**Key Project Entity**" means:

(c) with respect to A3T, Abent 3T S.A.P.I. de C.V.;

(d) with respect to A4T, ACC 4T S.A.P.I. de C.V.;

(e) with respect to Norte III, Abeinsa Juárez Norte III S.A. de C.V.;

(f) with respect to Zapotillo, Concesionaria del Acueducto de Zapotillo S.A. de C.V.;

(g) with respect to SAW, Abengoa Vista Ridge LLC;

(h) with respect to Cárcel, Unidad Punta de Rieles S.A.;

(i) with respect to ATN3, ATN3, S.A.;

(j) with respect to Dgen, Dgen Transmission Co., Ltd.;

(k) with respect to Delany, DCR Transmission LLC; and

(l) with respect to Atacama I, CSP Atacama Uno, S.A. and PV Atacama Uno, S.A.,

and, in each case, such other special purpose shareholders of those entities as may be agreed.

"**Key Projects**" means the projects referred to in the Business Plan as A3T, A4T, Norte III, Zapotillo, ATN3, Cárcel, Dgen, Delaney, Atacama I and SAW.

"**Liquidity Covenant**" has the meaning given to such term in the Financial Covenant section in Part 3.

"**LMA Precedent**" means, as applicable, the Loan Markets Association's recommended form of facilities agreement for leveraged finance transactions (senior/mezzanine) and/or the recommended form(s) of intercreditor agreement.

"**Majority New Bonding Creditors**" means New Bonding Facilities creditors whose commitments represent more than 50% of the aggregate New Bonding Facilities commitments.

"**Majority New Money Creditors**" means each of (a) the Majority Qualifying NM1 Creditors; and (b) New Money Financing creditors who represent more than 50% of the aggregate New Money Financing.

"**Majority NM1 Creditors**" means both (a) the Majority Qualifying NM1 Creditors and; (b) the New Money Tranche 1 creditors whose aggregate New Money Tranche 1 commitments (until drawn and thereafter the principal amount outstanding and, in the case of New Money Notes under New Money Tranche 1, principal outstanding) represent more than 50% of the aggregate New Money Tranche 1 commitments (until drawn and thereafter the principal amount outstanding and, in the case of New Money Notes under New Money Tranche 1, principal outstanding) of all New Money Tranche 1 creditors.

"**Majority NM1/NM3 Creditors**" means:

(a) for the purposes of confirming approval of the conditions precedent, or in respect of any amendments or waivers relating to the conditions precedent, each of:

(i) the Qualifying NM1 Creditors whose New Money Tranche 1 commitments (until drawn and thereafter the principal amount outstanding and, in the case of New Money Notes under New Money Tranche 1, principal outstanding)

represent more than 66⅔% of the aggregate New Money Tranche 1 commitments (until drawn and thereafter the principal amount outstanding and, in the case of New Money Notes under New Money Tranche 1, principal amount outstanding) of all Qualifying NM1 Creditors; and

(ii) the New Money Tranche 1 creditors and New Money Tranche 3 creditors whose aggregate New Money Tranche 1 commitments (until drawn and thereafter the principal amount outstanding and, in the case of New Money Notes under New Money Tranche 1, principal outstanding) and New Money Tranche 3 outstanding amounts and commitments represent more than 50% of the aggregate New Money Tranche 1 commitments (until drawn and thereafter the principal amount outstanding and, in the case of New Money Notes under New Money Tranche 1, principal outstanding) and New Money Tranche 3 outstanding amounts and commitments of all New Money Tranche 1 creditors and New Money Tranche 3 creditors; and

(b) for all other purposes, each of

(i) the Majority Qualifying NM1 Creditors; and

(ii) the New Money Tranche 1 creditors and New Money Tranche 3 creditors whose aggregate New Money Tranche 1 commitments and New Money Tranche 3 outstanding amounts and commitments represent more than 50% of the aggregate New Money Tranche 1 commitments and New Money Tranche 3 outstanding amounts and commitments of all New Money Tranche 1 creditors and New Money Tranche 3 creditors.

"**Majority NM2 Creditors**" means New Money Tranche 2 creditors whose aggregate New Money Tranche 2 outstanding amounts and commitments represent more than 50% of the aggregate New Money Tranche 2 outstanding amounts and commitments of all New Money Tranche 2 creditors.

"**Majority NM3 Creditors**" means New Money Tranche 3 creditors whose aggregate New Money Tranche 3 outstanding amounts and commitments represent more than 50% of the aggregate New Money Tranche 3 outstanding amounts and commitments of all New Money Tranche 3 creditors.

"**Majority Qualifying NM1 Creditors**" means Qualifying NM1 Creditors whose New Money Tranche 1 commitments (and, in the case of New Money Notes under New Money Tranche 1, principal amount outstanding) represent more than 50% of the aggregate New Money Tranche 1 commitments (and, in the case of New Money Notes under New Money Tranche 1, principal amount outstanding) of all Qualifying NM1 Creditors.

"**Majority Senior Old Money Creditors**" means Senior Old Money Loans/Notes creditors whose participations in the Senior Old Money Loans/Notes represent more than 50% of the aggregate Senior Old Money Loans/Notes.

"**Net Proceeds**" means the amount receivable by the NM1 Group or Group after customary deductions including reasonable costs, expenses and taxes and any amounts applied in the repayment of local facilities.

"**New Bonding Commitment Letter**" means the commitment letter entered into on or about the date of the New Money Financing Commitment Letter between, among others, the Initial Bonding Providers pursuant to which they agree to lend or subscribe for (all or part) of the New Bonding Facilities.

"**New Money Financing**" means the new money financing described in Part 2 of this Term Sheet.

"**New Money Financing Commitment Letter**" means the commitment letter to which this Term Sheet is attached as an annex.

"**New Money Loans**" has the meaning given to such term in the New Money Financing Commitment Letter.

"**New Money Notes**" has the meaning given to such term in the New Money Financing Commitment Letter.

"**NM1 Group**" means OrphanCo and its subsidiaries (including, following the title transfer collateral arrangements A3TLuxco1, A3T and ACIL Luxco1), Abengoa Concessions Investments Limited, ACIL Luxco2, A3TLuxco2 and A3T HoldCo España S.A..

"**NM1 Investor Director**" means the director of Orphan Holdco, A3T and any other relevant member(s) of the NM1 Group appointed from time to time by the Majority Qualifying NM1 Creditors.

"**NM1 Monitor**" means the entity appointed by the Majority Qualifying NM1 Creditors to exercise their monitoring rights in respect of the NM1 Priority Collateral.

"**NM1 Priority Collateral**" means:

(a) all of the assets (including, without limitation, shares and shareholder loans) of:

(i) Orphan Holdco (including, without limitation, rights under the proceeds loans on-lending the proceeds of New Money Tranche 1 and New Money Tranche 3);

(ii) ACIL;

(iii) ACIL Luxco1 (including, without limitation, all of the ABY shares currently owned by ACIL (which are to be transferred to ACIL Luxco 1) and all distributions from ABY to be paid into a separate blocked account);

(iv) ACIL Luxco2 (other than the account of ACIL Luxco 2 into which the NM1 Priority Collateral Surplus Value is to be deposited);

(v) A3T;

(vi) A3TLuxco1 (including all distributions from A3T, to be paid into a separate blocked account); and

(vii) A3TLuxco2 (other than the account of A3TLuxco2 into which the NM1 Priority Collateral Surplus Value is to be deposited);

(b) all of the shares in:

(i) Orphan Holdco;

(ii) ACIL;

(iii) A3TLuxco2; and

(iv) A3T HoldCo España S.A.; and

(c) the escrow account in which a portion of the proceeds of New Money Tranche 1 are to be held.

Upon discharge in full of New Money Tranche 1 and New Money Tranche 3, any remaining NM1 Priority Collateral will revert as, and be considered, NM1 Priority Collateral Surplus Proceeds or NM1 Priority Collateral Surplus Value.

The transaction security will not be subject to limitations.

"**NM1 Priority Collateral Surplus Proceeds**" means any proceeds received by (or due and payable to) ACIL Luxco2 or A3TLuxco2 in respect of the NM1 Priority Collateral following the discharge in full of New Money Tranche 1 and New Money Tranche 3, including any NM1 Priority Collateral Surplus Value and excluding for the avoidance of doubt any rights held by ACIL Luxco2 or A3T Luxco2 against any other member of the NM1 Group in respect of the NM1 Priority Collateral.

"**NM1 Priority Collateral Surplus Value**" means any cash or cash equivalents to be received by ACIL Luxco2 and A3TLuxco2 or to which they are entitled in respect of the NM1 Priority Collateral following the discharge in full of New Money Tranche 1 and New Money Tranche 3.

"**NM2 Priority Collateral**" means the NM1 Priority Collateral Surplus Value, the NM1 Priority Collateral Surplus Proceeds, the shares of the holding companies of the project companies owning and developing the Zapotillo, SAWS and Cárcel projects and intra-group loans granted in respect of the project companies of such projects or their shareholders. In addition, the shares of the project companies owning and developing the Zapotillo, SAWS and Cárcel projects will be subject to security and form part of the NM2 Priority Collateral to the extent that the lenders under each project finance and, if applicable, the concession-granting authority consent to the creation of junior-ranking security over those shares.

"**Non-Consenting Creditors**" means creditors in respect of Affected Debt or Non-Spanish Debt to be Restructured other than Consenting Existing Creditors.

"**Obligor**" means a Borrower, a Guarantor or an Issuer.

"**Old Money Collateral**" means the security granted by Abengoa S.A. in favour of the Consenting Old Money creditors over the shares in AbeNewco2.

"**OrphanCo**" means an orphan SPV not owned by any member of the Group and established for the purpose of acting as the holding company of Orphan Holdco.

"**Orphan Holdco**" means an orphan SPV not owned by any member of the Group and established for the purpose of acting as the holding company of A3TLuxco1 and ACIL Luxco1.

"**Parent**" means Abengoa, S.A.

"**Qualifying NM1 Creditor Decisions**" means the decisions specified as such in the "Undertakings" section in Part 3 of this Term Sheet and which shall be made by the Majority Qualifying NM1 Creditors.

"**Qualifying NM1 Creditors**" means:

(a) for the purposes of any consent, approval or decision ("**decisions**") required to be given, or contemplated to be given, on or prior to the date of first drawdown under New Money Tranche 1 (the "**NM1 Initial Funding Date**"), both (1) New Money Tranche 1 creditors who certify at the time of the relevant decision that the face amount of the aggregate Senior Old Money Loans/Notes, Junior Old Money Loans/Notes and New Bonding Facilities together with the Initial Anchor Commitments in respect of New Money Tranche 2 and the Initial Anchor Commitments in respect of New Money Tranche 3 ("**Pre Funding Old Money Claims**") which it and its Affiliates or Related Funds hold or, under the terms of the Restructuring Agreement, will be entitled to hold on the Restructuring Completion Date (as well as any person with whom it or any of its Affiliates or Related Funds has entered into a sub-participation, total return swap, credit default swap or any other agreement or arrangement having an economic effect similar to a sub-participation, total return swap or credit default swap, in each case where such transaction is entered into in respect of a Pre Funding Old Money Claim) is less than one third of the amount of the Initial Anchor Commitment in respect of New Money Tranche 1 held by it and its Affiliates or Related Funds (when combined with the Initial Anchor Commitment in respect of New Money Tranche 1 held by any person with whom it or any of its Affiliates or Related Funds has entered into a sub-participation, total return swap, credit default swap or any other agreement or arrangement having an economic effect similar to a sub-participation, total return swap or credit default swap, in each case where such transaction is entered into in respect of an Initial Anchor Commitment in respect of New Money Tranche 1); and (2) New Money Tranche 1 creditors who certify at the time of the relevant decision that the face amount of the aggregate Pre Funding Old Money Claims which it and its Affiliates or Related Funds hold or, under the terms of the Restructuring Agreement, will be entitled to hold on the Restructuring Completion Date (as well as any person with whom it or any of its Affiliates or Related Funds has entered into a sub-participation, total return swap, credit default swap or any other agreement or arrangement having an economic effect similar to a sub-participation, total return swap or credit default swap, in each case where such transaction is entered into in respect of a Pre Funding Old Money Claim) is less than one third of the amount of the New Money Tranche 1 allocated to it and its Affiliates or Related Funds under and in accordance with the terms of the New Money Financing Commitment Letter as at the time of the relevant decision (the "**NM1 Commitment Allocation**") (when combined with the NM1 Commitment Allocation held by any person with whom it or any of its Affiliates or Related Funds has entered into a sub-participation, total return swap, credit default swap or any other agreement or arrangement having an economic effect similar to a sub-participation,

total return swap or credit default swap, in each case where such transaction is entered into respect of such NM1 Commitment Allocation); and

(b) for the purposes of any decisions required to be given, or contemplated to be given, after the NM1 Initial Funding Date, New Money Tranche 1 creditors who certify at the time of the relevant decision that the face amount of the aggregate Senior Old Money Loans/Notes, Junior Old Money Loans/Notes, New Bonding Facilities, New Money Tranche 2 and New Money Tranche 3 commitments ("**Post Funding Old Money Claims**") held by it and its Affiliates or Related Funds (as well as any person with whom it or any of its Affiliates or Related Funds has entered into a sub-participation, total return swap, credit default swap or any other agreement or arrangement having an economic effect similar to a sub-participation, total return swap or credit default swap, in each case where such transaction is entered into in respect of a Post Funding Old Money Claim) is less than one third of the amount of New Money Tranche 1 commitment held by it and its Affiliates or Related Funds (until drawn and thereafter the principal amount outstanding and, in the case of New Money Notes under New Money Tranche 1, principal outstanding) (when combined with the New Money Tranche 1 commitments (until drawn and thereafter the principal amount outstanding and, in the case of New Money Notes under New Money Tranche 1, principal outstanding) held by any person with whom it or any of its Affiliates or Related Funds has entered into a sub-participation, total return swap, credit default swap or any other agreement or arrangement having an economic effect similar to a sub-participation, total return swap or credit default swap, in each case where such transaction is entered into respect of such New Money Tranche 1 commitment),

and, for the purposes of any decisions required to be given, or contemplated to be given prior to the NM1 Initial Funding Date, the determination of whether any group of creditors constitutes the Majority Qualifying NM1 Creditors or the Super Majority Qualifying Creditors, that determination shall be made by way of a calculation of the relevant majority by reference to both the Qualifying NM1 Creditors falling within paragraph (a)(1) above and by way of a calculation of the relevant majority by reference to the Qualifying NM1 Creditors falling within paragraph (a)(2) above and only if the required majority is met by both calculations will the required majority have been satisfied.

"**Restructuring Agreement**" means the restructuring agreement to be entered into between, among others, the Parent, the Anchor Funders (as defined in the New Money Financing Commitment Letter) and the other creditors listed therein as the Original Participation Creditors in form and substance satisfactory to the Parent and each Anchor Funder (as defined in the New Money Financing Commitment Letter).

"**Restructuring Completion Date**" means the date to be determined in accordance with the Restructuring Agreement on which the restructuring documentation (including the New Money Finance Documents) has become unconditional and all steps set to be out in the Restructuring Steps Plan have been completed.

"**Restructuring Steps Commencement Date**" has the meaning given to such term in Schedule 1.

"**Restructuring Steps Plan**" means the restructuring steps plan to be attached as a schedule to the Restructuring Agreement.

"**September 2014 Bank Facility**" means Spanish law governed Spanish language syndicated facility agreement dated 30 September 2014 to be detailed in the relevant schedule to the Restructuring Agreement.

"**Signing Date**" means the date on which the Restructuring Agreement is signed by the original parties to the Restructuring Agreement.

"**Standard Restructuring Terms**" means the restructuring terms applicable to Non-Consenting Creditors, summarised in Section (D) of Part 1 and detailed in the Restructuring Agreement.

"**Super Majority Qualifying NM1 Creditors**" means the Qualifying NM1 Creditors whose New Money Tranche 1 commitments (until drawn and thereafter the principal amount outstanding and, in the case of New Money Notes under New Money Tranche 1, principal outstanding) represent more than 85% of the aggregate New Money Tranche 1 commitments (until drawn and thereafter the principal amount outstanding and, in the case of New Money Notes under New Money Tranche 1, principal outstanding) of all Qualifying NM1 Creditors.

## SCHEDULE 1
## INITIAL CONDITIONS PRECEDENT

The following documents and evidence are to be in form and substance satisfactory to each of the Majority NM1/NM3 Creditors, the Majority NM2 Creditors and the Majority New Bonding Creditors and any amendments or waivers of these conditions precedents will require the approval of each such group of creditors.

| | **Initial Condition Precedent** |
|---|---|
| 1. | Written confirmation of satisfaction of all conditions precedent to the commencement of the steps necessary to implement the proposed Restructuring identified in the Restructuring Steps Plan (the date on which such written confirmation is given to be referred to in the Restructuring Agreement as the "**Restructuring Steps Commencement Date**"), which shall include:<br><br>(a) implementation of the Standard Restructuring Terms to Non-Consenting Creditors pursuant to *homologación*, English Company Voluntary Arrangement (without any amendment, modification, alteration or qualification) and any other relevant procedure in any other jurisdiction identified in the Restructuring Steps Plan;<br><br>(b) the issuance of a *homologation* ruling having the effect of (i) extending the Standard Restructuring Terms to the Non-Consenting Creditors; and (ii) protecting the Restructuring Agreement and the actions required to implement the corporate restructuring described in the Restructuring Agreement in accordance with the Fourth Additional Disposition of the Spanish Insolvency Law;<br><br>(c) an order of the bankruptcy court for the District of Delaware confirming the relevant Chapter 11 plans of reorganisation filed in the Chapter 11 proceedings of the Go Forward Chapter 11 Companies identified in the Restructuring Agreement and providing for the implementation of the Standard Restructuring Terms with respect to the relevant Chapter 11 companies (i) has been entered, (ii) is in full force and effect, and (iii) has not been modified, amended, reversed, vacated or subject to a stay; and<br><br>(d) Chapter 15 recognition (or equivalent recognition in any other jurisdiction identified in the Restructuring Steps Plan) of the homologación, the Company Voluntary Arrangement and any other relevant procedure in any other jurisdiction identified in the Restructuring Steps Plan. |

| | **Initial Condition Precedent** |
|---|---|
| | Before the Restructuring Steps Commencement Date (i) the judge has not accepted any challenge in respect of the April homologación and the homologación to be filed on or around September 2016 that may negatively affect the content or expected effects of this Restructuring as defined in this Term Sheet or the size of the debt under the Business Plan; and (ii) no other issue has arisen which may adversely affect the implementation of the Restructuring through all relevant procedures in all relevant jurisdictions (including through Chapter 11, Chapter 15 and English Company Voluntary Arrangement procedures). |
| 2. | Evidence that on the Restructuring Steps Commencement Date binding commitments for:<br><br>(a) the New Money Financing; and<br><br>(b) the New Bonding Facilities, including minimum commitments of at least EUR250m under the New Syndicated Bonding Tranche and the Roll Over Bonding Tranche,<br><br>are in force and any conditions to utilisation have been (or will, on the Restructuring Steps Commencement Date, be) satisfied, including implementation of any agreed escrow arrangements. |
| 3. | Constitutional documents, corporate authorisations (including shareholder approvals as required), powers of attorney and officer's certificates for each Obligor and shareholder. |
| 4. | Copies of all executed definitive Finance Documents (including, without limitation, the Restructuring Agreement, New Money Financing finance documents, intercreditor agreement and security documents). |
| 5. | Transaction security granted and all notices and other perfection steps delivered/taken (including any consents required from counterparties and a custody agreement, deed of acknowledgement and SEC registration rights agreement and registration statement with respect to the ABY shares). |
| 6. | The following reports:<br><br>(a) Board of directors' report, based on the advice of external experts, determining the amount of actual and contingent liabilities of members of the Group (other than an Excluded Entity) (as have been included in the Business Plan) to or in connection with the Excluded Entities, in each case quantifying the potential contingencies in respect of (i) bonding lines / bank guarantees; (ii) trade creditors with a Parent guarantee; and (iii) any other Parent guarantees. The maximum aggregate amount of liabilities in respect of (ii) and (iii) shall not exceed an amount to be agreed; |

| | **Initial Condition Precedent** |
|---|---|
| | (b) Board of directors' report, based on the advice of external experts, confirming that in respect of each company seeking to impose Standard Restructuring Terms, treatment under the Standard Restructuring Terms is better for all creditors of that company than that on a liquidation of the Group (including that company);<br><br>(c) Linklaters, S.L.P. tax structure paper in relation to the Restructuring and the Restructuring Steps Plan (including in relation to the structuring steps and transfers contemplated in the Restructuring Steps Plan) in a form reasonably acceptable to the NM1 Committee (as defined in the Restructuring Agreement), with such condition to be satisfied if the NM1 Committee (as defined in the Restructuring Agreement) is satisfied (acting reasonably and in good faith) that there are no significantly adverse cash tax costs:<br><br>(i) incurred by the NM1 Group in connection with the implementation and consummation of the Restructuring; and<br><br>(ii) likely to be incurred by the NM1 Group as a result of the sale of any of the NM1 Priority Collateral (including as a result of enforcement of security);<br><br>(d) independent confirmation that the implementation and maintenance of the structure contemplated by the Restructuring will not have an impact on the Business Plan;<br><br>(e) valuation reports from reputable independent internationally recognised valuation experts to the extent necessary or desirable to implement the Restructuring including, without limitation, in respect of the contribution of shares in A3T and intercompany receivables owed by A3T to A3TLuxco2 by the shareholders and intercompany creditors of A3T as set out in the Restructuring Steps Plan. |
| 7. | The financial model. |
| 8. | Know your customer/anti-corruption/anti-money laundering requirements of each New Money Financing creditor. |
| 9. | Business Plan and budget (including operational restructuring and implementation plan) together with a favourable report by an independent expert appointed by the Commercial Registry for the purposes of Section 71.bis.4 of the Insolvency Act and section 8.(d) of *Real Decreto 1066/2007, de 27 de julio, sobre el régimen de las ofertas públicas de adquisición de valores*. The independent expert's report must be delivered simultaneously at Signing Date. |
| 10. | Customary legal opinions. |

| | **Initial Condition Precedent** |
|---|---|
| 11. | Satisfactory Luxembourg law opinion:<br><br>(a) on the the security given in favour of New Money Tranche 2 and New Bonding Facilities, the title transfer arrangements and the NM1 Group structure; and<br><br>(b) on the security given in favour of the NM1 Priority Collateral, the title transfer arrangements and the NM1 Group structure. |
| 12. | Certified group structure chart. |
| 13. | Most recent financial statements for each Obligor. |
| 14. | Written confirmation of appointment of agents, including but not limited to, agents for the service of process, trustees in respect of any Notes, Security Agents, registrars, transfer agents, calculation agents and paying agents. |
| 15. | Cleansing announcement published. |
| 16. | Escrow accounts, NM1 DSRA and NM1 Priority Collateral Surplus Value accounts established. |
| 17. | Funds flow statement showing the flow of funds on or about the Restructuring Steps Commencement Date. |
| 18. | Payment of agreed fees (including financial and legal advisors), costs and expenses in connection with the Restructuring (including Administration Costs (as defined in the Restructuring Agreement)) from the proceeds of New Money Tranche 1A on the Restructuring Steps Commencement Date. |
| 19. | Completion of the listing of any Notes on the regulated or unregulated market of either the Luxembourg or Irish Stock Exchange has been made. |
| 20. | Confirmation that any Notes have been approved and are eligible to be cleared on an internationally recognised clearing system. |
| 21. | Receipt of relevant ISINs for any Notes. |
| 22. | Evidence of repayment of any portion of the Non-Compromised Debt to be repaid in accordance with the funds flow statement and release of any existing security (other than security expressly permitted to remain in place). |
| 23. | Evidence of any other authorisations reasonably required. |
| 24. | Appointment of the NM1 Monitor. |
| 25. | Satisfactory legal comfort from Mexican counsel to the New Money Financing creditors that no anti-trust clearances are required in Mexico or that any such clearances have been obtained. |

| | **Initial Condition Precedent** |
|---|---|
| 26. | Satisfactory resolution, including, without limitation, a review by an independent third party confirming that any resolution will not have an impact on the Business Plan of more than a level to be agreed, with respect to Mexican subsidiaries including, without limitation:<br><br>(a) the resolution of claims against Abengoa Mexico, S.A. de C.V.; and<br><br>(b) unless otherwise agreed or waived by the Majority NM1/NM3 Creditors, entry into the restructuring agreement (which shall comply with the requirements of article 71.bis.1 of the Spanish Insolvency Law) (the "**A3T HoldCo Refinancing Agreement**") in respect of the financial indebtedness of A3T HoldCo España, S.A. by virtue of which:<br><br>(i) all its intragroup creditors (i.e. Abengoa and Abengoa Greenbridge, S.A.) accept to capitalise in full its credit rights in each for shares in A3T HoldCo;<br><br>(ii) all its third party creditors accept to restructure their claims by extending their maturity to a date not earlier than 3 years after the repayment in full of New Money Tranche 1; and<br><br>(iii) A3T HoldCo undertakes to (x) contribute into A3TLuxco2 its shares in A3T and its A3T Intercompany Loans (as defined in the Restructuring Agreement) and (y) grant security over the shares in A3TLuxco2 in favour of New Money Tranche 1 and New Money Tranche 3;<br><br>(c) the judicial resolution by virtue of which the A3T HoldCo Refinancing Agreement is homologated (*autode homologación judicial*) protecting the transactions contained in paragraph (b) above;<br><br>(d) the publications of such judicial decision in the *Registro Público Concursal* and the *Boletín Oficial del Estado*; and<br><br>(e) either:<br><br>(i) if a challenge (*impugnación*) has not been filed within the period allowed for such filing, once such period has elapsed and the homologation becomes final (*firme*); or<br><br>(ii) if one or more challenges (*impugnaciones*) are filed within such period, Abengoa having provided the Restructuring Agent with copy of:<br><br>(A) the final judicial resolution (*sentencia firma*) by virtue of which the relevant challenges are dismissed in full and the above mentioned homologation is ratified and becomes final (*firme*); and<br><br>(B) the publication of such judicial resolution in the *Boletín Oficial del Estado*. |

| | **Initial Condition Precedent** |
|---|---|
| 27. | Evidence of the absence of in rem security, seizure, attachments or other liens over all material assets and rights of the Group and the NM1 Group, including those comprising the NM1 Priority Collateral and the NM2 Priority Collateral, other than permitted security to be agreed, and including evidence that security over ABY shares or A3T shares existing prior to the Restructuring Steps Commencement Date has been released by the relevant creditors on a consensual basis. |
| 28. | Satisfaction or waiver of Additional NM1 Drawdown Conditions and disbursement of New Money Tranche 1. |
| 29. | Projected compliance with the Liquidity Covenant for the 6 month period following the utilisation date. |
| 30. | Written confirmation that no member of the board of directors of ABY is resident in the UK and no other step has been taken which would be reasonably likely to cause ABY to be subject to the UK Takeover Code. |
| 31. | Satisfactory repayment or release of all indebtedness (including intercompany claims) of A3T. |
| 32. | Satisfactory mechanism for the transfer of the ABY shares into the NM1 Group in accordance with the Restructuring Steps Plan. |
| 33. | Satisfactory mechanism for the assumption of the relevant portion of the Non-Compromised Debt as New Money Tranche 1 debt by the New Money Tranche 1 borrower in accordance with the Restructuring Steps Plan. |
| 34. | Title transfer collateral arrangements being satisfactory. |
| 35. | Written confirmation from the Parent that (other than in respect of projects benefiting from local financing or from secured project financing):<br>(a) no breach, default or termination right is continuing or could reasonably be expected to occur or arise as a result of the Restructuring in relation to any Key Project;<br>(b) all documents delivered as conditions precedent are true, complete and up to date;<br>(c) the terms of the project documents for each Key Project (whether or not required to be delivered as a condition precedent) are consistent in all material respects with the financial model and Business Plan;<br>(d) the acquisition documents delivered in connection with the disposal of a Key Project contain all the material terms of the disposal of that Key Project; |

| | **Initial Condition Precedent** |
|---|---|
| | (e) the terms of the acquisition documents for each disposal (whether or not required to be delivered as a condition precedent) are consistent in all material respects with the financial model and Business Plan;<br><br>(f) no member of the Group or NM1 Group other than the relevant Key Project Entities has any material actual or contingent liability in respect of a Key Project or the obligations of the relevant Key Project Entities;<br><br>(g) all arrangements between any member of the NM1 Group or ABY and any other person (including, without limitation, a member of the Group) are on arms' length terms or better for the member of the NM1 Group or ABY and all other arrangements between members of the Group and the relevant Key Project Entities in relation to the Key Projects are on arms' length terms;<br><br>(h) no member of the Group other than an Excluded Entity has any material actual or contingent liability in connection with any Excluded Entity other than obligations owed to suppliers in an amount not exceeding an amount to be agreed and specifically disclosed as a condition precedent; and<br><br>(i) the arrangements between members of the Group and suppliers are consistent in all material respects with the financial model and Business Plan (as adjusted to reflect the improvement in terms achieved and verified as a condition precedent). |
| 36. | Evidence of implementation of the Restructuring Steps Plan, including the following:<br><br>(a) other than in respect of the Excluded Entities, successful resolution of any insolvency proceedings in relation to any member of the NM1 Group and Group other than any member of the Group which is assumed to be liquidated in the Business Plan on or before the Restructuring Steps Commencement Date;<br><br>(b) any consents and waivers (including as to change of ownership) necessary or desirable in connection with the Restructuring have been obtained;<br><br>(c) implementation of agreed equity / governance arrangements (including, without limitation, the management incentive plan, appointment of the NM1 Investor Director and the Adviser); |

| | **Initial Condition Precedent** |
|---|---|
| | (d) all other prior or simultaneous steps in the Restructuring Steps Plan (including, without limitation, implementation of the agreed holding company structure at the Group level and the establishment and ring-fencing of the NM1 Group) have been or will be completed on or before the Restructuring Steps Commencement Date;<br><br>*NM1 Priority Collateral*<br><br>*ABY*<br><br>(e) waivers required to remove from any document entered into by any member of the Group or the NM1 Group or any member of the ABY group:<br><br>(i) any obligation for the Group or the NM1 Group or any member of the Group or the NM1 Group to maintain a minimum level of shareholding in ABY;<br><br>(ii) any prepayment, repurchase or termination event or default, however described, occurring as a result of a failure by the Group or the NM1 Group or any member of the Group or the NM1 Group to have or maintain a minimum level of shareholding in ABY; or<br><br>(iii) any term of any agreement to which any member of the ABY group is a party which has been or could be breached as a result of any events or circumstances relating to a member of the Group or the NM1 Group including, but not limited to, any cross default or cross acceleration provisions or any provisions which might be breached as a result of any member of the Group or the NM1 Group taking any action in relation to insolvency proceedings or any New Money Financing creditor or Old Money creditor enforcing any security in respect of the Group or the NM1 Group;<br><br>(f) cancellation of the parent support arrangements in relation to Abengoa Concessoes Brasil Holding S.A. pursuant to which ABY has the right to withhold distributions that would otherwise be payable to members of the Group and/or NM1 Group by ABY;<br><br>*A3T*<br><br>(g) except for the transmission lines and "contrato de interconexión", evidence that all third party and governmental consents in connection with A3T necessary for the implementation of the NM1 Priority Collateral structure and any enforcement thereof have been obtained; |

| | **Initial Condition Precedent** |
|---|---|
| | (h) evidence that all permits, approvals, licenses, consents and contracts necessary or desirable in order to enable A3T to complete the project and for A3T to be the subject of a disposal in whole or in part are in full force and effect and are not subject to change of control or similar provisions, conditions or requirements. Regarding the interconnection agreement that A3T is required to execute with CENACE for the first delivery of energy from A3T to the National Grid, evidence of the interconnection pre-feasibility study (*estudio de prefactibilidad de interconexión*) issued by CENACE and evidence that such interconnection is feasible and duly documented, as well as evidence that A3T is in compliance with all relevant legal and technical requirements;<br><br>(i) a copy of each material project document and any other contract entered into by A3T and evidence that:<br><br>(i) the operational date in the gas supply agreement and services agreement entered into between, among others, Abengoa Cogeneración Tabasco, S. de R.L. de C.V. and Petróleos Mexicanos has been extended to at least 31 December 2017;<br><br>(ii) the EPC contract entered into between A3T and members of the Group has been amended to reset the margin to zero, eliminate existing amounts payable by A3T and provide for any future payments to be made directly by A3T to the third party contractor, and such amendments do not have a negative tax impact;<br><br>(iii) each material project document in respect of which the counterparty is a member of the Group is terminable at the option of the Majority Qualifying NM1 Creditors following an Event of Default or a breach of certain undertakings to be agreed which permit the Majority Qualifying NM1 Creditors (or NM1 Investor Director, if applicable) to appoint a replacement EPC contractor, in each case, at no cost to the NM1 Group and the Majority Qualifying NM1 Creditors are satisfied that they will be able to procure replacement contractors on satisfactory commercial terms; and<br><br>(iv) annexes 1 and 2 of the A3T gas supply contract between A3T and Pemex have been incorporated such agreement in terms not more detrimental to A3T than the ones set forth in a schedule to the New Money Tranche 1 Debt Instrument and in form acceptable to the Majority NM1/NM3 Creditors;<br><br>(j) a letter from the insurance broker of A3T confirming that satisfactory project insurances have been obtained and are in force; |

| | **Initial Condition Precedent** |
|---|---|
| | (k) delivery of documentary evidence by 31 December 2016, demonstrating the satisfaction of all conditions required in accordance with the Power Industry Law (*Ley de la Industria Eléctrica*), its Regulations and all ancillary statutory provisions to execute a Grandfathered Interconnection Agreement (*Contrato de Interconexión Legado*) with the Federal Commission of Electricity (*Comisión Federal de Electricidad),* evidence that all the conditions to execute such agreement have been duly satisfied before the *Comisión Reguladora de Energía*, and that it obtained the pre-feasibility study from the *Centro Nacional de Control de Energía (CENACE*) for the interconnection process;<br><br>(l) absence of any evidence that the correct right of way for transmission lines is likely to not be obtained by a timeline to be agreed;<br><br>(m) the constitutional documents of all relevant NM1 Group companies provide that (i) any decision to shift COMI or otherwise establish a place of business in another jurisdiction; or propose a resolution to commence insolvency proceedings, shall require consent of all directors, including the NM1 Investor Director, and (ii) the NM1 creditors shall be given advance notice of any resolution or steps to commence insolvency proceedings, such provisions to be entrenched through "golden share" arrangements;<br><br>***NM2 Priority Collateral***<br><br>*Zapotillo*<br><br>(n) a copy of each material project document and any other contract entered into by the Key Project Entities in relation to Zapotillo and evidence that the relevant project documents have been amended to reflect a satisfactory agreement between Zapotillo and Comisión Nacional del Agua and Banco Nacional de Obras y Servicios Públicos, S.N.C. respectively;<br><br>*SAW*<br><br>(o) a copy of each material project document and any other contract entered into by the Key Project Entities in relation to SAW;<br><br>(p) a copy of each acquisition document (including, without limitation, the share purchase agreement and shareholders' agreement) in relation to SAW;<br><br>(q) evidence that completion has occurred or will, on or before the Restructuring Steps Commencement Date, occur under and in accordance with the terms of the acquisition documents;<br><br>(r) evidence that the Group retains a 20% holding in SAW; |

| | **Initial Condition Precedent** |
|---|---|
| | (s) evidence that there is no liability for the Group in respect of the bridge loan agreement dated 20 July 2015 and entered into between, among others, Abengoa Vista Ridge, LLC and Sumitomo Mitsui Banking Corporation as administrative agent;<br><br>*Cárcel*<br><br>(t) a copy of each material project document and any other contract entered into by the Key Project Entities in relation to Cárcel;<br><br>***Key divestments to be completed on or before Restructuring Steps Commencement Date***<br><br>*Ashalim*<br><br>(u) a copy of each acquisition document (including, without limitation, the share purchase agreement) in relation to Ashalim;<br><br>(v) evidence that completion has occurred or will, on or before the Restructuring Steps Commencement Date, occur under and in accordance with the terms of the acquisition documents;<br><br>(w) evidence that the Group has had or will receive a minimum of EUR75m from the net proceeds of the sale of Ashalim;<br><br>*Norte III*<br><br>(x) a copy of each acquisition document (including, without limitation, the share purchase agreement) in connection with a sale of 100% of Norte III to an acceptable third party purchaser;<br><br>(y) evidence that completion has occurred or will, on or before the Restructuring Steps Commencement Date, occur under and in accordance with the terms of the acquisition documents;<br><br>(z) a copy of each material project document and any other contract entered into by the Key Project Entities in relation to Norte III and evidence that the relevant project documents have been amended to retain a member of the Group as the EPC contractor on terms consistent in all material respects with the financial model and Business Plan;<br><br>*Atacama I* |

| | **Initial Condition Precedent** |
|---|---|
| | (aa) evidence that a satisfactory agreement has been reached with EIG in connection with Atacama I pursuant to which (a) EIG is the sole shareholder of Atacama I; (b) a member of the Group as the EPC contractor on terms consistent in all material respects with the financial model and Business Plan; and (c) no member of the Group or NM1 Group has any actual or contingent liabilities in respect of any of Atacama 1 or any of the Key Project Entities.<br><br>*Agreement with other creditor groups*<br><br>(bb) a comprehensive third party review of the Group's arrangements with suppliers has been conducted and written confirmation has been provided from the Parent and the third party that the revised terms agreed with the suppliers reflect the cost savings set out in the Business Plan and an additional cost saving to the Group for the period until 30 June 2017 of EUR37m as against the financial model and Business Plan (such cost saving to be achieved by way of reduction, cancellation or deferral as applicable);<br><br>(cc) evidence that the financing arrangements in respect of ATN3 have been amended and extended on satisfactory terms; and<br><br>(dd) evidence that agreement has been reached such that the obligations owed to EIG by the Brazilian Excluded Entities are treated as Junior Old Money Loans/Notes in a maximum aggregate principal amount at the Restructuring Completion Date of USD135m. |

## SCHEDULE 9
## FORM OF NON-NOTEHOLDER ACCESSION LETTER

To: The Restructuring Agent
Global Loan Agency Services Limited (08318601)
Address: 45 Ludgate Hill, London EC4M 7JU
Email: tmg@glas.agency
Attention: Transaction Management Group

From: [Acceding Participating Creditor's full legal name] (the "**Acceding Participating Creditor**")

Date: [•]

Dear Sirs,

**ABENGOA – RESTRUCTURING AGREEMENT**

1. We refer to the restructuring agreement dated [•] 2016 (the "**Agreement**"). This is a Non-Noteholder Accession Letter. Terms defined in the Agreement have the same meaning in this Non-Noteholder Accession Letter unless otherwise defined herein.

2. The Acceding Participating Creditor hereby accedes and irrevocably agrees to be bound by the terms of the Agreement as a Participating Creditor in respect of its [Existing Financial Indebtedness]/ [and its participation in the New Financing]. [1]

3. [The Acceding Participating Creditor (as Existing Creditor) expressly and irrevocably elects to implement the Restructuring of its Existing Financial Indebtedness through the Alternative Restructuring Terms.][2]

4. In respect of its Alternative Restructuring Entitlements, the Acceding Participating Creditor hereby irrevocably elects to receive:

   (a) [Junior Old Money Loans]/[Junior Old Money Notes];[3]

   (b) [Senior Old Money Loans]/[Senior Old Money Notes] (if applicable); [4]and

   (c) [no Post-Restructuring Equity]/[a maximum amount of 4.9 per cent. of the total Post-Restructuring Equity]/[its *pro rata* entitlement to Post-Restructuring Equity]. [5]

5. [In relation only to its Non-Affected Debt, the Acceding Participating Creditor (as Existing Creditor) expressly [rejects the Alternative Restructuring Terms.] [6] /

---

1 Amend as appropriate.

2 **[To be included only if: (i) the Acceding Participating Creditor is an Existing Creditor in respect of Existing Financial Indebtedness; and (ii) elects for the Alternative Restructuring Terms. Otherwise, please delete the paragraph and instead the Standard Restructuring Terms will apply.]**

3 Choose one and delete the other.

4 Choose one and delete the other.

5 Choose one and delete the other.

[specifies that an amount equal to [•] under such Non-Affected Debt is unsecured and elects to implement the Alternative Restructuring Terms in relation to such Specified Unsecured Claim.] [7] / [elects to implement the Alternative Restructuring Terms (excluding any Post-Restructuring Equity) to the extent any the enforcement of its security are not enough to repay in full the relevant Non-Affected Debt.] [8]] [9]

6. [**N.B. To be included only if the Acceding Participating Creditor is either an Insured Creditor or a Multi-Debt Creditor.**] [The Acceding Participating Creditor expressly declares that it does not grant its consent to this Agreement and the Restructuring in respect of the following [Voluntarily Non-Adhered Insured Debt / Voluntarily Non-Adhered Debt] instruments/amounts:

   (a) date:

   (b) parties:

   (c) kind of instrument:

   (d) amount (both original and outstanding):

   (e) Schedule of the Restructuring Agreement where such instrument is listed:

   (f) if the consent is granted only in respect of part of the total amount, amount which should be excluded from the consent:]

7. The Acceding Participating Creditor undertakes to take all necessary action to promptly withdraw any Homologation Challenge filed by it (if any).

8. The Acceding Participating Creditor is (a) located outside the United States and is not a "U.S. person" as defined in the United States Securities Act of 1933, as amended (the "**Securities Act**"); (b) is located in the United States and is a "qualified institutional buyer" within the meaning of Rule 144A under the Securities Act an "accredited investor" as defined in Rule 501(a) of the Securities Act; or (c) located in the United States but is neither a "qualified institutional buyer" within the meaning of Rule 144A under the Securities Act nor an "accredited investor" as defined in Rule 501(a) of the Securities Act.

9. If the Acceding Participating Creditor meets the criteria in sub-paragraphs (a) or (b) of paragraph 8 above, without prejudice to any warranties of any Obligor specifically provided hereunder, the Acceding Participating Creditor exercises or acquires

---

[6] **[To be included only if the Acceding Participating Creditor holding Non-Affected Debt does not want to subject any unsecured claim post enforcement to the Alternative Restructuring Terms. In such event, the Standard Alternative Terms shall apply to such remaining and unsecured claim.]**

[7] **[To be included only if the Acceding Participating Creditor holding Non-Affected Debt wants to specify that a portion of its debt is unsecured. In such event the Alternative Restructuring Terms shall apply in full to such unsecured portion.]**

[8] **[To be included only if the Acceding Participating Creditor holding Non-Affected Debt does not want to specify that a portion of its debt is unsecured. Please note that such creditor will in no event receive Post-Restructuring Equity.]**

[9] **[To be included only if the Acceding Participating Creditor holds Non-Affected Debt]**

securities in the normal course of business, invests in or purchases securities regularly and has such knowledge and experience in financial and business matters such that it is capable of evaluating the merits and risks of exercising or purchasing securities and is aware that it bears the economic risk of an investment in any securities for an indefinite period of time and is able to bear such risk for an indefinite period, and has not relied on any investigation that any other person may or may not have conducted or any other additional information and has relied solely on its own judgment, examination and due diligence.

10. The Acceding Participating Creditor understands that the New Money Notes, Old Money Notes and the Post-Restructuring Equity have not been and will not be registered under the Securities Act or any securities law of any State of the United States, and may not be offered, sold, pledged, or otherwise transferred except (a) to the issuer of the New Money Notes, Old Money Notes or the Post-Restructuring Equity, (b) pursuant to a registration statement which has been declared effective under the Securities Act, (c) pursuant to offers and sales that occur outside the United States in compliance with Regulation S under the Securities Act, (d) in accordance with Rule 144A, if available, under the Securities Act to a person that the transferor, and any person acting on its behalf, reasonably believes is a "qualified institutional buyer" (as defined in Rule 144A under the Securities Act) or (e) pursuant to any other available exemption from the registration requirements of the Securities Act, and in each case in compliance with any applicable securities laws of any State of the United States or other jurisdiction. It further agrees to provide to any person purchasing any of the New Money Notes, Old Money Notes, or Post-Restructuring Equity (as applicable) from it a notice advising such purchaser that resales of the New Money Notes, Old Money Notes or Post-Restructuring Equity (as applicable) are restricted as stated herein.

11. If the Acceding Participating Creditor meets the criteria in sub-paragraph (c) of paragraph 8 above, such Acceding Participating Creditor hereby agrees that it may not expressly elect the Standard Restructuring Terms and that if it elects the Alternative Restructuring Terms:

    (a) in the event it elects the Alternative Restructuring Terms, it appoints the Holding Period Trustee on its behalf to receive and hold on trust the Ineligible Investor Initial Trust Securities to which it may be entitled pursuant to the Restructuring Agreement;

    (b) upon the Holding Period Trustee's receipt of the information requested in the Securities Crediting Notice, there shall be issued and transferred to the Holding Period Trustee on behalf of such Ineligible Investor, against cancellation of its Notes, the Ineligible Investor Top-Up Trust Securities together with any interest that would have accrued thereon had such Ineligible Investor Top-Up Trust Securities been outstanding during the period commencing on the Restructuring Completion Date through but not including the date of delivery of such Ineligible Investor Top-Up Trust Securities to the Holding Period Trustee (such accrued interest to be paid immediately in cash to the extent is has already been paid in respect of outstanding Junior Old Money Notes or Senior Old Money Notes (as applicable) during such period, with the newly issued and delivered securities thus becoming immediately

fungible with outstanding Junior Old Money Notes or Senior Old Money Notes (as applicable));

(c) the Holding Period Trustee or its broker or selling agent(as the case may be) shall thereupon sell all Ineligible Investor Trust Securities of the relevant Ineligible Investor in the Open Market and remit the net sale proceeds (after deducting the reasonable costs and expenses of the Holding Period Trustee in respect of such sale) to such Ineligible Investor, together with any interest payments made on the Ineligible Investor Initial Trust Securities during periods prior to their sale and the cash payment in respect of any accrued interest on the Ineligible Investor Top-Up Trust Securities; and

(d) at no point in time will such Acceding Participating Creditor be entitled to any incidents of ownership with respect to its Ineligible Investor Trust Securities.

12. The Acceding Participating Creditor's administrative details are as follows:

(a) Address: [•]

(b) Email: [•]

(c) Fax No: [•]

(d) Attention: [•]

13. The Acceding Participating Creditor notarises in Spain (*eleva a público*) this Non-Noteholder Accession Letter and instructs the relevant Notary to send a notarial copy to the Restructuring Agent within two (2) Business Days as from the date of this Non-Noteholder Accession Letter to the following address:

Global Loan Agency Services Limited (08318601)
Address: 45 Ludgate Hill, London EC4M 7JU

## SCHEDULE 10
## FORM OF NON-COMPROMISED DEBT CREDITOR ACCESSION LETTER

To: The Restructuring Agent
Global Loan Agency Services Limited (08318601)
Address: 45 Ludgate Hill, London EC4M 7JU
Email: tmg@glas.agency
Attention: Transaction Management Group

From: [Acceding Participating Creditor's full legal name] (the "**Acceding Participating Creditor**")

Date: [•]

Dear Sirs,

**ABENGOA – RESTRUCTURING AGREEMENT**

1. We refer to the restructuring agreement dated [•] 2016 (the "**Agreement**"). This is a Non-Compromised Debt Creditor Accession Letter. Terms defined in the Agreement have the same meaning in this Non-Compromised Debt Creditor Accession Letter unless otherwise defined herein.

2. The Acceding Participating Creditor hereby accedes and irrevocably agrees to be bound by the terms of the Agreement as a Participating Creditor following participation(s) in the Non-Compromised Debt:

| Non-Compromised Debt Instrument | Amount of Non-Compromised Debt |
|---|---|
| | |
| | |
| | |
| | |

3. The Acceding Participating Creditor (as an Existing Creditor of Non-Compromised Debt) expressly and irrevocably elects to implement the Restructuring of such participation(s) in the Non-Compromised Debt through the Alternative Restructuring Terms (and which shall, for the avoidance of doubt, be treated, at the election of the Acceding Participating Creditor, in the manner described in the Term Sheet).

4. The Acceding Participating Creditor is located outside the United States and is not a "U.S. person" as defined in the United States Securities Act of 1933, as amended (the "**Securities Act**"), or if the Acceding Participating Creditor is located in the United States, such Acceding Participating Creditor is a "qualified institutional buyer" within the meaning of Rule 144A under the Securities Act or an "accredited investor" as defined in Rule 501(a) of the Securities Act.

5. Without prejudice to any warranties of any Obligor specifically provided hereunder, the Acceding Participating Creditor exercises or acquires securities in the normal course of business, invests in or purchases securities regularly and has such knowledge and experience in financial and business matters such that it is capable of evaluating the merits and risks of exercising or purchasing securities and is aware that it bears the economic risk of an investment in any securities for an indefinite period of time and is able to bear such risk for an indefinite period, and has not relied on any investigation that any other person may or may not have conducted or any other additional information and has relied solely on its own judgment, examination and due diligence.

6. The Acceding Participating Creditor understands that the New Money Notes and the Post-Restructuring Equity have not been and will not be registered under the Securities Act or any securities law of any State of the United States, and may not be offered, sold, pledged, or otherwise transferred except (a) to the issuer of the New Money Notes or the Post-Restructuring Equity, (b) pursuant to a registration statement which has been declared effective under the Securities Act, (c) pursuant to offers and sales that occur outside the United States in compliance with Regulation S under the Securities Act, (d) in accordance with Rule 144A, if available, under the Securities Act to a person that the transferor, and any person acting on its behalf, reasonably believes is a "qualified institutional buyer" (as defined in Rule 144A under the Securities Act) or (e) pursuant to any other available exemption from the registration requirements of the Securities Act, and in each case in compliance with any applicable securities laws of any State of the United States or other jurisdiction. It further agrees to provide to any person purchasing any of the New Money Notes or Post-Restructuring Equity (as applicable) from it a notice advising such purchaser that resales of the New Money Notes or Post-Restructuring Equity (as applicable) are restricted as stated herein.

7. The Acceding Participating Creditor's administrative details are as follows:

   (a) Address: [•]

   (b) Email: [•]

   (c) Fax No: [•]

   (d) Attention: [•]

8. The Acceding Participating Creditor notarises in Spain (*eleva a público*) this Accession Letter and instructs the relevant Notary to send a notarial copy to the Restructuring Agent within two (2) Business Days as from the date of this Non-Compromised Debt Creditor Accession Letter to the following address:

   Global Loan Agency Services Limited (08318601)
   Address: 45 Ludgate Hill, London EC4M 7JU
   Email: tmg@glas.agency
   Attention: Transaction Management Group

9. This Non-Compromised Debt Creditor Accession Letter is governed by Spanish law.

**SCHEDULE 11**
**AGREED RESTRUCTURING STEPS PLAN**

# Schedule 11
## Restructuring Steps Plan

This document sets out the various restructuring processes and steps which will collectively implement the Restructuring, assuming the processes are implemented notwithstanding any challenges or objections from any person. The processes and steps set out below are indicative only, and any of the processes or steps may be amended, waived, substituted or re-ordered in accordance with the terms of the Restructuring Agreement.

Terms used but not otherwise defined in this document have the meaning given to them in the Restructuring Agreement, to which this document is scheduled.

Case 16-10790-KJC Doc 548-8 Filed 09/26/16 Page 590 of 908

## Abengoa has developed a commercially successful but capital intensive business model

Abengoa is among the market leaders in clean energy EPC (Engineering, Procurement and Construction) thanks to its proprietary technologies. It is consistently ranked in the top positions in the international market league tables [1] in the core products / technologies (cogeneration, solar, T&D lines, water desalination)

The company's traditional E&C business has historically performed well from a bookings, operating income and EBITDA perspectives

(1) ENR The Global Sourcebook.

Its business model has been capital intensive with a significant negative working capital, which has consistently increased leverage at a consolidated level, resulting in an incremental risk of the company

In addition, under-performing strategic investments affected by regulatory changes (mainly in the bioenergy and solar businesses) and shifting market conditions in key countries (e.g. Brazil) has prevented Abengoa to achieve targeted divestments

As a consequence, during the second half of 2015, Abengoa tried to strengthen its balance sheet and secure additional liquidity with a rights issue that didn't eventually materialize. Spiraling complexity and liquidity pressure forced Abengoa to seek protection under Spain's 5Bis pre-insolvency statutes

Getting the
Business Back
on Track

## Re-start of E&C Activity – Business Development

Abengoa would require over 307 M€ of guarantees available to re-start normal commercial activity

Commercial activity during the 5bis period has been negatively impacted at three different levels:

Abengoa's business development team has not been able to present proposals for projects due to non-availability of bid bonds and other guarantees.

During the same period, projects for approximate value of 1,851 M€ have been revoked:

- 215 MW Biomass (Gante)
- 299 MW Biomass (Teeside)
- Water treatment and supply (Colombia).
- Salina Cruz 517 MW CCGT (Mexico)
- WWTP Al-Mishfaj (Oman)
- SWRO Al Galalah (Egypt)

ABENGOA

Case 16-10790-KJC Doc 548-8 Filed 09/26/16 Page 600 of 908

## Re-start of E&C Activity - Construction

Construction activity has also been negatively affected with significant slow-down or complete halt in execution of different projects

Shortage of financing and technical guarantees over the 5bis and Standstill period has had a negative impact on the pace of execution that differs depending on the size of the projects

### Small and medium-sized projects

Low cash requirements have allowed us to continue construction of the projects or to minimize delays

Once normality is restored, we expect projects get back on schedule with very limited impact

### Large projects

Significant investment required has led most of the projects to a complete halt, with some exceptions

Team and all required resources are ready to go

The complexity of logistics involved in execution implies that re-start of the construction works would not be immediate

We estimate delays in the construction schedule for those that have not continued as planned during this period

Case 16-10790-KJC Doc 548-8 Filed 09/26/16 Page 608 of 908

## Rightsizing of Overheads

New business focus must be supported by an adequately sized organisation with the adequate size. Target structure costs are set at ~200 M€ per year which implies a 55% reduction vs. 2015

| Initiatives for Rightsizing of Overheads | 2015A | 2018E |
|---|---|---|
| - Reduce several staff functions<br>- Streamline back-office functions in several regions<br>- Promote synergies among different businesses<br>- Maximize centralized purchasing | ~450 M€ (normalised) | ~200 M€ |

Target Overheads

Plan aimed at promoting efficiency at all levels of Abengoa and reduce support function costs

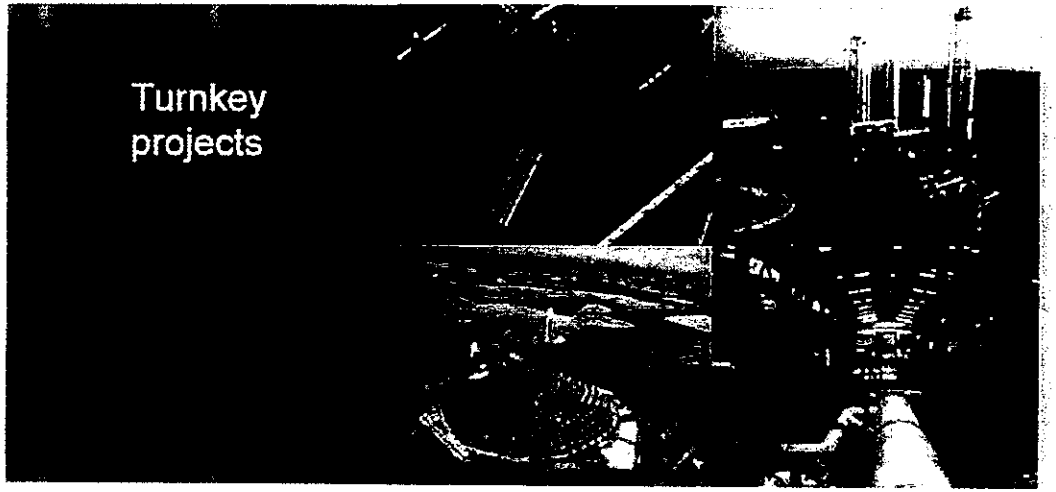
## Do's and Don'ts of New Abengoa

# The new business approach sets clear lines of what the focus of Abengoa's operations should be



| | | | |
|---|---|---|---|
| **New Abengoa Viability Plan does not include** | ... to be a financial investor | ... take financial risks | ... to earn money making a long term investment of its own funds | ... to own industrial plants |
| **New Abengoa Viability Plan includes** | ... to be a company that in addition to EPC projects for third parties; promotes , designs and builds energy and environment projects with advanced technology | ... to find investors for its engineering projects with its own technology | ... earn money promoting , designing and building large engineering projects with all, or almost all equity provided by third parties and in any case selling our participation at the end of the project | ... to operate and maintain energy and environment projects on long term basis contracts with high margin |

ABENGOA

ABENGOA

Abengoa will focus on turnkey projects and concession-type projects with financial partners so that Abengoa's investment is limited to 10% of project value

What's the value of concession-type projects?

Higher margin than conventional turnkey projects: development fee + EPC margin >> conventional turnkey project´s margin

Competition is lower for concession-type projects, as it requires larger capabilities throughout the whole value chain

ABENGOA

Case 16-10790-KJC Doc 548-8 Filed 09/26/16 Page 664 of 908

Case 16-10790-KJC Doc 548-8 Filed 09/26/16 Page 662 of 908

## Corporate Governance & Risk Control

# Abengoa will adhere to international corporate governance best practices

### Investment Committee

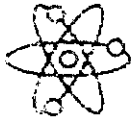
Independent Investment Committee reporting to the board to ensure compliance with capex guidelines, divestment decisions, maintain target leverage ratios and propose changes to the dividend policy

Completely new board of independent directors

Separation of the roles of chairman of the board of directors of the Parent and of chief executive officer of the Group

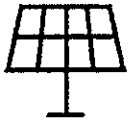
### Financial Discipline & Risk Control

Strict criteria for new concession investments:



- Project funding must be clearly identified and earmarked ahead of any development effort
- Long term off-take agreements in place before start of construction
- Any concessional project must have long term financing arranged prior to project construction will be commenced or have strong equity partners prior commitment to fund them

Main take
aways



# Main take-aways

## A viable company with solid fundamentals

Abengoa has a unique engineering and construction business

The development of commercially viable cutting-edge technology has become Abengoa's key competitive advantage

... and the size of our backlog and pipeline provides us with revenue visibility

Well positioned in high growth markets

Our global footprint makes our business more resilient ...

A more focused business model and healthier a sound capital structure, together with a multidisciplinary set of capabilities leaves Abengoa in a solid position for future value creation

Initial
Considerations

Initial Considerations

# Introduction

Since Abengoa (the "Company" or "ABG") presented its initial restructuring proposal to the market on March 16th 2016, continued with its creditor groups, in a

have been completed, including the , and finally the presented today and agreed with a group of creditors (the "Restructuring Term Sheet")

The parties to the Restructuring Term Sheet comprise of the Bank Coordination Committee (the "CoCom"), the New Money Investor Group and the Company which have signed on August 10th 2016:

A New Money Financing Commitment Letter (the Commitment Letter) annexing the term sheet and

Acceptance Confirmations to the Commitment Letter by the anchor investors for the funding of the required New Money totaling approximately €1,170m and the required new bonding facilities totaling €307m

The CoCom is comprised of Banco Popular, Banco Santander, Bankia, CACIB and CaixaBank; the New Money Investor Group is comprised of Abrams Capital, The Baupost Group, Canyon Capital Advisors, Centerbridge Partners, the D. E. Shaw group, Elliott Management, Hayfin Capital Management, KKR Credit, Oaktree Capital Management and Värde

The financial creditors of the Company will be offered the possibility to subscribe their pro rata of the New Money facilities and new bonding facilities offered to the market as explained later in the current presentation

The documents will be made available to all financial creditors

The success of the restructuring will require the adherence of at least 75% of the financial creditors to the documentation

# Introduction (cont'd.)

The CoCom and New Money Investor Group are backing the proposed terms and conditions for Abengoa's financial restructuring to provide a going forward, and allow to .

The Company has derived from its technological advantage, best-in-class assets and unparalelled track record in the EPC sector, which can only reach full potential once it recovers its operational capabilities post completion of the restructuring process

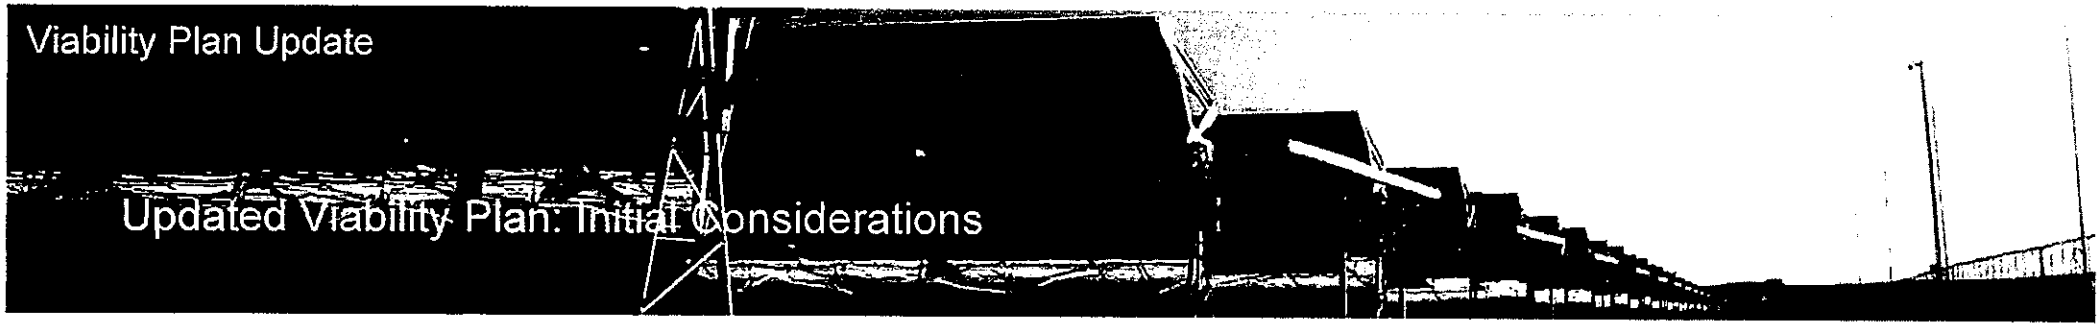
The initial Viability Plan prepared by A&M and presented on March 16th, 2016 has been adapted (the "Updated Viability Plan") to the Company's new reality and following a detailed analysis underpinned by the objective of reducing Abengoa's risk profile and downsizing cash needs. to reinitiate Abengoa's activity, roll-over existing secured financing and preserve stakeholder value

The Updated Viability Plan has been prepared by Abengoa's management and has been approved by the Company's Board of Directors

The Company's cash needs have been downsized mainly as a result of (i) asset divestments, (ii) project hibernation of those with longer cash conversion period, (iii) exclusion of cash collateral requirements for excess bonding capacity, and (iv) discontinuity of certain subsidiaries

In addition, bonding line needs are forecasted to cover the next 6 to 9 months in the Updated Viability Plan (vs 18 months in the initial Viability Plan). After this period, the Company should be able to cover any additional bonding needs in the market

**The Company, the CoCom and the New Money Investor Group have signed an agreement to secure approximately €1,170m of New Money and €307m of bonding lines enabling ABG to reinitiate normalised operations. This agreement requires adherence of at least 75% of financial creditors for its successful implementation**



Case 16-10790-KJC Doc 548-8 Filed 09/26/16 Page 670 of 908

# Updated Viability Plan

# Updated Viability Plan: Initial Considerations

## Latest Developments

Reduced perimeter of Old Abengoa[a] projects due to divestments (i.e. SAWS, Ashalim, others); thus lower cash needs to reinitiate the Company activity

Expected reduction of the existing corporate perimeter due to further disposals and discontinuity of subsidiaries

Meaningful progress in the implementation of the suppliers plan, envisaging deferrals and savings for commercial debt

Completion of the due diligence process required to reach the final agreement

## Other Significant Changes in the Updated Viability Plan

A cash outflow minimisation approach with respect to certain projects, which results in lower cash needs

- Selected integrated product projects will not be pursued given the cash consumption minimisation approach. These are expected to be divested with a neutral cash impact
- Hibernation of specific projects until certain conditions are met, in line with the strategy of ensuring value creation
- Delays in execution have implied an erosion of the Company's backlog; hence less cash required to fund commitments

The implementation of New Business has been elapsed vis-à-vis the initial Viability Plan, to decrease cash consumption needs

Proceeds from the sale of A3T and total or partial monetisation of Atlantica Yield ("ABY") shares held by Abengoa to pay down the New Money facilities as part of the Restructuring Term Sheet

**The Updated Viability Plan significantly reduces Abengoa's risk and cash needs as a result of the change in the perimeter and reflects the impact of the delay in reactivating the Company's operations**

a) Here and throughout the presentation the existing projects of the Company are referred to as "Old Abengoa"

# Viability Plan Update

The following pages provide an overview of the main assumptions used in the Updated Viability Plan

of €1,170m is received by the Company in Q4 2016

estimated at initial €50m to tender for projects and the remaining approximately €257m allocated ad-hoc in ongoing critical projects:

These bonding lines will be required to cover the Company's needs during a period of 6 to 9 months. Subsequently, Abengoa expects to operate under a normal course of business

These short term bonding needs for identified projects are expected to be covered by the commitment from CoCom lenders while long term bonding requirements of €500m by 2018 and €800m by 2020 (~20% of annual EPC take-out going forward) would be covered with a combination of roll-over bonding and new bonding lines obtained in the market

Abengoa's business is reinitiated starting in Q4 2016

are expected to be discontinued under cash flow optimisation criterion

, seeking value maximisation

(EPC for third parties) assumptions remain unchanged compared to the initial Viability Plan, although forecasts have been elapsed one quarter and are now assumed to be starting on Q4 2016

The implementation of projects will be delayed to Q1 2018. Abengoa's business model assumes asset rotation of its projects at COD + 2 years, so no income from the sale of projects is included in the Updated Viability Plan, ending in 2020

Investment in new Integrated Product will be subject to the following criteria: leverage of 70% and Abengoa investment limited to one third of equity

Accumulated of €535m by the end of 2020

Case 16-10790-KJC Doc 548-8 Filed 09/26/16 Page 624 of 908

# Viability Plan Update – Key Projects Strategy Update

[redacted]

**A3T**

Project construction is completed, financed and divested in Q3 2017, with [redacted] used to [redacted]

The Restructuring Term Sheet envisages setting an escrow with sufficient funds to ensure construction completion

**A4T**

[redacted]; to be reactivated once PPA and financing are obtained. Represents a meaningful potential upside not contemplated in the Updated Business Plan

**Norte 3**

Cash needs to complete construction expected to materially decrease as a result of the total or partial disposal of the Equity in the project.

**Zapotillo**

[redacted]. EPC margin in line with remaining equity to be invested by Abengoa in order to complete the project. Equity ownership fully retained by Abengoa

[redacted]

As a result of the ongoing debt restructuring, Abengoa has divested SAWS and Ashalim among other projects

[redacted]: the Company reached an agreement with a local construction company whereby the former would retain a 20% stake in the equity and sell the EPC contract, in exchange of the buyer taking on a $120m bridge loan

[redacted]: Abengoa will be recovering a substantial part of the equity already incurred (~€78m payment) and preserve a meaningful portion of the EPC works

ABENGOA

## Viability Plan Update – Other Key Assumptions

# Cost Structure, Overdue Suppliers, Contingencies and Risks

Cost Structure

Overdue Suppliers

Contingencies and Risks

Significant during the next years. Initial Viability Plan assumptions are adjusted as follows: 2016 overheads aligned with budget (no dispersion with initial A&M projection) and from 2017 onwards there are additional reductions not foreseen in the previous plan

- As a result of the from the Abengoa perimeter, the annual cost structure is streamlined by c.€50m
- The Updated Viability Plan includes related to specific projects to be discontinued (Al Khafji, SW and Carty) and reflects lower restructuring expenses given the changes in the proposed transaction

Conditions precedent to the final restructuring agreement include a Supplier Plan targeting overall and vs. the initial Viability Plan that contemplated €300m and €247m deferrals and savings, respectively

are being negotiated with overdue suppliers in the past months and are incorporated in the Updated Viability Plan

Contingencies and risks have been and are now estimated at (i) ~€160m of potential cash outflows of specific identified items and (ii) €50m generic contingency to provide additional headroom

Abengoa has undertaken a detailed identification of contingencies on a case by case which has resulted in an assessment of ~€210m. The identified contingencies imply a reduction with respect to the €350m considered in the initial Viability Plan

- Updated identified contingencies include future cash outflows linked to the value protection of ABY's stake
- Atacama II Solar Platform cancellation costs are left covered by a generic contingency. Abengoa expects to obtain PPAs in future tenders, which would avoid the crystallisation of such contingency

ABENGOA

b Includes Bioenergy bussiness in Europe, US and Brazil, Yoigo, real estate assets, and solar and water assets in Israel, South Africa, Ghana, Algeria and India, among others
c Assuming 8.8%-14% gross margins less updated SG&A

Overall project cash flow generation expected by end of 2017 (before financial items, contingencies, etc.)

Investment in Old Abengoa required to complete projects (e.g. A3T) or hibernate projects, aimed at preserving value to stakeholders

Integrated product contribution from the New Business has been elapsed to 2018 based on a total equity investment of €535m

Abengoa to generate cash flow of over €1bn throughout the projected period, achieving an EBITDA Proxy of €314m in 2020

Non core assets disposal does not include key projects such as A3T and ABY, which will be divested to repay the New Money facilities

ABENGOA

## Viability Plan Update – Key Projects Strategy Side by Side

# Key Projects (Old Backlog): Updated Viability Plan

Outlined below are the most relevant changes in the underlying assumptions of Abengoa's main projects

| | Updated Viability Plan |
|---|---|
| | Divested in Q3 2017 to repay New Money and Roll-Over facilities |
| | Completed and sold in Q3 2017 to repay New Money and Roll-Over facilities<br>Valuation based on a more conservative approach on PPAs and time value to discount project cash flows |
| | Divested |
| | Partially divested; Abengoa to retain a 20% equity share (assumed same valuation) |
| | Hibernated; no assumptions throughout the Updated Viability Plan in terms of cash outflows (other than to maintain dormant the project) or future value |
| | Divested in 2016 |
| | Retained |
| | The equity of the project is divested to offset remaining EPC costs |
| | Uruguay subsidiary does not require cash support from parent to complete the project |
| | Retained |
| | In the process of being divested. Equal treatment through adapting project construction timing to cash flow generation capacity |

## Update on Disposal Plan

Despite the challenging environment, Abengoa has made significant progress on the sale of non-core assets in transactions under attractive terms for the Company, allowing for the streamlining and de-risking of the Company

# Abengoa Value Proposition

## A Viable Company with Solid Fundamentals

Abengoa has a solid engineering and construction business in high growth markets

Global footprint makes Abengoa's business more resilient and the size of its backlog and pipeline provides revenue visibility

Lighter structure and increasing operational efficiency

The development of commercially viable cutting-edge technology has become Abengoa's key competitive advantage

A more focused business model and a healthier, sound, capital structure, together with a multidisciplinary set of capabilities leaves Abengoa in a solid position for future value creation

Regain credibility with stakeholders

ABENGOA

# Updated Financial Restructuring Terms

# Updated Financial Restructuring Terms – Summary Takeaways

The new liquidity requirements of Abengoa have been reduced to approximately in the form of a (" ") to reinitiate the Company's activity and roll-over existing secured financing

In addition, the initially required amount to €50m to tender for projects, with additional bonding of approximately €257m to be allocated ad-hoc in ongoing critical projects

The New Money and bonding requirements are fully committed by the CoCom and New Money Investor Group, with current financial creditors allowed to participate and subscribe these facilities

Abengoa is working closely with the CoCom and New Money Investor Group to ensure that it obtains the a reinforced majority of its and expects to implement the final restructuring agreement according to the (a)

**Abengoa has completed a critical milestone in the restructuring process and is working towards gaining sufficient creditor support to emerge with a renewed and sustainable capital structure and operational profile**

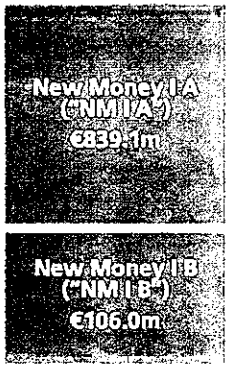
Case 16-10790-KJC Doc 548-8 Filed 09/26/16 Page 682 of 908

# New Abengoa Cash Needs to Re-initiate Activity (1/2)

The updated financial restructuring terms have been structured as set out below

| Restructuring Proposal | |
|---|---|
| **Sources** | **Uses** |
| New Money I A ("NM I A"): €839.1m<br>Rollover of the March bondholder facility and refinancing of the TCI loan | |
| New Money I B ("NM I B"): €106m<br>Roll over of December bank facility principal amount | |
| New Money II ("NM II"): €194.5m<br>Roll over of September bank facility (including accrued interest), December bank facility accrued interest and New Money II fees and NM I B commitment fees | Secured debt refinancing[a] and fees: €661.0m<br>Cash for corporate purposes[b]: €508.6m |
| New Money III ("NM III"): €30.0m<br>A3T contingent facility (€30m), to provide guaranteed funding for an A3T funding shortfall under certain circumstances | |
| **Total: €1,169.6m**[c] | **Total: €1,169.6m** |

The updated financial restructuring terms provide the required cash needs to reinitiate Abengoa whilst preserving stakeholder value



a Includes TCI loan including early amortisation fees, September bank liquidity line, December bank liquidity line, and March bondholder liquidity line
b Includes A3T escrow account and contingent facility proceeds to address overcosts in the project
c Includes A3T contingent facility (€30m), however in the form of a RCF and not funded until project overcosts take place

| **Back-end fee** | - | - | - |
| **Other** | Parties who commit to participate in A3T Contingent Facility will be entitled to an elevation into the Senior Old Money of €1 of Old Money per 16cts contribution in A3T Contingent Facility similar to the elevation of NM I and NM II, with an additional elevation into Senior Old Money of €1 of Old Money per €1 contribution in A3T Contingent Facility. | Parties who commit to participate New Bonding will be entitled to an elevation into the Senior Old Money of €1 of Old Money per 16cts contribution to New Bonding (Equal elevation treatment as NM I)<br>Basket for additional unsecured bonding facilities<br>- For each €1 of additional new bonding provided by an existing creditor a €1 of its uncalled existing bonding facilities becomes Senior Old Money | - |

a Other than Elevated Bonding which is pari passu to New Bonding
b Roll Over Bonding paid 1% in cash on each portion of the commitments

Case 16-10790-KJC Doc 348-2 Filed 09/26/16 Page 688 of 908

# Restructuring Proposal – Old Money Main Terms

30% of old debt will be reinstated into either Senior or Junior old debt reinstated tranche depending on participation in NM I, NM II, NM III, or New Bonding

Parties who do not adhere to the restructuring or do not specifically opt for the previous alternative will reinstate 3% of their existing debt with a 10 year payment deferral and 0% coupon, and will not receive equity participation

| | Old Money | | |
|---|---|---|---|
| | Senior Old Money Facility | Junior Old Money Facility | Unaffected Debt |
| **Overview** | Allocation of Senior / Junior Old Money Facility to existing lenders based on their participation in NM I, NM II or New Bonding<br>Unsecured but structurally senior to Abengoa, S.A. claims | | Debt unaffected by the restructuring proposal<br>Includes: Project finance, non-Spanish debt without Spanish guarantees |
| **Amount** | €2,587.0m (incl. contingent crystallised guarantees), up to a maximum of €2,700m[a] | | €281.0m[c] (ex. bonding lines and including debt with Unaffected Guarantee) |
| **Interest Cost** | 1.25% PIYC + 0.25% cash | 1.25% PIYC + 0.25% cash | Current terms |
| **Maturity / Amortisation** | 66 months + 24 months[b]<br>Amortisation: 2% annual amortisation from year 5 onwards | 72 months + 24 months[b]<br>Amortisation: 2% annual amortisation from year 5 onwards | Current terms |
| **Seniority / Collateral** | Unsecured but structurally senior to Junior Old Debt and Abengoa SA claims | Unsecured but structurally senior to Abengoa SA claims | Current terms |
| **Equity Participation** | 40% | | - |
| **Other** | Benefits from cash sweep once the NM has been repaid | Benefits from cash sweep once the Senior Old Debt has been fully repaid | - |

a If the aggregate amount of Old Money exceeds €2,700m (because crystallised contingencies exceed those expected in the Viability Plan) at any time after the signing date, (i) the Junior Old Money will be subject to an additional reduction provided that total reduction does not exceed 80% of the original nominal value, and any subsequent contingent claims which are crystallised will be subject to the same reduction as is then applicable to the Junior Old Money Loans/Notes

b Subject to 51% senior Old Debt consent

c Excluding debt amounting to €1,139 m associated with no risk disposals

# Restructuring Proposal – Existing Shareholders Main Terms, Management Incentive Plan and Corporate Governance

Shares

- Proposed capitalisation of credits to achieve allocation described before and collapse of dual-class share structure into one single class to be approved in shareholder meeting of Abengoa S.A. (the "Parent")

Existing shareholders

5% of ABG's equity will be assigned to existing shareholders pro rata to their existing stakes

Additionally, existing shareholders will be issued warrants of up to an additional 5% of the share capital exercisable within 8 years after full repayment of all outstanding amounts under the debt instruments. Warrants will be issued for no consideration and will be exercisable at nominal value

Post restructuring capital increases contemplated in the financial restructuring will result in the following shareholding (pre exercise of warrants)

| | Equity (%) |
|---|---|
| New Money Facility I A<br>New Money Facility I B | 30% |
| New Money Facility II | 15% |
| New Money Facility III | 5% |
| New Syndicated Bonding / Roll Over Bonding | 5% |
| Senior/ Junior Old Money Facilities | 40% |
| Existing shareholders | 5% |

Case 16-10790-KJC Doc 348-2 Filed 09/26/16 Page 688 of 908

# Restructuring Proposal – Existing Shareholders Main Terms, Management Incentive Plan and Corporate Governance (Cont'd)

Management Incentive Plan

A management incentive plan will be put in place on terms approved by the Majority New Money Creditors. The management incentive plan will, among other things, incentivise:

- repayment of NM I, NM II and full payment or release of bonds issued under the Bonding Facilities, as well as avoiding utilisation of New Money Tranche 3; and
- completion of A3T, NM II Priority Collateral and other projects comprising collateral on time and on budget

Good Governance and Board Composition

New by-laws and new regulations of the Board of Directors ("BoD") will be approved in order to comply with the most recent Good Governance Code of Listed Companies published by the CMNV and will, among other things:

- Provide for a majority of the BoD to be independent directors
- Establish the separation of the roles between the Chairman of the BoD and the CEO
- Include a balanced regulation on remuneration of the BoD

In order to facilitate the Restructuring process and to ensure the highest standards of corporate governance the Parent will:

- Appoint Gonzalo Urquijo as adviser to the BoD for matters related with the business and the fulfilment of the conditions precedent for the effectiveness of the final restructuring agreement. The adviser shall not have any executive or management functions
- Maintain the members of the current BoD and their existing roles until the appointment of a new BoD on a General Shareholders meeting to take place once the Restructiring Agreement has been approved
- Call a GSM, as soon as the final restructuring agreement has been approved by the Seville court through the "homologación judicial", in which agenda the appointment of a completely new BoD will be included

## Existing Financial Debt

(In € million. unless noted)

# Restructuring Agreement – Existing Financial Debt

The restructuring agreement will affect €7.6bn of debt outstanding and potentially €1.7bn of guarantees

| | Original Debt Position | | | | | Restructured Debt | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | Debt subject to "homologación" | Non-Spanish Debt w/ Spanish guarantees | Roll-over | Unaffected Debt | Bonding Lines | Debt subject to "homologación" | Non-Spanish Debt w/ Spanish guarantees | | Roll-over | Unaffected Debt | Bonding Lines |

| Bonding lines | - | - | - | - | 1,679 | - | - | - | - | - | 1,679 |
| Contingent Debt | - | 705 | - | - | - | - | 212 | - | - | - | - |
| **Total (Excl. Disposals)** | **7,523** | **1,708** | **487** | **281** | **1,679** | **2,257** | **330** | **608** | **487** | **281** | **1,679** |
| Disposals | - | 1,139 | - | 1,922 | - | - | | 1,139 | - | 1,922 | - |
| **Total (Incl. Disposals)** | **7,523** | **2,847** | **487** | **2,203** | **1,679** | **2,257** | **330** | **1,743** | **487** | **2,203** | **1,679** |

- Non-Spanish debt w/ Spanish guarantees debt is not subject to "homologación" but its guarantees are to the extend that they are crystallised (debtors choose to execute the guarantees):

  a) Non-Spanish debt with crystallised guarantees that have been subject to the restructuring terms.

  b) Non-Spanish debt assumed to have been managed locally, potential guarantee has not materiallised so not subject to restructuring terms. Guarantees would be reinstated at 30% of the par value if crystallised, or lower if the aggregate amount of Old Money exceeds €2,700m (see footnote A on page 42)

- Roll-over debt includes September 2015, December 2015 and March 2016 facilities and the refinancing of TCI margin loan.
- Unaffected debt includes Cebures bonds, Non-Spanish debt with no recourse to Abengoa, project debt and other secured financing.
- Disposals: indicates the debt associated to assets or entities included in the disposal plan and will become out of the scope of the restructuring.
- Impact of disposals on Bonding Line entities has not been shown

# Main Takeaways and Conclusions

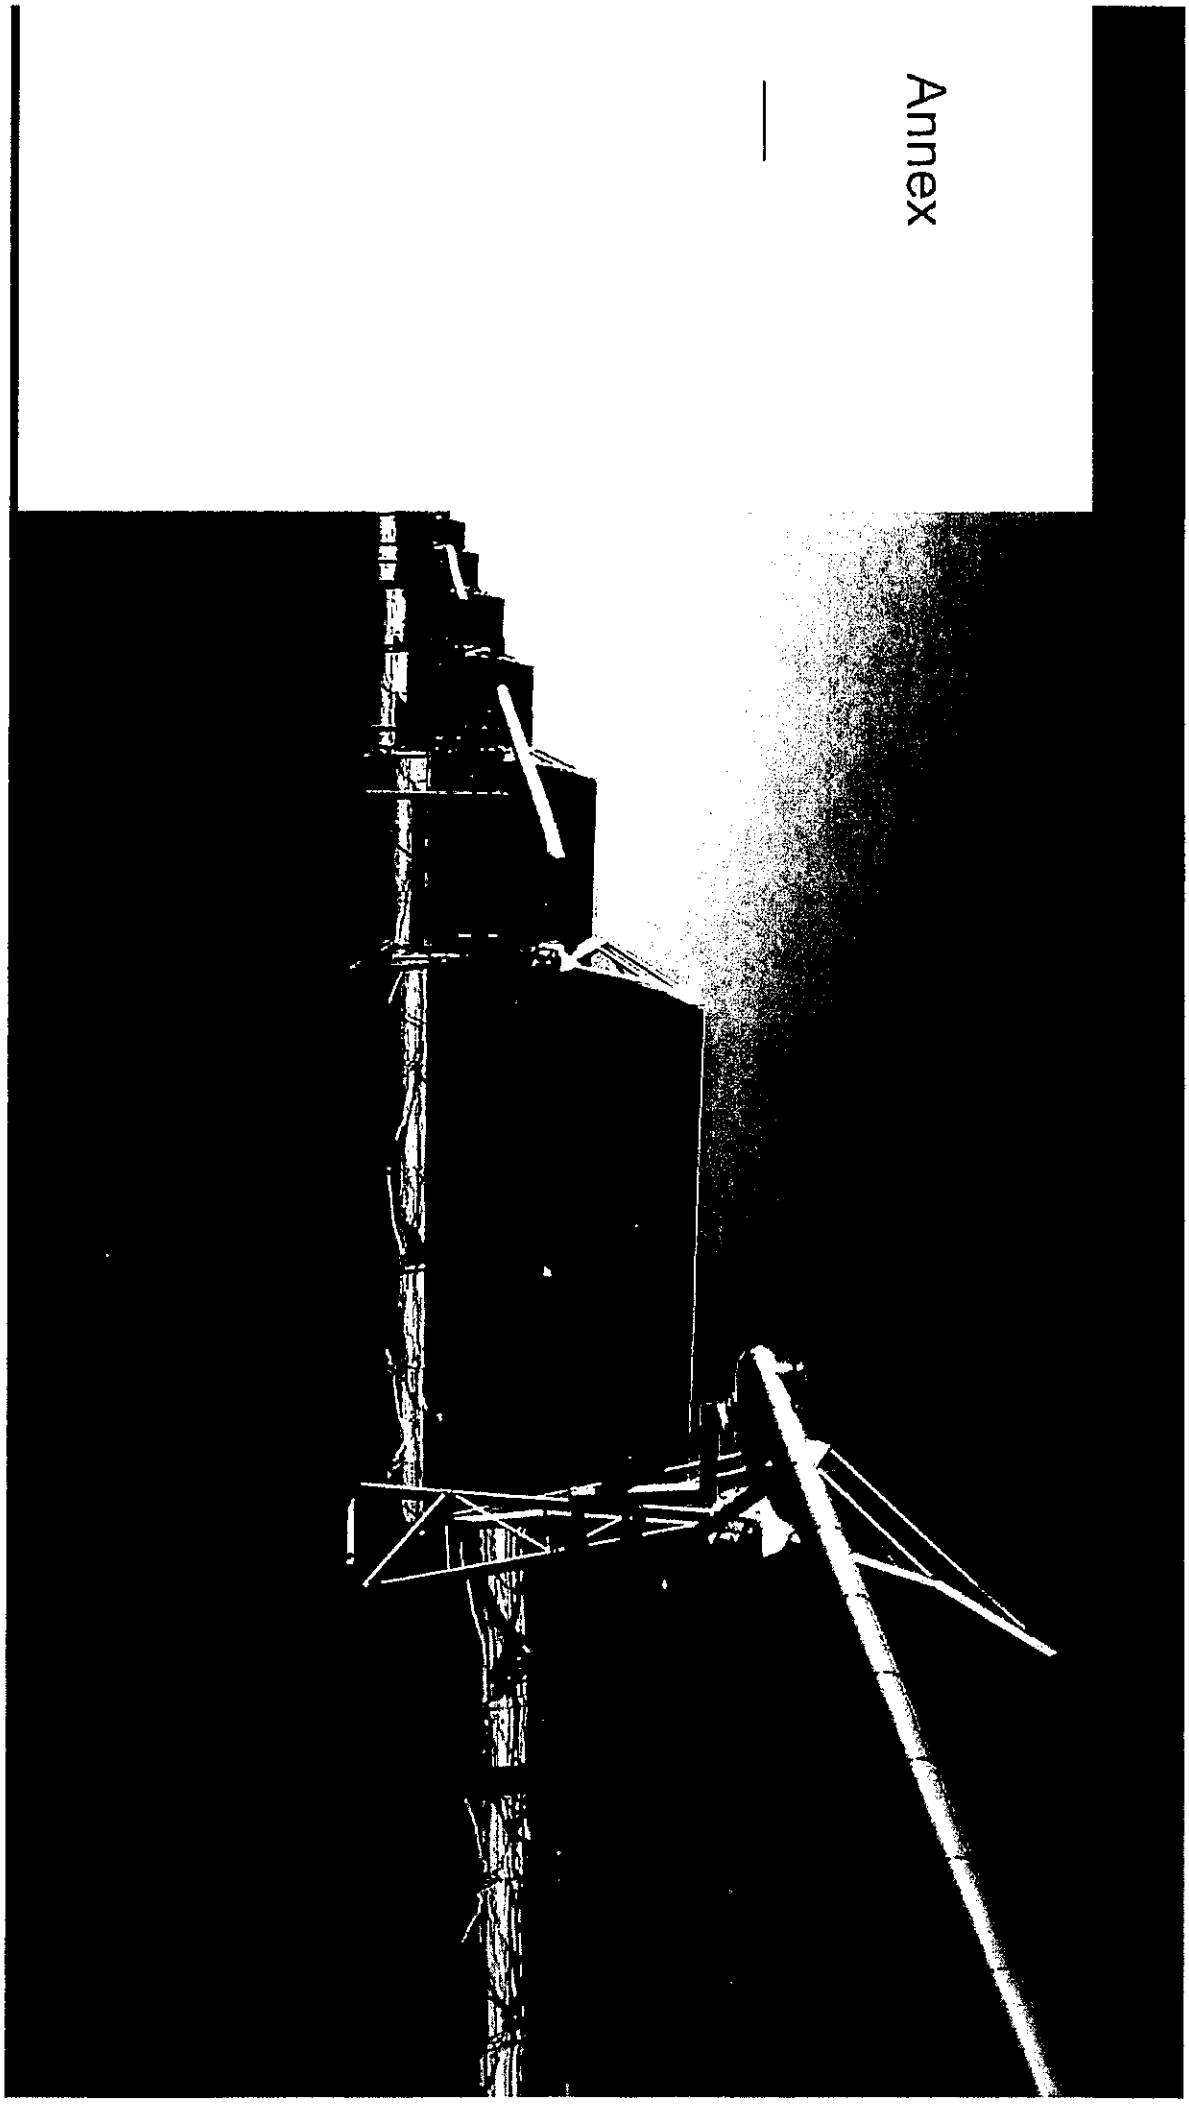
Case 16-10790-KJC Doc 348-8 Filed 09/26/16 Page 692 of 908

# Updated Viability Plan and Financial Restructuring Terms – Conclusions

The Updated Viability Plan and Financial Restructuring Terms are built upon Abengoa's solid fundamentals and strong capabilities in core activities and results in lower cash needs to reinitiate the Company

They provide Abengoa with a runway to return as a strong player in E&C for turnkey or concession-type projects that maximise value whilst minimising cash needs

A new governance fulfilling the most recent Government Code of listed companies published by the CNMV, has been agreed by the BoD. It establishes the separation of the roles of Chairman of the Board and CEO and, with the exception of the Chairman, the board will be integrated by independent directors



Abengoa has appointed Gonzalo Urquijo Fernández de Araoz as independent advisor, with no executive or management functions, to the Board of Directors for matters related to the Viability Plan and the fulfillment of the conditions precedent

Abengoa has obtained commitments from New Money and New Bonding Line providers to implement the Updated Viability Plan, as well as the support to the proposed Restructuring Term Sheet from a strong group of its creditors. It is essential that sufficient financial creditor support is achieved to implement the agreement across its capital structure

All Abengoa financial creditors are strongly encouraged to support the final restructuring agreement which has been drafted to preserve creditor value within the restructuring framework, and to participate in the subscription of the New Money and New Bonding facilities in similar terms to the CoCom and New Money Investor Group

Abengoa strongly encourages financial creditors to support the agreement by adhering to the final restructuring agreement by end of August in order to achieve the required 75% support to proceed with the Homologación Judicial, essential to enable the continuity of Abengoa's operations and to avoid liquidation

Annex

# A3T - 220MW Cogeneration plant with one steam & one gas turbine

## Overview

- Cogeneration clean energy project awarded under Mexican Law
- Designed to cover the incremental steam demand from offtaker Pemex and to sell electricity under the qualification of efficient cogeneration according to Mexican CRE regulatory framework to medium / low voltage off-takers
- Benefits from the advantage of "banco de energía" and energy transport at "estampilla", and has access to gas at competitive prices (gas is scarce in the area)
- The project's PPA is denominated in USD and Mexican Pesos, updated with inflation
  - Discount estimation over future spot market
- Life expectancy of the asset is over 35 years
- Currently the project has no project finance
- Abengoa's PPA strategy is to enter into a mix of PPAs with:
  - Private sector consumers: long-term agreements in low voltage and medium voltage
  - Municipalities: long-term agreements in low voltage
- As of today, A3T has 3 PPAs signed accounting for 17.3% of total 220MW capacity
- Abengoa estimates cash proceeds between €700m – €900m for the sale of A3T, depending on the assumption on value of the PPAs

a Yearly average

## Key Operational Data

| | |
|---|---|
| Technology | Efficient cogeneration – CCGT |
| Capacity | 220 MW |
| Location | Tabasco, Mexico |
| Current ownership | 100% Abengoa |
| COD | Q3 2017 |
| Construction progress | 92.1% |
| Gas turbine | GE |
| Energy generated | c. 5,000[a] |
| Ancillary equipment | Includes substations, transmission lines, gas compression station and steam pipe racks |

## Key Advantages of the Project

- Gas and water availability
- Cost advantage gas supply – no transportation tolling fee
- Post – stamp reduced transmission toll
- Guaranteed dispatch
- Flexibility for take-or-pay with energy bank
- Off-taker does not pay for capacity
- Ability to switch to new regulation and afterwards move back to previous regulation, if desired

The Bioenergy Business Transaction.

## SCHEDULE 16
## NEW MONEY FINANCING COMMITMENT LETTER

**Amendment Letter - New Money Financing Commitment Letter**

From: Abengoa S.A. (the "**Parent**")

To: The Anchor Funders listed in Schedule 1 (the "**Anchor Funders**")

24 September 2016

Dear Sirs,

We refer to the new money financing commitment letter dated 10 August 2016 and the term sheet at Annex 2 (*Term Sheet*) to the new money financing commitment letter (the "**Commitment Letter**"). Unless a contrary indication appears, a term defined in the Commitment Letter has the same meaning in this letter.

1. The Parent hereby requests that with effect from the date this letter is countersigned by all Anchor Funders (such date being, the "**Effective Date**") the Commitment Letter shall be amended and restated so that it shall be read and construed for all purposes as set out in Schedule 2 to this letter.

2. The provisions of the Commitment Letter and each Anchor Acceptance Confirmation shall, save as amended by this letter, continue in full force and effect.

3. Unless expressly provided to the contrary in this letter, a person who is not a party to this letter has no rights under the Contracts (Rights of Third Parties) Act 1999 to enforce or enjoy the benefit of any of its terms.

4. Notwithstanding any term of this letter, the consent of any person who is not a party to this letter is not required to rescind or vary this letter at any time.

5. The provisions of clause 21 (*Notices*), 24.2 and 24.3 (*Governing law and jurisdiction*) of the Commitment Letter shall be incorporated into this letter as if set out in full in this letter and as if references in those clauses to "this letter" are references to this letter.

6. This letter may be executed in any number of counterparts and this has the same effect as if the signatures on the counterparts were on a single copy of this letter.

7. This letter and any non-contractual obligations arising out of or in connection with it are governed by English law.

Please confirm your agreement to this amendment by signing where indicated below.

Yours faithfully,

Abengoa S.A.

70-40625616

We hereby acknowledge and agree to the terms of this letter, and confirm that this letter shall not affect our Initial Anchor Commitments, which shall remain in full force and effect on the terms of our Anchor Acceptance Confirmation and Commitment Letter, including with effect from the Effective Date, as amended by this letter.

Bankia S.A.

Jose Ortiz

JOSE SALAMERO

Date: 23 September 2016

**Schedule 2**
**Amended and Restated Commitment Letter**

**Amended New Money Financing Commitment Letter**

From: Abengoa S.A. (the "**Parent**")

To: The Anchor Funders and the Potential Additional Funders (as defined below)

Date: 10 August 2016 as amended and restated pursuant to an amendment and restatement letter dated on or about the Signing Date

Dear Sirs,

**New Money Financing for Abengoa S.A. and its Subsidiaries**

The Parent proposes to raise each Tranche of the New Money Financing pursuant to the terms of the New Money Financing Documents. This letter sets out the terms and conditions on which Anchor Funders and Potential Additional Funders are invited to participate in the New Money Financing.

1. **Definitions**

In this letter:

"**Acceptance Confirmation**" means:

(a) in respect of an Anchor Funder, an Anchor Acceptance Confirmation;

(b) in respect of any other Potential Additional Funder, an irrevocable acceptance confirmation substantially in the form set out in Part II of Annex 1 (*Acceptance Confirmation*); and

(c) in respect of any other transfer of New Money Commitments, an irrevocable acceptance confirmation substantially in the form set out in Part III of Annex 1 (*Acceptance Confirmation*).

"**Affiliate**" means, in relation to any person, a Subsidiary of that person or a Holding Company of that person or any other Subsidiary of that Holding Company.

"**Aggregate Commitment Amount**" means:

(a) in the case of New Money Tranche 1A, EUR839,100,000;

(b) in the case of New Money Tranche 1B, EUR106,000,000;

(c) in the case of New Money Tranche 2, EUR194,500,000; and

(d) in the case of New Money Tranche 3, EUR30,000,000.

"**Amendment and Restatement Letter**" means the amendment and restatement letter dated on or about the Signing Date between the Parent and the Anchor Funders, amending and restating this letter.

"**Anchor Acceptance Confirmation**" means an irrevocable acceptance confirmation:

(a) substantially in the form of Part I of Annex I (*Acceptance Confirmation*), and delivered to HL:

(i) subject to paragraph (ii) below, by a prospective funder prior to the Signing Date; or

(ii) prior to the end of the Supplemental Accession Period by a lender under the December 2015 Bank Facility (as defined in the Restructuring Agreement) and/or the September 2015 Bank Facility (as defined in the Restructuring Agreement) for a commitment under New Money Tranche 1B and/or New Money Tranche 2 corresponding to its participation in the December 2015 Bank Facility (as defined in the Restructuring Agreement) and/or the September 2015 Bank Facility (as defined in the Restructuring Agreement) and any fees or other amounts to be capitalised as part of the New Money Tranche 2,

designated by the Parent and the relevant prospective funder as an "Anchor Acceptance Confirmation" and specifying which portion of the Anchor Commitment in respect of each Tranche constitutes a Minimum Anchor Allocation; or

(b) substantially in the form of Part III of Annex I (*Acceptance Confirmation*) in respect of an Anchor Commitment.

"**Anchor Commitments**" means, with respect to an Anchor Funder and a Tranche, the Initial Anchor Commitment for that Tranche, subject to any reduction pursuant to paragraph 2.9 and any transfer pursuant to paragraph 5 (*Transfer of New Money Commitments*), provided that such Initial Anchor Commitments have not been terminated or cancelled prior to the Signing Date and that Anchor Funder has on or before the Signing Date (or, if later, the date of the relevant Anchor Acceptance Confirmation), signed the Restructuring Agreement.

"**Anchor Funder**" means any entity which has delivered an Anchor Acceptance Confirmation, unless such entity is no longer the provider of an Anchor Commitment under this letter whether as a result of having transferred its Anchor Commitments in accordance with paragraph 5 (*Transfer of New Money Commitments*) or otherwise.

"**Available Commitment Amount**" means, with respect to any Tranche, the Aggregate Commitment Amount for that Tranche minus the aggregate Minimum Anchor Allocations for that Tranche.

"**Business Day**" means a day (other than a Saturday or Sunday) on which banks are open for general business in London, Madrid and New York.

"**First Acceptance Deadline**" means the date falling 10 Business Days after the Signing Date or such later date as HL may reasonably determine.

"**Funding Eligibility Criteria**" means, in respect of any entity which is or intends to be become an Anchor Funder or agrees to assume a New Money Commitment pursuant to paragraph 4.1(a)(ii), or the funds which directly or indirectly own such entity (in each case other than in respect of an Anchor Funder intending on participating in New Money Tranche 1B and/or New Money Tranche 2 only), either:

(a) satisfying the requirements for a Rated Fund/Institution; or

(b) having at least:

(i) 4 times the amount of its Initial Anchor Commitments (or, in the case of an entity assuming a New Money Commitment under paragraph 4.1(a)(ii), its New Money Commitment) in cash or liquidity under committed funding lines; and/or

(ii) 10 times the amount of its Initial Anchor Commitments (or, in the case of an entity assuming a New Money Commitment under paragraph 4.1(a)(ii), its New Money Commitment) in assets under management or it is managed or principally advised by an investment manager or investment adviser who together with such manager's or adviser's Affiliates meets this criteria; or

(c) providing an irrevocable letter of credit in a form satisfactory to HL from a bank or financial institution which meets the requirements for a Rated Fund/Institution for the amount of its Initial Anchor Commitments (or, in the case of an entity assuming a New Money Commitment under paragraph 4.1(a)(ii), its New Money Commitment).

"**Funding Information**" means, in respect of any entity seeking to satisfy the Funding Eligibility Criteria that is not (or the funds which directly or indirectly own such entity are not) a Rated Fund/Institution:

(a) to the extent that it has audited annual financial statements, its most recent audited annual financial statements or, if its audited annual financial statements are not available, such other information as may be necessary for HL to determine whether such entity meets the Funding Eligibility Criteria;

(b) if it meets the Funding Eligibility Criteria pursuant to paragraph (b)(i) of the definition of Funding Eligibility Criteria, written confirmation from the relevant bank confirming the available cash balance or free and available funding lines; and

(c) a certificate from a director or duly authorised officer:

(i) certifying that:

(A) unless it has provided an irrevocable letter of credit pursuant to paragraph (c) of the definition of Funding Eligibility Criteria, its cash or liquidity available under committed funding lines are at least 4 times its Initial Anchor Commitments (or, in the case of an entity assuming a New Money Commitment under paragraph 4.1(a)(ii), its New Money Commitment) or its assets under management (or the assets of its investment manager or investment adviser that manages or principally advises it, together with the assets of such manager's or adviser's Affiliates) are at least 10 times its Initial Anchor Commitments (or, in the case of an entity assuming a New Money Commitment under paragraph 4.1(a)(ii), its New Money Commitment); and

(B) that it has a good standing/incorporation certificate (or other equivalent certification in its relevant jurisdiction), a copy of which is appended to such certificate; and

(ii) including details of any default in respect of the funding obligations of any of its limited partners or investors (as applicable) in respect of the relevant fund.

"**Group**" means Abengoa S.A. and its Subsidiaries.

"**HL**" means Houlihan Lokey (Europe) Limited (or any of its Affiliates) or any successor financial adviser.

"**Holding Company**" means, in relation to a company or corporation, any other company or corporation in respect of which it is a Subsidiary.

"**Initial Anchor Commitments**" means, with respect to an Anchor Funder which is an Anchor Funder as at the Signing Date (or, in the case of an Anchor Funder which has provided an Anchor Acceptance Confirmation pursuant to paragraph (a)(ii) of the definition of "Anchor Acceptance Confirmation", on or prior to the last day of the Supplemental Accession Period) and a Tranche, the commitment for that Tranche set out in the Anchor Acceptance Confirmation delivered by such Anchor Funder.

"**Initial New Interim Facility**" means the interim facility in a principal amount (not taking into account any capitalisation of interest, fees or other amounts) of up to USD211,000,000 to be provided by one or more of the Anchor Funders (or their Affiliates and/or Related Funds) prior to the Signing Date.

"**Insolvency Event**" means the occurrence of any of the following after the date of this letter:

(a) the winding-up, dissolution, administration, *declaración de concurso* or *solicitud de declaración de concurso voluntario* under the Spanish Insolvency Law, voluntary filing or any consent to any involuntary filing under Chapter 11 or Chapter 7 of the Bankruptcy Code or reorganisation (by way of voluntary arrangement, scheme of arrangement (whether under English law or otherwise) or otherwise) having a similar effect to the foregoing of any member of the Group;

(b) the appointment of a liquidator, administrative receiver, administrator, compulsory manager, Chapter 11 or Chapter 7 trustee, or other similar officer in respect of any member of the Group or the appointment of a receiver over all or substantially all of the assets of any member of the Group; or

(c) a secured party taking possession of all or substantially all of the assets of any member of the Group or has a distress, execution, attachment, sequestration or other legal process levied, enforced or sued on or against all or substantially all the assets of any member of the Group and such secured party maintains possession, or any such process is not dismissed, discharged, stayed or restrained; or

(d) any analogous procedure or step taken in any jurisdiction.

"**March 2016 Interim Facility**" means the EUR 137,094,751.30 secured facility agreement dated 21 March 2016 between, amongst others, Abengoa Concessions Investment Limited as borrower and Global Loans Agency Services Limited as agent.

"**Maximum Individual Commitment Amount**" means, with respect to a Tranche, the amount specified by any Anchor Funder or Potential Additional Funder in its Acceptance Confirmation (or, in the case of an Anchor Funder, notified to HL in accordance with paragraph 2.10(b)) as the maximum aggregate commitment amount it is willing to make available under the New Money Loans and/or the New Money Notes in that Tranche (in the case of an Anchor Funder, in addition to its Anchor Commitment), provided that (a) an Anchor Funder's or Potential Additional Funder's aggregate Maximum Individual Commitment Amounts across all Tranches must be equal to its Pro Rata Amount *less* the amount it has agreed to make available under the New Bonding Facilities; except solely in the case of a Potential Additional Funder's aggregate Maximum Individual Commitment Amount in respect of New Money Tranche 2 under which it may commit an amount greater than its Pro Rata Amount provided that the Majority NM2 Creditors (as defined in the Restructuring Agreement) gives their prior written consent and (b) a Potential Additional Funder's aggregate Maximum Individual Commitment Amount in respect of New Money Tranche 3 must be equal to EUR5,000,000 if it wishes to participate in New Money Tranche 3.

"**Minimum Anchor Allocation**" means, with respect to an Anchor Funder, the portion of its Anchor Commitment in respect of each Tranche specified as such in its Anchor Acceptance

Confirmation provided that an Anchor Funder's Minimum Anchor Allocation for a Tranche must not be more than 50% of its Anchor Commitment for that Tranche.

"**New Bonding Commitments**" means the commitments under the New Bonding Facilities (as defined in the Term Sheet) as at the Signing Date.

"**New Loan Funder**" means any New Money Funder that has provided a commitment in respect of the New Money Loans.

"**New Money Financing**" means the financing to be made available under the New Money Financing Documents.

"**New Money Financing Documents**" means a facility agreement and/or a notes indenture and related documentation (consistent in all material respects with the terms set out in the Term Sheet and this letter) to be agreed in accordance with the Restructuring Agreement.

"**New Money Commitments**" means the New Money Loan Commitments and the New Money Note Commitments.

"**New Money Funder**" means each Anchor Funder and each Potential Additional Funder that has been allocated a New Money Commitment, unless such entity is no longer the provider of a New Money Commitment under this letter.

"**New Money Loan Commitments**" means, with respect to a New Money Funder and a Tranche, subject to adjustment under this letter, the aggregate of any commitment for New Money Loans under that Tranche allocated by HL to that New Loan Funder and the aggregate of any commitment for New Money Loans under that Tranche transferred to that New Loan Funder in accordance with this letter.

"**New Money Loans**" means the loans proposed to be made available pursuant to the tenns of the New Money Financing Documents.

"**New Money Note Commitments**" means, with respect to a New Money Funder under a Tranche, subject to adjustment under this letter, the aggregate of any commitment for New Money Notes under that Tranche allocated by HL to that New Note Funder and the aggregate of any commitment for New Money Notes under that Tranche transferred to that New Note Funder in accordance with this letter.

"**New Money Notes**" means the notes proposed to be issued pursuant to the tenns of the New Money Financing Documents.

"**New Note Funder**" means any New Money Funder that has provided a commitment in respect of the New Money Notes.

"**NM1/NM3 Finance Document**" has the meaning given to such tenn in the Restructuring Agreement.

"**NM1/NM3 Financing Condition**" has the meaning given to such term in the Restructuring Agreement.

"**NM1 Anchor Funder**" has the meaning given to such term in the Restructuring Agreement.

"**Potential Additional Funder**" means any entity which has delivered an Acceptance Confirmation in accordance with paragraph 2 (*Acceptance*) and satisfies the criteria set out in the Acceptance Confirmation (other than the Anchor Funders).

"**Pro Rata Amount**" means, with respect to an Anchor Funder or Potential Additional Funder, a pro rata amount of the aggregate New Money Commitments and New Bonding Commitments, determined with reference to the proportion borne by:

(a) its Existing Loans/Notes and Called Existing Bonding Facilities (including any Existing Loans/Notes and Called Existing Bonding Facilities of such Anchor Funder's or Potential Additional Funder's Affiliates and/or Related Funds in respect of which an election has been made under paragraphs 2.5 or 2.10), in each case as set out in the relevant schedules to the Restructuring Agreement held by that Anchor Funder or Potential Additional Funder at the Signing Date (as demonstrated by the relevant Anchor Funder or Potential Additional Funder to HL's satisfaction); to

(b) the aggregate amount of the Existing Loans/Notes and Called Existing Bonding Facilities as set out in the relevant schedules to the Restructuring Agreement,

in each case, without double counting and applying such foreign exchange rate(s) as HL may reasonably determine.

"**Rated Fund/Institution**" means a bank or financial institution or fund which has a rating for its long-term unsecured and non-credit enhanced debt obligations of BBB- or higher by Standard & Poor's Rating Services or Fitch Ratings Ltd or Baa3 or higher by Moody's Investor Services Limited.

"**Related Funds**", in relation to a fund (the "**first fund**"), means a fund which is managed or advised by the same investment manager or advisor as the first fund or, if it is managed by a different investment manager or adviser, a fund whose investment manager or advisor is an Affiliate of the investment manager or advisor of the first fund.

"**Related Party**" means, in respect of a Party, its officers, directors, partners, shareholders, trustees, controlling persons, employees, agents, advisers, attorneys and representatives.

"**Relevant Associate**" has the meaning given to such term in paragraph 2.5.

"**Restructuring**" means the overall restructuring of the Affected Debt which is required for the continuity of the Group as a going concern, to be further detailed in the Restructuring Agreement on the terms, and subject to the conditions, set out in the Term Sheet.

"**Restructuring Agreement**" means the agreement to implement the Restructuring to be entered into between, among others, the Parent and the creditors listed therein as the Original Participation Creditors, including each Anchor Funder.

"**Restructuring Committee**" has the meaning given to such term in the Restructuring Agreement.

"**Scalable Anchor Commitment**" means, with respect to an Anchor Funder and a Tranche, its Anchor Commitment in that Tranche less its Minimum Anchor Allocation in that Tranche.

"**Restructuring Completion Longstop Date**" has the meaning given to such term in the Restructuring Agreement.

"**Restructuring Steps Plan**" has the meaning given to such term in the Restructuring Agreement.

"**Second Acceptance Deadline**" means the last day of the Supplemental Accession Period under the Restructuring Agreement.

"**Signing Date**" means the date on which the Restructuring Agreement is signed by the original parties to the Restructuring Agreement, including each Anchor Funder as at the date of the Amendment and Restatement Letter.

"**Subsidiary**" means in relation to any company, corporation or other legal entity, (a "**holding company**"), a company, corporation or other legal entity (excluding ABY):

(a) which is controlled, directly or indirectly, by the holding company;

(b) which (whether or not so controlled) is treated as a subsidiary in the latest financial statements of the holding company from time to time;

(c) more than half the issued share capital of which is beneficially owned, directly or indirectly, by the holding company; or

(d) which is a subsidiary of another Subsidiary of the holding company,

and, for this purpose, (i) a company or corporation shall be treated as being controlled by another if that other company or corporation is able to direct management to comply with the type of material restrictions and obligations contemplated in this letter or to determine the composition of the majority of its board of directors or equivalent body, in each case whether by virtue of ownership of share capital, contract or otherwise and (ii) to the extent that company or corporation is incorporated in Spain, "control" shall have the meaning given to it in article 42 of the Spanish Commercial Code (*Código de Comercio*) or to any other legal provisions that may replace it in the future.

"**Supplemental Accession Period**" has the meaning given to such term in the Restructuring Agreement.

"**Term Sheet**" means the term sheet attached to this letter at Annex 2 (*Term Sheet*), which is deemed amended to the extent the term sheet attached to the Restructuring Agreement is amended from time to time after the Signing Date in accordance with the terms of the Restructuring Agreement.

"**Tranche**" means New Money Tranche 1A, New Money Tranche 1B, New Money Tranche 2 and/or New Money Tranche 3.

"**Unallocated Anchor Commitment**" means, with respect to an Anchor Funder and a Tranche, its Anchor Commitment in that Tranche less the New Money Commitment in that Tranche allocated to it under either paragraph 3 (*Initial Allocation of New Money Commitments*) or paragraph 4.1(a)(ii) (*Subsequent Allocation of New Money Commitments*).

"**Unrequested Available Commitment Amount**" means, with respect to any Tranche, the Available Commitment Amount for that Tranche minus the aggregate Maximum Individual Commitment Amounts for that Tranche.

Unless a contrary indication appears, a term defined in the Term Sheet has the same meaning when used in this letter.

2. **Acceptance**

2.1 Any entity wishing to participate in the New Money Financing, whether through receiving a direct allocation of New Money Commitments or as a transferee, shall deliver a duly completed and executed Acceptance Confirmation to HL (or, if directed by HL, to an administrative agent selected by HL). The delivery of an Acceptance Confirmation by an Anchor Funder or Potential Additional Funder constitutes its acceptance of the terms of this letter and the Term Sheet and, subject to the terms of this letter (including, without limitation, the conditions set out in paragraph 9 (*Conditions*) of this letter) its commitment to provide financing as detailed in, and in an amount up to the amount specified in, its Acceptance Confirmation under the New Money Financing subject to the allocation of commitments under and otherwise on the terms set out in this letter.

2.2 No Anchor Acceptance Confirmation may be provided by any entity (and any Anchor Acceptance Confirmation so provided shall not be valid) (other than any Anchor Acceptance Confirmation from an Anchor Funder intending on participating in New Money Tranche 1B and/or New Money Tranche 2 only) unless such entity has complied with paragraph 2.10(a).

2.3 No Potential Additional Funder or Anchor Funder which delivers an Anchor Acceptance Confirmation after the Signing Date may deliver an Acceptance

Confirmation unless it has signed or acceded to, or simultaneously with delivery of its Acceptance Confirmation, signs or accedes to, the Restructuring Agreement.

2.4 Any determination by HL for the purposes of this paragraph 2 will be conclusive and binding on all parties in the absence of manifest error.

2.5 An Anchor Funder or a Potential Additional Funder may elect (in the case of an Anchor Funder, pursuant to paragraph 2.10(b)(ii) below and in the case of a Potential Additional Funder, in its Acceptance Confirmation) to have its "Pro Rata Amount" calculated with reference to the Existing Loans/Notes and Called Existing Bonding Facilities of itself and some or all of its Affiliates and/or Related Funds (a "**Relevant Associate**") provided such Relevant Associates have, in the case of an Anchor Funder, provided the confirmation in paragraph 2.10(b)(ii) below, and in the case of a Potential Additional Funder, countersigned the Acceptance Confirmation.

2.6 An Anchor Funder may (but is not obliged to) specify a Maximum Individual Commitment Amount in addition to its Anchor Commitment.

2.7 Any lender under the March 2016 Interim Facility (or one of its Relevant Associates) may submit an Anchor Acceptance Confirmation with an Initial Anchor Commitment at least equal to the amount of the participation to which such lender (or its Relevant Associate) is entitled under the March 2016 Interim Facility finance documents on or before 20 September 2016.

2.8 For the avoidance of doubt, the Initial Anchor Commitment of an Anchor Funder which is a lender (or the Relevant Associate of such lender) under the March 2016 Interim Facility or under the Initial New Interim Facility will be inclusive of any amount of such Anchor Funder's (or its Relevant Associate's) participation under the March 2016 Interim Facility finance documents and the Initial New Interim Facility finance documents to be exchanged or refinanced pursuant to New Money Tranche 1A.

2.9 On or about the Signing Date, HL shall be entitled to scale back the Initial Anchor Commitments as at that date in its discretion, provided that:

(a) if any lender under the March 2016 Interim Facility (or one of its Relevant Associates) submits an Anchor Acceptance Confirmation with an Initial Anchor Commitment at least equal to the amount of the participation to which such lender (or its Relevant Associate) is entitled under the March 2016 Interim Facility finance documents (its "**March Interim Entitlement**") on or before 20 September 2016 and such lender (or, as the case may be, Relevant Associate) signs the Restructuring Agreement and otherwise complies with its relevant obligations under this letter on or before the Signing Date, its March Interim Entitlement may be scaled back prior to the Signing Date only in the

same proportion as the lowest percentage scale back applicable to any other Anchor Funder; and

(b) if any lender participating in the Initial New Interim Facility is entitled under the terms of that Initial New Interim Facility to an Anchor Commitment equal to all or part of the amount owed to it under the Initial New Interim Facility (its "**New Interim Entitlement**") and that lender (or its Relevant Associate) submits an Anchor Acceptance Confirmation on or before the date of this letter with an Initial Anchor Commitment at least equal to its New Interim Entitlement and such lender (or, as the case may be, Relevant Associate) signs the Restructuring Agreement and otherwise complies with its relevant obligations under this letter on or before the Signing Date, its New Interim Entitlement may be scaled back prior to the Signing Date only in the same proportion as the lowest percentage scale back applicable to any other Anchor Funder; and

(c) following such scale back the aggregate Anchor Commitments for each Tranche will equal the Aggregate Commitment Amount for that Tranche.

2.10 Each Anchor Funder which has delivered an Anchor Acceptance Confirmation shall:

(a) on or prior to the Signing Date or, if later, the date of the relevant Anchor Acceptance Confirmation (other than in respect of an Anchor Funder intending on participating in New Money Tranche 1B and/or New Money Tranche 2 only), provide the Funding Information (if required) to HL and obtain confirmation from HL that HL is satisfied that such entity or the funds which directly or indirectly own such entity meet the Funding Eligibility Criteria;

(b) within the timeframe specified in the Restructuring Agreement for Existing Creditors to accede to the Restructuring Agreement:

(i) confirm to HL the aggregate amount of its and (if applicable) its Relevant Associates' Existing Loans/Notes and Called Existing Bonding Facilities included in the schedules to the Restructuring Agreement and held as at the Signing Date;

(ii) if it elects to have its "Pro Rata Amount" calculated with reference to the Existing Loans/Notes and Called Existing Bonding Facilities of itself and any Relevant Associate, confirm such election to HL, and procure that each such Relevant Associate provides a confirmation of such election to HL, including paragraph 7 of Part II of Annex 1 (*Acceptance Confirmation*) in respect of such election; and

(iii) if it chooses to specify a Maximum Individual Commitment Amount, confirm to HL its Maximum Individual Commitment Amount for each relevant Tranche of the New Money Financing.

2.11 The Parent hereby designates the Acceptance Confirmation of each entity, the identity of which is notified to the Parent by HL pursuant to paragraph 6.2(a) below, as an Anchor Acceptance Confirmation.

2.12 If an entity enters into an Anchor Acceptance Confirmation on behalf of certain of its Affiliates and Related Funds, it will be obliged to procure that it and/or one or more of its Affiliates and Related Funds performs the obligations assumed by it as an Anchor Funder under this letter. On the date of the Amendment and Restatement Letter, provided that such Affiliate(s) and/or Related Fund(s) have signed the Amendment and Restatement Letter (in addition to the entity that provided the Anchor Acceptance Confirmation on their behalf), such Affiliate(s) and/or Related Fund(s) shall be deemed to be the Anchor Funder(s) for the purposes of this letter and the relevant Anchor Acceptance Confirmation.

2.13 An Anchor Funder electing in its Anchor Acceptance Confirmation for its Tranche 1A Initial Anchor Commitment or Tranche 2 Initial Anchor Commitment to be in the form of New Money Notes and/or New Money Loans may change such election at its discretion at any time prior to the Second Acceptance Deadline by notifying HL.

## 3. Initial Allocation of New Money Commitments

3.1 Following the Second Acceptance Deadline, subject to this paragraph 3, HL shall be entitled to:

(a) allocate commitments in the New Money Loans under each Tranche to the Anchor Funders and Potential Additional Funders which have indicated in an Acceptance Confirmation (and, if applicable, in accordance with paragraphs 2.10(b)(iii) and 2.13 above) that they wish to participate in the New Money Loans under that Tranche;

(b) allocate commitments in the New Money Notes under New Money Tranche 1A and New Money Tranche 2 to the Anchor Funders and Potential Additional Funders which have indicated in an Acceptance Confirmation (and, if applicable, in accordance with paragraphs 2.10(b)(iii) and 2.13 above) that they wish to participate in the New Money Notes under that Tranche; and

(c) scale back the Anchor Commitments and the Maximum Individual Commitment Amounts in accordance with the terms of this letter.

3.2 The maximum amount of New Money Commitments for each Tranche following the application of paragraph 3.1 shall not exceed the Aggregate Commitment Amount for that Tranche.

3.3 To the extent that the aggregate of the Maximum Individual Commitment Amounts for New Money Tranche 1A, New Money Tranche 1B or New Money Tranche 2 is equal to or less than the Available Commitment Amount for that Tranche:

(a) the Minimum Anchor Allocations of Anchor Funders in respect of that Tranche will not be scaled back;

(b) the Maximum Individual Commitment Amounts of Anchor Funders and Potential Additional Funders in respect of that Tranche will not be scaled back; and

(c) the Scalable Anchor Commitments of Anchor Funders in respect of that Tranche will be scaled back on a pro rata basis, determined with reference to the proportion borne by each Anchor Funder's Scalable Anchor Commitment with respect to that Tranche to the aggregate amount of all the Scalable Anchor Commitments with respect to that Tranche provided that following such scale back the aggregate of such Scalable Anchor Commitments for each Tranche will equal the Unrequested Available Commitment Amount.

3.4 To the extent that the aggregate of the Maximum Individual Commitment Amounts for New Money Tranche 1A, New Money Tranche 1B or New Money Tranche 2 is more than the Available Commitment Amount for that Tranche:

(a) the Minimum Anchor Allocations of Anchor Funders in respect of that Tranche will not be scaled back;

(b) the Maximum Individual Commitment Amounts of Anchor Funders and Potential Additional Funders in respect of that Tranche will be scaled back on a pro rata basis, determined with reference to the proportion borne by each such Anchor Funder's or Potential Additional Funder's Maximum Individual Commitment Amount with respect to that Tranche to the aggregate of all the Maximum Individual Commitment Amounts with respect to that Tranche, provided that following such scale back the aggregate of such commitments for each Tranche will equal the Available Commitment Amount for that Tranche; and

(c) the Scalable Anchor Commitments of Anchor Funders in respect of that Tranche will be zero.

3.5 To the extent that any Potential Additional Funder indicates in its Acceptance Confirmation that it wishes to participate in New Money Tranche 3 and satisfies the criteria for participation in New Money Tranche 3 (including, without limitation, the requirement to have a rating for its long term unsecured unsubordinated debt of at least A from Standard & Poor's or A1 from Moody's), the first 3 such Potential Additional Funders to submit their Acceptance Confirmations will be allocated a commitment in New Money Tranche 3 in an amount equal to their Maximum Individual Commitment Amount with respect to New Money Tranche 3 and the Anchor Commitments in respect of New Money Tranche 3 will be reduced accordingly provided that, for the avoidance of doubt, the Anchor Funders in respect of New Money Tranche 3 will be entitled to a minimum allocation at least equal to their initial Minimum Anchor Allocation in respect of New Money Tranche 3.

3.6 No Anchor Funder or Potential Additional Funder will be allocated a commitment in a Tranche in excess of its respective Anchor Commitment (if applicable) and Maximum Individual Commitment Amount (as applicable) for that Tranche.

3.7 Notwithstanding any other term of this letter other than the transfer and termination provisions below, a person which is an Anchor Funder as at the date the allocation is made under paragraph 3.1 in respect of a Tranche will be entitled to a minimum allocation equal to its Minimum Anchor Allocation in respect of such Tranche.

4. **Subsequent Allocation of New Money Commitments**

4.1 If, at any time following the allocation of commitments by HL under paragraph 3 (*Initial Allocation of New Money Commitments*) above, the aggregate amount of the New Money Commitments in a Tranche is less than the Aggregate Commitment Amount for that Tranche or a New Money Funder fails to fund its New Money Commitments in respect of that Tranche (the shortfall in the New Money Commitments or the amount not funded (as applicable), the "**Shortfall Amount**"):

(a) HL shall allocate the Shortfall Amount as follows:

(i) firstly, to each Anchor Funder on a pro rata basis, determined with reference to the proportion borne by such Anchor Funder's Unallocated Anchor Commitment with respect to that Tranche to the aggregate amount of all the Unallocated Anchor Commitments with respect to that Tranche, until each Anchor Funder's Unallocated Anchor Commitment is zero; and

(ii) secondly, to the extent there is any unallocated Shortfall Amount following the allocations in paragraph (i) above, to any New Money Funder or Potential Additional Funder provided that such New Money

Funder or Potential Additional Funder has agreed in writing to provide such further New Money Commitments in that Tranche and has:

(A) delivered an Acceptance Confirmation in the form of Part II of Annex I (*Acceptance Confirmation*); and

(B) received confirmation from HL that HL is satisfied that such entity or the funds which directly or indirectly own such entity meet the Funding Eligibility Criteria in respect of the aggregate amount of New Money Commitments already assumed by such New Money Funder or Potential Additional Funder and the aggregate amount of New Money Commitments to be assumed by such new Money Funder or Potential Additional Funder at the time of such allocation,

until the whole Shortfall Amount has been allocated; and

(b) HL shall promptly notify each Anchor Funder of the amount of the Shortfall Amount allocated to it, and such Anchor Funder's increased New Money Commitment for such Tranche,

provided that, following such allocation:

(1) no Anchor Funder's New Money Commitment in that Tranche exceeds its Anchor Commitment for such Tranche; and

(2) the aggregate amount of the New Money Commitments in that Tranche does not exceed the Aggregate Commitment Amount for such Tranche.

5. **Transfer of New Money Commitments**

5.1 At any time after submission of an Acceptance Confirmation, an Anchor Funder or Potential Additional Funder may transfer all or part of the commitments specified in its Acceptance Confirmation to any such Anchor Funder's or Potential Additional Funder's Affiliate(s) or Related Fund(s) by delivering an Acceptance Confirmation under paragraph (c) of that definition in accordance with paragraph 2 (*Acceptance*) duly executed by each of the transferor and the transferee (and, if applicable, the Relevant Associates of the transferee).

5.2 At any time after the date on which New Money Commitments are allocated under paragraph 3 (*Initial Allocation of New Money Commitments*) above, a New Money Funder may transfer all or part of its New Money Commitments to another New Money Funder or Potential Additional Funder by delivering an Acceptance

Confirmation under paragraph (c) of that definition in accordance with paragraph 2 (*Acceptance*) duly executed by each of the transferor New Money Funder and the transferee New Money Funder (and, if applicable, the Relevant Associates of the transferee New Money Funder).

5.3 No purported transfer of New Money Commitments shall be effective unless:

(a) the purported transferee has complied (to the extent applicable) with the requirements of paragraph 2 (*Acceptance*) (a) in respect of the aggregate amount of New Money Commitments already assumed by such New Money Funder (if applicable) and (b) the aggregate amount of New Money Commitments to be transferred to such New Money Funder or Potential Additional Funder at the time of such transfer; and

(b) if the transfer purports to transfer all or part of the New Money Commitments of an Anchor Funder in a Tranche, it also transfers the same proportion of the Anchor Funder's Unallocated Anchor Commitments in that Tranche.

5.4 Notwithstanding anything to the contrary herein, and without limiting any assignment or transfer rights otherwise available to any New Money Funder, the Parent agrees to permit and promptly facilitate, as requested by any New Money Funder:

(a) the issuance of all or a portion of the New Money Loans, New Money Notes, and/or equity issued in connection with the Restructuring to any such New Money Funder's Affiliate(s) or Related Fund(s) (in lieu of issuance to the New Money Funder); and/or

(b) the transfer of all or a portion of the New Money Loans, New Money Notes, and/or equity issued in connection with the Restructuring from the New Money Funder to any Affiliate(s) or Related Fund(s) of such New Money Funder.

## 6. Information regarding New Money Commitments and New Money Funders

6.1 Promptly following any allocations of commitments under paragraphs 3 (*Initial Allocation of New Money Commitments*) and/or 4 (*Subsequent Allocation of New Money Commitments*), HL shall confirm to each New Money Funder:

(a) the commitment under the New Money Loans in each relevant Tranche allocated to such New Money Funder;

(b) the commitment under the New Money Notes in each relevant Tranche allocated to such New Money Funder; and

(c) the aggregate of the New Money Loan Commitments in each Tranche and the New Money Note Commitments in each Tranche as at such date.

6.2 The Parent may request on any Business Day after the allocation of the New Money Commitments pursuant to paragraph 3 (*Initial Allocation of New Money Commitments*) that HL provide it with details of the New Money Loan Commitments of each New Loan Funder and the New Money Note Commitments of each New Note Funder and HL shall be permitted to provide such details. Prior to the allocation of the New Money Commitments pursuant to paragraph 3 (*Initial Allocation of New Money Commitments*), HL shall be authorised to disclose:

(a) to the Parent the identities of the Anchor Funders that have delivered Acceptance Confirmations substantially in the form of Part I or Part III (to the extent such Acceptance Confirmation transfer Anchor Commitments) of Annex I (*Acceptance Confirmations*) to HL;

(b) to the Parent the identities of the Potential Additional Funders that have delivered Acceptance Confirmations substantially in the form of Part II or Part III of Annex I (*Acceptance Confirmations*) (other than Anchor Acceptance Confirmations) to HL; and

(c) to such independent third party adviser as agreed between HL and the Parent, details of the Initial Anchor Commitments and/or Anchor Commitments of each Anchor Funder and the Maximum Individual Commitment Amount of each Potential Additional Funder.

6.3 Any confirmation by HL of the amount of any New Money Commitments shall, in the absence of manifest error, be conclusive evidence of the amount of such New Money Commitments.

6.4 An Anchor Funder or an entity assuming a New Money Commitment under paragraph 4.1(a)(ii) (other than an Anchor Funder participating in New Money Tranche 1B and/or New Money Tranche 2 only) must promptly notify the Parent and HL if at any time it does not meet the Funding Eligibility Criteria.

6.5 HL may, at any time, request that an Anchor Funder or an entity assuming a New Money Commitment under paragraph 4.1(a)(ii) (other than an Anchor Funder participating in New Money Tranche 1B and/or New Money Tranche 2 only) promptly confirms that it or the funds which directly or indirectly own such entity meet the Funding Eligibility Criteria and/or delivers up to date Funding Information demonstrating to the satisfaction of HL that it meets the Funding Eligibility Criteria.

7. **Appointment**

7.1 Subject to the terms of this letter, the Parent appoints each of the New Loan Funders as lenders under the New Money Loans and each of the New Note Funders as initial noteholders under the New Money Notes and agrees that it shall not:

(a) appoint any other person to act in any capacity under the New Money Financing Documents other than a facility agent, a note trustee, a security agent, a calculation agent or an escrow agent or any other person to act in any similar or any solely administrative role;

(b) confer any titles on any person in connection with the New Money Financing other than a facility agent, a note trustee, a security agent, a calculation agent or an escrow agent or any other person to act in any similar or any solely administrative role; and

(c) pay any compensation to any person in connection with the New Money Financing Documents other than any customary compensation payable to a facility agent, a note trustee, a security agent, a calculation agent or an escrow agent or any other person to act in any similar or any solely administrative role, and any legal or other advisory fees,

except as permitted under the Restructuring Agreement.

8. **Several Commitments**

The obligations of the New Money Funders are several. No New Money Funder is responsible for the obligations of any other New Money Funder.

9. **Conditions**

9.1 The acceptance by each New Money Funder of the terms of this letter and its commitment to provide financing as detailed in, and in an amount up to the amount specified in, its Acceptance Confirmation under the New Money Financing is subject to satisfaction of the following conditions:

(a) the Signing Date has occurred on or before 26 September 2016;

(b) the Restructuring Completion Date has occurred on or before 28 February 2017 or such later date as may be agreed by the Parent, the Restructuring Committee and each NM1 Anchor Funder;

(c) the Restructuring Agreement (including, without limitation, the decision-making process under the Restructuring Agreement with respect to the form of the New Money Financing Documents and implementation of the

Restructuring) is in form and substance satisfactory to such New Money Funder;

(d) agreement of the terms, in form and substance satisfactory to such New Money Funder and execution by such New Money Funder of the New Money Financing Documents on or before 17 February 2017 or such later date as may be agreed by the Parent, the Restructuring Committee and each NM1 Anchor Funder;

(e) satisfaction of "know your customer", anti-corruption, anti-money laundering, anti-trust and tax requirements of such New Money Funder;

(f) each of the representations and warranties made by the Parent under this letter (including, without limitation, those set out in paragraph 13 (*Information*)) being correct;

(g) the Parent has complied with each of its obligations under this letter; and

(h) there is no scale back of commitments in respect of the New Money Financing other than in accordance with the terms of this letter.

9.2 Each New Money Funder confirms that subject to agreement of the definitive New Money Financing Documents and the satisfaction of the conditions precedent thereto, it has obtained all internal approvals (including credit approvals) required to be obtained by it in relation to the New Money Financing.

9.3 Without prejudice to the discretion of each Anchor Funder to approve the terms of the New Money Financing Documents and to the termination rights under paragraph 18 (*Termination*) of this letter, the Parent and each Anchor Funder agree to (and the Parent agrees to procure that each relevant member of the Group will) negotiate in good faith with a view to agreeing and executing the New Money Financing Documents on terms consistent with the Term Sheet, Restructuring Agreement and the Restructuring Steps Plan as soon as reasonably practicable and in any event prior to the date specified in paragraph 9.1(d) above.

10. **Underwriting Fee**

10.1 The Parent agrees to pay to each Anchor Funder (or as otherwise directed by an Anchor Funder in a relevant Anchor Acceptance Confirmation) an underwriting fee in an amount equal to 2 per cent of its Anchor Commitment as at the Signing Date (or, in the case of an Anchor Funder which has provided an Anchor Acceptance Confirmation pursuant to paragraph (a)(ii) of the definition of "Anchor Acceptance Confirmation", on the date of its Anchor Acceptance Confirmation) with respect to New Money Tranche 1A, New Money Tranche 1B and New Money Tranche 2

provided that such Anchor Commitments are not terminated by the Parent under paragraph 18.3 below.

10.2 The underwriting fee in respect of New Money Tranche 1A and New Money Tranche 1B is payable in cash on the date of utilisation of New Money Tranche 1A and New Money Tranche 1B respectively, (or, in each case, if earlier, the date on which this letter is terminated under paragraph 18.1 below) whether or not the Restructuring Completion Date occurs provided that the condition regarding the necessary consent threshold in the Restructuring Agreement has been satisfied on or prior to the date on which this letter is terminated under paragraph 18.1 below.

10.3 The underwriting fee in respect of New Money Tranche 2 will be capitalised and form part of New Money Tranche 2 on the Restructuring Completion Date and will be payable only if the Restructuring Completion Date occurs.

10.4 There will be no underwriting fee in respect of New Money Tranche 3.

11. **Upfront/Structuring Fee**

11.1 The Parent agrees to pay an upfront/structuring fee in respect of:

(a) the New Money Commitments under New Money Tranche 1A, New Money Tranche 1B and New Money Tranche 2 allocated under paragraph 3 (*Initial Allocation of New Money Commitments*) or paragraph 4.1(a)(i) (*Subsequent Allocation of New Money Commitments*) above (the "**Early Commitments**") in respect of which an Acceptance Confirmation (including an Anchor Acceptance Confirmation) has been delivered on or before the First Acceptance Deadline provided that such Early Commitments have not been terminated or cancelled prior to the Restructuring Completion Date, in an amount equal to 4 per cent. of the Early Commitments;

(b) any New Money Commitments allocated under paragraph 4.1(a)(ii) (*Subsequent Allocation of New Money Commitments*) above, provided that such New Money Commitments have not been terminated or cancelled prior to the Restructuring Completion Date, in an amount agreed between the Parent, HL and the New Money Funder to which such additional New Money Commitments are allocated not exceeding 4 per cent. of such additional New Money Commitments; and

(c) any other New Money Commitments under New Money Tranche 1A, New Money Tranche 1B and New Money Tranche 2 at the Restructuring Completion Date in an amount equal to 2 per cent. of such New Money Commitments.

11.2 The upfront/structuring fee referred to in paragraph 11.1 will accrue and be payable on the Restructuring Completion Date:

(a) in respect of New Money Commitments under New Money Tranche 1A, by being retained by or on behalf of the New Money Tranche 1A lenders from the proceeds of utilisation of New Money Tranche 1A;

(b) in respect of New Money Commitments under New Money Tranche 1B, by way of capitalisation as part of New Money Tranche 2; and

(c) in respect of New Money Commitments under New Money Tranche 2, by way of capitalisation as part of New Money Tranche 2.

11.3 The Parent agrees to pay an upfront/structuring fee in respect of the New Money Commitments under New Money Tranche 3 as at the Restructuring Completion Date of:

(a) 4 per cent. of the New Money Commitments under New Money Tranche 3 utilised on or before the last day of the availability period for New Money Tranche 3; and

(b) 2 per cent. of the New Money Commitments under New Money Tranche 3 not utilised on or before the last day of the availability period for New Money Tranche 3.

11.4 The upfront/structuring fee referred to in paragraph 11.3 will accrue on the Restructuring Completion Date and is payable to the lenders under New Money Tranche 3 (pro rata to their New Money Commitments under New Money Tranche 3 on the date on which the fee is payable) in cash on the earlier of maturity date of New Money Tranche 3 and the date on which New Money Tranche 3 is cancelled in full.

12. **Payments**

All payments to be made under this letter, the Term Sheet and any other agreement in relation thereto:

(a) shall be paid in the currency of invoice and in immediately available, freely transferable cleared funds to such account(s) with such bank(s) as the relevant recipients notify to the Parent;

(b) shall be paid without any deduction or withholding for or on account of tax (a "**Tax Deduction**") unless a Tax Deduction is required by law. If a Tax Deduction is required by law to be made, the amount of the payment due shall be increased to an amount which (after making any Tax Deduction) leaves an

amount equal to the payment which would have been due if no Tax Deduction had been required; and

(c) are exclusive of any value added tax or similar charge ("**VAT**"). If VAT is chargeable, the Parent shall also and at the same time pay to the recipient of the relevant payment an amount equal to the amount of the VAT.

13. **Information**

13.1 The Parent represents and warrants that:

(a) any factual information provided to the New Money Funders (or any of their professional advisers) by or on behalf of it or any other member of the Group (the "**Information**") is true and accurate in all material respects as at the date it is provided or as at the date (if any) at which it is stated;

(b) nothing has occurred or been omitted and no information has been given or withheld that results in the Information being untrue or misleading in any material respect; and

(c) any financial projections contained in the Information have been prepared in good faith on the basis of recent historical information and on the basis of reasonable assumptions.

13.2 The representations and warranties set out in paragraph 13.1 are deemed to be made by the Parent daily by reference to the facts and circumstances then existing commencing on the date of this letter and continuing until the latest date on which any of the New Money Financing Documents are signed.

13.3 The Parent shall immediately notify the New Money Funders in writing if any representation and warranty set out in paragraph 13.1 is incorrect or misleading and agrees to supplement the Information promptly from time to time to ensure that each such representation and warranty is correct when made.

13.4 The Parent acknowledges that the New Money Funders will be relying on the Information without carrying out any independent verification.

14. **Indemnity**

14.1 The Parent agrees to (and shall procure that each obligor under the Restructuring Agreement shall) indemnify within ten (10) Business Days of demand each New Money Funder and HL and, if applicable, each of their respective Affiliates, Related Funds and Related Parties (each, an "**Indemnified Party**") from and against any and all claims, damages, losses, liabilities and expenses (including, without limitation, reasonable fees and disbursements of legal advisers), that may be incurred by or

asserted or awarded against any Indemnified Party, in each case which are monetary in nature and arising out of or in connection with or relating to this letter and/or the transactions contemplated in this letter, the negotiations regarding the same, irrespective of whether the transactions contemplated hereby are consummated, except to the extent such monetary claim, damage, loss, liability, or expense is found in a judgment by a court of competent jurisdiction to have resulted directly: (i) from such Indemnified Party's gross negligence, fraud or wilful misconduct; (ii) as a result of such Indemnified Party trading the Existing Loans/Notes or Called Existing Bonding Facilities in breach of any applicable law or regulation; or (iii) as a result of such Indemnified Party's breach of the terms of this letter or an Acceptance Confirmation.

The Contracts (Rights of Third Parties) Act 1999 shall apply to this paragraph 14 but only for the benefit of the other Indemnified Persons, subject always to the terms of paragraphs 23.2 and 25 (*Governing Law and Jurisdiction*).

15. **Assignments**

The Parent shall not assign any of its rights or transfer any of its rights or obligations under this letter.

16. **Conflicts**

16.1 The Parent and each New Money Funder acknowledges that each New Money Funder or its Affiliates or Related Funds may provide debt financing, equity capital or other services to other persons with whom the Parent or its Affiliates may have conflicting interests in respect of the New Money Financing or in this Restructuring or other transactions.

16.2 The Parent and each New Money Funder acknowledges each New Money Funder or its Affiliates or Related Funds may act in more than one capacity in relation to this transaction and may have conflicting interests in respect of such different capacities.

16.3 The New Money Funders shall not use confidential information obtained from the Parent or its Affiliates for the purposes of the Restructuring or the New Money Financing in connection with providing services to other persons or furnish such information to such other persons.

16.4 The Parent acknowledges that the New Money Funders have no obligation to use any information obtained from another source for the purposes of the Restructuring or the New Money Financing or to furnish such information to the Parent or its Affiliates.

17. **Lack of representation of New Money Funders**

17.1 HL will not "act for" any New Money Funder in any representative capacity, will have no fiduciary duties to the New Money Funders and will have no authority to act for, represent, or commit the New Money Funders. HL will have no obligations to any person other than as expressly provided in this letter (and for the avoidance of doubt HL is under no obligation to advise or to consult with any New Money Funder on any matter related to this letter).

17.2 HL will have no liability to any person in connection with this letter (including with respect to the exercise or non-exercise of any right, power, authority or discretion).

17.3 The Contracts (Rights of Third Parties) Act 1999 shall apply to this paragraph 17 but only for the benefit of HL, subject always to the terms of paragraphs 23.2 and 25 (*Governing Law and Jurisdiction*).

18. **Termination**

18.1 This letter (including, for the avoidance of doubt, any commitment under an Acceptance Confirmation) will terminate automatically:

(a) upon a termination of the Restructuring Agreement; or

(b) in respect of a New Money Funder only, upon such New Money Funder terminating the Restructuring Agreement in respect of itself or otherwise ceasing to be bound by the Restructuring Agreement.

18.2 Any New Money Funder may terminate its rights and obligations under this letter (including, for the avoidance of doubt, any commitment under an Acceptance Confirmation) with immediate effect by notifying the Parent and HL if:

(a) any of the conditions in paragraph 9.1 (*Conditions*) has not been satisfied (where applicable, on or before the date specified in such condition) (including, for the avoidance of doubt, where that New Money Funder considers the Restructuring Agreement not to be in form and substance satisfactory to it);

(b) an Insolvency Event that such New Money Funder reasonably considers would affect the implementation of the Restructuring in accordance with the Term Sheet occurs prior to the date on which that New Money Funder signs the Restructuring Agreement (other than an Insolvency Event instigated or commenced by that New Money Funder (or any of its Affiliates) purporting to terminate this letter);

(c) the Majority Qualifying NM1 Creditors reasonably believe in good faith that:

(i) a NM1/NM3 Finance Document is not capable of being agreed on or before the Restructuring Completion Long-Stop Date; or

(ii) any NM1/NM3 Financing Condition is not likely to be satisfied at the time it is required to be in accordance with the relevant NM1/NM3 Finance Documents and the Restructuring Steps Plan; or

(d) it is entitled to do so under the terms of the Restructuring Agreement.

18.3 The Parent may terminate the rights and obligations under this letter with immediate effect in respect of a New Money Funder if:

(a) that New Money Funder:

(i) does not comply with its obligations under this letter;

(ii) notifies the Parent and HL under paragraph 6.4 above that it does not meet the Funding Eligibility Criteria or fails to provide the confirmation or information required by paragraph 6.5 above; or

(iii) is an Anchor Funder which has not signed the Restructuring Agreement within 5 Business Days of the execution version of the Restructuring Agreement being provided to it for signature if Anchor Funders representing 75 per cent. of the Initial Anchor Commitments in respect of the relevant Tranche (or, in the case of a Qualifying NM1 Creditor, 75 per cent. of the Initial Anchor Commitments of Qualifying NM1 Creditors (as defined in the Term Sheet and for this purpose on the assumption that its commitment under each Tranche is equal to its Initial Anchor Commitment in respect of that Tranche) in the relevant Tranche) have signed the Restructuring Agreement; or

(b) it is entitled to do so under the terms of, and in accordance with, the terms of the Restructuring Agreement.

19. **Amendments and waivers**

19.1 Subject to paragraph 19.2 below and the terms of the Restructuring Agreement, any term of this letter may be amended or waived with the prior written consent of the Parent and each Anchor Funder and any such amendment will be binding on all parties to this letter and each Acceptance Confirmation.

19.2 Notwithstanding any other provision of this letter or the Restructuring Agreement but without prejudice to paragraph 4 (*Subsequent Allocation of New Money Commitments*), any amendment or waiver which relates to the rights or obligations of HL under this letter, requires the consent of HL.

20. **Survival**

Paragraphs 10 (*Underwriting Fee*), 11 (*Upfront Fee / Structuring Fee*), 12 (*Payments*), 16 (*Conflicts*) to 25 (*Governing Law and Jurisdiction*) inclusive and any equivalent provisions in each Acceptance Confirmation shall survive any termination under paragraph 18 (*Termination*) above.

21. **Entire Agreement**

This letter, the Acceptance Confirmations and (once executed) the Restructuring Agreement set out the entire agreement between the Parent and the New Money Funders in relation to their commitments under the New Money Loans and New Money Notes and supersede any prior oral and/or written understandings or arrangements relating thereto.

22. **Notices**

22.1 Communications in writing

Any communication, notice and requests in general to be made under or in connection with this letter or an Acceptance Confirmation shall be made in writing and, unless otherwise stated, may be made by fax or letter.

22.2 Addresses

The address and fax number of the Parent and HL for any communication or document to be made or delivered are (i) for the Parent and HL, those included below; and (ii) for each New Money Funder, those included in its Anchor Acceptance Confirmation or those notified for the Restructuring Agreement, or, in each case, any substitute address, fax number or department or officer as the party may notify to the Parent and HL (or HL may notify to the other parties, if a change is made by HL) by not less than five (5) Business Days' notice.

**For the Parent:**

Address: C/ Energia Solar 1, 41014 Seville

Fax number: +34 91 752 3350

Email: joaquin.pierola@abengoa.com

Attention: Joaquin Fernandez de Pierola

**For HL:**

Address: 83 Pall Mall, London, SW1Y 5ES

Fax number: +44 (0) 20 7839 5566

Email: ABGNotes@HL.com

Attention: Francisco Garcia-Ginovart

22.3 Delivery

Any communication or document made or delivered by one person to another under or in connection with this letter or an Acceptance Confirmation will only be effective:

(a) if by way of fax, when received in legible form; or

(b) if by way of letter, when it has been left at the relevant address or five (5) Business Days after being deposited in the post postage prepaid in an envelope addressed to it at that address,

and, if a particular department or officer is specified as part of its address details provided under this letter, if addressed to that department or officer.

Any communication or document to be made or delivered to HL or a New Money Funder will be effective only when actually received by HL or that New Money Funder and then only if it is expressly marked for the attention of the department or officer identified for this purpose by HL or that New Money Funder.

All notices from or to the Parent shall be sent through HL.

22.4 Electronic communication

Any communication to be made under or in connection with this letter or an Acceptance Confirmation may be made by electronic mail or other electronic means to the extent the relevant parties have:

(a) notified each other in writing of their electronic mail address and/or any other information required to enable the sending and receipt of information by that means; and

(b) notified each other of any change to their address or any other such information supplied by them by not less than five (5) Business Days' notice.

Any electronic communication will be effective only when actually received in readable form and in the case of any electronic communication made to HL or a New Money Funder only if it is addressed in such a manner as HL or that New Money Funder shall specify for this purpose.

23. **Third Party Rights**

23.1 Unless expressly provided to the contrary in this letter, a person who is not a party to this letter (including the agreement constituted by each Anchor Funder's and Potential Additional Funder's acknowledgement of its terms) has no right under the Contracts (Rights of Third Parties) Act 1999 to enforce or to enjoy the benefit of any of its terms.

23.2 Notwithstanding any term of this letter, the consent of any person who is not a party to this Letter is not required to rescind or vary this letter at any time.

24. **Counterparts**

This letter may be executed in any number of counterparts and this has the same effect as if the signatures on the counterparts were on a single copy of this letter.

25. **Governing Law and Jurisdiction**

25.1 This letter and any non-contractual obligations arising out of or in connection with it are governed by English law.

25.2 The courts of England have non-exclusive jurisdiction to settle any dispute arising out of or in connection with this letter (including a dispute relating to any non-contractual obligation arising out of or in connection with either this letter or the negotiation of the transaction contemplated by this letter).

25.3 The Parent irrevocably agrees that the documents which start any proceedings in relation to this letter, and any other documents required to be served in connection with those proceedings, may be served on it by being delivered to Abengoa Concessions Investments Limited at its registered office or place of business in England and Wales. Nothing in this paragraph 25.3 shall affect the right of a New Money Funder to serve process in any other manner permitted by law. This paragraph 25.3 applies to proceedings in England and proceedings elsewhere.

Yours faithfully

.....

**ABENGOA S.A.**

# ANNEX 1

## ACCEPTANCE CONFIRMATION

## PART I

## ANCHOR ACCEPTANCE CONFIRMATION

From: [*Name of Anchor Funder*] (the "**Anchor Funder**")

To: Abengoa S.A.

And to: Houlihan Lokey (Europe) Limited

Dated: __ August 2016

Dear Sirs

**New Money Financing for Abengoa S.A. and its Subsidiaries**

1. We refer to the new money financing commitment letter from Abengoa S.A. dated on or about 9 August 2016 (the "**Commitment Letter**"). This is an Acceptance Confirmation. Terms defined in the Commitment Letter have the same meaning in this Acceptance Confirmation unless given a different meaning in this Acceptance Confirmation.

2. Paragraphs 22 (*Third Party Rights*) and 24.2 and 24.3 (*Governing Law and Jurisdiction*) of the Commitment Letter are incorporated into this Acceptance Confirmation as if set out in full in this Acceptance Confirmation and as if references in the Commitment Letter to "this letter" were references to this Acceptance Confirmation.

3. The Anchor Funder designates this Acceptance Confirmation as an Anchor Acceptance Confirmation.

4. The Anchor Funder confirms its acceptance of the terms of the Commitment Letter and the Term Sheet and, subject to the terms and conditions of the Commitment Letter, including without limitation, the allocation and scale back of commitments on the terms set out in the Commitment Letter and the conditions set out in paragraph 9 (*Conditions*) of the Commitment Letter, confirms its commitment to provide financing under the New Money Financing otherwise on, and subject to, the terms set out in the Commitment Letter in the following amounts:

4.1 [***Tranche 1A***:

(a) Initial Anchor Commitment: EUR _____, of which:

(i) EUR _____ constitutes such Anchor Funder's New Money Loan Commitments in respect of Tranche 1A;

(ii) EUR _____ constitutes such Anchor Funder's New Money Note Commitments in respect of Tranche 1A; and

(b) Minimum Anchor Allocation: [•]% of its Anchor Commitment.[1]]

4.2 [*Tranche 1B*:

(a) Initial Anchor Commitment: EUR _____, which constitutes such Anchor Funder's New Money Loan Commitments in respect of Tranche 1B ;

(b) Minimum Anchor Allocation: [•]% of its Anchor Commitment.[2]]

4.3 [*Tranche 2*:

(a) Initial Anchor Commitment: EUR _____, of which:

(i) EUR _____ constitutes such Anchor Funder's New Money Loan Commitments in respect of Tranche 2; and

(ii) EUR _____ constitutes such Anchor Funder's New Money Note Commitments in respect of Tranche 2

in each case, subject to any applicable increases that may derive from the calculation of the relevant economics of the underlying debt as at the Signing Date; and

(b) Minimum Anchor Allocation: [•]% of its Anchor Commitment.[3]]

4.4 [*Tranche 3*:

(a) Initial Anchor Commitment: EUR 30,000,000

(b) Minimum Anchor Allocation: 50% of its Anchor Commitment.]

5. [The Anchor Funder represents and warrants that:

5.1 it is either (i) not a U.S. person (as defined in Rule 902(k) under the Securities Act of 1933, as amended, (the "Securities Act")) and is purchasing the New Money Notes in an "offshore transaction" as such term is defined in, and in accordance with, Regulation S under the Securities Act or (ii) an institution that is an "accredited investor" within the meaning of Rule 501(a)(1), (2), (3) or (7) under the Securities Act;

5.2 it is purchasing the New Money Notes for its own account, or for one or more investor accounts for which it is acting as a fiduciary or agent, in each case for

---

[1] This percentage may not be more than 50% of its Anchor Commitment in respect of such Tranche.

[2] This percentage may not be more than 50% of its Anchor Commitment in respect of such Tranche.

[3] This percentage may not be more than 50% of its Anchor Commitment in respect of such Tranche.

investment, and not with a view to, or for offer or sale in connection with, any distribution, within the meaning of the United States securities laws, thereof;

5.3 it has such knowledge and experience in financial and business matters that it is capable of evaluating the merits and risks of purchasing the New Money Notes and, in the normal course of its business, it invests in or purchases securities similar to the New Money Notes;

5.4 it has conducted its own investigation and due diligence into the Group and the New Money Notes and it has had access to such financial, legal, accounting and other information concerning the Group and the New Money Notes as it has deemed necessary; and

5.5 it understands that the New Money Notes have not been and will not be registered under the Securities Act or any securities law of any State of the United States, and may not be offered, sold, pledged, or otherwise transferred except (a) to the issuer of the New Money Notes, (b) pursuant to a registration statement which has been declared effective under the Securities Act, (c) pursuant to offers and sales that occur outside the United States in compliance with Regulation S under the Securities Act, (d) in accordance with Rule 144A, if available, under the Securities Act to a person that the transferor, and any person acting on its behalf, reasonably believes is a "qualified institutional buyer" (as defined in Rule 144A under the Securities Act) or (e) pursuant to any other available exemption from the registration requirements of the Securities Act, and in each case in compliance with any applicable securities laws of any State of the United States or other jurisdiction. It further agrees to provide to any person purchasing any of the New Money Notes from it a notice advising such purchaser that resales of the New Money Notes are restricted as stated herein.][4]

6. The Anchor Funder confirms that its notice details for the purposes of the Commitment Letter and this Acceptance Confirmation are:

Address: [•]

Fax: [•]

Email: [•]

Attention: [•]

7. Without prejudice to any rights of the Anchor Funder to terminate its commitment pursuant to the terms and conditions of the Commitment Letter, this Acceptance Confirmation is irrevocable.

8. This Acceptance Confirmation may be executed in any number of counterparts and this has the same effect as if the signatures on the counterparts were on a single copy of this Acceptance Confirmation.

9. This Acceptance Confirmation and any non-contractual obligations arising out of or in connection with it are governed by English law.

---

[4] Delete if Anchor Funder is not opting for any New Money Notes under Tranche 1A or Tranche 2.

Yours faithfully

## PART II

## ACCEPTANCE CONFIRMATION FOR NEW MONEY COMMITMENT

From: [*Name of Potential Additional Funder*] (the "[**Potential Additional Funder**]")

To: Abengoa S.A.

And To: [Houlihan Lokey (Europe) Limited]/[*Administrative Agent*]

Dated: [•] 2016

Dear Sirs

**New Money Financing for Abengoa S.A. and its Subsidiaries**

1. We refer to the new money financing commitment letter from Abengoa S.A. dated [•] 2016 (the "**Commitment Letter**"). This is an Acceptance Confirmation. Terms defined in the Commitment Letter have the same meaning in this Acceptance Confirmation unless given a different meaning in this Acceptance Confirmation.

2. Paragraphs [22] (*Third Party Rights*) and [24.2 and 24.3] (*Governing Law and Jurisdiction*) of the Commitment Letter are incorporated into this Acceptance Confirmation as if set out in full in this Acceptance Confirmation and as if references in the Commitment Letter to "this letter" were references to this Acceptance Confirmation.

3. The Potential Additional Funder confirms that it has signed or acceded to the Restructuring Agreement.

4. The Potential Additional Funder confirms its acceptance of the terms of the Commitment Letter and, subject to allocation and scale back of commitments on the terms set out in the Commitment Letter, confirms its commitment to provide financing under the New Money Financing in the following amounts:[5]

4.1 ***[Tranche 1A***:

Maximum Individual Commitment Amount: EUR _____, of which:

(a) EUR _____ constitutes such Potential Additional Funder's New Money Loan Commitments in respect of Tranche 1A; and

---

[5] Potential Additional Funder to note that aggregate of Maximum Individual Commitment Amount across all Tranches must be equal to its Pro Rata Amount other than as expressly provided for in the definition of Maximum Individual Commitment Amount.

(b) EUR _____ constitutes such Potential Additional Funder's New Money Note Commitments in respect of Tranche 1A.]

4.2 *[Tranche 1B:*

Maximum Individual Commitment Amount: EUR _____, which constitutes such Potential Additional Funder's New Money Loan Commitments in respect of Tranche 1B.]

4.3 *[Tranche 2*:

Maximum Individual Commitment Amount: EUR _____, of which:

(a) EUR _____ constitutes such Potential Additional Funder's New Money Loan Commitments in respect of Tranche 2; and

(b) EUR _____ constitutes such Potential Additional Funder's New Money Note Commitments in respect of Tranche 2.]

4.4 *[Tranche 3*:

Maximum Individual Commitment Amount: EUR5,000,000]

5. The Potential Additional Funder confirms that it has provided the Funding Information (if required) to HL and received confirmation from HL that such Potential Additional Funder or the funds which directly or indirectly own such Potential Additional Funder meet the Funding Eligibility Conditions.

6. For the purposes of calculating its Pro Rata Amount, the Potential Additional Funder confirms that:

6.1 the aggregate amount of its Existing Loans/Notes and Called Existing Bonding Facilities included in the schedules to the Restructuring Agreement and held as at the Signing Date is [EUR [•]][6]; and

6.2 it and its Relevant Associates hereby elect to have the Pro Rata Amount of the Potential Additional Funder calculated with reference to the Existing Loans/Notes and Called Existing Bonding Facilities of that Potential Additional Funder and such Relevant Associates.

7. Each Relevant Associate confirms that no other Acceptance Confirmation for a direct allocation under paragraph 3 of the Commitment Letter will be submitted in respect of any Pro Rata Amount deriving from its Existing Loans/Notes and Called Existing Bonding Facilities for which an election has been made under paragraph 6 above.

8. [The Potential Additional Funder represents and warrants that:

---

[6] To be the amount of Existing Loans/Notes and Called Existing Bonding Facilities as at the Signing Date. Non-EUR existing debt to be converted by applying such foreign exchange rates as HL may reasonably determine.

8.1 it is either (i) not a U.S. person (as defined in Rule 902(k) under the Securities Act of 1933, as amended, (the "Securities Act")) and is purchasing the New Money Notes in an "offshore transaction" as such term is defined in, and in accordance with, Regulation S under the Securities Act or (ii) an institution that is an "accredited investor" within the meaning of Rule 501(a)(1), (2), (3) or (7) under the Securities Act;

8.2 it is purchasing the New Money Notes for its own account, or for one or more investor accounts for which it is acting as a fiduciary or agent, in each case for investment, and not with a view to, or for offer or sale in connection with, any distribution, within the meaning of the United States securities laws, thereof;

8.3 it has such knowledge and experience in financial and business matters that it is capable of evaluating the merits and risks of purchasing the New Money Notes and, in the normal course of its business, it invests in or purchases securities similar to the New Money Notes;

8.4 it has conducted its own investigation and due diligence into the Group and the New Money Notes and it has had access to such financial, legal, accounting and other information concerning the Group and the New Money Notes as it has deemed necessary; and

8.5 it understands that the New Money Notes have not been and will not be registered under the Securities Act or any securities law of any State of the United States, and may not be offered, sold, pledged, or otherwise transferred except (a) to the issuer of the New Money Notes, (b) pursuant to a registration statement which has been declared effective under the Securities Act, (c) pursuant to offers and sales that occur outside the United States in compliance with Regulation S under the Securities Act, (d) in accordance with Rule 144A, if available, under the Securities Act to a person that the transferor, and any person acting on its behalf, reasonably believes is a "qualified institutional buyer" (as defined in Rule 144A under the Securities Act) or (e) pursuant to any other available exemption from the registration requirements of the Securities Act, and in each case in compliance with any applicable securities laws of any State of the United States or other jurisdiction. It further agrees to provide to any person purchasing any of the New Money Notes from it a notice advising such purchaser that resales of the New Money Notes are restricted as stated herein.][7]

9. The Potential Additional Funder confirms that its notice details for the purposes of the Commitment Letter and this Acceptance Confirmation are the same as those for the Restructuring Agreement.

10. Without prejudice to any rights of the Potential Additional Funder to terminate its commitment pursuant to the terms and conditions of the Commitment Letter, this Acceptance Confirmation is irrevocable.

---

[7] Delete if Potential Additional Funder is not opting for any New Money Notes under Tranche 1A or Tranche 2.

11. This Acceptance Confirmation may be executed in any number of counterparts and this has the same effect as if the signatures on the counterparts were on a single copy of this Acceptance Confirmation.

12. This Acceptance Confirmation and any non-contractual obligations arising out of or in connection with it are governed by English law.

Yours faithfully

## PART III

## ACCEPTANCE CONFIRMATION FOR TRANSFER OF NEW MONEY COMMITMENT

From: [*Name of transferring New Money Funder*] (the "**Transferor Funder**")

[*Name of transferee Anchor Funder or Potential Additional Funder*] (the "**Transferee Funder**")

To: [Houlihan Lokey (Europe) Limited]/[*Administrative Agent*]

Dated: [•] 2016

Dear Sirs

**New Money Financing for Abengoa S.A. and its Subsidiaries**

1. We refer to:

1.1 the new money financing commitment letter from Abengoa S.A. dated [•] 2016 (the "**Commitment Letter**"); and

1.2 the Acceptance Confirmation from the Transferor Funder in respect of the New Money Financing dated [•] (the "**Transferor Acceptance Confirmation**" and together with the Commitment Letter, the "**Commitment Documents**").

2. This is an Acceptance Confirmation. Terms defined in the Commitment Letter have the same meaning in this Acceptance Confirmation unless given a different meaning in this Acceptance Confirmation.

3. [The Transferee Funder designates this Acceptance Confirmation as an Anchor Acceptance Confirmation.][8]

4. Paragraphs [22] (*Third Party Rights*) and [24.2 and 24.3] (*Governing Law and Jurisdiction*) of the Commitment Letter are incorporated into this Acceptance Confirmation as if set out in full in this Acceptance Confirmation and as if references in the Commitment Letter to "this letter" were references to this Acceptance Confirmation.

5. From the date of this Acceptance Confirmation, the Transferor Funder and the Transferee Funder agree to the Transferor Funder transferring to the Transferee Funder by novation all of the Transferor Funder's rights and obligations under the Commitment Documents which relate to its portion of the New Money Commitments specified below in the column headed "Transferred Commitments (EUR)" (the "**Transferred Commitments**"):

---

[8] Delete if Transferor Funder is not an Anchor Funder.

| | *Transferred Commitments (EUR)* | *Transferor Funder's Remaining Commitments (EUR)* |

[20] Delete if Transferor Funder is an Anchor Funder.

[21] Delete if Transferor Funder is not an Anchor Funder.

[22] Delete if Transferor Funder is not an Anchor Funder. This percentage may not be more than 50% of its Maximum Individual Commitment in respect of such Tranche.

[23] Delete if Transferor Funder is not an Anchor Funder or if transfer is prior to allocation of New Money Commitments under paragraph 3 of the Commitment Letter.

6. For the purposes of calculating its Pro Rata Amount, the Transferor Funder confirms that, following the transfer of the Transferred Commitments, the aggregate amount of its Existing Loans/Notes and Called Existing Bonding Facilities at the [Signing Date] is [EUR [•]].

7. [The Transferor Funder confirms that it has transferred all of its New Money Commitments and has ceased to be a New Money Funder under the Commitment Documents.][24]

8. [The Transferor Funder confirms that any and all fees payable to it by the Parent pursuant to paragraphs [10] and/or [11] of the Commitment Letter in respect of the Transferred Commitments should be paid to the Transferee Funder.][25]

9. Unless expressly agreed to the contrary, the Transferor Lender makes no representation or warranty and assumes no responsibility to the Transferee Lender for:

   (a) the legality, validity, effectiveness, adequacy or enforceability of the Commitment Documents or any other document;

   (b) the financial condition of any member of the Group;

   (c) the performance and observance by the Parent, any other member of the Group or any other person of its obligations under the Commitment Documents or any other document; or

   (d) the accuracy of any statements (whether written or oral) made in or in connection with the Commitment Documents or any other document,

   and any representations or warranties implied by law are excluded.

10. Nothing in the Commitment Letter, the Transferor Acceptance Confirmation, this Acceptance Confirmation or any other document obliges the Transferor Funder to:

   (a) accept a re-transfer or re-assignment from the Transferee Funder of any of the rights and obligations in respect of the Transferred Commitments; or

   (b) support any losses directly or indirectly incurred by the Transferee Funder by reason of the non-performance by any member of the Group or any other person of its obligations under the Commitment Documents, this Acceptance Confirmation or otherwise.

11. On the date of this Acceptance Confirmation and in respect of the Transferred Commitments:

   (a) the Parent and the Transferor Funder shall be released from further obligations towards one another under the Commitment Documents and their respective rights against one another under the Commitment Documents shall be cancelled (being the "**Discharged Rights and Obligations**");

---

[24] Delete if Transferor Funder is transferring only part of its New Money Commitments.

[25] Update to reflect the commercial agreement as to fees.

(b) the Parent and the Transferee Funder shall assume obligations towards one another and/or acquire rights against one another which differ from the Discharged Rights and Obligations only insofar as the Parent and the Transferee Funder have assumed and/or acquired the same in place of the Parent and the Transferor Funder;

(c) HL and each other New Money Funder shall acquire the same rights and assume the same obligations between themselves as they would have acquired and assumed had the Transferee Funder been an original New Money Funder with the rights and/or obligations acquired or assumed by it as a result of the transfer and to that extent HL and each other New Money Funder and the Transferor Funder shall each be released from further obligations to each other under the Commitment Documents; and

(d) the Transferee Funder shall become a party to the Commitment Letter as a "New Money Funder" [and an "Anchor Funder"][26].

12. The Transferee Funder confirms its acceptance of the terms of the Commitment Letter and the Term Sheet and, subject to the terms and conditions of the Commitment Letter, including without limitation, the allocation and scale back of commitments on the terms set out in the Commitment Letter and the conditions set out in paragraph 9 (*Conditions*) of the Commitment Letter, confirms its acceptance of all of the Transferor Funder's rights and obligations under the Commitment Documents which relate to the Transferred Commitments.

13. [The Transferee Funder confirms that it has provided the Funding Information (if required) to HL and received confirmation from HL that such Transferee Funder or the funds which directly or indirectly own such Transferee Funder meet the Funding Eligibility Conditions.][27]

14. [The Transferee Funder represents and warrants that:

14.1 it is either (i) not a U.S. person (as defined in Rule 902(k) under the Securities Act of 1933, as amended, (the "Securities Act")) and is purchasing the New Money Notes in an "offshore transaction" as such term is defined in, and in accordance with, Regulation S under the Securities Act or (ii) an institution that is an "accredited investor" within the meaning of Rule 501(a)(1), (2), (3) or (7) under the Securities Act;

14.2 it is purchasing the New Money Notes for its own account, or for one or more investor accounts for which it is acting as a fiduciary or agent, in each case for investment, and not with a view to, or for offer or sale in connection with, any distribution, within the meaning of the United States securities laws, thereof;

14.3 it has such knowledge and experience in financial and business matters that it is capable of evaluating the merits and risks of purchasing the New Money Notes and, in

---

[26] Delete if Transferor Funder is not an Anchor Funder.

[27] Delete if Transferor Funder is not an Anchor Funder.

the normal course of its business, it invests in or purchases securities similar to the New Money Notes;

14.4 it has conducted its own investigation and due diligence into the Group and the New Money Notes and it has had access to such financial, legal, accounting and other information concerning the Group and the New Money Notes as it has deemed necessary; and

14.5 it understands that the New Money Notes have not been and will not be registered under the Securities Act or any securities law of any State of the United States, and may not be offered, sold, pledged, or otherwise transferred except (a) to the issuer of the New Money Notes, (b) pursuant to a registration statement which has been declared effective under the Securities Act, (c) pursuant to offers and sales that occur outside the United States in compliance with Regulation S under the Securities Act, (d) in accordance with Rule 144A, if available, under the Securities Act to a person that the transferor, and any person acting on its behalf, reasonably believes is a "qualified institutional buyer" (as defined in Rule 144A under the Securities Act) or (e) pursuant to any other available exemption from the registration requirements of the Securities Act, and in each case in compliance with any applicable securities laws of any State of the United States or other jurisdiction. It further agrees to provide to any person purchasing any of the New Money Notes from it a notice advising such purchaser that resales of the New Money Notes are restricted as stated herein.][28]

15. The Transferee Funder confirms that its notice details for the purposes of the Commitment Documents are the same as those for the Restructuring Agreement.

16. Without prejudice to any rights of the Anchor Funder to terminate its commitment pursuant to the terms and conditions of the Commitment Letter, this Acceptance Confirmation is irrevocable.

17. This Acceptance Confirmation may be executed in any number of counterparts and this has the same effect as if the signatures on the counterparts were on a single copy of this Acceptance Confirmation.

18. This Acceptance Confirmation and any non-contractual obligations arising out of or in connection with it are governed by English law.

Yours faithfully

## PART 1
## RESTRUCTURING TERMS AND MECHANICS

(A) **Categories of Existing Financial Indebtedness**

**Non-Compromised Debt:**

(a) September 2015 Bank Facility

(b) December 2015 Bank Facility

(c) TCI Margin Loan, except to the extent previously refinanced by a New Interim Facility

(d) March 2016 Interim Facility

(e) Any further interim financing(s) entered into on or after 4 August 2016 and prior to the Restructuring Steps Commencement Date in accordance with the Restructuring Agreement, regardless of its guarantee and security package (each a "**New Interim Facility**")

**Existing Loans/Notes:**

(a) Existing NY Law Notes

(b) Existing English Law Notes

(c) September 2014 Bank Facility

(d) The (i) other Compromised Debt and (ii) Non-Spanish Debt to be Restructured of Consenting Existing Creditors, excluding the Existing Bonding Facilities

**Existing Bonding Facilities (*avales*):**

To be listed in the schedules to the Restructuring Agreement and comprising:

(a) Called Existing Bonding Facilities (being existing bonding called prior to the Signing Date); and

(b) Uncalled Existing Bonding Facilities (being existing bonding uncalled at the Signing Date),

provided that with respect to the Initial Bonding Providers, if any bonding issued by an Initial Bonding Provider prior to the date on which that Initial Bonding Provider signs the New Bonding Commitment Letter is called prior to the Signing Date, such Initial Bonding Provider's existing bonding which is called after the date on which it signs the New Bonding Commitment Letter but prior to the Signing Date will be treated as Uncalled Existing Bonding Facilities.

Definitions of each sub-category of Affected Debt and Non-Spanish Debt to be Restructured and a list of Non-Affected Debt are to be set out in the Restructuring Agreement. For the avoidance of doubt, the treatment of the Administration Costs (as defined in the Restructuring

Agreement) will be as set forth in the Restructuring Agreement.

The treatment of Affected Debt, including Non-Spanish Debt to be Restructured of Consenting Existing Creditors is set out in section (C).

(B) **Post-Restructuring Capital Structure**

**New Money Tranche 1:** EUR945.1m, comprising (i) Tranche 1A, being EUR839.1m which includes the refinanced TCI Margin Loan (except to the extent previously refinanced by an New Interim Facility) and refinanced or exchanged March 2016 Interim Facility and (subject to the New Interim Facility section below) any New Interim Facility and related fees, costs and expenses, to be documented in the form of New Money Loans and New Money Notes; and (ii) Tranche 1B, being EUR 106m of principal amount comprising part of the refinanced December 2015 Bank Facility, to be documented in the form of New Money Loans. Any advance under the Non-Compromised Debt on or after the date of the New Money Financing Commitment Letter but prior to the Restructuring Steps Commencement Date will be refinanced as part of New Money Tranche 1A (subject to the New Interim Facility section below).

**New Money Tranche 2:** EUR194.5m, comprising (a) the refinanced (i) principal amount of the September 2015 Bank Facility and (ii) the fees, costs and amounts other than principal under the December 2015 Bank Facility and the September 2015 Bank Facility; and (b) OID/Upfront/Structuring fees, PIK interest and back-end fees on New Money Tranche 1B and underwriting fees on New Money Tranche 2, to be documented in the form of New Money Loans and New Money Notes.

**New Money Tranche 3:** A EUR30m term facility to provide guaranteed funding for an A3T funding shortfall under certain circumstances, to be documented in the same document as New Money Tranche 1.

**New Bonding Facilities:** New Bonding Facilities comprising:

(a) New Syndicated Bonding Tranche: a new tranche syndicated between the Initial Bonding Providers of at least EUR209m for the purpose of issuing new bonding (but not, for the avoidance of doubt, any extension, amendment or replacement of existing bonding for the same project and purpose).

(b) Roll Over Bonding Tranche: a roll over tranche syndicated between the Initial Bonding Providers of EUR98m for the purpose of issuing new bonding (but not, for the avoidance of doubt, any extension, amendment or replacement of existing bonding for the

same project and purpose). An Initial Bonding Provider's commitment under the Roll Over Tranche will become available as and when its Uncalled Existing Bonding Facilities are released.

(c) New Bilateral Bonding Tranche: a new bilateral bonding tranche provided on a bilateral basis by existing creditors in respect of Existing Bonding Facilities which elect to commit on the date on which they accede to the Restructuring Agreement to provide bilateral commitments for the purpose of issuing new bonding (but not, for the avoidance of doubt, any extension, amendment or replacement of existing bonding for the same project and purpose).

Any new bond (*aval*) issued by an Initial Bonding Provider after the date on which the New Bonding Commitment Letter is signed by the Initial Bonding Providers but prior to the Restructuring Completion Date will be deemed to be part of the New Syndicated Bonding Tranche or the Roll Over Bonding Tranche (at the option of the Initial Bonding Provider).

**Consenting Existing Bonding Facilities:** Uncalled Existing Bonding Facilities provided by Consenting Existing Creditors.

**Consenting Old Money:** Up to EUR 2,700m including accrued but unpaid interest until 30 September 2016 divided as follows:

(a) a non-contingent tranche equal to an initial 70% reduction in the principal and accrued but unpaid interest amount as at 30 September 2016 of such Existing Loans/Notes and Called Existing Bonding Facilities of Consenting Existing Creditors, calculated at the Restructuring Steps Commencement Date to be treated as Senior Old Money Loans/Notes or Junior Old Money Loans/Notes as provided in Section (C) below and subject to the additional subsequent reduction set out below; and

(b) a contingent tranche in order to fund the crystallisation of contingent claims of Consenting Existing Creditors deriving from:

(i) Uncalled Existing Bonding Facilities which are subsequently called; and/or

(ii) the enforcement of guarantees which are restructured through the Alternative Restructuring Terms,

without double counting, to be treated as Senior Old Money Loans/Notes or Junior Old Money Loans/Notes as provided in Section (C) below (and the Parent will be authorised to crystallise such guarantee claims and effect the reduction on behalf of the relevant creditors in accordance with the Restructuring Agreement).

Therefore, both the contingent tranche and the non-contingent tranche will be divided between Junior Old Money Loans/Notes and Senior Old Money Loans/Notes following the mechanics set out in Section (C) below.

No ordinary interest of Existing Loans/Notes and Called Existing Bonding Facilities of Consenting Existing Creditors will accrue after 30 September 2016 unless the Restructuring Completion Date has not occurred by the the date specified in paragraph 9.1(b) of the New Money Financing Commitment Letter.

Any unpaid default interest accrued under the Existing Loans/Notes and Called Existing Bonding Facilities of Consenting Existing Creditors shall not be payable under the terms of the Restructuring Agreement.

If the aggregate amount of the Consenting Old Money would exceed EUR 2,700m at any time after the Signing Date (because contingent claims from Consenting Existing Creditors which crystallise after the Signing Date exceed those expected in the Business Plan), the Junior Old Money Loans/Notes (whether under the contingent or the non-contingent tranche) will be subject to an additional reduction in accordance with paragraph (a) above in the amount necessary to ensure that the aggregate amount of Consenting Old Money does not at any time exceed EUR 2,700m provided that the total reduction applied to Junior Old Money Loans/Notes does not exceed 80% of their original nominal value and any subsequent contingent claims which are crystallised will be subject to the same reduction as is then applicable to the Junior Old Money Loans/Notes.

No additional reduction will apply to the Senior Old Money Loans/Notes.

**New Interim Facility:** To be repaid or (in the case of the first New Interim Facility at the option of each lender under such New Interim Facility) exchanged as part of New Money Tranche 1A other than in respect of any fees set out in such New Interim Facility documents, payment of which is expressly permitted under such New Money Interim Facility to be postponed at the option of the borrower under such facility. Any such obligations under the New Interim Facility not refinanced or

exchanged as part of New Money Tranche 1A will, following the Restructuring Completion Date, be unsecured and subordinated to New Money Tranche 3, New Money Tranche 2, New Bonding Facilities and New Money Tranche 1 but rank ahead of the Senior Old Money Loans/Notes and Junior Old Money Loans/Notes. The aggregate amount of any such obligations shall not exceed EUR11m. Provided always that the New Interim Facility must be permitted under the finance documents for the September 2015 Bank Facility, December 2015 Bank Facility and March 2016 Interim Facility.

**Non-Consenting Existing Debt:** Existing Loans/Notes and Existing Bonding Facilities of (i) Non-Consenting Creditors and (ii) creditors that enter into the Restructuring Agreement and do not elect the Alternative Restructuring Terms.

**Equity:** Class A and Class B shares in the Parent in proportion to the number of shares of each class existing at the relevant time, listed on the Madrid and Barcelona Stock Exchanges (and, if so determined in accordance with Part 5, the NASDAQ stock exchange or another regulated exchange to be agreed) and owned as follows at the Restructuring Completion Date:

(a) 30% owned by the creditors in respect of New Money Tranche 1 *pro rata* to their commitments under New Money Tranche 1 as at a reference date to be determined in accordance with the Restructuring Agreement;

(b) 15% owned by the creditors in respect of New Money Tranche 2 *pro rata* to their commitments under New Money Tranche 2 as at a reference date to be determined in accordance with the Restructuring Agreement;

(c) 5% owned by the creditors in respect of New Money Tranche 3 *pro rata* to their commitments under New Money Tranche 3 as at a reference date to be determined in accordance with the Restructuring Agreement;

(d) 40% owned by the creditors in respect of (i) 70% of the Existing Loans/Notes and Called Existing Bonding Facilities of Consenting Existing Creditors (the residual 30% of which constitute Consenting Old Money), and (ii) 70% of the amount of the guarantees which are restructured through the Alternative Restructuring Terms and voluntarily crystallised by the relevant creditor (such decision to be made on the date on which the relevant creditor signs or accedes to the Restructuring Agreement and to take effect on the

Restructuring Completion Date) *pro rata* to their claims thereunder.

Consenting Existing Creditors in respect of Existing Loans/Notes and Called Existing Bonding Facilities may choose to take up (i) no equity; (ii) equity in a maximum amount of 4.9% or (iii) their pro rata share of the remaining equity to be allocated to the remaining Consenting Existing Creditors in respect of Existing Loans/Notes and Called Existing Bonding Facilities taking into account paragraphs (i) and (ii). Consenting Existing Creditors opting for paragraph (i) or (ii) above, will replace equitisation of all or part of their Existing Loans/Notes and Called Existing Bonding Facilities with an equivalent reduction in such claims.

The above allocation of equity will not prevent any Consenting Existing Creditor from (A) transferring all or part of their Consenting Old Money in accordance with the Restructuring Agreement; or (B) transferring its right to receive shares of the Parent.

(e) 5% owned by the providers of New Syndicated Bonding Tranche and the New Bilateral Bonding Tranche at the last day of the period for acceding to the Restructuring Agreement pro rata to their commitments under the New Syndicated Bonding Tranche and the New Bilateral Bonding Tranche as at a reference date to be determined in accordance with the Restructuring Agreement; and

(f) 5% owned by the existing shareholders pro rata to their existing shareholdings immediately prior to the reference date to be determined in accordance with the Restructuring Agreement with warrants in respect of an additional 5% of the Parent's share capital immediately after the Restructuring Completion Date, issued in favour of the existing shareholders pro rata to their existing shareholdings at as at a reference date to be determined in accordance with the Restructuring Agreement. Such warrants will be issued for no consideration and will be exercisable at nominal value (i.e. face value of the shares to be subscribed) within 96 months of the Restructuring Completion Date following full repayment of all outstanding amounts under the Debt Instruments.

The precise equity capitalisation mechanics are to be determined in the Restructuring Agreement and may differ from those set out in the term sheet provided that they have the

same commercial effect.

(C) **Treatment of Affected Debt, including Non-Spanish Debt to be Restructured of Consenting Existing Creditors in Restructuring**

| | | |
|---|---|---|
| **Non-Compromised Debt Participation:** | (a) | The TCI Margin Loan will be refinanced from New Money Tranche 1A (except to the extent previously refinanced by a New Interim Facility). |
| | (b) | The March 2016 Interim Facility and (subject to the New Interim Facility in Section (B) of Part 1) any New Interim Facility will be refinanced from, or exchanged for a participation in, New Money Tranche 1A. |
| | (c) | The original principal amount of the December 2015 Bank Facility will be refinanced from New Money Tranche 1B. |
| | (d) | The principal amount of the September 2015 Bank Facility and the fees, costs and amounts other than principal under the December 2015 Bank Facility and the September 2015 Bank Facility will be refinanced from New Money Tranche 2. |
| **Existing Bonding Facilities (other than Non-Consenting Existing Debt):** | (a) | The Called Existing Bonding Facilities of Consenting Existing Creditors will be subject to the Consenting Old Money Reduction and will, subject to the "Consenting Old Money Elevation" section below, be treated as Junior Old Money Loans/Notes under the non-contingent tranche of the Consenting Old Money. |
| | (b) | As regards the Uncalled Existing Bonding Facilities, a Consenting Existing Creditor which agrees to participate in the New Bonding Facilities on the date on which it signs or accedes to the Restructuring Agreement will be entitled to have EUR1.0 of its Uncalled Existing Bonding Facilities, if and when called, exempted from any reduction and the residual par value claim will be treated as Senior Old Money Loans/Notes under the contingent tranche of the Consenting Old Money (when called) per EUR 1.0 contribution in the New Bonding Facilities. Subject to Section (B) of Part 2, the remaining Uncalled Existing Bonding Facilities will, if and when called, be subject to the Consenting Old Money Reduction and the residual claim will be treated as Junior Old Money Loans/Notes under the contingent tranche of the Consenting Old Money, subject to the elevation set out in the "Consenting Old Money Elevation" section below. |

Uncalled Existing Bonding Facilities which are uncalled as at their maturity date will expire and there will be no obligation on any provider of any such bonding facility to extend or replace any such bonding which has expired uncalled.

(c) If a Consenting Existing Creditor does not agree to participate in the New Bonding Facilities on the date on which it signs or accedes to the Restructuring Agreement then, subject to Section (B) of Part 2, all of that creditor's Uncalled Existing Bonding Facilities, if and when called, will be subject to the Consenting Old Money Reduction and the residual claim will be treated as Junior Old Money Loans/Notes under the contingent tranche of the Consenting Old Money.

(d) Accrued but unpaid fees of Uncalled Existing Bonding Facilities (as long as they remained uncalled as at the Restructuring Completion Date) shall not be subject to any reduction nor treated as Affected Debt and therefore, the relevant company of the Group obliged to pay the said fees must pay them on the Restructuring Completion Date.

**Existing Bonding Facilities unlawfully enforced according to a judicial/arbitral ruling:**

If a court or arbitral tribunal provides a final ruling that a call (whether before or after the date on which it signs or accedes to the Restructuring Agreement Date) of an Existing Bonding Facility provided by a Consenting Existing Creditor (or a group of Consenting Existing Creditors) was unlawful and orders the reimbursement of all or part of the amount paid by such Consenting Existing Creditor(s) under that Existing Bonding Facility, the relevant Consenting Existing Creditor(s) will be entitled to receive the full amount of the reimbursement pro rata to the amount paid out (the "**Reimbursement Amount**"). If the Reimbursement Amount is received prior to a final ruling, the relevant Consenting Existing Creditor receiving such amount must undertake to pay back such amount if the ruling is overturned.

If a Consenting Existing Creditor receives a Reimbursement Amount after the date on which it signs or accedes to the Restructuring Agreement, the Senior Old Money Loans/Notes or Junior Old Money Loans/Notes (as applicable) relating to the relevant Existing Bonding Facility will be automatically discharged and that Consenting Existing Creditor shall, if it holds any equity, surrender the equity received in respect of such Reimbursement Amount or, if it has transferred the equity, pay an equivalent amount of cash (based on the arm's length price at which it sold the equity) to the Parent. If the ruling is overturned, then the Consenting Existing Creditor will be entitled (a) to the same portion of Senior Old Money

Loans/Notes or Junior Old Money Loans/Notes (as applicable) discharged upon receipt of the Reimbursement Amount and (b) to receive an equivalent amount of cash in respect of the equity surrendered (based on the market price at the time of the surrender) or the cash paid in respect of equity it had transferred.

**Existing Loans/Notes (other than Non-Consenting Existing Debt):**

Each Consenting Existing Creditor's Existing Loans/Notes will be subject to the Consenting Old Money Reduction and, subject to the "Consenting Old Money Elevation" section below, will be treated as Junior Old Money Loans/Notes under the non-contingent tranche of the Consenting Old Money.

**Consenting Old Money Elevation:**

If a Consenting Existing Creditor agrees, on or prior to the date on which it signs or accedes to the Restructuring Agreement, to participate in New Money Tranche 1, New Money Tranche 2, New Money Tranche 3, the New Syndicated Bonding Tranche or the New Bilateral Bonding Tranche, it will be entitled to an elevation into the Senior Old Money Loans/Notes (other than the Uncalled Existing Bonding Facilities, even if subsequently called) of EUR1.0 (prior to the reduction contemplated in the "Consenting Old Money Reduction" section above which is to be effected to the mechanics described in the "Equity" section above) of Consenting Old Money per EUR 0.16 contribution in New Money Tranche 1, New Money Tranche 2, New Money Tranche 3, the New Syndicated Bonding Tranche and the New Bilateral Bonding Tranche.

If a Consenting Existing Creditor agrees to provide its Pro Rata Amount (as defined in the New Money Financing Commitment Letter) of New Money Tranche 1 or New Money Tranche 2 and its participation is scaled back, it will be treated for this purpose as if it had provided its Pro Rata Amount (as defined in the New Money Financing Commitment Letter).[1]

For the avoidance of doubt, the rolling over of amounts owing under the Non-Compromised Debt into the New Money Financing will constitute a participation in the New Money Financing.

---

[1] For the purposes of calculating the Pro Rata Amount:

(i) the Pro Rata Amount will be equal to 15.9 per cent. of the Existing Loans/Notes of the Anchor Funder or Potential Additional Funder (as defined in the New Money Financing Commitment Letter) as at the Signing Date; and

(ii) the commitments under the New Bonding Facilities shall be capped at EUR307,000,000.

For the avoidance of doubt, any Consenting Existing Creditor committing its Pro Rata Amount will benefit from full elevation in respect of its Existing Loans/Notes as at the Signing Date.

Elevation of Consenting Old Money will operate with reference to affiliates and related funds rather than on an entity by entity basis provided that, in the case of any Existing Loans/Notes or Existing Bonding Facilities, totally or partially, guaranteed by ECAs/sureties as set out in the Restructuring Agreement, the guaranteed portion of the Existing Loans/Notes or Existing Bonding Facilities will be treated for these purposes as if they are held by the relevant ECA/surety rather than the lender of record. For the avoidance of doubt, the portion of the Existing Loans/Notes or Existing Bonding Facilities not guaranteed by ECAs/sureties would be deemed to be held by the relevant Consenting Existing Creditor of record. There will be no ability for a Consenting Existing Creditor to (a) front for any person other than its affiliates and related funds to enable the Consenting Existing Creditor to benefit from elevation or (b) nominate any person other than its affiliates and related funds to receive the benefit of its elevation rights.

In respect of those ECAs that are not allowed pursuant to their regulations to commit to provide new bonding/guarantees until the specific underlying project has been approved, the Restructuring Agreement will allow them to benefit from the elevation right set out above provided that within the 18 months following the Restructuring Completion Date, they provide such additional bonding/guarantee facilities in respect of projects complying with the requirements established in their regulations. Therefore, the amount guaranteed by the relevant ECA will benefit from the elevation right in accordance with the ratio set out in the first paragraph of this section as from the date of issuance of such bonding/guarantees. However, if for whatever reason new bonds/guarantees have not been provided under any portion of the relevant additional bonding/guarantee facility (even if they have been committed) within 18 months following the Restructuring Completion Date, the relevant ECA will not benefit from the above elevation right in respect of that portion of the relevant additional bonding/guarantee facility.

**Senior Entitlement Tranche 3** The New Money Tranche 3 providers as at the last day of the period for accession to the Restructuring Agreement will be entitled to an additional EUR1 of Senior Old Money Loans/Notes for each EUR1 of New Money Tranche 3 commitment.

**New Money Financing:** Each existing creditor in respect of Existing Loans/Notes will, subject to U.S., EU, Spanish and any other applicable securities laws and the Transfers and Assignments section in Part 4, be offered the opportunity to participate in the New Money Financing on the terms set out in the New Money

Financing Commitment Letter. The New Money Financing Commitment Letter will provide that each qualifying existing creditor will be entitled to participate *pro rata* to their holdings of Existing Loans/Notes in New Money Tranche 1 and/or New Money Tranche 2 (subject to any pro rata scale back required to reflect the fact that entities who have agreed to underwrite any portion of New Money Tranche 1 will be entitled to an allocation of at least 50% of the amount of New Money Tranche 1 underwritten in addition to their pro rata entitlement). New Money Tranche 3 will be fully underwritten with at least 50% offered to qualifying existing creditors.

Each existing creditor in respect of Existing Bonding Facilities will be offered the opportunity by the Parent to participate in the New Bilateral Bonding Tranche by agreeing to do so on the date on which it signs or accedes to the Restructuring Agreement.

**Non-Consenting Existing Debt:**

Each Non-Consenting Creditor's Existing Loans/Notes and Existing Bonding Facilities (if and/or when called) will be subject to the Standard Restructuring Terms or, to the extent provided in the Restructuring Agreement, the Alternative Restructuring Terms. The terms in Part 2 to Part 5 of this Term Sheet do not apply to the Non-Consenting Existing Debt (save for section (F) of Part 2 below) subject to the Standard Restructuring Terms.

**Unsecured Claims resulting from Non-Affected Debt**

If an Existing Creditor under Non-Affected Debt:

(a) does not sign or accede to the Restructuring Agreement; and

(b) the proceeds resulting from the enforcement of its security are not enough to repay in full the relevant Non-Affected Debt (the "**Unsecured Claim**"),

provided that such Existing Creditors have recourse against any of the Obligors for such secured claims, such Unsecured Claim shall automatically become Affected Debt and be subject to the Standard Restructuring Terms.

If an Existing Creditor under Non-Affected Debt signs or accedes to the Restructuring Agreement and:

(a) determines at such time that a portion of its Non-Affected Debt is unsecured (the "**Determined Unsecured Claim**"):

(i) such Existing Creditor waives its security only in respect of such Determined Unsecured

Claim; and

(ii) such Determined Unsecured Claim shall automatically become Affected Debt and be subject to the Alternative Restructuring Terms; or

(b) does not determine at such time that a portion of its Non-Affected Debt is unsecured and the proceeds resulting from the enforcement of its security are not enough to repay in full the relevant Non-Affected Debt, such remaining amounts shall automatically:

(i) become Affected Debt; and

(ii) be subject to the Alternatives Restructuring Terms but such Existing Creditor shall not be entitled to any equity.

(D) **Overview of Restructuring Process**

Under the terms of the Existing Financial Indebtedness, the Restructuring requires in most (but not all) cases the consent of all of the lenders under each relevant instrument.

If unanimous consent of lenders of Existing Financial Indebtedness is not obtained, it is intended that the Restructuring will be implemented by any other means that may be effective to consummate the Restructuring, including, without limitation, by way of the following:

(a) with respect to the Parent and the 5bis Companies, a *homologación* procedure pursuant to Additional Provision Four of the Spanish Insolvency Act. The Restructuring Agreement will provide each creditor with the option (at its sole discretion) to agree to the terms applicable to Existing Financial Indebtedness other than Non-Consenting Existing Debt as further described in this Term Sheet. If a financial creditor does not enter into the Restructuring Agreement or enters into the Restructuring Agreement but fails to elect the terms applicable to Existing Financial Indebtedness other than Non-Consenting Existing Debt as described in this Term Sheet, the *homologación* will extend the Standard Restructuring Terms to such financial creditor and therefore its debt will be subject to the Standard Restructuring Terms, being the percentage reduction set out in the Restructuring Agreement and a 10 year deferral of payment with a 0% coupon;

(b) with respect to U.S. existing guarantors and certain other Group companies, proceedings pursuant to Chapter 11 of the United States Bankruptcy Code;

(c) with respect to the Mexican and Brazilian existing guarantors and certain other Group companies, local insolvency/cram-down proceedings to be agreed;

(d) with respect to Abengoa Concessions Investments Limited, an English law governed Company Voluntary Arrangement pursuant to Part I of the Insolvency Act 1986; and

(e) local recognition procedures in relevant jurisdictions, including pursuant to chapter 15 of the United States Bankruptcy Code, the EU Regulation on Insolvency Proceedings

(1346/2000), the Cross Border Insolvency Regulations and analogous proceedings elsewhere as required.

(E) **Initial Conditions Precedent**

Any agreement to effect the Restructuring will be subject to the terms of an agreed implementation plan and customary conditions precedent including, without limitation, the matters set out in Schedule 1 (*Initial Conditions Precedent*).

## PART 2
## POST-RESTRUCTURING COMMERCIAL TERMS: DEBT

(A) **New Money Financing**

| | |
|---|---|
| **Amount:** | EUR945.1m, comprising (i) Tranche 1A, being EUR839.1m, which includes the refinanced TCI Margin Loan (except to the extent previously refinanced by an New Interim Facility) and refinanced or exchanged Interim March 2016 Facility and (subject to the New Interim Facility in Section (B) of Part 1) any New Interim Facility and related fees, costs and expenses, to be documented in the form of New Money Loans and New Money Notes; and (ii) Tranche 1B, being EUR 106m comprising the principal amount refinanced December 2015 Bank Facility, to be documented in the form of New Money Loans.<br><br>Tranche 2: EUR194.5m, comprising (a) the refinanced (i) principal amount of the September 2015 Bank Facility and (ii) fees, costs and amounts other than principal under the December 2015 Bank Facility and the September 2015 Bank Facility and (b) OID/Upfront/Structuring fees, PIK interest and back-end fees on New Money Tranche 1B and underwriting fees on New Money Tranche 2, to be documented in the form of New Money Loans and New Money Notes.<br><br>Tranche 3: EUR30m. |
| **Form:** | Tranche 1A: Loan and Note.<br><br>Tranche 1B: Loan.<br><br>Tranche 2: Loan and Note.<br><br>Tranche 3: Loan<br><br>Tranche 1A, Tranche 1B and Tranche 3 will be documented in a separate Debt Instrument to Tranche 2 or any other indebtedness. |
| **Facility/Issuance Type:** | Tranche 1: Term.<br><br>Tranche 2: Term.<br><br>Tranche 3: Term with multiple drawdowns. |
| **Purposes:** | Refinancing or replacing the Non-Compromised Debt, funding certain projects, servicing interest and fee payments on the Debt Instruments and general corporate purposes (including financial and legal advisors' fees in respect of the Restructuring), in each case in accordance with the agreed Business Plan and detailed "sources and uses", provided that |

EUR220m of Tranche 1 will be funded into an escrow account to be released only upon (a) confirmation by the NM1 Monitor that certain milestones to be agreed have been met; and (b) unless otherwise agreed by the Majority Qualifying NM1 Creditors, no default outstanding at the time of any such release, for the purpose of finalising the construction of A3T. Any amounts remaining in the escrow account on the completion of construction of A3T will be released from escrow and will be available for use in the same manner as the other Tranche 1 proceeds (i.e. for general corporate purposes in accordance with the Business Plan).

Tranche 3 will comprise a term facility granted in favour of Orphan Holdco to be available for A3T only (and not for general corporate purposes) to fund any A3T costs including, without limitation, increased construction costs, increased operating expenditure and increased commercialisation costs, provided that the NM1 Monitor or A3T reasonably expects that the proceeds will be required for the intended purpose and notifies so in writing to the New Money Tranche 3 provider. Tranche 3 providers will be required to fund utilisations in all circumstances where the utilisation conditions (as set out above) are met (including where the New Money Tranche 2, New Bonding Facilities and/or the Consenting Old Money has been accelerated), unless the New Money Tranche 1 has been accelerated.

**Currency:** EUR (provided that a portion (to be agreed) of Tranche 1A will be funded in USD).

**Borrower/Issuer:** AbeNewco1 (or, in the case of (a) New Money Tranche 1, Orphan Holdco (which will become the direct or indirect holding company of A3T and the ABY shares following the title transfer collateral arrangements) and on-lent by Orphan Holdco to ACIL Luxco2 and A3TLuxco2) and (b) New Money Tranche 3, Orphan Holdco and on-lent by Orphan Holdco to A3T.

Terms of proceeds loans from Orphan Holdco to each of ACIL Luxco2, A3TLuxco2 and A3T to be agreed.

**Guarantors:** In the case of New Money Tranche 1 and New Money Tranche 3 only, all members of the NM1 Group (other than Orphan Holdco and A3T HoldCo España S.A.).

In the case of each Tranche, all members of the Group (including, without limitation, the Parent, but excluding AbeNewco2 and AbeNewco1) save as may be agreed taking into account customary tax, legal and agreed cost/benefit exceptions and local (project finance) instrument limitations, which will guarantee the New Money Financing in the order of

priority set out in Part 4.

A3T HoldCo España S.A., AbeNewco1 and AbeNewco2 will not grant any guarantees.

For the avoidance of doubt, the members of the NM1 Group which grant guarantees will only guarantee New Money Tranche 1 and New Money Tranche 3 and not any other Tranche.

**Security:**

In the case of New Money Tranche 1 and New Money Tranche 3 only, security over all material assets of each member of the NM1 Group, (including A3T, all of the shares in A3T and all of the shares currently held by the Group in ABY, but excluding the accounts of ACIL Luxco2 and A3TLuxco2 into which the NM1 Priority Collateral Surplus Value is to be deposited and the NM1 Priority Collateral Surplus Proceeds) and security over the shares in and claims into Orphan Holdco, Abengoa Concessions Investments Limited, ACIL Luxco2, A3TLuxco2 and A3T Holdco España S.A. Certain security will be granted by way of title transfer collateral arrangements, and the New Money Tranche 1 and New Money Tranche 3 creditors will have rights of set-off and retention in respect of assets subject to such security.

In the case of New Money Tranche 2 only (along with the New Bonding Facilities), security over the accounts of ACIL Luxco2 and A3TLuxco2 into which the NM1 Priority Collateral Surplus Value is required to be deposited and the NM1 Priority Collateral Surplus Proceeds, provided that no enforcement of the security over the accounts into which the NM1 Priority Collateral Surplus Value is required to be deposited or the security over the NM1 Priority Collateral Surplus Proceeds shall be permitted until New Money Tranche 1 and New Money Tranche 3 have been repaid in full. New Money Tranche 2 only (along with the New Bonding Facilities) will benefit from security over 100% of the shares in and shareholder loans made to AbeNewco1.

In the case of each Tranche, save as may be agreed (taking into account customary tax, legal and agreed cost/benefit exceptions and local (project finance) instrument limitations), security (ranking as set out in Part 4) over (i) 100% of the shares in each member of the Group (other than AbeNewco2) and (ii) all material assets of each member of the Group (other than AbeNewco2) which is an Obligor, in each case other than the shares in and shareholder loans made to AbeNewco1 or AbeNewco2, which will not secure New Money Tranche 1 or New Money Tranche 3.

Following discharge in full of the New Money Tranche 1 and

New Money Tranche 3 and unwind of the title transfer arrangements, the relevant members of the Group shall procure that the relevant members of the NM1 Group that were subject to the title transfer arrangements grant guarantees and security in favour of the New Money Tranche 2 and New Bonding Facilities subject to customary agreed security principles.

**Upfront/ Structuring Fee:** In the case of New Money Tranche 1 and New Money Tranche 2 only:

(a) 4.00% of the portion of the total commitments at the Restructuring Completion Date which is allocated to creditors that commit by the First Acceptance Deadline (as defined in the New Money Financing Commitment Letter).

(b) (subject to the final paragraph in this section) 2.00% of the remaining total commitments at the Restructuring Completion Date.

The Upfront/Structuring Fee for New Money Tranche 1A will be retained from the proceeds of utilisation of New Money Tranche 1A.

The Upfront/Structuring Fee for each of New Money Tranche 1B and New Money Tranche 2 will accrue and be capitalised as part of New Money Tranche 2. For the avoidance of doubt, no member of the NM1 Group will have any obligations in respect of, or arising as a result of, the Upfront/Structuring Fee for New Money Tranche 1B.

In the case of New Money Tranche 3 only, Upfront/Structuring Fee of:

(a) 4.00% of the commitments under New Money Tranche 3 drawn at any time during the availability period of New Money Tranche 3; and

(b) 2.00% of the portion of New Money Tranche 3 never drawn during the availability period of New Money Tranche 3 (if any).

The Upfront/Structuring Fee for New Money Tranche 3 will accrue on the Restructuring Completion Date and will be payable in cash at maturity, or on cancellation in full, of New Money Tranche 3, pro rata to the New Money Tranche 3 commitments on the date on which the fee is payable.

The Parent may agree with a creditor to pay an Upfront/Structuring Fee of up to 4.00% of the portion of the total commitments at the Restructuring Completion Date

which that creditor agrees to assume in circumstances where the aggregate commitments under a Tranche are less than the expected total commitments under that tranche due to a failure of another creditor to fund or otherwise, as further detailed in the New Money Financing Commitment Letter.

**Underwriting Fee:** In the case of New Money Tranche 1 and New Money Tranche 2 only, 2.00% of the portion of the total commitments of any New Money Financing creditors as at the Signing Date (or such later date as set out in the New Money Financing Commitment Letter) in accordance with the New Money Financing Commitment Letter. The underwriting fee payable to (or as directed by) the New Money Tranche 1 creditors is payable in cash whether or not the Restructuring Completion Date occurs, provided that the requisite consent threshold is achieved under the Restructuring Agreement. The underwriting fee on New Money Tranche 2 will accrue and be capitalised as part of New Money Tranche 2, and will only be payable if the Restructuring Completion Date occurs. There will be no underwriting fee in respect of New Money Tranche 3.

**Interest:**

(a) For New Money Tranche 1 and New Money Tranche 2, cash pay interest of 5.00% per annum accruing daily on the amount outstanding and payable in cash at the end of each interest period.

(b) For New Money Tranche 1 and New Money Tranche 2 PIK interest of 9.00% per annum accruing daily on the amount outstanding and capitalised and added to the principal amount of the loans/notes under the Tranche on which it accrued at the end of each interest period (and once added to the principal amount, such amount will itself bear cash pay and PIK interest at the rates set out in this section).

(c) For New Money Tranche 3, PIK interest of 7.00% on any drawn portion and 5.00% on any undrawn portion, both per annum accruing daily and capitalised and added to the principal amount of the New Money Tranche 3 at the end of each interest period (and once added to the principal amount, such amount will itself bear PIK interest at the rates set out in this section).

Cash pay interest on New Money Tranche 1 will be funded first from the ABY distributions and second from A3T distributions standing to the credit of the blocked accounts comprising part of the NM1 Priority Collateral. Thereafter, up to EUR15m of surplus ABY distributions in aggregate from the third and fourth quarters of 2016 will be available to the NM1 Group and the Group (as the Parent considers

appropriate in accordance with the Business Plan) for working capital purposes. Any other surplus ABY distributions and A3T distributions will be used to fund the NM1 DSRA and thereafter to pay interest or principal on New Money Tranche 1.

PIK interest on New Money Tranche 1B will accrue and be capitalised as part of New Money Tranche 2. For the avoidance of doubt, no member of the NM1 Group will have any obligations in respect of, or arising as a result of, the PIK interest for New Money Tranche 1B.

**Interest Periods:** 3 months, synchronised between the New Money Financing tranches and the Consenting Old Money.

**NM1 DSRA:** A debt service reserve account will be maintained by Orphan Holdco at a level reflecting an amount equal to one interest period's cash interest on New Money Tranche 1 (subject to a remedy period to be agreed if the balance falls below the required level) and used solely to service cash interest payments due on New Money Tranche 1.

**Maturity Date:** New Money Tranche 1: 47 months after the Restructuring Completion Date.

New Money Tranche 2 and New Money Tranche 3: 48 Months after the Restructuring Completion Date.

**Back-end Fee:** For New Money Tranche 1 and New Money Tranche 2, a back-end fee will be payable in cash on all repayments or prepayments made or required to be made (whether as a result of acceleration or otherwise and whether or not insolvency proceedings have commenced and/or any automatic acceleration has occurred) at the rate of:

(a) 5.00% of the amount repaid or prepaid or required to be repaid or prepaid (whether as a result of acceleration or otherwise) in respect of any amount repaid or prepaid during the period from the Restructuring Completion Date to (and including) the date falling 24 months after the Restructuring Completion Date; and

(b) 10.00% of the amount repaid or prepaid or required to be repaid or prepaid (whether as a result of acceleration or otherwise) in respect of any amount repaid or prepaid at any time after the date falling 24 months after the Restructuring Completion Date.

The New Money Tranche 1 and New Money Tranche 2 creditors will act in good faith and will not intentionally delay such prepayment or repayment until a date falling more than

24 months after the Restructuring Completion Date with the primary purpose of increasing the applicable back-end fee.

The back-end fee on New Money Tranche 1B will accrue and be treated and capitalised as part of New Money Tranche 2. For the avoidance of doubt, no member of the NM1 Group will have any obligations in respect of, or arising as a result of, the back-end fee for New Money Tranche 1B.

**Availability Period:**

In the case of New Money Tranche 1 and New Money Tranche 2, the availability period will be from the Signing Date to and including the earlier of (1) the date specified in paragraph 9.1(b) of the New Money Financing Commitment Letter; and (2) the Restructuring Completion Date.

In the case of New Money Tranche 3, the availability period will be from the Restructuring Completion Date to and including the earlier of (a) the date on which A3T is directly or indirectly sold or otherwise transferred to a person which is not a member of the Group or a member of the NM1 Group; (b) completion of construction of A3T and; (c) one month prior to the New Money Tranche 3 Maturity Date.

New Money Tranche 3 may be cancelled at any time following the repayment in full of New Money Tranche 1 provided that an amount equal to the undrawn New Money Tranche 3 commitments is funded into an escrow account to be released in the same circumstances as New Money Tranche 3 is capable of being utilised.

**Additional NM1 Drawdown Conditions:**

(a) The average ABY share price being above USD14 during the 10 trading days before the date of utilisation of New Money Tranche 1; and the ABY shares not having been suspended from trading at any time during the 10 business days before the date of utilisation of New Money Tranche 1.

(b) Satisfaction of a liquidity covenant pursuant to which the projected (next 6 months) liquidity for the Group as at the date of utilisation of New Money Tranche 1 exceeds a minimum level to be agreed, as reported on by an independent third party approved by the Majority Qualifying NM1 Creditors.

(c) The absence of any event or circumstance that would have a material adverse impact on the development, business, assets, financial condition or prospects of A3T including, without limitation:

(i) the average of the CFE's regulated HM tariff[2] calculated over the immediately preceding two months (for the avoidance of doubt, CFE's HM tariff applies to Industrial, Mid-Tension, >100 KW installed capacity offtakers) is less than 1,294 MXP/KWh;

(ii) an event or circumstances affecting the economy of any region or jurisdiction in which A3T conducts business or operates, including changes in the credit, debt, capital, securities, or financial markets (for the avoidance of doubt, including changes in interest or exchange rates);

(iii) political or regulatory changes in any jurisdiction in which A3T conducts business or operates; and

(iv) an event or circumstances generally affecting the industries in which A3T conducts business or operates,

in the case of (ii), (iii) and (iv) only, having individually or cumulatively a material adverse impact on the development, business, assets, financial condition or prospects of A3T.

The Additional NM1 Drawdown Conditions in paragraphs (a), (b) and (c) above can only be waived with the consent of the Super Majority Qualifying NM1 Creditors. If the above conditions are not met or duly waived, the Restructuring Steps Commencement Date will not occur.

**Majority Qualifying NM1 Creditors:** Any misrepresentation by a New Money Tranche 1 creditor of its status as a Qualifying NM1 Creditor will result in liquidated damages payable to the other New Money Tranche 1 creditors.

(B) **New Bonding Facilities (*línea de avales*)**

**Amount:** (a) New Syndicated Bonding Tranche: a new tranche syndicated between the Initial Bonding Providers of at

---

[2] The monthly HM tariff will be calculated as the average of all regions' HM tariffs ("regional HM tariff", as described below), excluding Baja California and Baja California Sur, using data published by the CFE on its website on a monthly basis.

The regional HM tariff will be calculated as the sum of the following divided by the total number of hours in each month:

(i) Electricity Cost (MXP/KW), calculated as the peak, intermediate and base energy CHARGE (MXP/kwh) times the number of hours attributable to each plus;

(ii) Demand Cost (MXP/KW), calculated [ (1 / 60%) * Invoiceable Demand CHARGE (MXP /kW) ], 60% being the load factor and Invoiceable Demand charge being "Cargo por Demanda Facturable".

least EUR209m for the purpose of issuing new bonding (but not, for the avoidance of doubt, any extension, amendment or replacement of existing bonding for the same project and purpose).

(b) Roll Over Bonding Tranche: a roll over tranche syndicated between the Initial Bonding Providers of EUR98m for the purpose of issuing new bonding (but not, for the avoidance of doubt, any extension, amendment or replacement of existing bonding for the same project and purpose). An Initial Bonding Provider's commitment under the Roll Over Tranche will become available as and when its Uncalled Existing Bonding Facilities are released.

(c) New Bilateral Bonding Tranche: a new bilateral bonding tranche provided on a bilateral basis by existing creditors in respect of Existing Bonding Facilities which elect to commit on the date on which they sign or accede to the Restructuring Agreement to provide bilateral commitments for the purpose of issuing new bonding (but not, for the avoidance of doubt, any extension, amendment or replacement of existing bonding for the same project and purpose).

Any new bond (*aval*) issued by an Initial Bonding Provider after the date on which the New Bonding Commitment Letter is signed by the Initial Bonding Providers but prior to the Restructuring Completion Date will be deemed to be part of the New Syndicated Bonding Tranche or the Roll Over Bonding Tranche (at the option of the Initial Bonding Provider).

The Finance Documents will provide flexibility to raise additional bonding facilities for the purpose of issuing new bonding (but not, for the avoidance of doubt, any extension, amendment or replacement of existing bonding for the same project and purpose) subject to parameters to be agreed, provided that under no circumstances can such additional bonding facilities have recourse to the NM1 Group or the NM1 Priority Collateral whether directly or indirectly by way of subrogation. To the extent a Consenting Existing Creditor agrees to provide such new bonding, whether or not it has participated in the New Bonding Facilities, such Consenting Existing Creditor will be entitled to have EUR1.0 of its Uncalled Existing Bonding Facilities at that time (to the extent not called at the time the additional bonding facility is provided), if and when called, exempted from any reduction and the residual par value claim will be treated as Senior Old Money Loans/Notes under the contingent tranche of the Consenting Old Money (when called) per EUR 1.0

| | |
|---|---|
| | contribution by way of new bonds issued. Such Consenting Existing Creditor will not receive any equity, will not share in the transaction security and will not (other than as expressly provided in the case of ECAs) benefit from the Consenting Old Money Elevation set out in Section (C) of Part 1 above as a consequence of the provisions of such additional bonding. |
| **Form:** | New Syndicated Bonding Tranche and Roll Over Bonding Tranche: committed syndicated bonding facility. Facility agent for the New Bonding Facilities to be appointed by New Bonding Facilities creditors.<br><br>New Bilateral Bonding Tranche: committed bilateral bonding facility. |
| **Facility Type:** | Revolving. |
| **Currency:** | EUR/USD and certain other currencies to be agreed among the New Bonding Facilities creditors. |
| **Borrower:** | AbeNewco1 (provided that the member of the Group in respect of which the relevant bond is issued will also be jointly and severally liable with respect to that bond). |
| **Guarantors:** | All members of the Group (including, without limitation, the Parent, but excluding AbeNewco2, AbeNewco1 and the NM1 Group) save as may be agreed taking into account customary tax and agreed cost/benefit exceptions and local (project finance) instrument limitations, which will guarantee the New Money Financing in the order of priority set out in Part 4.<br><br>AbeNewco1 and AbeNewco2 will not grant any guarantees and will only be liable in respect of the Debt Instruments issued or borrowed by them directly. |
| **Security:** | Save as may be agreed (taking into account customary tax and agreed cost/benefit exceptions and local (project finance) instrument limitations), security over (i) 100% of the shares in and shareholder loans made to AbeNewco1 and other material members of the Group (other than AbeNewco2); (ii) all material assets of each member of the Group (other than AbeNewco2) which is an Obligor; and (iii) security over the account into which the NM1 Priority Collateral Surplus Value must be deposited by ACIL Luxco2 and A3TLuxco2 and the NM1 Priority Collateral Surplus Proceeds provided that no enforcement of the security over the accounts into which the NM1 Priority Collateral Surplus Value is required to be deposited or the security over the NM1 Priority Collateral Surplus Proceeds shall be permitted until New Money Tranche 1 and New Money Tranche 3 have been repaid in full. |

| | |
|---|---|
| **Structuring Fee:** | In respect of the New Syndicated Bonding Tranche and the New Bilateral Bonding Tranche, 1.00% payable in cash on the Restructuring Steps Commencement Date.<br><br>In respect of the Roll Over Bonding Tranche, 1.00% payable in cash on each portion of the commitments under the Roll Over Bonding Tranche on the date on which those commitments under the Roll Over Bonding Tranche are first utilised. |
| **Issuance Fee:** | 5.00% per annum accruing daily and payable in cash every 3 months, synchronised with the interest periods on the New Money Financing, on the amount utilised. |
| **Cancellation:** | At any time by the Borrower (with no fee or other additional payment) on 5 business days' notice of any New Bonding Facilities commitment.<br><br>If any Uncalled Existing Bonding Facilities of an Initial Bonding Provider are called on or before the Restructuring Completion Date, that Initial Bonding Provider will be entitled to cancel its commitment under the New Bonding Facilities (in such tranches as it determines at its discretion) in an equal amount. |
| **Treatment upon Call:** | Any call on a bond under the New Bonding Facilities will be paid immediately from the Group's cashflow. For the avoidance of doubt, non-payment of any amounts under the New Bonding Facilities will constitute an Event of Default and a drawstop unless and until paid. |
| **Maturity Date:** | 48 months after the Restructuring Completion Date. |
| **Availability Period:** | From and including the Restructuring Completion Date to and including the date falling one interest period prior to the Maturity Date. |
| **Drawdown Conditions:** | (a) No Event of Default to be continuing.<br><br>(b) In the case of the New Bonding Facilities provided by the Initial Bonding Providers only:<br><br>(i) CESCE formal approval and commitment on or before the Restructuring Steps Commencement Date to guarantee at least 50% of the aggregate amount committed by the Initial Bonding Providers under the New Bonding Facilities. If the final guaranteed amount committed by CESCE is below 50% of such amount, the amount committed by the Initial Bonding Providers will be reduced accordingly (by |

reducing the amount from one or both tranches at their discretion) unless the guaranteed amount by CESCE results in an aggregate commitment of the Initial Bonding Providers below EUR 250m in which case the Initial Bonding Providers will be entitled to terminate their New Bonding Facility commitments in full; and

(ii) a CESCE guarantee for at least 50% of the relevant bond must be in place (including approval by CESCE of the terms and conditions of the bond).

(c) Bonds requested must be used for (i) any project to be developed pursuant to the Business Plan; or (ii) any bidding processes identified by the Parent to the satisfaction of the providers of the New Bonding Facilities in the Debt Instrument for the New Bonding Facilities or otherwise approved by the Majority New Bonding Creditors. For the avoidance of doubt, New Bonding Facilities creditors will not be obliged to issue new bonding in respect of projects that are expected to be postponed or abandoned according to the then current Business Plan (including Atacama II, Atacama III, ATN III, Norte III, A4T, etc.) and will only be obliged to issue new bonds in relation to Atacama I if the conditions precedent in paragraph 35(aa) of Schedule 1 (*Initial Conditions Precedent*) has been satisfied, in each case, unless approved by the Majority New Bonding Creditors.

(d) Bonds requested must be technical bonding (*avales técnicos*), bid bonds, advance payment bonds and other types of bonds contemplated in the Business Plan or otherwise approved by the Majority New Bonding Creditors.

(e) Customary documentation for the project must be delivered to the New Bonding Facilities creditors by the Group.

(f) The project must be in an approved jurisdiction and the bond must be issued in an approved currency (such jurisdictions and countries to include, without limitation, those specifically contemplated in the Business Plan).

(g) Other customary drawdown conditions in respect of projects (including formal legal approval of the wording of each bond to be issued, with certain forms

to be pre-agreed and an ability for a 66⅔% majority of the New Bonding Facility creditors (calculated on the same basis as the Majority New Bonding Creditors) to decline to issue a particular bond in specific circumstances to be agreed).

(C) **Senior Old Money Loans/Notes**

| | |
|---|---|
| **Amount:** | Subject to decision of creditors in respect of Existing Loans/Notes and Existing Bonding Facilities. |
| **Form:** | Loan and/or Note. The Loan form will include an option to exchange the Loans for Notes on dates to be agreed. |
| **Currency:** | Same as the relevant legacy Affected Debt. |
| **Borrower/Issuer:** | AbeNewco2. |
| **Guarantors:** | Parent and existing guarantors (to the extent legally possible) of the relevant instrument plus additional guarantees to be granted (on a subordinated basis) by all other guarantors of the New Money Financing other than AbeNewco2, AbeNewco1 and the NM1 Group in the order of priority set out in Part 4. |
| **Security:** | First ranking security over 100% of the shares in AbeNewco2. Consenting Existing Creditors under Senior Old Money Loans/Notes must cancel and agree to release all existing security (if any). |
| **Interest Rate:** | (a) Cash pay interest of 0.25% per annum accruing daily on the amount outstanding and payable in cash at the end of each interest period.<br><br>(b) PIYC interest of 1.25% per annum accruing daily on the amount outstanding and payable in cash (or, to the extent that the Borrower confirms that cash available after payment of interest would be less than EUR200m, capitalised and added to the amount of the loans/notes under the Tranche on which it accrued) at the end of each interest period. |
| **Interest Periods:** | Every 3 months, synchronised with Junior Old Money Loans/Notes. |
| **Maturity Date:** | 66 months after the Restructuring Completion Date, provided that the Maturity Date of the Senior Old Money Loans/Notes and Junior Old Money Loans/Notes may be extended for up to a further 24 months with the consent of the Majority Senior Old Money Creditors. |

**Scheduled Amortisation:**

(a) on the date falling 60 months after the Restructuring Completion Date, 2.00% of the commitments under the Senior Old Money Loans/Notes as at the last day of the period for accession to the Restructuring Agreement.

(b) if the Maturity Date has been extended, on the date falling 72 months after the Restructuring Completion Date, a further 2.00% of the commitments under the Senior Old Money Loans/Notes as at the last day of the period for accession to the Restructuring Agreement.

(c) if the Maturity Date has been extended, on the date falling 84 months after the Restructuring Completion Date, a further 2.00% of the commitments under the Senior Old Money Loans/Notes as at the last day of the period for accession to the Restructuring Agreement.

Any voluntary or mandatory prepayments (other than as a result of illegality) prior to the Scheduled Amortisations will reduce the Scheduled Amortisations in inverse chronological order.

(D) **Junior Old Money Loans/Notes**

**Amount:** Subject to decision of creditors in respect of Existing Loans/Notes and Existing Bonding Facilities.

**Form:** Loan and Note. The Loan form will include an option to exchange the Loans for Notes on dates to be agreed.

**Currency:** Same as the relevant legacy Affected Debt.

**Borrower/Issuer:** AbeNewco2, fully subordinated to the Senior Old Money Loans/Notes.

**Guarantors:** Same as Senior Old Money Loans/Notes but fully subordinated to the Senior Old Money Loans/Notes.

**Security:** Second-ranking security over 100% of the shares in AbeNewco2. Consenting Existing Creditors under Junior Old Money Loans/Notes must cancel and agree to release all existing security (if any).

**Interest Rate:**

(a) Cash pay interest of 0.25% per annum accruing daily on the amount outstanding and payable in cash at the end of each interest period.

(b) PIYC interest of 1.25% per annum accruing daily and payable in cash (or, to the extent that the Borrower confirms that cash available after payment of interest would be less than EUR200m, capitalised and added to the amount of the loans/notes under the Tranche on

which it accrued) at the end of each interest period.

**Interest Periods:** Every 3 months, synchronised with Senior Old Money Loans/Notes.

**Maturity Date:** 72 months after the Restructuring Completion Date, provided that the Maturity Date of the Senior Old Money Loans/Notes and Junior Old Money Loans/Notes may be extended for up to a further 24 months with the consent of the Majority Senior Old Money Creditors.

**Scheduled Amortisation:**

(a) on the date falling 60 months after the Restructuring Completion Date, 2.00% of the commitments under the Junior Old Money Loans/Notes as at the last day of the period for accession to the Restructuring Agreement.

(b) if the Maturity Date has been extended, on the date falling 72 months after the Restructuring Completion Date, a further 2.00% of the commitments under the Junior Old Money Loans/Notes as at the last day of the period for accession to the Restructuring Agreement.

(c) if the Maturity Date has been extended, on the date falling 84 months after the Restructuring Completion Date, a further 2.00% of the commitments under the Junior Old Money Loans/Notes as at the last day of the period for accession to the Restructuring Agreement.

Any voluntary or mandatory prepayments (other than as a result of illegality) prior to the Scheduled Amortisations will reduce the Scheduled Amortisations in inverse chronological order.

(E) **Contingent Tranche**

**Amount:** Initial amount of EUR240m, subject to increase based on crystallisation of contingencies to be included in this tranche provided that the aggregate amount of Consenting Old Money does not exceed EUR 2,700m.

**Purpose:** This tranche will be used to cover the potential crystallisation of the outstanding amounts after the Consenting Old Money Reduction of contingent claims deriving from:

(a) Uncalled Existing Bonding Facilities which are subsequently called. The Consenting Old Money Reduction will apply unless the claim is exempted from such reduction pursuant to paragraph (b) of the "Existing Bonding Facilities (other than Non-Consenting Existing Debt) section of Section (C) of Part 1; and

(b) the enforcement of guarantees which are restructured through the Alternative Restructuring Terms.

**Reduction mechanics applicable to the claims included in the contingent tranche of the Consenting Old Money:**

(a) Claims deriving from Uncalled Existing Bonding Facilities held by creditors which have not agreed to participate in the New Syndicated Bonding Tranche or the New Bilateral Bonding Tranche which are subsequently called: Consenting Old Money Reduction applicable to these claims.

(b) Claims deriving from guarantees which are restructured through the Alternative Restructuring Terms: Consenting Existing Creditors of claims under guarantees which are restructured through the Alternative Restructuring Terms will have the following options:

(i) expressly agree to crystallise the claims on the date on which they sign or accede to the Restructuring Agreement and capitalise 70% of such claims (and subject to any subsequent Consenting Old Money Reduction) (in order to do so, the relevant creditors must release and subrogate the Parent in an amount of the primary claim in respect of which the relevant guarantee is granted, equal to the claim crystallised); or

(ii) if they do not agree to such crystallisation on the date on which they sign or accede to the Restructuring Agreement, suffer a direct reduction equal to the Consenting Old Money Reduction if/when the guarantees are enforced and the relevant creditor must discharge and subrogate the Parent in, at least, a percentage of the primary claim equal to the difference between 100% and the Consenting Old Money Reduction applied to its guarantee.

(F) **Non-Consenting Affected Debt**

**Amount:** Subject to decisions of existing creditors after applying the percentage reduction set out in the Restructuring Agreement according to the Standard Restructuring Terms.

**Form:** Same as the relevant legacy Affected Debt.

**Currency:** Same as the relevant legacy Affected Debt.

**Borrower/Issuer:** Same as the relevant legacy Affected Debt.

| | |
|---|---|
| **Guarantors:** | Same as the relevant legacy Affected Debt. |
| **Security:** | None (unsecured). |
| **Interest Rate:** | 0% coupon. |
| **Maturity Date:** | 120 months after the Restructuring Completion Date. |

(G) **Non-Spanish Debt to be Restructured**

The Parent shall ensure that by no later than the Restructuring Completion Date all Non-Spanish Debt to be Restructured is effectively restructured in accordance with the Restructuring Agreement.

## PART 3
## POST-RESTRUCTURING COMMON TERMS: DEBT

**Facility Agents:** To be appointed.

**Note Trustees:** To be appointed.

**Security Agent:** To be appointed.

**Custodian:** To be appointed.

**Agency fee:** To be agreed by the different facility agents with the relevant borrower.

**Voluntary Prepayments:** Permitted on 5 business days' notice from excess cashflow (subject to a liquidity buffer of EUR200m) and subject to the "Back-end Fee" section above, provided that no voluntary prepayment of Consenting Old Money is permitted until the New Money Financing has been repaid in full and New Money Tranche 2 and New Money Tranche 3 may not be voluntarily prepaid until New Money Tranche 1 has been repaid in full.

**Mandatory Prepayments:** The New Money Financing, New Bonding Facilities and (where applicable) the Consenting Old Money will benefit from the following mandatory prepayment provisions (including the back-end fee set out in the "Back-end Fee" section above):

(a) *Illegality* (in the case of loan facilities only).

(b) *Exit*

In respect of the New Money Financing and New Bonding Facilities only, on a Change of Control or sale of all or substantially all of the assets or business of the NM1 Group and/or the Group. For this purpose, "Change of Control" means any person or group of persons acting in concert (other than permitted owners, being strategic investors which meet minimum solvency requirements in respect of sales/EBITDA and ratings to be agreed) controls more than 50% of the issued share capital of the Parent.

(c) *NM1 Priority Collateral Proceeds*

Net Proceeds from a disposal, insurance claim or termination compensation in respect of NM1 Priority Collateral will be applied in the following order:

(i) first, New Money Tranche 1; and

(ii) second, New Money Tranche 3 (if not

accelerated, as cash collateral for the aggregate amounts outstanding and available under New Money Tranche 3).

Following the full repayment and discharge of New Money Tranche 1 and New Money Tranche 3, any NM1 Priority Collateral Surplus Value or NM1 Priority Collateral Surplus Proceeds would be treated as NM2 Priority Collateral.

(d) *NM2 Priority Collateral Proceeds*

Net Proceeds from a disposal, project financing, insurance claim or termination compensation in respect of NM2 Priority Collateral (including any NM1 Priority Collateral Surplus Value or NM1 Priority Collateral Surplus Proceeds) will be applied (or its application will be procured) by AbeNewco1 in the following order:

(i) first, New Money Tranche 3 (if not accelerated, as cash collateral for the aggregate amounts outstanding and available under New Money Tranche 3) other than in the case of the NM1 Priority Collateral Surplus Value or NM1 Priority Collateral Surplus Proceeds;

(ii) second, New Money Tranche 2;

(iii) third, New Money Tranche 1 and New Bonding Facilities (if not accelerated, as cash collateral for bonds issued and available commitments under the New Bonding Facilities) on a *pari passu* basis;

(iv) fourth, Senior Old Money Loans/Notes; and

(v) fifth, Junior Old Money Loans/Notes.

(e) *Refinancing / Debt Capital Raising Proceeds*

The Net Proceeds of any refinancing or debt capital raising at the level of the NM1 Group will be applied in prepayment of New Money Tranche 1, subject to such prepayment being waived by the Majority Qualifying NM1 Creditors. Any refinancing or debt capital raising at the level of the NM1 Group will require the consent of the Majority Qualifying NM1 Creditors.

(f) *Share Capital Proceeds*

Net Proceeds of a share capital issuance by the Parent may be applied in prepayment as determined by the board of directors.

(g) *Excess Cashflow*

100% of semi-annual excess cashflow of the Group (excluding any excess cashflow relating to the NM1 Priority Collateral) will be applied in prepayment in the following order:

(i) following an Event of Default which is continuing only:

(A) first, New Bonding Facilities (if not accelerated, as cash collateral for bonds issued and available commitments under the New Bonding Facilities);

(B) second, New Money Tranche 3 (if not accelerated, as cash collateral for the aggregate amounts outstanding and available under New Money Tranche 3);

(C) third, New Money Tranche 2;

(D) fourth, New Money Tranche 1;

(E) fifth, Senior Old Money Loans/Notes; and

(F) sixth, Junior Old Money Loans/Notes.

(ii) following repayment in full of the New Money Financing and release or cash collateralisation of all bonds outstanding and any amounts available for utilisation under the New Bonding Facilities:

(A) first, Senior Old Money Loans/Notes; and

(B) second, Junior Old Money Loans/Notes.

Excess cashflow shall include cash generated by the EPC business and all dividends received from all projects within the EPC Sub-Group.

**Fair Value Opinion:** Other than in respect of a distressed disposal or a disposal pursuant to the undertakings set out in the "Undertakings in relation to A3T and ABY" section below, permitted disposals must be for cash subject to customary exceptions to be agreed

and if the higher of (1) the book value; and (2) the directors' good faith determination of the value of the asset subject to such disposal or as the consideration for a Debt Buyback (or a series of related disposals or buybacks) are in excess of EUR50m (or EUR5m in the case of a related party transaction) and the Majority NM1/NM3 Creditors or Majority NM2 Creditors so request, the Parent will obtain a customary fairness opinion from a reputable and independent international investment bank or accounting firm (other than the then-current auditor of the Group) confirming that the consideration is fair from a financial point of view taking into account all relevant circumstances, including without limitation the method of disposal.

**Representations:**

Customary for a financing of this nature and based on the LMA Precedent supplemented as appropriate to incorporate project financing representations and other representations appropriate for this transaction.

In addition, the Parent shall give (for the benefit of all Consenting Existing Creditors) in the Restructuring Agreement certain representations and warranties to be agreed in respect of the Business Plan and its viability, the amount of contingencies contemplated therein and other material assumptions in which the Business Plan is based confirming that such assumptions have been made based on proper advice. It must be clearly stated that, without those representations and the advice behind them, Consenting Existing Creditors would not have supported nor executed the Restructuring Agreement. The board of directors resolution must specifically address these representations (including the wording agreed in the Restructuring Agreement) and expressly approve, in addition to the Business Plan, the granting of them on behalf of the Parent.

**Undertakings in relation to A3T and ABY:**

For the benefit of New Money Tranche 1 and New Money Tranche 3 only, customary undertakings for a financing of this nature and based on the LMA Precedent, relating to the NM1 Group and the ABY Group including, without limitation, (i) customary COMI undertakings in relation to each double Luxco structure in respect of ABY shares and A3T, including, without limitation, restrictions on any US, Spanish or other non-Luxembourg nexus; (ii) additional undertakings to be included in respect of commercial arrangements and intercompany loans as between the Group and the NM1 Group and the ABY Group to ring-fence the NM1 Group and the ABY Group; (iii) comprehensive ringfencing of A3T Holdco España S.A.; (iv) undertakings to include non-petition and limited recourse language in all agreement under which Orphan Holdco, ACIL Luxco1, A3TLuxco1, ACIL Luxco2,

A3TLuxco2, OrphanCo incurs any liabilities, as part of usual bankruptcy remoteness protections of a securitisation vehicle to be included in respect of Orphan Holdco, ACIL Luxco1, A3TLuxco1, ACIL Luxco 2, A3TLuxco2 and OrphanCo (but without prejudicing the New Money Tranche 1 creditors' and New Money Tranche 3 creditors' rights to enforce the NM1 Priority Collateral or the liability of any member of the NM1 Group to the New Money Tranche 1 creditors and New Money Tranche 3 creditors in respect of undertakings given under the Finance Documents); (v) holding company undertakings in respect of each of ACIL, A3T Holdco España S.A., A3TLuxco2 and ACIL Luxco2 prohibiting any activity (including the incurrence of any indebtedness) other than holding shares in its subsidiaries; (vi) general undertakings restricting members of the NM1 Group from incurring debt, granting guarantees or indemnities, disposing of assets, granting security, making any dividend or shareholder payments, making any loans or grant any credit, entering into any acquisitions/joint ventures or making any changes to the business, subject to carve outs to be agreed permitting transactions in the ordinary course of business of A3T; and (vii) project financing undertakings and other undertakings appropriate for this transaction (including without limitation, undertakings on ACIL Luxco1 to procure that the ABY Group complies with undertakings to the extent possible as a minority shareholder of ABY).

Key covenants for the benefit of the New Money Tranche 1 creditors and New Money Tranche 3 creditors will include the following:

***A3T:***

1. An obligation to secure the correct right of way for transmission lines (or to change the route as necessary). If there is a failure to meet any of the milestones set out in a timeline to be agreed, by the dates set out in such timeline, then the NM1 Investor Director will take control of the process. If the entire right of way that is required is not secured by a long stop date to be agreed then an Event of Default will arise, the decision to accelerate and enforce the NM1 Priority Collateral on the basis of this Event of Default will be a Qualifying NM1 Creditor Decision and the NM1 Investor Director may require a sale of some or all of the NM1 Priority Collateral (at any price but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below). If there are any related cost overruns, such cost overrun would result in a drawdown under the New Money Tranche 3 facility.

2. An obligation to ensure compliance with budget and schedule. Any cost overruns would result in a drawdown under the New Money Tranche 3 facility. In addition:

   (i) if the projected cost overrun exceeds the funding available under New Money Tranche 3 or there is a failure to meet any of the milestones set out in a timeline to be agreed by the dates set out in such timeline, then the NM1 Investor Director will be entitled to appoint a replacement EPC contractor; and

   (ii) if the projected cost overrun exceeds an amount to be agreed or there is a failure to meet any of the milestones set out in a timeline to be agreed by the dates set out in such timeline or a drawdown request under the New Money Tranche 3 is not met, then an Event of Default will arise, the decision to accelerate and enforce the NM1 Priority Collateral on the basis of this Event of Default will be a Qualifying NM1 Creditor Decision and the NM1 Investor Director may require a sale of some or all of the NM1 Priority Collateral (at any price but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below).

3. At any time (i) the average net price (definition to be agreed) of Acceptable PPAs must be above MXP700/MWh; and (ii) no more than a percentage to be agreed of the contracted capacity shall be subject to a net price below MXP 600/MWh. If the requirements in paragraphs (i) or (ii) are not satisfied then an Event of Default will arise, the decision to accelerate and enforce the NM1 Priority Collateral on the basis of this Event of Default will be a Qualifying NM1 Creditor Decision and the NM1 Investor Director may require a sale of some or all of the NM1 Priority Collateral (at any price but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below).

4. If there is (i) any failure to meet the milestones for the % of contracted capacity set out in a timeline to be agreed by the dates set out in such timeline then the NM1 Investor Director will be entitled to appoint external brokers and to enter into Acceptable PPAs on behalf of A3T; and (ii) any failure to meet the milestones for the percentage of contracted capacity set

out in a timeline to be agreed by the dates set out in such timeline then an Event of Default will arise, the decision to accelerate and enforce the NM1 Priority Collateral on the basis of this Event of Default will be a Qualifying NM1 Creditor Decision and the NM1 Investor Director may require a sale of some or all of the NM1 Priority Collateral (at any price but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below).

5. An obligation if required by the Majority Qualifying NM1 Creditors to dispose of ABY and/or A3T (at any price but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below) if an Event of Default is continuing or from the earlier of (i) completion of A3T; and (ii) the date falling 18 months after the Restructuring Completion Date.

For the purposes of these undertakings an "**Acceptable PPA**" means a PPA (a) under which the counterparty meets a minimum credit worthiness test to be agreed; (b) under which the term is a minimum of 10 years; and (c) which hedges out fluctuations in gas price.

***ABY:***

1. An Event of Default if the ABY share price is, at any time, below the minimum price (initially being USD14, increasing at a compounding daily rate of 15% per annum from the Restructuring Completion Date). Any decision to accelerate and enforce the NM1 Priority Collateral on the basis of this Event of Default will be a Qualifying NM1 Creditor Decision and the NM1 Investor Director may require a sale of some or all of the NM1 Priority Collateral (at any price but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below);

2. An obligation to dispose of 50% (or such lower percentage as the NM1 Investor Director may agree) of the ABY shares at any time when the ABY share price is at least USD23 if required by the NM1 Investor Director or the Majority Qualifying NM1 Creditors (provided that such shares are sold at a price of more than USD22 per share, but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below). If the requirement is not satisfied by a long stop date to be agreed then an Event of Default will arise, the decision to accelerate and enforce the NM1 Priority Collateral

relating to the ABY shares on the basis of this Event of Default will be a Qualifying NM1 Creditor Decision and the NM1 Investor Director may require a sale of some or all of the NM1 Priority Collateral relating to the ABY shares at a price of more than USD22 per share (but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below); and

3. An obligation if required by the NM1 Investor Director or the Majority Qualifying NM1 Creditors to instruct a reputable international investment bank to market and sell 100% of the ABY shares and/or the A3T shares if at any time after 31 March 2017 the share price is below USD21 (but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below).

Any decision to accelerate and enforce the NM1 Priority Collateral on the basis of these Events of Default will be a Qualifying NM1 Creditor Decision and the NM1 Investor Director may require a sale of some or all of the NM1 Priority Collateral (at any price but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below).

**Undertakings in relation to the NM1 Group:**

New Money Tranche 2, the New Bonding Facilities and the Senior Old Money Loans/Notes will have the benefit of limited additional undertakings given by the Parent with respect to the NM1 Group including:

1. a restriction on distributions, payments and disposals from A3TLuxco1 and ACIL Luxco1 to Orphan Holdco except for the purposes of servicing interest, principal or other amounts pursuant to New Money Tranche 1 and New Money Tranche 3, payment into the NM1 DSRA and other purposes specified in the Finance Documents;

2. a restriction on any indebtedness other than New Money Tranche 1, New Money Tranche 3, intra-NM1 Group indebtedness and any other indebtedness contemplated in the Business Plan or otherwise to fund (a) A3T costs including, without limitation, increased construction costs, increased operating expenditure and increased commercialisation costs and/or (b) discharge of obligations of the Group or NM1 Group in respect of any member of the ABY Group if they fail to do so; and/or (c) in repayment of New Money Tranche 1 provided that for the avoidance of doubt no such refinancing indebtedness will benefit from the title

transfer arrangements forming part of the transaction security and the title transfer arrangements will therefore be collapsed and Orphan Holdco will return the relevant shares to A3TLuxco2 and ACIL Luxco2 (as applicable) upon refinancing in full of New Money Tranche 1 and New Money Tranche 3;

3. holding company covenants in respect of the A3TLuxco2 and ACIL Luxco2 restricting trading, business activities, provision of loans or guarantees, ownership of assets and incurrence of liabilities, other than those envisaged under the relevant Debt Instruments to which it is a party as of the Restructuring Completion Date; and

4. change of business of the NM1 Group.

In addition, each of A3TLuxco2 and ACIL Luxco2 shall undertake for the benefit of the New Money Tranche 2 creditors and the New Bonding Facilities creditors that it will not waive, amend, compromise, transfer or assign any of its rights, interest or claim under or in connection with the title transfer arrangements without the consent of the New Money Tranche 2 creditors and the New Bonding Facilities creditors.

**Undertakings in relation to the Group and the Business Plan:**

For the benefit of the New Money Financing creditors (other than New Money Tranche 1 creditors) and the New Bonding Facilities creditors, customary undertakings for a financing of this nature and based on the LMA Precedent, relating to the Group (and excluding the NM1 Group).

Key covenants for the benefit of the New Money Financing creditors (other than New Money Tranche 1 creditors) and the New Bonding Facilities creditors will include the following:

1. Project financing undertakings and other undertakings appropriate for this transaction to include compliance with an agreed asset disposal program/milestones and a trade creditor liability reduction program.

2. Compliance with Business Plan (including in respect of the disposal of A3T and ABY within 24 and 18 months respectively following the Signing Date and, at least, in the amounts foreseen therein) within timeframes and amounts foreseen therein (subject to independent third party verification at the cost of the Parent).

3. Selling, general and administrative expenses shall not exceed the maximum amount foreseen in the Business Plan (subject to independent third party verification at

the cost of the Parent).

4. Commercially reasonable endeavours to obtain consent from (i) the lenders under each project finance; and, if applicable, (ii) the concession-granting authority, to the creation of junior-ranking security (as part of NM2 Priority Collateral) over the shares of the project companies owning and developing the Zapotillo, SAWS and Cárcel projects.

New Money Financing creditors and the New Bonding Facilities creditors will have the benefit of limited undertakings with respect to the Group including:

1. Holding company covenants in respect of the Parent, AbeNewco1 and AbeNewco2 restricting trading, business activities, ownership of assets and incurrence of liabilities, other than those envisaged under the relevant Debt Instruments to which it is a party and other customary exclusions in respect of such entity acting as a holding company for its subsidiaries.

2. A requirement that (i) the Parent will continue to directly own 100% of the shares in AbeNewco1 and will have no other subsidiaries; (ii) AbeNewco1 will continue to directly own 100% of the shares in AbeNewco2 and will have no other subsidiaries; and (iii) AbeNewco2 will continue to directly own the same proportion of shares in its subsidiaries as it owns at the Restructuring Completion Date.

3. Restriction on distributions, payments and other disposals from AbeNewco1 and its subsidiaries to the Parent, AbeNewco2 or the shareholders of the Parent.

4. Full subordination of claims from the Parent, AbeNewco2 or any shareholder of the Parent into AbeNewCo1 and its subsidiaries

5. Restriction on granting any additional security, guarantees or assurances against loss for any Senior Old Money Loans/Notes, Junior Old Money Loans/Notes or Standard Restructuring Terms debt (or any debt which fully or partially refinances such debt).

6. Customary requirements as to sanctions, anti-corruption and compliance with applicable laws.

7. Further assurances in relation to guarantees and security.

| | |
|---|---|
| **Information Undertakings:** | Customary for a financing of this nature and based on the LMA Precedent supplemented as appropriate to incorporate project financing information undertakings and other information undertakings appropriate for this transaction. Format and content of reporting package to be agreed with the New Money Financing creditors and the New Bonding Facilities creditors; *provided, that* the Parent will designate information provided pursuant to the information undertakings to be either "Public" (in which case the Parent will ensure that it is made public contemporaneously with its provision to New Money Financing creditors and the New Bonding Facilities creditors) or "Private" and each New Money Financing creditor and each New Bonding Facilities creditor will have the option, from time to time and in its sole discretion, to receive either category of information; *provided, further*, that it is understood and agreed that, except as set forth under "Information to noteholders" below, the Parent will have no ongoing obligation to cause any information that has been designated as "Private" to be cleansed or otherwise publicly disclosed.<br><br>To include, for a period of at least 2 years following the Restructuring Completion Date:<br><br>(a) monthly public calls in English for the CEO and/or CFO to provide a reasonably detailed update on performance against the Business Plan; and<br><br>(b) quarterly public earnings calls by the CEO and/or CFO in English. |
| **Financial Covenants:** | New Money Financing creditors and the New Bonding Facilities creditors will benefit from a liquidity covenant (the "**Liquidity Covenant**") pursuant to which the actual (last 6 month) and projected (next 6 month) liquidity for the Group exceeds a minimum level to be agreed. The Liquidity Covenant will be tested each month on a rolling 6 month basis with the first test date being the first quarter date after the Restructuring Completion Date and will be reported on by an independent third party approved by the New Money Tranche 1 creditors.<br><br>Additional financial covenants for New Money Tranche 2, New Money Tranche 3, the New Bonding Facilities and the Senior Old Money Loans/Notes will relate to the Group (and excluding any part of the NM1 Group) and be based on the projections contained in the Business Plan (but, in the case of the Senior Old Money Loans/Notes, with additional headroom of 25%). |
| **Events of Default** | New Money Tranche 1 creditors and New Money Tranche 3 |

**(Loans/Notes):**

creditors will have the benefit of events of default in respect of the NM1 Group and ABY only which are customary for a financing of this nature and based on the LMA Precedent supplemented as appropriate to incorporate project financing events of default and other events of default appropriate for this transaction (including, without limitation, any event or circumstance which has or is reasonably likely to have a material adverse effect on the NM1 Group or the NM1 Priority Collateral. In addition, the New Money Tranche 1 creditors and New Money Tranche 3 creditors will have the benefit of the following events of default in respect of the Group:

(a) misrepresentation to the extent that representations such as those relating to the position at the Signing Date and the Restructuring Completion Date relate to the Group as well as the NM1 Group;

(b) if the aggregate amount of Consenting Old Money exceeds EUR2,700m due to crystallisation of contingent claims of Consenting Existing Creditors after the maximum reduction has been applied, provided that no event of default will occur if the Consenting Old Money creditors restructure the Consenting Old Money by a longstop date to be agreed, whether by additional reductions or equitisation of their claims, extending the maturity of the Consenting Old Money or otherwise, in a manner that is consistent with the then current Business Plan and does not affect the NM1 Priority Collateral or the NM1 Group, in order that the aggregate amount of the Consenting Old Money does not exceed EUR2,700m;

(c) insolvency, insolvency proceedings (including, without limitation, *homologacion*) or creditor's process in relation to the Parent or any other member of the Group which contracts, provides any guarantee in respect of or provides services to any member of the NM1 Group or the ABY Group;

(d) breach of the Liquidity Covenant;

(e) use of New Money Tranche 3 for purposes other than funding A3T construction costs;

(f) non-payment by a member of the Group of amounts due to any member of the NM1 Group or ABY;

(g) breach of any of the undertakings for the benefit of the New Money Tranche 1 creditors and New Money Tranche 3 creditors listed in the "Undertakings in relation to the Group and the Business Plan" section

above; and

(h) cross-acceleration (including non-payment) with respect to financial indebtedness of the Group (with no threshold in the case of New Money Tranche 2, New Money Tranche 3, New Bonding Facilities and Consenting Old Money).

New Money Tranche 2, New Money Tranche 3, the New Bonding Facilities and the Senior Old Money Loans/Notes will have the benefit of events of default in respect of the Group only which are customary for a financing of this nature and based on the LMA Precedent supplemented as appropriate to incorporate events of default appropriate for this transaction and including:

(a) any event or circumstance which has or is reasonably likely to have a material adverse effect on the Group or on the material assumptions or contingencies on which the Business Plan is based;

(b) breach of undertakings described in "Undertakings in relation to the Group and the Business Plan" section above;

(c) if the aggregate amount of Consenting Old Money exceeds EUR2,700m due to crystallisation of contingent claims of Consenting Existing Creditors after the maximum reduction has been applied, provided that no event of default will occur if the Consenting Old Money creditors restructure the Consenting Old Money within a grace period to be agreed, whether by additional reductions or equitisation of their claims, extending the maturity of the Consenting Old Money or otherwise, in a manner that is consistent with the then current Business Plan and does not affect the NM1 Priority Collateral or the NM1 Group, such that the aggregate amount of the Consenting Old Money does not exceed EUR2,700m;

(d) breach of the Liquidity Covenant;

(e) use of New Money Tranche 3 for purposes other than funding A3T construction costs;

(f) breach of any of the undertakings for the benefit of the New Money Financing creditors (other than New Money Tranche 1 creditors) and New Bonding Facilities creditors listed in the "Undertakings in relation to the NM1 Group" section above; and

(g) cross-acceleration (including non-payment) with respect to financial indebtedness of the Group (with no threshold in the case of New Money Tranche 1, New Money Tranche 2, New Money Tranche 3, New Bonding Facilities and Consenting Old Money).

The Junior Old Money Loans/Notes will have the benefit of events of default limited only to non-payment of Junior Old Money Loans/Notes and cross-acceleration (including non-payment) with respect to financial indebtedness of the Group (with no threshold in the case of New Money Tranche 1, New Money Tranche 2, New Money Tranche 3, New Bonding Facilities and Consenting Old Money).

**Listing:**

The New Money Notes and any notes in respect of the Senior Old Money Loans/Notes and Junior Old Money Loans/Notes will be listed on a regulated or unregulated exchange.

**Information to noteholders:**

Where Consenting Existing Creditors who are noteholders (the "**Consenting Noteholders**") are required to vote on a consent requested by the Parent and the relevant Consenting Noteholders will need to receive confidential, non-public information in order for them to have sufficient information to vote on such consent, the Parent shall offer to provide the Consenting Noteholders the relevant confidential, non-public information (the "**Relevant Information**") (subject to, to the extent necessary, the Consenting Noteholder having entered or entering into satisfactory confidentiality arrangements). If a Consenting Noteholder fails to (i) elect to receive the Relevant Information within a specified period after the Parent's offer (without prejudice to such Consenting Noteholder's right to request and receive the Relevant Information after such period) or (ii) respond within the later of (x) 10 business days after the Parent's initial notification of the consent request and (y) if applicable, a specified period after receipt of the Relevant Information, the aggregate nominal amount of the New Money Notes, any notes in respect of the Senior Old Money Loans/Notes and any notes in respect of the Junior Old Money Loans/Notes held by such Consenting Noteholder shall not be included when calculating whether a relevant required consent threshold has been achieved in respect of such consent.

The Parent shall use all reasonable efforts to disclose the Relevant Information as soon as reasonably practicable such that it no longer constitutes non-public information in any relevant jurisdiction.

On or any time after the occurrence of an Event of Default which is continuing, a Consenting Noteholder which has received Relevant Information may disclose such Relevant Information to the public markets as the Consenting

| | |
|---|---|
| | Noteholder considers reasonably necessary to allow it to trade any New Money Notes, any notes in respect of the Senior Old Money Loans/Notes and/or any notes in respect of the Junior Old Money Loans/Notes it holds without being in breach of any applicable laws or regulations or principles of conduct of any relevant jurisdiction. |
| **Transfers and Assignments:** | Other than in respect of New Money Tranche 3 and New Bonding Facilities, no restrictions (save for customary regulatory and securities law restrictions) following the Restructuring Completion Date.<br><br>New Money Tranche 3 creditors must be commercial banks with a rating for its long term unsecured unsubordinated debt of at least A from Standard & Poor's or A1 from Moody's. Transfers of New Money Tranche 3 commitments must be in minimum amounts of EUR5m while the New Money Tranche 1 is outstanding.<br><br>New Bonding Facilities creditors must be banks or other financial entities that provide bonding as part of their customary business.<br><br>Assignments or transfers by an Obligor of its rights and/or obligations under a Debt Instrument will be prohibited. |
| **Debt Buybacks:** | With the prior consent of the Majority New Money Creditors or following repayment in full of the New Money Financing and release or collaterisation of all bonds outstanding under the New Bonding Facilities, members of the Group may buy-back debt subject to customary parameters, including that any such debt buyback may only be made from excess cashflow (subject to a liquidity buffer of EUR200m) of the Group and will be applied as reasonably determined by the board of directors of the Parent subject to the "Fair Value Opinion" section above. |
| **Governing Law and Jurisdiction:** | Spanish law for the Restructuring Agreement and the New Bonding Facilities and New Money Tranche 2 Debt Instrument; English law and/or Spanish law for Consenting Old Money Debt Instruments; English law for each other Finance Documents (save where appropriate in relation to security documents). |
| **Miscellaneous (including Default Interest; Tax Gross Up etc):** | Tax gross up for qualifying lenders (applying customary qualifying lender criteria) of New Money Financing but not otherwise; default interest at up to an additional 5% payable in cash; customary snooze / lose and replacement of non-consenting creditor provisions. |

## PART 4
## POST-RESTRUCTURING INTERCREDITOR ARRANGEMENTS: DEBT

**Ranking of Claims:**

The unsecured claims of creditors against members of the Group (excluding members of the Group forming part of the NM2 Priority Collateral) will rank as follows:

(a) first, New Bonding Facilities (if not accelerated, as cash collateral for bonds issued and available commitments under the New Bonding Facilities);

(b) second, New Money Tranche 3 (if not accelerated, as cash collateral for the aggregate amounts outstanding and available under New Money Tranche 3);

(c) third, New Money Tranche 2;

(d) fourth, New Money Tranche 1;

(e) fifth, Senior Old Money Loans/Notes; and

(f) sixth, Junior Old Money Loans/Notes.

The unsecured claims of creditors against members of the Group forming part of the NM2 Priority Collateral will rank as follows:

(a) first, New Money Tranche 3 (if not accelerated, as cash collateral for the aggregate amounts outstanding and available under New Money Tranche 3);

(b) second, New Money Tranche 2;

(c) third, New Money Tranche 1 and the New Bonding Facilities (if not accelerated, as cash collateral for bonds issued and available commitments under the New Bonding Facilities) on a pari passu basis;

(d) fourth, Senior Old Money Loans/Notes; and

(e) fifth, Junior Old Money Loans/Notes.

The unsecured claims of creditors against members of the NM1 Group forming part of the NM1 Priority Collateral will rank as follows:

(a) first, New Money Tranche 1; and

(b) second, New Money Tranche 3 (if not accelerated, as cash collateral for the aggregate amounts outstanding and available under New Money Tranche 3).

For the avoidance of doubt, no financial creditor other than the New Money Tranche 1 creditors and the New Money Tranche 3 creditors will have any direct claim in respect of the NM1 Group or the NM1 Priority Collateral other than in respect of the NM1 Priority Collateral Surplus Proceeds and the accounts into which the NM1 Priority Collateral Surplus Value must be deposited.

Intra-group claims will be subordinated.

Security granted by members of the Group and/or the NM1 Group will rank as follows:

(a) *NM1 Priority Collateral*

(i) first, New Money Tranche 1; and

(ii) second, New Money Tranche 3 (if not accelerated, as cash collateral for the aggregate amounts outstanding and available under New Money Tranche 3),

(provided that the NM1 Priority Collateral will exclude the residual value comprising the NM1 Priority Collateral Surplus Value or NM1 Priority Collateral Surplus Proceeds which will be treated as part of the NM2 Priority Collateral).

(b) *NM2 Priority Collateral*

(i) first, New Money Tranche 3 (if not accelerated, as cash collateral for the aggregate amounts outstanding and available under New Money Tranche 3) (provided New Money Tranche 3 shall not have security over the NM1 Priority Collateral Surplus Value or NM1 Priority Collateral Surplus Proceeds);

(ii) second, New Money Tranche 2; and

(iii) third, New Money Tranche 1 (provided New Money Tranche 1 shall not have security over the NM1 Priority Collateral Surplus Value or NM1 Priority Collateral Surplus Proceeds) and New Bonding Facilities, on a *pari passu* basis.

(c) *EPC Sub-Group*

(i) first, New Bonding Facilities (if not accelerated, as cash collateral for bonds issued and available commitments under the New Bonding Facilities);

(ii) second, New Money Tranche 3 (if not accelerated, as cash collateral for the aggregate amounts outstanding and available under New Money Tranche 3);

(iii) third, New Money Tranche 2; and

(iv) fourth, New Money Tranche 1.

(d) *Old Money Collateral*

(i) first, Senior Old Money Loans/Notes; and

(ii) second, Junior Old Money Loans/Notes;

Customary treatment of creditors in the event of equitable subordination will be included as appropriate.

**Turnover:** Full turnover obligation on all creditors, with the proceeds waterfall depending on the source of the payment.

**Consenting Old Money Enforcement Rights:**

(a) *Acceleration / making demand under guarantees*

Senior Old Money Loans/Notes will be subject to a 6 month standstill on any enforcement action.

Junior Old Money Loans/Notes will be subject to a 9 month standstill on any enforcement action.

Consent of 66.67% of the Senior Old Money Loans/Notes or Junior Old Money Loans/Notes (as applicable) will be required to instruct any acceleration or enforcement of guarantees.

Notwithstanding the above, if the New Money Financing creditors accelerate or enforce guarantees in respect of the New Money Financing, the creditors of the Senior Old Money Loans/Notes and Junior Old Money Loans/Notes may take the same enforcement action against the same entity (to the extent permitted to do so under the documentation for the Consenting Old Money), provided that if the creditors in respect of the New Money Financing have notified the creditors of the Consenting Old Money that they are taking or have instructed the Security Agent to take enforcement action in relation to any Obligor or the transaction security in relation to any Obligor or its subsidiaries, no creditors of the Consenting Old Money may take any action in relation to such entity while any such enforcement action is ongoing where such action might be reasonably likely to adversely affect such enforcement action or the

question of proceeds to be realised from such enforcement action.

(b) *Security enforcement*

Consent of Majority Senior Old Money Creditors will be required to instruct any enforcement of the Old Money Collateral.

Senior Old Money Loans/Notes and Junior Old Money Loans/Notes will not be permitted to enforce the Old Money Collateral unless the New Money Financing has been repaid in full and all the bonds outstanding under the New Bonding Facilities have been released or collateralised in full.

**Relationship between Junior Old Money Loans/Notes and Senior Old Money Loans/Notes:**

The intercreditor agreement will expressly provide that no restructuring of the Junior Old Money Loans/Notes which may affect the rights and obligations of the Senior Old Money Loans/Notes creditors may be effected without the consent of the Majority Senior Old Money Creditors.

**Enforcement Rights of Other Creditors:**

(a) *New Bonding Facilities acceleration, making demand under guarantees and security enforcement*:

*Against the EPC Sub-Group:* 66.67% majority subject to a 90 day standstill (save where the New Money Financing creditors or Consenting Old Money creditors have accelerated or New Money Tranche 1 has been repaid in full).

*Against other members of the Group:* 66.67% majority, only on non-payment or where the New Money Financing creditors or Consenting Old Money creditors have accelerated, made demand under guarantees or taken other enforcement action.

(b) *New Money Financing acceleration and security enforcement*

Acceleration of New Money Tranche 1 and New Money Tranche 3, enforcement of guarantees in respect of New Money Tranche 1 and New Money Tranche 3 granted by the NM1 Group and NM1 Priority Collateral security enforcement to be controlled by the Majority NM1/NM3 Creditors (save in the case of Qualifying NM1 Creditor Decisions, where acceleration, enforcement of guarantees in respect of New Money Tranche 1 and New Money Tranche 3 and NM1 Priority Collateral security enforcement will be controlled by the Majority

Qualifying NM1 Creditors). In relation to Qualifying NM1 Creditor Decisions, the Majority Qualifying NM1 Creditors will also be entitled to require a sale of all or any part of the NM1 Priority Collateral at their discretion (at any price but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below). If the Majority Qualifying NM1 Creditors have not exercised or waived their right to accelerate / enforce / require a sale within a period of 90 days, the Majority NM1/NM3 Creditors (ignoring for this purpose paragraph (b)(i) of the definition of Majority NM1/NM3 Creditors) may exercise such right.

The New Money Tranche 3 creditors will not have any separate rights to accelerate New Money Tranche 3 or enforce the NM1 Priority Collateral other than as part of the Majority NM1/NM3 Creditors, provided that, following an event of default under New Money Tranche 3, subject to a 90 day standstill the Majority NM3 Creditors may require any member of the Group (excluding the NM1 Group) that has granted guarantees in respect of New Money Tranche 3 to provide cash collateral in respect of the outstanding amounts under New Money Tranche 3. If no, or an insufficient amount of, cash collateral is provided, the Majority NM3 Creditors may enforce guarantees granted by the Group (excluding the NM1 Group) in respect of New Money Tranche 3 subject to a 90 day standstill (save where the New Money Tranche 1 creditors or Consenting Old Money creditors have accelerated or New Money Tranche 1 has been repaid in full).

Enforcement of guarantees granted by the Group (excluding the NM1 Group) in respect of New Money Tranche 1 to be controlled by the Majority NM1 Creditors subject to prior enforcement by New Money Tranche 2, New Bonding Facilities and/or New Money Tranche 3 (as applicable) (save where the Consenting Old Money creditors have accelerated, made demand under guarantees or taken other enforcement action and the other customary exceptions consistent with the definition of "Enforcement Action" in the LMA Precedent, including where such action is necessary to preserve the validity, existing or priority of the claim).

Acceleration of New Money Tranche 2 and enforcement of guarantees in respect of New Money Tranche 2 to be controlled by a 50.1% majority of New Money Tranche 2 creditors subject to a 90 day standstill (save where the

New Money Tranche 1 creditors or Consenting Old Money creditors have accelerated or New Money Tranche 1 has been repaid in full).

Enforcement of the NM2 Priority Collateral security to be controlled by a 50.1% majority (based on the aggregate outstanding amount) of New Money Tranche 2 and New Money Tranche 3 creditors subject to a 90 day standstill (save where the New Money Tranche 1 creditors or Consenting Old Money creditors have accelerated or New Money Tranche 1 has been repaid in full), provided that no enforcement of the security over the accounts into which the NM1 Priority Collateral Surplus Value is required to be deposited or the security over the NM1 Priority Collateral Surplus Proceeds shall be permitted until New Money Tranche 1 has been repaid in full.

Enforcement of security other than NM1 Priority Collateral, NM2 Priority Collateral and Old Money Collateral to be controlled by a 66.67% majority (based on aggregate amounts outstanding of New Bonding Facilities creditors subject to a 90 day standstill (save where the New Money Tranche 1 creditors or Consenting Old Money creditors have accelerated or New Money Tranche 1 has been repaid in full), provided that no enforcement of the security over the shares of AbeNewCo1 shall be permitted where such enforcement would have an adverse impact on ABY.

**Release of Claims / Security on Enforcement and Fair Value Requirements:**

With respect to any distressed disposal other than a distressed disposal of NM1 Priority Collateral (whether by way of enforcement of the transaction security or otherwise), the relevant Security Agent will be authorised to release or transfer claims under or in connection with the Consenting Old Money and junior-ranking secured creditors with respect to the Group (including claims of the New Money Tranche 1 creditors in respect of guarantees and security granted by members of the Group) provided that the distressed disposal is effected through (a) a public auction, court approved process, sale by court supervised officer, competitive sales process or (b) any other method provided the Security Agent has obtained an opinion from a reputable and independent international investment bank or accounting firm (other than the then-current auditor of the Group) confirming that the consideration for the distressed disposal is fair from a financial point of view taking into account all relevant circumstances, including, without limitation, the method of the disposal.

With respect to any distressed disposal of the NM1 Priority Collateral (whether by way of enforcement of the transaction

security or otherwise) or a disposal pursuant to the right to dispose assets as set out in the "Undertakings in relation to A3T and ABY" section above the relevant Security Agent (or NM1 Investor Director or facility agent as applicable) will be under an obligation to the New Money Tranche 2, New Money Tranche 3 and New Bonding Facilities creditors to satisfy the following requirements:

(a) without prejudice to paragraph (b) below, with respect to NM1 Priority Collateral, to effect the disposal or enforcement through (i) a public auction, court approved process, sale by public officer or court supervised officer or competitive sales process; or (ii) any other method provided the Security Agent (or NM1 Investor Director or facility agent as applicable) has obtained an opinion from a reputable and independent international investment bank or accounting firm (other than the then-current auditor of the Group) confirming that the consideration for the disposal or enforcement is fair from a financial point of view taking into account all relevant circumstances, including, without limitation, the method of disposal or enforcement; or

(b) at the option of the Security Agent (or the NM1 Investor Director or facility agent, as applicable) as an alternative to the requirements in paragraph (a) above with respect to disposal or enforcement of NM1 Priority Collateral comprising shares in ABY or (provided that ACIL Luxco1 has no material assets other than the ABY shares and any rights related to such shares, cash, intercompany claims between ACIL Luxco1 and its subsidiaries and (if any) shares in any intermediate holding companies that hold the ABY shares) all of the shares in ACIL Luxco1, to effect the disposal or enforcement at a value determined:

(i) with reference to a marketing process in respect of all or part of the shares in ABY (to be taken into account also, for the avoidance of doubt, in the case of a disposal or enforcement of the shares in ACIL Luxco1) conducted at or around the time of enforcement or disposal (or as soon as reasonably practicable (having regard to all of the circumstances including, without limitation, the practicalities of marketing the shares in ABY arising from relevant securities law and regulation) following the date of the disposal or enforcement) by an independent internationally recognised investment bank appointed by or on behalf of the Security Agent (or NM1 Investor

Director or facility agent as applicable); and/or

(ii) with respect to an enforcement (including appropriation) other than by way of disposal of shares in ABY or ACIL Luxco1, by applying a discount to the market price of the shares in ABY the subject (direct or indirect) of the enforcement (to be taken into account also, for the avoidance of doubt, in the case of an enforcement of the shares in ACIL Luxco1) which takes account of all information which is available to the Security Agent (or NM1 Investor Director or facility agent as applicable) in its capacity as such, whether publicly or otherwise, and considered by the Security Agent (or NM1 Investor Director or facility agent as applicable) acting in good faith to be relevant to such determination; and

(iii) with respect to cash of ACIL Luxco1 and its subsidiaries, at face value,

and, in each case, the Security Agent will be authorised to release or transfer claims (including with respect to New Money Tranche 3) in relation to the NM1 Group and the NM1 Priority Collateral.

In respect of any distressed disposal (whether by way of enforcement of the transaction security or otherwise including, without limitation, enforcement of the title transfer collateral arrangements without transferring legal title to such collateral) of:

(c) all of the shares of any holding company ("**A3T Holding Company**") of which A3T is a (directly or indirectly) wholly-owned subsidiary or which otherwise holds (directly or indirectly) all of the assets of A3T ("**A3T Holding Company Distressed Disposal**"); or

(d) all of the shares of any holding company ("**ABY Holding Company**") that (directly or indirectly) holds all of the shares in ABY forming part of the NM1 Priority Collateral ("**ABY Holding Company Distressed Disposal**" and, together with A3T Holding Company Distressed Disposal, each a "**Holding Company Distressed Disposal**"),

the relevant Security Agent (or NM1 Investor Director or facility agent as applicable) will only be under an obligation to the New Money Tranche 2, New Money Tranche 3 and New Bonding Facilities creditors to satisfy the requirements in the above paragraph once and will not be required to satisfy the

requirements in the above paragraph with respect to any subsequent distressed disposal or enforcement of:

(i) in the case of an A3T Holding Company Distressed Disposal, any A3T Holding Company, any wholly-owned subsidiary of the A3T Holding Company or the assets of A3T; or

(ii) in the case of an ABY Holding Company Distressed Disposal, any ABY Holding Company, any wholly-owned subsidiary of the ABY Holding Company or any of the shares of ABY forming part of the NM1 Priority Collateral,

(each a "**Subsequent Disposal**"), and such Subsequent Disposal may be effected by any method, and at such value, as detennined in accordance with any applicable law (and subject to the tenns of the transaction security documents) and otherwise in the discretion of the relevant Security Agent (or NM1 Investor Director or facility agent as applicable) in accordance with the tenns of the relevant intercreditor agreement.

The release of claims and security enforcement with respect to the NM1 Group and NM1 Priority Collateral will be separately regulated by an intercreditor agreement involving the New Money Tranche 1 creditors, the New Money Tranche 3 creditors and the members of the NM1 Group, provided that the New Money Tranche 2 Security Agent and the New Bonding Facilities Security Agent will be a party to this intercreditor agreement solely for the purpose of benefiting from the protection set out in this section.

For the purposes of this section "Release of Claims / Security on Enforcement and Fair Value Requirements" a "distressed disposal" shall be deemed to include any enforcement of the title transfer collateral arrangements resulting in the termination of A3TLuxco2 and/or ACIL Luxco2's rights to require a retransfer of the shares of A3TLuxco1 or ACIL Luxco2.

**NM1 Priority Collateral Surplus Value:**

The accounts of A3T Luxco2 and ACIL Luxco2 into which the cash proceeds of NM1 Priority Collateral Surplus Value must be deposited will be subject to an account bank arrangement pursuant to which the only deposits that may be made into such accounts are the deposit of NM1 Priority Collateral Surplus Value by the NM1 Priority Collateral security agent.

NM1 Priority Collateral Surplus Value must be returned in the form of cash and/or return of NM1 Priority Collateral (provided that the collateral returned is not a shareholding of less than

100% in any of the NM1 Group members) but not alternative/substitute securities or assets.

## PART 5
## POST-RESTRUCTURING TERMS AND GOVERNANCE: EQUITY

**Shares**

The intention is to capitalise amounts to achieve the equity allocation described in Part 1 of the Term Sheet and collapse the dual class shares of the Parent.

The capitalisation will be executed by means of share capital increases to offset credits (*aumento por compensación de créditos*) through the issue of, and subscription to, Class A and Class B shares proportionally to the number of shares of each class existing at that time.

The collapse of the dual–class shares into one single class of ordinary shares will be submitted for approval at the same shareholders' meeting of the Parent as the capitalization under a separate agenda item immediately following the agenda item dealing with the capitalisation.

A separate class vote of each of Class A and Class B shares will be required to approve the collapse of the two classes.

If the dual–class collapse resolution is not approved, the dual–class share structure will remain in place.

A management incentive plan will be put in place on terms approved by the Majority New Money Creditors. The management incentive plan will, among other things, incentivise:

(a) repayment of New Money Tranche 1, New Money Tranche 2 and full payment or release of bonds issued under the Bonding Facilities, as well as avoiding utilisation of New Money Tranche 3;

(b) completion of A3T, NM2 Priority Collateral and other projects comprising collateral on time and on budget; and

(c) achieving any outstanding change of control and cross-default waivers and other ring-fencing steps with respect to ABY. The board of directors of the Parent will be entitled to issue shares as part of the management incentive plan up to a maximum amount to be determined by the general shareholders meeting.

**Warrants**

Warrants will be issued to the existing shareholders of the Parent as described in Part 1 of this Term Sheet. Warrant issuance will require:

(a) a directors' report on the conversion and anti-dilution mechanics (confirming that the dilution is no greater than it would have been had the shareholders received an additional 5% of the shares in the Parent on the Restructuring Completion Date); and

(b) a report from an independent expert to be appointed by the commercial registry on the directors' report.

**Corporate Governance and Board Composition**

New by-laws and new regulations of the board of directors of the Parent will need to be approved in order to comply with the most recent Good Governance Code of Listed Companies published by CMNV (and will, among other things, provide for a majority of the board of directors of the Parent to be independent directors).

In addition to a technical improvement, the new by-laws will establish, among other corporate governance principles, the separation of the roles of chairman of the board of directors of the Parent and of chief executive officer of the Group and will include a more balanced regulation on the remuneration of directors.

The following board observer may be appointed to the board of directors of the Parent:

(a) the Majority Qualifying NM1 Creditors may appoint one board observer;

(b) the Majority NM1 Creditors may appoint one board observer; and

(c) the Majority NM2 Creditors may appoint one board observer.

Fees and other costs of board observers will be borne by relevant creditors (or relevant majority of creditor) requiring the observer.

Board composition of Orphan Holdco and A3T to be agreed by the Majority Qualifying NM1 Creditors.

In order to facilitate the Restructuring process and ensure that the Parent operates in a manner consistent with the Business Plan and meets the highest standards of corporate governance, the Parent has proposed to undertake certain actions and comply with certain requirements. At the request of the Parent, such actions and requirements will be included in the Restructuring Agreement as follows:

(a) within the context of the Restructuring and until its implementation, the Parent will appoint an independent individual as adviser to the board of directors (the "**Adviser**") for matters related with the Business Plan (specifically including consistency of disinvestments and cash uses with the Business Plan during the interim period) and the fulfilment of the conditions precedent for the effectiveness of the Restructuring Agreement. The Adviser shall not have any executive or management functions; it will only be available by both the Parent and its creditors to verify and confirm whether the actions carried out by the Parent during the interim period are consistent with the Business Plan and the conditions precedent to the Restructuring are being met and complied with. The removal, lack of delivery of information and/or any other impediments to the exercise of its roles by the Adviser, shall be deemed to constitute a termination event under the Restructuring Agreement. The Adviser is to be appointed prior to the Signing Date, at the proposal of the human resources firm Spencer Stuart (the "**Consultant**"), which has been hired by the Parent for these purposes;

(b) until a new board of directors is appointed once the Restructuring Agreement has been approved by the Seville Court through the "homologación judicial", any removal of members of the current board of directors (as the one responsible for launching the restructuring proposal contained in the Restructuring Agreement) or of the roles of

their members shall be deemed to constitute a termination event under the Restructuring Agreement; and

(c) a general shareholders' meeting of the Parent is to be called and take place as soon as the Restructuring Agreement has been approved by the Seville Court through the "homologación judicial", in which agenda the appointment of new members of the board of directors will be included. Such general shareholders' meeting shall appoint a completely new board of independent directors, following a proposal made by the Consultant. If any of these actions are not carried out within the terms above, a termination event under the Restructuring Agreement will be deemed to have occurred.

**NM1 Monitor / NM1 Investor Director – NM1 Group**

The Majority Qualifying NM1 Creditors will be entitled to appoint and remove the NM1 Investor Director.

The Majority Qualifying NM1 Creditors will be entitled to monitoring rights to be agreed in respect of the NM1 Priority Collateral including, without limitation, the appointment of an NM1 Monitor.

The senior management team of members of the NM1 Group proposed by the board must be acceptable to the Majority Qualifying NM1 Creditors.

**Other Governance Arrangements**

Board to consider the Parent becoming a US registrant and, if requirements are met, admission to listing of the shares of the Parent on the NASDAQ Stock Exchange or another regulated exchange to be agreed in addition to maintaining the list of the Madrid and Barcelona Stock Exchanges.

The arrangements in relation to notification for insolvency filings and protection against COMI changes described in Schedule 1 will be maintained.

## PART 6
## DEFINITIONS

"**A3T**" means Abent 3T, S. de R.L. de C.V., a company incorporated in Mexico.

"**A3TLuxco1**" means a newly incorporated Luxembourg special purpose vehicle company (s.à r.l) to be fully-owned by (a) prior to the title transfer collateral arrangements, A3TLuxco2 and (b) following the title transfer collateral arrangements, Orphan Holdco, and that will act as the holding company for A3T.

"**A3TLuxco2**" means a newly incorporated Luxembourg special purpose vehicle company (s.à r.l) to be fully-owned by A3T Energia S.A, A3T Holdco España S.A. and Abengoa Mexico S.A and that will, prior to the title transfer collateral arrangements, own the 100% shares in A3TLuxco1.

"**AbeNewco2**" means a newly incorporated Spanish special purpose vehicle company (*sociedad anónima*) to be fully-owned by Parent and that will own the 100% shares in AbeNewco1.

"**AbeNewco1**" means a newly incorporated Spanish special purpose vehicle company *sociedad anónima*) to be fully-owned by AbeNewco2 and that will hold (i) all shares and participations currently owned by Parent in its direct subsidiaries and (ii) any other Parent's asset that is capable of being contributed without consent of holders of liabilities in respect of that asset.

"**ABY**" means Atlantica Yield plc (previously Abengoa Yield plc), a public limited company incorporated in England with company number 08818211 having its registered office at Great West House (GW1), Great West Road, Brentford, Middlesex, Greater London, United Kingdom, TW8 9DF.

"**ABY Group**" means ABY and its subsidiaries.

"**ACIL Luxco2**" means a newly incorporated Luxembourg special purpose vehicle company (s.à r.l) to be fully-owned by Abengoa Concessions Investments Limited and that will, prior to the title transfer collateral arrangements, own the 100% shares in ACIL Luxco1.

"**ACIL Luxco1**" means a newly incorporated Luxembourg special purpose vehicle company (s.à r.l) to be fully-owned by (a) prior to the title transfer collateral arrangements, ACIL Luxco2 and (b) following the title transfer collateral arrangements, Orphan Holdco, and that will own the ABY shares currently owned by Abengoa Concessions Investments Limited.

"**Alternative Restructuring Terms**" means the restructuring terms described (without limitation) in Sections (B) and (C) of Part 1; Sections (D), (E) and (F) of Part 2; Part 3 and Part 4 of this Term Sheet.

"**Brazilian Excluded Entities**" means each member of the Group not forming an integral part of the future Business Plan and identified as such in the Restructuring Steps Plan.

"**Bioenergy Excluded Entities**" means each member of the Group not forming an integral part of the future Business Plan and identified as such in the Restructuring Steps Plan.

"**Business Plan**" means the "Updated Viability Plan and Restructuring Proposal" prepared and approved by the board of directors of the Parent on 24 May 2016 with external advice from its financial and legal advisors.

"**Chilean Excluded Entities**" means each member of the Group not forming an integral part of the future Business Plan and identified as such in the Restructuring Steps Plan.

"**Consenting Existing Creditors**" means Existing Creditors who sign or accede to the Restructuring Agreement in accordance with its terms and elect for the Alternative Restructuring Terms.

"**Consenting Old Money Reduction**" means the initial 70% reduction in the principal and accrued but unpaid interest applicable to the Existing Loans/Notes and Existing Bonding Facilities, any subsequent additional reduction set out in the "Consenting Old Money" section of Section (B) of Part 1, and any further reduction agreed by the Consenting Old Money creditors.

"**Debt Instruments**" means the principal financing documents for the New Money Financing, the New Bonding Facilities and the Consenting Old Money.

"**EPC Sub-Group**" means the Group other than the NM2 Priority Collateral and the Old Money Collateral (and, for the avoidance of doubt, excluding the NM1 Group).

"**Excluded Entities**" means the Brazilian Excluded Entities, the Chilean Excluded Entities and the Bioenergy Excluded Entities.

"**Existing Creditors**" means creditors in respect of Affected Debt and/or Non-Spanish Debt to be Restructured.

"**Existing English Law Notes**" means the existing English law governed notes to be detailed in the relevant schedule of the Restructuring Agreement.

"**Existing NY Law Notes**" means the existing New York law governed notes to be detailed in the relevant schedule of the Restructuring Agreement.

"**Finance Documents**" means the Restructuring Agreement, the Debt Instruments and related financing documents identified as such in the Debt Instruments (including without limitation intercreditor agreements, security documents and fee letters).

"**Group**" means the Parent and all companies which are controlled directly or indirectly by the Parent in the terms of Article 42 of the Spanish Commercial Code (or any other article which may substitute or replace such Article) but excluding the NM1 Group.

"**Initial Bonding Providers**" means Banco Popular Español, S.A., Banco Santander, S.A., Bankia, S.A., Caixabank, S.A. and Credit Agricole Corporate and Investment Bank, Sucursal en España.

"**Key Project Entity**" means:

(c) with respect to A3T, Abent 3T S.A.P.I. de C.V.;

(d) with respect to A4T, ACC 4T S.A.P.I. de C.V.;

(e) with respect to Norte III, Abeinsa Juárez Norte III S.A. de C.V.;

(f) with respect to Zapotillo, Concesionaria del Acueducto de Zapotillo S.A. de C.V.;

(g) with respect to SAW, Abengoa Vista Ridge LLC;

(h) with respect to Cárcel, Unidad Punta de Rieles S.A.;

(i) with respect to ATN3, ATN3, S.A.;

(j) with respect to Dgen, Dgen Transmission Co., Ltd.;

(k) with respect to Delany, DCR Transmission LLC; and

(l) with respect to Atacama I, CSP Atacama Uno, S.A. and PV Atacama Uno, S.A.,

and, in each case, such other special purpose shareholders of those entities as may be agreed.

"**Key Projects**" means the projects referred to in the Business Plan as A3T, A4T, Norte III, Zapotillo, ATN3, Cárcel, Dgen, Delaney, Atacama I and SAW.

"**Liquidity Covenant**" has the meaning given to such term in the Financial Covenant section in Part 3.

"**LMA Precedent**" means, as applicable, the Loan Markets Association's recommended form of facilities agreement for leveraged finance transactions (senior/mezzanine) and/or the recommended form(s) of intercreditor agreement.

"**Majority New Bonding Creditors**" means New Bonding Facilities creditors whose commitments represent more than 50% of the aggregate New Bonding Facilities commitments.

"**Majority New Money Creditors**" means each of (a) the Majority Qualifying NM1 Creditors; and (b) New Money Financing creditors who represent more than 50% of the aggregate New Money Financing.

"**Majority NM1 Creditors**" means both (a) the Majority Qualifying NM1 Creditors and; (b) the New Money Tranche 1 creditors whose aggregate New Money Tranche 1 commitments (until drawn and thereafter the principal amount outstanding and, in the case of New Money Notes under New Money Tranche 1, principal outstanding) represent more than 50% of the aggregate New Money Tranche 1 commitments (until drawn and thereafter the principal amount outstanding and, in the case of New Money Notes under New Money Tranche 1, principal outstanding) of all New Money Tranche 1 creditors.

"**Majority NM1/NM3 Creditors**" means:

(a) for the purposes of confirming approval of the conditions precedent, or in respect of any amendments or waivers relating to the conditions precedent, each of:

(i) the Qualifying NM1 Creditors whose New Money Tranche 1 commitments (until drawn and thereafter the principal amount outstanding and, in the case of New Money Notes under New Money Tranche 1, principal outstanding)

represent more than 66⅔% of the aggregate New Money Tranche 1 commitments (until drawn and thereafter the principal amount outstanding and, in the case of New Money Notes under New Money Tranche 1, principal amount outstanding) of all Qualifying NM1 Creditors; and

(ii) the New Money Tranche 1 creditors and New Money Tranche 3 creditors whose aggregate New Money Tranche 1 commitments (until drawn and thereafter the principal amount outstanding and, in the case of New Money Notes under New Money Tranche 1, principal outstanding) and New Money Tranche 3 outstanding amounts and commitments represent more than 50% of the aggregate New Money Tranche 1 commitments (until drawn and thereafter the principal amount outstanding and, in the case of New Money Notes under New Money Tranche 1, principal outstanding) and New Money Tranche 3 outstanding amounts and commitments of all New Money Tranche 1 creditors and New Money Tranche 3 creditors; and

(b) for all other purposes, each of

(i) the Majority Qualifying NM1 Creditors; and

(ii) the New Money Tranche 1 creditors and New Money Tranche 3 creditors whose aggregate New Money Tranche 1 commitments and New Money Tranche 3 outstanding amounts and commitments represent more than 50% of the aggregate New Money Tranche 1 commitments and New Money Tranche 3 outstanding amounts and commitments of all New Money Tranche 1 creditors and New Money Tranche 3 creditors.

"**Majority NM2 Creditors**" means New Money Tranche 2 creditors whose aggregate New Money Tranche 2 outstanding amounts and commitments represent more than 50% of the aggregate New Money Tranche 2 outstanding amounts and commitments of all New Money Tranche 2 creditors.

"**Majority NM3 Creditors**" means New Money Tranche 3 creditors whose aggregate New Money Tranche 3 outstanding amounts and commitments represent more than 50% of the aggregate New Money Tranche 3 outstanding amounts and commitments of all New Money Tranche 3 creditors.

"**Majority Qualifying NM1 Creditors**" means Qualifying NM1 Creditors whose New Money Tranche 1 commitments (and, in the case of New Money Notes under New Money Tranche 1, principal amount outstanding) represent more than 50% of the aggregate New Money Tranche 1 commitments (and, in the case of New Money Notes under New Money Tranche 1, principal amount outstanding) of all Qualifying NM1 Creditors.

"**Majority Senior Old Money Creditors**" means Senior Old Money Loans/Notes creditors whose participations in the Senior Old Money Loans/Notes represent more than 50% of the aggregate Senior Old Money Loans/Notes.

"**Net Proceeds**" means the amount receivable by the NM1 Group or Group after customary deductions including reasonable costs, expenses and taxes and any amounts applied in the repayment of local facilities.

"**New Bonding Commitment Letter**" means the commitment letter entered into on or about the date of the New Money Financing Commitment Letter between, among others, the Initial Bonding Providers pursuant to which they agree to lend or subscribe for (all or part) of the New Bonding Facilities.

"**New Money Financing**" means the new money financing described in Part 2 of this Term Sheet.

"**New Money Financing Commitment Letter**" means the commitment letter to which this Term Sheet is attached as an annex.

"**New Money Loans**" has the meaning given to such term in the New Money Financing Commitment Letter.

"**New Money Notes**" has the meaning given to such term in the New Money Financing Commitment Letter.

"**NM1 Group**" means OrphanCo and its subsidiaries (including, following the title transfer collateral arrangements A3TLuxco1, A3T and ACIL Luxco1), Abengoa Concessions Investments Limited, ACIL Luxco2, A3TLuxco2 and A3T HoldCo España S.A..

"**NM1 Investor Director**" means the director of Orphan Holdco, A3T and any other relevant member(s) of the NM1 Group appointed from time to time by the Majority Qualifying NM1 Creditors.

"**NM1 Monitor**" means the entity appointed by the Majority Qualifying NM1 Creditors to exercise their monitoring rights in respect of the NM1 Priority Collateral.

"**NM1 Priority Collateral**" means:

(a) all of the assets (including, without limitation, shares and shareholder loans) of:

(i) Orphan Holdco (including, without limitation, rights under the proceeds loans on-lending the proceeds of New Money Tranche 1 and New Money Tranche 3);

(ii) ACIL;

(iii) ACIL Luxco1 (including, without limitation, all of the ABY shares currently owned by ACIL (which are to be transferred to ACIL Luxco 1) and all distributions from ABY to be paid into a separate blocked account);

(iv) ACIL Luxco2 (other than the account of ACIL Luxco 2 into which the NM1 Priority Collateral Surplus Value is to be deposited);

(v) A3T;

(vi) A3TLuxco1 (including all distributions from A3T, to be paid into a separate blocked account); and

(vii) A3TLuxco2 (other than the account of A3TLuxco2 into which the NM1 Priority Collateral Surplus Value is to be deposited);

(b) all of the shares in:

(i) Orphan Holdco;

(ii) ACIL;

(iii) A3TLuxco2; and

(iv) A3T HoldCo España S.A.; and

(c) the escrow account in which a portion of the proceeds of New Money Tranche 1 are to be held.

Upon discharge in full of New Money Tranche 1 and New Money Tranche 3, any remaining NM1 Priority Collateral will revert as, and be considered, NM1 Priority Collateral Surplus Proceeds or NM1 Priority Collateral Surplus Value.

The transaction security will not be subject to limitations.

"**NM1 Priority Collateral Surplus Proceeds**" means any proceeds received by (or due and payable to) ACIL Luxco2 or A3TLuxco2 in respect of the NM1 Priority Collateral following the discharge in full of New Money Tranche 1 and New Money Tranche 3, including any NM1 Priority Collateral Surplus Value and excluding for the avoidance of doubt any rights held by ACIL Luxco2 or A3T Luxco2 against any other member of the NM1 Group in respect of the NM1 Priority Collateral.

"**NM1 Priority Collateral Surplus Value**" means any cash or cash equivalents to be received by ACIL Luxco2 and A3TLuxco2 or to which they are entitled in respect of the NM1 Priority Collateral following the discharge in full of New Money Tranche 1 and New Money Tranche 3.

"**NM2 Priority Collateral**" means the NM1 Priority Collateral Surplus Value, the NM1 Priority Collateral Surplus Proceeds, the shares of the holding companies of the project companies owning and developing the Zapotillo, SAWS and Cárcel projects and intra-group loans granted in respect of the project companies of such projects or their shareholders. In addition, the shares of the project companies owning and developing the Zapotillo, SAWS and Cárcel projects will be subject to security and form part of the NM2 Priority Collateral to the extent that the lenders under each project finance and, if applicable, the concession-granting authority consent to the creation of junior-ranking security over those shares.

"**Non-Consenting Creditors**" means creditors in respect of Affected Debt or Non-Spanish Debt to be Restructured other than Consenting Existing Creditors.

"**Obligor**" means a Borrower, a Guarantor or an Issuer.

"**Old Money Collateral**" means the security granted by Abengoa S.A. in favour of the Consenting Old Money creditors over the shares in AbeNewco2.

"**OrphanCo**" means an orphan SPV not owned by any member of the Group and established for the purpose of acting as the holding company of Orphan Holdco.

"**Orphan Holdco**" means an orphan SPV not owned by any member of the Group and established for the purpose of acting as the holding company of A3TLuxco1 and ACIL Luxco1.

"**Parent**" means Abengoa, S.A.

"**Qualifying NM1 Creditor Decisions**" means the decisions specified as such in the "Undertakings" section in Part 3 of this Term Sheet and which shall be made by the Majority Qualifying NM1 Creditors.

"**Qualifying NM1 Creditors**" means:

(a) for the purposes of any consent, approval or decision ("**decisions**") required to be given, or contemplated to be given, on or prior to the date of first drawdown under New Money Tranche 1 (the "**NM1 Initial Funding Date**"), both (1) New Money Tranche 1 creditors who certify at the time of the relevant decision that the face amount of the aggregate Senior Old Money Loans/Notes, Junior Old Money Loans/Notes and New Bonding Facilities together with the Initial Anchor Commitments in respect of New Money Tranche 2 and the Initial Anchor Commitments in respect of New Money Tranche 3 ("**Pre Funding Old Money Claims**") which it and its Affiliates or Related Funds hold or, under the terms of the Restructuring Agreement, will be entitled to hold on the Restructuring Completion Date (as well as any person with whom it or any of its Affiliates or Related Funds has entered into a sub-participation, total return swap, credit default swap or any other agreement or arrangement having an economic effect similar to a sub-participation, total return swap or credit default swap, in each case where such transaction is entered into in respect of a Pre Funding Old Money Claim) is less than one third of the amount of the Initial Anchor Commitment in respect of New Money Tranche 1 held by it and its Affiliates or Related Funds (when combined with the Initial Anchor Commitment in respect of New Money Tranche 1 held by any person with whom it or any of its Affiliates or Related Funds has entered into a sub-participation, total return swap, credit default swap or any other agreement or arrangement having an economic effect similar to a sub-participation, total return swap or credit default swap, in each case where such transaction is entered into in respect of an Initial Anchor Commitment in respect of New Money Tranche 1); and (2) New Money Tranche 1 creditors who certify at the time of the relevant decision that the face amount of the aggregate Pre Funding Old Money Claims which it and its Affiliates or Related Funds hold or, under the terms of the Restructuring Agreement, will be entitled to hold on the Restructuring Completion Date (as well as any person with whom it or any of its Affiliates or Related Funds has entered into a sub-participation, total return swap, credit default swap or any other agreement or arrangement having an economic effect similar to a sub-participation, total return swap or credit default swap, in each case where such transaction is entered into in respect of a Pre Funding Old Money Claim) is less than one third of the amount of the New Money Tranche 1 allocated to it and its Affiliates or Related Funds under and in accordance with the terms of the New Money Financing Commitment Letter as at the time of the relevant decision (the "**NM1 Commitment Allocation**") (when combined with the NM1 Commitment Allocation held by any person with whom it or any of its Affiliates or Related Funds has entered into a sub-participation, total return swap, credit default swap or any other agreement or arrangement having an economic effect similar to a sub-participation,

total return swap or credit default swap, in each case where such transaction is entered into respect of such NM1 Commitment Allocation); and

(b) for the purposes of any decisions required to be given, or contemplated to be given, after the NM1 Initial Funding Date, New Money Tranche 1 creditors who certify at the time of the relevant decision that the face amount of the aggregate Senior Old Money Loans/Notes, Junior Old Money Loans/Notes, New Bonding Facilities, New Money Tranche 2 and New Money Tranche 3 commitments ("**Post Funding Old Money Claims**") held by it and its Affiliates or Related Funds (as well as any person with whom it or any of its Affiliates or Related Funds has entered into a sub-participation, total return swap, credit default swap or any other agreement or arrangement having an economic effect similar to a sub-participation, total return swap or credit default swap, in each case where such transaction is entered into in respect of a Post Funding Old Money Claim) is less than one third of the amount of New Money Tranche 1 commitment held by it and its Affiliates or Related Funds (until drawn and thereafter the principal amount outstanding and, in the case of New Money Notes under New Money Tranche 1, principal outstanding) (when combined with the New Money Tranche 1 commitments (until drawn and thereafter the principal amount outstanding and, in the case of New Money Notes under New Money Tranche 1, principal outstanding) held by any person with whom it or any of its Affiliates or Related Funds has entered into a sub-participation, total return swap, credit default swap or any other agreement or arrangement having an economic effect similar to a sub-participation, total return swap or credit default swap, in each case where such transaction is entered into respect of such New Money Tranche 1 commitment),

and, for the purposes of any decisions required to be given, or contemplated to be given prior to the NM1 Initial Funding Date, the determination of whether any group of creditors constitutes the Majority Qualifying NM1 Creditors or the Super Majority Qualifying Creditors, that determination shall be made by way of a calculation of the relevant majority by reference to both the Qualifying NM1 Creditors falling within paragraph (a)(1) above and by way of a calculation of the relevant majority by reference to the Qualifying NM1 Creditors falling within paragraph (a)(2) above and only if the required majority is met by both calculations will the required majority have been satisfied.

"**Restructuring Agreement**" means the restructuring agreement to be entered into between, among others, the Parent, the Anchor Funders (as defined in the New Money Financing Commitment Letter) and the other creditors listed therein as the Original Participation Creditors in form and substance satisfactory to the Parent and each Anchor Funder (as defined in the New Money Financing Commitment Letter).

"**Restructuring Completion Date**" means the date to be determined in accordance with the Restructuring Agreement on which the restructuring documentation (including the New Money Finance Documents) has become unconditional and all steps set to be out in the Restructuring Steps Plan have been completed.

"**Restructuring Steps Commencement Date**" has the meaning given to such term in Schedule 1.

"**Restructuring Steps Plan**" means the restructuring steps plan to be attached as a schedule to the Restructuring Agreement.

"**September 2014 Bank Facility**" means Spanish law governed Spanish language syndicated facility agreement dated 30 September 2014 to be detailed in the relevant schedule to the Restructuring Agreement.

"**Signing Date**" means the date on which the Restructuring Agreement is signed by the original parties to the Restructuring Agreement.

"**Standard Restructuring Terms**" means the restructuring terms applicable to Non-Consenting Creditors, summarised in Section (D) of Part 1 and detailed in the Restructuring Agreement.

"**Super Majority Qualifying NM1 Creditors**" means the Qualifying NM1 Creditors whose New Money Tranche 1 commitments (until drawn and thereafter the principal amount outstanding and, in the case of New Money Notes under New Money Tranche 1, principal outstanding) represent more than 85% of the aggregate New Money Tranche 1 commitments (until drawn and thereafter the principal amount outstanding and, in the case of New Money Notes under New Money Tranche 1, principal outstanding) of all Qualifying NM1 Creditors.

## SCHEDULE 1
## INITIAL CONDITIONS PRECEDENT

The following documents and evidence are to be in form and substance satisfactory to each of the Majority NM1/NM3 Creditors, the Majority NM2 Creditors and the Majority New Bonding Creditors and any amendments or waivers of these conditions precedents will require the approval of each such group of creditors.

| | **Initial Condition Precedent** |
|---|---|
| 1. | Written confirmation of satisfaction of all conditions precedent to the commencement of the steps necessary to implement the proposed Restructuring identified in the Restructuring Steps Plan (the date on which such written confirmation is given to be referred to in the Restructuring Agreement as the "**Restructuring Steps Commencement Date**"), which shall include:<br><br>(a) implementation of the Standard Restructuring Terms to Non-Consenting Creditors pursuant to *homologación*, English Company Voluntary Arrangement (without any amendment, modification, alteration or qualification) and any other relevant procedure in any other jurisdiction identified in the Restructuring Steps Plan;<br><br>(b) the issuance of a *homologation* ruling having the effect of (i) extending the Standard Restructuring Terms to the Non-Consenting Creditors; and (ii) protecting the Restructuring Agreement and the actions required to implement the corporate restructuring described in the Restructuring Agreement in accordance with the Fourth Additional Disposition of the Spanish Insolvency Law;<br><br>(c) an order of the bankruptcy court for the District of Delaware confirming the relevant Chapter 11 plans of reorganisation filed in the Chapter 11 proceedings of the Go Forward Chapter 11 Companies identified in the Restructuring Agreement and providing for the implementation of the Standard Restructuring Terms with respect to the relevant Chapter 11 companies (i) has been entered, (ii) is in full force and effect, and (iii) has not been modified, amended, reversed, vacated or subject to a stay; and<br><br>(d) Chapter 15 recognition (or equivalent recognition in any other jurisdiction identified in the Restructuring Steps Plan) of the homologación, the Company Voluntary Arrangement and any other relevant procedure in any other jurisdiction identified in the Restructuring Steps Plan. |

| | **Initial Condition Precedent** |
|---|---|
| | Before the Restructuring Steps Commencement Date (i) the judge has not accepted any challenge in respect of the April homologación and the homologación to be filed on or around September 2016 that may negatively affect the content or expected effects of this Restructuring as defined in this Term Sheet or the size of the debt under the Business Plan; and (ii) no other issue has arisen which may adversely affect the implementation of the Restructuring through all relevant procedures in all relevant jurisdictions (including through Chapter 11, Chapter 15 and English Company Voluntary Arrangement procedures). |
| 2. | Evidence that on the Restructuring Steps Commencement Date binding commitments for:<br><br>(a) the New Money Financing; and<br><br>(b) the New Bonding Facilities, including minimum commitments of at least EUR250m under the New Syndicated Bonding Tranche and the Roll Over Bonding Tranche,<br><br>are in force and any conditions to utilisation have been (or will, on the Restructuring Steps Commencement Date, be) satisfied, including implementation of any agreed escrow arrangements. |
| 3. | Constitutional documents, corporate authorisations (including shareholder approvals as required), powers of attorney and officer's certificates for each Obligor and shareholder. |
| 4. | Copies of all executed definitive Finance Documents (including, without limitation, the Restructuring Agreement, New Money Financing finance documents, intercreditor agreement and security documents). |
| 5. | Transaction security granted and all notices and other perfection steps delivered/taken (including any consents required from counterparties and a custody agreement, deed of acknowledgement and SEC registration rights agreement and registration statement with respect to the ABY shares). |
| 6. | The following reports:<br><br>(a) Board of directors' report, based on the advice of external experts, determining the amount of actual and contingent liabilities of members of the Group (other than an Excluded Entity) (as have been included in the Business Plan) to or in connection with the Excluded Entities, in each case quantifying the potential contingencies in respect of (i) bonding lines / bank guarantees; (ii) trade creditors with a Parent guarantee; and (iii) any other Parent guarantees. The maximum aggregate amount of liabilities in respect of (ii) and (iii) shall not exceed an amount to be agreed; |

| | **Initial Condition Precedent** |
|---|---|
| | (b) Board of directors' report, based on the advice of external experts, confirming that in respect of each company seeking to impose Standard Restructuring Terms, treatment under the Standard Restructuring Terms is better for all creditors of that company than that on a liquidation of the Group (including that company);<br><br>(c) Linklaters, S.L.P. tax structure paper in relation to the Restructuring and the Restructuring Steps Plan (including in relation to the structuring steps and transfers contemplated in the Restructuring Steps Plan) in a form reasonably acceptable to the NM1 Committee (as defined in the Restructuring Agreement), with such condition to be satisfied if the NM1 Committee (as defined in the Restructuring Agreement) is satisfied (acting reasonably and in good faith) that there are no significantly adverse cash tax costs:<br><br>(i) incurred by the NM1 Group in connection with the implementation and consummation of the Restructuring; and<br><br>(ii) likely to be incurred by the NM1 Group as a result of the sale of any of the NM1 Priority Collateral (including as a result of enforcement of security);<br><br>(d) independent confirmation that the implementation and maintenance of the structure contemplated by the Restructuring will not have an impact on the Business Plan;<br><br>(e) valuation reports from reputable independent internationally recognised valuation experts to the extent necessary or desirable to implement the Restructuring including, without limitation, in respect of the contribution of shares in A3T and intercompany receivables owed by A3T to A3TLuxco2 by the shareholders and intercompany creditors of A3T as set out in the Restructuring Steps Plan. |
| 7. | The financial model. |
| 8. | Know your customer/anti-corruption/anti-money laundering requirements of each New Money Financing creditor. |
| 9. | Business Plan and budget (including operational restructuring and implementation plan) together with a favourable report by an independent expert appointed by the Commercial Registry for the purposes of Section 71.bis.4 of the Insolvency Act and section 8.(d) of *Real Decreto 1066/2007, de 27 de julio, sobre el régimen de las ofertas públicas de adquisición de valores*. The independent expert's report must be delivered simultaneously at Signing Date. |
| 10. | Customary legal opinions. |

| | **Initial Condition Precedent** |
|---|---|
| 11. | Satisfactory Luxembourg law opinion:<br><br>(a) on the the security given in favour of New Money Tranche 2 and New Bonding Facilities, the title transfer arrangements and the NM1 Group structure; and<br><br>(b) on the security given in favour of the NM1 Priority Collateral, the title transfer arrangements and the NM1 Group structure. |
| 12. | Certified group structure chart. |
| 13. | Most recent financial statements for each Obligor. |
| 14. | Written confirmation of appointment of agents, including but not limited to, agents for the service of process, trustees in respect of any Notes, Security Agents, registrars, transfer agents, calculation agents and paying agents. |
| 15. | Cleansing announcement published. |
| 16. | Escrow accounts, NM1 DSRA and NM1 Priority Collateral Surplus Value accounts established. |
| 17. | Funds flow statement showing the flow of funds on or about the Restructuring Steps Commencement Date. |
| 18. | Payment of agreed fees (including financial and legal advisors), costs and expenses in connection with the Restructuring (including Administration Costs (as defined in the Restructuring Agreement)) from the proceeds of New Money Tranche 1A on the Restructuring Steps Commencement Date. |
| 19. | Completion of the listing of any Notes on the regulated or unregulated market of either the Luxembourg or Irish Stock Exchange has been made. |
| 20. | Confirmation that any Notes have been approved and are eligible to be cleared on an internationally recognised clearing system. |
| 21. | Receipt of relevant ISINs for any Notes. |
| 22. | Evidence of repayment of any portion of the Non-Compromised Debt to be repaid in accordance with the funds flow statement and release of any existing security (other than security expressly permitted to remain in place). |
| 23. | Evidence of any other authorisations reasonably required. |
| 24. | Appointment of the NM1 Monitor. |
| 25. | Satisfactory legal comfort from Mexican counsel to the New Money Financing creditors that no anti-trust clearances are required in Mexico or that any such clearances have been obtained. |

| | **Initial Condition Precedent** |
|---|---|
| 26. | Satisfactory resolution, including, without limitation, a review by an independent third party confirming that any resolution will not have an impact on the Business Plan of more than a level to be agreed, with respect to Mexican subsidiaries including, without limitation:<br><br>(a) the resolution of claims against Abengoa Mexico, S.A. de C.V.; and<br><br>(b) unless otherwise agreed or waived by the Majority NM1/NM3 Creditors, entry into the restructuring agreement (which shall comply with the requirements of article 71.bis.1 of the Spanish Insolvency Law) (the "**A3T HoldCo Refinancing Agreement**") in respect of the financial indebtedness of A3T HoldCo España, S.A. by virtue of which:<br><br>(i) all its intragroup creditors (i.e. Abengoa and Abengoa Greenbridge, S.A.) accept to capitalise in full its credit rights in each for shares in A3T HoldCo;<br><br>(ii) all its third party creditors accept to restructure their claims by extending their maturity to a date not earlier than 3 years after the repayment in full of New Money Tranche 1; and<br><br>(iii) A3T HoldCo undertakes to (x) contribute into A3TLuxco2 its shares in A3T and its A3T Intercompany Loans (as defined in the Restructuring Agreement) and (y) grant security over the shares in A3TLuxco2 in favour of New Money Tranche 1 and New Money Tranche 3;<br><br>(c) the judicial resolution by virtue of which the A3T HoldCo Refinancing Agreement is homologated (*autode homologación judicial*) protecting the transactions contained in paragraph (b) above;<br><br>(d) the publications of such judicial decision in the *Registro Público Concursal* and the *Boletín Oficial del Estado*; and<br><br>(e) either:<br><br>(i) if a challenge (*impugnación*) has not been filed within the period allowed for such filing, once such period has elapsed and the homologation becomes final (*firme*); or<br><br>(ii) if one or more challenges (*impugnaciones*) are filed within such period, Abengoa having provided the Restructuring Agent with copy of:<br><br>(A) the final judicial resolution (*sentencia firma*) by virtue of which the relevant challenges are dismissed in full and the above mentioned homologation is ratified and becomes final (*firme*); and<br><br>(B) the publication of such judicial resolution in the *Boletín Oficial del Estado*. |

| | **Initial Condition Precedent** |
|---|---|
| 27. | Evidence of the absence of in rem security, seizure, attachments or other liens over all material assets and rights of the Group and the NM1 Group, including those comprising the NM1 Priority Collateral and the NM2 Priority Collateral, other than permitted security to be agreed, and including evidence that security over ABY shares or A3T shares existing prior to the Restructuring Steps Commencement Date has been released by the relevant creditors on a consensual basis. |
| 28. | Satisfaction or waiver of Additional NM1 Drawdown Conditions and disbursement of New Money Tranche 1. |
| 29. | Projected compliance with the Liquidity Covenant for the 6 month period following the utilisation date. |
| 30. | Written confirmation that no member of the board of directors of ABY is resident in the UK and no other step has been taken which would be reasonably likely to cause ABY to be subject to the UK Takeover Code. |
| 31. | Satisfactory repayment or release of all indebtedness (including intercompany claims) of A3T. |
| 32. | Satisfactory mechanism for the transfer of the ABY shares into the NM1 Group in accordance with the Restructuring Steps Plan. |
| 33. | Satisfactory mechanism for the assumption of the relevant portion of the Non-Compromised Debt as New Money Tranche 1 debt by the New Money Tranche 1 borrower in accordance with the Restructuring Steps Plan. |
| 34. | Title transfer collateral arrangements being satisfactory. |
| 35. | Written confirmation from the Parent that (other than in respect of projects benefiting from local financing or from secured project financing):<br><br>(a) no breach, default or termination right is continuing or could reasonably be expected to occur or arise as a result of the Restructuring in relation to any Key Project;<br><br>(b) all documents delivered as conditions precedent are true, complete and up to date;<br><br>(c) the terms of the project documents for each Key Project (whether or not required to be delivered as a condition precedent) are consistent in all material respects with the financial model and Business Plan;<br><br>(d) the acquisition documents delivered in connection with the disposal of a Key Project contain all the material terms of the disposal of that Key Project; |

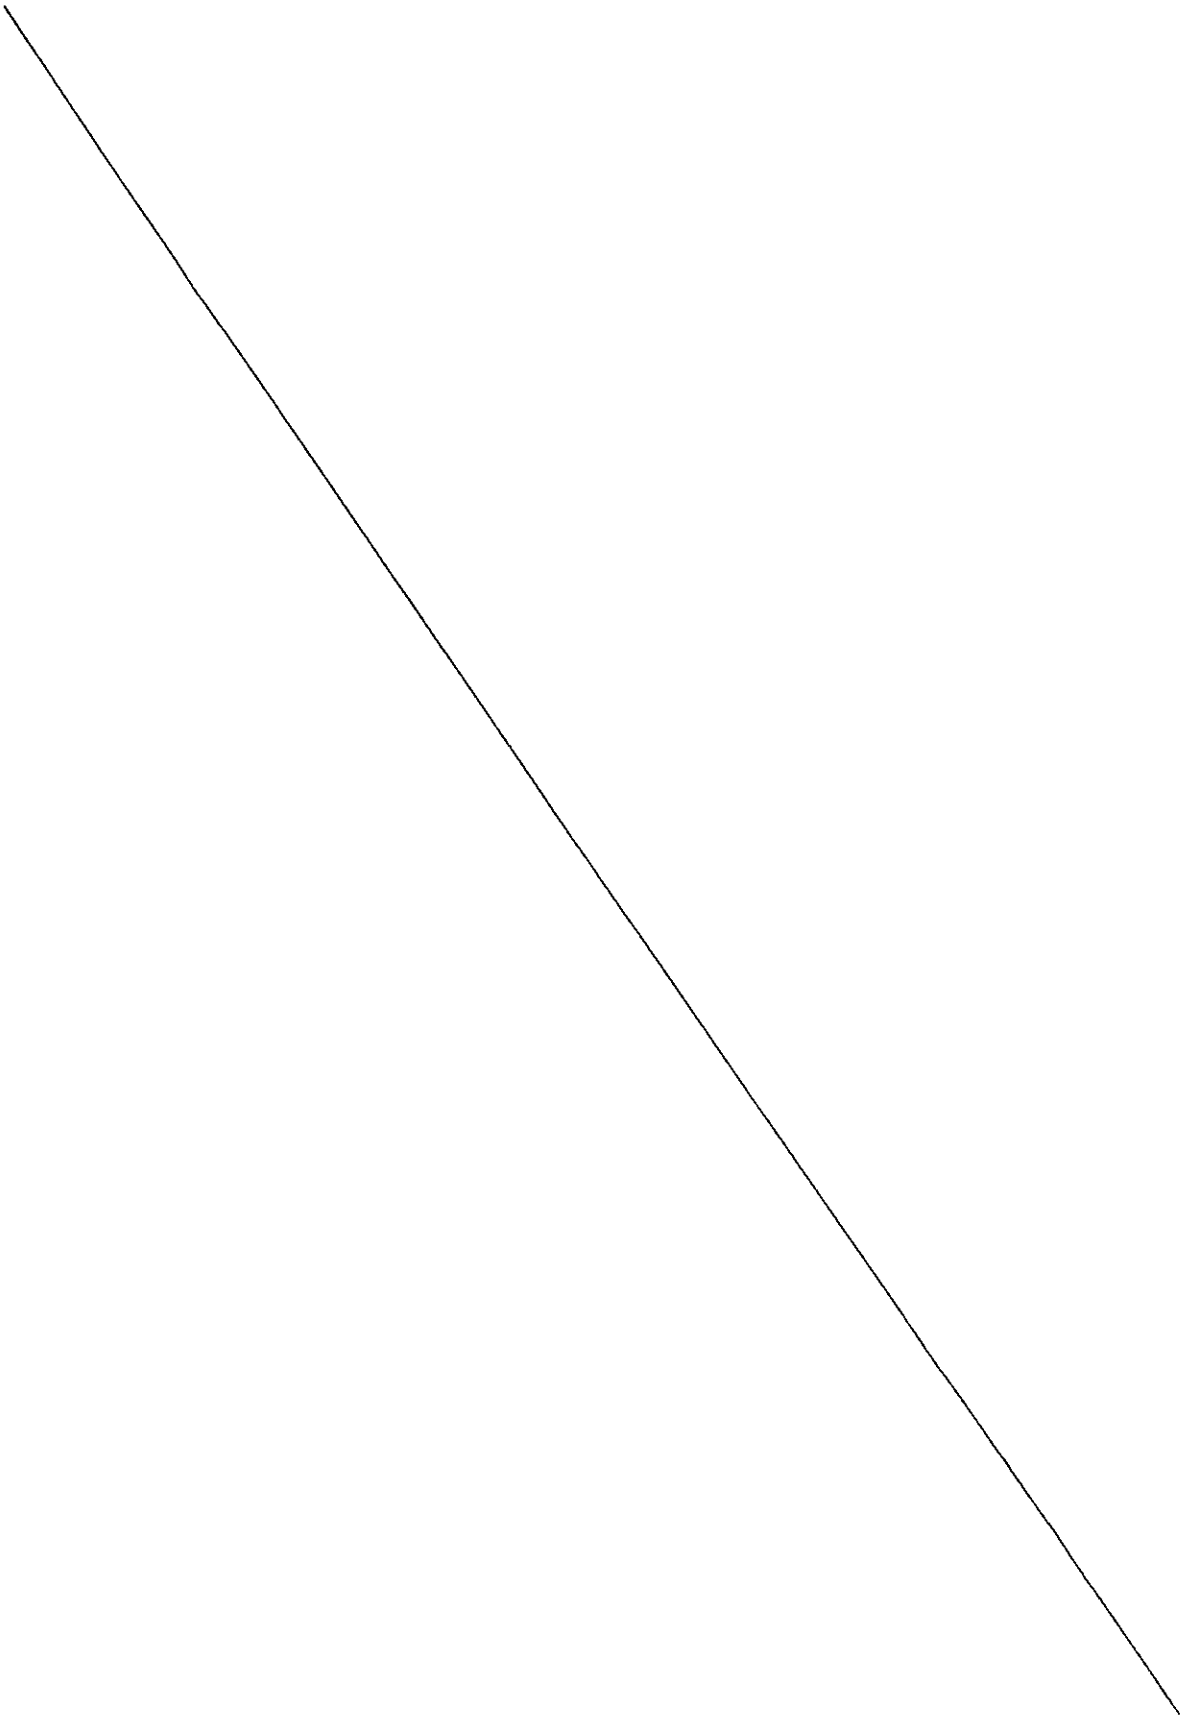
| | **Initial Condition Precedent** |
|---|---|
| | (e) the terms of the acquisition documents for each disposal (whether or not required to be delivered as a condition precedent) are consistent in all material respects with the financial model and Business Plan;<br><br>(f) no member of the Group or NM1 Group other than the relevant Key Project Entities has any material actual or contingent liability in respect of a Key Project or the obligations of the relevant Key Project Entities;<br><br>(g) all arrangements between any member of the NM1 Group or ABY and any other person (including, without limitation, a member of the Group) are on arms' length terms or better for the member of the NM1 Group or ABY and all other arrangements between members of the Group and the relevant Key Project Entities in relation to the Key Projects are on arms' length terms;<br><br>(h) no member of the Group other than an Excluded Entity has any material actual or contingent liability in connection with any Excluded Entity other than obligations owed to suppliers in an amount not exceeding an amount to be agreed and specifically disclosed as a condition precedent; and<br><br>(i) the arrangements between members of the Group and suppliers are consistent in all material respects with the financial model and Business Plan (as adjusted to reflect the improvement in terms achieved and verified as a condition precedent). |
| 36. | Evidence of implementation of the Restructuring Steps Plan, including the following:<br><br>(a) other than in respect of the Excluded Entities, successful resolution of any insolvency proceedings in relation to any member of the NM1 Group and Group other than any member of the Group which is assumed to be liquidated in the Business Plan on or before the Restructuring Steps Commencement Date;<br><br>(b) any consents and waivers (including as to change of ownership) necessary or desirable in connection with the Restructuring have been obtained;<br><br>(c) implementation of agreed equity / governance arrangements (including, without limitation, the management incentive plan, appointment of the NM1 Investor Director and the Adviser); |

| | **Initial Condition Precedent** |
|---|---|
| | (d) all other prior or simultaneous steps in the Restructuring Steps Plan (including, without limitation, implementation of the agreed holding company structure at the Group level and the establishment and ring-fencing of the NM1 Group) have been or will be completed on or before the Restructuring Steps Commencement Date;<br><br>***NM1 Priority Collateral***<br><br>*ABY*<br><br>(e) waivers required to remove from any document entered into by any member of the Group or the NM1 Group or any member of the ABY group:<br><br>(i) any obligation for the Group or the NM1 Group or any member of the Group or the NM1 Group to maintain a minimum level of shareholding in ABY;<br><br>(ii) any prepayment, repurchase or termination event or default, however described, occurring as a result of a failure by the Group or the NM1 Group or any member of the Group or the NM1 Group to have or maintain a minimum level of shareholding in ABY; or<br><br>(iii) any term of any agreement to which any member of the ABY group is a party which has been or could be breached as a result of any events or circumstances relating to a member of the Group or the NM1 Group including, but not limited to, any cross default or cross acceleration provisions or any provisions which might be breached as a result of any member of the Group or the NM1 Group taking any action in relation to insolvency proceedings or any New Money Financing creditor or Old Money creditor enforcing any security in respect of the Group or the NM1 Group;<br><br>(f) cancellation of the parent support arrangements in relation to Abengoa Concessoes Brasil Holding S.A. pursuant to which ABY has the right to withhold distributions that would otherwise be payable to members of the Group and/or NM1 Group by ABY;<br><br>*A3T*<br><br>(g) except for the transmission lines and "contrato de interconexión", evidence that all third party and governmental consents in connection with A3T necessary for the implementation of the NM1 Priority Collateral structure and any enforcement thereof have been obtained; |

| | Initial Condition Precedent |
|---|---|
| | (h) evidence that all permits, approvals, licenses, consents and contracts necessary or desirable in order to enable A3T to complete the project and for A3T to be the subject of a disposal in whole or in part are in full force and effect and are not subject to change of control or similar provisions, conditions or requirements. Regarding the interconnection agreement that A3T is required to execute with CENACE for the first delivery of energy from A3T to the National Grid, evidence of the interconnection pre-feasibility study (*estudio de prefactibilidad de interconexión*) issued by CENACE and evidence that such interconnection is feasible and duly documented, as well as evidence that A3T is in compliance with all relevant legal and technical requirements;<br><br>(i) a copy of each material project document and any other contract entered into by A3T and evidence that:<br><br>(i) the operational date in the gas supply agreement and services agreement entered into between, among others, Abengoa Cogeneración Tabasco, S. de R.L. de C.V. and Petróleos Mexicanos has been extended to at least 31 December 2017;<br><br>(ii) the EPC contract entered into between A3T and members of the Group has been amended to reset the margin to zero, eliminate existing amounts payable by A3T and provide for any future payments to be made directly by A3T to the third party contractor, and such amendments do not have a negative tax impact;<br><br>(iii) each material project document in respect of which the counterparty is a member of the Group is terminable at the option of the Majority Qualifying NM1 Creditors following an Event of Default or a breach of certain undertakings to be agreed which permit the Majority Qualifying NM1 Creditors (or NM1 Investor Director, if applicable) to appoint a replacement EPC contractor, in each case, at no cost to the NM1 Group and the Majority Qualifying NM1 Creditors are satisfied that they will be able to procure replacement contractors on satisfactory commercial terms; and<br><br>(iv) annexes 1 and 2 of the A3T gas supply contract between A3T and Pemex have been incorporated such agreement in terms not more detrimental to A3T than the ones set forth in a schedule to the New Money Tranche 1 Debt Instrument and in form acceptable to the Majority NM1/NM3 Creditors;<br><br>(j) a letter from the insurance broker of A3T confirming that satisfactory project insurances have been obtained and are in force; |

| | **Initial Condition Precedent** |
|---|---|
| | (k) delivery of documentary evidence by 31 December 2016, demonstrating the satisfaction of all conditions required in accordance with the Power Industry Law (*Ley de la Industria Eléctrica*), its Regulations and all ancillary statutory provisions to execute a Grandfathered Interconnection Agreement (*Contrato de Interconexión Legado*) with the Federal Commission of Electricity (*Comisión Federal de Electricidad),* evidence that all the conditions to execute such agreement have been duly satisfied before the *Comisión Reguladora de Energía*, and that it obtained the pre-feasibility study from the *Centro Nacional de Control de Energía (CENACE)* for the interconnection process;<br><br>(l) absence of any evidence that the correct right of way for transmission lines is likely to not be obtained by a timeline to be agreed;<br><br>(m) the constitutional documents of all relevant NM1 Group companies provide that (i) any decision to shift COMI or otherwise establish a place of business in another jurisdiction; or propose a resolution to commence insolvency proceedings, shall require consent of all directors, including the NM1 Investor Director, and (ii) the NM1 creditors shall be given advance notice of any resolution or steps to commence insolvency proceedings, such provisions to be entrenched through "golden share" arrangements;<br><br>***NM2 Priority Collateral***<br><br>*Zapotillo*<br><br>(n) a copy of each material project document and any other contract entered into by the Key Project Entities in relation to Zapotillo and evidence that the relevant project documents have been amended to reflect a satisfactory agreement between Zapotillo and Comisión Nacional del Agua and Banco Nacional de Obras y Servicios Públicos, S.N.C. respectively;<br><br>*SAW*<br><br>(o) a copy of each material project document and any other contract entered into by the Key Project Entities in relation to SAW;<br><br>(p) a copy of each acquisition document (including, without limitation, the share purchase agreement and shareholders' agreement) in relation to SAW;<br><br>(q) evidence that completion has occurred or will, on or before the Restructuring Steps Commencement Date, occur under and in accordance with the terms of the acquisition documents;<br><br>(r) evidence that the Group retains a 20% holding in SAW; |

| | **Initial Condition Precedent** |
|---|---|
| | (s) evidence that there is no liability for the Group in respect of the bridge loan agreement dated 20 July 2015 and entered into between, among others, Abengoa Vista Ridge, LLC and Sumitomo Mitsui Banking Corporation as administrative agent;<br><br>*Cárcel*<br><br>(t) a copy of each material project document and any other contract entered into by the Key Project Entities in relation to Cárcel;<br><br>***Key divestments to be completed on or before Restructuring Steps Commencement Date***<br><br>*Ashalim*<br><br>(u) a copy of each acquisition document (including, without limitation, the share purchase agreement) in relation to Ashalim;<br><br>(v) evidence that completion has occurred or will, on or before the Restructuring Steps Commencement Date, occur under and in accordance with the terms of the acquisition documents;<br><br>(w) evidence that the Group has had or will receive a minimum of EUR75m from the net proceeds of the sale of Ashalim;<br><br>*Norte III*<br><br>(x) a copy of each acquisition document (including, without limitation, the share purchase agreement) in connection with a sale of 100% of Norte III to an acceptable third party purchaser;<br><br>(y) evidence that completion has occurred or will, on or before the Restructuring Steps Commencement Date, occur under and in accordance with the terms of the acquisition documents;<br><br>(z) a copy of each material project document and any other contract entered into by the Key Project Entities in relation to Norte III and evidence that the relevant project documents have been amended to retain a member of the Group as the EPC contractor on terms consistent in all material respects with the financial model and Business Plan;<br><br>*Atacama I* |



| | **Initial Condition Precedent** |
|---|---|
| | (aa) evidence that a satisfactory agreement has been reached with EIG in connection with Atacama I pursuant to which (a) EIG is the sole shareholder of Atacama I; (b) a member of the Group as the EPC contractor on terms consistent in all material respects with the financial model and Business Plan; and (c) no member of the Group or NM1 Group has any actual or contingent liabilities in respect of any of Atacama I or any of the Key Project Entities.<br><br>***Agreement with other creditor groups***<br><br>(bb) a comprehensive third party review of the Group's arrangements with suppliers has been conducted and written confirmation has been provided from the Parent and the third party that the revised terms agreed with the suppliers reflect the cost savings set out in the Business Plan and an additional cost saving to the Group for the period until 30 June 2017 of EUR37m as against the financial model and Business Plan (such cost saving to be achieved by way of reduction, cancellation or deferral as applicable);<br><br>(cc) evidence that the financing arrangements in respect of ATN3 have been amended and extended on satisfactory terms; and<br><br>(dd) evidence that agreement has been reached such that the obligations owed to EIG by the Brazilian Excluded Entities are treated as Junior Old Money Loans/Notes in a maximum aggregate principal amount at the Restructuring Completion Date of USD135m. |

## SCHEDULE 2
## SIMPLIFIED POST-RESTRUCTURING GROUP STRUCTURE CHART

Case 16-10790-KJC Doc 548-8 Filed 09/26/16 Page 82 of 90

**SCHEDULE 17**
**NEW BONDING COMMITMENT LETTER**

**COMMITMENT LETTER**
**FOR NEW BONDING AND ROLL OVER BONDING FOR INITIAL COMMITMENT WITHOUT APPROVAL OF DOCUMENTATION**

To: **Abengoa, S.A.**
Calle Energía Solar, nº 1,
Campus Palmas Altas, Sevilla.

Madrid, 10 August 2016

Re: **New Bonding Facilities**

| |
|---|
| ***Total amount: EUR 307,755,000.*** |
| ***New Bonding tranche: EUR 209m.*** |
| ***Roll Over tranche: EUR 98m.*** |

Dear Sirs,

We refer to the commitment to provide New Bonding Facilities as described in the Term Sheet of the restructuring of Abengoa, attached as Schedule I (the "**Term Sheet**") (the "**Commitment**"). Unless a contrary indication appears, a term defined in the Term Sheet has the same meaning when used in this letter. We accept the terms and conditions of the Term Sheet and undertake to commit EUR 209m as New Syndicated Bonding Tranche and EUR 98m as Roll Over Bonding Tranche , subject only to:

(a) the compliance of all the conditions precedent listed in Schedule I of the Term Sheet so that the Restructuring Completion Date occurs according to the terms and conditions provided in the Term Sheet and the Restructuring Agreement and the draw down of the funds to be granted under the New Money Tranche 1A;

(b) CESCE approval and binding commitment to guarantee, at least, 50% of the aggregate amount committed by us under this letter. If the final guaranteed amount committed by CESCE is below 50% of such amount, the amount committed will be reduced accordingly (by reducing the amount from one or both tranches at our discretion) unless the guaranteed amount by CESCE results in an aggregate commitment below EUR 250m fact that will trigger a termination event of this Commitment and of the Restructuring itself;

(c) any call of Existing Bonding Facilities issued by any of the Initial Bonding Providers before the Signing Date will reduce the amount committed under the New Syndicated Bonding Tranche and the Roll Over Bonding Tranche (by

reducing the relevant amount from one or both tranches at the discretion of the affected Initial Bonding Provider); and

(d) the commitments under the New Money Financing Commitment Letter having not been terminated or reduced so that the amount of New Money to be provided is below than that established in the Term Sheet.

The Commitment will be distributed between the Initial New Bonding Providers as follows:

| | New Bonding (€) | Roll Over (€) | TOTAL (€) |
|---|---|---|---|
| Santander | 64,000,000 | 26,050,000 | 90,050,000 |
| Bankia | 40,000,000 | 20,910,000 | 60,910,000 |
| CACIB | 40,000,000 | 19,517,000 | 59,517,000 |
| Caixabank | 40,000,000 | 18,903,000 | 58,903,000 |
| Popular | 25,000,000 | 13,375,000 | 38,375,000 |
| **Total** | **209,000,000** | **98,755,000** | **307,755,000** |

The maximum amount of Commitments shall not exceed the total amounts for the New Syndicated Bonding Tranche and the Roll Over Bonding Tranche as provided in the chart above.

The Structuring Fee amounts to: (i) 1.00% in respect of the amount committed under the New Syndicated Bonding Tranche accrued from the date hereof and payable in cash on the date when the judge of Seville issues the *auto de homologación* that homologates the Restructuring; and (ii) 1.00% accrued from the date hereof and payable in cash on each portion of the commitments under the Roll Over Bonding Tranche on the date on which those commitments under the Roll Over Bonding Tranche are first utilised. The Issuance Fee amounts to 5.00% per annum accruing daily and payable in cash every 3 months, synchronised with the interest periods on the New Money Financing, on the amount utilised.

Subject only to the terms of the Term Sheet and the Restructuring Agreement, this letter sets out the full extent of our obligations in relation to our Commitment to the New Syndicated Bonding Tranche and the Roll Over Bonding Tranche agreements until such time as we enter into the relevant New Syndicated Bonding Tranche and the Roll Over Bonding Tranche agreements. The terms of this letter and our obligations under this letter may only be amended or modified by written agreement between us.

Likewise, it is expressly stated that the granting of the New Interim Facility and any fees pursuant thereto must be previously approved by each of us.

This letter and any non-contractual obligations arising out of or in connection with it (including any non-contractual obligations arising out of the negotiation of the

transaction contemplated by this letter) are governed by and construed in accordance with the laws of Spain and the parties submit to the courts of the city of Madrid.

## PART 1
## RESTRUCTURING TERMS AND MECHANICS

### (A) Categories of Existing Financial Indebtedness

**Non-Compromised Debt:**

(a) September 2015 Bank Facility

(b) December 2015 Bank Facility

(c) TCI Margin Loan, except to the extent previously refinanced by a New Interim Facility

(d) March 2016 Interim Facility

(e) Any further interim financing(s) entered into on or after 4 August 2016 and prior to the Restructuring Steps Commencement Date in accordance with the Restructuring Agreement, regardless of its guarantee and security package (each a "**New Interim Facility**")

**Existing Loans/Notes:**

(a) Existing NY Law Notes

(b) Existing English Law Notes

(c) September 2014 Bank Facility

(d) The (i) other Compromised Debt and (ii) Non-Spanish Debt to be Restructured of Consenting Existing Creditors, excluding the Existing Bonding Facilities

**Existing Bonding Facilities (*avales*):**

To be listed in the schedules to the Restructuring Agreement and comprising:

(a) Called Existing Bonding Facilities (being existing bonding called prior to the Signing Date); and

(b) Uncalled Existing Bonding Facilities (being existing bonding uncalled at the Signing Date),

provided that with respect to the Initial Bonding Providers, if any bonding issued by an Initial Bonding Provider prior to the date on which that Initial Bonding Provider signs the New Bonding Commitment Letter is called prior to the Signing Date, such Initial Bonding Provider's existing bonding which is called after the date on which it signs the New Bonding Commitment Letter but prior to the Signing Date will be treated as Uncalled Existing Bonding Facilities.

Definitions of each sub-category of Affected Debt and Non-Spanish Debt to be Restructured and a list of Non-Affected Debt are to be set out in the Restructuring Agreement.

The treatment of Affected Debt, including Non-Spanish Debt to be Restructured of

Consenting Existing Creditors is set out in section (C).

(B) **Post-Restructuring Capital Structure**

| | |
|---|---|
| **New Money Tranche 1:** | EUR945.1m, comprising (i) Tranche 1A, being EUR839.1m which includes the refinanced TCI Margin Loan (except to the extent previously refinanced by an New Interim Facility) and refinanced or exchanged March 2016 Interim Facility and (subject to the New Interim Facility section below) any New Interim Facility and related fees, costs and expenses, to be documented in the form of New Money Loans and New Money Notes; and (ii) Tranche 1B, being EUR 106m of principal amount comprising part of the refinanced December 2015 Bank Facility, to be documented in the form of New Money Loans. Any advance under the Non-Compromised Debt on or after the date of the New Money Financing Commitment Letter but prior to the Restructuring Steps Commencement Date will be refinanced as part of New Money Tranche 1A (subject to the New Interim Facility section below). |
| **New Money Tranche 2:** | EUR194.5m, comprising (a) the refinanced (i) principal amount of the September 2015 Bank Facility and (ii) the fees, costs and amounts other than principal under the December 2015 Bank Facility and the September 2015 Bank Facility; and (b) OID/Upfront/Structuring fees, PIK interest and back-end fees on New Money Tranche 1B and underwriting fees on New Money Tranche 2, to be documented in the form of New Money Loans. |
| **New Money Tranche 3:** | A EUR30m term facility to provide guaranteed funding for an A3T funding shortfall under certain circumstances, to be documented in the same document as New Money Tranche 1. |
| **New Bonding Facilities:** | New Bonding Facilities comprising:<br>(a) New Syndicated Bonding Tranche: a new tranche syndicated between the Initial Bonding Providers of at least EUR209m for the purpose of issuing new bonding (but not, for the avoidance of doubt, any extension, amendment or replacement of existing bonding for the same project and purpose).<br>(b) Roll Over Bonding Tranche: a roll over tranche syndicated between the Initial Bonding Providers of EUR98m for the purpose of issuing new bonding (but not, for the avoidance of doubt, any extension, amendment or replacement of existing bonding for the same project and purpose). An Initial Bonding Provider's commitment under the Roll Over Tranche will become available as and when its Uncalled |

Existing Bonding Facilities are released.

(c) New Bilateral Bonding Tranche: a new bilateral bonding tranche provided on a bilateral basis by existing creditors in respect of Existing Bonding Facilities which elect to commit on the date on which they accede to the Restructuring Agreement to provide bilateral commitments for the purpose of issuing new bonding (but not, for the avoidance of doubt, any extension, amendment or replacement of existing bonding for the same project and purpose).

Any new bond (*aval*) issued by an Initial Bonding Provider after the date on which the New Bonding Commitment Letter is signed by the Initial Bonding Providers but prior to the Restructuring Completion Date will be deemed to be part of the New Syndicated Bonding Tranche or the Roll Over Bonding Tranche (at the option of the Initial Bonding Provider).

**Consenting Existing Bonding Facilities:** Uncalled Existing Bonding Facilities provided by Consenting Existing Creditors.

**Consenting Old Money:** Up to EUR 2,700m including accrued but unpaid interest until the Signing Date divided as follows:

(a) a non-contingent tranche equal to an initial 70% reduction in the principal and accrued but unpaid interest amount of such Existing Loans/Notes and Called Existing Bonding Facilities of Consenting Existing Creditors, each calculated at the Restructuring Steps Commencement Date to be treated as Senior Old Money Loans/Notes or Junior Old Money Loans/Notes as provided in Section (C) below and subject to the additional subsequent reduction set out below; and

(b) a contingent tranche in order to fund the crystallisation of contingent claims of Consenting Existing Creditors deriving from:

(i) Uncalled Existing Bonding Facilities which are subsequently called; and/or

(ii) the enforcement of guarantees which are restructured through the Alternative Restructuring Terms,

without double counting, to be treated as Senior Old Money Loans/Notes or Junior Old Money Loans/Notes as provided in Section (C) below (and the Parent will be authorised to crystallise such guarantee claims and

effect the reduction on behalf of the relevant creditors in accordance with the Restructuring Agreement).

Therefore, both the contingent tranche and the non-contingent tranche will be divided between Junior Old Money Loans/Notes and Senior Old Money Loans/Notes following the mechanics set out in Section (C) below.

Any default interest accrued under the Existing Loans/Notes and Called Existing Bonding Facilities of Consenting Existing Creditors will be written off by the Consenting Existing Creditors when signing the Restructuring Agreement.

If the aggregate amount of the Consenting Old Money would exceed EUR 2,700m at any time after the Signing Date (because contingent claims from Consenting Existing Creditors which crystallise after the Signing Date exceed those expected in the Business Plan), the Junior Old Money Loans/Notes (whether under the contingent or the non-contingent tranche) will be subject to an additional reduction in accordance with paragraph (a) above in the amount necessary to ensure that the aggregate amount of Consenting Old Money does not at any time exceed EUR 2,700m provided that the total reduction applied to Junior Old Money Loans/Notes does not exceed 80% of their original nominal value and any subsequent contingent claims which are crystallised will be subject to the same reduction as is then applicable to the Junior Old Money Loans/Notes.

No additional reduction will apply to the Senior Old Money Loans/Notes.

**New Interim Facility:** To be repaid or (in the case of the first New Interim Facility at the option of each lender under such New Interim Facility) exchanged as part of New Money Tranche 1A other than in respect of any fees set out in such New Interim Facility documents, payment of which is expressly permitted under such New Money Interim Facility to be postponed at the option of the borrower under such facility. Any such obligations under the New Interim Facility not refinanced or exchanged as part of New Money Tranche 1A will, following the Restructuring Completion Date, be unsecured and subordinated to New Money Tranche 3, New Money Tranche 2, New Bonding Facilities and New Money Tranche 1 but rank ahead of the Senior Old Money Loans/Notes and Junior Old Money Loans/Notes. The aggregate amount of any such obligations shall not exceed EUR11m. Provided always that the New Interim Facility must be permitted under the finance documents for the September 2015 Bank Facility, December 2015 Bank Facility and March 2016 Interim Facility.

**Non-Consenting Existing Debt:** Existing Loans/Notes and Existing Bonding Facilities of (i) Non-Consenting Creditors and (ii) creditors that enter into the Restructuring Agreement and do not elect the Alternative Restructuring Terms.

**Equity:** Class A and Class B shares in the Parent in proportion to the number of shares of each class existing at the relevant time, listed on the Madrid and Barcelona Stock Exchanges (and, if so determined in accordance with Part 5, the NASDAQ stock exchange or another regulated exchange to be agreed) and owned as follows at the Restructuring Completion Date:

(a) 30% owned by the creditors in respect of New Money Tranche 1 *pro rata* to their commitments under New Money Tranche 1 as at a reference date to be determined in accordance with the Restructuring Agreement;

(b) 15% owned by the creditors in respect of New Money Tranche 2 *pro rata* to their commitments under New Money Tranche 2 as at a reference date to be determined in accordance with the Restructuring Agreement;

(c) 5% owned by the creditors in respect of New Money Tranche 3 *pro rata* to their commitments under New Money Tranche 3 as at a reference date to be determined in accordance with the Restructuring Agreement;

(d) 40% owned by the creditors in respect of (i) 70% of the Existing Loans/Notes and Called Existing Bonding Facilities of Consenting Existing Creditors (the residual 30% of which constitute Consenting Old Money), and (ii) 70% of the amount of the guarantees which are restructured through the Alternative Restructuring Terms and voluntarily crystallised by the relevant creditor (such decision to be made on the date on which the relevant creditor signs or accedes to the Restructuring Agreement and to take effect on the Restructuring Completion Date) *pro rata* to their claims thereunder.

Consenting Existing Creditors in respect of Existing Loans/Notes and Called Existing Bonding Facilities may choose to take up (i) no equity; (ii) equity in a maximum amount of 4.9% or (iii) their pro rata share of the remaining equity to be allocated to the remaining Consenting Existing Creditors in respect of Existing Loans/Notes and Called Existing Bonding Facilities taking into account paragraphs (i) and (ii). Consenting

Existing Creditors opting for paragraph (i) or (ii) above, will replace equitisation of all or part of their Existing Loans/Notes and Called Existing Bonding Facilities with an equivalent reduction in such claims.

The above allocation of equity will not prevent any Consenting Existing Creditor from (A) transferring all or part of their Consenting Old Money in accordance with the Restructuring Agreement; or (B) transferring its right to receive shares of the Parent.

(e) 5% owned by the providers of New Syndicated Bonding Tranche and the New Bilateral Bonding Tranche at the last day of the period for acceding to the Restructuring Agreement pro rata to their commitments under the New Syndicated Bonding Tranche and the New Bilateral Bonding Tranche as at a reference date to be determined in accordance with the Restructuring Agreement; and

(f) 5% owned by the existing shareholders pro rata to their existing shareholdings immediately prior to the reference date to be determined in accordance with the Restructuring Agreement with warrants in respect of up to an additional 5% of the Parent's share capital immediately prior to the Restructuring Completion Date, issued in favour of the existing shareholders pro rata to their existing shareholdings at as at a reference date to be determined in accordance with the Restructuring Agreement. Such warrants will be issued for no consideration and will be exercisable at nominal value (i.e. face value of the shares to be subscribed) within 96 months of the Restructuring Completion Date following full repayment of all outstanding amounts under the Debt Instruments.

The precise equity capitalisation mechanics are to be determined in the Restructuring Agreement and may differ from those set out in the term sheet provided that they have the same commercial effect.

(C) **Treatment of Affected Debt, including Non-Spanish Debt to be Restructured of Consenting Existing Creditors in Restructuring**

**Non-Compromised Debt Participation:**

(a) The TCI Margin Loan will be refinanced from New Money Tranche 1A (except to the extent previously refinanced by a New Interim Facility).

(b) The March 2016 Interim Facility and (subject to the New Interim Facility in Section (B) of Part 1) any New Interim Facility will be refinanced from, or exchanged

for a participation in, New Money Tranche 1A.

(c) The original principal amount of the December 2015 Bank Facility will be refinanced from New Money Tranche 1B.

(d) The principal amount of the September 2015 Bank Facility and the fees, costs and amounts other than principal under the December 2015 Bank Facility and the September 2015 Bank Facility will be refinanced from New Money Tranche 2.

**Existing Bonding Facilities (other than Non-Consenting Existing Debt):**

(a) The Called Existing Bonding Facilities of Consenting Existing Creditors will be subject to the Consenting Old Money Reduction and will, subject to the "Consenting Old Money Elevation" section below, be treated as Junior Old Money Loans/Notes under the non-contingent tranche of the Consenting Old Money.

(b) As regards the Uncalled Existing Bonding Facilities, a Consenting Existing Creditor which agrees to participate in the New Bonding Facilities on the date on which it signs or accedes to the Restructuring Agreement will be entitled to have EUR1.0 of its Uncalled Existing Bonding Facilities, if and when called, exempted from any reduction and the residual par value claim will be treated as Senior Old Money Loans/Notes under the contingent tranche of the Consenting Old Money (when called) per EUR 1.0 contribution in the New Bonding Facilities. The remaining Uncalled Existing Bonding Facilities will, if and when called, be subject to the Consenting Old Money Reduction and the residual claim will be treated as Junior Old Money Loans/Notes under the contingent tranche of the Consenting Old Money, subject to the elevation set out in the "Consenting Old Money Elevation" section below and Section (B) of Part 2.

Uncalled Existing Bonding Facilities which are uncalled as at their maturity date will expire and there will be no obligation on any provider of any such bonding facility to extend or replace any such bonding which has expired uncalled.

(c) If a Consenting Existing Creditor does not agree to participate in the New Bonding Facilities on the date on which it signs or accedes to the Restructuring Agreement then all of that creditor's Uncalled Existing Bonding Facilities, if and when called, will be subject to the Consenting Old Money Reduction and, subject to the elevation set out in Section (B) of Part 2, the

residual claim will be treated as Junior Old Money Loans/Notes under the contingent tranche of the Consenting Old Money.

**Existing Bonding Facilities unlawfully enforced according to a judicial/arbitral ruling:**

If a court or arbitral tribunal provides a final ruling that a call (whether before or after the date on which it signs or accedes to the Restructuring Agreement Date) of an Existing Bonding Facility provided by a Consenting Existing Creditor (or a group of Consenting Existing Creditors) was unlawful and orders the reimbursement of all or part of the amount paid by such Consenting Existing Creditor(s) under that Existing Bonding Facility, the relevant Consenting Existing Creditor(s) will be entitled to receive the full amount of the reimbursement pro rata to the amount paid out (the "**Reimbursement Amount**"). If the Reimbursement Amount is received prior to a final ruling, the relevant Consenting Existing Creditor receiving such amount must undertake to pay back such amount if the ruling is overturned.

If a Consenting Existing Creditor receives a Reimbursement Amount after the date on which it signs or accedes to the Restructuring Agreement, the Senior Old Money Loans/Notes or Junior Old Money Loans/Notes (as applicable) relating to the relevant Existing Bonding Facility will be automatically discharged and that Consenting Existing Creditor shall, if it holds any equity, surrender the equity received in respect of such Reimbursement Amount or, if it has transferred the equity, pay an equivalent amount of cash (based on the arm's length price at which it sold the equity) to the Parent. If the ruling is overturned, then the Consenting Existing Creditor will be entitled (a) to the same portion of Senior Old Money Loans/Notes or Junior Old Money Loans/Notes (as applicable) discharged upon receipt of the Reimbursement Amount and (b) to receive an equivalent amount of cash in respect of the equity surrendered (based on the market price at the time of the surrender) or the cash paid in respect of equity it had transferred.

**Existing Loans/Notes (other than Non-Consenting Existing Debt):**

Each Consenting Existing Creditor's Existing Loans/Notes will be subject to the Consenting Old Money Reduction and, subject to the "Consenting Old Money Elevation" section below, will be treated as Junior Old Money Loans/Notes under the non-contingent tranche of the Consenting Old Money.

**Consenting Old Money Elevation:**

If a Consenting Existing Creditor agrees, on or prior to the date on which it signs or accedes to the Restructuring Agreement, to participate in New Money Tranche 1, New Money Tranche 2, New Money Tranche 3, the New Syndicated Bonding Tranche or the New Bilateral Bonding Tranche, it will be entitled to an elevation into the Senior Old Money Loans/Notes (other than the Uncalled Existing Bonding

Facilities, even if subsequently called) of EUR1.0 (prior to the reduction contemplated in the "Consenting Old Money Reduction" section above which is to be effected to the mechanics described in the "Equity" section above) of Consenting Old Money per EUR 0.16 contribution in New Money Tranche 1, New Money Tranche 2, New Money Tranche 3, the New Syndicated Bonding Tranche and the New Bilateral Bonding Tranche.

If a Consenting Existing Creditor agrees to provide its Pro Rata Amount (as defined in the New Money Financing Commitment Letter) of New Money Tranche 1 or New Money Tranche 2 and its participation is scaled back, it will be treated for this purpose as if it had provided its Pro Rata Amount (as defined in the New Money Financing Commitment Letter).[1]

For the avoidance of doubt, the rolling over of amounts owing under the Non-Compromised Debt into the New Money Financing will constitute a participation in the New Money Financing.

Elevation of Consenting Old Money will operate with reference to affiliates and related funds rather than on an entity by entity basis provided that, in the case of any Existing Loans/Notes or Existing Bonding Facilities, totally or partially, guaranteed by ECAs/sureties as set out in the Restructuring Agreement, the guaranteed portion of the Existing Loans/Notes or Existing Bonding Facilities will be treated for these purposes as if they are held by the relevant ECA/surety rather than the lender of record. For the avoidance of doubt, the portion of the Existing Loans/Notes or Existing Bonding Facilities not guaranteed by ECAs/sureties would be deemed to be held by the relevant Consenting Existing Creditor of record. There will be no ability for a Consenting Existing Creditor to (a) front for any person other than its affiliates and related funds to enable the Consenting Existing Creditor to benefit from elevation or (b) nominate any person other than its affiliates and related funds to receive the benefit of its elevation rights.

In respect of those ECAs that are not allowed pursuant to their regulations to commit to provide new bonding/guarantees until

---

[1] For the purposes of calculating the Pro Rata Amount:

(i) the Pro Rata Amount will be equal to 15.9 per cent. of the Existing Loans/Notes of the Anchor Funder or Potential Additional Funder (as defined in the New Money Financing Commitment Letter) as at the Signing Date; and

(ii) the commitments under the New Bonding Facilities shall be capped at EUR307,000,000.

For the avoidance of doubt, any Consenting Existing Creditor committing its Pro Rata Amount will benefit from full elevation in respect of its Existing Loans/Notes as at the Signing Date.

| | |
|---|---|
| | the specific underlying project has been approved, the Restructuring Agreement will allow them to benefit from the elevation right set out above provided that within the 18 months following the Restructuring Completion Date, they provide such additional bonding/guarantee facilities in respect of projects complying with the requirements established in their regulations. Therefore, the amount guaranteed by the relevant ECA will benefit from the elevation right in accordance with the ratio set out in the first paragraph of this section as from the date of issuance of such bonding/guarantees. However, if for whatever reason new bonds/guarantees have not been provided under any portion of the relevant additional bonding/guarantee facility (even if they have been committed) within 18 months following the Restructuring Completion Date, the relevant ECA will not benefit from the above elevation right in respect of that portion of the relevant additional bonding/guarantee facility. |
| **Senior Tranche 3 Entitlement** | The New Money Tranche 3 providers as at the last day of the period for accession to the Restructuring Agreement will be entitled to an additional EUR1 of Senior Old Money Loans/Notes for each EUR1 of New Money Tranche 3 commitment. |
| **New Money Financing:** | Each existing creditor in respect of Existing Loans/Notes will, subject to U.S., EU, Spanish and any other applicable securities laws and the Transfers and Assignments section in Part 4, be offered the opportunity to participate in the New Money Financing on the terms set out in the New Money Financing Commitment Letter. The New Money Financing Commitment Letter will provide that each qualifying existing creditor will be entitled to participate *pro rata* to their holdings of Existing Loans/Notes in New Money Tranche 1 and/or New Money Tranche 2 (subject to any pro rata scale back required to reflect the fact that entities who have agreed to underwrite any portion of New Money Tranche 1 will be entitled to an allocation of at least 50% of the amount of New Money Tranche 1 underwritten in addition to their pro rata entitlement). New Money Tranche 3 will be fully underwritten with at least 50% offered to qualifying existing creditors.<br><br>Each existing creditor in respect of Existing Bonding Facilities will be offered the opportunity by the Parent to participate in the New Bilateral Bonding Tranche by agreeing to do so on the date on which it signs or accedes to the Restructuring Agreement. |
| **Non-Consenting Existing** | Each Non-Consenting Creditor's Existing Loans/Notes and |

| | |
|---|---|
| **Debt:** | Existing Bonding Facilities (if and/or when called) will be subject to the Standard Restructuring Terms or, to the extent provided in the Restructuring Agreement, the Alternative Restructuring Terms. The terms in Part 2 to Part 5 of this Term Sheet do not apply to the Non-Consenting Existing Debt (save for section (F) of Part 2 below) subject to the Standard Restructuring Terms. |

(D) **Overview of Restructuring Process**

Under the terms of the Existing Financial Indebtedness, the Restructuring requires in most (but not all) cases the consent of all of the lenders under each relevant instrument.

If unanimous consent of lenders of Existing Financial Indebtedness is not obtained, it is intended that the Restructuring will be implemented by any other means that may be effective to consummate the Restructuring, including, without limitation, by way of the following:

(a) with respect to the Parent and the 5bis Companies, a *homologación* procedure pursuant to Additional Provision Four of the Spanish Insolvency Act. The Restructuring Agreement will provide each creditor with the option (at its sole discretion) to agree to the terms applicable to Existing Financial Indebtedness other than Non-Consenting Existing Debt as further described in this Term Sheet. If a financial creditor does not enter into the Restructuring Agreement or enters into the Restructuring Agreement but fails to elect the terms applicable to Existing Financial Indebtedness other than Non-Consenting Existing Debt as described in this Term Sheet, the *homologación* will extend the Standard Restructuring Terms to such financial creditor and therefore its debt will be subject to the Standard Restructuring Terms, being a 97% reduction and a 10 year deferral of payment with a 0% coupon;

(b) with respect to U.S. existing guarantors and certain other Group companies, proceedings pursuant to Chapter 11 of the United States Bankruptcy Code;

(c) with respect to the Mexican and Brazilian existing guarantors and certain other Group companies, local insolvency/cram-down proceedings to be agreed;

(d) with respect to Abengoa Concessions Investments Limited, an English law governed Company Voluntary Arrangement pursuant to Part I of the Insolvency Act 1986; and

(e) local recognition procedures in relevant jurisdictions, including pursuant to chapter 15 of the United States Bankruptcy Code, the EU Regulation on Insolvency Proceedings (1346/2000), the Cross Border Insolvency Regulations and analogous proceedings elsewhere as required.

(E) **Initial Conditions Precedent**

Any agreement to effect the Restructuring will be subject to the terms of an agreed implementation plan and customary conditions precedent including, without limitation, the matters set out in Schedule 1 (*Initial Conditions Precedent*).

## PART 2
## POST-RESTRUCTURING COMMERCIAL TERMS: DEBT

(A) **New Money Financing**

| | |
|---|---|
| **Amount:** | EUR945.1m, comprising (i) Tranche 1A, being EUR839.1m, which includes the refinanced TCI Margin Loan (except to the extent previously refinanced by an New Interim Facility) and refinanced or exchanged Interim March 2016 Facility and (subject to the New Interim Facility in Section (B) of Part 1) any New Interim Facility and related fees, costs and expenses, to be documented in the form of New Money Loans and New Money Notes; and (ii) Tranche 1B, being EUR 106m comprising the principal amount refinanced December 2015 Bank Facility, to be documented in the form of New Money Loans.<br><br>Tranche 2: EUR194.5m, comprising (a) the refinanced (i) principal amount of the September 2015 Bank Facility and (ii) fees, costs and amounts other than principal under the December 2015 Bank Facility and the September 2015 Bank Facility and (b) OID/Upfront/Structuring fees, PIK interest and back-end fees on New Money Tranche 1B and underwriting fees on New Money Tranche 2.<br><br>Tranche 3: EUR30m. |
| **Form:** | Tranche 1A: Loan and Note.<br><br>Tranche 1B: Loan.<br><br>Tranche 2: Loan.<br><br>Tranche 3: Loan<br><br>Tranche 1A, Tranche 1B and Tranche 3 will be documented in a separate Debt Instrument to Tranche 2 or any other indebtedness. |
| **Facility/Issuance Type:** | Tranche 1: Term.<br><br>Tranche 2: Term.<br><br>Tranche 3: Term with multiple drawdowns. |
| **Purposes:** | Refinancing or replacing the Non-Compromised Debt, funding certain projects, servicing interest and fee payments on the Debt Instruments and general corporate purposes (including financial and legal advisors' fees in respect of the Restructuring), in each case in accordance with the agreed Business Plan and detailed "sources and uses", provided that EUR220m of Tranche 1 will be funded into an escrow account |

to be released only upon (a) confirmation by the NM1 Monitor that certain milestones to be agreed have been met; and (b) unless otherwise agreed by the Majority Qualifying NM1 Creditors, no default outstanding at the time of any such release, for the purpose of finalising the construction of A3T. Any amounts remaining in the escrow account on the completion of construction of A3T will be released from escrow and will be available for use in the same manner as the other Tranche 1 proceeds (i.e. for general corporate purposes in accordance with the Business Plan).

Tranche 3 will comprise a term facility granted in favour of Orphan Holdco to be available for A3T only (and not for general corporate purposes) to fund any A3T costs including, without limitation, increased construction costs, increased operating expenditure and increased commercialisation costs, provided that the NM1 Monitor or A3T reasonably expects that the proceeds will be required for the intended purpose and notifies so in writing to the New Money Tranche 3 provider. Tranche 3 providers will be required to fund utilisations in all circumstances where the utilisation conditions (as set out above) are met (including where the New Money Tranche 2, New Bonding Facilities and/or the Consenting Old Money has been accelerated), unless the New Money Tranche 1 has been accelerated.

**Currency:** EUR (provided that a portion (to be agreed) of Tranche 1A will be funded in USD).

**Borrower/Issuer:** AbeNewco1 (or, in the case of (a) New Money Tranche 1, Orphan Holdco (which will become the direct or indirect holding company of A3T and the ABY shares following the title transfer collateral arrangements) and on-lent by Orphan Holdco to ACIL Luxco2 and A3TLuxco2) and (b) New Money Tranche 3, Orphan Holdco and on-lent by Orphan Holdco to A3T.

Terms of proceeds loans from Orphan Holdco to each of ACIL Luxco2, A3TLuxco2 and A3T to be agreed.

**Guarantors:** In the case of New Money Tranche 1 and New Money Tranche 3 only, all members of the NM1 Group (other than Orphan Holdco and A3T HoldCo España S.A.).

In the case of each Tranche, all members of the Group (including, without limitation, the Parent, but excluding AbeNewco2 and AbeNewco1) save as may be agreed taking into account customary tax, legal and agreed cost/benefit exceptions and local (project finance) instrument limitations, which will guarantee the New Money Financing in the order of

priority set out in Part 4.

A3T HoldCo España S.A., AbeNewco1 and AbeNewco2 will not grant any guarantees.

For the avoidance of doubt, the members of the NM1 Group which grant guarantees will only guarantee New Money Tranche 1 and New Money Tranche 3 and not any other Tranche.

**Security:**

In the case of New Money Tranche 1 and New Money Tranche 3 only, security over all material assets of each member of the NM1 Group, (including A3T, all of the shares in A3T and all of the shares currently held by the Group in ABY, but excluding the accounts of ACIL Luxco2 and A3TLuxco2 into which the NM1 Priority Collateral Surplus Value is to be deposited or the NM1 Priority Collateral Surplus Proceeds) and security over the shares in and claims into Orphan Holdco, Abengoa Concessions Investments Limited, ACIL Luxco2, A3TLuxco2 and A3T Holdco España S.A. Certain security will be granted by way of title transfer collateral arrangements, and the New Money Tranche 1 and New Money Tranche 3 creditors will have rights of set-off and retention in respect of assets subject to such security.

In the case of New Money Tranche 2 only (along with the New Bonding Facilities), security over the accounts of ACIL Luxco2 and A3TLuxco2 into which the NM1 Priority Collateral Surplus Value is required to be deposited and the NM1 Priority Collateral Surplus Proceeds, provided that no enforcement of the security over the accounts into which the NM1 Priority Collateral Surplus Value is required to be deposited or the security over the NM1 Priority Collateral Surplus Proceeds shall be permitted until New Money Tranche 1 and New Money Tranche 3 have been repaid in full. New Money Tranche 2 only (along with the New Bonding Facilities) will benefit from security over 100% of the shares in and shareholder loans made to AbeNewco1.

In the case of each Tranche, save as may be agreed (taking into account customary tax, legal and agreed cost/benefit exceptions and local (project finance) instrument limitations), security (ranking as set out in Part 4) over (i) 100% of the shares in each member of the Group (other than AbeNewco2) and (ii) all material assets of each member of the Group (other than AbeNewco2) which is an Obligor, in each case other than the shares in and shareholder loans made to AbeNewco1 or AbeNewco2, which will not secure New Money Tranche 1 or New Money Tranche 3.

Following discharge in full of the New Money Tranche 1 and

New Money Tranche 3 and unwind of the title transfer arrangements, the relevant members of the Group shall procure that the relevant members of the NM1 Group that were subject to the title transfer arrangements grant guarantees and security in favour of the New Money Tranche 2 and New Bonding Facilities subject to customary agreed security principles.

**Upfront/ Structuring Fee:** In the case of New Money Tranche 1 and New Money Tranche 2 only:

(a) 4.00% of the portion of the total commitments at the Restructuring Completion Date which is allocated to creditors that commit by the First Acceptance Deadline (as defined in the New Money Financing Commitment Letter).

(b) (subject to the final paragraph in this section) 2.00% of the remaining total commitments at the Restructuring Completion Date.

The Upfront/Structuring Fee for New Money Tranche 1A will be retained from the proceeds of utilisation of New Money Tranche 1A.

The Upfront/Structuring Fee for each of New Money Tranche 1B and New Money Tranche 2 will accrue and be capitalised as part of New Money Tranche 2. For the avoidance of doubt, no member of the NM1 Group will have any obligations in respect of, or arising as a result of, the Upfront/Structuring Fee for New Money Tranche 1B.

In the case of New Money Tranche 3 only, Upfront/Structuring Fee of:

(a) 4.00% of the commitments under New Money Tranche 3 drawn at any time during the availability period of New Money Tranche 3; and

(b) 2.00% of the portion of New Money Tranche 3 never drawn during the availability period of New Money Tranche 3 (if any).

The Upfront/Structuring Fee for New Money Tranche 3 will accrue on the Restructuring Completion Date and will be payable in cash at maturity, or on cancellation in full, of New Money Tranche 3, pro rata to the New Money Tranche 3 commitments on the date on which the fee is payable.

The Parent may agree with a creditor to pay an Upfront/Structuring Fee of up to 4.00% of the portion of the total commitments at the Restructuring Completion Date

which that creditor agrees to assume in circumstances where the aggregate commitments under a Tranche are less than the expected total commitments under that tranche due to a failure of another creditor to fund or otherwise, as further detailed in the New Money Financing Commitment Letter.

**Underwriting Fee:** In the case of New Money Tranche 1 and New Money Tranche 2 only, 2.00% of the portion of the total commitments of any New Money Financing creditors as at the Signing Date in accordance with the New Money Financing Commitment Letter. The underwriting fee payable to the New Money Tranche 1 creditors is payable in cash whether or not the Restructuring Completion Date occurs, provided that the requisite consent threshold is achieved under the Restructuring Agreement. The underwriting fee on New Money Tranche 2 will accrue and be capitalised as part of New Money Tranche 2, and will only be payable if the Restructuring Completion Date occurs. There will be no underwriting fee in respect of New Money Tranche 3.

**Interest:**

(a) For New Money Tranche 1 and New Money Tranche 2, cash pay interest of 5.00% per annum accruing daily on the amount outstanding and payable in cash at the end of each interest period.

(b) For New Money Tranche 1 and New Money Tranche 2 PIK interest of 9.00% per annum accruing daily on the amount outstanding and capitalised and added to the principal amount of the loans/notes under the Tranche on which it accrued at the end of each interest period (and once added to the principal amount, such amount will itself bear cash pay and PIK interest at the rates set out in this section).

(c) For New Money Tranche 3, PIK interest of 7.00% on any drawn portion and 5.00% on any undrawn portion, both per annum accruing daily and capitalised and added to the principal amount of the New Money Tranche 3 at the end of each interest period (and once added to the principal amount, such amount will itself bear PIK interest at the rates set out in this section).

Cash pay interest on New Money Tranche 1 will be funded first from the ABY distributions and second from A3T distributions standing to the credit of the blocked accounts comprising part of the NM1 Priority Collateral. Thereafter, up to EUR15m of surplus ABY distributions in aggregate from the third and fourth quarters of 2016 will be available to the NM1 Group and the Group (as the Parent considers appropriate in accordance with the Business Plan) for working capital purposes. Any other surplus ABY distributions and

A3T distributions will be used to fund the NM1 DSRA and thereafter to pay interest or principal on New Money Tranche 1.

PIK interest on New Money Tranche 1B will accrue and be capitalised as part of New Money Tranche 2. For the avoidance of doubt, no member of the NM1 Group will have any obligations in respect of, or arising as a result of, the PIK interest for New Money Tranche 1B.

**Interest Periods:** 3 months, synchronised between the New Money Financing tranches and the Consenting Old Money.

**NM1 DSRA:** A debt service reserve account will be maintained by Orphan Holdco at a level reflecting an amount equal to one interest period's cash interest on New Money Tranche 1 (subject to a remedy period to be agreed if the balance falls below the required level) and used solely to service cash interest payments due on New Money Tranche 1.

**Maturity Date:** New Money Tranche 1: 47 months after the Restructuring Completion Date.

New Money Tranche 2 and New Money Tranche 3: 48 Months after the Restructuring Completion Date.

**Back-end Fee:** For New Money Tranche 1 and New Money Tranche 2, a back-end fee will be payable in cash on all repayments or prepayments made or required to be made (whether as a result of acceleration or otherwise and whether or not insolvency proceedings have commenced and/or any automatic acceleration has occurred) at the rate of:

(a) 5.00% of the amount repaid or prepaid or required to be repaid or prepaid (whether as a result of acceleration or otherwise) in respect of any amount repaid or prepaid during the period from the Restructuring Completion Date to (and including) the date falling 24 months after the Restructuring Completion Date; and

(b) 10.00% of the amount repaid or prepaid or required to be repaid or prepaid (whether as a result of acceleration or otherwise) in respect of any amount repaid or prepaid at any time after the date falling 24 months after the Restructuring Completion Date.

The New Money Tranche 1 and New Money Tranche 2 creditors will act in good faith and will not intentionally delay such prepayment or repayment until a date falling more than 24 months after the Restructuring Completion Date with the

primary purpose of increasing the applicable back-end fee.

The back-end fee on New Money Tranche 1B will accrue and be treated and capitalised as part of New Money Tranche 2. For the avoidance of doubt, no member of the NM1 Group will have any obligations in respect of, or arising as a result of, the back-end fee for New Money Tranche 1B.

**Availability Period:**

In the case of New Money Tranche 1 and New Money Tranche 2, the availability period will be from the Signing Date to and including the earlier of (1) the date specified in paragraph 9.1(b) of the New Money Financing Commitment Letter; and (2) the Restructuring Completion Date.

In the case of New Money Tranche 3, the availability period will be from the Restructuring Completion Date to and including the earlier of (a) the date on which A3T is directly or indirectly sold or otherwise transferred to a person which is not a member of the Group or a member of the NM1 Group; (b) completion of construction of A3T and; (c) one month prior to the New Money Tranche 3 Maturity Date.

New Money Tranche 3 may be cancelled at any time following the repayment in full of New Money Tranche 1 provided that an amount equal to the undrawn New Money Tranche 3 commitments is funded into an escrow account to be released in the same circumstances as New Money Tranche 3 is capable of being utilised.

**Additional NM1 Drawdown Conditions:**

(a) The average ABY share price being above USD14 during the 10 trading days before the date of utilisation of New Money Tranche 1; and the ABY shares not having been suspended from trading at any time during the 10 business days before the date of utilisation of New Money Tranche 1.

(b) Satisfaction of a liquidity covenant pursuant to which the projected (next 6 months) liquidity for the Group as at the date of utilisation of New Money Tranche 1 exceeds a minimum level to be agreed, as reported on by an independent third party approved by the Majority Qualifying NM1 Creditors.

(c) The absence of any event or circumstance that would have a material adverse impact on the development, business, assets, financial condition or prospects of A3T including, without limitation:

(i) a reduction in the last monthly average of CFE's regulated HM tariff[2] (for the avoidance of doubt, CFE's HM tariff applies to Industrial, Mid-Tension, >100 KW installed capacity offtakers) below a level to be agreed MXP/KWh;

(ii) an event or circumstances affecting the economy of any region or jurisdiction in which A3T conducts business or operates, including changes in the credit, debt, capital, securities, or financial markets (for the avoidance of doubt, including changes in interest or exchange rates);

(iii) political or regulatory changes in any jurisdiction in which A3T conducts business or operates; and

(iv) an event or circumstances generally affecting the industries in which A3T conducts business or operates,

in the case of (ii), (iii) and (iv) only, having individually or cumulatively a material adverse impact on the development, business, assets, financial condition or prospects of A3T.

The Additional NM1 Drawdown Conditions in paragraphs (a), (b) and (c) above can only be waived with the consent of the Super Majority Qualifying NM1 Creditors. If the above conditions are not met or duly waived, the Restructuring Steps Commencement Date will not occur.

**Majority Qualifying NM1 Creditors:** Any misrepresentation by a New Money Tranche 1 creditor of its status as a Qualifying NM1 Creditor will result in liquidated damages payable to the other New Money Tranche 1 creditors.

(B) **New Bonding Facilities (*línea de avales*)**

**Amount:**

(a) New Syndicated Bonding Tranche: a new tranche syndicated between the Initial Bonding Providers of at

---

[2] The monthly HM tariff will be calculated as the average of all regions' HM tariffs ("regional HM tariff", as described below), excluding Baja California and Baja California Sur, using data published by the CFE on its website on a monthly basis.

The regional HM tariff will be calculated as the sum of the following divided by the total number of hours in each month:

(i) Electricity Cost (MXP/KW), calculated as the peak, intermediate and base energy CHARGE (MXP/kwh) times the number of hours attributable to each plus;

(ii) Demand Cost (MXP/KW), calculated [ (1 / 60%) * Invoiceable Demand CHARGE (MXP /kW) ], 60% being the load factor and Invoiceable Demand charge being "Cargo por Demanda Facturable".

least EUR209m for the purpose of issuing new bonding (but not, for the avoidance of doubt, any extension, amendment or replacement of existing bonding for the same project and purpose).

(b) Roll Over Bonding Tranche: a roll over tranche syndicated between the Initial Bonding Providers of EUR98m for the purpose of issuing new bonding (but not, for the avoidance of doubt, any extension, amendment or replacement of existing bonding for the same project and purpose). An Initial Bonding Provider's commitment under the Roll Over Tranche will become available as and when its Uncalled Existing Bonding Facilities are released.

(c) New Bilateral Bonding Tranche: a new bilateral bonding tranche provided on a bilateral basis by existing creditors in respect of Existing Bonding Facilities which elect to commit on the date on which they sign or accede to the Restructuring Agreement to provide bilateral commitments for the purpose of issuing new bonding (but not, for the avoidance of doubt, any extension, amendment or replacement of existing bonding for the same project and purpose).

Any new bond (*aval*) issued by an Initial Bonding Provider after the date on which the New Bonding Commitment Letter is signed by the Initial Bonding Providers but prior to the Restructuring Completion Date will be deemed to be part of the New Syndicated Bonding Tranche or the Roll Over Bonding Tranche (at the option of the Initial Bonding Provider).

The Finance Documents will provide flexibility to raise additional bonding facilities for the purpose of issuing new bonding (but not, for the avoidance of doubt, any extension, amendment or replacement of existing bonding for the same project and purpose) subject to parameters to be agreed, provided that under no circumstances can such additional bonding facilities have recourse to the NM1 Group or the NM1 Priority Collateral whether directly or indirectly by way of subrogation. To the extent a Consenting Existing Creditor agrees to provide such new bonding, whether or not it has participated in the New Bonding Facilities, such Consenting Existing Creditor will be entitled to have EUR1.0 of its Uncalled Existing Bonding Facilities at that time (to the extent not called at the time the additional bonding facility is provided), if and when called, exempted from any reduction and the residual par value claim will be treated as Senior Old Money Loans/Notes under the contingent tranche of the Consenting Old Money (when called) per EUR 1.0

| | |
|---|---|
| | contribution by way of new bonds issued. Such Consenting Existing Creditor will not receive any equity, will not share in the transaction security and will not (other than as expressly provided in the case of ECAs) benefit from the Consenting Old Money Elevation set out in Section (C) of Part 1 above as a consequence of the provisions of such additional bonding. |
| **Form:** | New Syndicated Bonding Tranche and Roll Over Bonding Tranche: committed syndicated bonding facility. Facility agent for the New Bonding Facilities to be appointed by New Bonding Facilities creditors.<br><br>New Bilateral Bonding Tranche: committed bilateral bonding facility. |
| **Facility Type:** | Revolving. |
| **Currency:** | EUR/USD and certain other currencies to be agreed among the New Bonding Facilities creditors. |
| **Borrower:** | AbeNewco1 (provided that the member of the Group in respect of which the relevant bond is issued will also be jointly and severally liable with respect to that bond). |
| **Guarantors:** | All members of the Group (including, without limitation, the Parent, but excluding AbeNewco2, AbeNewco1 and the NM1 Group) save as may be agreed taking into account customary tax and agreed cost/benefit exceptions and local (project finance) instrument limitations, which will guarantee the New Money Financing in the order of priority set out in Part 4.<br><br>AbeNewco1 and AbeNewco2 will not grant any guarantees and will only be liable in respect of the Debt Instruments issued or borrowed by them directly. |
| **Security:** | Save as may be agreed (taking into account customary tax and agreed cost/benefit exceptions and local (project finance) instrument limitations), security over (i) 100% of the shares in and shareholder loans made to AbeNewco1 and other material members of the Group (other than AbeNewco2); (ii) all material assets of each member of the Group (other than AbeNewco2) which is an Obligor; and (iii) security over the account into which the NM1 Priority Collateral Surplus Value must be deposited by ACIL Luxco2 and A3TLuxco2 and the NM1 Priority Collateral Surplus Proceeds provided that no enforcement of the security over the accounts into which the NM1 Priority Collateral Surplus Value is required to be deposited or the security over the NM1 Priority Collateral Surplus Proceeds shall be permitted until New Money Tranche 1 and New Money Tranche 3 have been repaid in full. |

| | |
|---|---|
| **Structuring Fee:** | In respect of the New Syndicated Bonding Tranche and the New Bilateral Bonding Tranche, 1.00% payable in cash on the Restructuring Steps Commencement Date.<br><br>In respect of the Roll Over Bonding Tranche, 1.00% payable in cash on each portion of the commitments under the Roll Over Bonding Tranche on the date on which those commitments under the Roll Over Bonding Tranche are first utilised. |
| **Issuance Fee:** | 5.00% per annum accruing daily and payable in cash every 3 months, synchronised with the interest periods on the New Money Financing, on the amount utilised. |
| **Cancellation:** | At any time by the Borrower (with no fee or other additional payment) on 5 business days' notice of any New Bonding Facilities commitment.<br><br>If any Uncalled Existing Bonding Facilities of an Initial Bonding Provider are called on or before the Restructuring Completion Date, that Initial Bonding Provider will be entitled to cancel its commitment under the New Bonding Facilities (in such tranches as it determines at its discretion) in an equal amount. |
| **Treatment upon Call:** | Any call on a bond under the New Bonding Facilities will be paid immediately from the Group's cashflow. For the avoidance of doubt, non-payment of any amounts under the New Bonding Facilities will constitute an Event of Default and a drawstop unless and until paid. |
| **Maturity Date:** | 48 months after the Restructuring Completion Date. |
| **Availability Period:** | From and including the Restructuring Completion Date to and including the date falling one interest period prior to the Maturity Date. |
| **Drawdown Conditions:** | (a) No Event of Default to be continuing.<br><br>(b) In the case of the New Bonding Facilities provided by the Initial Bonding Providers only:<br><br>(i) CESCE formal approval and commitment on or before the Restructuring Steps Commencement Date to guarantee at least 50% of the aggregate amount committed by the Initial Bonding Providers under the New Bonding Facilities. If the final guaranteed amount committed by CESCE is below 50% of such amount, the amount committed by the Initial Bonding Providers will be reduced accordingly (by |

reducing the amount from one or both tranches at their discretion) unless the guaranteed amount by CESCE results in an aggregate commitment of the Initial Bonding Providers below EUR 250m in which case the Initial Bonding Providers will be entitled to terminate their New Bonding Facility commitments in full; and

(ii) a CESCE guarantee for at least 50% of the relevant bond must be in place (including approval by CESCE of the terms and conditions of the bond).

(c) Bonds requested must be used for (i) any project to be developed pursuant to the Business Plan; or (ii) any bidding processes identified by the Parent to the satisfaction of the providers of the New Bonding Facilities in the Debt Instrument for the New Bonding Facilities or otherwise approved by the Majority New Bonding Creditors. For the avoidance of doubt, New Bonding Facilities creditors will not be obliged to issue new bonding in respect of projects that are expected to be postponed or abandoned according to the then current Business Plan (including Atacama II, Atacama III, ATN III, Norte III, A4T, etc.) and will only be obliged to issue new bonds in relation to Atacama I if the conditions precedent in paragraph 36(aa) of Schedule 1 (*Initial Conditions Precedent*) has been satisfied, in each case, unless approved by the Majority New Bonding Creditors.

(d) Bonds requested must be technical bonding (*avales técnicos*), bid bonds, advance payment bonds and other types of bonds contemplated in the Business Plan or otherwise approved by the Majority New Bonding Creditors.

(e) Customary documentation for the project must be delivered to the New Bonding Facilities creditors by the Group.

(f) The project must be in an approved jurisdiction and the bond must be issued in an approved currency (such jurisdictions and countries to include, without limitation, those specifically contemplated in the Business Plan).

(g) Other customary drawdown conditions in respect of projects (including formal legal approval of the wording of each bond to be issued, with certain forms

to be pre-agreed and an ability for a 66⅔% majority of the New Bonding Facility creditors (calculated on the same basis as the Majority New Bonding Creditors) to decline to issue a particular bond in specific circumstances to be agreed).

(C) **Senior Old Money Loans/Notes**

| | |
|---|---|
| **Amount:** | Subject to decision of creditors in respect of Existing Loans/Notes and Existing Bonding Facilities. |
| **Form:** | Loan and/or Note. The Loan form will include an option to exchange the Loans for Notes on dates to be agreed. |
| **Currency:** | Same as the relevant legacy Affected Debt. |
| **Borrower/Issuer:** | AbeNewco2. |
| **Guarantors:** | Parent and existing guarantors (to the extent legally possible) of the relevant instrument plus additional guarantees to be granted (on a subordinated basis) by all other guarantors of the New Money Financing other than AbeNewco2, AbeNewco1 and the NM1 Group in the order of priority set out in Part 4. |
| **Security:** | First ranking security over 100% of the shares in AbeNewco2. Consenting Existing Creditors under Senior Old Money Loans/Notes must cancel and agree to release all existing security (if any). |
| **Interest Rate:** | (a) Cash pay interest of 0.25% per annum accruing daily on the amount outstanding and payable in cash at the end of each interest period.<br><br>(b) PIYC interest of 1.25% per annum accruing daily on the amount outstanding and payable in cash (or, to the extent that the Borrower confirms that cash available after payment of interest would be less than EUR200m, capitalised and added to the amount of the loans/notes under the Tranche on which it accrued) at the end of each interest period. |
| **Interest Periods:** | Every 3 months, synchronised with Junior Old Money Loans/Notes. |
| **Maturity Date:** | 66 months after the Restructuring Completion Date, provided that the Maturity Date of the Senior Old Money Loans/Notes and Junior Old Money Loans/Notes may be extended for up to a further 24 months with the consent of the Majority Senior Old Money Creditors. |

**Scheduled Amortisation:**

(a) on the date falling 60 months after the Restructuring Completion Date, 2.00% of the commitments under the Senior Old Money Loans/Notes as at the last day of the period for accession to the Restructuring Agreement.

(b) if the Maturity Date has been extended, on the date falling 72 months after the Restructuring Completion Date, a further 2.00% of the commitments under the Senior Old Money Loans/Notes as at the last day of the period for accession to the Restructuring Agreement.

(c) if the Maturity Date has been extended, on the date falling 84 months after the Restructuring Completion Date, a further 2.00% of the commitments under the Senior Old Money Loans/Notes as at the last day of the period for accession to the Restructuring Agreement.

Any voluntary or mandatory prepayments (other than as a result of illegality) prior to the Scheduled Amortisations will reduce the Scheduled Amortisations in inverse chronological order.

(D) **Junior Old Money Loans/Notes**

**Amount:** Subject to decision of creditors in respect of Existing Loans/Notes and Existing Bonding Facilities.

**Form:** Loan and Note. The Loan form will include an option to exchange the Loans for Notes on dates to be agreed.

**Currency:** Same as the relevant legacy Affected Debt.

**Borrower/Issuer:** AbeNewco2, fully subordinated to the Senior Old Money Loans/Notes.

**Guarantors:** Same as Senior Old Money Loans/Notes but fully subordinated to the Senior Old Money Loans/Notes.

**Security:** Second-ranking security over 100% of the shares in AbeNewco2. Consenting Existing Creditors under Junior Old Money Loans/Notes must cancel and agree to release all existing security (if any).

**Interest Rate:**

(a) Cash pay interest of 0.25% per annum accruing daily on the amount outstanding and payable in cash at the end of each interest period.

(b) PIYC interest of 1.25% per annum accruing daily and payable in cash (or, to the extent that the Borrower confirms that cash available after payment of interest would be less than EUR200m, capitalised and added to the amount of the loans/notes under the Tranche on

which it accrued) at the end of each interest period.

**Interest Periods:** Every 3 months, synchronised with Senior Old Money Loans/Notes.

**Maturity Date:** 72 months after the Restructuring Completion Date, provided that the Maturity Date of the Senior Old Money Loans/Notes and Junior Old Money Loans/Notes may be extended for up to a further 24 months with the consent of the Majority Senior Old Money Creditors.

**Scheduled Amortisation:**

(a) on the date falling 60 months after the Restructuring Completion Date, 2.00% of the commitments under the Junior Old Money Loans/Notes as at the last day of the period for accession to the Restructuring Agreement.

(b) if the Maturity Date has been extended, on the date falling 72 months after the Restructuring Completion Date, a further 2.00% of the commitments under the Junior Old Money Loans/Notes as at the last day of the period for accession to the Restructuring Agreement.

(c) if the Maturity Date has been extended, on the date falling 84 months after the Restructuring Completion Date, a further 2.00% of the commitments under the Junior Old Money Loans/Notes as at the last day of the period for accession to the Restructuring Agreement.

Any voluntary or mandatory prepayments (other than as a result of illegality) prior to the Scheduled Amortisations will reduce the Scheduled Amortisations in inverse chronological order.

(E) **Contingent Tranche**

**Amount:** Initial amount of EUR240m, subject to increase based on crystallisation of contingencies to be included in this tranche provided that the aggregate amount of Consenting Old Money does not exceed EUR 2,700m.

**Purpose:** This tranche will be used to cover the potential crystallisation of the outstanding amounts after the Consenting Old Money Reduction of contingent claims deriving from:

(a) Uncalled Existing Bonding Facilities which are subsequently called. The Consenting Old Money Reduction will apply unless the claim is exempted from such reduction pursuant to paragraph (b) of the "Existing Bonding Facilities (other than Non-Consenting Existing Debt) section of Section (C) of Part 1; and

(b) the enforcement of guarantees which are restructured through the Alternative Restructuring Terms.

**Reduction mechanics applicable to the claims included in the contingent tranche of the Consenting Old Money:**

(a) Claims deriving from Uncalled Existing Bonding Facilities held by creditors which have not agreed to participate in the New Syndicated Bonding Tranche or the New Bilateral Bonding Tranche which are subsequently called: Consenting Old Money Reduction applicable to these claims.

(b) Claims deriving from guarantees which are restructured through the Alternative Restructuring Terms: Consenting Existing Creditors of claims under guarantees which are restructured through the Alternative Restructuring Terms will have the following options:

(i) expressly agree to crystallise the claims on the date on which they sign or accede to the Restructuring Agreement and capitalise 70% of such claims (and subject to any subsequent Consenting Old Money Reduction) (in order to do so, the relevant creditors must release and subrogate the Parent in an amount of the primary claim in respect of which the relevant guarantee is granted, equal to the claim crystallised); or

(ii) if they do not agree to such crystallisation on the date on which they sign or accede to the Restructuring Agreement, suffer a direct reduction equal to the Consenting Old Money Reduction if/when the guarantees are enforced and the relevant creditor must discharge and subrogate the Parent in, at least, the same percentage of the primary claim as the Consenting Old Money Reduction applied to its guarantee in respect of which the relevant guarantee is enforced.

(F) **Non-Consenting Affected Debt**

**Amount:** Subject to decisions of existing creditors after applying the 97% reduction according to the Standard Restructuring Terms.

**Form:** Same as the relevant legacy Affected Debt.

**Currency:** Same as the relevant legacy Affected Debt.

**Borrower/Issuer:** Same as the relevant legacy Affected Debt.

| | |
|---|---|
| **Guarantors:** | Same as the relevant legacy Affected Debt. |
| **Security:** | None (unsecured). |
| **Interest Rate:** | 0% coupon. |
| **Maturity Date:** | 120 months after the Restructuring Completion Date. |

(G) **Non-Spanish Debt to be Restructured**

The Parent shall ensure that by no later than the Restructuring Completion Date all Non-Spanish Debt to be Restructured is effectively restructured substantially in accordance with the Standard Restructuring Terms or the Alternative Restructuring Terms.

## PART 3
## POST-RESTRUCTURING COMMON TERMS: DEBT

| | |
|---|---|
| **Facility Agents:** | To be appointed. |
| **Note Trustees:** | To be appointed. |
| **Security Agent:** | To be appointed. |
| **Custodian:** | To be appointed. |
| **Agency fee:** | To be agreed by the different facility agents with the relevant borrower. |
| **Voluntary Prepayments:** | Permitted on 5 business days' notice from excess cashflow (subject to a liquidity buffer of EUR200m) and subject to the "Back-end Fee" section above, provided that no voluntary prepayment of Old Money is permitted until the New Money Financing has been repaid in full and New Money Tranche 2 and New Money Tranche 3 may not be voluntarily prepaid until New Money Tranche 1 has been repaid in full. |
| **Mandatory Prepayments:** | The New Money Financing, New Bonding Facilities and (where applicable) the Consenting Old Money will benefit from the following mandatory prepayment provisions (including the back-end fee set out in the "Back-end Fee" section above): |

(a) *Illegality* (in the case of loan facilities only).

(b) *Exit*

In respect of the New Money Financing and New Bonding Facilities only, on a Change of Control or sale of all or substantially all of the assets or business of the NM1 Group and/or the Group. For this purpose, "Change of Control" means any person or group of persons acting in concert (other than permitted owners, being strategic investors which meet minimum solvency requirements in respect of sales/EBITDA and ratings to be agreed) controls more than 50% of the issued share capital of the Parent.

(c) *NM1 Priority Collateral Proceeds*

Net Proceeds from a disposal, insurance claim or termination compensation in respect of NM1 Priority Collateral will be applied in the following order:

(i) first, New Money Tranche 1; and

(ii) second, New Money Tranche 3 (if not

accelerated, as cash collateral for the aggregate amounts outstanding and available under New Money Tranche 3).

Following the full repayment and discharge of New Money Tranche 1 and New Money Tranche 3, any NM1 Priority Collateral Surplus Value or NM1 Priority Collateral Surplus Proceeds would be treated as NM2 Priority Collateral.

(d) *NM2 Priority Collateral Proceeds*

Net Proceeds from a disposal, project financing, insurance claim or termination compensation in respect of NM2 Priority Collateral (including any NM1 Priority Collateral Surplus Value or NM1 Priority Collateral Surplus Proceeds) will be applied (or its application will be procured) by AbeNewco1 in the following order:

(i) first, New Money Tranche 3 (if not accelerated, as cash collateral for the aggregate amounts outstanding and available under New Money Tranche 3) other than in the case of the NM1 Priority Collateral Surplus Value or NM1 Priority Collateral Surplus Proceeds;

(ii) second, New Money Tranche 2;

(iii) third, New Money Tranche 1 and New Bonding Facilities (if not accelerated, as cash collateral for bonds issued and available commitments under the New Bonding Facilities) on a *pari passu* basis;

(iv) fourth, Senior Old Money Loans/Notes; and

(v) fifth, Junior Old Money Loans/Notes.

(e) *Refinancing / Debt Capital Raising Proceeds*

The Net Proceeds of any refinancing or debt capital raising at the level of the NM1 Group will be applied in prepayment of New Money Tranche 1, subject to such prepayment being waived by the Majority Qualifying NM1 Creditors. Any refinancing or debt capital raising at the level of the NM1 Group will require the consent of the Majority Qualifying NM1 Creditors.

(f) *Share Capital Proceeds*

Net Proceeds of a share capital issuance by the Parent may be applied in prepayment as determined by the board of directors.

(g) *Excess Cashflow*

100% of semi-annual excess cashflow of the Group (excluding any excess cashflow relating to the NM1 Priority Collateral) will be applied in prepayment in the following order:

(i) following an Event of Default which is continuing only:

(A) first, New Bonding Facilities (if not accelerated, as cash collateral for bonds issued and available commitments under the New Bonding Facilities);

(B) second, New Money Tranche 3 (if not accelerated, as cash collateral for the aggregate amounts outstanding and available under New Money Tranche 3);

(C) third, New Money Tranche 2;

(D) fourth, New Money Tranche 1;

(E) fifth, Senior Old Money Loans/Notes; and

(F) sixth, Junior Old Money Loans/Notes.

(ii) following repayment in full of the New Money Financing and release or cash collateralisation of all bonds outstanding and any amounts available for utilisation under the New Bonding Facilities:

(A) first, Senior Old Money Loans/Notes; and

(B) second, Junior Old Money Loans/Notes.

Excess cashflow shall include cash generated by the EPC business and all dividends received from all projects within the EPC Sub-Group.

**Fair Value Opinion:** Other than in respect of a distressed disposal or a disposal pursuant to the undertakings set out in the "Undertakings in relation to A3T and ABY" section below, permitted disposals must be for cash subject to customary exceptions to be agreed

and if the higher of (1) the book value ; and (2) the directors' good faith determination of the value of the asset subject to such disposal or as the consideration for a Debt Buyback (or a series of related disposals or buybacks) are in excess of EUR50m (or EUR5m in the case of a related party transaction) and the Majority NM1/NM3 Creditors or Majority NM2 Creditors so request, the Parent will obtain a customary fairness opinion from a reputable and independent international investment bank or accounting firm (other than the then-current auditor of the Group) confirming that the consideration is fair from a financial point of view taking into account all relevant circumstances, including without limitation the method of disposal.

**Representations:**

Customary for a financing of this nature and based on the LMA Precedent supplemented as appropriate to incorporate project financing representations and other representations appropriate for this transaction.

In addition, the Parent shall give (for the benefit of all Consenting Existing Creditors) in the Restructuring Agreement certain representations and warranties to be agreed in respect of the Business Plan and its viability, the amount of contingencies contemplated therein and other material assumptions in which the Business Plan is based confirming that such assumptions have been made based on proper advice. It must be clearly stated that, without those representations and the advice behind them, Consenting Existing Creditors would not have supported nor executed the Restructuring Agreement. The board of directors resolution must specifically address these representations (including the wording agreed in the Restructuring Agreement) and expressly approve, in addition to the Business Plan, the granting of them on behalf of the Parent.

**Undertakings in relation to A3T and ABY:**

For the benefit of New Money Tranche 1 and New Money Tranche 3 only, customary undertakings for a financing of this nature and based on the LMA Precedent, relating to the NM1 Group and the ABY Group including, without limitation, (i) customary COMI undertakings in relation to each double Luxco structure in respect of ABY shares and A3T, including, without limitation, restrictions on any US, Spanish or other non-Luxembourg nexus; (ii) additional undertakings to be included in respect of commercial arrangements and intercompany loans as between the Group and the NM1 Group and the ABY Group to ring-fence the NM1 Group and the ABY Group; (iii) comprehensive ringfencing of A3T Holdco España S.A.; (iv) undertakings to include non-petition and limited recourse language in all agreement under which Orphan Holdco, ACIL Luxco1, A3TLuxco1, ACIL Luxco2,

A3TLuxco2, OrphanCo incurs any liabilities, as part of usual bankruptcy remoteness protections of a securitisation vehicle to be included in respect of Orphan Holdco, ACIL Luxco1, A3TLuxco1, ACIL Luxco 2, A3TLuxco2 and OrphanCo (but without prejudicing the New Money Tranche 1 creditors' and New Money Tranche 3 creditors' rights to enforce the NM1 Priority Collateral or the liability of any member of the NM1 Group to the New Money Tranche 1 creditors and New Money Tranche 3 creditors in respect of undertakings given under the Finance Documents); (v) holding company undertakings in respect of each of ACIL, A3T Holdco España S.A., A3TLuxco2 and ACIL Luxco2 prohibiting any activity (including the incurrence of any indebtedness) other than holding shares in its subsidiaries; (vi) general undertakings restricting members of the NM1 Group from incurring debt, granting guarantees or indemnities, disposing of assets, granting security, making any dividend or shareholder payments, making any loans or grant any credit, entering into any acquisitions/joint ventures or making any changes to the business, subject to carve outs to be agreed permitting transactions in the ordinary course of business of A3T; and (vii) project financing undertakings and other undertakings appropriate for this transaction (including without limitation, undertakings on ACIL Luxco1 to procure that the ABY Group complies with undertakings to the extent possible as a minority shareholder of ABY).

Key covenants for the benefit of the New Money Tranche 1 creditors and New Money Tranche 3 creditors will include the following:

*A3T:*

1. An obligation to secure the correct right of way for transmission lines (or to change the route as necessary). If there is a failure to meet any of the milestones set out in a timeline to be agreed, by the dates set out in such timeline, then the NM1 Investor Director will take control of the process. If the entire right of way that is required is not secured by a long stop date to be agreed then an Event of Default will arise, the decision to accelerate and enforce the NM1 Priority Collateral on the basis of this Event of Default will be a Qualifying NM1 Creditor Decision and the NM1 Investor Director may require a sale of some or all of the NM1 Priority Collateral (at any price but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below). If there are any related cost overruns, such cost overrun would result in a drawdown under the New Money Tranche 3 facility.

2. An obligation to ensure compliance with budget and schedule. Any cost overruns would result in a drawdown under the New Money Tranche 3 facility. In addition:

   (i) if the projected cost overrun exceeds the funding available under New Money Tranche 3 or there is a failure to meet any of the milestones set out in a timeline to be agreed by the dates set out in such timeline, then the NM1 Investor Director will be entitled to appoint a replacement EPC contractor; and

   (ii) if the projected cost overrun exceeds an amount to be agreed or there is a failure to meet any of the milestones set out in a timeline to be agreed by the dates set out in such timeline or a drawdown request under the New Money Tranche 3 is not met, then an Event of Default will arise, the decision to accelerate and enforce the NM1 Priority Collateral on the basis of this Event of Default will be a Qualifying NM1 Creditor Decision and the NM1 Investor Director may require a sale of some or all of the NM1 Priority Collateral (at any price but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below).

3. At any time (i) the average net price (definition to be agreed) of Acceptable PPAs must be above MXP700/MWh; and (ii) no more than a percentage to be agreed of the contracted capacity shall be subject to a net price below MXP 600/MWh. If the requirements in paragraphs (i) or (ii) are not satisfied then an Event of Default will arise, the decision to accelerate and enforce the NM1 Priority Collateral on the basis of this Event of Default will be a Qualifying NM1 Creditor Decision and the NM1 Investor Director may require a sale of some or all of the NM1 Priority Collateral (at any price but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below).

4. If there is (i) any failure to meet the milestones for the % of contracted capacity set out in a timeline to be agreed by the dates set out in such timeline then the NM1 Investor Director will be entitled to appoint external brokers and to enter into Acceptable PPAs on behalf of A3T; and (ii) any failure to meet the milestones for the percentage of contracted capacity set

out in a timeline to be agreed by the dates set out in such timeline then an Event of Default will arise, the decision to accelerate and enforce the NM1 Priority Collateral on the basis of this Event of Default will be a Qualifying NM1 Creditor Decision and the NM1 Investor Director may require a sale of some or all of the NM1 Priority Collateral (at any price but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below).

5. An obligation if required by the Majority Qualifying NM1 Creditors to dispose of ABY and/or A3T (at any price but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below) if an Event of Default is continuing or from the earlier of (i) completion of A3T; and (ii) the date falling 18 months after the Restructuring Completion Date.

For the purposes of these undertakings an "**Acceptable PPA**" means a PPA (a) under which the counterparty meets a minimum credit worthiness test to be agreed; (b) under which the term is a minimum of 10 years; and (c) which hedges out fluctuations in gas price.

***ABY:***

1. An Event of Default if the ABY share price is, at any time, below the minimum price (initially being USD14, increasing at a compounding daily rate of 15% per annum from the Restructuring Completion Date). Any decision to accelerate and enforce the NM1 Priority Collateral on the basis of this Event of Default will be a Qualifying NM1 Creditor Decision and the NM1 Investor Director may require a sale of some or all of the NM1 Priority Collateral (at any price but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below);

2. An obligation to dispose of 50% (or such lower percentage as the NM1 Investor Director may agree) of the ABY shares at any time when the ABY share price is at least USD23 if required by the NM1 Investor Director or the Majority Qualifying NM1 Creditors (provided that such shares are sold at a price of more than USD22 per share, but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below). If the requirement is not satisfied by a long stop date to be agreed then an Event of Default will arise, the decision to accelerate and enforce the NM1 Priority Collateral

relating to the ABY shares on the basis of this Event of Default will be a Qualifying NM1 Creditor Decision and the NM1 Investor Director may require a sale of some or all of the NM1 Priority Collateral relating to the ABY shares at a price of more than USD22 per share (but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below); and

3. An obligation if required by the NM1 Investor Director or the Majority Qualifying NM1 Creditors to instruct a reputable international investment bank to market and sell 100% of the ABY shares and/or the A3T shares if at any time after 31 March 2017 the share price is below USD21 (but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below).

Any decision to accelerate and enforce the NM1 Priority Collateral on the basis of these Events of Default will be a Qualifying NM1 Creditor Decision and the NM1 Investor Director may require a sale of some or all of the NM1 Priority Collateral (at any price but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below).

**Undertakings in relation to the NM1 Group:**

New Money Tranche 2, the New Bonding Facilities and the Senior Old Money Loans/Notes will have the benefit of limited additional undertakings given by the Parent with respect to the NM1 Group including:

1. a restriction on distributions, payments and disposals from A3TLuxco1 and ACIL Luxco1 to Orphan Holdco except for the purposes of servicing interest, principal or other amounts pursuant to New Money Tranche 1 and New Money Tranche 3, payment into the NM1 DSRA and other purposes specified in the Finance Documents;

2. a restriction on any indebtedness other than New Money Tranche 1, New Money Tranche 3, intra-NM1 Group indebtedness and any other indebtedness contemplated in the Business Plan or otherwise to fund (a) A3T costs including, without limitation, increased construction costs, increased operating expenditure and increased commercialisation costs and/or (b) discharge of obligations of the Group or NM1 Group in respect of any member of the ABY Group if they fail to do so; and/or (c) in repayment of New Money Tranche 1 provided that for the avoidance of doubt no such refinancing indebtedness will benefit from the title

transfer arrangements forming part of the transaction security and the title transfer arrangements will therefore be collapsed and Orphan Holdco will return the relevant shares to A3TLuxco2 and ACIL Luxco2 (as applicable) upon refinancing in full of New Money Tranche 1 and New Money Tranche 3;

3. holding company covenants in respect of the A3TLuxco2 and ACIL Luxco2 restricting trading, business activities, provision of loans or guarantees, ownership of assets and incurrence of liabilities, other than those envisaged under the relevant Debt Instruments to which it is a party as of the Restructuring Completion Date; and

4. change of business of the NM1 Group.

In addition, each of A3TLuxco2 and ACIL Luxco2 shall undertake for the benefit of the New Money Tranche 2 creditors and the New Bonding Facilities creditors that it will not waive, amend, compromise, transfer or assign any of its rights, interest or claim under or in connection with the title transfer arrangements without the consent of the New Money Tranche 2 creditors and the New Bonding Facilities creditors.

**Undertakings in relation to the Group and the Business Plan:**

For the benefit of the New Money Financing creditors (other than New Money Tranche 1 creditors) and the New Bonding Facilities creditors, customary undertakings for a financing of this nature and based on the LMA Precedent, relating to the Group (and excluding the NM1 Group).

Key covenants for the benefit of the New Money Financing creditors (other than New Money Tranche 1 creditors) and the New Bonding Facilities creditors will include the following:

1. Project financing undertakings and other undertakings appropriate for this transaction to include compliance with an agreed asset disposal program/milestones and a trade creditor liability reduction program.

2. Compliance with Business Plan (including in respect of the disposal of A3T and ABY within 24 and 18 months respectively following the Signing Date and, at least, in the amounts foreseen therein) within timeframes and amounts foreseen therein (subject to independent third party verification at the cost of the Parent).

3. Selling, general and administrative expenses shall not exceed the maximum amount foreseen in the Business Plan (subject to independent third party verification at

the cost of the Parent).

4. Commercially reasonable endeavours to obtain consent from (i) the lenders under each project finance; and, if applicable, (ii) the concession-granting authority, to the creation of junior-ranking security (as part of NM2 Priority Collateral) over the shares of the project companies owning and developing the Zapotillo, SAWS and Cárcel projects.

New Money Financing creditors and the New Bonding Facilities creditors will have the benefit of limited undertakings with respect to the Group including:

1. Holding company covenants in respect of the Parent, AbeNewco1 and AbeNewco2 restricting trading, business activities, ownership of assets and incurrence of liabilities, other than those envisaged under the relevant Debt Instruments to which it is a party and other customary exclusions in respect of such entity acting as a holding company for its subsidiaries.

2. A requirement that (i) the Parent will continue to directly own 100% of the shares in AbeNewco1 and will have no other subsidiaries; (ii) AbeNewco1 will continue to directly own 100% of the shares in AbeNewco2 and will have no other subsidiaries; and (iii) AbeNewco2 will continue to directly own the same proportion of shares in its subsidiaries as it owns at the Restructuring Completion Date.

3. Restriction on distributions, payments and other disposals from AbeNewco1 and its subsidiaries to the Parent, AbeNewco2 or the shareholders of the Parent.

4. Full subordination of claims from the Parent, AbeNewco2 or any shareholder of the Parent into AbeNewCo1 and its subsidiaries

5. Restriction on granting any additional security, guarantees or assurances against loss for any Senior Old Money Loans/Notes, Junior Old Money Loans/Notes or Standard Restructuring Terms debt (or any debt which fully or partially refinances such debt).

6. Customary requirements as to sanctions, anti-corruption and compliance with applicable laws.

7. Further assurances in relation to guarantees and security.

| | |
|---|---|
| **Information Undertakings:** | Customary for a financing of this nature and based on the LMA Precedent supplemented as appropriate to incorporate project financing information undertakings and other information undertakings appropriate for this transaction. Format and content of reporting package to be agreed with the New Money Financing creditors and the New Bonding Facilities creditors; *provided, that* the Parent will designate information provided pursuant to the information undertakings to be either "Public" (in which case the Parent will ensure that it is made public contemporaneously with its provision to New Money Financing creditors and the New Bonding Facilities creditors) or "Private" and each New Money Financing creditor and each New Bonding Facilities creditor will have the option, from time to time and in its sole discretion, to receive either category of information; *provided, further*, that it is understood and agreed that, except as set forth under "Information to noteholders" below, the Parent will have no ongoing obligation to cause any information that has been designated as "Private" to be cleansed or otherwise publicly disclosed.<br><br>To include, for a period of at least 2 years following the Restructuring Completion Date:<br><br>(a) monthly public calls in English for the CEO and/or CFO to provide a reasonably detailed update on performance against the Business Plan; and<br><br>(b) quarterly public earnings calls by the CEO and/or CFO in English. |
| **Financial Covenants:** | New Money Financing creditors and the New Bonding Facilities creditors will benefit from a liquidity covenant (the "**Liquidity Covenant**") pursuant to which the actual (last 6 month) and projected (next 6 month) liquidity for the Group exceeds a minimum level to be agreed. The Liquidity Covenant will be tested each month on a rolling 6 month basis with the first test date being the first quarter date after the Restructuring Completion Date and will be reported on by an independent third party approved by the New Money Tranche 1 creditors.<br><br>Additional financial covenants for New Money Tranche 2, New Money Tranche 3, the New Bonding Facilities and the Senior Old Money will relate to the Group (and excluding any part of the NM1 Group) and be based on the projections contained in the Business Plan (but, in the case of the Senior Old Money, with additional headroom of 25%). |
| **Events of Default** | New Money Tranche 1 creditors and New Money Tranche 3 creditors will have the benefit of events of default in respect of |

**(Loans/Notes):**

the NM1 Group and ABY only which are customary for a financing of this nature and based on the LMA Precedent supplemented as appropriate to incorporate project financing events of default and other events of default appropriate for this transaction (including, without limitation, any event or circumstance which has or is reasonably likely to have a material adverse effect on the NM1 Group or the NM1 Priority Collateral. In addition, the New Money Tranche 1 creditors and New Money Tranche 3 creditors will have the benefit of the following events of default in respect of the Group:

(a) misrepresentation to the extent that representations such as those relating to the position at the Signing Date and the Restructuring Completion Date relate to the Group as well as the NM1 Group;

(b) if the aggregate amount of Consenting Old Money exceeds EUR2,700m due to crystallisation of contingent claims of Consenting Existing Creditors after the maximum reduction has been applied, provided that no event of default will occur if the Consenting Old Money creditors restructure the Consenting Old Money by a longstop date to be agreed, whether by additional reductions or equitisation of their claims, extending the maturity of the Consenting Old Money or otherwise, in a manner that is consistent with the then current Business Plan and does not affect the NM1 Priority Collateral or the NM1 Group, in order that the aggregate amount of the Consenting Old Money does not exceed EUR2,700m;

(c) insolvency, insolvency proceedings (including, without limitation, *homologacion*) or creditor's process in relation to the Parent or any other member of the Group which contracts, provides any guarantee in respect of or provides services to any member of the NM1 Group or the ABY Group;

(d) breach of the Liquidity Covenant;

(e) use of New Money Tranche 3 for purposes other than funding A3T construction costs;

(f) non-payment by a member of the Group of amounts due to any member of the NM1 Group or ABY;

(g) breach of any of the undertakings for the benefit of the New Money Tranche 1 creditors and New Money Tranche 3 creditors listed in the "Undertakings in relation to the Group and the Business Plan" section

above; and

(h) cross-acceleration (including non-payment) with respect to financial indebtedness of the Group (with no threshold in the case of New Money Tranche 2, New Money Tranche 3, New Bonding Facilities and Consenting Old Money).

New Money Tranche 2, New Money Tranche 3, the New Bonding Facilities and the Senior Old Money will have the benefit of events of default in respect of the Group only which are customary for a financing of this nature and based on the LMA Precedent supplemented as appropriate to incorporate events of default appropriate for this transaction and including:

(a) any event or circumstance which has or is reasonably likely to have a material adverse effect on the Group or on the material assumptions or contingencies on which the Business Plan is based;

(b) breach of undertakings described in "Undertakings in relation to the Group and the Business Plan" section above;

(c) if the aggregate amount of Consenting Old Money exceeds EUR2,700m due to crystallisation of contingent claims of Consenting Existing Creditors after the maximum reduction has been applied, provided that no event of default will occur if the Consenting Old Money creditors restructure the Consenting Old Money within a grace period to be agreed, whether by additional reductions or equitisation of their claims, extending the maturity of the Consenting Old Money or otherwise, in a manner that is consistent with the then current Business Plan and does not affect the NM1 Priority Collateral or the NM1 Group, such that the aggregate amount of the Consenting Old Money does not exceed EUR2,700m;

(d) breach of the Liquidity Covenant;

(e) use of New Money Tranche 3 for purposes other than funding A3T construction costs;

(f) breach of any of the undertakings for the benefit of the New Money Financing creditors (other than New Money Tranche 1 creditors) and New Bonding Facilities creditors listed in the "Undertakings in relation to the NM1 Group" section above; and

(g) cross-acceleration (including non-payment) with respect to financial indebtedness of the Group (with no threshold in the case of New Money Tranche 1, New Money Tranche 2, New Money Tranche 3, New Bonding Facilities and Consenting Old Money).

The Junior Old Money Loans/Notes will have the benefit of events of default limited only to non-payment of Junior Old Money Loans/Notes and cross-acceleration (including non-payment) with respect to financial indebtedness of the Group (with no threshold in the case of New Money Tranche 1, New Money Tranche 2, New Money Tranche 3, New Bonding Facilities and Consenting Old Money).

**Listing:** The New Money Notes and any notes in respect of the Senior Old Money Loans/Notes and Junior Old Money Loans/Notes will be listed on a regulated or unregulated exchange.

**Information to noteholders:** Where Consenting Existing Creditors who are noteholders (the "**Consenting Noteholders**") are required to vote on a consent requested by the Parent and the relevant Consenting Noteholders will need to receive confidential, non-public information in order for them to have sufficient information to vote on such consent, the Parent shall offer to provide the Consenting Noteholders the relevant confidential, non-public information (the "**Relevant Information**") (subject to, to the extent necessary, the Consenting Noteholder having entered or entering into satisfactory confidentiality arrangements). If a Consenting Noteholder fails to (i) elect to receive the Relevant Information within a specified period after the Parent's offer (without prejudice to such Consenting Noteholder's right to request and receive the Relevant Information after such period) or (ii) respond within the later of (x) 10 business days after the Parent's initial notification of the consent request and (y) if applicable, a specified period after receipt of the Relevant Information, the aggregate nominal amount of the New Money Notes, any notes in respect of the Senior Old Money Loans/Notes and any notes in respect of the Junior Old Money Loans/Notes held by such Consenting Noteholder shall not be included when calculating whether a relevant required consent threshold has been achieved in respect of such consent.

The Parent shall use all reasonable efforts to disclose the Relevant Information as soon as reasonably practicable such that it no longer constitutes non-public information in any relevant jurisdiction.

On or any time after the occurrence of an Event of Default which is continuing, a Consenting Noteholder which has received Relevant Information may disclose such Relevant Information to the public markets as the Consenting

| | |
|---|---|
| | Noteholder considers reasonably necessary to allow it to trade any New Money Notes, any notes in respect of the Senior Old Money Loans/Notes and/or any notes in respect of the Junior Old Money Loans/Notes it holds without being in breach of any applicable laws or regulations or principles of conduct of any relevant jurisdiction. |
| **Transfers and Assignments:** | Other than in respect of New Money Tranche 3 and New Bonding Facilities, no restrictions (save for customary regulatory and securities law restrictions) following the Restructuring Completion Date.<br><br>New Money Tranche 3 creditors must be commercial banks with a rating for its long term unsecured unsubordinated debt of at least A from Standard & Poor's or A1 from Moody's. Transfers of New Money Tranche 3 commitments must be in minimum amounts of EUR5m while the New Money Tranche 1 is outstanding.<br><br>New Bonding Facilities creditors must be banks or other financial entities that provide bonding as part of their customary business.<br><br>Assignments or transfers by an Obligor of its rights and/or obligations under a Debt Instrument will be prohibited. |
| **Debt Buybacks:** | With the prior consent of the Majority New Money Creditors or following repayment in full of the New Money Financing and release or collaterisation of all bonds outstanding under the New Bonding Facilities, members of the Group may buy-back debt subject to customary parameters, including that any such debt buyback may only be made from excess cashflow (subject to a liquidity buffer of EUR200m) of the Group and will be applied as reasonably determined by the board of directors of the Parent subject to the "Fair Value Opinion" section above. |
| **Governing Law and Jurisdiction:** | Spanish law for the Restructuring Agreement and the New Bonding Facilities and New Money Tranche 2 Debt Instrument; English law and/or Spanish law for Consenting Old Money Debt Instruments; English law for each other Finance Documents (save where appropriate in relation to security documents). |
| **Miscellaneous (including Default Interest; Tax Gross Up etc):** | Tax gross up for qualifying lenders (applying customary qualifying lender criteria) of New Money Financing but not otherwise; default interest at up to an additional 5% payable in cash; customary snooze / lose and replacement of non-consenting creditor provisions. |

## PART 4
## POST-RESTRUCTURING INTERCREDITOR ARRANGEMENTS: DEBT

**Ranking of Claims:**

The unsecured claims of creditors against members of the Group (excluding members of the Group forming part of the NM2 Priority Collateral) will rank as follows:

(a) first, New Bonding Facilities (if not accelerated, as cash collateral for bonds issued and available commitments under the New Bonding Facilities);

(b) second, New Money Tranche 3 (if not accelerated, as cash collateral for the aggregate amounts outstanding and available under New Money Tranche 3);

(c) third, New Money Tranche 2;

(d) fourth, New Money Tranche 1;

(e) fifth, Senior Old Money Loans/Notes; and

(f) sixth, Junior Old Money Loans/Notes.

The unsecured claims of creditors against members of the Group forming part of the NM2 Priority Collateral will rank as follows:

(a) first, New Money Tranche 3 (if not accelerated, as cash collateral for the aggregate amounts outstanding and available under New Money Tranche 3);

(b) second, New Money Tranche 2;

(c) third, New Money Tranche 1 and the New Bonding Facilities (if not accelerated, as cash collateral for bonds issued and available commitments under the New Bonding Facilities) on a pari passu basis;

(d) fourth, Senior Old Money Loans/Notes; and

(e) fifth, Junior Old Money Loans/Notes.

The unsecured claims of creditors against members of the NM1 Group forming part of the NM1 Priority Collateral will rank as follows:

(a) first, New Money Tranche 1; and

(b) second, New Money Tranche 3 (if not accelerated, as cash collateral for the aggregate amounts outstanding and available under New Money Tranche 3).

For the avoidance of doubt, no financial creditor other than the New Money Tranche 1 creditors and the New Money Tranche 3 creditors will have any direct claim in respect of the NM1 Group or the NM1 Priority Collateral other than in respect of the NM1 Priority Collateral Surplus Proceeds and the accounts into which the NM1 Priority Collateral Surplus Value must be deposited.

Intra-group claims will be subordinated.

Security granted by members of the Group and/or the NM1 Group will rank as follows:

(a) *NM1 Priority Collateral*

(i) first, New Money Tranche 1; and

(ii) second, New Money Tranche 3 (if not accelerated, as cash collateral for the aggregate amounts outstanding and available under New Money Tranche 3),

(provided that the NM1 Priority Collateral will exclude the residual value comprising the NM1 Priority Collateral Surplus Value or NM1 Priority Collateral Surplus Proceeds which will be treated as part of the NM2 Priority Collateral).

(b) *NM2 Priority Collateral*

(i) first, New Money Tranche 3 (if not accelerated, as cash collateral for the aggregate amounts outstanding and available under New Money Tranche 3) (provided New Money Tranche 3 shall not have security over the NM1 Priority Collateral Surplus Value or NM1 Priority Collateral Surplus Proceeds);

(ii) second, New Money Tranche 2; and

(iii) third, New Money Tranche 1 (provided New Money Tranche 1 shall not have security over the NM1 Priority Collateral Surplus Value or NM1 Priority Collateral Surplus Proceeds) and New Bonding Facilities, on a *pari passu* basis.

(c) *EPC Sub-Group*

(i) first, New Bonding Facilities (if not accelerated, as cash collateral for bonds issued and available commitments under the New Bonding Facilities);

(ii) second, New Money Tranche 3 (if not accelerated, as cash collateral for the aggregate amounts outstanding and available under New Money Tranche 3);

(iii) third, New Money Tranche 2; and

(iv) fourth, New Money Tranche 1.

(d) *Old Money Collateral*

(i) first, Senior Old Money Loans/Notes; and

(ii) second, Junior Old Money Loans/Notes;

Customary treatment of creditors in the event of equitable subordination will be included as appropriate.

**Turnover:** Full turnover obligation on all creditors, with the proceeds waterfall depending on the source of the payment.

**Consenting Old Money Enforcement Rights:**

(a) *Acceleration / making demand under guarantees*

Senior Old Money Loans/Notes will be subject to a 6 month standstill on any enforcement action.

Junior Old Money Loans/Notes will be subject to a 9 month standstill on any enforcement action.

Consent of 66.67% of the Senior Old Money Loans/Notes or Junior Old Money Loans/Notes (as applicable) will be required to instruct any acceleration or enforcement of guarantees.

Notwithstanding the above, if the New Money Financing creditors accelerate or enforce guarantees in respect of the New Money Financing, the creditors of the Senior Old Money Loans/Notes and Junior Old Money Loans/Notes may take the same enforcement action against the same entity (to the extent permitted to do so under the documentation for the Consenting Old Money), provided that if the creditors in respect of the New Money Financing have notified the creditors of the Consenting Old Money that they are taking or have instructed the Security Agent to take enforcement action in relation to any Obligor or the transaction security in relation to any Obligor or its subsidiaries, no creditors of the Consenting Old Money may take any action in relation to such entity while any such enforcement action is ongoing where such action might be reasonably likely to adversely affect such enforcement action or the

question of proceeds to be realised from such enforcement action.

(b) *Security enforcement*

Consent of Majority Senior Old Money Creditors will be required to instruct any enforcement of the Old Money Collateral.

Senior Old Money Loans/Notes and Junior Old Money Loans/Notes will not be permitted to enforce the Old Money Collateral unless the New Money Financing has been repaid in full and all the bonds outstanding under the New Bonding Facilities have been released or collateralised in full.

**Relationship between Junior Old Money Loans/Notes and Senior Old Money Loans/Notes:**

The intercreditor agreement will expressly provide that no restructuring of the Junior Old Money Loans/Notes which may affect the rights and obligations of the Senior Old Money Loans/Notes creditors may be effected without the consent of the Majority Senior Old Money Creditors.

**Enforcement Rights of Other Creditors:**

(a) *New Bonding Facilities acceleration, making demand under guarantees and security enforcement*:

*Against the EPC Sub-Group:* 66.67% majority subject to a 90 day standstill (save where the New Money Financing creditors or Consenting Old Money creditors have accelerated or New Money Tranche 1 has been repaid in full).

*Against other members of the Group:* 66.67% majority, only on non-payment or where the New Money Financing creditors or Consenting Old Money creditors have accelerated, made demand under guarantees or taken other enforcement action.

(b) *New Money Financing acceleration and security enforcement*

Acceleration of New Money Tranche 1 and New Money Tranche 3, enforcement of guarantees in respect of New Money Tranche 1 and New Money Tranche 3 granted by the NM1 Group and NM1 Priority Collateral security enforcement to be controlled by the Majority NM1/NM3 Creditors (save in the case of Qualifying NM1 Creditor Decisions, where acceleration, enforcement of guarantees in respect of New Money Tranche 1 and New Money Tranche 3 and NM1 Priority Collateral security enforcement will be controlled by the Majority

Qualifying NM1 Creditors). In relation to Qualifying NM1 Creditor Decisions, the Majority Qualifying NM1 Creditors will also be entitled to require a sale of all or any part of the NM1 Priority Collateral at their discretion (at any price but subject to the "Release of Claims/Security on Enforcement and Fair Value Requirements" section in Part 4 below). If the Majority Qualifying NM1 Creditors have not exercised or waived their right to accelerate / enforce / require a sale within a period of 90 days, the Majority NM1/NM3 Creditors (ignoring for this purpose paragraph (b)(i) of the definition of Majority NM1/NM3 Creditors) may exercise such right.

The New Money Tranche 3 creditors will not have any separate rights to accelerate New Money Tranche 3 or enforce the NM1 Priority Collateral other than as part of the Majority NM1/NM3 Creditors, provided that, following an event of default under New Money Tranche 3, subject to a 90 day standstill the Majority NM3 Creditors may require any member of the Group (excluding the NM1 Group) that has granted guarantees in respect of New Money Tranche 3 to provide cash collateral in respect of the outstanding amounts under New Money Tranche 3. If no, or an insufficient amount of, cash collateral is provided, the Majority NM3 Creditors may enforce guarantees granted by the Group (excluding the NM1 Group) in respect of New Money Tranche 3 subject to a 90 day standstill (save where the New Money Tranche 1 creditors or Consenting Old Money creditors have accelerated or New Money Tranche 1 has been repaid in full).

Enforcement of guarantees granted by the Group (excluding the NM1 Group) in respect of New Money Tranche 1 to be controlled by the Majority NM1 Creditors subject to prior enforcement by New Money Tranche 2, New Bonding Facilities and/or New Money Tranche 3 (as applicable) (save where the Consenting Old Money creditors have accelerated, made demand under guarantees or taken other enforcement action and the other customary exceptions consistent with the definition of "Enforcement Action" in the LMA Precedent, including where such action is necessary to preserve the validity, existing or priority of the claim).

Acceleration of New Money Tranche 2 and enforcement of guarantees in respect of New Money Tranche 2 to be controlled by a 50.1% majority of New Money Tranche 2 creditors subject to a 90 day standstill (save where the

New Money Tranche 1 creditors or Consenting Old Money creditors have accelerated or New Money Tranche 1 has been repaid in full).

Enforcement of the NM2 Priority Collateral security to be controlled by a 50.1% majority (based on the aggregate outstanding amount) of New Money Tranche 2 and New Money Tranche 3 creditors subject to a 90 day standstill (save where the New Money Tranche 1 creditors or Consenting Old Money creditors have accelerated or New Money Tranche 1 has been repaid in full), provided that no enforcement of the security over the accounts into which the NM1 Priority Collateral Surplus Value is required to be deposited or the security over the NM1 Priority Collateral Surplus Proceeds shall be permitted until New Money Tranche 1 has been repaid in full.

Enforcement of security other than NM1 Priority Collateral, NM2 Priority Collateral and Old Money Collateral to be controlled by a 66.67% majority (based on aggregate amounts outstanding of New Bonding Facilities creditors subject to a 90 day standstill (save where the New Money Tranche 1 creditors or Consenting Old Money creditors have accelerated or New Money Tranche 1 has been repaid in full), provided that no enforcement of the security over the shares of AbeNewCo1 shall be permitted where such enforcement would have an adverse impact on ABY.

**Release of Claims / Security on Enforcement and Fair Value Requirements:**

With respect to any distressed disposal other than a distressed disposal of NM1 Priority Collateral (whether by way of enforcement of the transaction security or otherwise), the relevant Security Agent will be authorised to release or transfer claims under or in connection with the Consenting Old Money and junior-ranking secured creditors with respect to the Group (including claims of the New Money Tranche 1 creditors in respect of guarantees and security granted by members of the Group) provided that the distressed disposal is effected through a public auction, court approved process, sale by court supervised officer, competitive sales process or applying any other valuation method agreed in the transaction security documents (such agreement to be in accordance with the Restructuring Agreement) or the Security Agent has obtained an opinion from a reputable and independent international investment bank or accounting firm (other than the then-current auditor of the Group) confirming that the consideration for the distressed disposal is fair from a financial point of view taking into account all relevant circumstances, including, without limitation, the method of the disposal.

With respect to any distressed disposal of the NM1 Priority Collateral (whether by way of enforcement of the transaction security or otherwise) or a disposal pursuant to the undertakings set out in the "Undertakings in relation to A3T and ABY" section above the relevant Security Agent (or NM1 Investor Director or facility agent as applicable) will be under an obligation to the New Money Tranche 2, New Money Tranche 3 and New Bonding Facilities creditors to satisfy the following requirements:

(a) without prejudice to paragraph (b) below, with respect to NM1 Priority Collateral, to effect the disposal or enforcement through a public auction, court approved process, sale by public officer or court supervised officer, competitive sales process or applying any other valuation method agreed in the transaction security documents (such agreement to be in accordance with the Restructuring Agreement) or the Security Agent (or NM1 Investor Director or facility agent as applicable) has obtained an opinion from a reputable and independent international investment bank or accounting firm (other than the then-current auditor of the Group) confirming that the consideration for the disposal is fair from a financial point of view taking into account all relevant circumstances, including, without limitation, the method of disposal; or

(b) at the option of the Security Agent (or the NM1 Investor Director or facility agent, as applicable) as an alternative to the requirements in paragraph (a) above with respect to disposal or enforcement of the ABY shares only, to effect the disposal or enforcement at a value determined:

(i) with reference to a marketing process in respect of all or part of the ABY shares conducted at or around the time or enforcement or disposal (or as soon as reasonably practicable (having regard to all of the circumstances including, without limitation, the practicalities of marketing the ABY shares arising from relevant securities law and regulation) following the date of the disposal or enforcement) by an independent internationally recognised investment bank appointed by or on behalf of the Security Agent (or NM1 Investor Director or facility agent as applicable); and/or

(ii) with respect to an enforcement (including appropriation) other than by way of disposal of ABY shares, by applying a discount to the market price of the relevant ABY shares which

takes account of all information which is available to the Security Agent (or NM1 Investor Director or facility agent as applicable) in its capacity as such, whether publicly or otherwise, and considered by the Security Agent (or NM1 Investor Director or facility agent as applicable) acting in good faith to be relevant to such determination,

and the Security Agent will be authorised to release or transfer claims (including with respect to New Money Tranche 3) in relation to the NM1 Group and the NM1 Priority Collateral.

The release of claims and security enforcement with respect to the NM1 Group and NM1 Priority Collateral will be separately regulated by an intercreditor agreement involving the New Money Tranche 1 creditors, the New Money Tranche 3 creditors and the members of the NM1 Group, provided that the New Money Tranche 2 Security Agent and the New Bonding Facilities Security Agent will be a party to this intercreditor agreement solely for the purpose of benefiting from the protection set out in this section.

**NM1 Priority Collateral Surplus Value:**

The accounts of A3T Luxco2 and ACIL Luxco2 into which the cash proceeds of NM1 Priority Collateral Surplus Value must be deposited will be subject to an account bank arrangement pursuant to which the only deposits that may be made into such accounts are the deposit of NM1 Priority Collateral Surplus Value by the NM1 Priority Collateral security agent.

NM1 Priority Collateral Surplus Value must be returned in the form of cash and/or return of NM1 Priority Collateral (provided that the collateral returned is not a shareholding of less than 100% in any of the NM1 Group members) but not alternative/substitute securities or assets.

## PART 5
## POST-RESTRUCTURING TERMS AND GOVERNANCE: EQUITY

**Shares**

The intention is to capitalise amounts to achieve the equity allocation described in Part 1 of the Term Sheet and collapse the dual class shares of the Parent.

The capitalisation will be executed by means of share capital increases to offset credits (*aumento por compensación de créditos*) through the issue of, and subscription to, Class A and Class B shares proportionally to the number of shares of each class existing at that time.

The collapse of the dual-class shares into one single class of ordinary shares will be submitted for approval at the same shareholders' meeting of the Parent as the capitalization under a separate agenda item immediately following the agenda item dealing with the capitalisation.

A separate class vote of each of Class A and Class B shares will be required to approve the collapse of the two classes.

If the dual-class collapse resolution is not approved, the dual-class share structure will remain in place.

A management incentive plan will be put in place on terms approved by the Majority New Money Creditors. The management incentive plan will, among other things, incentivise:

(a) repayment of New Money Tranche 1, New Money Tranche 2 and full payment or release of bonds issued under the Bonding Facilities, as well as avoiding utilisation of New Money Tranche 3;

(b) completion of A3T, NM2 Priority Collateral and other projects comprising collateral on time and on budget; and

(c) achieving any outstanding change of control and cross-default waivers and other ring-fencing steps with respect to ABY. The board of directors of the Parent will be entitled to issue shares as part of the management incentive plan up to a maximum amount to be determined by the general shareholders meeting.

**Warrants**

Warrants will be issued to the existing shareholders of the Parent as described in Part 1 of this Term Sheet. Warrant issuance will require:

(a) a directors' report on the conversion and anti-dilution mechanics (confirming that the dilution is no greater than it would have been had the shareholders received an additional 5% of the shares in the Parent on the Restructuring Completion Date); and

(b) a report from an independent expert to be appointed by the commercial registry on the directors' report.

**Corporate Governance and Board Composition**

New by-laws and new regulations of the board of directors of the Parent will need to be approved in order to comply with the most recent Good Governance Code of Listed Companies published by CMNV (and will, among other things, provide for a majority of the board of directors of the Parent to be independent directors).

In addition to a technical improvement, the new by-laws will establish, among other corporate governance principles, the separation of the roles of chairman of the board of directors of the Parent and of chief executive officer of the Group and will include a more balanced regulation on the remuneration of directors.

The following board observer may be appointed to the board of directors of the Parent:

(c) the Majority Qualifying NM1 Creditors may appoint one board observer;

(d) the Majority NM1 Creditors may appoint one board observer; and

(e) the Majority NM2 Creditors may appoint one board observer.

Fees and other costs of board observers will be borne by relevant creditors (or relevant majority of creditor) requiring the observer.

Board composition of Orphan Holdco and A3T to be agreed by the Majority Qualifying NM1 Creditors.

In order to facilitate the Restructuring process and ensure that the Parent operates in a manner consistent with the Business Plan and meets the highest standards of corporate governance, the Parent has proposed to undertake certain actions and comply with certain requirements. At the request of the Parent, such actions and requirements will be included in the Restructuring Agreement as follows:

(a) within the context of the Restructuring and until its implementation, the Parent will appoint an independent individual as adviser to the board of directors (the "**Adviser**") for matters related with the Business Plan (specifically including consistency of disinvestments and cash uses with the Business Plan during the interim period) and the fulfilment of the conditions precedent for the effectiveness of the Restructuring Agreement. The Adviser shall not have any executive or management functions; it will only be available by both the Parent and its creditors to verify and confirm whether the actions carried out by the Parent during the interim period are consistent with the Business Plan and the conditions precedent to the Restructuring are being met and complied with. The removal, lack of delivery of information and/or any other impediments to the exercise of its roles by the Adviser, shall be deemed to constitute a termination event under the Restructuring Agreement. The Adviser is to be appointed prior to the Signing Date, at the proposal of the human resources firm Spencer Stuart (the "**Consultant**"), which has been hired by the Parent for these purposes;

(b) until a new board of directors is appointed once the Restructuring Agreement has been approved by the Seville Court through the "homologación judicial", any removal of members of the current board of directors (as the one responsible for launching the restructuring proposal contained in the Restructuring Agreement) or of the roles of

their members shall be deemed to constitute a termination event under the Restructuring Agreement; and

(c) a general shareholders' meeting of the Parent is to be called and take place as soon as the Restructuring Agreement has been approved by the Seville Court through the "homologación judicial", in which agenda the appointment of new members of the board of directors will be included. Such general shareholders' meeting shall appoint a completely new board of independent directors, following a proposal made by the Consultant. If any of these actions are not carried out within the terms above, a termination event under the Restructuring Agreement will be deemed to have occurred.

**NM1 Monitor / NM1 Investor Director – NM1 Group**

The Majority Qualifying NM1 Creditors will be entitled to appoint and remove the NM1 Investor Director.

The Majority Qualifying NM1 Creditors will be entitled to monitoring rights to be agreed in respect of the NM1 Priority Collateral including, without limitation, the appointment of an NM1 Monitor.

The senior management team of members of the NM1 Group proposed by the board must be acceptable to the Majority Qualifying NM1 Creditors.

**Other Governance Arrangements**

Board to consider the Parent becoming a US registrant and, if requirements are met, admission to listing of the shares of the Parent on the NASDAQ Stock Exchange or another regulated exchange to be agreed in addition to maintaining the list of the Madrid and Barcelona Stock Exchanges.

The arrangements in relation to notification for insolvency filings and protection against COMI changes described in Schedule 1 will be maintained.

## PART 6
## DEFINITIONS

"**A3T**" means Abent 3T, S. de R.L. de C.V., a company incorporated in Mexico.

"**A3TLuxco1**" means a newly incorporated Luxembourg special purpose vehicle company (s.à r.l) to be fully-owned by (a) prior to the title transfer collateral arrangements, A3TLuxco2 and (b) following the title transfer collateral arrangements, Orphan Holdco, and that will act as the holding company for A3T.

"**A3TLuxco2**" means a newly incorporated Luxembourg special purpose vehicle company (s.à r.l) to be fully-owned by A3T Energia S.A, A3T Holdco España S.A. and Abengoa Mexico S.A and that will, prior to the title transfer collateral arrangements, own the 100% shares in A3TLuxco1.

"**AbeNewco2**" means a newly incorporated Spanish special purpose vehicle company (*sociedad anónima*) to be fully-owned by Parent and that will own the 100% shares in AbeNewco1.

"**AbeNewco1**" means a newly incorporated Spanish special purpose vehicle company *sociedad anónima*) to be fully-owned by AbeNewco2 and that will hold (i) all shares and participations currently owned by Parent in its direct subsidiaries and (ii) any other Parent's asset that is capable of being contributed without consent of holders of liabilities in respect of that asset.

"**ABY**" means Atlantica Yield plc (previously Abengoa Yield plc), a public limited company incorporated in England with company number 08818211 having its registered office at Great West House (GW1), Great West Road, Brentford, Middlesex, Greater London, United Kingdom, TW8 9DF.

"**ABY Group**" means ABY and its subsidiaries.

"**ACIL Luxco2**" means a newly incorporated Luxembourg special purpose vehicle company (s.à r.l) to be fully-owned by Abengoa Concessions Investments Limited and that will, prior to the title transfer collateral arrangements, own the 100% shares in ACIL Luxco1.

"**ACIL Luxco1**" means a newly incorporated Luxembourg special purpose vehicle company (s.à r.l) to be fully-owned by (a) prior to the title transfer collateral arrangements, ACIL Luxco2 and (b) following the title transfer collateral arrangements, Orphan Holdco, and that will own the ABY shares currently owned by Abengoa Concessions Investments Limited.

"**Alternative Restructuring Terms**" means the restructuring terms described (without limitation) in Sections (B) and (C) of Part 1; Sections (D), (E) and (F) of Part 2; Part 3 and Part 4 of this Term Sheet.

"**Brazilian Excluded Entities**" means each member of the Group not forming an integral part of the future Business Plan and identified as such in the Restructuring Steps Plan.

"**Bioenergy Excluded Entities**" means each member of the Group not forming an integral part of the future Business Plan and identified as such in the Restructuring Steps Plan.

"**Business Plan**" means the "Updated Viability Plan and Restructuring Proposal" prepared and approved by the board of directors of the Parent on 24 May 2016 with external advice from its financial and legal advisors.

"**Chilean Excluded Entities**" means each member of the Group not forming an integral part of the future Business Plan and identified as such in the Restructuring Steps Plan.

"**Consenting Existing Creditors**" means Existing Creditors who sign or accede to the Restructuring Agreement in accordance with its terms and elect for the Alternative Restructuring Terms.

"**Consenting Old Money Reduction**" means the initial 70% reduction in the principal and accrued but unpaid interest applicable to the Existing Loans/Notes and Existing Bonding Facilities, any subsequent additional reduction set out in the "Consenting Old Money" section of Section (B) of Part 1, and any further reduction agreed by the Consenting Old Money creditors.

"**Debt Instruments**" means the principal financing documents for the New Money Financing, the New Bonding Facilities and the Consenting Old Money.

"**EPC Sub-Group**" means the Group other than the NM2 Priority Collateral and the Old Money Collateral (and, for the avoidance of doubt, excluding the NM1 Group).

"**Excluded Entities**" means the Brazilian Excluded Entities, the Chilean Excluded Entities and the Bioenergy Excluded Entities.

"**Existing Creditors**" means creditors in respect of Affected Debt.

"**Existing English Law Notes**" means the existing English law governed notes to be detailed in the relevant schedule of the Restructuring Agreement.

"**Existing NY Law Notes**" means the existing New York law governed notes to be detailed in the relevant schedule of the Restructuring Agreement.

"**Finance Documents**" means the Restructuring Agreement, the Debt Instruments and related financing documents identified as such in the Debt Instruments (including without limitation intercreditor agreements, security documents and fee letters).

"**Group**" means the Parent and its subsidiaries but excluding the NM1 Group.

"**Initial Bonding Providers**" means Banco Popular Español, S.A., Banco Santander, S.A., Bankia, S.A., Caixabank, S.A. and Credit Agricole Corporate and Investment Bank, Sucursal en España.

"**Key Project Entity**" means:

(c) with respect to A3T, Abent 3T S.A.P.I. de C.V.;

(d) with respect to A4T, ACC 4T S.A.P.I. de C.V.;

(e) with respect to Norte III, Abeinsa Juárez Norte III S.A. de C.V.;

(f) with respect to Zapotillo, Concesionaria del Acueducto de Zapotillo S.A. de C.V.;

(g) with respect to SAW, Abengoa Vista Ridge LLC;

(h) with respect to Cárcel, Unidad Punta de Rieles S.A.;

(i) with respect to ATN3, ATN3, S.A.;

(j) with respect to Dgen, Dgen Transmission Co., Ltd.;

(k) with respect to Delany, DCR Transmission LLC; and

(l) with respect to Atacama I, CSP Atacama Uno, S.A. and PV Atacama Uno, S.A.,

and, in each case, such other special purpose shareholders of those entities as may be agreed.

"**Key Projects**" means the projects referred to in the Business Plan as A3T, A4T, Norte III, Zapotillo, ATN3, Cárcel, Dgen, Delaney, Atacama I and SAW.

"**Liquidity Covenant**" has the meaning given to such term in the Financial Covenant section in Part 3.

"**LMA Precedent**" means, as applicable, the Loan Markets Association's recommended form of facilities agreement for leveraged finance transactions (senior/mezzanine) and/or the recommended form(s) of intercreditor agreement.

"**Majority New Bonding Creditors**" means New Bonding Facilities creditors whose commitments represent more than 50% of the aggregate New Bonding Facilities commitments.

"**Majority New Money Creditors**" means each of (a) the Majority Qualifying NM1 Creditors; and (b) New Money Financing creditors who represent more than 50% of the aggregate New Money Financing.

"**Majority NM1 Creditors**" means both (a) the Majority Qualifying NM1 Creditors and; (b) the New Money Tranche 1 creditors whose aggregate New Money Tranche 1 commitments (until drawn and thereafter the principal amount outstanding and, in the case of New Money Notes, principal outstanding) represent more than 50% of the aggregate New Money Tranche 1 commitments (until drawn and thereafter the principal amount outstanding and, in the case of New Money Notes, principal outstanding) of all New Money Tranche 1 creditors.

"**Majority NM1/NM3 Creditors**" means:

(a) for the purposes of confirming approval of the conditions precedent, or in respect of any amendments or waivers relating to the conditions precedent, each of:

(i) the Qualifying NM1 Creditors whose New Money Tranche 1 commitments (until drawn and thereafter the principal amount outstanding and, in the case of New Money Notes, principal outstanding) represent more than 66⅔% of the aggregate New Money Tranche 1 commitments (until drawn and thereafter the principal amount outstanding and, in the case of New Money Notes, principal amount outstanding) of all Qualifying NM1 Creditors; and

(ii) the New Money Tranche 1 creditors and New Money Tranche 3 creditors whose aggregate New Money Tranche 1 commitments (until drawn and thereafter the principal amount outstanding and, in the case of New Money Notes, principal outstanding) and New Money Tranche 3 outstanding amounts and commitments represent more than 50% of the aggregate New Money Tranche 1 commitments (until drawn and thereafter the principal amount outstanding and, in the case of New Money Notes, principal outstanding) and New Money Tranche 3 outstanding amounts and commitments of all New Money Tranche 1 creditors and New Money Tranche 3 creditors; and

(b) for all other purposes, each of

(i) the Majority Qualifying NM1 Creditors; and

(ii) the New Money Tranche 1 creditors and New Money Tranche 3 creditors whose aggregate New Money Tranche 1 commitments and New Money Tranche 3 outstanding amounts and commitments represent more than 50% of the aggregate New Money Tranche 1 commitments and New Money Tranche 3 outstanding amounts and commitments of all New Money Tranche 1 creditors and New Money Tranche 3 creditors.

"**Majority NM2 Creditors**" means New Money Tranche 2 creditors whose aggregate New Money Tranche 2 outstanding amounts and commitments represent more than 50% of the aggregate New Money Tranche 2 outstanding amounts and commitments of all New Money Tranche 2 creditors.

"**Majority NM3 Creditors**" means New Money Tranche 3 creditors whose aggregate New Money Tranche 3 outstanding amounts and commitments represent more than 50% of the aggregate New Money Tranche 3 outstanding amounts and commitments of all New Money Tranche 3 creditors.

"**Majority Qualifying NM1 Creditors**" means Qualifying NM1 Creditors whose New Money Tranche 1 commitments (and, in the case of New Money Notes, principal amount outstanding) represent more than 50% of the aggregate New Money Tranche 1 commitments (and, in the case of New Money Notes, principal amount outstanding) of all Qualifying NM1 Creditors.

"**Majority Senior Old Money Creditors**" means Senior Old Money creditors whose participations in the Senior Old Money Loans/Notes represent more than 50% of the aggregate Senior Old Money Loans/Notes.

"**Net Proceeds**" means the amount receivable by the NM1 Group or Group after customary deductions including reasonable costs, expenses and taxes and any amounts applied in the repayment of local facilities.

"**New Bonding Commitment Letter**" means the commitment letter entered into on or about the date of the New Money Financing Commitment Letter between, among others, the Initial Bonding Providers pursuant to which they agree to lend or subscribe for (all or part) of the New Bonding Facilities.

"**New Money Financing**" means the new money financing described in Part 2 of this Term Sheet.

"**New Money Financing Commitment Letter**" means the commitment letter to which this Term Sheet is attached as an annex.

"**New Money Loans**" has the meaning given to such term in the New Money Financing Commitment Letter.

"**New Money Notes**" has the meaning given to such term in the New Money Financing Commitment Letter.

"**NM1 Group**" means OrphanCo and its subsidiaries (including, following the title transfer collateral arrangements A3TLuxco1, A3T and ACIL Luxco1), Abengoa Concessions Investments Limited, ACIL Luxco2, A3TLuxco2 and A3T HoldCo España S.A..

"**NM1 Investor Director**" means the director of Orphan Holdco, A3T and any other relevant member(s) of the NM1 Group appointed from time to time by the Majority Qualifying NM1 Creditors.

"**NM1 Monitor**" means the entity appointed by the Majority Qualifying NM1 Creditors to exercise their monitoring rights in respect of the NM1 Priority Collateral.

"**NM1 Priority Collateral**" means:

(a) all of the assets (including, without limitation, shares and shareholder loans) of:

(i) Orphan Holdco (including, without limitation, rights under the proceeds loans on-lending the proceeds of New Money Tranche 1 and New Money Tranche 3);

(ii) ACIL;

(iii) ACIL Luxco1 (including, without limitation, all of the ABY shares currently owned by ACIL (which are to be transferred to ACIL Luxco 1) and all distributions from ABY to be paid into a separate blocked account);

(iv) ACIL Luxco2 (other than the account of ACIL Luxco 2 into which the NM1 Priority Collateral Surplus Value is to be deposited);

(v) A3T;

(vi) A3TLuxco1 (including all distributions from A3T, to be paid into a separate blocked account); and

(vii) A3TLuxco2 (other than the account of A3TLuxco2 into which the NM1 Priority Collateral Surplus Value is to be deposited);

(b) all of the shares in:

(i) Orphan Holdco;

(ii) ACIL;

(iii) A3TLuxco2; and

(iv) A3T HoldCo España S.A.; and

(c) the escrow account in which a portion of the proceeds of New Money Tranche 1 are to be held.

Upon discharge in full of New Money Tranche 1 and New Money Tranche 3, any remaining NM1 Priority Collateral will revert as, and be considered, NM1 Priority Collateral Surplus Proceeds or NM1 Priority Collateral Surplus Value.

The transaction security will not be subject to limitations.

"**NM1 Priority Collateral Surplus Proceeds**" means any proceeds received by (or due and payable to) ACIL Luxco2 or A3TLuxco2 in respect of the NM1 Priority Collateral following the discharge in full of New Money Tranche 1 and New Money Tranche 3, including any NM1 Priority Collateral Surplus Value and excluding for the avoidance of doubt any rights held by ACIL Luxco2 or A3T Luxco2 against any other member of the NM1 Group in respect of the NM1 Priority Collateral.

"**NM1 Priority Collateral Surplus Value**" means any cash or cash equivalents to be received by ACIL Luxco2 and A3TLuxco2 or to which they are entitled in respect of the NM1 Priority Collateral following the discharge in full of New Money Tranche 1 and New Money Tranche 3.

"**NM2 Priority Collateral**" means the NM1 Priority Collateral Surplus Value, the NM1 Priority Collateral Surplus Proceeds, the shares of the holding companies of the project companies owning and developing the Zapotillo, SAWS and Cárcel projects and intra-group loans granted in respect of the project companies of such projects or their shareholders. In addition, the shares of the project companies owning and developing the Zapotillo, SAWS and Cárcel projects will be subject to security and form part of the NM2 Priority Collateral to the extent that the lenders under each project finance and, if applicable, the concession-granting authority consent to the creation of junior-ranking security over those shares.

"**Non-Consenting Creditors**" means creditors in respect of Affected Debt or Non-Spanish Debt to be Restructured other than Consenting Existing Creditors.

"**Obligor**" means a Borrower, a Guarantor or an Issuer.

"**Old Money Collateral**" means the security granted by Abengoa S.A. in favour of the Consenting Old Money creditors over the shares in AbeNewco2.

"**OrphanCo**" means an orphan SPV not owned by any member of the Group and established for the purpose of acting as the holding company of Orphan Holdco.

"**Orphan Holdco**" means an orphan SPV not owned by any member of the Group and established for the purpose of acting as the holding company of A3TLuxco1 and ACIL Luxco1.

"**Parent**" means Abengoa, S.A.

"**Qualifying NM1 Creditor Decisions**" means the decisions specified as such in the "Undertakings" section in Part 3 of this Term Sheet and which shall be made by the Majority Qualifying NM1 Creditors.

"**Qualifying NM1 Creditors**" means New Money Tranche 1 creditors who certify at the time of the relevant vote that the face amount of the aggregate Senior Old Money, Junior Old Money, New Money Tranche 2 and New Money Tranche 3 commitments held by it and its Affiliates and Related Funds (as well as any person with whom it or any of its Affiliates and Related Funds has entered into a sub-participation, total return swap, credit default swap or any other agreement or arrangement having an economic effect similar to a sub-participation, total return swap or credit default swap) is less than one third of the amount of its New Money Tranche 1 commitment (until drawn and thereafter the principal amount outstanding and, in the case of New Money Notes, principal outstanding) (when combined with the New Money Tranche 1 commitments (until drawn and thereafter the principal amount outstanding and, in the case of New Money Notes, principal outstanding) held by any person with whom it or any of its Affiliates or Related Funds has entered into a sub-participation, total return swap, credit default swap or any other agreement or arrangement having an economic effect similar to a sub-participation, total return swap or credit default swap).

"**Restructuring Agreement**" means the restructuring agreement to be entered into between, among others, the Parent, the Anchor Funders (as defined in the New Money Financing Commitment Letter) and the other creditors listed therein as the Original Participation Creditors in form and substance satisfactory to the Parent and each Anchor Funder (as defined in the New Money Financing Commitment Letter).

"**Restructuring Completion Date**" means the date to be determined in accordance with the Restructuring Agreement on which the restructuring documentation (including the New Money Finance Documents) has become unconditional and all steps set to be out in the Restructuring Steps Plan have been completed.

"**Restructuring Steps Commencement Date**" has the meaning given to such term in Schedule 1.

"**Restructuring Steps Plan**" means the restructuring steps plan to be attached as a schedule to the Restructuring Agreement.

"**September 2014 Bank Facility**" means Spanish law governed Spanish language syndicated facility agreement dated 30 September 2014 to be detailed in the relevant schedule to the Restructuring Agreement.

"**Signing Date**" means the date on which the Restructuring Agreement is signed by the original parties to the Restructuring Agreement.

"**Standard Restructuring Terms**" means the restructuring terms applicable to Non-Consenting Creditors, summarised in Section (D) of Part 1 and detailed in the Restructuring Agreement.

"**Super Majority Qualifying NM1 Creditors**" means the Qualifying NM1 Creditors whose New Money Tranche 1 commitments (until drawn and thereafter the principal amount outstanding and, in the case of New Money Notes, principal outstanding) represent more than 85% of the aggregate New Money Tranche 1 commitments (until drawn and thereafter the

principal amount outstanding and, in the case of New Money Notes, principal outstanding) of all Qualifying NM1 Creditors.

## SCHEDULE 1
## INITIAL CONDITIONS PRECEDENT

The following documents and evidence are to be in form and substance satisfactory to each of the Majority NM1/NM3 Creditors, the Majority NM2 Creditors and the Majority New Bonding Creditors and any amendments or waivers of these conditions precedents will require the approval of each such group of creditors.

| | **Initial Condition Precedent** |
|---|---|
| 1. | Written confirmation of satisfaction of all conditions precedent to the commencement of the steps necessary to implement the proposed Restructuring identified in the Restructuring Steps Plan (the date on which such written confirmation is given to be referred to in the Restructuring Agreement as the "**Restructuring Steps Commencement Date**"), which shall include:<br><br>(a) implementation of the Standard Restructuring Terms to Non-Consenting Creditors pursuant to *homologación*, US Chapter 11, English Company Voluntary Arrangement and any other relevant procedure in any other jurisdiction identified in the Restructuring Steps Plan; and<br><br>(b) Chapter 15 recognition (or equivalent recognition in any other jurisdiction identified in the Restructuring Steps Plan) of the homologación, the Company Voluntary Arrangement and any other relevant procedure in any other jurisdiction identified in the Restructuring Steps Plan.<br><br>Before the Restructuring Steps Commencement Date (i) the judge has not accepted any challenge in respect of the April homologación and the homologación to be filed on or around September 2016 that may negatively affect the content or expected effects of this Restructuring as defined in this Term Sheet or the size of the debt under the Business Plan; and (ii) no issue has arisen which may adversely affect the implementation of the Restructuring through all relevant procedures in all relevant jurisdictions (including through Chapter 11, Chapter 15 and English Company Voluntary Arrangement procedures). |
| 2. | Evidence that on the Restructuring Steps Commencement Date binding commitments for:<br><br>(a) the New Money Financing; and<br><br>(b) the New Bonding Facilities, including minimum commitments of at least EUR250m under the New Syndicated Bonding Tranche and the Roll Over Bonding Tranche, |

| | **Initial Condition Precedent** |
|---|---|
| | are in force and any conditions to utilisation have been (or will, on the Restructuring Steps Commencement Date, be) satisfied, including implementation of any agreed escrow arrangements. |
| 3. | Constitutional documents, corporate authorisations (including shareholder approvals as required), powers of attorney and officer's certificates for each Obligor and shareholder. |
| 4. | Copies of all executed definitive Finance Documents (including, without limitation, the Restructuring Agreement, New Money Financing finance documents, intercreditor agreement and security documents). |
| 5. | Transaction security granted and all notices and other perfection steps delivered/taken (including any consents required from counterparties and a custody agreement, deed of acknowledgement and SEC registration rights agreement and registration statement with respect to the ABY shares). |
| 6. | The following reports:<br><br>(a) Board of directors' report, based on the advice of external experts, determining the amount of actual and contingent liabilities of members of the Group (other than an Excluded Entity) (as have been included in the Business Plan) to or in connection with the Excluded Entities, in each case quantifying the potential contingencies in respect of (i) bonding lines / bank guarantees; (ii) trade creditors with a Parent guarantee; and (iii) any other Parent guarantees. The maximum aggregate amount of liabilities in respect of (ii) and (iii) shall not exceed an amount to be agreed;<br><br>(b) Board of directors' report, based on the advice of external experts, confirming that in respect of each company seeking to impose Standard Restructuring Terms, treatment under the Standard Restructuring Terms is better for all creditors of that company than that on a liquidation of the Group (including that company); |

| | **Initial Condition Precedent** |
|---|---|
| | (c) Linklaters LLP tax structure paper in relation to the Restructuring and the Restructuring Steps Plan (including in relation to the structuring steps and transfers contemplated in the Restructuring Steps Plan);<br><br>(d) independent confirmation that the implementation and maintenance of the structure contemplated by the Restructuring will not have an impact on the Business Plan;<br><br>(e) valuation reports from reputable independent internationally recognised valuation experts to the extent necessary or desirable to implement the Restructuring including, without limitation, in respect of the contribution of shares in A3T and intercompany receivables owed by A3T to A3TLuxco2 by the shareholders and intercompany creditors of A3T as set out in the Restructuring Steps Plan. |
| 7. | The financial model. |
| 8. | Know your customer/anti-corruption/anti-money laundering requirements of each New Money Financing creditor. |
| 9. | Business Plan and budget (including operational restructuring and implementation plan) together with a favourable report by an independent expert appointed by the Commercial Registry for the purposes of Section 71.bis.4 of the Insolvency Act and section 8.(d) of *Real Decreto 1066/2007, de 27 de julio, sobre el régimen de las ofertas públicas de adquisición de valores*. The independent expert's report must be delivered simultaneously at Signing Date. |
| 10. | Customary legal opinions. |
| 11. | Satisfactory Luxembourg law opinion:<br><br>(a) on the the security given in favour of New Money Tranche 2 and New Bonding Facilities, the title transfer arrangements and the NM1 Group structure; and<br><br>(b) on the security given in favour of the NM1 Priority Collateral, the title transfer arrangements and the NM1 Group structure. |
| 12. | Certified group structure chart. |
| 13. | Most recent financial statements for each Obligor. |
| 14. | Written confirmation of appointment of agents, including but not limited to, agents for the service of process, trustees in respect of any Notes, Security Agents, registrars, transfer agents, calculation agents and paying agents. |
| 15. | Cleansing announcement published. |

| | **Initial Condition Precedent** |
|---|---|
| 16. | Escrow accounts, NM1 DSRA and NM1 Priority Collateral Surplus Value accounts established. |
| 17. | Funds flow statement showing the flow of funds on or about the Restructuring Steps Commencement Date. |
| 18. | Payment of agreed fees (including financial and legal advisors), costs and expenses in connection with the Restructuring from the proceeds of New Money Tranche 1A on the Restructuring Steps Commencement Date. |
| 19. | Completion of the listing of any Notes on the regulated or unregulated market of either the Luxembourg or Irish Stock Exchange has been made. |
| 20. | Confirmation that any Notes have been approved and are eligible to be cleared on an internationally recognised clearing system. |
| 21. | Confirmation of the Parent's corporate rating and the ratings of any Notes to be issued, provided that there is no requirement for a particular rating level to be achieved. |
| 22. | Receipt of relevant ISINs for any Notes. |
| 23. | Evidence of repayment of any portion of the Non-Compromised Debt to be repaid in accordance with the funds flow statement and release of any existing security (other than security expressly permitted to remain in place). |
| 24. | Evidence of any other authorisations reasonably required. |
| 25. | Appointment of the NM1 Monitor. |
| 26. | Satisfactory legal comfort from Mexican counsel to the New Money Financing creditors that no anti-trust clearances are required in Mexico or that any such clearances have been obtained. |
| 27. | Satisfactory resolution, including, without limitation, a review by an independent third party confirming that any resolution will not have an impact on the Business Plan of more than a level to be agreed, with respect to Mexican subsidiaries including, without limitation:<br>(a) the resolution of claims against Abengoa Mexico, S.A. de C.V.; and<br>(b) *homologación* and entry into a 71.bis refinancing agreement with respect to A3T Holdco España S.A. in accordance with the Restructuring Steps Plan. |

| | **Initial Condition Precedent** |
|---|---|
| 28. | Evidence of the absence of in rem security, seizure, attachments or other liens over all material assets and rights of the Group and the NM1 Group, including those comprising the NM1 Priority Collateral and the NM2 Priority Collateral, other than permitted security to be agreed, and including evidence that security over ABY shares or A3T shares existing prior to the Restructuring Steps Commencement Date has been released by the relevant creditors on a consensual basis. |
| 29. | Satisfaction or waiver of Additional NM1 Drawdown Conditions and disbursement of New Money Tranche 1. |
| 30. | Projected compliance with the Liquidity Covenant for the 6 month period following the utilisation date. |
| 31. | Written confirmation that no member of the board of directors of ABY is resident in the UK and no other step has been taken which would be reasonably likely to cause ABY to be subject to the UK Takeover Code. |
| 32. | Satisfactory repayment or release of all indebtedness (including intercompany claims) of A3T in accordance with the Restructuring Steps Plan. |
| 33. | Satisfactory mechanism for the transfer of the ABY shares into the NM1 Group in accordance with the Restructuring Steps Plan. |
| 34. | Satisfactory mechanism for the assumption of the relevant portion of the Non-Compromised Debt as New Money Tranche 1 debt by the New Money Tranche 1 borrower in accordance with the Restructuring Steps Plan. |
| 35. | Title transfer collateral arrangements being satisfactory. |
| 36. | Written confirmation from the Parent that (other than in respect of projects benefiting from local financing or from secured project financing):<br>(a) no breach, default or termination right is continuing or could reasonably be expected to occur or arise as a result of the Restructuring in relation to any Key Project;<br>(b) all documents delivered as conditions precedent are true, complete and up to date;<br>(c) the terms of the project documents for each Key Project (whether or not required to be delivered as a condition precedent) are consistent in all material respects with the financial model and Business Plan;<br>(d) the acquisition documents delivered in connection with the disposal of a Key Project contain all the material terms of the disposal of that Key Project; |

| | **Initial Condition Precedent** |
|---|---|
| | (e) the terms of the acquisition documents for each disposal (whether or not required to be delivered as a condition precedent) are consistent in all material respects with the financial model and Business Plan;<br><br>(f) no member of the Group or NM1 Group other than the relevant Key Project Entities has any material actual or contingent liability in respect of a Key Project or the obligations of the relevant Key Project Entities;<br><br>(g) all arrangements between any member of the NM1 Group or ABY and any other person (including, without limitation, a member of the Group) are on arms' length terms or better for the member of the NM1 Group or ABY and all other arrangements between members of the Group and the relevant Key Project Entities in relation to the Key Projects are on arms' length terms;<br><br>(h) no member of the Group other than an Excluded Entity has any material actual or contingent liability in connection with any Excluded Entity other than obligations owed to suppliers in an amount not exceeding an amount to be agreed and specifically disclosed as a condition precedent; and<br><br>(i) the arrangements between members of the Group and suppliers are consistent in all material respects with the financial model and Business Plan (as adjusted to reflect the improvement in terms achieved and verified as a condition precedent). |
| 37. | Evidence of implementation of the Restructuring Steps Plan, including the following:<br><br>(a) other than in respect of the Excluded Entities, successful resolution of any insolvency proceedings in relation to any member of the NM1 Group and Group other than any member of the Group which is assumed to be liquidated in the Business Plan on or before the Restructuring Steps Commencement Date;<br><br>(b) any consents and waivers (including as to change of ownership) necessary or desirable in connection with the Restructuring have been obtained;<br><br>(c) implementation of agreed equity / governance arrangements (including, without limitation, the management incentive plan, appointment of the NM1 Investor Director and the Adviser); |

| | **Initial Condition Precedent** |
|---|---|
| | (d) all other prior or simultaneous steps in the Restructuring Steps Plan (including, without limitation, implementation of the agreed holding company structure at the Group level and the establishment and ring-fencing of the NM1 Group) have been or will be completed on or before the Restructuring Steps Commencement Date;<br><br>***NM1 Priority Collateral***<br><br>*ABY*<br><br>(e) waivers required to remove from any document entered into by any member of the Group or the NM1 Group or any member of the ABY group:<br><br>(i) any obligation for the Group or the NM1 Group or any member of the Group or the NM1 Group to maintain a minimum level of shareholding in ABY;<br><br>(ii) any prepayment, repurchase or termination event or default, however described, occurring as a result of a failure by the Group or the NM1 Group or any member of the Group or the NM1 Group to have or maintain a minimum level of shareholding in ABY; or<br><br>(iii) any term of any agreement to which any member of the ABY group is a party which has been or could be breached as a result of any events or circumstances relating to a member of the Group or the NM1 Group including, but not limited to, any cross default or cross acceleration provisions or any provisions which might be breached as a result of any member of the Group or the NM1 Group taking any action in relation to insolvency proceedings or any New Money Financing creditor or Old Money creditor enforcing any security in respect of the Group or the NM1 Group;<br><br>(f) cancellation of the parent support arrangements in relation to Abengoa Concessoes Brasil Holding S.A. pursuant to which ABY has the right to withhold distributions that would otherwise be payable to members of the Group and/or NM1 Group by ABY;<br><br>*A3T*<br><br>(g) evidence that all third party and governmental consents in connection with A3T necessary for the implementation of the NM1 Priority Collateral structure and any enforcement thereof have been obtained; |

| | **Initial Condition Precedent** |
|---|---|
| | (h) evidence that all permits, approvals, licenses, consents and contracts necessary or desirable in order to enable A3T to complete the project and for A3T to be the subject of a disposal in whole or in part are in full force and effect and are not subject to change of control or similar provisions, conditions or requirements;<br><br>(i) a copy of each material project document and any other contract entered into by A3T and evidence that:<br><br>(i) the operational date in the gas supply agreement and services agreement entered into between, among others, Abengoa Cogeneración Tabasco, S. de R.L. de C.V. and Petróleos Mexicanos has been extended to at least 31 December 2017;<br><br>(ii) the EPC contract entered into between A3T and members of the Group has been amended to reset the margin to zero, eliminate existing amounts payable by A3T and provide for any future payments to be made directly by A3T to the third party contractor, and such amendments do not have a negative tax impact;<br><br>(iii) each material project document in respect of which the counterparty is a member of the Group is terminable at the option of the Majority Qualifying NM1 Creditors following an Event of Default or a breach of certain undertakings to be agreed which permit the Majority Qualifying NM1 Creditors (or NM1 Investor Director, if applicable) to appoint a replacement EPC contractor, in each case, at no cost to the NM1 Group and the Majority Qualifying NM1 Creditors are satisfied that they will be able to procure replacement contractors on satisfactory commercial terms; and<br><br>(iv) annexes 1 and 2 of the A3T gas supply contract between A3T and Pemex have been incorporated such agreement in terms not more detrimental to A3T than the ones set forth in a schedule to the New Money Tranche 1 Debt Instrument and in form acceptable to the Majority NM1/NM3 Creditors;<br><br>(j) a letter from the insurance broker of A3T confirming that satisfactory project insurances have been obtained and are in force;<br><br>(k) satisfactory legal advice and/or confirmation from CFE that the grandfathering of the former regime for A3T is not at risk under any circumstances;<br><br>(l) absence of any evidence that the correct right of way for transmission lines is likely to not be obtained by a timeline to be agreed; |

| | **Initial Condition Precedent** |
|---|---|
| | (m) the constitutional documents of all relevant NM1 Group companies provide that (i) any decision to shift COMI or otherwise establish a place of business in another jurisdiction; or propose a resolution to commence insolvency proceedings, shall require consent of all directors, including the NM1 Investor Director, and (ii) the NM1 creditors shall be given advance notice of any resolution or steps to commence insolvency proceedings, such provisions to be entrenched through "golden share" arrangements;<br><br>***NM2 Priority Collateral***<br><br>*Zapotillo*<br><br>(n) a copy of each material project document and any other contract entered into by the Key Project Entities in relation to Zapotillo and evidence that the relevant project documents have been amended to reflect a satisfactory agreement between Zapotillo and Comisión Nacional del Agua and Banco Nacional de Obras y Servicios Públicos, S.N.C. respectively;<br><br>*SAW*<br><br>(o) a copy of each material project document and any other contract entered into by the Key Project Entities in relation to SAW;<br><br>(p) a copy of each acquisition document (including, without limitation, the share purchase agreement and shareholders' agreement) in relation to SAW;<br><br>(q) evidence that completion has occurred or will, on or before the Restructuring Steps Commencement Date, occur under and in accordance with the terms of the acquisition documents;<br><br>(r) evidence that the Group retains a 20% holding in SAW;<br><br>(s) evidence that there is no liability for the Group in respect of the bridge loan agreement dated 20 July 2015 and entered into between, among others, Abengoa Vista Ridge, LLC and Sumitomo Mitsui Banking Corporation as administrative agent;<br><br>*Cárcel*<br><br>(t) a copy of each material project document and any other contract entered into by the Key Project Entities in relation to Cárcel;<br><br>***Key divestments to be completed on or before Restructuring Steps Commencement Date***<br><br>*Ashalim* |

## SCHEDULE 18
## FORM OF NOTEHOLDER ACCESSION LETTER

To: The Restructuring Agent
Global Loan Agency Services Limited (08318601)
Address: 45 Ludgate Hill, London EC4M 7JU
Email: tmg@glas.agency
Attention: Transaction Management Group

From: Each Participating Creditor listed in the Annex to this Noteholder Accession Letter (an "**Acceding Participating Creditor**")

Date: [•]

Dear Sirs,

**ABENGOA – RESTRUCTURING AGREEMENT**

1. We refer to the restructuring agreement dated [•] 2016 (the "**Agreement**"). This is a Noteholder Accession Letter. Terms defined in the Agreement have the same meaning in this Noteholder Accession Letter unless otherwise defined herein.

2. Each Acceding Participating Creditor hereby severally and not jointly:

   (a) accedes and irrevocably agrees to be bound by the terms of the Agreement as a Participating Creditor in respect of its Existing Financial Indebtedness and/or its participation in the New Money Financing, as indicated in each case next to its name in the Annex to this Noteholder Accession Letter;

   (b) in its capacity as Existing Creditor expressly and irrevocably elects to implement the Restructuring of its Existing Financial Indebtedness through the either the Alternative Restructuring Terms or (or with the exception of any Ineligible Investor pursuant to sub-clause 3.1.4(d) of the Restructuring Agreement) the Standard Restructuring Terms, as indicated in each case next to its name in the Annex to this Noteholder Accession Letter;

   (c) in respect of its Alternative Restructuring Entitlements (if applicable) irrevocably elects to receive:

      (i) Junior Old Money Loans or Junior Old Money Notes;

      (ii) Senior Old Money Loans or Senior Old Money Notes (if applicable); and

      (iii) [no Post-Restructuring Equity]/[a maximum amount of 4.9 per cent. of the total Post-Restructuring Equity]/[its *pro rata* entitlement to Post-Restructuring Equity], [10]

   in each case as indicated next to its name in the Annex to this Noteholder Accession Letter;

[10] Choose one and delete the other.

(d) if it holds Voluntarily Non-Adhered Insured Debt or Voluntarily Non-Adhered Debt, the Acceding Participating Creditor expressly declares that it does not grant its consent to this Agreement and the Restructuring in respect of the Voluntarily Non-Adhered Insured Debt / Voluntarily Non-Adhered Debt instruments/amounts indicated next to its name in the Annex to this Noteholder Accession Letter];

(e) undertakes to take all necessary action to promptly withdraw any Homologation Challenge filed by it (if any);

(f) represents that:

(i) (a) it is located outside the United States and is not a "U.S. person" as defined in the United States Securities Act of 1933, as amended (the "**Securities Act**"), (b) it is located in the United States, such Acceding Participating Creditor and is a "qualified institutional buyer" within the meaning of Rule 144A under the Securities Act or an "accredited investor" as defined in Rule 501(a) of the Securities Act; or (c) it is located in the United States but is neither a "qualified institutional buyer" within the meaning of Rule 144A under the Securities Act nor an "accredited investor" as defined in Rule 501(a) of the Securities Act.

(ii) if it meets the criteria set out in sub-paragraph 2(f)(i)(a) or (i)(b) above without prejudice to any warranties of any Obligor specifically provided hereunder, it exercises or acquires securities in the normal course of business, invests in or purchases securities regularly and has such knowledge and experience in financial and business matters such that it is capable of evaluating the merits and risks of exercising or purchasing securities and is aware that it bears the economic risk of an investment in any securities for an indefinite period of time and is able to bear such risk for an indefinite period, and has not relied on any investigation that any other person may or may not have conducted or any other additional information and has relied solely on its own judgment, examination and due diligence; and

(iii) it understands that the New Money Notes, the Old Money Notes and the Post-Restructuring Equity have not been and will not be registered under the Securities Act or any securities law of any State of the United States, and may not be offered, sold, pledged, or otherwise transferred except (a) to the issuer of the New Money Notes, the Old Money Notes or the Post Restructuring Equity, (b) pursuant to a registration statement which has been declared effective under the Securities Act, (c) pursuant to offers and sales that occur outside the United States in compliance with Regulation S under the Securities Act, (d) in accordance with Rule 144A, if available, under the Securities Act to a person that the transferor, and any person acting on its behalf, reasonably believes is a "qualified institutional buyer" (as defined in Rule 144A under the Securities Act) or (e) pursuant to any other available exemption from the registration requirements of the Securities Act, and in each case in compliance with any applicable securities laws of any State of the United States or other jurisdiction. It

further agrees to provide to any person purchasing any of the New Money Notes, Old Money Notes or Post-Restructuring Equity (as applicable) from it a notice advising such purchaser that resales of the New Money Notes, Old Money Notes or Post-Restructuring Equity (as applicable) are restricted as stated herein.

3. If an Acceding Participating Creditor meets the criteria set out in sub-paragraph 2(f)(i)(c) above, such Acceding Participating Creditor hereby agrees that it may not expressly elect the Standard Restructuring Terms and that if it elects the Alternative Restructuring Terms:

   (a) it appoints the Holding Period Trustee on its behalf to receive and hold on trust the Ineligible Investor Initial Trust Securities to which it may be entitled pursuant to the Restructuring Agreement;

   (b) upon the Holding Period Trustee's receipt of the information requested in the Securities Crediting Notice, there shall be issued and transferred to the Holding Period Trustee on behalf of such Ineligible Investor, against cancellation of its Notes, the Ineligible Investor Top-Up Trust Securities together with any interest that would have accrued thereon had such Ineligible Investor Top-Up Trust Securities been outstanding during the period commencing on the Restructuring Completion Date through but not including the date of delivery of such Ineligible Investor Top-Up Trust Securities to the Holding Period Trustee (such accrued interest to be paid immediately in cash to the extent is has already been paid in respect of outstanding Junior Old Money Notes or Senior Old Money Notes (as applicable) during such period, with the newly issued and delivered securities thus becoming immediately fungible with outstanding Junior Old Money Notes or Senior Old Money Notes (as applicable));

   (c) the Holding Period Trustee or its broker or selling agent (as the case may be) shall thereupon sell all Ineligible Investor Trust Securities of the relevant Ineligible Investor in the Open Market and remit the net sale proceeds (after deducting the reasonable costs and expenses of the Holding Period Trustee in respect of such sale) to such Ineligible Investor, together with any interest payments made on the Ineligible Investor Initial Trust Securities during periods prior to their sale and the cash payment in respect of any accrued interest on the Ineligible Investor Top-Up Trust Securities; and

   (d) at no point in time will such Acceding Participating Creditor be entitled to any incidents of ownership with respect to its Ineligible Investor Trust Securities.

4. The Acceding Participating Creditor's administrative details are indicated next to its name in Annex 1.

5. The Acceding Participating Creditor (acting via its duly delegated attorney and delegates) notarises in Spain (*eleva a público*) this Noteholder Accession Letter and instructs the relevant Notary to send a notarial copy to the Restructuring Agent within two (2) Business Days as from the date of this Noteholder Accession Letter to the following address:

|---|---|
| | |
| Non Spanish Debt Document | Amount of Non-Spanish Debt to be Restructured |
| | |
| New Financing Commitment | Amount of New Financing Commitment |
| | |

4. The Acceding Participating Creditor is (a) located outside the United States and is not a "U.S. person" as defined in the United States Securities Act of 1933, as amended (the "**Securities Act**"), (b) located in the United States and is a "qualified institutional buyer" within the meaning of Rule 144A under the Securities Act or an "accredited investor" as defined in Rule 501(a) of the Securities Act; or (c) located in the United States but is neither a "qualified institutional buyer" within the meaning of Rule 144A under the Securities Act nor an "accredited investor" as defined in Rule 501(a) of the Securities Act.

[12] Delete as appropriate.

5. If the Acceding Participating Creditor meets the criteria in sub-paragraph 4(a) and 4(b) above, without prejudice to any warranties of any Obligor specifically provided hereunder, the Acceding Participating Creditor exercises or acquires securities in the normal course of business, invests in or purchases securities regularly and has such knowledge and experience in financial and business matters such that it is capable of evaluating the merits and risks of exercising or purchasing securities and is aware that it bears the economic risk of an investment in any securities for an indefinite period of time and is able to bear such risk for an indefinite period, and has not relied on any investigation that any other person may or may not have conducted or any other additional information and has relied solely on its own judgment, examination and due diligence.

6. The Acceding Participating Creditor understands that the New Money Notes, Old Money Notes and the Post-Restructuring Equity have not been and will not be registered under the Securities Act or any securities law of any State of the United States, and , for so long as such securities are deemed to be "restricted securities" as defined in Rule 144 under the Securities Act, may not be offered, sold, pledged, or otherwise transferred except (a) to the issuer of the New Money Notes, Old Money Notes or Post-Restructuring Equity, (b) pursuant to a registration statement which has been declared effective under the Securities Act, (c) pursuant to offers and sales that occur outside the United States in compliance with Regulation S under the Securities Act, (d) in accordance with Rule 144A, if available, under the Securities Act to a person that the transferor, and any person acting on its behalf, reasonably believes is a "qualified institutional buyer" (as defined in Rule 144A under the Securities Act) or (e) pursuant to any other available exemption from the registration requirements of the Securities Act, and in each case in compliance with any applicable securities laws of any State of the United States or other jurisdiction. It further agrees to provide to any person purchasing any of the New Money Notes, Old Money Notes or the Post-Restructuring Equity (as applicable) from it a notice advising such purchaser that resales of the New Money Notes, Old Money Notes or the Post-Restructuring Equity (as applicable) are restricted as stated herein.

7. If an Acceding Participating Creditor meets the criteria set out in paragraph 4(c) above, such Acceding Participating Creditor hereby agrees that it may not expressly elect the Standard Restructuring Terms and that if it elects the Alternative Restructuring Terms:

   (a) it appoints the Holding Period Trustee on its behalf to receive and hold on trust the Ineligible Investor Initial Trust Securities to which it may be entitled pursuant to the Restructuring Agreement;

   (b) upon the Holding Period Trustee's receipt of the information requested in the Securities Crediting Notice, there shall be issued and transferred to the Holding Period Trustee on behalf of such Ineligible Investor, against cancellation of its Notes, the Ineligible Investor Top-Up Trust Securities together with any interest that would have accrued thereon had such Ineligible Investor Top-Up Trust Securities been outstanding during the period commencing on the Restructuring Completion Date through but not including the date of delivery of such Ineligible Investor Top-Up Trust Securities to the Holding Period Trustee (such accrued interest to be paid immediately in cash to the extent is has already been paid in respect of outstanding Junior Old

Money Notes or Senior Old Money Notes (as applicable) during such period, with the newly issued and delivered securities thus becoming immediately fungible with outstanding Junior Old Money Notes or Senior Old Money Notes (as applicable));

(c) the Holding Period Trustee or its broker or selling agent (as the case may be) shall thereupon sell all Ineligible Investor Trust Securities of the relevant Ineligible Investor in the Open Market and remit the net sale proceeds (after deducting the reasonable costs and expenses of the Holding Period Trustee in respect of such sale) to such Ineligible Investor, together with any interest payments made on the Ineligible Investor Initial Trust Securities during periods prior to their sale and the cash payment in respect of any accrued interest on the Ineligible Investor Top-Up Trust Securities; and

(d) at no point in time will such Acceding Participating Creditor be entitled to any incidents of ownership with respect to its Ineligible Investor Trust Securities.

**SCHEDULE 22**
**AGENCY FEE LETTER**

www.glas.agency

+44 (0)20 3597 2940

**RESTRUCTURING AGENCY FEE LETTER**

To: Abengoa S.A. ("**Abengoa**")
Campus Palmas Atlas
Calle Energia Solar, No. 1
Seville
Spain

Date: _____ 2016

Dear Sirs

**Restructuring agreement (the "Restructuring Agreement") to be entered into between, among others, Abengoa, certain of the subsidiaries of Abengoa listed in Schedule 1 thereto, Inversión Corporativa I.C., S.A and Finarpisa, S.A., as Existing Majority Shareholders, the Restructuring Committee, Global Loan Agency Services Limited as restructuring agent ("GLAS" and the "Restructuring Agent") and Lucid Issuer Services Limited as Information Agent and Holding Period Trustee.**

1. We refer to the Restructuring Agreement.

2. We also refer to the document entitled "Proposal for Restructuring Agency Services" dated 11 August 2016 from GLAS to Abengoa (the "**Proposal Document**") which sets out, among other things, the scope of the services provided or to be provided by GLAS in connection with the Restructuring (the "**Services**").

3. Unless otherwise defined in this letter, terms defined in the Restructuring Agreement shall have the same meanings in this letter.

4. This is the Agency Fee Letter for the purposes of the Restructuring Agreement.

5. Pursuant to clause 14.1 (*Appointment*) of the Restructuring Agreement, each Obligor agreed to pay to the Restructuring Agent (for its own account) an agency fee in accordance with this Restructuring Agency Fee Letter. To this end, Abengoa (on behalf of itself and the Obligors) shall pay to the Restructuring Agent (for its own account) a one-off fee of EUR 50,000.00 (the "**Fee**") which covers

www.glas.agency

+44 (0)20 3597 2940

the Services and other work carried out in our capacity as Restructuring Agent pursuant to the terms of the Restructuring Agreement for the period from the date of this letter to the Restructuring Completion Long-Stop Date.

6. The Fee shall be paid by Abengoa within 10 Business Days of the Signing Date.

7. All amounts payable under this letter must (unless otherwise agreed) be paid in Euro in immediately available and freely transferable, cleared funds to the following account or to any other account notified by us for this purpose:

| | |
|---|---|
| Account with Institution: | Barclays Bank PLC |
| Swift: | BARCGB22 |
| Sort code: | 20-19-90 |
| Beneficiary: | Global Loan Agency Services Limited |
| Account Number: | 45464088 |
| IBAN: | GB92 BARC 2019 9045 4640 88 |

8. All amounts payable under this letter must be paid exclusive of any VAT or other tax and free and clear of any set-off or counterclaim or any withholding or deduction. If any withholding or deduction is required by law on payment of any such amounts, an additional amount will be due and payable by you to us so as to ensure that the amount received by us is equal to the amount which would have been received but for that withholding or deduction.

9. All amounts payable under this letter once paid are non-refundable and non-creditable against other fees payable in connection with the Restructuring Agreement.

10. In circumstances where significant additional managerial and administrative time and expenses would be involved outside of the scope of the provision of Services and/or the scope of our duties as Restructuring Agent set out in clause 14 (*Restructuring Agent*) of the Restructuring Agreement, additional fees charged at €350 per hour will be payable by Abengoa in order to fairly compensate us for the extra work involved on a standalone and/or recurring basis as appropriate. We and Abengoa will negotiate in good faith and agree any additional fees in advance at a level commensurate with the increase in workload involved.

11. In accordance with the Proposal Document, in the event that GLAS or any of its subsidiaries or affiliates are appointed to provide future agency services in relation to any equity or debt instruments to be issued pursuant to the Restructuring, we hereby agree (on behalf of ourselves and our subsidiaries or affiliates) that each fee payable to us in the first 12 months in respect of any such facility or equity agent role shall be discounted by an amount equal to 25 per cent. of the Fee.

12. A person who is not a party to this letter may not rely on it and the terms of the Contracts (Rights of Third Parties) Act 1999 are excluded and, notwithstanding any terms of this letter, no consent of any third party is required for any variation or termination of this letter.

www.glas.agency

+44 (0)20 3597 2940

13. This letter constitutes the entire agreement among the parties pertaining to its subject matter and supersedes any and all other prior agreements, understandings, negotiations and discussions, whether oral or written, of the parties.

14. This letter may be executed in counterparts which, when taken together, shall constitute one and the same instrument.

15. This letter and all non-contractual obligations arising from or connected with it are governed by English law.

Please confirm your agreement with the above by signing where indicated below.

Yours faithfully

## SCHEDULE 23
## FORM OF CREDIT INSURANCE PROVIDER ACCESSION LETTER

To: The Restructuring Agent
Global Loan Agency Services Limited (08318601)
Address: 45 Ludgate Hill, London EC4M 7JU
Email: tmg@glas.agency
Attention: Transaction Management Group

From: [Acceding Participating Creditor's full legal name] (the "**Acceding Participating Creditor**")

Date: [*]

Dear Sirs,

**ABENGOA – RESTRUCTURING AGREEMENT**

1. We refer to the restructuring agreement dated [*] 2016 (the "**Agreement**"). This is a Credit Insurance Provider Accession Letter. Terms defined in the Agreement have the same meaning in this Credit Insurance Provider Accession Letter unless otherwise defined herein.

2. The Acceding Participating Creditor, acting as a Credit Insurance Provider, was insuring the following debt instrument of the Existing Financial Indebtedness in the percentage indicated below. [According to the agreement reached with the Insured Creditor / Due to the enforcement of the insurance policy], the Insured Creditor has been repaid [in full/in part] and therefore the Acceding Participating Creditor has become the holder and lender of record of the following portion of debt:

| Existing Financial Indebtedness - debt instrument | Percentage insured |
|---|---|
| | |
| | |

3. [The Acceding Participating Creditor (as Existing Creditor) expressly and irrevocably elects to implement the Restructuring of the above referred Existing Financial Indebtedness through the Alternative Restructuring Terms.] [14] [Therefore, the Acceding Participating Creditor hereby accedes and irrevocably agrees to be bound by the terms of the Agreement as a Participating Creditor in respect of the said

[14] **[To be included only if: (i) the Acceding Participating Creditor is an Existing Creditor in respect of Existing Financial Indebtedness; and (ii) elects for the Alternative Restructuring Terms. Otherwise, please delete the paragraph and instead the Standard Restructuring Terms will apply.]**

Existing Financial Indebtedness / [and its participation in the New Money Financing][15].]

4. In respect of its Alternative Restructuring Entitlements, the Acceding Participating Creditor hereby irrevocably elects to receive:

   (a) [Junior Old Money Loans]/[Junior Old Money Notes];[16]

   (b) [Senior Old Money Loans]/[Senior Old Money Notes] (if applicable); [17]and

   (c) [no Post-Restructuring Equity]/[a maximum amount of 4.9% of the total Post-Restructuring Equity]/[its pro rata entitlement to Post-Restructuring Equity]. [Post-Restructuring Equity must be delivered to the Insured Creditor (who also signs this Credit Insurance Provider Accession Letter for these purposes) who will hold it on behalf of the Acceding Participating Creditor pursuant to, and in accordance with, the bilateral agreement reached between them.][18]

5. The Acceding Participating Creditor undertakes to take all necessary action to promptly withdraw any Homologation Challenge filed by it (if any).

6. The Acceding Participating Creditor is (a) located outside the United States and is not a "U.S. person" as defined in the United States Securities Act of 1933, as amended (the "**Securities Act**"); (b) is located in the United States and is a "qualified institutional buyer" within the meaning of Rule 144A under the Securities Act an "accredited investor" as defined in Rule 501(a) of the Securities Act; or (c) located in the United States but is neither a "qualified institutional buyer" within the meaning of Rule 144A under the Securities Act nor an "accredited investor" as defined in Rule 501(a) of the Securities Act.

7. If the Acceding Participating Creditor meets the criteria in sub-paragraphs (a) or (b) of paragraph 6 above, without prejudice to any warranties of any Obligor specifically provided hereunder, the Acceding Participating Creditor exercises or acquires securities in the normal course of business, invests in or purchases securities regularly and has such knowledge and experience in financial and business matters such that it is capable of evaluating the merits and risks of exercising or purchasing securities and is aware that it bears the economic risk of an investment in any securities for an indefinite period of time and is able to bear such risk for an indefinite period, and has not relied on any investigation that any other person may or may not have conducted or any other additional information and has relied solely on its own judgment, examination and due diligence.

8. The Acceding Participating Creditor understands that the New Money Notes, Old Money Notes and the Post-Restructuring Equity have not been and will not be registered under the Securities Act or any securities law of any State of the United States, and, for so long as such securities are deemed to be "restricted securities" as

---

[15] Only to the extent applicable.

[16] Choose one and delete the other.

[17] Choose one and delete the other.

[18] Only to the extent applicable.

defined in Rule 144 under the Securities Act, may not be offered, sold, pledged, or otherwise transferred except (a) to the issuer of the New Money Notes, Old Money Notes or Post-Restructuring Equity, (b) pursuant to a registration statement which has been declared effective under the Securities Act, (c) pursuant to offers and sales that occur outside the United States in compliance with Regulation S under the Securities Act, (d) in accordance with Rule 144A, if available, under the Securities Act to a person that the transferor, and any person acting on its behalf, reasonably believes is a "qualified institutional buyer" (as defined in Rule 144A under the Securities Act) or (e) pursuant to any other available exemption from the registration requirements of the Securities Act, and in each case in compliance with any applicable securities laws of any State of the United States or other jurisdiction. It further agrees to provide to any person purchasing any of the New Money Notes, Old Money Notes, or Post-Restructuring Equity (as applicable) from it a notice advising such purchaser that resales of the New Money Notes, Old Money Notes or Post-Restructuring Equity (as applicable) are restricted as stated herein.

9. If the Acceding Participating Creditor meets the criteria in sub-paragraph (c) of paragraph 6 above, such Acceding Participating Creditor hereby agrees that it may not expressly elect the Standard Restructuring Terms and that if it elects the Alternative Restructuring Terms:

(a) it appoints the Holding Period Trustee on its behalf to receive and hold on trust the Ineligible Investor Initial Trust Securities to which it may be entitled pursuant to the Restructuring Agreement;

(b) upon the Holding Period Trustee's receipt of the information requested in the Securities Crediting Notice, there shall be issued and transferred to the Holding Period Trustee on behalf of such Ineligible Investor, against cancellation of its Notes, the Ineligible Investor Top-Up Trust Securities together with any interest that would have accrued thereon had such Ineligible Investor Top-Up Trust Securities been outstanding during the period commencing on the Restructuring Completion Date through but not including the date of delivery of such Ineligible Investor Top-Up Trust Securities to the Holding Period Trustee (such accrued interest to be paid immediately in cash to the extent is has already been paid in respect of outstanding Junior Old Money Notes or Senior Old Money Notes (as applicable) during such period, with the newly issued and delivered securities thus becoming immediately fungible with outstanding Junior Old Money Notes or Senior Old Money Notes (as applicable));

(c) the Holding Period Trustee or its broker or selling agent(as the case may be) shall thereupon sell all Ineligible Investor Trust Securities of the relevant Ineligible Investor in the Open Market and remit the net sale proceeds (after deducting the reasonable costs and expenses of the Holding Period Trustee in respect of such sale) to such Ineligible Investor, together with any interest payments made on the Ineligible Investor Initial Trust Securities during periods prior to their sale and the cash payment in respect of any accrued interest on the Ineligible Investor Top-Up Trust Securities; and

(d) at no point in time will such Acceding Participating Creditor be entitled to any incidents of ownership with respect to its Ineligible Investor Trust Securities.

## FORM OF ACCEDING NM1B/NM2 ANCHOR ACCESSION LETTER

To: The Restructuring Agent
Global Loan Agency Services Limited (08318601)
Address: 45 Ludgate Hill, London EC4M 7JU
Email: tmg@glas.agency
Attention: Transaction Management Group

From: [Acceding Participating Creditor's full legal name] (the "**Acceding Participating Creditor**")

Date: [•]

Dear Sirs,

**ABENGOA – RESTRUCTURING AGREEMENT**

1. We refer to the restructuring agreement dated [•] 2016 (the "**Agreement**"). This is an Acceding NM1B/NM2 Anchor Funder Accession Letter. Terms defined in the Agreement have the same meaning in this Acceding NM1B/NM2 Anchor Funder Accession Letter unless otherwise defined herein.

2. The Acceding Participating Creditor hereby accedes and irrevocably agrees to be bound by the terms of the Agreement as a Participating Creditor in respect of its [Existing Financial Indebtedness]/ [and/or its participation(s) in [New Money Tranche 1B]/[New Money Tranche 2] as a New Money Financing Anchor Funder]. [19]

3. [The Acceding Participating Creditor (as Existing Creditor) expressly and irrevocably elects to implement the Restructuring of its Existing Financial Indebtedness through the Alternative Restructuring Terms.][20]

4. In respect of its Alternative Restructuring Entitlements, the Acceding Participating Creditor hereby irrevocably elects to receive:

   (a) [Junior Old Money Loans]/[Junior Old Money Notes];[21]

   (b) [Senior Old Money Loans]/[Senior Old Money Notes] (if applicable); [22]and

   (c) [no Post-Restructuring Equity]/[a maximum amount of 4.9 per cent. of the total Post-Restructuring Equity]/[its *pro rata* entitlement to Post-Restructuring Equity]. [23]

[26] **[To be included only if the Acceding Participating Creditor holding Non-Affected Debt does not want to specify that a portion of its debt is unsecured. Please note that such creditor will in no event receive Post-Restructuring Equity.]**

[27] **[To be included only if the Acceding Participating Creditor holds Non-Affected Debt]**

9. If the Acceding Participating Creditor meets the criteria in sub-paragraphs (a) or (b) of paragraph 8 above, without prejudice to any warranties of any Obligor specifically provided hereunder, the Acceding Participating Creditor exercises or acquires securities in the nonnal course of business, invests in or purchases securities regularly and has such knowledge and experience in financial and business matters such that it is capable of evaluating the merits and risks of exercising or purchasing securities and is aware that it bears the economic risk of an investment in any securities for an indefinite period of time and is able to bear such risk for an indefinite period, and has not relied on any investigation that any other person may or may not have conducted or any other additional information and has relied solely on its own judgment, examination and due diligence.

10. The Acceding Participating Creditor understands that the New Money Notes, Old Money Notes and the Post-Restructuring Equity have not been and will not be registered under the Securities Act or any securities law of any State of the United States, and may not be offered, sold, pledged, or otherwise transferred except (a) to the issuer of the New Money Notes, Old Money Notes or the Post-Restructuring Equity, (b) pursuant to a registration statement which has been declared effective under the Securities Act, (c) pursuant to offers and sales that occur outside the United States in compliance with Regulation S under the Securities Act, (d) in accordance with Rule 144A, if available, under the Securities Act to a person that the transferor, and any person acting on its behalf, reasonably believes is a "qualified institutional buyer" (as defined in Rule 144A under the Securities Act) or (e) pursuant to any other available exemption from the registration requirements of the Securities Act, and in each case in compliance with any applicable securities laws of any State of the United States or other jurisdiction. It further agrees to provide to any person purchasing any of the New Money Notes, Old Money Notes, or Post-Restructuring Equity (as applicable) from it a notice advising such purchaser that resales of the New Money Notes, Old Money Notes or Post-Restructuring Equity (as applicable) are restricted as stated herein.

11. If the Acceding Participating Creditor meets the criteria in sub-paragraph (c) of paragraph 8 above, such Acceding Participating Creditor hereby agrees that it may not expressly elect the Standard Restructuring Terms and that if it elects the Alternative Restructuring Terms:

    (a) in the event it elects the Alternative Restructuring Tenns, it appoints the Holding Period Trustee on its behalf to receive and hold on trust the Ineligible Investor Initial Trust Securities to which it may be entitled pursuant to the Restructuring Agreement;

    (b) upon the Holding Period Trustee's receipt of the information requested in the Securities Crediting Notice, there shall be issued and transferred to the Holding Period Trustee on behalf of such Ineligible Investor, against cancellation of its Notes, the Ineligible Investor Top-Up Trust Securities together with any interest that would have accrued thereon had such Ineligible Investor Top-Up Trust Securities been outstanding during the period commencing on the Restructuring Completion Date through but not including the date of delivery of such Ineligible Investor Top-Up Trust Securities to the Holding Period Trustee (such accrued interest to be paid immediately in cash to the extent is has already been paid in respect of outstanding Junior Old

Money Notes or Senior Old Money Notes (as applicable) during such period, with the newly issued and delivered securities thus becoming immediately fungible with outstanding Junior Old Money Notes or Senior Old Money Notes (as applicable));

(c) the Holding Period Trustee or its broker or selling agent(as the case may be) shall thereupon sell all Ineligible Investor Trust Securities of the relevant Ineligible Investor in the Open Market and remit the net sale proceeds (after deducting the reasonable costs and expenses of the Holding Period Trustee in respect of such sale) to such Ineligible Investor, together with any interest payments made on the Ineligible Investor Initial Trust Securities during periods prior to their sale and the cash payment in respect of any accrued interest on the Ineligible Investor Top-Up Trust Securities; and

(d) at no point in time will such Acceding Participating Creditor be entitled to any incidents of ownership with respect to its Ineligible Investor Trust Securities.

*Translation of a report originally issued in Spanish based on our work performed in accordance with the audit regulations in force in Spain. In the event of a discrepancy, the Spanish-language version prevails.*

AUDITORS' REPORT ON CONSOLIDATED FINANCIAL STATEMENTS

To the Shareholders of
Abengoa, S.A.:

We have audited the consolidated financial statements of Abengoa, S.A. ("the Parent") and Subsidiaries ("the Group"), which comprise the consolidated statement of financial position at 31 December 2013 and the related consolidated income statement, consolidated statement of comprehensive income, consolidated statement of changes in equity, consolidated statement of cash flows and notes to the consolidated financial statements for the year then ended. As indicated in Note 2.1 to the accompanying consolidated financial statements, the directors are responsible for the preparation of the Group's consolidated financial statements in accordance with International Financial Reporting Standards as adopted by the European Union and the other provisions of the regulatory financial reporting framework applicable to the Group. Our responsibility is to express an opinion on the consolidated financial statements taken as a whole based on our audit work performed in accordance with the audit regulations in force in Spain, which require examination, by means of selective tests, of the evidence supporting the consolidated financial statements and evaluation of whether their presentation, the accounting principles and policies applied and the estimates made comply with the applicable regulatory financial reporting framework.

In our opinion, the accompanying consolidated financial statements for 2013 present fairly, in all material respects, the consolidated equity and consolidated financial position of Abengoa, S.A. and Subsidiaries at 31 December 2013, and the consolidated results of their operations and their consolidated cash flows for the year then ended, in conformity with International Financial Reporting Standards as adopted by the European Union and the other provisions of the regulatory financial reporting framework applicable to the Group.

The accompanying consolidated directors' report for 2013 contains the explanations which the directors of Abengoa, S.A. consider appropriate about the Group's situation, the evolution of its business and other matters, but is not an integral part of the consolidated financial statements. We have checked that the accounting information in the consolidated directors' report is consistent with that contained in the consolidated financial statements for 2013. Our work as auditors was confined to checking the consolidated directors' report with the aforementioned scope, and did not include a review of any information other than that drawn from the accounting records of Abengoa, S.A. and Subsidiaries.

# Notes to the consolidated financial statements

## Note 1.- General information

Abengoa, S.A. is the parent company of the Abengoa Group (referred to hereinafter as 'Abengoa', 'the Group' or 'the Company'), which at the end of 2013, was made up of 578 companies: the parent company itself, 534 subsidiaries, 19 associates and 24 joint ventures. Additionally, as of the end of 2013, certain subsidiaries were participating in 227 temporary joint operations (UTE) and, furthermore, the Group held a number of interests, of less than 20%, in several other entities.

Abengoa, S.A. was incorporated in Seville, Spain on January 4, 1941 as a Limited Liability Company and was subsequently transformed into a Limited Liability Corporation ('S.A.' in Spain) on March 20, 1952. Its registered office is Campus Palmas Altas, C/ Energía Solar nº 1, 41014 Seville.

The Group's corporate purpose is set out in Article 3 of its Bylaws. It covers a wide range of activities, although Abengoa is principally an applied engineering and equipment manufacturer, providing integrated project solutions to customers in the following sectors: energy, telecommunications, transport, water utilities, environmental, industrial and service.

On October 17, 2013 Abengoa carried out a capital increase of 250,000,000 class B shares and on October 29, 2013 the Company issued, as a result of the exercise of the option to purchase additional shares to cover over-allotment by the underwriters of the capital increase, 37,500,000 additional Class B shares ('greenshoe' option).

Abengoa's shares are represented by class A and B shares which are listed on the Madrid and Barcelona Stock Exchanges and on the Spanish Stock Exchange Electronic Trading System (Electronic Market). Class A shares have been listed since November 29, 1996 and class B shares since October 25, 2012. Additionally, Class B shares are also listed on the NASDAQ Global Select Market in the form of American Depositary Shares from October 29, 2013 as mentioned above (see Note 18) The Company presents mandatory financial information quarterly and semiannually.

Abengoa is an international company that applies innovative technology solutions for sustainability in the energy and environment sectors, generating electricity from renewable resources, converting biomass into biofuels and producing drinking water from sea water. The Company supplies engineering projects under the 'turnkey' contract modality and operates assets that generate renewable energy, produce biofuel, manage water resources, desalinate sea water and treat sewage.

Abengoa`s activity and the internal and external management information are organized under the following three activities:

- Engineering and construction: includes our traditional engineering activities in the energy and water sectors, with more than 70 years of experience in the market and the development of thermo-solar technology. Abengoa is specialized in carrying out complex turn-key projects for thermo-solar plants, solar-gas hybrid plants, conventional generation plants, biofuels plants and water infrastructures, as well as large-scale desalination plants and transmission lines, among others.
- Concession-type infrastructures: groups together the company's extensive portfolio of proprietary concession assets that generate revenues governed by long term sales agreements, such as take-or-pay contracts, tariff contracts or power purchase agreements. This activity includes the operation of electric (solar, cogeneration or wind) energy generation plants and transmission lines. These assets generate low demand risk and the Company focuses on operating them as efficiently as possible.
- Industrial production: covers Abengoa's businesses with a commodity component, such as biofuels and industrial waste recycling (until the sale of shareholding in Befesa Medio Ambiente, S.L.U. (Befesa), see Note 7.1). The Company holds an important leadership position in these activities in the geographical markets in which it operates.

These Consolidated Financial Statements were approved by the Board of Directors on February 20, 2014.

All public documents on Abengoa may be viewed at www.abengoa.com.

# Note 2.- Significant accounting policies

The significant accounting policies adopted in the preparation of the accompanying Consolidated Financial Statements are set forth below:

## 2.1. Basis of presentation

The Consolidated Financial Statements as of December 31, 2013 have been prepared in accordance with International Financial Reporting Standards adopted by de European Union (IFRS-EU) and they present the Group's equity and financial position as of December 31, 2013 and the consolidated results of its operations, the changes in the consolidated net equity and the consolidated cash flows for the financial year ending on that date.

Unless otherwise stated, the accounting policies set out below have been applied consistently throughout all periods presented within these Consolidated Financial Statements.

The Consolidated Financial Statements have been prepared under the historical cost convention, modified by the revaluation of certain available-for-sale non-current financial assets under IFRS 1 and with the exception of those situations where IFRS-EU requires that financial assets and financial liabilities are valued at fair value.

The preparation of the Consolidated Financial Statements under IFRS-EU requires the use of certain critical accounting estimates. It also requires that Management exercises its judgment in the process of applying Abengoa's accounting policies. Note 3 provides further information on those areas which involve a higher degree of judgment or areas of complexity for which the assumptions or estimates made are significant to the financial statements.

The amounts included within the documents comprising the Consolidated Financial Statements (Consolidated Statement of Financial Position, Consolidated Income Statement, Consolidated Statement of Comprehensive Income, Consolidated Statement of Changes in Equity, Consolidated Cash Flow Statement and notes herein) are, unless otherwise stated, all expressed in thousands of Euros (€).

Unless otherwise stated, any presented percentage of interest in subsidiaries, joint ventures (including temporary joint operations) and associates includes both direct and indirect ownership.

### 2.1.1. Application of new accounting standards

a) Standards, interpretations and amendments effective from January 1, 2013 under IFRS-EU, applied by the Group:

- IFRS 13 'Fair value measurement'. IFRS 13 defines fair value, sets out a framework for measuring fair value in a single IFRS and requires disclosures about fair value measurements.

  According to IFRS 13, this standard has been applied prospectively from the beginning of the annual period in which it is initially applied. The disclosure requirements of this IFRS do not need to be applied to compare information provided for periods prior to the initial application of this IFRS.

  The main impact relates to the measurement of the financial derivatives that the Group has, including call options on Abengoa's own shares that were signed to hedge the convertible notes as well as the embedded derivative in the convertible notes (see Note 14). This impact is not significant on the Consolidated Financial Statements.

- International Accounting Standard (IAS) 1 (amendment) 'Financial statements presentation'. The main change resulting from this amendment is a requirement to group items presented in 'other comprehensive income' (OCI) into two categories on the basis of whether or not they will be subsequently reclassified to profit or loss (reclassification adjustments).

b) In preparing these Consolidated Financial Statements as of December 31, 2013, the Group has applied the following new standards and amendments that came into effect on January 1, 2013 under the IFRS approved by the International Accounting Standards Board, hereinafter IFRS-IASB (January 1, 2014 under IFRS-EU), and which have been early applied under IFRS-EU:

# 02 Consolidated financial statements

- IFRS 10, 'Consolidated Financial Statements'. IFRS 10 supersedes current consolidation requirements of IAS 27 and establishes principles for the presentation and preparation of Consolidated Financial Statements when an entity controls one or more other entities. IFRS 10 modifies the former definition of control. The new definition of control sets out the following three elements: power over the investee; exposure, or rights, to variable returns from involvement with the investee; and the ability to use power over the investee to affect the amount of the investor's returns.
- IFRS 11 'Joint Arrangements'. IFRS 11, supersedes the current IAS 31 about joint ventures, and under this standard investments in joint arrangements are classified either as joint operations or joint ventures, depending on the contractual rights and obligations each investor has rather than just the legal structure of the joint arrangement. Joint operations arise where a joint operator has rights to the assets and obligations relating to the arrangement and hence accounts for its interest in assets, liabilities, revenue and expenses. Joint ventures arise where the joint operator has rights to the net assets of the arrangement and accounts for its interest under the equity method. Proportional consolidation of joint ventures is no longer allowed.
- IFRS 12 'Disclosures of Interests in Other Entities'. IFRS 12 defines the required disclosures of interests in subsidiaries, associates, joint ventures and non-controlling interests.
- IAS 27 (amendment) 'Separated Financial Statements'. After the publication of IFRS 10 has been published, IAS 27 covers only separate financial statements.
- IAS 28 (amendment) 'Associates and Joint Ventures'. IAS 28 has been amended to include the requirements for joint ventures to be accounted for under the equity method following the issuance of IFRS 11.
- IFRS 10, IFRS 11 and IFRS 12 (amendments) 'Transition guidance'.

The main impacts of the application of the new standards IFRS 10 and 11, as well as the amendments to IAS 27 and 28, in relation to what was applied previously, relate to:

(i) The de-consolidation of companies that do not fulfill the conditions of effective control of the interest in terms of decision making and leading to their integration in the consolidated financial statements according to the equity method. It is expected that some of these projects have been de-consolidated in the construction phase because they do not fulfill the control requirements and will be fully consolidated again once they enter into operation and control over them is gained.

(ii) The elimination of the proportional consolidation for the joint ventures, with the equity method being applied instead.

According to the terms and requirements established in IAS 8 'Accounting policies, changes in accounting estimates and errors', the above standards and amendments have been retrospectively applied, recasting the comparison information presented for the year 2012, to which these standards and amendments had not been applied, in order to make it comparable with the information at December 31, 2013. Additionally, according to IAS 1 (40A), the Consolidated Statement of Financial Position has been presented early in the first period (January 1, 2012). According to IAS 1 (40c), it has not been necessary to present the notes relating to the Consolidated "Financial Statement of Position opening at the beginning of the period indicated above.

The effect of the de-consolidation of the affected companies and their integration according to the equity method on the Consolidated Statements of Financial Position as of December 31, 2012 and January 1, 2012 is shown below:

| | Balance as of 12.31.12 | Balance as of 01.01.12 |
|---|---|---|
| **Assets** | | |
| Intangible assets and Property, Plant & Equipment | (25,212) | 2,198 |
| Fixed assets in projects (project finance) | (2,341,152) | (1,501,341) |
| Investments in associates carried under the equity method | 855,627 | 647,945 |
| Financial investments | 31,775 | 30,679 |
| Deferred tax assets | (18,976) | (7,283) |
| Current assets | 237,834 | (15,239) |
| **Total assets** | **(1,260,104)** | **(843,041)** |
| **Equity and liabilities** | | |
| Equity | (19,959) | 20,584 |
| Long-term non-recourse project financing | (1,707,460) | (876,168) |
| Long-term corporate financing | (40) | 6,884 |
| Other non-current liabilities | (189,989) | (92,164) |
| Current liabilities | 657,344 | 97,823 |
| **Total equity and liabilities** | **(1,260,104)** | **(843,041)** |

In addition, the effect of this de-consolidation on the consolidated income statement for the year 2012 is shown below:

| | For the year ended 12.31.12 |
|---|---|
| Revenue | (57,235) |
| Other operating income | (64,756) |
| Operating expenses | 62,745 |
| I. Operating profit | (59,246) |
| II. Financial expense, net | 27,487 |
| III. Share of profit/(loss) of associates carried under the equity method | 19,477 |
| IV. Profit before income tax | (12,282) |
| V. Income tax benefit | 7,823 |
| VI. Profit for the period from continuing operations | (4,459) |
| VII. Profit attributable to non-controlling interests | 4,459 |
| **VIII. Profit for the period attributable to the parent company** | **-** |

Subsidiary companies included in the consolidation perimeter using the equity method, due to the application of new accounting standards, are disclosed in Appendix XVII.

c) Standards, interpretations and amendments published by the IASB that will be effective for periods beginning on or after January 1, 2014:

- IAS 32 (amendment) 'Offsetting of financial assets and financial liabilities'. The IAS 32 amendment is mandatory for periods beginning on or after January 1, 2014 under IFRS-EU and IFRS-IASB and is to be applied retroactively.
- IAS 36 (Amendment) 'Recoverable Amount Disclosures for Non-Financial Assets'. The IAS 36 amendment is mandatory for periods beginning on or after January 1, 2014 under IFRS-EU and IFRS-IASB.

- IAS 39 (Amendment) 'Novation of Derivatives and Continuation of Hedge Accounting'.The IAS 39 amendment is mandatory for periods beginning on or after January 1, 2014 under IFRS-EU and IFRS-IASB.
- IFRS 9 'Financial Instruments'. This Standard will be effective from January 1, 2017 under IFRS-IASB and has not yet been adopted by the EU.

The Group is currently in the process of evaluating the impact on the Consolidated Financial Statement derived from the application of these new standards.

### 2.1.2. IFRIC 12 – Service concession arrangements

As stated in the consolidated financial statements for 2011 and as a result of IFRIC 12 'Service Concession Arrangements' that came into effect in 2010, the Company carried out an analysis of other agreements in the Group and identified further infrastructures, specifically thermosolar plants in Spain included under the special arrangements of RD 661/2007 and recorded in the pre-assignment register in November 2009, which could potentially be classified as service concession arrangements.

Nevertheless, at the end of 2010, the company decided that it needed to carry out a more in-depth analysis of the issue since the reasons that justified the accounting application of the interpretation had not been sufficiently proven based on the information available at that date.

During 2010 and 2011, the Spanish government issued several laws and resolutions that regulate the market for renewable energy in Spain in general, and thermo-solar activities in particular. In early 2011, when Abengoa received a set of individual rulings from the Spanish Ministry of Industry for each of its thermosolar assets,the Company returned to work on the analysis of applying IFRIC 12 to its thermosolar plants in Spain. In September 2011 the Company concluded that it was required to start applying IFRIC 12 to its thermosolar plants in Spain included under the special scheme of Royal Decree 661/2007 and recorded in the pre-assignment register in November 2009, just as it was doing for its other concession assets, based on all available information and the newly acquired knowledge from the analysis performed.

As explained in the preceding paragraphs, it was not possible to allow application on January 1, 2010 of IFRIC 12 to those thermosolar plants and, as indicated in Paragraph 52 of IAS 8 on Accounting Policy and Changes to Accounting Estimates, the application became prospective as from September 1, 2011.

At the time of application of IFRIC 12, the Company reclassified all capitalized costs under the heading of 'other assets in projects' relating to thermosolar plants into 'concession assets in projects' for an amount of €1.6 billion. Similarly, from September 1, 2011, all revenues and costs related to the construction of these plants were recorded based on the percentage of completion method in accordance with IAS 11, from the date of the prospective application of IFRIC 12 to the end of the construction of these assets which were estimated for completion in 2013. This treatment deferred recognition of the costs, margins and revenues generated up to that date and previously eliminated in consolidation prospectively, pro rata, over the term of the remaining construction period.

During 2013, the Company re-evaluated the assumptions made in 2011 that justified the application of IFRIC 12 to thermosolar plants in Spain as described above. On June 30, 2013 and based on the provisions of IAS 8.14, the Directors deemed it necessary to change the accounting policy applied to these plants. It is believed that financial statements will provide more reliable and comparable information about the application of IFRIC 12 to thermosolar plants in Spain. The accounting change modifies the method in which we initially applied IFRIC 12, as well as the date on which IFRIC 12 was applied (January 1, 2011 instead of September 1, 2011).

The revised accounting treatment has consisted in applying IFRIC 12 prospectively from January 1, 2011 by derecognizing, our thermo-solar plant assets previously recognized at cost as ''Property, Plant and Equipment in Projects'' and recognizing those thermo-solar plant assets at fair value as ''Concession Assets in Projects''. The difference of €165 million was recorded in that moment in ''Other Operating Income'' on the consolidated income statement. From January 1, 2011, only the remaining contract revenue, costs and margins generated after such date for the ongoing construction of the plants began to be recognized based on the ''percentage of completion'' accounting method in accordance with IAS 11. In addition, the revenue and operating profit that was previously deferred upon original adoption of IFRIC 12 and recognized prospectively during fiscal years 2011 and 2012 has been eliminated. The change in application date resulted in the recognition of revenues and costs associated with the construction activities that occurred between January 1, 2011 and September 1, 2011,that were previously eliminated.

This change in accounting policy for the application of IFRIC 12 to the thermosolar plants in Spain, reflects the spirit of Paragraph 45 of IAS 1 which justifies changes in the presentation (in addition to the classification) of annual accounts. As a result of the change, there is an improved presentation of the financial statements. They better reflect the plant construction operations underway in each financial year, without altering the trend of the group's earnings. They also facilitate comparisons between periods.

In accordance with the terms and requirements of IAS 8 for 'Accounting policies, changes in acccounting estimates and errors', the above standard has been applied by recasting the comparative information presented, to make it comparable with the information for the year ended December 31, 2013. Consequently, and in accordance with IAS 1, a third Consolidated Statement of Financial Position as of January 1, 2012 has been included corresponding to the beginning of the earliest comparative period. The consolidated income statement and statement of financial position within our Annual Consolidated Financial Statements have not been recasted to retrospectively apply IFRIC 12 to thermo-solar electricity generation plants in Spain for any period prior to January 1, 2011.

The following table shows the impact of this change on the consolidated statements of financial position as of December 31, 2012 and January 1, 2012:

| | 12.31.12 | 01.01.12 |
|---|---|---|
| **Assets** | | |
| Fixed assets in projects (project finance) | 69,595 | 173,986 |
| Deferred tax assets | (20,879) | (52,196) |
| **Total assets** | **48,716** | **121,790** |
| **Equity and liabilities** | | |
| Equity | 48,716 | 121,790 |
| **Total equity and liabilities** | **48,716** | **121,790** |

In addition, the following table shows the impact of this change on the consolidated income statement for the year 2012:

| | 2012 |
|---|---|
| Revenue | (808,484) |
| Other operating income | - |
| Operating expenses | 704,093 |
| I. Operating profit | (104,391) |
| IV. Profit before income tax | (104,391) |
| V. Income tax benefit | 31,317 |
| VI. Profit for the period from continuing operations | (73,074) |
| VII. Profit attributable to non-controlling interests | 3,033 |
| **VIII. Profit for the period attributable to the parent company** | **(70,041)** |

The impact of this change in accounting policy on the basic and diluted earnings per share for the year ended December 31, 2012 was €0.13 per share.

## 2.2. Principles of consolidation

In order to provide information on a consistent basis, the same principles and standards applied to the parent company have been applied to all other consolidated entities.

All subsidiaries, associates and joint ventures included in the consolidated group for the years 2013 and 2012 that form the basis of these Consolidated Financial Statements are set out in Appendices I (XII), II (XIII) and III (XIV), respectively.

Note 6 of these Consolidated Financial Statements reflects the information on the changes in the composition of the Group.

### a) Subsidiaries

Subsidiaries are those entities over which Abengoa has control.

Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee when facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

The Company operates an integrated business model in which it provides complete services form initial design, construction and engineering to operation and maintenance of infrastructure assets. In order to evaluate the existence of control, we need to distinguish two independent stages in these projects in terms of decision making process: the construction phase and the operation phase. In some of these projects (such as Solana and Mojave thermo-solar plants in the United States, Hugoton second generation biofuels plant in the United States and solar plants currently under construction in South Africa), all the relevant decisions during the construction phase are subject to the approval and control of a third party. As a result, Abengoa does not have control over these assets during this period and records these companies as associates under the equity method. Once the project is in operation, Abengoa gains control over these companies which are then fully consolidated.

When the Company has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

- the size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Company, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary.

The Group uses the acquisition method to account for business combinations. According to this method, the consideration transferred for the acquisition of a subsidiary corresponds to the fair value of the assets transferred, the liabilities incurred and the equity interests issued by the Group and includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Any contingent consideration is recognized at fair value at the acquisition date and subsequent changes in its fair value are recognized in accordance with IAS 39 either in profit or loss or as a change to other comprehensive income. Acquisition related costs are expensed as incurred. Identifiable assets acquired, liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. The Group recognizes any non controlling interest in the acquiree either at fair value or at the non controlling interest's proportionate share of the acquirer's net assets on an acquisition basis.

The value of non controlling interest in equity and the consolidated results are shown, respectively, under 'Non controlling interest' of the Consolidated Statements of Financial Position and 'Profit attributable to non controlling interest' in the Consolidated Income Statements.

Profit for the period and each component of other comprehensive income are attributed to the owners of the Company and to the non controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non controlling interests even if this results in the non controlling interests having a total negative balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

In compliance with Article 155 of Spanish Corporate Law (Ley de Sociedades de Capital), the parent company has notified all these companies that, either by itself or through another subsidiary, it owns more than 10 per 100 shares of their capital. Appendix IX lists the Companies external to the Group which have a share equal to or greater than 10% of a subsidiary of the parent company under consolidation.

## b) Associates and joint ventures

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture (as opposed to a joint operation described in section c) below) is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The results and assets and liabilities of associates or joint ventures are incorporated in these Consolidated Financial Statements using the equity method of accounting. Under the equity method, an investment in an associate or a joint venture is initially recognized in the consolidated statement of financial position at cost and adjusted thereafter to recognize the Group's share of the profit or loss and other comprehensive income of the associate or joint venture. When the Group's share of losses of an associate or a joint venture exceeds the Group's interest in that associate or joint venture, the Group discontinues recognizing its share of further losses. Additional losses are recognized only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture.

An investment in an associate or a joint venture is accounted for using the equity method from the date on which the investee becomes an associate or a joint venture.

Profits and losses resulting from the transactions of the Company with the associate or joint venture are recognized in the Group's Consolidated Financial Statements only to the extent of interests in the associate or joint venture that are not related to the Group.

In compliance with Article 155 of Spanish Corporate Law (Ley de Sociedades de Capital), the parent company has notified all these companies that, either by itself or through another subsidiary, it owns more than 10 per 100 shares of their capital.

As of December 31, 2013 and 2012 there are no significant contingent liabilities in the Group's interests in joint ventures.

## c) Interest in joint operations and temporary joint operations (UTE)

A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets, and obligations for the liabilities, relating to the arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

When a group entity undertakes its activities under joint operations, the Group as a joint operator recognises in relation to its interest in a joint operation:

- Its assets, including its share of any assets held jointly.
- Its liabilities, including its share of any liabilities incurred jointly.
- Its share of the revenue from the sale of the output by the joint operation.
- Its expenses, including its share of any expenses incurred jointly.

When a group entity transacts with a joint operation in which a group entity is a joint operator (such as a purchase of assets), the Group does not recognize its share of the gains and losses until it resells those assets to a third party.

'Unión Temporal de Empresas' (UTE) are temporary joint operations generally formed to execute specific commercial and/or industrial projects in a wide variety of areas and particularly in the fields of engineering and construction and infrastructure projects. They are normally used to combine the characteristics and qualifications of the UTE's partners into a single proposal in order to obtain the most favorable technical assessment possible. UTE are normally limited as standalone entities with limited action, since, although they may enter into commitments in their own name, such commitments are generally undertaken by their partners, in proportion to each investor's share in the UTE.

The partners' shares in the UTE normally depend on their contributions (quantitative or qualitative) to the project, are limited to their own tasks and are intended solely to generate their own specific results. Each partner is responsible for executing its own tasks and does so in its own interests.

The fact that one of the UTE's partners acts as project manager does not affect its position or share in the UTE. The UTE's partners are collectively responsible for technical issues, although there are strict pari passu clauses that assign the specific consequences of each investor's correct or incorrect actions.

UTE are not variable interest or special purpose entities. UTE do not usually own assets or liabilities on a standalone basis. Their activity is conducted for a specific period of time that is normally limited to the execution of the project. The UTE may own certain fixed assets used in carrying out its activity, although in this case they are generally acquired and used jointly by all the UTE's investors, for a period similar to the project's duration, or prior agreements are signed by the partners on the assignment or disposal of the UTE's assets upon completion of the project.

UTE in which the Company participates are operated through a management committee comprised of equal representation from each of the temporary joint operation partners, and such committee makes all the decisions about the temporary joint operation's activities that have a significant effect on its success. All the decisions require consent of each of the parties sharing power, so that all the parties together have the power to direct the activities of the UTE. Each partner has rights to the assets and obligations relating to the arrangement. As a result, these temporary joint operations are consolidated proportionally.

The proportional part of the UTE's Consolidated Statement of Financial Position and Consolidated Income Statement is integrated into the Consolidated Statement of Financial Position and the Consolidated Income Statement of the Company in proportion to its interest in the UTE on a line by line basis.

As of December 31, 2013 and 2012 there are no significant material contingent liabilities in relation to the Group's shareholdings in the UTE.

### d) Transactions with non-controlling interests

Transactions with non-controlling interests are accounted for as transactions with equity owners of the group. When the Group acquires non-controlling interests, the difference between any consideration paid and the carrying value of the proportionate share of net assets acquired is recorded in equity. Gains or losses on disposals of non-controlling interests are also recorded in equity.

When the group ceases to have control or significant influence, any retained interest in the entity is remeasured to its fair value, and any difference between fair value and its carrying amount is recognized in profit or loss. In addition, any amount previously recognized in other comprehensive income in respect of that entity is accounted for as if the group had directly disposed of the related assets or liabilities.

Companies and entities which are third parties the Group and which hold a share equal to or larger than 10% in the share capital of any company included in the consolidation group are disclosed in Appendix VIII.

## 2.3. Intangible assets

### a) Goodwill

Goodwill is recognized as the excess between (A) and (B), where (A) is the sum of the considerations transferred, the amount of any non-controlling interest in the acquiree and in the case of a business combination achieved in stages, the fair value on the acquisition date of the previously held interest in the acquiree and (B) the net value, at the acquisition date, of the identifiable assets acquired, the liabilities and contingent liabilities assumed, measured at fair value. If the resulting amount is negative, in the case of a bargain purchase, the difference is recognized as income directly in the Consolidated Income Statement.

Goodwill relating to the acquisition of subsidiaries is included in intangible assets, while goodwill relating to associates is included in investments in associates.

Goodwill is carried at initial value less accumulated impairment losses (see Note 2.8). Goodwill is allocated to Cash Generating Units (CGU) for the purposes of impairment testing, these CGU's being the units which are expected to benefit from the business combination that generated the goodwill.

### b) Computer programs

Costs paid for licenses for computer programs are capitalized, including preparation and installation costs directly associated with the software. Such costs are amortized over their estimated useful life. Maintenance costs are expensed in the period in which they are incurred.

Costs directly related with the production of identifiable computer programs are recognized as intangible assets when they are likely to generate future economic benefit for a period of one or more years and they fulfill the following conditions:

- it is technically possible to complete the production of the intangible asset;
- management intends to complete the intangible asset;
- the Company is able to use or sell the intangible asset;
- there are technical, financial and other resources available to complete the development of the intangible asset; and
- disbursements attributed to the intangible asset during its development may be reliably measured.

Costs directly related to the production of computer programs recognized as intangible assets are amortized over their estimated useful lives which do not exceed 10 years.

Costs that do not meet the criteria above are recognized as expenses in the Consolidated Income Statement when incurred.

### c) Research and development cost

Research costs are recognized as an expense when they are incurred.

Development costs (relating to the design and testing of new and improved products) are recognized as an intangible asset when all the following criteria are met:

- it is probable that the project will be successful, taking into account its technical and commercial feasibility, so that the project will be available for its use or sale;
- it is probable that the project will generate future economic benefits;
- management intends to complete the project;
- the Company is able to use or sell the intangible asset;
- there are appropriate technical, financial or other resources available to complete the development of the intangible asset; and
- the costs of the project/product can be measured reliably.

Once the product is in the market, capitalized costs are amortized on a straight-line basis over the period for which the product is expected to generate economic benefits, which is normally 5 years, except for development assets related to the thermo-solar plant using tower technology which are amortized over 25 years and the second-generation biofuels plant which is amortized according to its useful life.

Development costs that do not meet the criteria above are recognized as expenses in the Consolidated Income Statement when incurred.

Grants or subsidized loans obtained to finance research and development projects are recognized as income in the Consolidated Income Statement consistently with the expenses they are financing (following the rules described above).

## 2.4. Property, plant and equipment

Property, plant and equipment includes property, plant and equipment of companies or project companies which have been self-financed or financed through external financing with recourse facilities or through non-recourse project finance.

In general, property, plant and equipment is measured at historical cost, including all expenses directly attributable to the acquisition, less depreciation and impairment losses, with the exception of land, which is presented net of any impairment losses.

Subsequent costs are capitalized when it is probable that future economic benefits associated with that asset can be separately and reliably identified.

Work carried out by a company on its own property, plant and equipment is valued at production cost. In construction projects of the Company's owned assets carried out by its Engineering and Construction segment which are not under the scope of IFRIC 12 on Service Concession Arrangements (see Note 2.5), internal margins are eliminated. The corresponding costs are recognized in the individual expense line item in the accompanying income statements. The recognition of an income for the sum of such costs through the line item 'Other income- Work performed by the entity and capitalized and other' results in these costs having no impact in net operating profit. The corresponding assets are capitalized and included in property, plant and equipment in the accompanying balance sheets.

All other repair and maintenance costs are charged to the Consolidated Income Statement in the period in which they are incurred.

Costs incurred during the construction period may also include gains or losses from foreign-currency cash-flow hedging instruments for the acquisition of property, plant and equipment in foreign currency, transferred from equity.

With regard to investments in property, plant and equipment located on land belonging to third parties, an initial estimate of the costs of dismantling the asset and restoring the site to its original condition is also included in the carrying amount of the asset. Such costs are recorded at their net present value in accordance with IAS 37.

The annual depreciation rates of property, plant and equipment (including property, plant and equipment in projects) are as follows:

| Items | % of depreciation |
|---|---|
| **Lands and buildings** | |
| Buildings | 2% - 3% |
| **Technical installations and machinery** | |
| Installations | 3% - 4% - 12% - 20% |
| Machinery | 12% |
| **Other fixed assets** | |
| Data processing equipment | 25% |
| Tools and equipment | 15% - 30% |
| Furniture | 10% - 15% |
| Works equipment | 30% |
| Transport elements | 8% - 20% |

The assets' residual values and useful economic lives are reviewed, and adjusted if necessary, at the end of the accounting period of the company which owns the asset.

When the carrying amount of an asset is higher than its recoverable amount, the carrying amount is reduced immediately to reflect the lower recoverable amount.

## 2.5. Fixed assets in projects (project finance)

This category includes property, plant and equipment, intangible assets and financial assets of consolidated companies which are financed through Non-recourse Project Finance, that are raised specifically and solely to finance individual projects as detailed in the terms of the loan agreement.

These non-recourse Project Finance assets are generally the result of projects which consist of the design, construction, financing, application and maintenance of large-scale complex operational assets or infrastructures, which are owned by the company or are held under a concession agreement for a period of time. The projects are initially financed through non-recourse medium-term bridge loans and later by Non-recourse Project Finance.

In this respect, the basis of the financing agreement between the Company and the bank lies in the allocation of the cash flows generated by the project to the repayment of the principal amount and interest expenses, excluding or limiting the amount secured by other assets, in such a way that the bank recovers the investment solely through the cash flows generated by the project financed, any other debt being subordinated to the debt arising from the non-recourse financing applied to projects until the non-recourse debt has been fully repaid. For this reason, fixed assets in projects are separately reported on the face of the Consolidated Statement of Financial Position, as is the related non-recourse debt in the liability section of the same statement.

Assets in the 'fixed assets in projects' line item of the Consolidated Statement of Financial Position are sub-classified under the following two headings, depending upon their nature and their accounting treatment:

### 2.5.1. Concession assets in projects

This heading includes fixed assets financed through non-recourse loans related to Service Concession Arrangements recorded in accordance with IFRIC 12. IFRIC 12 states that service concession arrangements are public-to-private arrangements in which the public sector controls or regulates the services to be provided using the infrastructure and their prices, and is contractually guaranteed to gain, at a future time, ownership of the infrastructure through which the service is provided. The infrastructures accounted for by the Group as concessions are mainly related to the activities concerning power transmission lines, desalination plants, cogeneration plants and thermo-solar electricity generation plants. The infrastructure used in a concession can be classified as an intangible asset or a financial asset, depending on the nature of the payment entitlements established in the agreement (see Note 2.1.2).

#### a) Intangible asset

The Group recognizes an intangible asset when the demand risk to the extent that it has a right to charge final customers for the use of the infrastructure. This intangible asset is subject to the provisions of IAS 38 and is amortized linearly, taking into account the estimated period of commercial operation of infrastructure which generally coincides with the concession period.

The Group recognizes and measures revenue, costs and margin for providing construction services during the period of construction of the infrastructure in accordance with IAS 11 'Construction Contracts' and revenue for other services in accordance with IAS 18 'Revenue'. As indicated in Note 2.7, the interest costs derived from financing the project incurred during construction are capitalized during the period of time required to complete and prepare the asset for its predetermined used.

Once the infrastructure is in operation, the treatment of income and expenses is as follows:

Revenues from the updated annual royalty for the concession, as well as operations and maintenance services are recognized in each period according to IAS 18 'Ordinary income'.

Operating and maintenance costs and general overheads and administrative costs are charged to the Consolidated Income Statement in accordance with the nature of the cost incurred (amount due) in each period.

Financing costs are classified within heading finance expenses in the Consolidated Income Statement.

#### b) Financial asset

The Group recognizes a financial asset when demand risk is assumed by the grantor to the extent that the concession holder has an unconditional right to receive payments for construction or improvement services. This asset is recognized at the fair value of the construction or improvement services provided.

The valuation of the receivable account is performed according to the amortized cost method, the corresponding income from updating the flows of collections is recognized as revenue in the Consolidated Income Statement according to the effective interest rate.

The finance expenses of financing these assets are classified under the financial expenses heading of the Consolidated Income Statement.

As indicated above for intangible assets, income from operations and maintenance services is recognized in each period according to IAS 18 'Ordinary income'.

### 2.5.2. Other assets in projects

This heading includes tangible fixed and intagible assets which are financed through a non-recourse loan and are not subject to a concession agreement as described below. Their accounting treatment is described in Notes 2.3 y 2.4.

Non-recourse project finance typically includes the following guarantees:

- Shares of the project developers are pledged.

- Assignment of collection rights.
- Limitations on the availability of assets relating to the project.
- Compliance with debt coverage ratios.
- Subordination of the payment of interest and dividends to meet loan financial ratios.

Once the project finance has been repaid and the non-recourse debt and related guarantees fully extinguished, any remaining net book value reported under this category is reclassified to the Property, Plant and Equipment or Intangible Assets line items, as applicable, in the Consolidated Statement of Financial Position.

## 2.6. Current and non-current classification

Assets are classified as current assets if they are expected to be realized in less than 12 months after the date of the Consolidated Statements of Financial Position. Otherwise, they are classified as non-current assets.

Liabilities are classified as current liabilities unless an unconditional right exists to defer their repayment by at least 12 months following the date of the Consolidated Statement of Financial Position.

## 2.7. Borrowing costs

Interest costs incurred in the construction of any qualifying asset are capitalized over the period required to complete and prepare the asset for its intended use. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its internal use or sale, which in Abengoa is considered to be more than one year.

Costs incurred relating to non-recourse factoring are expensed when the factoring transaction is completed with the financial institution.

Remaining borrowing costs are expensed in the period in which they are incurred.

## 2.8. Impairment of non-financial assets

Abengoa reviews its property, plant and equipment, intangible assets with finite and indefinite useful life and goodwill to identify any indicators of impairment annually.

The recoverable amount of an asset is the higher of its fair value less costs to sell and its value in use, defined as the present value of the estimated future cash flows to be generated by the asset. In the event that the asset does not generate cash flows independently of other assets, Abengoa calculates the recoverable amount of the Cash-Generating Unit to which the asset belongs.

When the carrying amount of the Cash Generating Unit to which these assets belong is lower than its recoverable amount assets are impaired.

Assumptions used to calculate value in use include a discount rate, growth rates and projected changes in both selling prices and costs. The discount rate is estimated by Management, to reflect both changes in the value of money over time and the risks associated with the specific Cash-Generating Unit. Growth rates and changes in prices and costs are projected based upon internal and industry projections and management experience respectively. Financial projections range between 5 and 10 years depending on the growth potential of each Cash Generating Unit.

To calculate the value in use of the major goodwill balances, the following assumptions were made:

- 10-year financial projections were used for those Cash-Generating Units (CGUs) that have high growth potential based on cash flows taken into account in the strategic plans for each business unit, considering a residual value based on the flow in the final year of the projection.

  The use of these 10-year financial projections was based on the assumption that it is the minimum period necessary for the discounted cash flow model to reflect all potential growth in the CGUs in each business segment showing significant investments.

The aforementioned estimated cash flows were considered to be reliable due to their capacity to adapt to the real market and/or business situation faced by the CGU in accordance with the business's margin and cash-flow experience and future expectations.

These cash flows are reviewed and approved every six months by Senior Management so that the estimates are continually updated to ensure consistency with the actual results obtained.

In these cases, given that the period used is reasonably long, the Group then applies a zero growth rate for the cash flows subsequent to the period covered by the strategic plan.

- For concession assets with a defined useful life and with a specific financial structure, cash flow projections until the end of the project are considered and no terminal value is assumed.

  Concession assets have a contractual structure that permit the Company to estimate quite accurately the costs of the project (both in the construction and in the operations periods) and revenue during the life of the project.

  Projections take into account real data based on the contract terms and fundamental assumptions based on specific reports prepared by experts, assumptions on demand and assumptions on production. Additionally, assumptions on macro-economic conditions are taken into account, such as inflation rates, future interest rates, etc. and sensitivity analyses are performed over all major assumptions which can have a significant impact in the value of the asset.

- 5-year cash flow projections are used for all other CGUs, considering the residual value to be the cash flow in the final year projected.

- Cash flow projections of CGUs located in other countries are calculated in the functional currency of those CGUs and are discounted using rates that take into consideration the risk corresponding to each specific country and currency. Present values obtained with this method are then converted to euros at the year-end exchange rate of each currency.

- Taking into account that in most CGUs the specific financial structure is linked to the financial structure of the projects that are part of those CGUs, the discount rate used to calculate the present value of cash-flow projections is based on the weighted average cost of capital (WACC) for the type of asset, adjusted, if necessary, in accordance with the business of the specific activity and with the risk associated with the country where the project is performed.

- In any case, sensitivity analyses are performed, especially in relation with the discount rate used, residual value and fair value changes in the main business variables, in order to ensure that possible changes in the estimates of these items do not impact the possible recovery of recognized assets.

- Accordingly, the following table provides a summary of the discount rates used (WACC) and growth rates to calculate the recoverable amount for Cash-Generating Units with the operating segment to which it pertains:

| Operating segment | Discount rate | Growth Rate |
|---|---|---|
| **Engineering and construction** | | |
| Engineering and construction | 8% - 11% | 0% |
| | | |
| **Concession-type infrastructure** | | |
| Solar | 4% - 6% | 0% |
| Water | 6% - 8% | 0% |
| Transmission lines | 5% - 10% | 0% |
| Cogeneration and other | 6% - 8% | 0% |
| | | |
| **Industrial production** | | |
| Biofuels | 5% - 8% | 0% |

In the event that the recoverable amount of an asset is lower than its carrying amount, an impairment charge for the difference is recorded in the Consolidated Income Statement under the item 'Depreciation, amortization and impairment charges'. With the exception of goodwill, impairment losses recognized in prior periods which are later deemed to have been recovered are credited to the same income statement heading.

## 2.9. Financial Investments (current and non-current)

Financial investments are classified into the following categories, based primarily on the purpose for which they were acquired:

a) financial assets at fair value through profit and loss;

b) loans and accounts receivable;

c) financial assets held to maturity; and

d) available for sale financial assets.

Classification of each financial asset is determinated by management upon initial recognition, and is reviewed at each year end.

### a) Financial assets at fair value through profit and loss

This category includes the financial assets acquired for trading and those initially designated at fair value through profit and loss. A financial asset is classified in this category if it is acquired mainly for the purpose of sale in the short term or if it is so designated by Management. Financial derivatives are also classified at fair value through profit and loss when they do not meet the accounting requirements to be designated as hedging instruments.

These financial assets are recognized initially at fair value, without including transaction costs. Subsequent changes in fair value are recognized under 'Gains or losses from financial assets at fair value' within the 'Finance income or expense' line of the Consolidated Income Statement for the period.

### b) Loans and accounts receivable

Loans and accounts receivable are non-derivative financial assets with fixed or determinable payments, not listed on an active market.

In accordance with IFRIC 12, certain assets under concessions qualify as financial receivables (see Note 2.5).

Loans and accounts receivable are initially recognized at fair value plus transaction costs and are subsequently measured at amortized cost in accordance with the effective interest rate method. Interest calculated using the effective interest rate method is recognized under 'Interest income from loans and debts' within the 'Finance income' line of the Consolidated Income Statement.

### c) Financial assets held to maturity

This category includes non-derivative financial assets expected to be held to maturity which have fixed or determinable payments.

These assets are initially recognized at fair value plus transaction costs and subsequently measured at their amortized cost under the effective interest rate method. Interest calculated under the effective interest rate method is recognized under 'Other finance income' within the 'Other net finance income/expense' line of the Consolidated Income Statement.

### d) Available for sale financial assets

This category includes non-derivative financial assets which do not fall within any of the previously mentioned categories. For Abengoa, they primarily comprise interests in other companies that are not consolidated.

Financial assets available for sale are initially recognized at fair value plus transaction costs and subsequently measured at fair value, with changes in fair value recognized directly in equity, with the exception of translation differences of monetary assets, which are charged to the Consolidated Income Statement. Dividends from available-for-sale financial assets are recognized under 'Other finance income' within the 'Other net finance income/expense' line of the Consolidated Income Statement when the right to receive the dividend is established.

When available for sale financial assets are sold or impaired, the accumulated amount recorded in equity is transferred to the Consolidated Income Statement. To establish whether the assets have been impaired, it is necessary to consider whether the reduction in their fair value is significantly below cost and whether it will be for a prolonged period of time. The cumulative gain or loss reclassified from equity to profit or loss when the financial assets are impaired is the difference between their acquisition cost (net of any principal repayment and amortization) and current fair value, less any impairment loss on that financial asset previously recognized in profit or loss. Impairment losses recognized in the Consolidated Income Statement are not subsequently reversed through the Consolidated Income Statement.

Acquisitions and disposals of financial assets are recognized on the trading date, i.e. the date upon which there is a commitment to purchase or sell the asset. Available for sale financial assets are derecognized when the right to receive cash flows from the investment has expired or has been transferred and all the risks and rewards derived from owning the asset have likewise been substantially transferred.

At the date of each Consolidated Statement of Financial Position, the Group evaluates if there is any objective evidence that the value of any financial asset or any group of financial assets has been impaired.

## 2.10. Derivative financial instruments and hedging activities

Derivatives are recorded at fair value. The Company applies hedge accounting to all hedging derivatives that qualify to be accounted for as hedges under IFRS.

When hedge accounting is applied, hedging strategy and risk management objectives are documented at inception, as well as the relationship between hedging instruments and hedged items. Effectiveness of the hedging relationship needs to be assessed on an ongoing basis. Effectiveness tests are performed prospectively and retrospectively at inception and at each reporting date, following the dollar offset method or the regression method, depending on the type of derivatives.

The Company has three types of hedges:

### a) Fair value hedge for recognized assets and liabilities

Changes in fair value of the derivatives are recorded in the Consolidated Income Statement, together with any changes in the fair value of the asset or liability that is being hedged.

### b) Cash flow hedge for forecasted transactions

The effective portion of changes in fair value of derivatives designated as cash flow hedges are recorded temporarily in equity and are subsequently reclassified from equity to profit or loss in the same period or periods during which the hedged item affects profit or loss. Any ineffective portion of the hedged transaction is recorded in the Consolidated Income Statement as it occurs.

When options are designated as hedging instruments (such as interest rate options described in Note 14), the intrinsic value and time value of the financial hedge instrument are separated. Changes in intrinsic value which are highly effective are recorded in equity and subsequently reclassified from equity to profit or loss in the same period or periods during which the hedged item affects profit or loss. Changes in time value are recorded in the Consolidated Income Statement, together with any ineffectiveness.

When the hedged forecasted transaction results in the recognition of a non-financial asset or liability, gains and losses previously recorded in equity are included in the initial cost of the asset or liability.

When the hedging instrument matures or is sold, or when it no longer meets the requirements to apply hedge accounting, accumulated gains and losses recorded in equity remain as such until the forecast transaction is ultimately recognized in the Consolidated Income Statement. However, if it becomes unlikely that the forecasted transaction will actually take place, the accumulated gains and losses in equity are recognized immediately in the Consolidated Income Statement.

### c) Net investment hedges in foreign operation

Hedges of a net investment in a foreign operation, including the hedging of a monetary item considered part of a net investment, are recognized in a similar way to cash flow hedges. The foreign currency transaction gain or loss on the non-derivative hedging instrument that is designated as, and is effective as, an economic hedge of the net investment in a foreign operation shall be reported in the same manner as a translation adjustment. That is, reported in the cumulative translation adjustment section of equity to the extent it is effective as a hedge, as long as the following conditions are met: the notional amount of the non-derivative instrument matches the portion of the net investment designated as being hedged and the non-derivative instrument is denominated in the functional currency of the hedged net investment. In that circumstance, no hedge ineffectiveness would be recognized in earnings.

Amounts recorded in equity will be reclassified to the Consolidated Income Statement when the foreign operation is sold or otherwise disposed of.

Contracts held for the purposes of receiving or making payment of non-financial elements in accordance with expected purchases, sales or use of goods ('own-use contracts') of the Group are not recognized as derivative instruments, but as executory contracts. In the event that such contracts include embedded derivatives, they are recognized separately from the host contract, if the economic characteristics of the embedded derivative are not closely related to the economic characteristics of the host contract. The options contracted for the purchase or sale of non-financial elements which may be cancelled through cash outflows are not considered to be own-use contracts.

Changes in fair value of derivative instruments which do not qualify for hedge accounting are recognized immediately in the Consolidated Income Statement. Trading derivatives are classified as a current assets or liabilities.

## 2.11. Fair value estimates

Financial instruments measured at fair value are presented in accordance with the following level classification based on the nature of the inputs used for the calculation of fair value:

- Level 1: Inputs are quoted prices in active markets for identical assets or liabilities.
- Level 2: Fair value is measured based on inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: Fair value is measured based on unobservable inputs for the asset or liability.

In the event that prices cannot be observed, the management shall make its best estimate of the price that the market would otherwise establish based on proprietary internal models which, in the majority of cases, use data based on observable market parameters as significant inputs (Level 2) but occasionally use market data that is not observed as significant inputs (Level 3). Different techniques can be used to make this estimate, including extrapolation of observable market data. The best indication of the initial fair value of a financial instrument is the price of the transaction, except when the value of the instrument can be obtained from other transactions carried out in the market with the same or similar instruments, or valued using a valuation technique in which the variables used only include observable market data, mainly interest rates. According to current legislation (IFRS-EU), differences between the transaction price and the fair value based on valuation techniques that use data that is not observed in the market, are not initially recognized in the income statement.

### a) Level 2 valuation

The majority of Abengoa's portfolio comprises financial derivatives designated as cash flow hedges, is classified as level 2 and corresponds mainly to the interest rate swaps (see Note 14).

Credit risk effect on the valuation of derivatives is calculated for each of the instruments in the portfolio of derivatives classified within level 2, using the own risk of the Abengoa companies and financial counterparty risk.

Description of the valuation method

- Interest rate swaps

  Interest rate swap valuations are made by valuing the swap component of the contract and valuing the credit risk.

  The most common methodology used by the market and applied by Abengoa to value interest rate swaps is to discount the expected future cash flows according to the parameters of the contract. Variable interest rates, which are needed to estimate future cash flows, are calculated using the curve for the corresponding currency and extracting the implicit rates for each of the reference dates in the contract. These estimated flows are discounted with the swap zero curve for the reference period of the contract 1, 3 or 6 months.

  The effect of the credit risk on the valuation of the interest rate swaps depends on the future settlement. If the settlement is favorable for the Company, the counterparty credit spread will be incorporated to quantify the probability of default at maturity. If the expected settlement is negative for the company, its own credit risk will be applied to the final settlement.

  Classic models for valuing interest rate swaps use deterministic valuation of the future of variable rates, based on future outlooks. When quantifying credit risk, this model is limited by considering only the risk for the current paying party, ignoring the fact that the derivative could change sign at maturity. A payer and receiver swaption model is used for these cases. This enables the associated risk in each swap position to be reflected. Thus, the model shows each agent's exposure, on each payment date, as the value of entering into the 'tail' of the swap, i.e. the live part of the swap.

- Interest rate caps and floors

  Interest rate caps and floors are valued by separating the derivative in the successive caplets/floorlets that comprise the transaction. Each caplet or floorlet is valued as a call or put option, respectively, on the reference interest rate, for which the Black-Scholes approach is used for European-type options (exercise at maturity) with minor adaptations and following the Black-76 model.

- Forward foreign exchange transactions

  Forward contracts are valued by comparing the contracted forward rate and the rate in the valuation scenario at the maturity date. The contract is valued by calculating the flow that would be obtained or paid from theoretically closing out the position and then discounting that amount.

- Commodity swaps

  Commodity swaps are valued in the same way as forward foreign exchange contracts, calculating the flow that would be obtained or paid from theoretically closing out the position.

- Equity options

  Equity options are valued using the Black-Scholes model for American-type options on equities.

- Embedded derivatives in convertible bonds

  The embedded derivatives in convertible bonds consist of an option to convert the bond into shares in favor of the bondholder; call options for the issuer to repurchase the bonds at a specific price on specific dates; and put options for the bondholder to redeem the bonds at a specific price and on specific dates. Since these are Bermuda-type options (multiple exercise dates), they are valued using the Longstaff-Schwartz model and the Monte Carlo method.

Variables (Inputs)

Interest rate derivative valuation models use the corresponding interest rate curves for the relevant currency and underlying reference in order to estimate the future cash flows and to discount them. Market prices for deposits, futures contracts and interest rate swaps are used to construct these curves. Interest rate options (caps and floors) also use the volatility of the reference interest rate curve.

Exchange rate derivatives are valued using the interest rate curves of the underlying currencies in the derivative, as well as the corresponding spot exchange rates.

The inputs in equity models include the interest rate curves of the corresponding currency, the price of the underlying asset, as well as the implicit volatility and any expected future dividends.

To estimate the credit risk of the counterparty, the credit default swap (CDS) spreads curve is obtained in the market for important individual issuers. For less liquid issuers, the spreads curve is estimated using comparable CDSs or based on the country curve. To estimate proprietary credit risk, prices of debt issues in the market and CDSs for the sector and geographic location are used.

The fair value of the financial instruments that results from the aforementioned internal models, takes into account, among other factors, the terms and conditions of the contracts and observable market data, such as interest rates, credit risk, exchange rates, commodities and share prices, and volatility. The valuation models do not include significant levels of subjectivity, since these methodologies can be adjusted and calibrated, as appropriate, using the internal calculation of fair value and subsequently compared to the corresponding actively traded price. However, valuation adjustments may be necessary when the listed market prices are not available for comparison purposes.

### b) Level 3 valuation

Level 3 includes shares in companies that, pursuant to the regulations in force, have not been included in the scope of consolidation for the years ended December 31, 2013 and 2012 and in which the Company's stake is greater than 5% and lower than 20%.

Fair value within these elements was calculated by taking as the main reference the value of the investment - the company's cash flow generation based on its current business plan, discounted at a rate appropriate for the sector in which each of the companies is operating. Valuations were obtained from internal models. These valuations could vary where other models and assumptions made on the principle variables had been used, however the fair value of the assets and liabilities, as well as the results generated by these financial instruments are considered reasonable.

Detailed information on fair values is included in Note 12.

## 2.12. Inventories

Inventories are valued at the lower of cost or net realizable value. In general, cost is determined by using the first-in-first-out (FIFO) method. The cost of finished goods and work in progress includes design costs, raw materials, direct labor, other direct costs and general manufacturing costs (assuming normal operating capacity). Borrowing costs are not included. The net realizable value is the estimated sales value in the normal course of business, less applicable variable selling costs.

Cost of inventories includes the transfer from equity of gains and losses on qualifying cash-flow hedging instruments related with the purchase of raw materials or with foreign exchange contracts.

## 2.13. Biological assets

Abengoa recognizes sugar cane in production as biological assets. The production period of sugar cane covers the period from preparation of the land and sowing the seedlings until the plant is ready for first production and harvesting. Biological assets are classified as property, plant and equipment in the Consolidated Statement of Financial Position. Biological assets are recognized at fair value, calculated as the market value less estimated harvesting and transport costs.

Agricultural products harvested from biological assets, which in the case of Abengoa are cut sugar cane, are classified as inventories and measured at fair value less estimated sale costs at the point of sale or harvesting.

Fair value of biological assets is calculated using as a reference the forecasted market price of sugarcane, which is estimated using public information and estimates on future prices of sugar and ethanol. Fair value of agricultural products is calculated using as a reference the price of sugar cane made public on a monthly basis by the Cane, Sugar and Alcohol Producers Board (Consecana).

Gains or losses arising as a result of changes in the fair value of such assets are recorded, within 'Operating profit' in the Consolidated Income Statement.

To obtain the fair value of the sugar cane while growing, a number of assumptions and estimates have been made in relation to the area of land sown, the estimated TRS (Total Recoverable Sugar contained within the cane) per ton to be harvested and the average degree of growth of the agricultural product in the different areas sown.

## 2.14. Clients and other receivables

Clients and other receivables relate to amounts due from customers for sales of goods and services rendered in the normal course of operation.

Clients and other receivables are recognized initially at fair value and are subsequently measured at amortized cost using the effective interest rate method, less provision for impairment. Trade receivables due in less than one year are carried at their face value at both initial recognition and subsequent measurement, provided that the effect of not discounting flows is not significant.

A provision for impairment of trade receivables is recorded when there is objective evidence that the Group will not be able to recover all amounts due as per the original terms of the receivables. The existence of significant financial difficulties, the probability that the debtor is in bankruptcy or financial reorganization and the lack or delay in payments are considered evidence that the receivable is impaired.

The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the effective interest rate. When a trade receivable is uncollectable, it is written off against the bad debt provision.

Clients and other receivables which have been factored with financial entities are derecognized and hence removed from assets on the Consolidated Statement of Financial Position only if all risks and rewards of ownership of the related financial assets have been transferred, comparing the Company's exposure, before and after the transfer, to the variability in the amounts and the calendar of net cash flows from the transferred asset. Once the Company's exposure to this variability has been eliminated or substantially reduced, the financial asset has been transferred, and is derecognized from the Consolidated Statement of Financial Position (See Note 4.b).

## 2.15. Cash and cash equivalents

Cash and cash equivalents include cash in hand, cash in bank and other highly-liquid current investments with an original maturity of three months or less which are held for the purpose of meeting short-term cash commitments.

In the Consolidated Statement of Financial Position, bank overdrafts are classified as borrowings within current liabilities.

## 2.16. Share capital

Parent company shares are classified as equity. Transaction costs directly attributable to new shares are presented in equity as a reduction, net of taxes, to the consideration received from the issue.

Treasury shares are classified in Equity-Parent company reserves. Any amounts received from the sale of treasury shares, net of transaction costs, are classified equity.

## 2.17. Government grants

Non-refundable capital grants are recognized at fair value when it is considered that there is a reasonable assurance that the grant will be received and that the necessary qualifying conditions, as agreed with the entity assigning the grant, will be adequately met.

Grants related to income are recorded as liabilities in the Consolidated Statement of Financial Position and are recognized in 'Other operating income' in the Consolidated Income Statement based on the period necessary to match them with the costs they intend to compensate.

Grants related to fixed assets are recorded as non-current liabilities in the Consolidated Statement of Financial Position and are recognized in 'Other operating income' in the Consolidated Income Statement on a straight-line basis over the estimated useful economic life of the assets.

## 2.18. Loans and borrowings

External resources are classified in the following categories:

a) non-recourse financing applied to projects (project financing) (see note 19);

b) corporate financing (see Note 20).

Loans and borrowings are initially recognized at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortized cost and any difference between the proceeds initially received (net of transaction costs incurred in obtaining such proceeds) and the repayment value is recognized in the Consolidated Income Statement over the duration of the borrowing using the effective interest rate method.

Interest free loans and loans with interest rates below market rates, mainly granted for research and development projects, are initially recognized at fair value in liabilities in the Consolidated Statement of Financial Position. The difference between proceeds received from the loan and its fair value is initially recorded within 'Grants and Other liabilities' in the Consolidated Statement of Financial Position, and subsequently recorded in 'Other operating income- Grants' in the Consolidated income statement when the costs financed with the loan are expensed. In the case of interest free loans received for development projects where the Company record an intangible asset, income from the grant will be recognized according to the useful life of the asset, at the same rate as we record its amortization.

Commissions paid for obtaining credit lines are recognized as transaction costs if it is probable that part or all of the credit line will be drawn down. If this is the case, commissions are deferred until the credit line is drawn down. If it is not probable that all or part of the credit line will be drawn down, commission costs are expensed in the period.

### 2.18.1. Convertible notes

Pursuant to the Terms and Conditions of each of the convertible notes issued, when investors exercise their conversion right, the Company may decide whether to deliver shares of the company, cash, or a combination of cash and shares (see Note 20.3 for further information).

In accordance with IAS 32 and 39, since Abengoa has a contractual right to choose the type of payment and one of these possibilities is paying through a variable number of shares and cash, the conversion option qualifies as an embedded derivative. Thus, the convertible bond is considered a hybrid instrument, which includes a component of debt and an embedded derivative for the conversion option held by the bondholder.

The Company initially measures the embedded derivative at fair value and classifies it under the derivative financial instruments liability heading. At the end of each period, the embedded derivative is re-measured and changes in fair value are recognized under 'Other net finance income or expense' within the 'Finance expense net' line of the Consolidated Income Statement. The debt component of the bond is initially recorded as the difference between the proceeds received for the notes and the fair value of the aforementioned embedded derivative. Subsequently, the debt component is measured at amortized cost until it is settled upon conversion or maturity. Debt issuance costs are recognized as a deduction in the value of the debt in the Consolidated Statement of Financial Position and included as part of its amortized cost.

### 2.18.2.Ordinary notes

The company initially recognizes ordinary notes at fair value, net of issuance costs incurred. Subsequently, notes are measured at amortized cost until settlement upon maturity. Any other difference between the proceeds obtained (net of transaction costs) and the redemption value is recognized in the Consolidated Income Statement over the term of the debt using the effective interest rate method.

## 2.19. Current and deferred income taxes

Income tax expense for the period comprises current and deferred income tax. Income tax is recognized in the Consolidated Income Statement, except to the extent that it relates to items recognized directly in equity. In these cases, income tax is also recognized directly in equity.

Current income tax expense is calculated on the basis of the tax laws in force or about to enter into force as of the date of the Consolidated Statement of Financial Position in the countries in which the subsidiaries and associates operate and generate taxable income.

Deferred income tax is calculated in accordance with the Consolidated Statement of Financial Position liability method, based upon the temporary differences arising between the carrying amount of assets and liabilities and their tax base. However, deferred income tax is not recognized if it arises from initial recognition of an asset or liability in a transaction other than a business combination that, at the time of the transaction, affects neither the accounting nor the taxable profit or loss. Deferred income tax is determined using tax rates and regulations which are enacted or substantially enacted at the date of the Consolidated Statement of Financial Position and are expected to apply and/or be in force at the time when the deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax assets are recognized only when it is probable that sufficient future taxable profit will be available to use deferred tax assets.

Deferred taxes are recognized on temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary differences is controlled by the Group and it is not probable that temporary differences will reverse in the foreseeable future.

## 2.20. Employee benefits

### a) Share plans

Certain Group companies have obligations in connection with certain share-based incentive plans for managers and employees. These plans are linked to the achievement of certain management objectives during the upcoming years. When the shares have an active market (which is the case for plans linked to Abengoa shares), personnel expense is recognized during the vesting period based on their fair value at grant date. In either case, the impact of these share plans on Abengoa's Consolidated Financial Statements is not significant. When there is a non-active market for the shares granted by the plan, personnel expense is recognized on the basis of the repurchase price identified in the plan during the vesting period.

Share plans are considered cash-settled share-based payment plans in accordance with IFRS 2, since the company compensates the participants for their services in exchange for the assumption of the market risk on the shares. By use of the guarantee on the loan, Abengoa guarantees participants, up to the end of the plan period, no personal losses in conjunction with a change in the price of the shares purchased. As such, Abengoa measures and recognizes at the end of each reporting period, a liability based on the value of the shares. Upon expiration of the Plan, employees may sell the shares to repay the individual loan or may otherwise repay the loan as they wish.

The fair value of the services received in exchange for the granting of the option is recognized as a personnel expense using the Black-Scholes valuation model. Certain inputs are used in the Black-Scholes model to generate variables such as the share price, the estimated return per dividend, the expected life of the option (5 years), the interest rates and the share market volatility, as appropriate.

The total amount charged to expenses during the vesting period is determined by reference to the fair value of a hypothetical option to sell ('put') granted by the company to the managers, excluding the effect of the vesting conditions that are not market conditions, and including in the hypotheses only the number of options that are expected will become exercisable. In this regard, the number of options it is expected will become exercisable is considered in the calculation.

### b) Bonus schemes

The Group records the amount annually accrued in accordance with the percentage of compliance with the plan's established objectives as personnel expense in the Consolidated Income Statement

Expenses incurred from employee benefits are disclosed in Note 29.

## 2.21. Provisions and contingencies

Provisions are recognized when:

- there is a present obligation, either legal or constructive, as a result of past events;
- it is more likely than not that there will be a future outflow of resources to settle the obligation; and
- the amount has been reliably estimated.

Provisions are initially measured at the present value of the expected outflows required to settle the obligation and subsequently valued at amortized cost following the effective interest method. The balance of Provisions disclosed in the Notes reflects management's best estimate of the potential exposure as of the date of preparation of the Consolidated Financial Statements.

Contingent liabilities are possible obligations, existing obligations with low probability of a future outflow of economic resources and existing obligations where the future outflow cannot be reliably estimated. Contingences are not recognized in the Consolidated Statements of Financial Position unless they have been acquired in a business combination.

## 2.22. Trade payables and other liabilities

Trade payables and other liabilities are obligations arising from the purchase of goods or services in the ordinary course of business and are recognized initially at fair value and are subsequently measured at their amortized cost using the effective interest method.

Other liabilities are obligations not arising from the purchase of goods or services in the normal course of business and which are not treated as financing transactions.

Advances received from customers are recognized as 'Trade payables and other current liabilities'.

## 2.23. Foreign currency transactions

### a) Functional currency

Financial statements of each subsidiary within the Group are measured and reported in the currency of the principal economic environment in which the subsidiary operates (subsidiary's functional currency). The Consolidated Financial Statements are presented in euro, which is Abengoa's functional and reporting currency.

### b) Transactions and balances

Transactions denominated in a currency different from the subsidiary's functional currency are translated into the subsidiary's functional currency applying the exchange rates in force at the time of the transactions. Foreign currency gains and losses that result from the settlement of these transactions and the translation of monetary assets and liabilities denominated in foreign currency at the year-end rates are recognized in the Consolidated Income Statement, unless they are deferred in equity, as occurs with cash-flow hedges and net investment in foreign operations hedges.

### c) Translation of the financial statements of foreign companies within the Group

Income Statements and Statements of Financial Position of all Group companies with a functional currency different from the group's reporting currency (Euro) are translated to Euros as follows:

1) All assets and liabilities are translated to Euros using the exchange rate in force at the closing date of the Financial Statements.

2) Items in the Income Statement are translated into Euros using the average annual exchange rate, calculated as the arithmetical average of the average exchange rates for each of the twelve months of the year, which does not differ significantly from using the exchange rates of the dates of each transaction.

3) The difference between equity, including profit or loss calculated as described in (2) above, translated at the historical exchange rate, and the net financial position that results from translating the assets, and liabilities in accordance with (1) above, is recorded in equity in the Consolidated Statement of Financial Position under the heading 'Accumulated currency translation differences'.

Results of companies carried under the equity method are translated at the average annual exchange rate calculated described in (2) above.

Goodwill arising on the acquisition of a foreign company is treated as an asset of the foreign company and is translated at the year-end exchange rate.

## 2.24. Revenue recognition

### a) Ordinary income

Ordinary income comprises the fair value of sales of goods or services, excluding VAT or similar taxes, any discounts or returns and excluding sales between Group entities.

Ordinary income is recognized as follows:

- Income from the sale of goods is recognized when the Group delivers the goods to the client, the client accepts them and it is reasonably certain that the related receivables will be collectible.
- Income from the sale of services is recognized in the period in which the service is provided.
- Interest income is recognized using the effective interest rate method. When a receivable is considered impaired, the carrying amount is reduced to its recoverable amount, discounting the estimated future cash flows at the original effective interest rate of the instrument and recording the discount as a reduction in interest income. Income from interest on loans that have been impaired is recognized when the cash is collected or on the basis of the recovery of the cost when the conditions are guaranteed.
- Dividend income is recognized when the right to receive payment is established.

### b) Construction contracts

Costs incurred in relation to construction contracts are recognized when incurred. When the outcome of a construction contract cannot be reliably estimated, revenues are only recognized up to the amount of the costs incurred to date that are likely to be recovered.

When the outcome of a construction contract can be reliably estimated and it is probable that it will be profitable, revenue from the contract is recognized over the term of the contract. When it is probable that the costs of the project will be greater than its revenue, expected loss is recognized immediately as an expense. To determine the appropriate amount of revenue to be recognized in any period, the percentage of completion method is applied. The percentage of completion method considers, at the date of the Statement of Financial Position, the actual costs incurred as a percentage of total estimated costs for the entire contract. Costs incurred in the period which relate to future project activities are not included when determining the percentage of completion. Prepayments and certain other assets are recognized as inventories, depending upon their specific nature.

Partial billing that has not yet been settled by the clients and withholdings is included under the Trade and other receivables heading.

Gross amounts owed by clients for ongoing works in which the costs incurred plus recognized profits (minus recognized losses) exceed partial billing are presented as assets under the heading of 'Unbilled Revenue' within 'Clients and other receivables' heading of the Statement of Financial Position.

On the other hand, amounts outstanding from customers for work in progress for which the billing to date is greater than the costs incurred plus recognized profits (less recognized losses) are shown as liabilities within the line item 'Advance payments from clients' in the Trade payables and other current liabilities caption of the Consolidated Statement of Financial Position.

Lastly, as stated in point 2.4 on the measurement of property, plant and equipment in internal asset construction projects outside the scope of IFRIC 12 on Service Concession Arrangements (see Note 2.5), revenues and profits between group companies are eliminated, meaning that such assets are shown at their acquisition cost.

### c) Concession contracts

Concession contracts are public-private agreements for periods usually between 20 and 30 years including both the construction of infrastructure and future services associated with the operation and maintenance of assets in the concession period. Revenue recognition, as well as, the main characteristics of these contracts are detailed in Note 2.5.

## 2.25. Leases

Lease contracts of fixed assets in which a Group company is the lessee and substantially retains all the risks and rewards associated with the ownership of the assets are classified as finance leases.

Finance leases are recognized at inception of the lease at the lower of the fair value of the leased asset and the present value of the minimum lease payments over the contract term. Each lease payment is distributed between debt and financing costs, in a way which establishes a constant interest rate on the outstanding debt. The amounts to be paid over the lease term, net of financing costs, are recognized as non-current and current payables, as appropriate. The interest portion of the financing costs is charged to the Consolidated Income Statement over the period of the lease agreement, in order to obtain a constant periodic interest rate on the balance of the outstanding debt in each period. Assets acquired under finance lease agreements are depreciated over the shorter of the useful life of the asset and the lease term.

Lease agreements undertaken by the Group in which the entity entering into the agreement does not substantially retain all the risks and rewards associated with the ownership of the asset are classified as operating leases. Payments made under operating leases are charged to the Consolidated Income Statement (net of any incentives received from the lessor) on a straight-line basis over the lease term.

## 2.26. Segment reporting

Information on the Group's operating segments is presented in accordance with internal information provided to the Group's Chief Operating Decision Maker (CODM). The CODM, responsible for assigning resources and evaluating the performance of the operating segments, has been identified as the CEO and the Chairman.

As described in Note 5, the CODM reviews the business by 7 operating segments (8 operating segments until the sale of shareholding in Befesa) which are in turn grouped, for business purposes, into three activities: Engineering & Construction, Concession-type Infrastructures and Industrial Production.

Geographically, the Group reports financial information by 6 regions which are Spain (home market), USA, Europe (excluding Spain), Latin America (excluding Brazil), Brazil and other (the remaining overseas markets).

For detailed information on segment reporting, see Note 5.

## 2.27. Environmental assets

Equipment, installations and systems used to eliminate, reduce or control possible environmental impacts are recognized applying the same criteria used for other similar assets.

Provisions made for environmental restoration, costs of restructuring and litigations are recognized when the company has a legal or constructive obligation as a result of past events, it becomes probable that an outflow of resources will be necessary to settle the obligation and the outflow can be reliably estimated.

Note 33.7 gives additional information on the Group's environmental policies.

## 2.28. Severance payments

Severance payments are made to employees in the event that the company terminates their employment contract prior to the normal retirement age or when the employee voluntarily accepts redundancy in the terms offered by the employer. The Group recognizes severance payments when it is demonstrably committed to third parties to provide indemnities for leaving the company or to dismiss the current workers in accordance with a detailed formal plan, with no possibility of retracting.

## 2.29. Non-current Assets held for sale and discontinued operations

The Group classifies property, plant and equipment, intangible assets and disposal groups (groups of assets that are to be sold together with their directly associated liabilities) as non-current assets held for sale when, at the date of the Consolidated Statement of Financial Position, an active program to sell them has been initiated by Management and the sale is foreseen to take place within the following twelve months.

The Group includes in discontinued operations those business lines which have been sold or otherwise disposed of or those that meet the conditions to be classified as held-for-sale. Discontinued operations also include those assets which are included in the same sale program together with the business line. Entities which are acquired exclusively with a view for resale are also classified as discontinued operations.

Assets held for sale or disposal groups are measured at the lower of their carrying value or fair value less estimated costs necessary to sell them. They are no longer amortized or depreciated from the moment they are classified as non-current assets held for sale.

Assets held for sale and the components of disposal groups are presented in the Consolidated Statement of Financial Position grouped under a single heading as 'Assets held for sale'. Liabilities are also grouped under a single heading as 'Liabilities held for sale'.

The after-tax profit or loss on discontinued operations is presented in a single line within the Consolidated Income Statement under the heading 'Profit (loss) from discontinued operations, net of tax'.

# Note 3.- Critical accounting policies

The preparation of the Consolidated Financial Statements in conformity with IFRS requires to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. Actual results may differ from these estimates under different assumptions or conditions. The most critical accounting policies, which reflect significant management estimates and judgment to determine amounts in the Consolidated Financial Statements are:

- Impairment of intangible assets and goodwill.
- Revenue from construction contracts.
- Concession agreements.
- Income taxes and recoverable amount of deferred tax assets.
- Derivative financial instruments and hedging.

Some of these accounting policies require the application of significant judgment by management to select the appropriate assumptions to determine these estimates. These assumptions and estimates are based on our historical experience, advice from experienced consultants, forecasts and other circumstances and expectations as of the close of the financial period. The assessment is considered in relation to the global economic situation of the industries and regions where the Group operates, taking into account future development of our businesses. By their nature, these judgments are subject to an inherent degree of uncertainty; therefore, actual results could materially differ from the estimates and assumptions used. In such cases, the carrying values of assets and liabilities are adjusted.

As of the date of preparation of these Consolidated Financial Statements, no relevant changes in the estimates made are anticipated and, therefore, no significant changes in the value of the assets and liabilities recognized at December 31, 2013 are expected.

Although these estimates and assumptions are being made using all available facts and circumstances, it is possible that future events may require management to amend such estimates and assumptions in future periods. Changes in accounting estimates are recognized prospectively, in accordance with IAS 8, in the Consolidated Income Statement of the year in which the change occurs. The Group significant accounting policies have been fully described in Note 2.

## Impairment of intangible assets and goodwill

Goodwill and Intangible assets which have not yet come into operation or that have an indefinite useful life are not amortized and are tested for impairment on an annual basis or whenever there is an impairment indicator. Goodwill is tested for impairment within the Cash-Generating Unit to which it belongs. Other intangible assets are tested individually, unless they do not generate cash flows independently from other assets, in which case they are tested within the Cash-Generating Unit to which they belong.

For those cash generating units with high potential growth, the Group uses cash flow projections for a period of 10 years based on the cash flows identified in the Group's strategic plans, which are reviewed and approved every six months by the management of the Group. The residual value is calculated based on the cash flows of the latest year projected using a steady or nil growth rate. The use of a 10 year period is based on the consideration that this is the minimum period that needs to be used in order to appropriately reflect all the potential growth of these cash generating units. In addition, 10 years projections are prepared based on the historical experience within the Group in preparing long-term strategic plans, which are considered reliable and are prepared on the basis of the Group's internal control system. These cash flows are considered reliable since they can easily adapt to the changes of the market and of the business segment to which cash generating units belong, based on the Group's past experience on cash flows and margins and on future expectations.

For other cash generating units the Group uses cash flows projections based on a period of 5 years, calculating the residual value based on the cash flows of the latest year projected, using a growth rate 'using a zero growth rate'.

Projected cash flows are discounted using the Weighted Average Cost of Capital (see Note 2.8), adjusted for the specific risks associated to the business unit to which the cash generating unit belongs.

Based on values in use calculated in accordance with the assumptions and hypotheses described above and in Note 8 for the years 2013 and 2012, the recoverable amount of the cash generating units to which goodwill was assigned is higher than their carrying amount. Detailed sensitivity analysis has been carried out and the Management is confident that the carrying amount of the cash generating units will be recovered in full. Main variables considered in sensitivity analysis are growth rates, discount rates based in weighted average cost of capital (WACC) and the main variables of each business.

During the years 2013 and 2012 there were no intangible assets with indefinite useful life or there were no significant intangible assets not yet in use that were impaired.

## Revenue from construction contracts

Revenue from construction contracts is recognized using the percentage-of-completion method for contracts whose outcome can be reliably estimated and it is probable that they will be profitable. When the outcome of a construction contract cannot be reliably estimated, revenue is recognized only to the extent it is probable that contract costs incurred will be recoverable.

As described in Note 2.24.b), the percentage of completion is determined at the date of every Consolidated Statement of Financial Position based on the actual costs incurred as a percentage of total estimated costs for the entire contract.

Revenue recognition using the percentage-of-completion method involves the use of estimates of certain key elements of the construction contracts, such as total estimated contract costs, allowances or provisions related to the contract, period of execution of the contract and recoverability of the claims. The Company has established, over the years, a robust project management and control system, with periodic monitoring of each project. This system is based on the long-track experience of the Group in constructing complex infrastructures and installations. As far as practicable, the Group applies past experience in estimating the main elements of construction contracts and relies on objective data such as physical inspections or third parties confirmations. Nevertheless, given the highly tailored characteristics of the construction contracts, most of the estimates are unique to the specific facts and circumstances of each contract.

Although estimates on construction contracts are periodically reviewed on an individual basis, we exercise significant judgments and not all possible risks can be specifically quantified.

It is important to point out that, as stated in Note 2.4 on the measurement of property, plant and equipment, in the internal asset construction projects outside the scope of IFRIC 12 on Service Concession Arrangements (see Note 2.5), the totality of the revenues and profits between group companies is eliminated, meaning that said assets are shown at their acquisition cost.

## Concession Agreements

The analysis on whether the IFRIC 12 applies to certain contracts and activities involves various complex factors and it is significantly affected by legal interpretation of certain contractual agreements or other terms and conditions with public sector entities.

Therefore, the application of IFRIC 12 requires extensive judgment in relation with, amongst other factors, (i) the identification of certain infrastructures (and not contractual agreements) in the scope of IFRIC 12, (ii) the understanding of the nature of the payments in order to determine the classification of the infrastructure as a financial asset or as an intangible asset and (iii) the recognition of the revenue from construction and concessionary activity.

Changes in one or more of the factors described above may significantly affect the conclusions as to the appropriateness of the application of IFRIC 12 and, therefore, the results of operations or our financial position (see Note 10.1).

## Income taxes and recoverable amount of deferred tax assets

Determining income tax expense requires judgment in assessing the timing and the amount of deductible and taxable items, as well as the interpretation and application of tax laws in different jurisdictions. Due to this fact, contingencies or additional tax expenses could arise as a result of tax inspections or different interpretations of certain tax laws by the corresponding tax authorities.

Group Management assesses the recoverability of deferred tax assets on the basis of estimates of the future taxable profit. In making this assessment, Management considers the foreseen reversal of deferred tax liabilities, projected taxable profit and tax planning strategies. This assessment is carried out on the basis of internal projections, which are updated to reflect the Group's most recent operating trends.

The Group's current and deferred income taxes may be impacted by events and transactions arising in the normal course of business as well as by special non-recurring circumstances. Assessment of the appropriate amount and classification of income taxes is dependent on several factors, including estimates of the timing and realization of deferred tax assets and the timing of income tax payments.

Actual collections and payments may materially differ from these estimates as a result of changes in tax laws as well as unforeseen future transactions impacting the income tax balances.

## Derivatives and hedging

The Group uses derivatives in order to mitigate risks arising from foreign exchange, interest rates and changes in the prices of assets and commodities purchased (principally aluminum, grain, ethanol, sugar and gas). Derivatives are initially recognized at fair value on the date that the derivative contract is entered into, and are subsequently re-measured at fair value at each reporting date (see Note 2.10 and 2.11 for a full description of the accounting policy for derivatives).

Contracts held for the purposes of receiving or making payment of non-financial elements in accordance with expected purchases, sales or use of goods (own-use contracts) of the Group are not recognized as financial derivative instruments, but as executory contracts. In the event that such contracts include embedded derivatives, those derivatives are recorded separately from the original contract, if the economic characteristics of the embedded derivative are not closely related to the economic characteristics of the original host contract. Options contracted for the purchase or sale of non-financial elements which may be cancelled through cash outflows are not considered to be 'own-use contracts'.

The inputs used to calculate fair value of our derivatives are based on prices observable on not quoted markets, through the application of valuation models (Level 2). The valuation techniques used to calculate fair value of our derivatives include discounting estimated future cash flows, using assumptions based on market conditions at the date of valuation or using market prices of similar comparable instruments, amongst others. The valuation of derivatives and the identification and valuation of embedded derivatives and own-use contracts requires the use of considerable professional judgment. These determinations were based on available market information and appropriate valuation methodologies. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair value amounts.

# Note 4.- Financial risk management

Abengoa's activities are undertaken through its operating segments and are exposed to various financial risks: market risk (including currency risk, interest rate risk and price risk), credit risk, liquidity risk and capital risk.

The risk management model attempts to minimize the potential adverse impact of such risks upon the Group's financial performance. Risk is managed by the Group's Corporate Finance Department, which is responsible for identifying and evaluating financial risks in conjunction with the Group's operating segments, quantifying them by project, region and company.

Written internal risk management policies exist for global risk management, as well as for specific areas of risk, such as foreign exchange risk, credit risk, interest rate risk, liquidity risk, the use of hedging instruments and derivatives and the investment of cash surpluses.

In addition, there are official written management regulations regarding key controls and control procedures for each company and the implementation of these controls is monitored through internal audit procedures.

The Group is affected by the following financial risks:

## a) Market risk

Market risk arises when group activities are exposed fundamentally to financial risk derived from changes in foreign exchange rates, interest rates and changes in the fair values of certain raw materials.

To hedge such exposure, Abengoa uses currency forward contracts, options and interest rate swaps as well as future contracts for commodities. The Group does not generally use derivatives for speculative purposes.

- Foreign exchange rate risk: the international activity of the Group generates exposure to foreign exchange rate risk. Foreign exchange rate risk arises when future commercial transactions and assets and liabilities recognized are not denominated in the functional currency of the group company that undertakes the transaction or records the asset or liability. The main exchange rate exposure for the Group relates to the US Dollar against the Euro.

  To control foreign exchange risk, the Group purchases forward exchange contracts. Such contracts are designated as fair-value or cash-flow hedges, as appropriate.

  In the event that the exchange rate of the US Dollar had risen by 10% against the Euro as of December 31, 2013, with the rest of the variables remaining constant, the effect in the Consolidated Income Statement would have been a loss of €8,496 thousand (loss of €10,602 thousand in 2012) mainly due to the US Dollar net liability position of the Group in companies with Euro functional currency and an increase of €1,192 thousand (decrease of €2,440 in 2012) in other reserves as a result of the cash flow hedging effects on highly probable future transactions.

Details of the financial hedging instruments and foreign currency payments as of December 31, 2013 and 2012 are included in Note 14 of these Notes to these Consolidated Financial Statements.

- Interest rate risk: arises mainly from financial liabilities at variable interest rates.

  Abengoa actively manages its risks exposure to variations in interest rates associated with its variable interest debt.

  In non-recourse financing (see Note 19), as a general rule, the Company enters into hedging arrangements for at least 80% of the amount and the timeframe of the relevant financing.

  In corporate financing (see Note 20), as general rule, 80% of the debt is covered throughout the term of the debt; in addition, in 2009, 2010 and 2013, Abengoa issued notes at a fixed interest rate.

  The main interest rate exposure for the Group relates to the variable interest rate with reference to the Euribor.

  To control the interest rate risk, the Group primarily uses interest rate swaps and interest rate options (caps and collars), which, in exchange for a fee, offer protection against an increase in interest rates.

  In the event that Euribor had risen by 25 basic points as of December 31, 2013, with the rest of the variables remaining constant, the effect in the Consolidated Income Statement would have been a profit of €13,669 thousand (profit of €4,004 thousand in 2012) mainly due to the increase in time value of hedge interest rate options (caps and collars) and an increase of € 48,050 thousand in other reserves (increase of €52,163 thousand in 2012) mainly due to the increase in value of hedging interest derivatives (swaps, caps and collars).

  A breakdown of the interest rate derivatives as of December 31, 2013 and 2012 is provided in Note 14 of these Notes to the Consolidated Financial Statements.

- Risk of change in commodities prices: arises both through the sale of the Group's products and the purchase of commodities for production processes. The main risk of change in commodities prices for the Group is related to the price of grain, ethanol, sugar, gas, and aluminum (and zinc until the sale of the Company's shareholding in Befesa).

  In general, the Group uses futures and options listed on organized markets, as well as OTC (over-the-counter) contracts with financial institutions, to mitigate the risk of market price fluctuations.

  At December 31, 2013, if the price of grain had increased by 10%, with the rest of the variables remaining constant, the effect in the Consolidated Income Statement would have been null (loss of €35,092 thousand in 2012) and an increase in other reserves of € 4,567 thousand (decrease of €16,391 thousand in 2012) due to open derivative contracts primarily on grain purchases held by the Group.

  At December 31, 2013, if the price of ethanol had increased by 10%, with the rest of the variables remaining constant, the effect in the Consolidated Income Statement would have been null (profit of €11,035 thousand in 2012) and an increase in other reserves of €60,040 thousand (null in 2012) due to open derivative contracts primarily on ethanol purchases held by the Group.

  A breakdown of the commodity derivative instruments as of December 31, 2013 ad 2012 is included in Note 14 to these Consolidated Financial Statements.

  In addition, certain Bioenergy Business Group companies engage in purchase and sale transactions in the grain and ethanol markets, in accordance with a management policy for trading transactions.

  Management has approved and supplemented trading strategies to control the purchase and sale of forward and swap contracts, mainly for sugar, grain and ethanol, which are reported on a daily basis, following the internal procedures established in the Transactions Policy. As a risk-mitigation element, the company sets daily limits or 'stop losses' for each strategy, depending on the markets in which it operates, the financial instruments purchased and the risks defined in the transaction.

  These transactions are measured monthly at fair value through the Consolidated Income Statement. In 2013, Abengoa recorded a profit of €15 thousand (profit of €11,768 thousand in 2012),corresponding to settled transactions in both years.

## b) Credit risk

The main financial assets exposed to credit risk derived from the failure of the counterparty to meet its obligations are trade and other receivables, current financial investments and cash.

a) Clients and other receivables (see Note 15).

b) Current financial investments and cash (see Notes 13, 14, 15 and 17).

- Clients and other receivables: Most receivables relate to clients operating in a range of industries and countries with contracts that require ongoing payments as the project advances; the service is rendered or upon delivery of the product. It is a common practice for the company to reserve the right to cancel the work in the event of a material breach, especially non-payment.

  In general, and to mitigate the credit risk, prior to any commercial contract or business agreement, the company generally holds a firm commitment from a leading financial institution to purchase the receivables through a non-recourse factoring arrangement. Under these agreements, the company pays the bank for assuming the credit risk and also pays interest for the discounted amounts. The company always assumes the responsibility that the receivables are valid.

  Abengoa derecognizes the factored receivables from the Consolidated Statement of Financial Position when all the conditions of IAS 39 for derecognition of assets are met. In other words, an analysis is made to determine whether all risks and rewards of the financial assets have been transferred, comparing the company's exposure, before and after the transfer, to the variability in the amounts and the calendar of net cash flows from the transferred asset. Once the company's exposure to this variability has been eliminated or substantially reduced, the financial asset is transferred.

  In general, Abengoa considers that the most significant risk related to Clients and other receivables is the risk of non-collection, since: a) trade receivables may be quantitatively significant during the progress of work performed for a project or service rendered; b) it is not under the company's control. However, the risk of delays in payment typically relates to technical problems, i.e., associated with the technical risk of the service provided and, therefore, within the company's control.

  If the company concludes that the risk associated to the contract has been transferred to the financial institution, the receivable is derecognized in the Consolidated Statement of Financial Position at the time it is transferred, in accordance with IAS 39.20.

  An aging of trade receivables as of December 31, 2013 and 2012 is included in Note 15 'Clients and other receivable accounts'. The same note also discloses the credit quality of the clients as well as the movement on provisions for receivables for the years ended December 31, 2013 and 2012.

- Financial investments: to control credit risk in financial investments, the Group has established corporate criteria which require that counterparties are always highly rated financial entities and government debt, as well as establishing investing limits with periodic review.

## c) Liquidity risk

Abengoa's liquidity and financing policy is intended to ensure that the company keeps sufficient funds available to meet its financial obligations as they fall due. Abengoa uses two main sources of financing:

- Non-recourse project financing, which is typically used to finance any significant investment (see Notes 2.5 and 19). The repayment profile of each project is established on the basis of the projected cash flow generation of the business, allowing for variability depending on whether the cash flows of the transaction or project can be forecast accurately. This ensures that sufficient financing is available to meet deadlines and maturities, which mitigates the liquidity risk significantly.

- Corporate Financing, used to finance the activities of the remaining companies which are not financed under the aforementioned financing model. This means of financing is managed through Abengoa S.A., which pools cash held by the rest of the companies so as to be able to re-distribute funds in accordance with the needs of the Group (see Notes 2.18 and 20) and to ensure that the necessary resources are obtained from the bank and capital markets.

To ensure there are sufficient funds available for debt repayment in relation to its cash-generating capacity, the Corporate Financial Department annually prepares and the Board of Directors reviews a Financial Plan that details all the financing needs and how such financing will be provided. We fund in advance disbursements for major cash requirements, such as capital expenditures, debt repayments and working capital requirements. In addition, as a general rule, we do not commit our own equity in projects until the associated long term financing is obtained.

During 2013, Abengoa covered its financing needs through the following financial transactions:

- In 2012, the Company completed the refinancing of its syndicated loans as well as new financing transactions in subsidiaries which have the support of export credit agencies.
- During 2013 the Company successfully extended the maturity profile of its debt maturities through access to capital markets.
- In January 2013 the Company issued € 400 million convertible notes due in 2019. In addition, in February 2013 the Company issued € 250 million ordinary notes due in 2018 (the 'February notes') and in October and November 2013, additional notes fungible with the February notes were issued for an amount of €50 and €250 million, respectively.
- Furthermore, the Company completed a capital increase for a total amount of € 517.5 million in October 2013.
- Finally, in November 2013 Abengoa issued USD 450 million ordinary notes due in 2020 (see Notes 18 and 20).

Abengoa aims to maintain its strong liquidity position, extend the debt maturities of its existing corporate loans and bonds, continue to access the capital markets from time to time, as appropriate, and further diversify its funding sources. The Company aims to continue to raise equity funding at the project company level through partnerships.

In accordance with the foregoing, the sources of financing are diversified, in an attempt to prevent concentrations that may affect our liquidity risk.

An analysis of the Group's financial liabilities classified into relevant maturity groupings based on the remaining period is included in the following Notes to these Consolidated Financial Statements:

| Current and non-current | Notes to the consolidated financial statements |
|---|---|
| Financial debt | Note 19 Non-recourse financing and Note 20 Corporate financing |
| Lease-back | Note 20 Corporate financing |
| Finance lease | Note 20 Corporate financing |
| Borrowings and other loans | Note 20 Corporate financing |
| Trade and other accounts payable | Note 25 Trade payables and other current liabilities |
| Derivatives and hedging instruments | Note 14 Financial derivatives instruments |
| Other liabilities | Note 21 Grants and other liabilities |

## d) Capital risk

The Group manages capital risk to ensure the continuity of the activities of its subsidiaries from an equity standpoint by maximizing the return for the shareholders and optimizing the structure of equity and debt in the respective companies or projects.

Since the admission of its shares to trade on the stock market, the company has grown in the following ways:

- cash flows generated by conventional businesses;
- financing of new investments through non-recourse financing, which also generates business for conventional businesses;
- corporate financing, either through banks or capital markets;
- issuance of new shares of subsidiaries through organized markets;

- asset rotation or divestitures, such as divestiture of Befesa or the sale of mature concessional shares, the sale of a transmission line concession activity in Brazil and a water concession activity in China (for details see Note 6.2.b and 7.2);
- capital increase carried out for €300 million in 2011 and for €517.5 million in 2013 (see Note 18.1).

The leverage objective of the activities of the company is not measured based on the level of debt on its own resources, but on the nature of the activities:

- for activities financed through Non-recourse Financing each project is assigned a leverage objective based on the cash and cash flow generating capacity, generally, of contracts that provide these projects with highly recurrent and predictable levels of cash flow generation;
- for activities financed with Corporate Financing, the objective is to maintain reasonable leverage, defined as 2.5 times corporate Ebitda over Net Corporate Debt (excluding the Ebitda and the non-recourse financing) in 2013.

# Note 5.- Financial information by segment

## 5.1. Information by business segment

As indicated in Note 1, Abengoa's activity is grouped under the following three activities which are in turn composed of seven operating segments (eight operating segments until the sale of shareholding in Befesa, see Note 7.1):

- Engineering and construction; includes our traditional engineering activities in the energy and water sectors, with more than 70 years of experience in the market as well as the development of solar technology.

  This activity comprises two operating segments:

  - Engineering and construction – Abengoa specializes in carrying out complex turn-key projects for thermo-solar plants, solar-gas hybrid plants, conventional generation plants, biofuels plants and water infrastructures, as well as large-scale desalination plants and transmission lines, among others.
  - Technology and other – This segment includes those activities related to the development of thermo-solar technology, water management technology and innovative technology businesses such as hydrogen energy or the management of energy crops.

- Concession-type infrastructures; groups together the company's proprietary concession assets that generate revenues governed by long term sales agreements, such as take-or-pay contracts or power purchase agreements. This activity includes the operation of electric (solar, cogeneration or wind) energy generation plants, desalination plants and transmission lines. These assets generate low demand risk and we focus on operating them as efficiently as possible.

  This activity currently comprises four operating segments:

  - Solar – Operation and maintenance of solar energy plants, mainly using thermo-solar technology.
  - Transmission – Operation and maintenance of high-voltage transmission power line infrastructures.
  - Water – Operation and maintenance of facilities aimed at generating, transporting, treating and managing water, including desalination and water treatment and purification plants.
  - Cogeneration and other – Operation and maintenance of conventional cogeneration electricity plants.

– Industrial production; covers Abengoa's businesses with a commodity component, such as biofuels (industrial waste recycling was part of this activity until the sale of shareholding in Befesa, see Note 7.1). The company holds an important leadership position in these activities in the geographical markets in which it operates.

  This activity is comprised of one operating segment:

  - Biofuels – Production and development of biofuels, mainly bioethanol for transport, which uses cereals, sugar cane and oil seeds (soya, rape and palm) as raw materials.

Abengoa's Chief Operating Decision Maker ('CODM') assesses the performance and assignment of resources according to the above identified segments. The CODM in Abengoa considers the revenues as a measure of the activity and the EBITDA (Earnings before interest, tax, depreciation and amortization) as measure of the performance of each segment. In order to assess performance of the business, the CODM receives reports of each reportable segment using revenues and EBITDA. Net interest expense evolution is assessed on a consolidated basis given that the majority of the corporate financing is incurred at the holding level and that most of the related assets are held at project companies which are financed through non-recourse project finance. The depreciation, amortization and impairment charges are assessed on a consolidated basis in order to analyze the evolution of net income and to determine the dividend pay-out ratio. These charges are not taken into consideration by CODM for the allocation of resources because they are non-cash charges.

The process to allocate resources by the CODM takes place prior to the award of a new project. Prior to presenting a bid, the company must ensure that the non-recourse financing for the new project has been obtained. These efforts are taken on a project by project basis. Once the project has been awarded, its evolution is monitored at a lower level and the CODM receives periodic information (revenues and EBITDA) on each operating segment's performance.

a) The following table shows the Segment Revenues and EBITDA for the years 2013 and 2012:

| | Revenue | | Ebitda | |
|---|---|---|---|---|
| **Item** | **2013** | **2012** | **2013** | **2012** |
| **Engineering and construction** | | | | |
| Engineering and construction | 4,472,759 | 3,477,832 | 593,335 | 475,544 |
| Technology and other | 335,689 | 302,786 | 213,151 | 148,358 |
| **Total** | **4,808,448** | **3,780,618** | **806,486** | **623,902** |
| | | | | |
| **Concession-type infraestructure** | | | | |
| Solar | 320,999 | 281,566 | 200,261 | 203,357 |
| Transmission lines | 66,621 | 37,626 | 42,627 | 15,726 |
| Water | 40,194 | 20,679 | 28,135 | 11,625 |
| Cogeneration and other | 91,097 | 53,243 | 46,711 | 2,896 |
| **Total** | **518,911** | **393,114** | **317,734** | **233,604** |
| | | | | |
| **Industrial production** | | | | |
| Biofuels | 2,029,111 | 2,138,220 | 240,907 | 91,103 |
| **Total** | **2,029,111** | **2,138,220** | **240,907** | **91,103** |
| | | | | |
| **Total** | **7,356,470** | **6,311,952** | **1,365,127** | **948,609** |

The reconciliation of segment EBITDA with the profit attributable to owners of the parent is as follows:

| Line | 2013 | 2012 |
|---|---|---|
| Total segment EBITDA | 1,365,127 | 948,609 |
| Amortization and depreciation | (571,161) | (422,013) |
| Financial expenses net | (721,815) | (654,593) |
| Share in profits/ (losses) of associates | (5,165) | 17,561 |
| Income tax expense | 43,933 | 171,913 |
| Profit (loss) from discontinued operations, net of tax | (595) | 32,543 |
| Profit attributable to non-controlling interests | (8,879) | (38,650) |
| **Profit attributable to the parent company** | **101,445** | **55,370** |

b) The long term assets and liabilities by Segment at the end of 2013 and 2012 are as follows:

| | Engineering and construction | | Concession-type infrastructure | | | | Industrial production | |
|---|---|---|---|---|---|---|---|---|

(*) Operating segment existing until the sale of shareholding in Befesa (see Note 7).

The criteria used to obtain the assets and liabilities per segment, are described as follows:

- With the only objective of presenting liabilities by segment, Corporate Financing signed by Abengoa, S.A. and Abengoa Finance, S.A.U. has been allocated by segments (see Note 20), since its main purpose is to finance investments in projects and in companies needed to expand businesses and lines of activity of the group.

c) Net Debt by segment as of December 31, 2013 and 2012 is as follows:

| | Engineering and construction | | Concession-type infrastructure | | | | Industrial production | | |
|---|---|---|---|---|---|---|---|---|---|
| Item | Eng. and const. | Techn. and other | Solar | Trans. | Water | Cog. and other | Biofuels | Recycling (*) | Balance as of 12.31.13 |

(*) Operating segment existing until the sale of shareholding in Befesa (see Note 7).

In order to obtain Net Debt, by segment:

1. With the only objective of presenting liabilities by segment, Corporate Financing signed by Abengoa, S.A. and Abengoa Finance, S.A.U. has been allocated by operating segment (see Note 20), since its main purpose is to finance investments in projects and in companies needed to expand the businesses and lines of activity of the group.

2. Short-term financial investments and Cash and cash equivalents are presented reducing debt, since both items are considered highly liquid, even though short-term financial investments do not fulfill all the conditions to be classified as cash and cash equivalents.

d) The Capex by segments for the years ended December 31, 2013 and 2012 is as follows:

| Item | 2013 | 2012 |
|---|---|---|
| **Engineering and construction** | | |
| Engineering and construction | 64,679 | 43,027 |
| Technology and other | 67,155 | 68,226 |
| **Total** | **131,834** | **111,253** |
| | | |
| **Concession-type infraestructure** | | |
| Solar | 389,173 | 848,250 |
| Transmission lines | 727,198 | 863,422 |
| Water | 242,086 | 53,361 |
| Cogeneration and other | 336,696 | 185,993 |
| **Total** | **1,695,153** | **1,951,026** |
| | | |
| **Industrial production** | | |
| Biofuels | 57,395 | 152,174 |
| **Total** | **57,395** | **152,174** |
| | | |
| **Total** | **1,884,382** | **2,214,453** |

e) The distribution of depreciation, amortization and impairment charges by segments for the years 2013 and 2012 is as follows:

| Item | 2013 | 2012 |
|---|---|---|
| **Engineering and construction** | | |
| Engineering and construction | 119,785 | 55,022 |
| Technology and other | 90,965 | 88,338 |
| **Total** | **210,750** | **143,360** |
| | | |
| **Concession-type infraestructure** | | |
| Solar | 116,289 | 84,255 |
| Transmission lines | 32,279 | 16,338 |
| Water | 8,746 | 4,017 |
| Cogeneration and other | 30,561 | 4,531 |
| **Total** | **187,875** | **109,141** |
| | | |
| **Industrial production** | | |
| Biofuels | 172,536 | 169,512 |
| **Total** | **172,536** | **169,512** |
| | | |
| **Total** | **571,161** | **422,013** |

## 5.2. Information by geographic areas

a) The revenue distribution by geographical region for the years 2013 and 2012 is as follows:

| Geographical region | 2013 | % | 2012 | % |
|---|---|---|---|---|
| - USA | 2,045,278 | 27.8 | 2,078,518 | 32.9 |
| - Latin America (except Brazil) | 1,392,187 | 17.9 | 1,026,211 | 16.3 |
| - Brazil | 726,019 | 9.5 | 986,563 | 15.6 |
| - Europe (except Spain) | 863,329 | 11.5 | 877,758 | 13.9 |
| - Other regions | 1,166,510 | 15.0 | 404,599 | 6.4 |
| - Spain | 1,163,147 | 18.3 | 938,303 | 14.9 |
| **Consolidated Total** | **7,356,470** | **100** | **6,311,952** | **100** |
| Outside Spain amount | 6,193,323 | 81.7 | 5,373,649 | 85.1 |
| Spain amount | 1,163,147 | 18.3 | 938,303 | 14.9 |

b) The net book value of Intangible assets and Property, plant and equipment by geographical region as of December 31, 2013 and 2012 is as follows:

| Geographic region | Balance as of 12.31.13 | Balance as of 12.31.12 |
|---|---|---|
| **Domestic market** | **831,529** | **1,336,953** |
| - USA | 304,233 | 301,533 |
| - European Union | 520,541 | 796,863 |
| - Latin America | 437,576 | 542,189 |
| - Other regions | 21,821 | 10,806 |
| **Foreign market** | **1,284,171** | **1,651,391** |
| **Total** | **2,115,700** | **2,988,344** |

c) The net book value of Fixed assets in projects by geographic region as of December 31, 2013 and 2012 is as follows:

| Geographic region | Balance as of 12.31.13 | Balance as of 12.31.12 |
|---|---|---|
| **Domestic market** | **2,987,456** | **2,934,808** |
| - USA | 1,812,121 | 368,552 |
| - European Union | 153,442 | 269,394 |
| - Latin America | 4,417,095 | 3,540,089 |
| - Other regions | 544,159 | 673,162 |
| **Foreign market** | **6,926,817** | **4,851,197** |
| **Total** | **9,914,273** | **7,786,005** |

# Note 6.- Changes in the composition of the group

## 6.1. Changes in the consolidation group

a) In 2013 a total of 56 subsidiaries (81 in 2012), 2 associates (3 in 2012) and 3 joint ventures (9 in 2012), were included in the consolidation group, which are identified in Appendices I, II, III, XII, XIII and XIV of these Consolidated Financial Statements.

These changes did not have a significant impact on the overall consolidated amounts in 2013 and 2012.

As described in Note 2.1.1 the Group has applied IFRS 10, 11, 12 and amendments to IAS 27 and 28 in 2013 (December 31, 2012 and January 1, 2012), recasting the information presented in 2012 according to the transition guidance of this standard. As a result 5 companies previously considered as subsidiaries and 33 companies previously considered as joint ventures are treated as associates recorded under the equity method in 2012. The effect of the de consolidation of the affected companies and their integration according to the equity method on the consolidated statements of financial position as of December 31, 2012 and January 1, 2012 and on the consolidated income statement for the year 2012 is shown in Note 2.1.1.

In addition, during 2013, 22 Temporary joint operations (UTE), (14 in 2012) 3 of them with partners which do not being to the Group, have commenced their activity or have started to undertake a significant level of activity and were included in the consolidation group.

On the other hand, the amounts set out below represent the Group's proportional interest in the assets, liabilities, revenues and profits of the UTE with partners non Group shareholding, which have been included in the Consolidated Financial Statements in 2013 and 2012:

| | 2013 | 2012 |
|---|---|---|
| Non-current assets | 7,498 | 16,366 |
| Current assets | 152,974 | 131,977 |
| Non-current liabilities | 5,534 | 25,219 |
| Current liabilities | 152,871 | 123,124 |

| | 2013 | 2012 |
|---|---|---|
| Revenue | 58,112 | 66,419 |
| Expenses | (61,032) | (76,795) |
| Profit/ (loss) after taxes | (2,920) | (10,376) |

b) In 2013 a total of 88 subsidiaries were no longer included in the consolidation group (46 in 2012), 4 associates (5 in 2012) and 9 joint ventures (7 in 2012), which are identified in Appendix IV, V and VI and which did not have any material impact in the Consolidated Income Statement, except for disposals mentioned in Note 6.2b).

During 2013, 17 UTE, (33 in 2013), which do not belong to the Group, were excluded from the consolidated group because they had ceased their activities or had become insignificant in relation to overall group activity levels. The proportional consolidated revenues of these UTE in 2013 were € 53 thousand (€271 thousand in 2012).

c) On October 13, 2013, Arizona Solar One, LLC which was recorded under the equity method during its construction phase entered into operation and started to be fully consolidated after we gained control over the entity (see Note 6.3).

During 2012, Rioglass group, which was consolidated proportionally until December 31, 2011, started to be fully consolidated due to the business combination conducted in this period (see Note 6.3).

## 6.2. Main acquisitions and disposals

### a) Acquisitions

- There were no significant acquisitions during the year 2013 and 2012.

### b) Disposals

- On May 2, 2013 the Company signed an agreement with Corning Incorporated to sell its Brazilian subsidiary, Bargoa S.A., a company which manufactures telecommunications components. The transaction price was set at 80 million US dollars. This sale brought Abengoa a cash inflow of 50 million US dollars and generated an after-tax profit of €29 million.
- On June 13, 2013 Abengoa signed a strategic agreement with the European private equity fund, Triton Partners (Triton), to sell 100% of Befesa Medio Ambiente, S.L.U. Note 7 on Discontinued operations and Non-current assets held for sale gives further details on this transaction.
- On March 16, 2012, the Company reached an agreement with Compañía Energética Minas Gerais (CEMIG) to sell the 50% stake that Abengoa S.A. still owned in four transmission line concessions in Brazil (STE, ATE, ATE II and ATE III). On July 2, we received €354 million of cash proceeds corresponding to the total price agreed for the shares. The gain from this sale has amounted to €4 million and is recorded in 'Other operating income' in the Consolidated Income Statements.

## 6.3. Business combinations

On October 13, 2013, Arizona Solar One, LLC, the Company that holds the assets in Solana thermo-solar plant in the United States, which was recorded under the equity method during its construction period, entered into operation and started to be fully consolidated once control over this company was gained.

As it is indicated in note 2.1.1.b), the Company reassesses whether or not it controls an investee when facts and circumstances indicate that there are changes to the elements that determine control (power over the investee, exposition to variable returns of the investee and ability to use its power to affect its returns). The Company concluded that during the construction phase of Solana plant all the relevant decisions were subject to the control and approval of the Administration. As a result, the Company did not have control over these assets during the construction period. IFRS 10 (B80) establishes that control requires a continuous assessment and that the Company shall reassess if it controls on investee if facts and circumstances indicate that there are changes to the elements of control. Once the project entered into operation, the decision making process changed, the investee was controlled and it started to be fully consolidated.

This business combination has been recorded in accordance with IFRS 3 'Business combinations'. Since during the construction period the assets were included under the scope of IFRIC 12, the book value of assets and liabilities consolidated is the same as its fair value.

The amount of assets and liabilities consolidated is shown in the following table:

| | As of October 13, 2013 |
|---|---|
| Non-current assets | 1,522,152 |
| Current assets | 7,774 |
| Non-current and current liabilities | (1,117,349) |
| Equity | (412,577) |
| **Total** | - |

In 2012 the Group carried out the business combination of Rioglass Group. Rioglass Group was incorporated in 2006 as a joint venture between Abengoa and its former shareholders. The group manufactures and sells parabolic trough mirrors for thermo-solar plants.

Since the incorporation of Rioglass Group, thermo-solar energy has experienced a very high development worldwide, mainly in Spain and the United States. Recently, we can appreciate a significant international expansion in other geographies, with plants in construction in the Middle East, Africa and India and with ambitious plans to develop new thermo-solar plants in several countries such as South Africa, Australia, China, India, Saudi Arabia and Chile.

On January 16, 2012, Abengoa Solar, S.A. closed an agreement with Rioglass Laminar, S.L. to acquire an additional share of Rioglass Holding, S.A. With this acquisition and once the conditions for the closing were fulfilled, Abengoa Solar, S.A. became the majority shareholder of Rioglass Holding, S.L. and obtained control of the management of the group, a business which is key in its strategy of international expansion. As a result, Rioglass group, which was integrated proportionally, started to be fully consolidated.

Since the business combination was achieved in stages, according to IFRS 3, the Company has remeasured its previously held equity interest in the acquiree at its acquisition-date fair value, which has consisted basically in the value of committed sales from Rioglass Group for the use of technology and mirrors, linked to relations and contracts existing with clients in the construction of thermo-solar plants in Spain, the United States, South Africa, Mexico and India. This valuation has represented a gain of € 85,247 thousand.

The difference between the fair value of the stake acquired in Rioglass group and the fair value of the identifiable assets and liabilities acquired, amounting to € 38,919 thousand, was recorded as Goodwill.

Additionally, according to IFRS 3, the purchase price allocation, was as follows:

| | Book value | Fair value |
|---|---|---|
| Non-current assets | 66,141 | 187,157 |
| Current assets | 64,856 | 73,564 |
| Non-current and current liabilities | (73,082) | (110,148) |
| Book value of share capital of acquired net assets | 28,958 | - |
| **Fair value of acquired net assets** | **-** | **150,573** |
| **Stake in fair value of acquired net assets (I)** | **-** | **75,287** |
| **Fair value of the stake acquired (II)** | **-** | **114,206** |
| **Goodwill (Difference II - I)** | **-** | **38,919** |

# Note 7.- Discontinued operations and Non-current assets held for sale

## 7.1. Sale of shares in Befesa Medio Ambiente, S.L.U.

On June 13, 2013 the Company reached an exclusive agreement with certain investment funds managed by Triton Partners to wholly transfer Abengoa's shareholding in Befesa Medio Ambiente, S.L.U. The agreed sale price was €1,075 million (considering the net debt adjustments, total consideration to Abengoa amounts to €620 million).

The sale of this shareholding involved a cash deposit of €331 million. The balance of the agreed payment, to complete the aforementioned figure of €620 million, consists of:

- A deferred payment of €17 million (€15 million held as a deposit until ongoing litigations are resolved and two million Euros in long-term receivables from a client of Befesa Medioambiente).
- A credit note of €48 million to mature in five years, accruing annual interest of 2% in the first year, 4% in the second, 6% in the third, 8% in the fourth and 12% in the fifth year, and payable at the expiration of each period.

- A deferred payment of €225 million through a convertible loan with 15 years maturity and subject to two extension options of five years each at the discretion of the venture capital fund. The loan's principal shall be settled with a single repayment at maturity and accrues interest at the 6-month Euribor, plus a 6% spread, with an option for the fund to capitalize or pay interest at the end of each accrual period. Certain triggering events, which include Befesa's insolvency, a maximum net debt/EBITDA ratio of 8.0 throughout the life of the convertible loan, and failure to meet certain financial objectives in the last three years of the 15-year loan (minimum expected operating cash flow, minimum cash coverage ratio of 1.3) would result in the automatic conversion of the loan into 14.06% of Befesa's shares. Furthermore, under certain scenarios of sale of Befesa by the fund, and conversion of the convertible loan into the 14.06% of Befesa's shares, the fund can require that Abengoa sells its 14.06% ownership together with the sale of the fund's ownership and under the same conditions applicable to the fund. In any case, if Abengoa does not receive such requirement from the fund, Abengoa can sell its 14.06% ownership coming from the conversion together with the remaining ownership sold by the fund and in this case the sale will be valid only if the acquirer also bought the 14.06%.

  The convertible loan is a hybrid instrument including a loan receivable and multiple embedded derivatives. According to IAS 39, derivatives which are not closely related with the host contract (the loan receivable) should be accounted for separately. In our case, the value of all the options which are not closely related with the host contract is mainly based in the performance of Befesa and in consequence they are considered as a single derivative instrument.

  In accordance with the provisions of IAS 39, the hybrid financial instrument has been initially valued at fair value, amounting to €170 million, as the sum of the loan receivable and the derivatives as a whole. The fair value of the loan has been determined taking into account capitalization of accrued interest and a discount rate equal to the Spanish bond with a similar maturity plus a market spread of approximately 4.5%. The embedded derivative has been initially valued close to zero, because the occurrence of any of the events that would trigger the conversion is highly unlikely. In subsequent periods, the loan receivable is valued at amortized cost and the derivatives are valued at fair value, with changes in profit and loss. The probability of occurrence of conversion events will be periodically monitored to calculate the embedded derivatives fair value. As of December 31, 2013, the fair value of the embedded derivative has remained close to zero (see Note 3.1).

  The convertible loan is included in ''Other Receivable Accounts'' in non-current assets and the derivative is included in non-current 'Derivative liabilities' in the Consolidated Statements of Financial Position.

The sale transaction generated a gain of €0.4 million in the 'Results for the year from discontinued operations, net of taxes' in the Consolidated Interim Income Statement for the year, 2013.

Taking into account the significance that the activities carried out by Befesa have for Abengoa, the sale of this shareholding is considered as a discontinued operation in accordance with the stipulations and requirements of IFRS 5, 'Non-Current Assets Held for Sale and Discontinued Operations'.

In accordance with this standard, the results of Befesa until the closing of the sale and the result of this sale are included under a single heading in Abengoa's Consolidated Financial Statements for the year ended December 31, 2013. Likewise, the Consolidated Income Statement for the year, 2012, which is included for comparison purposes in Abengoa's Consolidated Financial Statements for the year ended December 31, 2013 also includes the results generated by Befesa under a single heading, for the activities which are now considered discontinued.

Below is the breakdown of the Consolidated Interim Income Statements related to Befesa up to the date of sale (January 13, 2013) and for the year 2012:

| | 2013 | 2012 |
|---|---|---|
| Revenue | 317,517 | 605,597 |
| Other operating income | 4,670 | 15,373 |
| Operating expenses | (317,132) | (536,565) |
| I. Operating profit | 5,055 | 84,405 |
| II. Financial expense, net | (18,623) | (46,624) |
| III. Share of profit/(loss) of associates carried under the equity method | 138 | 4,931 |
| IV. Profit before income tax | (13,430) | 42,712 |
| V. Income tax benefit | 12,454 | (10,169) |
| VI. Profit for the period from continuing operations | (976) | 32,543 |
| VII. Profit attributable to non-controlling interests | - | (1,345) |
| **VIII. Profit for the period attributable to the Parent Company** | **(976)** | **31,198** |

Additionally, below is the composition of the heading 'Profit (loss) from discontinued operations, net of tax' included in the Consolidated Interim Income Statements for year 2013:

| | 2013 |
|---|---|
| Gain on the sale of Befesa | 381 |
| % result of Befesa integration | (976) |
| **Profit from discontinued operations, net of tax** | **(595)** |

The credit note and the convertible loan are recorded in Non-current financial investments (see Note 15.10).

## 7.2. Assets held for sale -shares in BCTA Qingdao, S.L.

As of December 31, 2013, the Company has started a process of negotiations to sell its 92.6% interest in Qingdao BCTA Desalination Co., Ltd., ('Qingdao') a desalination plant in China. Given that as of that date the subsidiary was available for inmediate sale and the sale is highly probable, the Company has classified the assets and liabilities of Qingdao as held for sale in the Consolidated Statement of Financial Position as of December 31, 2013. Until closing of the sale transaction, the assets will be reported as held for sale in accordance with the stipulations and requirements of IFRS 5, Non-Current Assets Held for Sale and Discontinued Operations.

As of December 31, 2013, the breakdown of the assets and liabilities classified as Held for Sale, are as follows:

| | Balance as of 12.31.13 |
|---|---|
| **Assets** | |
| Fixed assets in projects (project finance) | 138,067 |
| Financial investments | 16 |
| Deferred tax assets | 432 |
| Current assets | 27,888 |
| **Total assets** | **166,403** |
| **Equity and liabilities** | |
| Long-term non-recourse project financing | 95,460 |
| Current liabilities | 25,809 |
| **Total equity and liabilities** | **121,269** |

# Note 8.- Intangible assets

**8.1.** The following table sets out the movement of intangible assets in 2013:

| Cost | Goodwill | Development assets | Other | Total |
|---|---|---|---|---|
| Total cost as of December 31, 2012 | 1,115,275 | 223,751 | 392,450 | 1,731,476 |
| Additions | - | 100,888 | 386,775 | 487,663 |
| Disposals and decreases | - | (4,691) | - | (4,691) |
| Translation differences | (77,681) | (1,640) | (1,859) | (81,180) |
| Change in consolidation | (561,535) | (6,864) | (5,828) | (574,227) |
| Reclassifications | - | - | (498,253) | (498,253) |
| **Total cost as of December 31, 2013** | **476,059** | **311,444** | **273,285** | **1,060,788** |

| Accumulated depreciation | Goodwill | Development assets | Other | Total |
|---|---|---|---|---|
| Total amort. as of December 31, 2012 | - | (116,823) | (57,908) | (174,731) |
| Additions | - | (31,510) | (20,463) | (51,973) |
| Translation differences | - | 604 | 519 | 1,123 |
| Change in consolidation | - | 1,078 | 5,826 | 6,904 |
| **Total amort. as of December 31, 2013** | **-** | **(146,651)** | **(72,026)** | **(218,677)** |
| | | | | |
| **Net balance at December 31, 2013** | **476,059** | **164,793** | **201,259** | **842,111** |

The decrease in goodwill is mainly due to the exclusion of Befesa from the consolidation scope (see Note 7) and due to the negative effect of the depreciation of the Brazilian real with respect to the Euro.

The cost of intangible assets has increased principally due to the investment effort in research and development projects (see Note 8.3) offset by the reclassification of the fixed assets related to the Solaben 1 and 6 thermosolar plants as Fixed assets in projects, once the non-recourse financing for these projects has been obtained (see Note 10.1).

During 2013 no significant losses from impairment of PP&E were recorded.

**8.2.** The following table sets out the movement of intangible assets in 2012:

| Cost | Goodwill | Development assets | Other | Total |
|---|---|---|---|---|
| Total cost as of December 31, 2011 | 1,118,186 | 151,741 | 127,307 | 1,397,234 |
| Additions | 2,821 | 72,350 | 182,054 | 257,225 |
| Disposals and decreases | (4,182) | - | (863) | (5,045) |
| Translation differences | (37,199) | (619) | (454) | (38,272) |
| Change in consolidation | 35,649 | 279 | 84,406 | 120,334 |
| **Total cost as of December 31, 2012** | **1,115,275** | **223,751** | **392,450** | **1,731,476** |

| Accumulated depreciation | Goodwill | Development assets | Other | Total |
|---|---|---|---|---|
| Total amort. as of December 31, 2011 | - | (83,552) | (23,155) | (106,707) |
| Additions | - | (33,491) | (34,975) | (68,466) |
| Translation differences | - | 220 | 222 | 442 |
| **Total amort. as of December 31, 2012** | **-** | **(116,823)** | **(57,908)** | **(174,731)** |
| | | | | |
| **Net balance at December 31, 2012** | **1,115,275** | **106,928** | **334,542** | **1,556,745** |

Goodwill remained stable: the increase arising from the business combination of the Rioglass group, by €38,919 thousand, was offset by the negative effect of translation differences, arising mainly from the depreciation of the Brazilian real with respect to the Euro. Additionally, the business combination of Rioglass caused that intangible assets identified in the purchase price allocation were recorded at fair value and fully consolidated, in accordance with IFRS 3, which explained the increase in the rest of the intangible assets (see Note 6.3), together with the progress in the construction of several thermo-solar plants in Spain (€172 million) and investment effort in research and development projects (see Note 8.3).

During 2012 no significant losses for impairment of intangible assets were recorded.

## 8.3. Development assets

During 2013, Abengoa made significant Research, Development and Innovation (R&D&i) investment efforts, investing a total of €426,358 thousand (€91,260 thousand in 2012) through the development of new technologies in different areas of business (solar technology, biotechnology, desalination, water treatment and reuse, hydrogen, energy storage and new renewable energies).

The following table summarizes the total investments made in R&D&i in 2013 and 2012:

| | Assets as of 12.31.12 | Investment during the fiscal year | Other movements | Assets as of 12.31.13 |
|---|---|---|---|---|
| Development assets (Note 8.1) | 223,751 | 100,888 | (13,195) | 311,444 |
| Development assets in projects (Note 10.1) | 73,424 | - | (2,220) | 71,204 |
| Development assets in investments in associates (Note 11.2) | 155,301 | 318,938 | - | 474,239 |
| Technological development research 2013 | - | 6,532 | (6,532) | - |
| **Total in the 2013 fiscal year** | **452,476** | **426,358** | **(21,947)** | **856,887** |

| | Assets as of 12.31.11 | Investment during the fiscal year | Other movements | Assets as of 12.31.12 |
|---|---|---|---|---|
| Development assets (Note 8.2) | 151,741 | 72,350 | (340) | 223,751 |
| Development assets in projects (Note 10.1) | 64,045 | 12,304 | (2,925) | 73,424 |
| Development assets in investments in associates (Note 11.2) | 30,827 | - | 124,474 | 155,301 |
| Technological development research 2012 | - | 6,404 | (6,404) | - |
| **Total in the 2012 fiscal year** | **246,613** | **91,058** | **114,805** | **452,476** |
| Change in consolidation (Befesa Medio Ambiente, S.L.U.) | - | 202 | - | - |
| **Total adjusted in the 2012 fiscal year** | **-** | **91,260** | **-** | **-** |

Last year, 2013, demonstrated Abengoa's strategic commitment to technology as a vector for growth and a source of competitive advantage in its energy and environment sectors. In order to strengthen its R&D model, Abengoa Research (AR), the company that heads Abengoa's technological development, has been structured into five scientific-technological areas aligned with the businesses in which the company applies its technology, consisting of biotechnology, bioenergy, waste; processes, water and hydrogen; and electrical systems and power electronics. Through these areas, Abengoa develops and strengthens the company's existing and future technologies.

The main development assets come from technologies that enable progress to be made in Abengoa's strategic R&D areas; technologies for high-performance thermo-electric solar plants, bio-refineries, treating municipal solid waste for energy production, and water treatment plants.

To increase its technological capacity, Abengoa has added two research laboratories to its existing assets. The Soland laboratory specializes in solar technology, while the Abengoa Research laboratory is equipped with experimental facilities and covers the majority of the company's scientific areas. Furthermore, this year the Technology Surveillance and Patents Office, which was created in 2012 and manages all the intellectual property activities, has consolidated its position. To date, Abengoa has filed 261 patent applications, of which 106 have been granted, with the number of patent applications rising by more than 20% compared to 2012.

In solar-thermal technology it is worth noting the start of construction of Khi Solar One, the world's first commercial plant using tower technology and superheated steam, in South Africa. The 50 MW plant is expected to come into operation at the end of 2014.

In the area of biofuels, Abengoa has continued to construct the commercial bio-refinery plant in Hugoton, which will come into operation in the second quarter of 2014. The technology used in this plant has been developed and proven by Abengoa over the last ten years at the second generation (2G) demonstration plant in Salamanca, Spain. A waste to biofuels (W2B) demonstration plant has also been operated at the same complex, which is capable of obtaining second-generation biofuels from recovered municipal solid waste (MSW). In addition to this progress, Abengoa continues to develop various processes to obtain high value-added bio-products from biomass, such as a catalyst that has been patented that enables biobutanol to be produced from ethanol using a catalytic process. This technology offers an additional advantage since it can be applied at the company's existing conventional biofuels facilities.

Taking into account the investment in Khi Solar One, Hugoton and the waste to biofuels demonstration plant and the rest of our activities expensed or capitalized, total investment in R&D during the year has amounted to € 426,358 thousand (€91,260 thousand in 2012).

Progress also continues in developing and optimizing various technologies related to desalination, treating drinking water and other water treatments and reuse, all based on improvements in the operating conditions of ultra-filtration membranes, which are fundamental for achieving high levels of water purity and quality.

## 8.4. Goodwill

The table below shows the breakdown of Goodwill as of December 31, 2013 and 2012:

| Goodwill / Operating segment | Balance as of 12.31.13 | Balance as of 12.31.12 |
|---|---|---|
| Abener Eng. and Const. Services, LLC (Enginneering and construction) | 25,663 | 26,658 |
| Abengoa Bioenergía Brasil (Biofuels) | 351,280 | 421,084 |
| Abengoa Bioenergy USA (Biofuels) | 32,334 | 33,741 |
| Befesa Aluminio S.L. (Recycling) | - | 38,131 |
| Befesa Gest. Res. Ind, S.L. (Recycling) | - | 57,666 |
| Befesa Medio Ambiente, S.A. (Recycling) | - | 176,848 |
| BUS Group AG (Recycling) | - | 263,442 |
| Rioglass Solar (Enginneering and construction) | 38,919 | 38,919 |
| Other | 27,863 | 58,786 |
| **Total** | **476,059** | **1,115,275** |

In 2013, the decrease is due to the exclusion of Befesa from the consolidation scope (see Note 7), as well as the negative effect of the translation differences mainly due to the depreciation of the Brazilian real with respect to the Euro.

Based on the values in use calculated in accordance with the assumptions and hypothesis described in Notes 2.8 and 3, in 2013 and 2012 the recoverable amount of the cash generating units to which goodwill was assigned is higher than their carrying amount.

For each goodwill, sensitivity analysis have been performed, especially in relation to discount rates, terminal values and changes in the main business key variables, to ensure that potential changes in valuation do not make cash generating units fair value lower than its book value.

## 8.5.

There are no intangible assets with indefinite useful life other than goodwill. There are no intangible assets with restricted ownerships or that may be under pledge as liabilities guarantee.

# Note 9.- Property, plant and equipment

**9.1.** The table below shows the movement on the different categories of Property, plant and equipment (PP&E) for 2013:

| Cost | Lands and buildings | Technical installations and machinery | Advances and fixed assets in progress | Other fixed assets | Total |
|---|---|---|---|---|---|
| Total balance as of December 31, 2012 | 523,679 | 1,306,824 | 95,498 | 107,883 | 2,033,884 |
| Additions | 9,155 | 42,206 | 23,859 | 71 | 75,291 |
| Disposals and decreases | (209) | (1,251) | (34,064) | (1,121) | (36,645) |
| Translation differences | (8,980) | (16,906) | (1,850) | (2,522) | (30,258) |
| Change in consolidation | (52,050) | (91,251) | (31,887) | (15,991) | (191,179) |
| Reclassifications | 22,579 | 836 | (1,955) | (479) | 20,981 |
| **Total Balance as of December 31, 2013** | **494,174** | **1,240,458** | **49601** | **87,841** | **1,872,074** |

| Accumulated depreciation | Buildings | Technical installations and machinery | Advances and fixed assets in progress | Other fixed assets | Total |
|---|---|---|---|---|---|
| Total accum. deprec. as of December 31, 2012 | (109,014) | (436,385) | - | (56,886) | (602,285) |
| Additions | (15,043) | (49,481) | - | (32,249) | (96,773) |
| Disposals and decreases | 166 | 1,198 | - | 794 | 2,158 |
| Translation differences | 1,403 | 7,382 | - | 1,771 | 10,556 |
| Change in consolidation | 12,645 | 58,782 | - | 14,896 | 86,323 |
| Reclassifications | 557 | 393 | - | 586 | 1,536 |
| **Total accum. deprec. as of December 31, 2013** | **(109,286)** | **(418,111)** | **-** | **(71,088)** | **(598,485)** |
| | | | | | |
| **Net balance at December 31, 2013** | **384,888** | **822,347** | **49,601** | **16,753** | **1,273,589** |

In 2013, the decrease in Property, plant and equipment was mainly due to the exclusion of Befesa Medio Ambiente, S.L.U. (see Note 7) and Bargoa, S.A. (see Note 6.2.b) from the consolidation scope following the sales of their shareholdings (-€105 million). However, there was an increase due to construction of a new metal structures manufacturing plant in India; the construction and equipping of a research laboratory in Spain; and the acquisition of machinery for projects in Peru.

During 2013 no significant losses from impairment of PP&E were recorded.

**9.2.** The table below shows the movement on the different categories of Property, plant and equipment (PP&E) for 2012:

| Cost | Lands and buildings | Technical installations and machinery | Advances and fixed assets in progress | Other fixed assets | Total |
|---|---|---|---|---|---|
| Total balance as of December 31, 2011 | 527,574 | 1,325,091 | 118,381 | 124,136 | 2,095,182 |
| Additions | 5,510 | 43,706 | 37,426 | 8,691 | 95,333 |
| Disposals and decreases | (2,825) | (80,553) | (4,406) | (10,823) | (98,607) |
| Translation differences | 993 | (5,964) | 2,406 | (555) | (3,120) |
| Change in consolidation | (9,942) | 35,627 | 654 | 33 | 26,372 |
| Reclassifications | 2,369 | (11,083) | (58,963) | (13,599) | (81,276) |
| **Total Balance as of December 31, 2012** | **523,679** | **1,306,824** | **95,498** | **107,883** | **2,033,884** |

| Accumulated depreciation | Buildings | Technical installations and machinery | Advances and fixed assets in progress | Other fixed assets | Total |
|---|---|---|---|---|---|
| Total accum. deprec. as of December 31, 2011 | (90,577) | (436,780) | - | (64,917) | (592,274) |
| Additions | (15,786) | (89,693) | - | (4,004) | (109,483) |
| Disposals and decreases | - | 76,692 | - | 3,428 | 80,120 |
| Translation differences | (549) | 2,493 | - | 311 | 2,255 |
| Change in consolidation | (1,535) | 5,493 | - | (5,265) | (1,307) |
| Reclassifications | (567) | 5,410 | - | 13,561 | 18,404 |
| Other movements | - | - | - | - | - |
| **Total accum. deprec. as of December 31, 2012** | **(109,014)** | **(436,385)** | **-** | **(56,886)** | **(602,285)** |
| | | | | | |
| **Net balance at December 31, 2012** | **414,665** | **870,439** | **95,498** | **50,997** | **1,431,599** |

Property, plant and equipment cost decreased in December 31, 2012 when compared to December 31, 2011 due to the dismantling of Rontealde (Vizcaya) desulfuration plant and to the reclassification from 'PP&E' to 'Intangible assets in projects' of the fixed assets related with the Mojave solar plant in the United States, once the construction of the plant started after obtaining the project financing. This effect was partially offset by the recognition of the Rioglass Group's business combination described in Note 6.3, which resulted in the consolidation of 100% of the identifiable fixed assets of the group and its valuation at fair value in compliance with IFRS 3.

During 2012, no significant losses from impairment of PP&E were recorded.

**9.3.** Property, plant and equipment not assigned to operating activities at the year-end is not significant.

**9.4.** The companies' policy is to contract all insurance policies deemed necessary to ensure that all Property, plant and equipment is covered against possible risks that might affect it.

**9.5.** The amount of capitalized interest costs included in PP&E at December 31, 2013 was €1,846 thousand (€2,051 thousand in 2012).

**9.6.** At the end of 2013 and 2012, Property, Plant and Equipment include the following amounts where the group is a lessee under a finance lease:

| | Balance as of 12.31.13 | Balance as of 12.31.12 |
|---|---|---|
| Capitalized finance-lease cost | 21,304 | 25,978 |
| Accumulated depreciation | (2,635) | (3,395) |
| **Net carrying amount** | **18,669** | **22,583** |

**9.7.** The cost of lands included in the lands and building subcategory amounted to €82,205 thousand at December 31, 2013 (€94,907 thousand in 2012).

**9.8.** The table below sets out the information related to those assets constructed by the Group during 2013 and 2012 classified under the heading Property, plant and equipment of the Consolidated Statement of Financial Position):

| | 12.31.13 | 12.31.12 |
|---|---|---|
| Property, plant and equipment constructed by the Group (accumulated) | 931,422 | 977,313 |
| Revenue generated by property, plant and equipment constructed by the Group | 746,745 | 973,553 |
| Operating result of property, plant and equipment constructed by the Group | (50,966) | (37,818) |

## Note 10.- Fixed assets in projects (project finance)

As indicated in Note 2.5 included in the Group are several companies which engage in the development of projects including the design, construction, financing, operation and maintenance of owned assets or assets under concession-type agreements which are financed through non-recourse financing.

This note provides a breakdown of fixed assets within such companies. Non-recourse financing details related to such companies are disclosed in Note 19 of these Notes to the Consolidated Financial Statements.

## 10.1. Concession assets in projects.

a) The following table shows the movements of 'Concession assets in projects' for 2013:

| Cost | Intangible and financial assets | Development assets | Total |
|---|---|---|---|
| Total as of December 31, 2012 | 6,109,689 | 73,424 | 6,183,113 |
| Additions | 1,295,290 | - | 1,295,290 |
| Disposals and decreases | (2,741) | - | (2,741) |
| Translation differences | (414,484) | - | (414,484) |
| Change in consolidation | 1,469,234 | (2,220) | 1,467,014 |
| Reclassifications | 362,373 | - | 362,373 |
| **Total as of December 31, 2013** | **8,819,361** | **71,204** | **8,890,565** |

| Accumulated amortization | Intangible and financial assets | Development assets | Total |
|---|---|---|---|
| Total accum. amort. as of December 31, 2012 | (166,053) | (15,353) | (181,406) |
| Additions | (153,803) | (2,878) | (156,681) |
| Disposals and decreases | 177 | - | 177 |
| Translation differences | 9,271 | - | 9,271 |
| Change in consolidation | (3,017) | 397 | (2,620) |
| Reclassifications | 13,937 | - | 13,937 |
| **Total accum amort. as of December 31, 2013** | **(299,488)** | **(17,834)** | **(317,322)** |
| **Net balance at December 31, 2013** | **8,519,873** | **53,370** | **8,573,243** |

The increase in the cost of concession assets is primarily due to progress in developing infrastructure concessions projects, mainly various transmission lines in Brazil and Peru (€727 million); projects in México (€381 million); the Palmatir and Cadonal wind farms in Uruguay (€114 million) and the desalination plants in Ghana and Algeria (€83 million).

Additionally, the increase is caused by the reclassification due to transfer of the fixed assets related to the Solaben 1 and 6 thermosolar plants in Spain from PP&E (see Note 8.1); and the change in the consolidation scope following the entry into operation and control of the company Arizona Solar One, LLC (see Note 6.3), partially offset by the reclassification of the assets of the Quingdao desalination plant under Assets Held for Sale (-€142 million), see Note 7.2, and the depreciation of the Brazilian real and the US dollar with respect to the Euro.

No significant losses from impairment of 'Concession assets in projects' were recorded during 2013.

b) The following table shows the movements of intangible assets included in the heading 'Concession assets in projects' for 2012:

| Cost | Intangible and financial assets | Development assets | Total |
|---|---|---|---|
| Total as of December 31, 2011 | 5,953,700 | 64,045 | 6,017,745 |
| Additions | 1,808,794 | 12,304 | 1,821,098 |
| Translation differences | (324,755) | - | (324,755) |
| Change in consolidation | (1,450,016) | (14,715) | (1,464,731) |
| Reclassifications | 121,966 | 11,790 | 133,756 |
| **Total as of December 31, 2012** | **6,109,689** | **73,424** | **6,183,113** |

| Accumulated amortization | Intangible and financial assets | Development assets | Total |
|---|---|---|---|
| Total accum. amort. as of December 31, 2011 | (152,092) | (9,704) | (161,796) |
| Additions | (93,104) | 6,257 | (86,847) |
| Translation differences | 4,456 | - | 4,456 |
| Change in consolidation | 74,149 | - | 74,149 |
| Reclassifications | 538 | (11,906) | (11,368) |
| **Total accum amort. as of December 31, 2012** | **(166,053)** | **(15,353)** | **(181,406)** |
| | | | |
| **Net balance at December 31, 2012** | **5,943,636** | **58,071** | **6,001,707** |

During 2012 concession assets increased due to Concession projects in process, mainly solar-thermal power plants in Spain (€511 million), as well as the cogeneration plant in Mexico (€97 million) and transmission lines in Brazil and Peru (€860 million). This increase was partially offset by the implementation of new standards IFRS 10 and IFRS11 (€-1,373 million) retroactively applied until January 1, 2012 (see Note 2.1.1.), and by the net negative effect of translation differences.

No significant losses from impairment of 'Concession assets in projects' were recorded during 2012.

c) Capitalized interest cost for the year ended December 31, 2013 amounts to €115,113 thousand (€172,854 thousand in 2012).

d) There are no intangible assets with indefinite useful lives. There are no intangible assets restricted for use or pledged as security for liabilities.

e) As of December 31, 2013, concessional financial assets amount to €729,611 thousand.

f) Appendix VII to these Consolidated Financial Statements includes certain information on project companies included within the scope of IFRIC 12.

## 10.2. Other assets in projects

a) The table below shows the movement in 'Other assets in projects' for 2013:

| Cost | Land and buildings | Technical installations and machinery | Advances and fixed assets in progress | Other PP&E | Software and other intangibles | Total |
|---|---|---|---|---|---|---|
| Total as of December 31, 2012 | 424,847 | 1,447,136 | 137,143 | 351,979 | 91,228 | 2,452,333 |
| Additions | 2,183 | 3,645 | 1,675 | 18,635 | - | 26,138 |
| Disposals and decreases | - | (8,421) | (218) | (155) | - | (8,794) |
| Translation differences | (12,642) | (83,320) | (2,023) | (68,642) | (4,071) | (170,698) |
| Change in consolidation | (119,326) | (298,276) | (81,863) | (14,412) | (9,007) | (522,884) |
| Reclassifications | (10,510) | (2,305) | (30,527) | 89,045 | (4,289) | 41,414 |
| **Total as of December 31, 2013** | **284,552** | **1,058,459** | **24,187** | **376,450** | **73,861** | **1,817,509** |

| Accumulated depreciation | Buildings | Technical installations and machinery | Advances and fixed assets in progress | Other PP&E | Software and other intangibles | Total |
|---|---|---|---|---|---|---|
| Total accum. deprec. as of December 31, 2012 | (105,131) | (416,435) | - | (122,846) | (23,623) | (668,035) |
| Additions | (19,091) | (32,214) | - | (49,851) | (2,066) | (103,222) |
| Disposals and decreases | - | 4,926 | - | 125 | - | 5,051 |
| Translation differences | 2,655 | 26,453 | - | 24,528 | 984 | 54,620 |
| Change in consolidation | 33,370 | 184,348 | - | 9,770 | 3,010 | 230,498 |
| Reclassifications | 4,031 | 1,405 | - | (827) | - | 4,609 |
| **Total accum. deprec. as of December 31, 2013** | **(84,166)** | **(231,517)** | **-** | **(139,101)** | **(21,695)** | **(476,479)** |
| | | | | | | |
| **Net balance at December 31, 2013** | **200,386** | **826,942** | **24,187** | **237,349** | **52,166** | **1,341,030** |

The decrease in Other assets in projects is primarily due to changes in the consolidation scope caused by the sale of the shareholding in Befesa Medio Ambiente, S.L.U. (-€290 million), see Note 7, as well as the negative effect of the depreciation of the Brazilian real with respect to the Euro.

No significant losses from impairment of 'Other assets in projects' were recorded during 2013.

b) The table below shows the movement in 'Other assets in projects' for 2012 :

| Cost | Land and buildings | Technical installations and machinery | Advances and fixed assets in progress | Other PP&E | Software and other intangibles | Total |
|---|---|---|---|---|---|---|
| Total as of December 31, 2011 | 459,317 | 1,509,184 | 227,183 | 289,522 | 99,071 | 2,584,277 |
| Additions | 13,926 | 357 | 81,759 | 127,284 | - | 223,326 |
| Disposals and decreases | (444) | - | - | - | - | (444) |
| Translation differences | (8,271) | (54,076) | (11,004) | (36,915) | (5,534) | (115,800) |
| Change in consolidation | 1,963 | (8,329) | (157,459) | (116) | 171 | (163,770) |
| Reclassifications | (41,644) | - | (3,336) | (27,796) | (2,480) | (75,256) |
| **Total as of December 31, 2012** | **424,847** | **1,447,136** | **137,143** | **351,979** | **91,228** | **2,452,333** |

| Accumulated depreciation | Buildings | Technical installations and machinery | Advances and fixed assets in progress | Other PP&E | Software and other intangibles | Total |
|---|---|---|---|---|---|---|
| Total accum. deprec. as of December 31, 2011 | (88,704) | (387,937) | - | (123,282) | (20,216) | (620,139) |
| Additions | (27,459) | (60,828) | - | (35,840) | (3,689) | (127,816) |
| Translation differences | 1,606 | 16,483 | - | 12,919 | 513 | 31,521 |
| Change in consolidation | 1,091 | 14,725 | - | (108) | (8) | 15,700 |
| Reclassifications | 8,335 | 1,122 | - | 23,465 | (223) | 32,699 |
| **Total accum. deprec. as of December 31, 2012** | **(105,131)** | **(416,435)** | **-** | **(122,846)** | **(23,623)** | **(668,035)** |
| | | | | | | |
| **Net balance at December 31, 2012** | **319,716** | **1,030,701** | **137,143** | **229,133** | **67,605** | **1,784,298** |

During 2012, the decrease of fixed assets in projects was mainly due to the implementation of the changes in IFRS 10 and IFRS 11 (€ -132 million), retroactively applied until January 1, 2012 (see Note 2.1.1) and the negative effect of the depreciation of the Brazilian Real with respect to the Euro. This decrease was partially offset by the increased biological assets in the bioenergy business in Brazil.

During 2012, no significant losses from impairment of 'Other assets in projects' were recorded.

c) Borrowing costs capitalized for the years ended December 31, 2013 and 2012 amounted to €1,635 thousand, €19,484 thousand.

d) The fixed assets in projects have no mortgage warranty additional to the ones assigned to its non-recourse financing (see Note 19).

e) It is the policy of the Group to enter into a number of insurance policies to cover risks relating to property, plant and equipment.

f) In cases of property plant and equipment over third party land, the company has estimated the dismantling costs of affected items, as well as the rehabilitation costs of the place where they are settled. See Note 22.1.

### 10.3. Assets constructed by group

The table below sets out the information related to those assets constructed by the Group during 2013 and 2012 classified under the heading fixed assets in projects of the Consolidated Statement of Financial Position (concessions and other assets in projects):

| Item | 12.31.13 | 12.31.12 |
|---|---|---|
| Fixed assets in projects constructed by the Group (accumulated) | 9,747,611 | 7,307,632 |
| Revenue generated by fixed assets in project constructed by the Group | 1,362,642 | 972,047 |
| Operating result of fixed assets in project constructed by the Group | 156,184 | 88,944 |

## Note 11.- Investments in associates

**11.1** The table below shows the breakdown and the movement of the investments held in associates for 2013 and 2012:

| Investment in associates | Balance as of 12.31.13 | Balance as of 12.31.12 |
|---|---|---|
| Initial balance | 920,140 | 51,270 |
| Translation differences | (27,536) | (18,284) |
| Equity contributions | 372,736 | 517,002 |
| Changes in consolidation | (412,577) | 358,121 |
| Distribution of dividends | (11,916) | (5,530) |
| Share of (loss)/profit | (5,165) | 17,561 |
| **Final balance** | **835,682** | **920,140** |

The increase in 2012 was mainly due to the initial application of IFRS 10 and 11 from January 1, 2012 (€855.6 million), see Note 2.1.1.

**11.2.** The tables below shows a breakdown of assets, revenues and operating profit as well as other information of interest for the years 2013 and 2012 of the associated companies:

| Company | % shares | Assets | Revenues | Operating profit |
|---|---|---|---|---|
| Abengoa Bioenergy Biomass of Kansas, LLC (1) (2) | 100.00 | 407,071 | - | (330) |
| Agua y Gestión de Servicios Ambientales, S.A. | 41.54 | 89,586 | 4,198 | (5,954) |
| Al Oasis-Inabensa Co. Ltd (1) | 50.00 | 12,570 | 30,463 | (15,836) |

(1) Project companies recorded under the equity method after application of IFRS 10 and 11 effective from January 1, 2013 and retroactively applied from January 1, 2012.

(2) The assets heading includes assets under development related to the ethanol production plant in Kansas (USA), which uses biomass and second-generation technology, totaling €369,882 thousand (€145,801 thousand in 2012), and the solar-thermal power plant that uses tower technology and concentrated solar power in South Africa, totaling €104,357 thousand (€9,500 thousand in 2012) applying the shareholding that the Company holds. See Note 8.3 for more details of assets under development.

| Company | % shares | Assets | Revenues | Operating profit |
|---|---|---|---|---|
| Abengoa Bioenergy Biomass of Kansas, LLC (ABBK) (1) | 100.00 | 602,738 | - | (153) |

# Note 12.- Financial instruments by category

The Group's financial instruments are primarily deposits, clients and other receivables, derivatives and loans. Financial instruments by category (current and non-current), reconciled with the Statement of Financial Position, are as follows:

| Category | Notes | Loans and receivables / payables | Non-hedging derivatives | Hedging derivatives | Available for sale | Balance as of 12.31.13 |
|---|---|---|---|---|---|---|
| Available-for-sale financial assets | 13 | - | - | - | 50,207 | 50,207 |
| Derivative financial instruments | 14 | - | 2,686 | 58,865 | - | 61,551 |
| Financial accounts receivables | 15 | 1,575,301 | - | - | - | 1,575,301 |
| Clients and other receivables | 15 | 1,869,972 | - | - | - | 1,869,972 |
| Cash and cash equivalents | 17 | 2,951,683 | - | - | - | 2,951,683 |
| **Total Financial assets** | | **6,396,956** | **2,686** | **58,865** | **50,207** | **6,508,714** |
| Non-recourse financing | 19 | 6,320,950 | - | - | - | 6,320,950 |
| Corporate financing | 20 | 5,654,409 | - | - | - | 5,654,409 |
| Trade and other current liabilities | 25 | 5,514,186 | - | - | - | 5,514,186 |
| Derivative financial instruments | 14 | - | 81,530 | 229,652 | - | 311,182 |
| **Total Financial liabilities** | | **17,489,545** | **81,530** | **229,652** | **-** | **17,800,727** |

| Category | Notes | Loans and receivables / payables | Non-hedging derivatives | Hedging derivatives | Available for sale | Balance as of 12.31.12 |
|---|---|---|---|---|---|---|
| Available-for-sale financial assets | 13 | - | - | - | 49,695 | 49,695 |
| Derivative financial instruments | 14 | - | 8,781 | 34,402 | - | 43,183 |
| Financial accounts receivables | 15 | 1,286,924 | - | - | - | 1,286,924 |
| Clients and other receivables | 15 | 2,271,306 | - | - | - | 2,271,306 |
| Cash and cash equivalents | 17 | 2,413,184 | - | - | - | 2,413,184 |
| **Total Financial assets** | | **5,971,414** | **8,781** | **34,402** | **49,695** | **6,064,292** |
| Non-recourse financing | 19 | 5,256,772 | - | - | - | 5,256,772 |
| Corporate financing | 20 | 4,946,828 | - | - | - | 4,946,828 |
| Trade and other current liabilities | 25 | 5,955,589 | - | - | - | 5,955,589 |
| Derivative financial instruments | 14 | - | 72,713 | 389,038 | - | 461,751 |
| **Total Financial liabilities** | | **16,159,189** | **72,713** | **389,038** | **-** | **16,620,940** |

The information on the financial instruments measured at fair value, is presented in accordance with the following level classification:

- Level 1: Quoted prices in active markets for identical assets or liabilities.
- Level 2: Measured on inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: Measured on inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following is a breakdown of the Group's assets and liabilities measured at fair value at December 31, 2013 and 2012 (except assets and liabilities with a carrying amount close to their fair value, non-quoted equity instruments measured at cost and contracts with components that cannot be measured reliably):

| Category | Level 1 | Level 2 | Level 3 | Balance as of 12.31.13 |
|---|---|---|---|---|
| Non-hedging derivatives | - | (78,844) | - | (78,844) |
| Hedging derivatives | - | (170,787) | - | (170,787) |
| Available-for-sale | 4,449 | - | 45,758 | 50,207 |
| **Total** | **4,449** | **(249,631)** | **45,758** | **(199,424)** |

| Category | Level 1 | Level 2 | Level 3 | Balance as of 12.31.12 |
|---|---|---|---|---|
| Non-hedging derivatives | - | (63,932) | - | (63,932) |
| Hedging derivatives | - | (354,636) | - | (354,636) |
| Available-for-sale | 3,991 | - | 45,704 | 49,695 |
| **Total** | **3,991** | **(418,568)** | **45,704** | **(368,873)** |

The financial instruments at fair value, determined from prices published in active markets (Level 1), consist of shares.

The majority of Abengoa's portfolio comprises financial derivatives designated as cash flow hedges, is classified as level 2 and corresponds mainly to the interest rate swaps (see Note 14).

The caption Non-hedging derivatives accounting includes the fair value of the derivatives embedded in the convertible notes, the fair value of the call options over Abengoa's own shares, as well as those derivatives purchased with the purpose of hedging a market risk (interest rate, foreign exchange or commodities) that do not fulfil all the requirements, according to IAS 39 to be recorded as hedges from an accounting point of view.

Level 3 corresponds mainly to the 3% interest held by Abengoa, S.A. in Yoigo, S.A., a Spanish telecom operator, recorded at fair value of €32,997 thousand and held through the ownership of Siema Investments, S.L. (a holding company owned 100% by Abengoa, S.A.).

The valuation method used to calculate the fair value was discounting cash flows based on its business plan, using as discount rate a weighted average cost of capital (WACC) of market, 10%. It also has been made a sensitivity analysis considering different discount rates and deviations of the business plan in order to ensure that potential valuation changes do not worsen in any case the fair value.

Additionally, the embedded derivative of the convertible loan received as part of the consideration for the sale of Befesa (See Note 7.1), is classified within Level 3. As of December 31, 2013, the embedded derivative has a negative fair value of €36 thousands.

If the equity value of Befesa had increased by 10%, assuming that the average horizon of permanence of the financial fund before the sale of Befesa did not change compared with respect to the hypotheses considered in assessing, the fair value of the embedded derivative would have increased €20 thousand.

The following table shows the changes in the fair value of level 3 assets for the years ended December 31, 2013 and 2012:

| Movements | Amount |
|---|---|
| Beginning balance as of December 31, 2011 | 39,134 |
| Gains and losses recognized in Equity (see Note 13.1) | 1,390 |
| Change in consolidation, reclassifications and translation differences | 5,180 |
| **Total as of December 31, 2012** | **45,704** |
| Gains and losses recognized in Equity (see Note 13.1) | (568) |
| Change in consolidation, reclassifications and translation differences | 622 |
| **Total as of December 31, 2013** | **45,758** |

During the periods ended December 31, 2013 and 2012, there have not been any reclassifications amongst the three levels presented above.

## Note 13.- Available-for-sale financial assets

**13.1.** The following table shows the detail and the movement on available-for-sale financial assets during 2013 and 2012:

| Available for sale financial assets | Balance |
|---|---|
| At January 1, 2011 | 61,401 |
| Additions | 2,213 |
| Gain/Losses transferred to equity | 1,390 |
| Derecognitions | (15,309) |
| **At December 31 , 2012** | **49,695** |
| Additions | 3,802 |
| Gain/Losses transferred to equity | (568) |
| Derecognitions | (2,722) |
| **At December 31 , 2013** | **50,207** |
| Less: Non-current portion | 40,700 |
| Current portion | 9,507 |

**13.2.** The following table shows those entities which, in accordance with the then current legislation, were not consolidated in the years 2013 and 2012 and in which the parent company's direct and indirect shareholding is higher than 5% and lower than 20%. The net carrying amount of these holdings is €8,159 thousand at December 31, 2013 (€8,626 thousand in 2012).

| Non-current financial assets | 2013 % Holding | 2012 % Holding |
|---|---|---|
| Banda 26, S.A. | - | 10.00 |
| Dyadic Investment | 10.00 | 10.00 |
| Fundación Soland | 16.67 | 16.67 |
| Norpost | 10.00 | 10.00 |
| Proxima Ltd. (Nexttel) | 10.00 | 10.00 |
| Soc. Con. Canal Navarra | 10.00 | 10.00 |
| Sociedad Andaluza de Valoración Biomasa | 6.00 | 6.00 |
| Viryanet, Ltd. | 7.86 | 7.86 |

| Current financial assets | 2013 % Holding | 2012 % Holding |
|---|---|---|
| Banda 26, S.A. | - | 10.00 |
| BC International Corp. | 9.00 | 9.00 |
| Chekin | 14.28 | 14.28 |
| Operador Mercado Ibérico (OMIP) | 5.00 | 5.00 |
| Medgrid, SAS | 5.00 | 5.00 |
| Mediación Bursátil, S.V.B., S.A. | 8.00 | 8.00 |

**13.3.** All necessary notifications have been made to the companies in which the Group holds an interest of over 10%, as required under Article 155 of Spanish Corporate Law (Ley de Sociedades de Capital).

**13.4.** There are no circumstances which have a material impact on the financial assets on the Group's portfolio, such as litigations, pledges, etc.

**13.5.** There are no firm agreements in place regarding the sale or purchase of these investments which could be considered material in relation to the Group's Financial Statements.

**13.6.** The amount of interest accrued but not yet collected is not material.

**13.7.** There are no fixed-yield securities in arrears. The average rate of return on fixed-yield securities is in line with the market.

**13.8.** As of December 31, 2013 and 2012, Abengoa, S.A. held a 3% interest in Yoigo, S.A, a Spanish telecom operator, recorded at fair value of €32,997 thousand and held in the Group through the ownership of Siema Investments, S.L. (a holding company owned 100% by Abengoa, S.A.). Additionally the shareholders of Yoigo have granted this company several 'participative' loans in accordance with a pre-established plan, which involved a total disbursement of €21,030 thousand (as of December 31, 2013 and 2012), equivalent to 3% of the total loan made to the company by its shareholders in said years.

To value this holding, as in prior periods, once Yoigo's activities had commenced, the principal reference point taken is the company's future cash-flow generation on the basis of its current Business Plan, discounted at a rate appropriate to the sector in which this company operates (See Note 12).

As a result of the purchase of its holding in Yoigo, Siema Investment, S.L. became responsible, for furnishing guarantees to the Spanish Administration as security for compliance with the commitments relating to investment, commercialization, employment and network development acquired by Yoigo, together with other guarantees relating to the Radioelectronic Spectrum Rate, which the Group is required to counter-guarantee, for a total amount of €3,387 thousand (€12,085 thousand in 2012).

**13.9.** The Group applies IAS 39 to determine whether the carrying amount of an available-for-sale financial asset has been impaired. This process requires significant judgment. To make this judgment, the Group assesses, among other factors, for how long and to what extent the fair value of an investment will be below its cost, considering the financial health and short-term prospects of the company issuing the securities, including factors such as the industry and sector return, changes in the technology and cash flows from operating and financing activities.

## Note 14.- Derivative financial instruments

**14.1.** The fair value of derivative financial instruments (see Note 12) as of December 31, 2013 and 2012 is as follows:

| | | 12.31.13 | | 12.31.12 | |
|---|---|---|---|---|---|
| | Note | Assets | Liabilities | Assets | Liabilities |
| Exchange rate derivatives – cash flow hedge | 14.2.a | 6,028 | 13,519 | 3,455 | 21,060 |
| Interest rate derivatives – cash flow hedge | 14.3.a | 43,889 | 200,483 | 23,052 | 361,824 |
| Interest rate derivatives – non-hedge accounting | 14.3.c | - | 14,765 | - | 12,094 |
| Commodity derivatives – cash flow hedge | 14.4.a | 8,948 | 15,650 | 7,895 | 6,154 |
| Embedded derivatives of convertible bonds and shares options | 20.3 | 2,686 | 66,765 | 8,781 | 60,619 |
| **Total** | | **61,551** | **311,182** | **43,183** | **461,751** |
| Non-current part | | 46,347 | 266,802 | 31,683 | 407,551 |
| Current part | | 15,204 | 44,380 | 11,500 | 54,200 |

Information about the valuation techniques of derivative financial instruments is described in Notes 2.11 and 12.

Derivatives classified as non-hedge accounting are those derivative financial instruments which, although obtained for the purpose of hedging certain market risks (interest rates, exchange rates and commodity prices), do not meet the specific requirements established by IAS 39 to be designated as hedging instruments from an accounting point of view (since, at the inception of the hedge, there was no designation or formal documentation relating to the hedge or the risk management strategy that it was intended to implement) or, having complied with all of the requirements to be designated a hedging instrument, the underlying has been sold or the hedging designation has been interrupted.

Fair value of derivative assets increased during 2013 due to new interest rate derivatives contracted, which was partially offset by the decrease in fair value of call options on Abengoa's own shares that were signed to hedge the convertible notes, mainly due to a decrease in the stock price of the shares of Abengoa, which is a principal factor in the fair value of the embedded derivatives and the options.

The fair value of derivative liabilities decreased during 2013 mainly due to the favorable evolution of hedging interest rate derivatives, measured according to IFRS 13. Additionally there has been an increase due to the recognition of the embedded derivative component of convertible notes issued in January 2013 (see Note 20.3), partially offset by the decrease in the fair value of the derivative liabilities embedded in convertible notes issued in 2009 and 2010 and by the partial cancellation of the embedded derivative component of convertible notes due 2014 once the repurchase process has been completed on January 17, 2013.

The fair value amount recognized in the Consolidated Income Statement of the 2013 and 2012 fiscal year for the financial instruments derivatives designated as hedging instruments is a loss of €88,924 thousand (loss of €96,172 thousand in 2012).

Included in the following sections are detailed fair value presentations of each of the categories of derivative financial instruments presented in the table above. The net position of assets and liabilities for each line item of the summary table above reconciles with the net amount of the fair values of collections and payments for exchange rate derivatives, the net amount of the fair values of caps and swaps for interest rates hedges and the net amount of the fair values of commodity price derivatives, respectively.

## 14.2. Exchange rate hedges

The terms 'Collection hedges' and 'Payment hedges' refer to foreign currency derivatives designated as hedging instruments of future cash inflows and outflows associated to highly probable forecasted sales and purchase, respectively, denominated in a foreign currency.

The following table shows a breakdown of the notional amounts of the financial instruments relating to amounts receivable and payable in foreign currencies as of December 31, 2013 and 2012.

| | Collection hedges | | Payment hedges | |
|---|---|---|---|---|
| **Exchange Rates** | **2013** | **2012** | **2013** | **2012** |
| Krona (Sweden) | - | - | 1,653 | 880 |
| Dirhams (UAE) | 13,222 | 15,344 | 7,683 | 7,325 |
| Dirhams (Morocco) | 533 | - | - | 6 |
| Dollar (Australia) | - | - | 1,939 | 29 |
| Dollar (Canada) | - | - | - | 144 |
| Dollar (USA) | 328,421 | 76,765 | 226,943 | 209,104 |
| Euro | - | 20,093 | 4,978 | 50,480 |
| Franc (Switzerland) | - | - | - | 2,881 |
| Pound Sterling (UK) | - | - | 68 | 32 |
| Mexican Peso (Mexico) | - | 98 | 8 | 10 |
| Yen (Japan) | - | - | 15 | - |
| Rand (South Africa) | - | 52,094 | - | 10,707 |
| Zloty (Poland) | 137,363 | 199,081 | 65,647 | 76,928 |
| **Total** | **479,539** | **363,475** | **308,934** | **358,526** |

The following table shows a breakdown of the fair values of exchange rate derivatives relating to amounts receivable and payable in foreign currencies as of December 31, 2013 and 2012:

| | Collection hedges | | Payment hedges | |
|---|---|---|---|---|
| **Exchange Rates** | **2013** | **2012** | **2013** | **2012** |
| Krona (Sweden) | - | - | 2 | (6) |
| Dirhams (UAE) | 430 | 167 | (289) | (148) |
| Dirhams (Morocco) | 4 | - | - | - |
| Dollar (Australia) | - | - | (102) | (1) |
| Dollar (Canada) | - | - | - | 8 |
| Dollar (USA) | 12,499 | 307 | (14,378) | (6,714) |
| Euro | - | 551 | 1 | (936) |
| Franc (Switzerland) | - | - | - | 17 |
| Pound Sterling (UK) | - | - | 2 | - |
| Yen (Japan) | - | - | (1) | - |
| Rand (South Africa) | - | (1,029) | - | 179 |
| Zloty (Poland) | (8,555) | (18,267) | 2,896 | 8,267 |
| **Total** | **4,378** | **(18,271)** | **(11,869)** | **666** |

### a) Cash flow hedges

The table below shows a breakdown of the maturities of notional amounts of exchange rate derivatives designated as cash flow hedges at the end of 2013 and 2012:

| | 12.31.13 | | 12.31.12 | |
|---|---|---|---|---|
| **Notionals** | **Collections** | **Payments** | **Collections** | **Payments** |
| Up to 1 year | 404,477 | 290,853 | 150,270 | 263,340 |
| Between 1 and 2 years | 45,579 | 17,616 | 149,995 | 95,186 |
| Between 2 and 3 years | 29,483 | 465 | 63,210 | - |
| **Total** | **479,539** | **308,934** | **363,475** | **358,526** |

The table below shows a breakdown of the maturities of fair value amounts of exchange rate derivatives designated as cash flow hedges at the end of 2013 and 2012 year end:

| | 12.31.13 | | 12.31.12 | |
|---|---|---|---|---|
| **Fair value** | **Collections** | **Payments** | **Collections** | **Payments** |
| Up to 1 year | 8,714 | (11,880) | 43 | (6,088) |
| Between 1 and 2 years | (2,988) | 36 | (9,583) | 6,754 |
| Between 2 and 3 years | (1,348) | (25) | (8,731) | - |
| **Total** | **4,378** | **(11,869)** | **(18,271)** | **666** |

The net amount of the fair value of exchange rate derivatives designated as cash flow hedges transferred to the Consolidated Income Statement in 2013 and 2012 has been of €-5,211 thousand and €1,033 thousand, respectively (see Note 18.3).

The ineffective amount recognized in the Consolidated Income Statement for the years 2013 and 2012 with respect to exchange rate derivatives designated as cash flow hedges amounts to €1,040 thousand and €-17,193 thousand, respectively.

The after-tax gains/losses accumulated in equity in connection with exchange rate derivatives designated as cash flow hedges at December 31, 2013 amounted to €-4,362 thousand (€-17,395 thousand in 2012). See note 18.3.

### b) Fair value hedges

The group does not have any exchange rate derivatives designated as fair value hedges at the end of 2013 and 2012.

### c) Non-hedge accounting derivatives

At the end of 2013 and 2012 the Group does not hold any exchange rate non-hedge accounting derivatives instruments.

The net amount of the fair value of exchange rate derivatives charged directly to the Consolidated Income Statement as a result of not meeting all the requirements of IAS 39 to be designated as hedges represented an impact of €283 thousand (€-19,947 thousand in 2012) (see Note 30.2).

## 14.3. Interest rate hedges

As stated in Note 4 to these Consolidated Financial Statements, the general hedging policy for interest rates is to purchase call options in exchange of a premium to fix the maximum interest rate cost. Additionally, under certain circumstances, the company also uses floating to fixed interest rate swaps.

As a result, the notional amounts hedged, strikes contracted and maturities, depending on the characteristics of the debt on which the interest rate risk is being hedged, can be diverse:

- Corporate Financing: we hedge between 78% and 100% of the notional amount, with maturities up to 2022 and average guaranteed interest rates of between 0.70% and 4.75% for loans referenced to the 1-month, 3-months and 6 months Euribor rates.
- Non-recourse financing:
  - Non-recourse financing in Euros: we hedge between 80% and 100% of the notional amount, maturities until 2032 and average guaranteed interest rates of between 0.75 % and 4.87%.
  - Non-recourse financing in US Dollars: we hedge between 75% and 100% of the notional amount, including maturities until 2028 and average guaranteed interest rates of between 0.70% and 3.787%.

## a) Cash flow hedges

The table below shows a breakdown of the maturities of notional amounts of interest rate derivatives designated as cash flow hedges at the 2013 and 2012 year end:

| | 12.31.13 | | 12.31.12 | |
|---|---|---|---|---|
| **Notionals** | **Cap / Collar** | **Swap** | **Cap / Collar** | **Swap** |
| Up to 1 year | 3,029,715 | 231,932 | 100,999 | 754,090 |
| Between 1 and 2 years | 3,033,757 | 37,190 | 2,832,548 | 42,526 |
| Between 2 and 3 years | 2,756,511 | 39,962 | 2,790,374 | 43,284 |
| Subsequent years | 4,764,796 | 821,217 | 5,605,113 | 932,066 |
| **Total** | **13,584,779** | **1,130,301** | **11,329,034** | **1,771,966** |

The table below shows a breakdown of the maturity of the fair values of interest rate derivatives designated as cash flow hedges at the 2013 and 2012 year end:

| | 12.31.13 | | 12.31.12 | |
|---|---|---|---|---|
| **Fair value** | **Cap / Collar** | **Swap** | **Cap / Collar** | **Swap** |
| Up to 1 year | (14,910) | (13,219) | (6,373) | (37,440) |
| Between 1 and 2 years | (15,705) | 87 | (13,543) | (11,532) |
| Between 2 and 3 years | (1,157) | 90 | (12,397) | (9,941) |
| Subsequent years | 36,227 | (148,007) | 20,968 | (268,514) |
| **Total** | **4,455** | **(161,049)** | **(11,345)** | **(327,427)** |

The net amount of the fair value of interest rate derivatives designated as cash flow hedges transferred to the Consolidated Income Statement in 2013 and 2012 has been of €-94,226 thousand and €-75,664 thousand, respectively (see Note 18.3).

The after-tax gains/losses accumulated in equity in connection with derivatives designated as cash flow hedges at the end of 2013 and 2012 amount to € -151,733 thousand and €-273,966 thousand, respectively (see Note 18.3).

The net amount of the time value component of the cash flow derivatives fair value recognized in the Consolidated Income Statement for the years 2013 and 2012 has been € 21,734 thousand and €-24,221 thousand, respectively.

## b) Fair value hedges

The Group does not have any interest rate derivatives designated as fair value hedges at the end of 2013 and 2012.

## c) Non-hedges accounting derivatives

The table below shows a detail of the maturities of notional amounts of interest rate derivatives that not meet the requirements to be designed as hedging instruments at the end of 2013 and 2012:

| | 12.31.13 | | | 12.31.12 | | |
|---|---|---|---|---|---|---|
| **Notionals** | **Cap** | **Floor** | **Swap** | **Cap** | **Floor** | **Swap** |
| Up to 1 year | - | - | - | 169,613 | - | 72,691 |
| Between 1 and 2 years | - | 630,000 | - | - | - | - |
| Between 2 and 3 years | - | 300,000 | - | - | 660,000 | - |
| Subsequent years | - | 1,815,000 | - | - | 300,000 | - |
| **Total** | **-** | **2,745,000** | **-** | **169,613** | **960,000** | **72,691** |

The table below shows a detail of the maturities of fair values of non-hedge accounting interest rate derivatives at the end of 2013 and 2012:

| | 12.31.13 | | | 12.31.12 | | |
|---|---|---|---|---|---|---|
| **Fair value** | **Cap** | **Floor** | **Swap** | **Cap** | **Floor** | **Swap** |
| Up to 1 year | - | - | - | - | - | (2,206) |
| Between 1 and 2 years | - | (6,497) | - | - | - | - |
| Between 2 and 3 years | - | (1,993) | - | - | (7,044) | - |
| Subsequent years | - | (6,275) | - | - | (2,816) | - |
| **Total** | **-** | **(14,765)** | **-** | **-** | **(9,860)** | **(2,206)** |

At the end of 2013 and 2012, the net amount of the fair value of interest rate derivatives charged directly to the Consolidated Income Statement as a result of not meeting all the requirements of IAS 39 to be designated as hedges represented an impact of €534 thousand and €-4,305 thousand, respectively (see Note 30.1).

Additionally, a series of interest rate swaps and caps were settled in 2008, generating a positive cash flow upon liquidation. These contracts had been designated as cash flow hedge as a result of the respective effectiveness tests performed. Therefore, applying IAS 39, when the hedging instrument no longer exists and the hedged transaction continues to be probable, the cumulative gain or loss on the hedging instrument that remains recognized in equity from the period when the hedge was effective should remain in equity until the forecasted transaction occurs. This amount will be reclassified to profit or loss in the same period or periods in which the hedged forecasted transaction affects profit or loss. In the present case, it will be reclassified to profit or loss as the finance expense originated by the loan hedged is recognized in the Consolidated Income Statement. As a result, Abengoa will reclassify the profit recognized in equity to the Consolidated Income Statement following the swaplet method, where each interest rate calculation period of the swap is called a swaplet.

The balance calculated for each swaplet is recognized in the Consolidated Income Statement in the period of each swaplet. The amounts transferred from equity to the Consolidated Income Statement in 2013 and 2012 were a gain of €1,032 thousand and €7,695 thousand, respectively, with an amount of €0 thousand (€1,032 thousand in 2012) yet to be transferred to the Consolidated Income Statement in the following years.

## 14.4. Commodity price hedges

In relation to hedges of commodity prices, as stated in Note 2.10 of the Consolidated Financial Statements of Abengoa for the year ended on December 31, 2013, the different activities carried on by Abengoa through its different segments (Biofuels, Recycling (until the sale of shareholding in Befesa) and Engineering and construction) expose the group to risks derived from the fair value of certain commodity prices (zinc, aluminum, grain, ethanol and gas).

To hedge these risks, Abengoa uses derivative contracts and OTC derivatives for commodity prices.

### a) Cash flow hedges

The table below shows a breakdown of the maturities of notional amounts for the commodity price derivatives designated as cash flow hedges at the 2013 and 2012 year end:

| 2013 | Ethanol (Gallons) | Gas (MWh) | Grain (Bushels) | Zinc (Tons) | Aluminum (Tons) | Other (Tons) |
|---|---|---|---|---|---|---|
| Up to 1 year | 94,752,000 | 2,814,591 | 41,735,000 | - | 120,642 | - |
| **Total** | **94,752,000** | **2,814,591** | **41,735,000** | **-** | **120,642** | **-** |

| 2012 | Ethanol (Gallons) | Gas (MWh) | Grain (Bushels) | Zinc (Tons) | Aluminum (Tons) | Other (Tons) |
|---|---|---|---|---|---|---|
| Up to 1 year | 14,987,300 | 5,202,000 | 32,090,000 | 67,920 | 800 | 908 |
| Between 1 and 2 years | - | - | - | 36,000 | - | - |
| **Total** | **14,987,300** | **5,202,000** | **32,090,000** | **103,920** | **800** | **908** |

The table below shows a breakdown of the maturities of the fair value of commodity price derivatives designated as cash flow hedges at the 2013 and 2012 year end:

| 2013 | Ethanol | Gas | Grain | Zinc | Aluminum | Other |
|---|---|---|---|---|---|---|
| | | | (€ thousands) | | | |
| Up to 1 year | 4,587 | 755 | 2,715 | - | (14,759) | - |
| **Total** | **4,587** | **755** | **2,715** | **-** | **(14,759)** | **-** |

| 2012 | Ethanol | Gas | Grain | Zinc | Aluminum | Other |
|---|---|---|---|---|---|---|
| | | | (€ thousands) | | | |
| Up to 1 year | (387) | (369) | (368) | 6,818 | 135 | 76 |
| Between 1 and 2 years | - | - | - | (4,164) | - | - |
| **Total** | **(387)** | **(369)** | **(368)** | **2,654** | **135** | **76** |

The net amount of the fair value of commodity price derivatives designated as cash flow hedges transferred to the Income statement in 2013 and 2012 has been of €10,513 thousand and €-21,541thousand, respectively (see Note 18.3).

The after-tax gains/losses accumulated in equity in connection with derivatives designated as cash flow hedges at December 31, 2013 amounted to €-7,674 thousand (€8,761 thousand in 2012), see Note 18.3.

### b) Non-hedge accounting derivatives

At the end of 2013 and 2012, the Group does not hold non-hedge accounting derivative financial instruments of commodity prices.

The net amount of the fair value of commodity prices derivatives charged directly to the Consolidated Income Statement as a result of not meeting all the requirements of IAS 39 to be designed as hedges represented losses of €9,837 thousand (losses of €20,428 thousand in 2012) (see Note 30.3).

## Note 15.- Clients and other receivable accounts

**15.1.** The breakdown of Clients and Other Receivable Accounts as of December 31, 2013 and 2012 is as follows:

| Item | Balance as of 12.31.13 | Balance as of 12.31.12 |
|---|---|---|
| Trade receivables | 566,930 | 1,064,838 |
| Unbilled revenues | 488,883 | 393,200 |
| Bad debt provisions | (64,047) | (46,086) |
| Tax receivables | 640,567 | 621,034 |
| Other debtors | 237,639 | 238,320 |
| **Total** | **1,869,972** | **2,271,306** |

As a general rule, 'Unbilled revenues' are billed within the three months following completion of the work being performed on the project. Nevertheless, given the highly-tailored characteristics of some construction contracts, some projects may take longer to be billed due to specific billing milestones in the contracts. The total outstanding balances as of December 31, 2013 and 2012 are supported by contracts signed with such customers and do not include any receivables relating to customer claims.

At the end of 2013 and the 2012 there were no balances with related parties (see Note 33.2).

**15.2.** The fair value of Clients and other receivable accounts does not differ significantly from its carrying value.

**15.3.** The list of Clients and Other Accounts Receivable according to foreign currency as at December 31, 2013 and 2012 are as follows:

| Currency | Balance as of 12.31.13 | Balance as of 12.31.12 |
|---|---|---|
| Algerian dinar | 11,219 | 18,548 |
| Dirhams (Morocco) | 16,926 | 16,980 |
| American dollar | 259,751 | 169,211 |
| New peruvian sol | 25,883 | 59,931 |
| Argentinian peso | 9,988 | 11,278 |
| Chilean peso | 38,217 | 28,814 |
| Mexican peso | 78,155 | 85,171 |
| Uruguayan peso | 17,125 | 12,864 |
| Brazilian real | 56,344 | 109,984 |
| Indian rupee | 8,546 | 5,313 |
| Chinese yuan | 28,904 | 9,174 |
| Polish zloty | 13,685 | 1,278 |
| Others | 65,631 | 27,663 |
| **Total** | **630,374** | **556,209** |

**15.4.** The following table shows the maturity detail of trade receivables as of December 31, 2013 and 2012:

| Maturity | Balance as of 12.31.13 | Balance as of 12.31.12 |
|---|---|---|
| Up to 3 months | 409,744 | 941,048 |
| Between 3 and 6 months | 43,305 | 49,271 |
| Over 6 months | 113,881 | 74,519 |
| **Total** | **566,930** | **1,064,838** |

**15.5.** The credit quality of outstanding Trade receivables, that are neither past due nor impaired, may be assessed under the following categories:

| Categories | Balance as of 12.31.13 | Balance as of 12.31.12 |
|---|---|---|
| Trade receivables subjet to non-recourse factoring by the bank | 217,318 | 728,301 |
| Trade receivables subject to recourse factoring by the bank | - | 5,486 |
| Trade receivables covered by credit insurance | 2,276 | 21,805 |
| Trade receivables in cash or by transfer | 208,996 | 131,997 |
| Trade receivables UTE/Public Entities/Other accounts | 138,340 | 177,249 |
| **Total trade receivables** | **566,930** | **1,064,838** |

**15.6.** The movement in the bad debt provision for 2013 and 2012 is the following:

| | Balance as of 12.31.13 | Balance as of 12.31.12 |
|---|---|---|
| Initial Balance | (46,086) | (29,077) |
| Provision for receivables impairment | (31,680) | (22,301) |
| Receivables written off during the year as uncollectible | 533 | (633) |
| Reversal of unused amounts | 7,235 | 6,506 |
| Change in consolidation | 2,218 | - |
| Reclassifications and other movements | 3,733 | (581) |
| **Total** | **(64,047)** | **(46,086)** |

The most significant variations in 2013 are primarily due to recognition of doubtful trade loans with debtor balances that mostly correspond to public clients in Spain and abroad, against whom the corresponding claims have been made for the amounts owing from various construction projects, supported by the company's formal procedures, depending on each case. Given the uncertainty in relation to the future recoverability of these loans, due to various factors but most of which are beyond the company's control, it has been decided to make the corresponding provision. Once the process has been definitively resolved, and in the event that it is favorable for the company, the corresponding provision will be reversed against the "Reversal of unused amounts" heading.

The most significant variations for the year 2012 are due to the recognition of doubtful trade receivables mainly related to water infrastructure projects as well as other minor engineering and construction projects.

**15.7.** The Company maintains a number of non-recourse factoring lines of credit. The Company enters into these factoring agreements with certain financial institution by selling the Company's credit rights in certain commercial contracts. The factoring agreements are entered into on a non-recourse basis, meaning that the financial institutions undertake the credit risk associated with the Company's customers. The Company is responsible for the existence and legitimacy of the credit rights being sold to the financial institutions. Credit rights from recurring customers or with terms of up to one year are supported by annual revolving factoring lines of credit. Credit rights from non-recurring customers or with terms longer than a year are supported with global transfer agreements commencing on the date when the underlying commercial contract comes into force and expiring when the contracted works are completed.

At the end of the 2013 financial year, approximately €285 million (€360 million in 2012) were factored and derecognized pursuant to the provisions of IAS39.

The finance cost in the 2013 fiscal year derived from factoring operations amounted to €17 million (€24 million in 2012).

**15.8.** Furthermore, as of December 31, 2013 collections amounted to €298 million (€196 million in 2012), related to a construction contract for a combined cycle plant in Mexico with a transfer agreement of the non-recourse collection rights signed with a financial institution under the 'Pidiregas' deferred financing scheme, in which a financial institution provides the funds required to construct the project until the provisional handover of the plant, when the amount of the contract is paid directly by the client to the financial institution. Consequently, Abengoa is being paid as the construction milestones are completed. The financial expense associated with this scheme in 2013 amounted to €12 million (€20 million in 2012).

**15.9.** The breakdown of Tax receivables as of December 31, 2013 and 2012 is as follows:

| Item | Balance as of 12.31.13 | Balance as of 12.31.12 |
|---|---|---|
| Income and other taxes receivable | 387,924 | 406,916 |
| Social Security debtors | 436 | 439 |
| VAT charged | 171,047 | 141,715 |
| Witholdings tax and income tax advance | 81,160 | 71,964 |
| **Total tax receivables** | **640,567** | **621,034** |

**15.10.** The following table shows a breakdown of financial accounts receivable as of December 31, 2013 and 2012:

| Description | Balance as of 12.31.13 | Balance as of 12.31.12 |
|---|---|---|
| Loans | 570,321 | 289,843 |
| Fixed-term deposits and down payments and lease deposits | 97,934 | 116,677 |
| Other financial assets | 5,928 | 28 |
| **Total non-current portion** | **674,183** | **406,548** |
| Loans | 159,513 | 24,347 |
| Fixed-term deposits and down payments and lease deposits | 741,605 | 856,029 |
| **Total current portion** | **901,118** | **880,376** |

This heading includes the loans and other accounts receivable considered as non-derivative financial assets not listed in an active market, with a maturity period of less than twelve months (current assets) or exceeding that period (non-current assets).

The market value of these assets does not differ significantly from their carrying amount.

Current and non-current loans for an amount of €730 million in 2013 (€314 million in 2012), mainly includes the convertible loan and credit note received in the sale of Befesa (see Note 7.1) amounting €225 million, an account receivable of €141.8 million resulting from a favorable resolution from the Court of Arbitration of the International Chamber of Commerce in relation with the arbitration against Adriano Gianetti Dedini Ometto and Adriano Ometto Agrícola Ltda. (see Note 15.11), loans with associates amounting to €168 million, as well as credits with local administrations.

Current and non-current fixed-term and deposits for an amount of €840 million (€973 million in 2012) includes primarily restricted investments in fixed-income securities and bank deposits.

Other financial assets include other receivable amounts considered as non-derivative financial assets not listed in an active market, which are not classified in any of the other categories.

**15.11.** In November 2011, two related arbitration proceedings were concluded in our favor in the International Court of Arbitration of the International Chamber of Commerce with seat in New York, United States. Our subsidiary ASA Bioenergy Holding A.G. ('ASA') was awarded favorably in relation to demands for certain breaches of contract by Adriano Gianetti Dedini Ometto and Adriano Ometto Agrícola Ltda. (the 'Adriano' Defendants). In each of the procedings, Adriano filed various counterclaims which were appropriately answered by us. Both arbitration proceedings were decided in ASA's favor, in October 2012, when we received confirmation from the International Chamber of Arbitration in the approximate total amount of USD 118.3 million plus accrued interest. Adriano Defendants presented motions to vacate such arbitral awards in the ordinary courts of New York City, which was in turn decided in our favor, with full confirmation on the validity of the two awards in first instance. As a result, the Defendants appealed in the Second Circuit Court in New York. The appeal hearing took place in New York in December 2013. On January, 2014 the Second Circuit Court has decided again in favor of ASA. The last action that Adriano can take is to appeal to the Supreme Tribunal, which has remote chances of success, in the Directors opinion. In addition, the Company has started the actions to recognition of the awards in Brazil.

The resolution of the Second Circuit Court provides additional evidence of the existence of an account receivable as of December 31, 2013. As a result, an income and an account receivable have been recorded as of that date for an amount of € 142 million.

## Note 16.- Inventories

**16.1.** Inventories as of December 31, 2013 and 2012 were as follows:

| Item | Balance as of 12.31.13 | Balance as of 12.31.12 |
|---|---|---|
| Goods for sale | 15,817 | 39,676 |
| Raw materials and other supplies | 112,657 | 147,499 |
| Work in progress and semi-finished products | 1,160 | 3,940 |
| Projects in progress | 58,588 | 50,856 |
| Finished products | 64,582 | 103,218 |
| Advance Payments to suppliers | 78,177 | 81,637 |
| **Total** | **330,981** | **426,826** |

Inventories for entities located outside Spain were €219,447 thousand (€249,233 thousand in 2012).

**16.2.** There are no restrictions on the availability of inventories, with the exception of guarantees provided for construction projects in the normal course of business, which are released as the contractual milestones of the project are achieved.

## Note 17.- Cash and cash equivalents

The following table sets out the detail of Cash and cash equivalents at December 31, 2013 and 2012:

| Item | Balance as of 12.31.13 | Balance as of 12.31.12 |
|---|---|---|
| Cash at bank and on hand | 1,630,597 | 1,625,195 |
| Bank deposit | 1,321,086 | 787,989 |
| **Total** | **2,951,683** | **2,413,184** |

The following breakdown shows the main currencies in which cash and cash equivalent balances are denominated:

| | 12.31.13 | | 12.31.12 | |
|---|---|---|---|---|
| Currency | Domestic companies | Non-domestic companies | Domestic companies | Non-domestic companies |
| Euro | 934,785 | 220,265 | 639,055 | 154,258 |
| US dollar | 641,729 | 767,361 | 404,870 | 537,019 |
| Swiss franc | 592 | 59 | 2,541 | 70 |
| Sterling pound | 3 | 4 | 1,158 | 71 |
| Argentinian peso | - | 9,061 | - | 5,220 |
| Peruvian sol | 7 | 58,380 | 490 | 15,427 |
| Algerian dinar | 525 | 42,026 | - | 22,724 |
| Brazilian real | - | 222,167 | 10 | 521,927 |
| South african rand | 37 | 27,583 | 344 | 78,443 |
| Others | 7,000 | 20,099 | 3,543 | 26,014 |
| **Total** | **1,584,678** | **1,367,005** | **1,052,011** | **1,361,173** |

# Note 18.- Shareholders' equity

## 18.1. Share capital

As of December 31, 2013 the share capital amounts to €91,856,888.71 represented by two distinct classes of 825,562,690 shares completely subscribed and disbursed:

- 84,445,719 class A shares with a nominal value of 1 Euro each, all in the same class and series, each of which grants the holder a total of 100 voting rights ('Class A Shares').
- 741,116,971 class B shares with a nominal value of 0.01 Euros each, all in the same class and series, each of which grants One (1) voting right and which afford its holder economic rights identical to the economic rights of Class A shares as stated in article 8 of the Company's by laws ('Class B Shares' and, together with class A shares, 'Shares with Voting Rights').

On October 17, 2013, we carried out a capital increase of 250,000,000 Class B shares and on October 29, 2013 we issued, as a result of the exercise of the option to purchase additional shares to cover over-allotment by the underwriters of the capital increase, 37,500,000 additional Class B shares ('greenshoe' option). The shares were offered at a price of €1.80 per share, for total gross proceeds, including shares sold pursuant to the greenshoe option, of €517.5 million.

With the net proceeds of the capital increase, the Company has repair in 2013 and intends to repay some of its corporate debt with maturities in 2014, totaling approximately €347 million including: (a) the first installment due under the Official Credit Institute Loan (€50 million); (b) the entirety of the EIB R&D&i 2007 Credit Facility and the EIB 2007 Credit Facility (€109 million); (c) installments due under the Swedish Export Buyer Credit Agreement and the Second Swedish Credit Agreement (€127 million); (d) and certain corporate loans of some of our subsidiaries (€37 million). The remaining part of the issue will be held for additional financial flexibility. The capital increase will strengthen the company's balance sheet, reinforcing and optimizing its capital structure, as well as diversifying its sources of financing by providing access to the US capital markets.

Moreover, the controlling shareholder, Inversión Corporativa IC, S.A., has subscribed 35,000,000 shares with an investment of €63 million, so that following the capital increase the Inversión Corporativa group holds a 57.79% shareholding. As part of the capital increase, the company and Inversión Corporativa IC, S.A. agreed a lock-up clause for a period of 180 days under the standard terms for these types of transactions.

Class A and B shares are listed on the Madrid and Barcelona Stock Exchange and on the Spanish Stock Exchange Electronic Trading System (Electronic Market). Class A shares have been listed since November 29, 1996 and class B shares since October 25, 2012. The Company presents mandatory financial information on a quarterly and semiannual basis.

The new class B shares issued in the capital increased in 2013, are also listed on the NASDAQ Global Select Market in the form of American Depositary Shares (with five Class B shares exchangeable for one American Depositary Share).

In accordance with notifications received by the company and in compliance with reporting requirements to communicate shareholding percentages and the information received from relevant parties, shareholders with a significant holding as of December 31, 2013 are as follows:

| Shareholders | Share % |
|---|---|
| Inversión Corporativa IC, S.A. (*) | 51.60 |
| Finarpisa, S.A. (*) | 6.19 |

(*) Inversión Corporativa Group.

On September 30, 2012, the Extraordinary General Shareholders' Meeting approved a capital increase of 430,450,152 class B shares with a nominal value of €0.01per share, charged to our freely available reserves, which have been distributed for no consideration to all existing shareholders on the basis of four class B shares for each class A share or class B share which they hold ('the Capital increase'). Consequently, this capital increase did not cause any dilution or concentration with respect to the shareholders previous ownership.

The General Shareholders' Meeting approved a right of voluntary conversion for the class A shareholders to convert their class A shares with a nominal value of 1 Euro into class B shares with a nominal value of 0.01 Euros during pre-set windows until December 31, 2017. Following the exercise of this right, after each conversion window, a capital reduction has taken place and will take place, by reducing the par value of a number of converted class A shares to by 0.99 euros per share, with a credit to restricted reserves.

In the context of the Capital increase, Inversión Corporativa IC, S.A. ('Inversión') has agreed to (i) limit its voting rights to the 56% of the total voting rights of Class A shares and to guarantee (ii) that the percentage of voting shares held by Inversión Corporativa (whether they are class A shares or class B ordinary shares) over the total shares of the Company shall at no time be lower than one fourth of the percentage of voting rights that those shares provide to Inversión Corporativa, with respect to its total voting rights in the Company, meaning that its voting rights may not exceed four times its economic rights. Should that threshold be exceeded, Inversión Corporativa will transfer class A ordinary shares, or convert class A shares into class B shares, in such number as may be necessary to maintain such proportion.

During 2013 four capital conversions took place, through wich 1,173,788 Class A shares were converted into class B shares, which has resulted in a reduction of capital of €1,162 thousand.

Since the approval by the General Shareholder's Meeting (September 30, 2012) of the afore-mentioned voluntary conversion light conversion right of class A shares into class B shares, eight capital conversions have taken place after eight conversion windows periods; the last one has finalized on January 15, 2014.

After such capital conversions the share capital as of January 27, 2014 after the end of the eighth conversion period amounts to €91,223,623.33 represented by two distinct classes of 825,562,690 shares completely subscribed and disbursed: 83,806,057 class A shares and 741,756,633 class B shares.

The General Shareholders' meeting held on April 7, 2013 approved a dividend of €0.072 per share, which totals €38,741 thousand, compared to €37,664 thousand in the previous year. On April 9, 2013 the dividend was paid.

## 18.2. Parent company reserves

The following table shows the amounts and movements of the Parent Company Reserves in 2013 and 2012:

| | Balance as of 12.31.12 | Distribution of 2011 profits | Capital increase | Other movements | Balance as of 12.31.13 |
|---|---|---|---|---|---|
| Share premium | 388,752 | - | 514,625 | - | 903,377 |
| Revaluation reserve | 3,679 | - | - | - | 3,679 |
| Other reserves of the parent company: | | | | | |
| - Unrestricted reserves | 219,426 | 70,390 | (16,865) | (84,173) | 188,778 |
| - Legal reserves | 16,549 | 6,365 | 1,162 | - | 24,076 |
| **Total** | **628,406** | **76,755** | **498,922** | **(84,173)** | **1,119,910** |

| | Balance as of 12.31.11 | Distribution of 2010 profits | Capital increase | Other movements | Balance as of 12.31.11 |
|---|---|---|---|---|---|
| Share premium | 388,752 | - | - | - | 388,752 |
| Revaluation reserve | 3,679 | - | - | - | 3,679 |
| Other reserves of the parent company: | | | | | |
| - Unrestricted reserves | 202,178 | 26,595 | (4,305) | (5,042) | 219,426 |
| - Legal reserves | 4,607 | 7,140 | 4,802 | - | 16,549 |
| **Total** | **599,216** | **33,735** | **497** | **(5,042)** | **628,406** |

The amount corresponding to 'Other movements' for 2013 and 2012 is mainly part of operations carried out with treasury shares.

The Legal Reserve is created in accordance with Article 274 the Spanish Corporate Law (Ley de Sociedades de Capital), which states that in all cases an amount of at least 10% of the earnings for the period will be allocated to this reserve until at least 20% of the share capital is achieved and maintained. The Legal Reserve may not be distributed and, if used to compensate losses in the event that there are no other reserves available to do so, it should be replenished from future profits.

On November 19, 2007, the company entered into a liquidity agreement on class A shares with Santander Investment Bolsa, S.V. Replacing this liquidity agreement, on January 8, 2013, the company entered into a liquidity agreement on class A shares with Santander Investment Bolsa, S.V. in compliance with the conditions set forth in CNMV Circular 3/2007 of December 19. On November 8, 2012, the company entered into a liquidity agreement on class B shares with Santander Investment Bolsa, S.V. in compliance with the conditions set forth in CNMV Circular 3/2007 of December 19.

As of December 31, 2013 treasury stock amounted to 40,009,307 shares (14,681,667 shares in 2012), which 5,382,896 are class A shares and 34,626,411 are class B shares.

Regarding the operations carried out during the year, the number of treasury stock purchased amounted to 8,125,581 class A shares and 62,025,632 class B shares and treasury stock transferred amounted to 5,681,820 class A shares and 39,141,753 class B shares, with a net result of €-89,612 thousand recognized in equity (€-961 thousand in 2012).

The proposed distribution of 2013 profits of the Parent Company:

| Distribution | Balance as of 12.31.13 |
|---|---|
| Legal reserve | 343 |
| Unrestricted reserves | 102,040 |
| Dividends | 91,637 |
| **Total** | **194,020** |

The proposed distribution of 2013 profits involves the payment of €0.111 per share in 2014. The Company paid a dividend of €0.072 per share in 2013.

## 18.3. Other reserves

Other reserves include the impact of the valuation of derivative instruments and available for sale investments at the end of the year.

The following table shows the balances and movements of Other reserves by item for 2013 and 2012:

| | Hedging reserves | Available-for-sale financial assets reserves | Total |
|---|---|---|---|
| Balance as of December 31, 2012 | (282,600) | 2,334 | (280,266) |
| - Gains/ (losses) on fair value for the year | 89,584 | (616) | 88,968 |
| - Transfer to the Consolidated Income Statement | 88,924 | - | 88,924 |
| - Tax effect | (53,385) | 1,595 | (51,790) |
| - Transfers between other reserves and retained earnings | (6,292) | - | (6,292) |
| **Balance as of December 31, 2013** | **(163,769)** | **3,313** | **(160,456)** |

| | Hedging reserves | Available-for-sale financial assets reserves | Total |
|---|---|---|---|
| Balance as of December 31, 2011 | (180,034) | 644 | (179,390) |
| - Gains/ (losses) on fair value for the year | (237,614) | 1,440 | (236,174) |
| - Transfer to the Consolidated Income Statement | 96,172 | - | 96,172 |
| - Tax effect | 38,876 | 341 | 39,217 |
| - Transfers between other reserves and retained earnings | - | (91) | (91) |
| **Balance as of December 31, 2012** | **(282,600)** | **2,334** | **(280,266)** |

For further information on hedging activities, see Note 14.

## 18.4. Accumulated currency translation differences

The amount of accumulated currency translation differences for fully and proportionally consolidated companies and associates at the end of 2013 and 2012 is as follows:

| | Balance as of 12.31.13 | Balance as of 12.31.12 |
|---|---|---|
| Currency translation differences: | | |
| - Fully and proportionally consolidated companies | (545,950) | (153,246) |
| - Associates | (36,885) | (14,134) |
| **Total** | **(582,835)** | **(167,380)** |

The decrease in the accumulated currency translation differences is mainly due to the depreciation of the Brazilian Real against the Euro.

## 18.5. Retained earnings

The breakdown and movement of Retained earnings during the 2013 and 2012 fiscal years are as follows:

| | Balance as of 12.31.12 | Dist. of 2012 profit | 2013 profit | Other movements | Balance as of 12.31.13 |
|---|---|---|---|---|---|
| Reserves in full & proportionate consolidated entities | 772,943 | (77,687) | - | 40,169 | 735,425 |
| Reserves in equity method investments | 18,938 | 17,561 | - | (20,991) | 15,508 |
| Parent company dividends and reserves | - | 115,496 | - | (115,496) | - |
| **Total reserves** | **791,881** | **55,370** | **-** | **(96,318)** | **750,933** |
| Consolidated profits for the year | 94,020 | (94,020) | 110,324 | - | 110,324 |
| Profit attributable to non-controlling interest | (38,650) | 38,650 | (8,879) | - | (8,879) |
| **Profit attributable to the parent company** | **55,370** | **(55,370)** | **101,445** | **-** | **101,445** |
| **Total retained earnings** | **847,251** | **-** | **101,445** | **(96,318)** | **852,378** |

| | Balance as of 12.31.11 | Dist. of 2011 profit | 2012 profit | Other movements | Balance as of 12.31.12 |
|---|---|---|---|---|---|
| Reserves in full & proportionate consolidated entities | 491,110 | 298,771 | - | (16,938) | 772,943 |
| Reserves in equity method investments | 17,323 | 3,975 | - | (2,360) | 18,938 |
| Parent company dividends and reserves | - | 71,399 | - | (71,399) | - |
| **Total reserves** | **508,433** | **374,145** | **-** | **(90,697)** | **791,881** |
| Consolidated profits for the year | 395,482 | (395,482) | 94,020 | - | 94,020 |
| Profit attributable to non-controlling interest | (21,337) | 21,337 | (38,650) | - | (38,650) |
| **Profit attributable to the parent company** | **374,145** | **(374,145)** | **55,370** | **-** | **55,370** |
| **Total retained earnings** | **882,578** | **-** | **55,370** | **(90,697)** | **847,251** |

Amounts included under 'Other movements' mainly refer to the acquisition of various non-controlling interests, the effects of which is recorded in net equity as required by the revised IFRS 3.

The Reserves in full and proportionate consolidated entities and equity method investments are as follows:

| | Balance as of 12.31.13 | | Balance as of 12.31.12 | |
|---|---|---|---|---|
| **Business unit** | **F.C/P.C** | **E.M.** | **F.C/P.C** | **E.M.** |
| Engineering and construction | 727,792 | 9,164 | 571,151 | 46,366 |
| Concession-type infraestructure | 173,800 | 6,976 | 128,205 | (33,378) |
| Industrial production | (166,167) | (632) | 73,587 | 5,950 |
| **Total** | **735,425** | **15,508** | **772,943** | **18,938** |

## Note 19.- Non-recourse financing (project financing)

As indicated in Note 2.2, there are certain entities within the Group for which, in general, the main commercial purpose is the long-term development of integrated products which are financed through non-recourse project finance. This note outlines the non-recourse financing linked to the assets included in Note 10 of these Consolidated Financial Statements.

Non-recourse financing is generally used for constructing and/or acquiring an asset, exclusively using as guarantee the assets and cash flows of the company or group of companies carrying out the activities financed. In most of the cases, the assets and/or contracts are set up as guarantee to ensure the repayment of the related financing.

Compared to corporate financing, non-recourse financing has certain key advantages, including a greater leverage period permitted and a clearly defined risk profile.

**19.1.** The balances and movements for 2013 and 2012 of non-recourse financing are set out in the table below:

| | Non-recourse financing - long term | Non-recourse financing - short term | Total |
|---|---|---|---|
| Balance as of 12.31.12 | 4,678,993 | 577,779 | 5,256,772 |
| Increases | 1,666,324 | 164,506 | 1,830,830 |
| Decreases (reimbursement) | (477,684) | (476,417) | (954,101) |
| Currency translation differences | (285,264) | (63,015) | (348,279) |
| Changes in consolidation and reclassifications | 153,782 | 381,946 | 535,728 |
| **Balance as of 12.31.13** | **5,736,151** | **584,799** | **6,320,950** |

The increase in 2013 was mainly due to the consolidation of Arizona Solar One (see Notes 2.1.1 and 6.3) by € 809 million and to new drawnings related to transmission lines projects (€ 605 million). In addition, the Company obtained new financing for the cogeneration plant in Tabasco, Mexico (€566 million). There were also new drawnings for thermosolar projects (€ 366 million), mainly Solaben 1 and 6 (€ 200 million).

Additionally, the Company has repaid € 377 million corresponding to the existing debt of the cogeneration plant in Tabasco, Mexico, which has been replaced by a new financing as referred to above. Furthermore, there have been repayments of debt related to thermosolar projects (- € 175 million) and transmission lines (- € 122 million). Non-recourse financing also decreased due to the sale of Befesa (- €369 million), to the classification of Qingdao as held for sale (- € 106 million) and to translation differences (- €348 million) mainly caused by the depreciation of brazilian real with respect to the euro.

| | Non-recourse financing - long term | Non-recourse financing - short term | Total |
|---|---|---|---|
| Balance as of 12.31.11 | 4,982,975 | 407,135 | 5,390,110 |
| Increases | 780,859 | 62,311 | 843,170 |
| Decreases (reimbursement) | (18,878) | (155,894) | (174,772) |
| Currency translation differences | (150,735) | (32,826) | (183,561) |
| Changes in consolidation and reclassifications | (915,228) | 297,053 | (618,175) |
| **Balance as of 12.31.12** | **4,678,993** | **577,779** | **5,256,772** |

During 2012 the increase in non-recourse financing was mainly due to drawings in relation to transmission lines amounting to €549 million. In addition, €217 million were drawn in relation with new solar projetcs and €48 million in relation to the co-generation project in Tabasco, Mexico. On the other hand, non-recourse financing decreased due to de-consolidation of companies resulting from the initial application of IFRS10 and 11 as of January 1, 2012 (€635 million) and due to translation differences (€-184 million decrease) mainly caused by the depreciation of Brazilian real with respect to the euro.

**19.2.** Within the assets on the Consolidated Statement of Financial Position and under the Cash and Cash equivalent and Financial Receivables (Current and non-current) headings, there are debt service reserve accounts in the amount of €156 million relating to project finance in 2013 (€192 million in 2012).

**19.3.** Appendix IX of this consolidated report details the Project companies as of the end of 2013 which are financed by Non-recourse project finance.

**19.4.** The repayment schedule for Non-recourse project financing, at the end of 2013 is as follows and is consistent the projected cash flows of the related projects.

| 2014 | 2015 | 2016 | 2017 | 2018 | Subsequents years |
|---|---|---|---|---|---|
| 584,799 | 653,369 | 596,008 | 290,075 | 452,199 | 3,744,500 |

Included within the amounts repayable there are balances relating to operations financed through non-recourse bridge loans (see Note 19.6) which will be repaid upon granting long-term non-recourse project financing.

**19.5.** Non-recourse financing projects entered into in 2013 and 2012 (in Millions of Euros) is as follows:

| Project | Year | Country | Amount committed | Amount drawn |
|---|---|---|---|---|
| Palmatir, S.A. | 2013 | Uruguay | 84 | 43 |
| Solaben Electricidad Uno y Seis | 2013 | España | 200 | 200 |
| Abengoa Transmisión Norte S.A. (ATN) | 2013 | Perú | 83 | 83 |
| ATE XIII, Norte Brasil Transmissora de Energía S.A. | 2013 | Brasil | 70 | 70 |
| Abengoa Cogeneración Tabasco, S. de R.L. de C.V. | 2013 | México | 512 | 497 |
| **Total year 2013** | | | **949** | **893** |
| Befesa Desalination Developments Ghana Limited | 2012 | Ghana | 67 | - |
| Kaxu Solar One (Pty) Ltd. (*) | 2012 | Sudáfrica | 488 | 45 |
| Khi Solar One (Pty) Ltd. (*) | 2012 | Sudáfrica | 218 | 43 |
| Transmisora Baquedano, S.A. | 2012 | Chile | 30 | - |
| Transmisora Mejillones S.A. | 2012 | Chile | 26 | - |
| ATE XIII, Norte Brasil Transmissora de Energía S.A | 2012 | Brasil | 388 | 338 |
| Abengoa Transmisión Norte S.A. (ATN) | 2012 | Perú | 68 | 64 |
| **Total year 2012** | | | **1,285** | **490** |

(*) Project companies included in the consolidation group by the equity method after application of IFRS 10 and 11 effective from January 1, 2013 and retroactively applied until January 1, 2012.

**19.6.** Non-recourse project finance applied to projects also includes Non-Recourse Finance in Process. This relates to certain operations which are financed in a similar manner to non-recourse projects, generally by financial entities, and which are earmarked to be future development projects which typically will eventually be financed through non-recourse project finance. Receiving finance in process is in effect similar to receiving traditional customer prepayments during various early phases of construction of a project; Non-recourse finance in process varies slightly from traditional prepayments, however, in that it is not received from customers but from a financial entity. Such funding typically relates to transitional financing phases of a project (typically periods of less than 2-3 years) during the launch and construction phase of goods/projects which once completed and ready for operation become financed under the non-recourse project finance model (See Note 2.5).

However, if during the transitory period there is a risk of non-compliance with the debt repayment schedule necessary for the formalization of Project Finance (or of construction, which will ultimately require financing), this would be reclassified to elsewhere on the Consolidated Statement of Financial Position, depending upon the nature of the arrangement, typically being Loans with financial entities.

The table below lists projects with non-recourse financing in progress as of December 31, 2013 (amount in thousands of euros):

| | ATN 3 | ATE XVI Miracema | ATE XVII Milagres | ATE XVIII Estreito | Hospital Manaus | Cadonal |
|---|---|---|---|---|---|---|
| Project start date | June-13 | March-13 | March-13 | March-13 | April-13 | December-12 |
| Planned end date | August-16 | August-16 | May-16 | January-16 | March-15 | March-15 |
| Contract price (EPC) | 83,528 | 390,667 | 92,889 | 83,711 | 145,235 | 77,858 |
| ST financing start date | June-13 | March-13 | August-13 | September-13 | December-13 | May-13 |
| ST financing maturity date | June-15 | July-15 | August-15 | September-15 | June-15 | May-15 |
| Anticipated LT financing start date | June-15 | July-15 | July-15 | March-15 | June-14 | April-14 |
| LT financing duration | Up to 15 years | Up to 15.5 years | Up to 15 years | Up to 15 years | Up to 12 years | Up to 19.5 years |
| Total amount of LT financing (€ thousand) | 72,633 | 340,759 | 52,993 | 52,377 | 109,067 | 64,643 |

**19.7.** Current and non-current loans with credit entities include amounts in foreign currencies for the total of €3,958,597 thousand (€2,722,189 thousand in 2012).

The equivalent in euros of the most significant foreign-currency-denominated debts held by the Group is as follows:

| | 12.31.13 | | 12.31.12 | |
|---|---|---|---|---|
| Currency | Non-domestic companies | Domestic companies | Non-domestic companies | Domestic companies |
| Krona (Sweden) | - | - | 1,135 | - |
| Dinar (Algeria) | 390,089 | - | 376,902 | - |
| Dollar (USA) | 2,111,663 | 67,875 | 899,248 | 70,148 |
| Peso (Chile) | 4,767 | - | - | - |
| Peso (Uruguay) | - | - | 36,784 | - |
| Real (Brazil) | 1,384,203 | - | 1,231,727 | - |
| Yuan (China) | - | - | 106,245 | - |
| **Total** | **3,890,722** | **67,875** | **2,652,041** | **70,148** |

# Note 20.- Corporate financing

**20.1.** The breakdown of the corporate financing as of December 31, 2013 and 2012 is as follows:

| Non-current | Balance as of 12.31.13 | Balance as of 12.31.12 |
|---|---|---|
| Credit facilities with financial entities | 1,959,339 | 2,506,005 |
| Notes and bonds | 2,638,083 | 1,643,926 |
| Finance lease liabilities | 27,093 | 28,049 |
| Other loans and borrowings | 110,630 | 178,464 |
| **Total non-current** | **4,735,145** | **4,356,444** |

| Current | Balance as of 12.31.13 | Balance as of 12.31.12 |
|---|---|---|
| Credit facilities with financial entities | 636,733 | 536,052 |
| Notes and bonds | 256,443 | 30,881 |
| Finance lease liabilities | 12,945 | 11,885 |
| Other loans and borrowings | 13,143 | 11,566 |
| **Total current** | **919,264** | **590,384** |
| | | |
| **Total corporate financing** | **5,654,409** | **4,946,828** |

## 20.2. Credit facilities with financial entities

a) The amount of current and non-current credit facilities with financial entities as of December 31, 2013 includes debts denominated in foreign currencies in the amount of €278,511 thousand (€259,242 thousand in 2012).

The most significant amounts of debt in foreign currencies with financial entities is as follows:

| | 12.31.13 | | 12.31.12 | |
|---|---|---|---|---|
| Currency | Non-domestic companies | Domestic companies | Non-domestic companies | Domestic companies |
| Dollar (USA) | 104,602 | 112,609 | 35,532 | 190 |
| Franc (Switzerland) | - | - | - | 99 |
| Peso (Mexico) | 15,642 | - | 19,730 | - |
| Real (Brazil) | 178 | - | 202,719 | - |
| Rand (South Africa) | 34,509 | - | - | - |
| Rupee (Indian) | 9,640 | - | - | - |
| Sol (Peru) | 793 | - | 491 | - |
| Yuan (China) | 538 | - | 481 | - |
| **Total** | **165,902** | **112,609** | **258,953** | **289** |

b) The following table shows a list of credit facilities with financial entities:

| Loan details | Year granted | Granted amount | Outstanding | Expiry |
|---|---|---|---|---|
| Loan with Instituto de Crédito Oficial | 2007 | 151,389 | 151,389 | jul-16 |
| Loan with the European Investment Bank (R&D&i) | 2007 | 109,069 | 109,069 | aug-14 |
| Inabensa financing | 2010-2013 | 407,204 | 318,960 | 2014-2020 |
| Abener Energía S.A. financing | 2010-2013 | 469,819 | 331,440 | 2014-2024 |
| Forward Start Facility 2012 | 2012 | 1,663,210 | 1,421,797 | jul-16 |
| Other borrowings | Varios | 263,417 | 263,417 | Various |
| **Total** | | **3,064,108** | **2,596,072** | |

With the aim of minimizing the volatility in interest rates of financial operations, specific contracts are signed to hedge the possible variations that may occur (See Note 14).

The long-term syndicated financing loan was signed for the purposes of financing investments and general financing requirements of Abengoa, S.A. and all the companies of the group without non-recourse financing.

On April 27, 2012, the Company signed the refinancing and syndication of €1,566,210 thousand of its long term corporate debt. The refinancing was led by a group of national and international entities, which acted as arrangers and bookrunners for the transaction. On May 22, 2012 and according to the option included in the contract, the principal amount was increased by €47,000 thousand and on July 11, 2012 it was additionally increased by €50,000 thousand, so the refinancing amounted to 1,663,210 thousand. The refinancing was supported by 37 international financial institutions.As of December 31, 2013, borrowings under the 2013 Forward Start Facility amounted to €1,416,710 thousand.

On December 23, 2013 there was a repayment of the Forward Start Facility 2012 against the maturity of July 2014 for an amount of €246,500 thousand.

Interest rate applicable is Euribor plus a margin of 3.75% until January 20, 2013, 4.00% until January 2015 and 4.25% until July 20, 2016.

In addition, the bilateral loans with the Official Credit Institute (ICO) and the European Investment Bank (EIB) are aimed at financing specific investment programs, more notably overseas programs, as well as R&D&i programs.

Furthermore, some subsidiaries of Abengoa S.A. undersigned long-term loans with various entities, including two financing agreements signed with a group of financing entities backed by an EKN (Swedish Export Credit Agency) guarantee to finance industrial machinery in various projects:

To ensure that the Company has sufficient funds to repay the debt with respect to its capacity to generate cash flow, Abengoa has to comply with a Corporate Net Debt/EBITDA financial ratio with the financial institutions.

According to the financing agreements, the maximum limit of this ratio is 3.0 for the years 2012, 2013 and until December 30, 2014 and 2.5 starting December 31, 2014. As of December 31, 2013 and 2012, Corporate Net Debt/EBITDA financial ratio was 1.69 and 1.80 respectively, according to the conditions of the financing agreements.

c) As of December 31, 2013 the debt repayment calendar was as set out in the following table:

| | 2014 | 2015 | 2016 | 2017 | 2018 | Subsequent years | Total |
|---|---|---|---|---|---|---|---|
| FSF 2012 | 240,881 | 505,114 | 675,802 | - | - | - | 1,421,797 |
| EIB financing | 109,069 | - | - | - | - | - | 109,069 |
| ICO financing | 51,476 | 49,942 | 49,971 | - | - | - | 151,389 |
| Abener Energia SA financing | 73,998 | 61,749 | 41,837 | 34,795 | 46,361 | 72,700 | 331,440 |
| Instalaciones Inabensa SA financing | 70,918 | 59,699 | 55,098 | 54,519 | 52,048 | 26,678 | 318,960 |
| Remaining loans and credits | 90,391 | 30,529 | 10,127 | 18,320 | 9,222 | 104,828 | 263,417 |
| **Total** | **636,733** | **707,033** | **832,835** | **107,634** | **107,631** | **204,206** | **2,596,072** |

The exposure of the Group to movements in interest rates and the dates at which prices are revised is specified in Note 4 on the management of financial risks. Corporate financing is mainly based in variable interest rates, as such its fair value is close to its book value. The fair value is based on discounted cash flows, applying a discount rate being that of the third-party loan.

d) The balance of interest payable is €39,664 thousand as of 2013 (€17,890 thousand in 2012) and is included under 'Short-term borrowings'.

e) Real estate pledged against mortgages corporate financing as of December 31, 2013 is not significant.

f) The average interest rates associated with the debt facilities reflect normal levels in each of the regions and areas in which the facility was agreed upon.

g) The average cost of total financing during 2013 was 7.1%.

## 20.3. Notes and bonds

The table below shows the maturities of the existing notes as of December 31, 2013:

| | 2014 | 2015 | 2016 | 2017 | 2018 | 2019 | 2020 |
|---|---|---|---|---|---|---|---|
| Convertible notes Abengoa | 100,100 | - | - | 250,000 | - | 400,000 | - |
| Ordinary notes Abengoa | - | 300,000 | 500,000 | 472,246 | 550,000 | - | 326,940 |
| Euro-Commercial Paper Programme (ECP) (*) | 104,912 | - | - | - | - | - | - |
| **Total** | **205,012** | **300,000** | **500,000** | **722,246** | **550,000** | **400,000** | **326,940** |

(*) With possibility of renewal

## Convertible notes 2014

On July 24, 2009, Abengoa, S.A. issued Convertible Notes, convertible into ordinary shares, to qualified investors and institutions in Europe for the amount of €200 million. On January 17, 2013, Abengoa, S.A. repurchased a nominal amount of €99.9 for a purchase price of €108.8 million. The terms and conditions of the issuance are currently as follows:

a) The nominal amount of the notes is one hundred million and one hundred thousand Euros (€100.1 million) with maturity set at five (5) years.

b) The Notes accrue a fixed annual interest of 6.875% payable semiannually.

c) The 2014 Convertible Notes are convertible into fully paid class A shares or class B shares of Abengoa, subject to certain liquidity conditions, credited in the number determined by dividing the aggregate nominal amount of the Notes by the applicable conversion price. The conversion price was initially set at €21.12 per ordinary share of Abengoa and was adjusted to €20.84 per share in July 2012 following a dividend payment (€0.35 per share) in excess of the dividend threshold permitted without adjustment in the conversion price (€0.21 per share). In October 2012, the conversion price was adjusted to €4.17 per share of Abengoa due to the distribution of class B shares as approved by the Extraordinary General Shareholders' Meeting held on September 30, 2012. Additionally, the conversion price has been adjusted to €3.81 per share of Abengoa as a result of the Capital Increase completed on October 29, 2013.

d) Pursuant to the Terms and Conditions, in the event that investors decide to exercise their right of conversion, the Company may decide to settle the issuance entirely in shares, in cash or in a combination of shares and cash.

As described in Note 2.19.1 in Significant accounting policies, in accordance with IAS 32 and 39 and the Terms and Conditions of the issuance, since Abengoa has a contractual right to choose the type of settlement and one of these possibilities is paying through a variable number of shares and cash, the conversion option qualifies as an embedded derivative. Thus, the convertible bonds are considered a hybrid instrument, which includes a component of debt and an embedded derivative for the conversion option held by the bondholder. This happens with 2014, 2017 and 2019 convertible bonds.

The carrying value amount of the liability component of this note at December 31, 2013 amounted to 96,183 thousand (€178,720 thousand at December 31, 2012, corresponding to a nominal amount of €200 million).

At December 31, 2013, the fair value of the derivative liability embedded in the convertible bond is €984 thousand, while its fair value as of December 31, 2012 amounted to €21,313 thousand. The decrease in fair value has been recorded as an income amounting to €9,672 thousand in 'Other net finance income/expense' in the Consolidated Income Statement for the year ended December 31, 2013 (10,656 thousand in 2012), see Note 30.3.

Additionally, a net loss of €4,815 thousand was recorded due to the partial repayment of the convertible notes due 2013, the repayment resulted in an income of €7,212 thousand due to the fair value measurement of the cancelled embedded derivative component and a loss of €12,027 thousand due to the difference between the amount paid and the cancelled components of the liability.

The key data for the valuation model were the share price, the estimated profitability of the dividend, an envisaged option maturity life, an interest rate and underlying volatility as set out in the table below:

| | 12.31.2013 | 12.31.2012 |
|---|---|---|
| 'Spot Abengoa' Price (euros) | 2,18 | 2.34 |
| 'Strike' Price (euros) | 3.81 | 4.17 |
| Maturity | 07/24/2014 | 07/24/2014 |
| Volatility | 40% | 65% |
| Number of shares | 52,493,438 | 47,961,631 |

Furthermore, in order to partially hedge the derivatives embedded in the notes convertible, during the years 2011 and 2010 the Company purchased two call options over 7,000,000 Abengoa's own shares with a strike price of €21.125 per share, maturing on July 24, 2014 (over 35,000,000 Abengoa's shares with a strike price of €4.22 after the distribution of class B. shares approved by the Extraordinary General Meeting held on September 30, 2012).

These options hedge around 67% of the notes in the event of conversion.

The fair value of the options at December 31, 2012, calculated using the Black-Scholes model, was €4,714 thousand, while the fair value was €419 thousand at December 31, 2013. The decrease in fair value has been recorded as a finance expense amounting to €4,295 thousand recorded in 'Other net finance income/expense' in the Consolidated Income Statement (an expense of €15,320 thousand in 2012), see Note 30.3. As of December 31, 2013 the listed price of these bonds was 102.006%.

The key data for the valuation model included the share price, the estimated profitability of the dividend, the envisaged life of maturity, an interest rate and underlying volatility as set forth in the table below:

| | 12.31.2013 | 12.31.2012 |
|---|---|---|
| 'Spot Abengoa' Price (euros) | 2,18 | 2.34 |
| 'Strike' Price (euros) | 4.22 | 4.22 |
| Maturity | 07/24/2014 | 07/24/2014 |
| Volatility | 47% | 51% |
| Number of shares | 35,000,000 | 35,000,000 |

## Convertible notes 2017

On February 3, 2010, Abengoa, S.A. issued Convertible Notes, convertible into ordinary shares, to qualified investors and institutions for the amount of €250 million. The terms and conditions of the issuance are currently as follows:

a) The Notes were issued for two hundred million Euros (€250 million) with maturity set at seven (7) years.

b) The Notes accrue a fixed annual interest of 4.5% payable semiannually.

c) The 2017 Convertible Notes are convertible into fully paid class A shares or class B shares of Abengoa, subject to certain liquidity conditions, credited in the number determined by dividing the aggregate nominal amount of the Notes by the applicable conversion price. The conversion price was initially set at €30.27 per ordinary share of Abengoa and was adjusted to €29.87 per share in July 2012 following a dividend payment (€0.35 per share) in excess of the dividend threshold permitted without adjustment in the conversion price (€0.21 per share). In October 2012, the conversion price was adjusted to €5.97 per share of Abengoa due to the distribution of class B shares as approved by the Extraordinary General Shareholders' Meeting held on September 30, 2012. Additionally, the conversion price has been adjusted to €5.45 per share of Abengoa as a result of the Capital Increase completed on October 29, 2013.

d) Pursuant to the Terms and Conditions, in the event that investors decide to exercise their right of conversion, the Company may decide to settle the issuance entirely in shares, in cash or in a combination of shares and cash.

The carrying value amount of the liability component of this bond at December 31, 2013 amounted to 203,422 thousand (€191,516 thousand at December 31, 2012).

Additionally, at December 31, 2013, the fair value of the derivative liability embedded in the convertible bond is €2,887 thousand, while its fair value as of December 31, 2012 amounted to €39,306 thousand. The decrease in fair value has been recorded as an income amounting to €36,419 thousand in 'Other net finance income/expense' in the Consolidated Income Statement for the year ended December 31, 2012 (€16,885 thousand in 2012), see Note 30.3.

The key data for the valuation model included the share price, the estimated profitability of the dividend, an envisaged option maturity life, an interest rate and underlying volatility as set forth in the table below:

| | 12.31.2013 | 12.31.2012 |
|---|---|---|
| 'Spot Abengoa' Price (euros) | 2,18 | 2.34 |
| 'Strike' Price (euros) | 5.45 | 5.97 |
| Maturity | 02/03/2017 | 02/03/2017 |
| Volatility | 39% | 65% |
| Number of shares | 45,871,560 | 41,876,047 |

Furthermore, in order to partially hedge the derivatives embedded in the notes convertible, during the years 2011 and 2010 the Company purchased two call options over 7,100,000 Abengoa's own shares with a strike price of €30.27 per share, maturing on February 3, 2017 (over 35,500,000 Abengoa's own shares with a strike price of €6.05 after the distribution of class B shares approved by the Extraordinary General Meeting held on September 30, 2012).

These options hedge around 76% of the notes in the event of conversion.

The fair value of the options at December 31, 2012, calculated using the Black-Scholes model, was €4,065 thousand, while the fair value was €2,322 thousand at December 31, 2013. The decrease in fair value has been recorded as a finance expense amounting to €1,743 thousand recorded in 'Other net finance income/expense' in the Consolidated Income Statement (€17,139 thousand in 2012), see Note 30.3. As of December 31, 2013 the listed price of these bonds was 100.453%.

The key data for the valuation model included the share price, the estimated profitability of the dividend an envisaged option maturity life, an interest rate and underlying volatility as set forth in the table below:

| | 12.31.2013 | 12.31.2012 |
|---|---|---|
| 'Spot Abengoa' Price (euros) | 2,18 | 2.34 |
| 'Strike' Price (euros) | 6.05 | 6.05 |
| Maturity | 02/03/2017 | 02/03/2017 |
| Volatility | 43% | 43% |
| Number of shares | 35,500,000 | 35,500,000 |

On February 3, 2015, holders of the 2017 Convertible Notes will have the right to require Abengoa to redeem the 2017 Convertible Notes at the principal amount together with accrued and unpaid interest to such date.

## Convertible notes 2019

On January 17, 2013, Abengoa, S.A. issued €400 million aggregate principal amount among qualified and institutional investors of 6.25% convertible notes due 2019 (the '2019 Convertible Notes'). The notes are convertible into class B shares. In summary, the final terms and conditions of the issuance are as follows:

a) The Notes were issued for four hundred million Euros (€400 million) with maturity set at six (6) years.

b) The Notes accrue a fixed annual interest of 6.25% payable semiannually.

c) The Notes are convertible, at the option of noteholders into fully paid class B shares.

d) In the event that investors decide to exercise their right of conversion, the Company may decide to repay the notes in shares, cash or a combination of cash and shares.

e) The 2019 Convertible Notes are convertible into class B shares of the Parent Guarantor credited in the number determined by dividing the aggregate nominal amount of the Notes by the applicable conversion price. The initial conversion price is three Euros and twenty-seven cents of a Euro (€3.27) for each class B share of the Company. The conversion price has been adjusted to €3.04 per share of Abengoa as a result of the Capital Increase completed on October 29, 2013.

The carrying value of the liability component of the notes at December 31, 2013 amounts to €309,249 thousand.

At December 31, 2013, the fair value of the derivative liability embedded in the convertible note is €62,894 thousand, while its initial valuation generated in the issuance of the convertible notes amounted to €91,244 thousand. The decrease in fair value has been recorded as income amounting to €28,350 thousand in 'Other finance income' in the Consolidated Income Statement for the year ended December 31, 2013. As of December 31, 2013 the listed price of these bonds was 101.509%.

The key data for the valuation model included the share price, the estimated profitability of the dividend an envisaged option maturity life, an interest rate and underlying volatility as set forth in the table below:

| | 12.31.2013 |
|---|---|
| 'Spot Abengoa' Price (euros) | 2,18 |
| 'Strike' Price (euros) | 3.04 |
| Maturity | 17/01/2019 |
| Volatility | 37% |
| Number of shares | 131,578,947 |

## Ordinary notes Abengoa 2015

On December 1, 2009, Abengoa S.A. issued ordinary Notes for the amount of €300 million. In summary, the final terms and conditions of the issuance are as follows:

a) The Notes were issued for three hundred million Euros (€300 million) with maturity set at five (5) years.

b) These Notes will accrue a fixed annual interest of 9.625% payable semiannually.

c) These Notes are jointly guaranteed by some subsidiaries of the group.

As of December 31, 2013 the listed price of these bonds was 107.125%.

## Ordinary notes Abengoa 2016

On March 31, 2010, Abengoa S.A. issued ordinary Notes to qualified investors and institutions in Europe for the amount of €500 million. In summary, the final terms and conditions of the issuance are as follows:

a) The Notes were issued for five hundred million Euros (€500 million) with maturity set at six (6) years.

b) The fixed annual payable twice-yearly interest on the Notes is 8.50% annually.

c) The notes are guaranteed jointly by certain subsidiaries of the group.

As of December 31, 2013 the listed price of these bonds was 108.375%.

## Ordinary notes Abengoa 2017

On October 19, 2010, Abengoa Finance, S.A.U., a subsidiary of Abengoa, S.A., issued an ordinary bonds for USD 650 million among qualified and institutional investors in accordance with Rule 144A of the Securities Act of 1933 and subsequent amendments thereto. In summary, the terms and conditions of the issue that were established definitively are:

a) The bond issue is for an amount of six hundred and fifty million United States dollars (USD 650 million) and matures at seven (7) years.

b) The notes will accrue fixed annual interest of 8.875%, payable every six months.

c) The notes are jointly and severally guaranteed by Abengoa, S.A. and certain group subsidiaries.

As of December 31, 2013 the listed price of these bonds was 107.938%.

### Ordinary notes Abengoa 2018

On February 5, 2013, Abengoa Finance, S.A.U., a subsidiary of Abengoa, S.A., issued Ordinary Notes to qualified and institutional investors for €250 million. On October 3, 2013, Abengoa Finance, S.A.U. issued €250 million of additional and fungible notes, at a price of 100.25%, which is equivalent to a yield of 8.799%. Furthermore, on November 5, 2013, Abengoa Finance, S.A.U. issued €50 million of additional and fungible notes, at a price of 105.25%, which is equivalent to a yield of 7.408%. The terms and conditions of the issuance are as follows:

a) The aggregate nominal amount of the Notes is five hundred and fifty million Euros (€550 million) with maturity set in February 5, 2018.

b) The Notes accrue a fixed annual interest of 8.875% payable semiannually.

c) The notes are guaranteed jointly by certain subsidiaries of the group.

As of December 31, 2013 the listed price of these bonds was 108.125%.

### Ordinary notes Abengoa 2020

On December 13, 2013, Abengoa Finance, S.A. Unipersonal, a subsidiary of Abengoa, S.A., issued an ordinary bond for USD 450 million among qualified and institutional investors. In summary, the terms and conditions of the issuance are:

a) The bond was issued for an amount of USD 450 million and matures in 6 years.

b) The notes accrue fixed annual interest of 7.75%, payable every six months.

c) The notes are jointly and severally guaranteed by Abengoa, S.A. and certain group subsidiaries.

As of December 31, 2013 the listed price of these bonds was 103.520%.

### Euro-Commercial Paper Programme

On January 29, 2013, Abengoa, S.A. carried out a Euro Commercial Paper (ECP) program for a maximum of 500 million euros, listed in the Irish Stock Exchange with one-year maturity. Through this program, the company was able to issue notes between one and twelve months maturity, diversifying its financing options in the capital markets.

On December 20, 2013, the program was renewed for one more year and for the same amount. At the end of 2013, the program had a balance of 104,912 thousand euros.

## 20.4. Finance lease liabilities

Finance lease creditors as of the end of 2013 and 2012 were:

| Finance lease | Balance as of 12.31.13 | Balance as of 12.31.12 |
|---|---|---|
| Present values of future payments for finance lease | 40,038 | 39,934 |
| Liabilities: minimum payments for finance lease: | | |
| Less than 1 year | 15,031 | 13,786 |
| From 1 to 5 years | 22,339 | 24,105 |
| More than 5 years | 8,139 | 8,040 |
| Net book value: | | |
| Technical installations and machinery | 24,997 | 24,900 |
| Information processing equipment | 2,515 | 5,024 |
| Other tangible assets | 22,606 | 18,064 |

## 20.5. Other loans and borrowings

The following table sets out the movement of Other loans and borrowings at the 2013 and 2012 year end:

| | Balance as of 12.31.13 | Balance as of 12.31.12 |
|---|---|---|
| Sale and lease back | - | 6,397 |
| Derivative premiums payable | 76,518 | 97,537 |
| Low interest loans | 6,732 | 14,998 |
| Loans with public institutions and others | 40,523 | 71,098 |
| **Total** | **123,773** | **190,030** |

# Note 21.- Grants and other liabilities

Grants and Other Liabilities as of December 31, 2013 and 2012 are shown in the following table:

| | Balance as of 12.31.13 | Balance as of 12.31.12 |
|---|---|---|
| Grants | 374,345 | 70,600 |
| Suppliers of non-current assets | 2,239 | 5,292 |
| Long-term trade payables | 269,604 | 118,528 |
| **Grants and other non-current liabilities** | **646,188** | **194,420** |

The increase in Long-term trade payables was primarily due to the investment from Liberty Interactive Corporation ('Liberty') made on October 2, 2013 for an amount of USD 300 million. The investment was made in shares of class A shares of Arizona Solar Holding, the holding of Solana thermo-solar plant in the United States. Such investment was made in a tax equity partnership which permits the partners to have certain tax benefits such as accelerated depreciation and Investment Tax Credits (ITC).

According to the stipulations of IAS 32 and in spite of the fact that the investment of Liberty is in shares, it does not qualify as equity and has been classified as a Liability as of December 31, 2013, the non-current portion of the liability is recorded in Grants and other liabilities for an amount of €171 million and its current portion is recorded in other current liabilities for an amount of €47 million. This liability has been initially valued at fair value, calculated as the present value of expected cash-flows during the useful life of the concession, and will be measured at amortized cost according with the effective interest method.

The control and management of the thermo-solar plant is a responsibility of Abengoa and the plant is fully consolidated in these consolidated financial statements.

In addition, the increase in Grants was mainly due to grants arising from loans at rates below market rates. Loans with the Federal Financing Bank guaranteed by the Department of Energy related to the Solana thermosolar project bear interest at a rate below market rates for these types of project and term. The difference between proceeds received from these loans and its fair value is recorded as a grant.

# Note 22.- Provisions and contingencies

## 22.1. Provisions for other liabilities and charge

The following table shows the movement of the non-current heading of 'Provisions for other liabilities and charges' for the years 2013 and 2012:

| Item | Taxes | Liabilities | Dismantling | Total |
|---|---|---|---|---|
| Balance as of 31.12.11 | 39,708 | 42,235 | 37,406 | 119,349 |
| Net increase/ (decrease) with impact in profit and loss | (12) | 1,626 | (1,035) | 579 |
| Translation differences | (85) | (798) | (1,060) | (1,943) |
| Reclassifications and other movements | (6,277) | (571) | 7,140 | 292 |
| **Balance as of 12.31.12** | **33,334** | **42,492** | **42,451** | **118,277** |
| Net increase/ (decrease) with impact in profit and loss | 99 | (678) | 855 | 276 |
| Translation differences | (37) | (459) | (419) | (915) |
| Changes in consolidation | (14,275) | (13,981) | (10,991) | (39,247) |
| Reclassifications and other movements | (3,906) | 2,277 | 1,282 | (347) |
| **Balance as of 12.31.13** | **15,215** | **29,651** | **33,178** | **78,044** |

The decrease of total provisions in 2013 is mainly due to the exclusión of Befesa from the consolidation scope following the sale of its shareholding.

The decrease of total provisions in 2012 is mainly due to translation differences arising from the depreciation of the Algerian dinar with respect to the Euro.

### Provision for tax and legal contingencies

This provision represents the Group's best estimates in connection with risks relating to tax contingencies arising during the normal course of the Group's business, fundamentally in Latin America, when it is considered probable that there will be an outflow of resources in the medium or long term (which has been estimated being comprised in a period between 2 to 5 years or over 5 years), although the development of the contingencies and the new facts and circumstances that may arise overtime could change such estimated settlement period.

There are also provisions recorded by Group companies in relation with court rulings and unfavorable tax inspections that are under appeal but have not been resolved yet. For these tax disputes the Group considers that it is probable that there will be an outflow of resources in the medium term (between 2 and 5 years).

### Provision for liabilities

This provision includes the Group's best estimates of probable cash outflows in connection with litigation, arbitration and claims in progress in which the various group companies are defendants as a result of the activities they carry out. Management considers that these liabilities will likely be settled in the medium or long term (which has been estimated being comprised in a period between 2 to 5 years).

### Dismantling provision

This provision is intended to cover future expenditures related to the dismantlement of the solar plants and it will be likely to be settled with an outflow of resources in the long term (over 5 years).

## 22.2. Contingent liabilities

As of December 31, 2013 Abengoa and its Group of companies are involved in certain claims and litigations both against and in their favor. Such matters arise during the Group's normal course of business and represent the technical and economic claims that the contractual parties typically invoke.

We have briefly summarized below the most significant proceedings, which in the Management opinion are not expected to have a material adverse effect in the Consolidated Financial Statements, individually or as a whole, or for which the future outcome cannot be reliably estimated.

- In May 2000, Abengoa Puerto Rico S.E., a subsidiary of Abengoa S.A, brought a lawsuit against the Electricity Power Authority (Autoridad de Energía Eléctrica, 'AEE') of Puerto Rico and terminated the agreement that both parties had entered into in relation to an EPC project for the construction of an electricity power station in Puerto Rico, in which the AEE was the Principal Contractor. The referred lawsuit contained different claims such as, inter alia, withholding payments, defaulted invoices, loss of future profits damages and several other costs, which tentatively amounted to USD 40 million.

  In response to the lawsuit brought by Abengoa Puerto Rico, S.E., the AEE brought a counterclaim premised upon unlawful termination and consequential damages relating to the agreement with Abengoa Puerto Rico, S.E. and, at the same time, brought an additional lawsuit for the same amount against Abengoa and its insurer, American International Insurance Co. of Puerto Rico. The amount claimed by the AEE is approximately USD 450 million.

- On April 29, 2013, the European Commission decided to initiate an inspection on the Parent Guarantor, along with all the companies directly or indirectly under its control, including Abengoa Bioenergy Trading Europe B.V., regarding its possible participation in anticompetitive agreements or actions which were allegedly aimed at manipulating the results of Platt's Market on Close (MOC) price assessment as well as denying the access of one or more companies to participation in the MOC price assessment process. According to such European Commission's decision, the suspected anticompetitive conduct, agreements and/or mutually coordinated concrete actions have allegedly existed since 2002 and would likely involve various markets for which the Platts MOC process is used to report prices, including markets for biofuels.In the Directors opinion the investigation is still in a preliminary phase, and the European Commission has not initiated formal proceedings. Directors believe that it and the relevant companies within the Group (including Abengoa Bioenergy Trading Europe B.V.) have at all times complied with the applicable competition laws. We are actively cooperating with the European Commission in its investigation.

### 22.3. Contingent assets

As of December 31, 2013 Abengoa and its Group of companies do not have significant contingent assets.

## Note 23.- Third-party guarantees and commitments

### 23.1. Third-party guarantees

At the close of 2013 the overall sum of Bank Bond and Surety Insurance directly deposited by the group companies and all that the parent company deposited to any company in the group as guarantee to third parties (clients, financial entities, Public Entities and other third parties) amounted to €1,323,267 thousand (€1,541,255 thousand in 2012) out of which € 2,229 thousand (€6,464 thousand in 2012) are attributed to operations of financial nature and € 1,321,038 thousand (€1,534,791 thousand in 2012) to those of technical nature.

In addition, the declarations of intent and commitments undertaken by the Group companies and what the parent company undertook to any company in the group as guarantee to third parties (clients, financial entities, Public Entities and other third parties) amounted to € 6,187,269 thousand (€4,428,780 thousand in 2012) out of which € 32,480 thousand (€148,508 thousand in 2012) are attributed to operations of financial nature and € 6,154,789 thousand (€4,280,272 thousand in 2012) to those of technical nature.

## 23.2. Contractual obligations

The following table shows the breakdown of the third-party commitments and contractual obligations as of December 31, 2013 and 2012 (in thousands of Euros):

| 2013 | Total | Up to one year | Between one and three years | Between three and five years | Subsequent |
|---|---|---|---|---|---|
| Loans with credit institutions | 8,917,022 | 1,221,532 | 2,837,961 | 938,084 | 3,919,445 |
| Notes and bonds | 2,894,526 | 256,443 | 795,159 | 1,210,960 | 631,964 |
| Liabilities due to financial leases | 40,038 | 12,945 | 12,348 | 1,588 | 13,157 |
| Other loans and borrowings | 123,773 | 13,143 | 62,835 | 39,394 | 8,401 |
| Obligations under operating Leases | 17,147 | 12,804 | 1,610 | 1,277 | 1,456 |
| Purchase commitments | 1,172,565 | 1,033,952 | 117,829 | 1,278 | 19,506 |
| Accrued interest estimate during the useful life of loans | 3,534,516 | 664,610 | 955,679 | 658,304 | 1,255,923 |

| 2012 | Total | Up to one year | Between one and three years | Between three and five years | Subsequent |
|---|---|---|---|---|---|
| Loans with credit institutions | 8,298,829 | 1,113,831 | 2,212,839 | 1,444,057 | 3,528,102 |
| Notes and bonds | 1,674,807 | 30,881 | 475,891 | 1,168,035 | - |
| Liabilities due to financial leases | 39,934 | 11,885 | 12,140 | 2,241 | 13,668 |
| Other loans and borrowings | 190,030 | 11,566 | 89,393 | 66,124 | 22,947 |
| Obligations under operating Leases | 14,359 | 5,714 | 5,412 | 2,757 | 476 |
| Purchase commitments | 1,718,113 | 1,617,739 | 97,120 | 2,016 | 1,238 |
| Accrued interest estimate during the useful life of loans | 3,243,566 | 453,647 | 926,356 | 602,224 | 1,261,339 |

# Note 24.- Tax situation

## 24.1 Application of rules and tax groups in 2013

Abengoa, S.A. and 242 and 256 consolidated subsidiaries in 2013 and 2012, respectively (see Appendixes XI and XVI of these Consolidated Financial Statements) have filed its 2013 income taxes following the rules for tax consolidation in Spain under the 'Special Regime for Tax Consolidation' Number 2/97.

All the other Spanish and foreign companies included in the Consolidation group file income taxes according to the tax regulations in force in each country on an individual basis or under consolidation tax regulations.

In order to calculate the taxable income of the consolidated tax Group and the consolidated entities individually, the accounting profit is adjusted for temporary and permanent differences, recording the corresponding deferred tax assets and liabilities. At each Consolidated Income Statement date, a current tax asset or liability is recorded, representing income taxes currently refundable or payable. Deferred income taxes reflect the net tax effects of temporary differences between the carrying amount of assets and liabilities for financial statement and income tax purposes, as determined under enacted tax laws and rates.

Income tax payable is the result of applying the applicable tax rate in force to each tax-paying entity, in accordance with the tax laws in force in the territory and/or country in which the entity is registered. Additionally, tax deductions and credits are available to certain entities, primarily relating to inter-company trades and tax treaties between various countries to prevent double taxation.

## 24.2. Deferred tax assets and liabilities

At the end of 2013 and 2012 the analysis of deferred tax assets and deferred tax liabilities is as follows:

| | Balance as of 12.31.13 | Balance as of 12.31.12 |
|---|---|---|
| Tax credits for tax loss carryforwards | 378,229 | 368,419 |
| **Tax credits for deductions pending application** | | |
| Tax credits for export activities | 242,872 | 256,983 |
| Tax credits for R+D+i | 72,525 | 69,874 |
| Other deductions | 168,180 | 115,160 |
| **Temporary differences** | | |
| Provisions | 48,462 | 40,757 |
| Impairment | 16,274 | 17,692 |
| Remuneration plans | 18,550 | 21,665 |
| Derivatives financial instruments | 119,211 | 188,153 |
| Non deductible expenses (Art. 20 TRLIS, Art. 7 Ley 16/2012) | 80,726 | - |
| Consolidation adjustments, homogenization adjustments and other | 136,063 | 69,621 |
| **Total deferred tax assets** | **1,281,092** | **1,148,324** |

| | Balance as of 12.31.13 | Balance as of 12.31.12 |
|---|---|---|
| Accelerated tax amortization | 32,272 | 32,109 |
| Business combination | 39,852 | 76,383 |
| Consolidation adjustments, homogenization adjustments and other | 255,180 | 168,058 |
| **Total deferred tax liabilities** | **327,304** | **276,550** |

Most of the tax credits for net operating loss carryforwards correspond to Brazil (€169 million), the United States (€55 million), Spain (€66 million) and the Netherlands (€57 million).

Tax loss carryforwards in Brazil have been generated in years with poor meteorological conditions which have negatively affected sugarcane production. From 2011 to 2013 investments have been made to improve the quality of biological assets, to increase milling capacity and cogeneration plant capacity, with the ultimate purpose of increasing assets profitability. Tax loss carryforwards in the United States correspond mainly to projects in an initial stage of development or operation and to application of tax incentives. Tax loss carryforwards in Spain correspond mainly to the application of tax incentives.

Tax credits for deductions have been generated mainly in Spain. Among these tax credits the larger amount corresponds to deduction on export activities (DAEX), which is calculated as a percentage over investments effectively made for the acquisition of foreign companies or capital increases in foreign companies. This percentage, which was initially 25% was been gradually reduced since 2007 to reach 3% in 2010, disappearing the deduction on 2011. To benefit from this deduction, among other requirements, the acquisition or incorporation of companies should be directly related to the export of goods and services from Spain.

From the year 2012, the Company has not recorded any income in relation to this deduction, as it had been recorded entirely as of December 31, 2011.

In addition, efforts in research, development and innovation activities (R&D&i) that Abengoa has been carrying out during the last years have resulted in the generation of important tax deductions, some of which are recorded as deferred tax assets for an amount of €72 million as of December 31, 2013.

'Other deductions', which have been generated mainly in Spain, correspond primarily to deductions for double taxation (€12 million), environmental deductions (€85 million), deduction for reinvestment of extraordinary benefits (€ 51 million) and deductions for donations to non-profit organizations (€19 million).

In relation to tax loss carryforwards and deductions pending to be used recorded as deferred tax assets, the Company evaluates its recoverability projecting forecasted taxable income for the upcoming years and taking into account the Company tax planning strategy. Deferred tax liabilities reversals are also considered in these projections, as well as any limitation established by tax regulations in force in each tax jurisdiction.

On the other hand, the Company has certain tax credits as of December 31, 2013 which it has not capitalized, as it determined that recoverability of such assets is not probable. These tax credits consist mainly of tax loss carryforwards related to our US subsidiaries amounting to €35.1 million (€28.2 million in 2012), with expiration dates between 2029 and 2032; and R&D&i and environmental tax credits in Spain amounting to €74.7 million (€50.3 million in 2012), with expiration dates between 2022 and 2031.

The movements in deferred tax assets and liabilities during 2013 and 2012 were as follows:

| Deferred tax assets | Amount |
|---|---|
| As of January 1, 2012 | 939,707 |
| Increase / Decrease through the consolidated income statement | 196,433 |
| Increase / Decrease through other comprehensive income (equity) | 60,588 |
| Change in consolidation, various reclassifications and translation diff. | (48,404) |
| **As of December 31, 2012** | **1,148,324** |
| Increase / Decrease through the consolidated income statement | 159,703 |
| Increase / Decrease through other comprehensive income (equity) | (40,703) |
| Change in consolidation, various reclassifications and translation diff. | 13,768 |
| **As of December 31, 2013** | **1,281,092** |

| Deferred tax liabilities | Amount |
|---|---|
| As of January 1, 2012 | 232,109 |
| Increase / Decrease through the consolidated income statement | 1,667 |
| Increase / Decrease through other comprehensive income (equity) | 21,340 |
| Change in consolidation, various reclassifications and translation diff. | 21,434 |
| **As of December 31, 2012** | **276,550** |
| Increase / Decrease through the consolidated income statement | 87,163 |
| Increase / Decrease through other comprehensive income (equity) | 11,126 |
| Change in consolidation, various reclassifications and translation diff. | (47,535) |
| **As of December 31, 2013** | **327,304** |

# Note 25.- Trade payables and other current liabilities

**25.1.** Trade payable and other current liabilities as of the close of 2013 and 2012 are shown in the following table:

| Item | Balance as of 12.31.13 | Balance as of 12.31.12 |
|---|---|---|
| Trade payables for purchases of goods | 3,707,470 | 3,587,221 |
| Trade payables for services | 1,121,466 | 989,387 |
| Billings in excess and advance payments from clients | 429,462 | 1,036,789 |
| Remunerations payable to employees | 37,017 | 41,779 |
| Suppliers of intangible assets current | 14,748 | 228,262 |
| Other accounts payables | 204,023 | 72,151 |
| **Total** | **5,514,186** | **5,955,589** |

**25.2.** Nominal values of Trade payables and other current liabilities are considered to approximate fair values and the effect of discounting them is not significant.

**25.3.** The table above includes amounts payable to companies in the Group through "Confirming without recourse" for an amount of €469 million at December 31, 2013 (€648 million in 2012) relating to various agreements entered into with a number of financial entities in which the Group receives 'confirming' services in connection with cash advances from trade receivables. There are deposits and cash and cash equivalents of the Consolidated Statement of Financial Position linked to the payment of such 'confirming without recourse' for an amount of € 369 million (€459 million in 2012).

**25.4.** Details on supplier maturities are provided in the following table:

| Maturity | Balance as of 12.31.13 | Balance as of 12.31.12 |
|---|---|---|
| Up to 3 months | 3,362,897 | 3,301,529 |
| Between 3 and 6 months | 219,839 | 228,648 |
| Over 6 months | 124,734 | 57,044 |
| **Total** | **3,707,470** | **3,587,221** |

**25.5.** Pursuant to the Decision dated December 29, 2010, of the Instituto de Contabilidad y Auditoría de Cuentas (Spanish Accounting Board), on the information to incorporate into the Financial Statements report in relation to the delays in payments to suppliers in commercial transactions, companies located in Spain that issue individual and consolidated statements must expressly make public the information on payment term to suppliers in the notes to their Financial Statements.

The obligation to provide information affects commercial payment transactions. That is, to the trade creditors included under the heading of current liability of the balance sheets, therefore, the regulations excludes creditors or suppliers that do not meet such condition as suppliers of fixed assets or finance lease creditors.

The information in the consolidated financial statements refers to suppliers of the Group as a single reporting entity, after reciprocal credits and debits of subsidiaries and, if applicable, those of multi-group companies have been eliminated in accordance with the provisions of the applicable consolidation rules, together with those of suppliers related with the construction of own assets.

Thus, at the end of 2013, the outstanding balance with suppliers located in Spain with payment terms greater than the legal period, in accordance with the procedure established by said Decision, amounts to €82,269 thousand (€115,366 thousand in 2012).

According to the foregoing, and considering the fact that in general, the system of payment used by Abengoa is the financial figure of confirmed payment through financial institutions without recourse to supplier (PPB or confirming), under contracts signed with various financial entities, at the end of 2013 and 2012, the outstanding balances to suppliers did not accumulate a payment delay significantly longer than the legal payment term.

In addition, the payments to suppliers of companies within Spain during 2013 exceed the legal limit by 74 days (75 days in 2012) and amounts to €477 million, 30 % of the total of payments (€528 million, 30% of the total payments in 2012), although, considering that most of the payments are made to international suppliers under the framework of strategic agreements signed, it may be said that the total payments and days exceeded did not exceed the legal terms.

The Directors of the parent company do not expect that additional liabilities may arise as a result of balances of outstanding suppliers exceeding payment terms established in Law 15/2010 referred to in this note.

## Note 26.- Construction contracts

Further to the information set out in Note 2.24.b) relating to the accounting treatment of construction contracts, the table below includes aggregated information on outstanding construction contracts to which IAS 11 was applied at the end of the years 2013 and 2012:

| 2013 | Construction contracts |
|---|---|
| Operating revenues | 5,110,959 |
| Billings in excess and advance payments received | 619,678 |
| Payment withholdings | 24,363 |
| Account receivables | 2,536,586 |
| Account payables | 3,959,876 |

| 2012 | Construction contracts |
|---|---|
| Operating revenues | 3,946,966 |
| Billings in excess and advance payments received | 1,245,514 |
| Payment withholdings | 28,797 |
| Account receivables | 2,284,938 |
| Account payables | 4,108,388 |

The amount of unbilled revenue by the end of the years 2013 and 2012 is €488,883 and €393,200 thousand, respectively.

The aggregated total amount of the costs incurred and the aggregated total profits (less the related losses) recognized since origin for all the ongoing contracts at December 31, 2013 amount to €11,869,900 thousand and €995,928 thousand respectively (€10,498,336 thousand and €829,611 thousand in 2012).

# Note 27.- Revenues

The breakdown of Revenues for the years 2013 and 2012 is as follows:

| | 2013 | 2012 |
|---|---|---|
| Product sales | 2,302,224 | 2,495,552 |
| Rendering of services and construction contracts | 5,054,246 | 3,816,400 |
| **Total revenue** | **7,356,470** | **6,311,952** |

# Note 28.- Other operating income and expenses

The table below shows the detail of Other Operating Income and Expenses for the years 2013 and 2012:

| Other operating income | 2013 | 2012 |
|---|---|---|
| Work performed by the entity and capitalized and other | 322,308 | 367,798 |
| Grants | 25,384 | 13,826 |
| Income from various services | 99,336 | 103,604 |
| **Total** | **447,028** | **485,228** |

| Other operating expenses | 2013 | 2012 |
|---|---|---|
| Research and development cost | (6,532) | (6,404) |
| Leases and fees | (112,207) | (100,076) |
| Repairs and maintenance | (69,673) | (66,732) |
| Independent professional services | (488,672) | (284,332) |
| Transportation | (75,739) | (77,613) |
| Supplies | (126,191) | (102,134) |
| Other external services | (162,082) | (140,113) |
| Taxes | (75,993) | (53,754) |
| Other minor management expenses | (112,459) | (86,349) |
| **Total** | **(1,229,548)** | **(917,507)** |

Work performed by the entity and capitalized and other corresponds to income from capitalized costs, including mainly the capitalization of costs associated with the construction of our own assets (except for concession assets for which IFRIC 12 is applied). The corresponding costs are recognized in the individual expense line item in the accompanying income statements. The recognition of an income for the sum of such costs through the line item 'work performed by the entity and capitalized costs and other' results in these costs having no impact in net operating profit. The corresponding assets are capitalized and included in property, plant and equipment in the accompanying balance sheets.

Additionally, other income in 2013 primarily includes an income of €141.8 million corresponding to a favorable jury verdict in a litigation process against Adriano Gianetti Dedini Ometto and Adriano Ometto Agrícola, Ltda. (see Note 15.10) and other nminor income. In 2012 primary corresponds to the gain amounting to €85 million arising from the business combination of Rioglass Group, where we achieved control by increasing our ownership in stages well as an income of €26 million recorded by Abengoa Bioenergy U.S. Holding in the last quarter of 2012, corresponding to a collection from Chicago Title Insurance Company after a favorable jury verdict in a litigation process against that company. Finally, this heading includes income arising from the fair value adjustment of our biological assets in Brazil, to sales of property plant and equipment and to other minor income.

Grants include government grants related to R&D activities and to lonas at a rate below interest rates which are considered as subsidized loans (see Note 2.17).

Income from various services in 2013 primarily includes profits generated by the sale of the Brazilian subsidiary, Bargoa, S.A. amounting to €33.2 million and other income by minor services. In 2012 primarily includes profits generated by the sale of the second 50% of the shareholding of STE, ATE, ATE II and ATE III amounting to €4.5 million and other income by minor services.

'Leases and fees' mainly includes leases of buildings, offices, machinery and construction equipment required in the ordinary course of operating activities of companies.

Under 'Other minor management expenses' are mainly recorded trips and per diem expenses.

## Note 29.- Employee benefit expenses

The breakdown of Employee Benefit Expense for 2013 and 2012 is as follows:

| Item | 2013 | 2012 |
|---|---|---|
| Wages | 624,045 | 577,967 |
| Social security costs | 119,312 | 111,058 |
| Stock plans and other employee benefits | 14,999 | 20,527 |
| **Total** | **758,356** | **709,552** |

### a) Share plan

On February 2, 2006, Abengoa granted a Share Acquisition Plan, or Plan, which was approved by the Board of Directors of Abengoa on January 23, 2006. The Plan was on the same terms to all participants, members of the senior management of Abengoa and its subsidiaries. Under the Plan, participants were entitled to purchase up to 3,200,000 shares of Abengoa. Subsequently, the number of shares was adjusted due to the increase in class B share capital charged to our freely available reserves, approved by the Extraordinary General Meeting held on September 30, 2012 (see Note 18). As described below, this plan was terminated on December 31, 2012.

The material terms of the Plan were as follows:

1. Participants: 122 members of the senior management of the Abengoa Group (business group managers, business unit managers, technical and research and development officers and corporate services officers) from all its subsidiaries and business areas were eligible to participate in the Plan if they desire to do so. The Plan was not open to any member of Abengoa's Board of Directors. At the end of 2012, besides the participants excluded from the Plan, there were 98 participants.

2. Shares Available for Purchase: Up to 3,200,000 Abengoa shares (the 'shares'). The shares purchased by Plan participants were already issued and in circulation and were purchased on the open market, at the then current market price, over a period that extended to December 31, 2006, in accordance with the Stock Exchange Act (Spain). A total of 3,166,000 were purchased under the Plan. As such, these shares were not dilutive instruments for earnings per share calculation purposes. At year ended 2012, the number of shares covered by the plan amounted to 12,251,425 shares, adjusted due to capital increase by distribution of class B shares mentioned above.

3. Financing: As a feature of the Plan, each participant utilized the proceeds of an individual bank loan from Banco Sabadell, S.A. or Caja Madrid (collectively the 'Bank') to finance the purchase of shares of Abengoa under the Plan. The same standard loan terms applied to all participants. The interest rate on the loans was a variable rate equal to EURIBOR plus 0.75%. These were bullet and not amortizing loans. The loans must be repaid by the participants by August 7, 2011. Each loan was secured by a pledge of 100% of the participant's shares and was guaranteed by the Company to the extent set forth under paragraph 8 below. Except for the pledge of the shares, the loan was not considered a non-recourse financing to the participant. The maximum amount of indebtedness related to all such loans was €87 million (including expenses, commissions and interests). As of December 31, 2012, the amounts drawn by total participants under these loans amounted to €61 million.

4. Share Purchase: The acquisition cost for all participants has been the average acquisition price, plus associated commissions and other costs, for all of the shares purchased under the Plan for all participants.

5. Term and Vesting Period: The duration and vesting period of the Plan was five complete financial years (2006-2010) plus six months (until June 30, 2011) (the requisite service period). The Plan required the annual accomplishment by the participant of annual management objectives, including specific financial targets and qualitative objectives, set by the management of the Abengoa Group company by which the participant was employed, as well as their continuation as a Group employee through June 30, 2011. If the annual objectives were not met by the participant, the Bank from which the participant borrowed the funds to purchase his/her shares may sell a percentage of the shares purchased for such participant as follows: 2006-30%, 2007-30%, 2008-15%, 2009-15%, 2010-10%.

6. As of December 31, 2010, the participants had consolidated the annual objectives required by the Plan.

7. Restrictions on Sales: A participant may not transfer, sell, borrow against or otherwise dispose of the shares purchased before July 1, 2011.

8. Repurchase Option: Under the Plan, Abengoa had a repurchase option under which Abengoa could require a participant to sell the shares back to the Company on the occurrence of certain events, such as death, disability or retirement of the participant or termination of the employment of the participant with the Abengoa Group Company.

9. Shortfall on Sale of Shares: At the end of the five years and six months term of the Plan, if the amount realized on a sale of the shares did not entirely cover the amount owed under the loan and costs and taxes on capital gains, Abengoa would compensate the participant with the necessary amount to repay the loan plus accrued and unpaid interest and pay such taxes.

10. In 2011 agreements were closed with participating financial entities and the directors of said Plan for its extension for an additional period of two years, until December 31, 2012.

The above terms are incorporated in the form of agreement that each participant in the Plan enters into with Abengoa. In order to compensate the Plan participants under the terms of the share acquisition plan for the negative difference between the fair market value of the shares at the time of expiration of the Plan and the amounts owed by the participants under the bank loans initially received to finance their acquisition of the shares, on June 10, 2013 we repurchased from the participants 2,450,285 Class A shares and 9,801,140 Class B shares and cancelled on their behalf the obligations outstanding under the banks loans. Therefore, there is no share plan as of December 31, 2013.

Compensation expense was recognized over the requisite service period (the vesting period), and was determined by reference to the fair value of a hypothetical put option granted by the company to the participant, excluding the effect of vesting conditions that are not market conditions. For these purposes, the calculation took into account the number of shares that were expected to become exercisable (or vested), which was updated at each year end, recognizing the impact of the revision of the original estimates, if applicable, in the Consolidated Income Statement.

The fair value of the hypothetical options granted during the year 2012, calculated using the Black-Scholes model was €36,245 thousand, recording a loss during the year 2012 of €9,473 thousand. The key data required for the valuation model were share price, the estimated return per dividend, an expected option life of 5 years, an annual interest rate and share market volatility that are included in the table below:

| | 12.31.2012 |
|---|---|
| 'Spot Abengoa' Price (euros) | 2.34 |
| 'Strike' Price (euros) | 5.30 |
| Maturity | 12/31/2012 |
| Volatility class A shares | 63% |
| Volatility class B shares | 57% |
| Number of class A shares | 2,450,285 |
| Number of class B shares | 9,801,140 |

## b) Bonus schemes

On July 24, 2006 and December 11, 2006, the Board of Directors approved an Extraordinary Variable Compensation Plan for Managers (Plan II) at the proposal of the Remuneration Committee. This plan initially included 190 beneficiaries and had a total cost of €51,630 thousand over a five-year period from 2007 to 2011, inclusive. It required that objectives set forth in the Strategic Plan be attained at an individual level as well as the individual's continued ongoing service throughout the period in question.

In addition to the aforementioned, given that the acquisition of the company B.U.S. Group AB was completed only shortly after implementation of the Plan, on October 22, 2007 the Board of Directors approved the inclusion of the management team of such company, formed by 10 people, in the Plan under the same conditions as those established for the rest of the beneficiaries, for a total amount of €2,520 thousand. At the close of 2012 financial year, there were 155 participants, and the total cost of the plan was €35,237 thousand.

On October 24, 2011, the Board of Directors approved the extension of the Plan II for a period of one additional year. This Plan was liquidated in 2013

On January 24, 2011, the Board of Directors approved an Extraordinary Variable Compensation Plan for Managers (Plan III), proposed by the Remuneration Committee. The plan, which includes 104 beneficiaries (the participants), has a duration of five years (from 2011 to 2015) and is based on achieving the objectives defined in the Strategic Plan, at an individual level. The plan also requires the individual's continued ongoing service for the entire period considered. The total amount available under the plan for the 104 participants is €56,500 thousand. The company recognizes the corresponding personnel expense in the Consolidated Income Statements for the amounts accrued based on the percentage of consolidation of the objectives. In December 2013 this plan was replaced by a new one (Plan IV), which cancelled and superseded the previous plan (Plan III). The new plan has a duration of five years (from 2013 to 2017), continuing the previously established conditions. At the end of 2013, there were 347 participants and the total amount of the plan was 84,991 thousand euros.

The cost recognized through the variable remuneration plans in 2013 was € 8,582 thousand, the accumulated cost being € 22,528 thousand. The cost of Plan corresponding to senior Management of the Company recognized in 2013 amounts to € 2,766 thousand.

# Note 30.- Finance income and expenses

## 30.1. Finance income and expenses

The following table sets forth our Finance income and expenses for the years ended 2013 and 2012:

| Finance income | 2013 | 2012 |
|---|---|---|
| Interest income from loans and credits | 35,306 | 73,864 |
| Interest rates benefits derivatives: cash flow hedges | 28,774 | 10,185 |
| Interest rates benefits derivatives: non-hedging | 546 | 17 |
| **Total** | **64,626** | **84,066** |

| Finance expenses | 2013 | 2012 |
|---|---|---|
| Expenses due to interest: | | |
| - Loans from credit entities | (277,226) | (217,294) |
| - Other debts | (279,432) | (219,371) |
| Interest rates losses derivatives: cash flow hedges | (105,011) | (103,866) |
| Interest rates losses derivatives: non-hedging | (13) | (4,322) |
| **Total** | **(661,682)** | **(544,853)** |
| | | |
| **Net financial loss** | **(597,056)** | **(460,787)** |

In 2013, finance income has decreased due to lower interest income from loans and credits in Brazil, partially offset by higher interest rates benefits derivatives as a result of income for the time value of interest rate options, that in the previous year was a loss classified in Finance expenses.

Interest expenses from loans with credit entities increased mainly due to the lower capitalization of interest expenses for financing projects under construction, thanks to various projects coming into operation. The interest accrued on other debt increased, mainly due to the new notes issued during 2013 (see Note 20.3).

In 2012 finance income decreased with respect to the same period of the previous year mainly due to lower interest income from loans and credits in Brazil.

Interest expenses from loans and credits have remained stable during 2012 compared to the previous year: amounts outstanding from non recourse financing have been higher during the year 2012 but capitalized interest have also been higher, as non recourse financing increased primarily to finance projects under construction and interest expenses is capitalized during the construction period. The increase in interest from other debts, mainly due to a larger volume in our non recourse factoring arrangements, has been practically offset by a decrease in losses from our interest rate derivatives.

The net financial expenses for non-recourse financing project companies is €-244,810 thousand (€-115,254 thousand in 2012).

## 30.2. Net exchange differences

The following table sets out the exchange rate differences for the years 2013 and 2012:

| Net exchange differences | 2013 | 2012 |
|---|---|---|
| Gains and losses from foreign exchange transactions | (343) | 7,085 |
| Gains and losses from foreign exchange contracts: cash flow hedges | (4,171) | (22,936) |
| Gains and losses from foreign exchange contracts: non-hedging | 283 | (19,947) |
| **Total** | **(4,231)** | **(35,798)** |

The most significant amounts in net exchange differences during 2013 correspond to the negative impact of the accumulated translation differences transferred to the Consolidated Income Statement and to different hedges in several subsidiaries that have not been offset perfectly with the differences generated by de hedged item.

The most significant amounts in net exchange differences during 2012 correspond to a loss from exchange rate derivatives recognized as a result of the interruption of the hedging relationship, when the transaction hedge is no longer expected to occur, to the negative impact of the accumulated translation differences transferred to the Consolidated Income Statement, to the termination of foreign exchange derivatives signed to hedge certain Brazilian transmission line concessions sold (see Note 6.2) and to different hedges in several subsidiaries that have not been offset perfectly with the differences generated by the hedged item.

Net exchange rate differences in 2013 for entities with non-recourse financing amounts to €-4,672 thousand (€-27,327 thousand in 2012).

## 30.3. Other net finance income and expenses

The following table sets out 'Other net finance income and expenses' in 2013 and 2012:

| Other finance income | 2013 | 2012 |
|---|---|---|
| Profits from the sale of financial assets | 70 | 1,017 |
| Income on financial assets | 649 | 282 |
| Other finance income | 18,867 | 16,877 |
| Changes in the fair value of the derivatives embedded in the convertible bonds and options over shares | 75,614 | 9,214 |
| Commodity derivatives gains: Cash flow hedge | 154 | - |
| **Total** | **95,354** | **27,390** |

| Other finance expenses | 2013 | 2012 |
|---|---|---|
| Loss from sale of financial assets | (335) | - |
| Losses from partial repayment of the convertible notes due 2014 | (12,026) | - |
| Outsourcing of payables | (81,342) | (88,457) |
| Other financial losses | (112,342) | (76,513) |
| Commodity derivatives losses: non hedge | (9,837) | (20,428) |
| **Total** | **(215,882)** | **(185,398)** |

| | | |
|---|---|---|
| **Other net finance income/expenses** | **(120,528)** | **(158,008)** |

For the year ended December 31, 2013 the heading 'Other finance income' has increased when compared to the previous year, mainly due to the change in fair value of embedded derivatives of the convertible bonds, net of change in fair value of the call options over Abengoa's own share, which hedge the embedded derivatives partially, amounting to a net gain of €75,614 thousand, see Note 20.3 (€9,214 thousand for the year ended December 31, 2012).

The heading 'Other finance expenses' has increased for the year ended December 31, 2013 compared to the previous year mainly due to losses from partial repayment of the convertible notes due in 2014 (see Note 20.3), the increase in other financial losses due to a higher volume of uncollectible financial accounts with related parties, according to the current situation of negotiations with them in developing projects in Latin America; and the impairment of financial investments associated with thermosolar projects in the USA, partially offset by lower costs of outsourcing supplier payments and lower commodity derivatives losses corresponding to the interruption of the hedging relationship, when the transaction hedged is no longer expected to occur. Additionally, 'Other finance losses' include finance expenses mainly related to financial guarantees and letters of credit, to wire transfers and other bank fees, losses on available for sale financial assets and other minor finance expenses.

In the year ended December 31, 2012 the heading 'Other finance income' mainly includes the change in fair value of embedded derivatives of the convertible bonds, net of change in fair value of the call options over Abengoa's own share, which hedge the embedded derivatives partially, amounting to a net gain of €9,214 thousand (see Note 20.3). The remaining balance of 'Other finance income' corresponds mainly to interests from deposits and cash and cash equivalents related to our outsourcing of trade payables (see Note 25.3), which have remained stable period over period.

In the year ended December 31, 2012 in the heading 'Other finance expenses', expenses related to outsourcing of payables have increased with respect to a larger volume of payables outsourced during the period the prior year. Commodity derivatives losses correspond to the interruption of the hedging relationship, when the transaction hedged is no longer expected to occur. Additionally, 'Other finance losses' include finance expenses mainly related to financial guarantees and letters of credit, to wire transfers and other bank fees, losses on available for sale financial assets and other minor finance expenses.

The net of 'Other incomes and financial expenses' for Non-recourse financing project companies is €-47,671 thousand (€-33,607 thousand in 2012).

## 30.4. Non-monetary items of derivative financial instruments

The table below provides a breakdown of the line item 'Fair value gains on derivative financial instruments' included in the Consolidated Cash Flow Statement for the years 2013 and 2012:

| Fair value gains on derivative financial instruments | 2013 | 2012 |
|---|---|---|
| Change in fair value of the embedded derivative of convertible debt and shares options | 75,614 | 9,214 |
| Non-cash profit/(losses) from cash flow hedges | 20,617 | (30,330) |
| Non-cash profit/(losses) from derivatives - non-hedge accounting | (15,482) | (44,243) |
| Other non-cash gains/losses on derivative instruments | 763 | (9,778) |
| **Fair value gains (losses) on derivative financial instruments (non cash items)** | **81,512** | **(75,137)** |
| **Cash gains (losses) on derivative financial instruments (monetary effect)** | **(166,899)** | **(43,277)** |
| **Total fair value gains / (loss) on derivative financial instruments (Notes 30.1 & 30.3)** | **(85,387)** | **(118,414)** |

# Note 31.- Income tax

Details regarding income tax for the years 2013 and 2012 are as follows:

| Item | 2013 | 2012 |
|---|---|---|
| Current tax | (28,607) | (22,853) |
| Deferred tax | 72,540 | 194,766 |
| **Total income tax benefit/(expense)** | **43,933** | **171,913** |

The reconciliation between the theoretical income tax resulting from applying statutory tax rate in Spain to income before income tax and the actual income tax expense recognized in the Consolidated Income Statement for the years 2013 and 2012 is as follows:

| | 2013 | 2012 |
|---|---|---|
| Consolidated profit before taxes | 66,986 | (110,436) |
| Regulatory tax rate | 30% | 30% |
| **Corporate income tax at regulatory tax rate** | **(20,096)** | **33,131** |
| Income tax of associates, net | (1,549) | (222) |
| Differences in foreign tax rates | 9,004 | 12,099 |
| Incentives, deductions and tax losses carryforwards | 83,362 | 61,181 |
| Non taxable gains | - | 25,573 |
| Other non-taxable income/(expense) | (26,788) | 40,151 |
| **Corporate income tax** | **43,933** | **171,913** |

Differences between theoretical tax and actual tax expense arise mainly from:

- Companies based in jurisdictions with statutory tax rates different from Spanish statutory tax rate.
- Application in Spain of tax incentive for the transfer of use of intangible assets under Article 23 of the Revised Text of the Spanish Income Tax Act and application also in Spain of the tax incentive which exempts any profits generated abroad for international projects involving the export of goods and services from Spain. Generation of tax deductions, mainly in Spain, among which we can outline R&D&I deductions, double taxation deductions, deductions on training expenses and deductions on donation expenses. In addition, the Company recorded deferred tax assets for tax loss carryforwards generated in past years in other tax jurisdictions.
- In 2012, the Company has recorded no taxable gains corresponding to the gain obtained in the business combination achieved in stages over Rioglass Group.
- The heading 'Other non-taxable income/ (expense)' includes, among others, the regularizationn of the tax expense of the previous year as well as certain permanents differences arised in other jurisdictions as a consecuence of the adjustments in the valuation of assets and liabilities.

# Note 32.- Earnings per share

As explained in Note 18, on September 30, 2012, the General Shareholders' Meeting approved a capital increase in class B shares, charged to our freely available reserves, which were distributed for no consideration to all existing shareholders on the basis of four (4) class B shares for each class A share or class B share which they hold. Therefore, no dilution or further concentration with respect to our share capital occurred.

According to IAS 33, when ordinary shares are issued to existing shareholders for no additional consideration, the transaction is equivalent to a share split. In this case, the number of ordinary shares outstanding before the event is adjusted for the proportionate change in the number of ordinary shares outstanding as if the event had occurred at the beginning of the earliest period presented.

In addition, the average number of shares outstanding in 2013 has been calculated taking into account the capital increase carried out in October 2013 (see Note 18).

## 32.1. Basic earnings per share

Basic earnings per share are calculated by dividing the profit attributable to equity holders of the company by the weighted average number of ordinary shares outstanding during the period.

| Item | 2013 | 2012 |
|---|---|---|
| Profit from continuing operations attributable to equity holders of the company | 102,040 | 24,172 |
| Profit from discontinuing operations attributable to equity holders of the company | (595) | 31,198 |
| **Average number of ordinary shares outstanding (thousands)** | **595,905** | **538,063** |
| Earnings per share from continuing operations (€ per share) | 0.17 | 0.04 |
| Earnings per share from discontinuing operations (€ per share) | - | 0.06 |
| **Earnings per share from profit for the year (€ per share)** | **0.17** | **0.10** |

## 32.2. Diluted earnings per share

To calculate the diluted earnings per share, the average weighted number of ordinary shares issued and outstanding is adjusted to reflect the conversion of all the potential diluting ordinary shares.

The potential diluting ordinary shares held by the group correspond to the warrants on Class B shares issued in November 2011. The assumption is that all warrants will be exercised and a calculation is made to determine the number of shares that may have been acquired at fair value based on the monetary value of the subscription rights of the warrants still to be exercised. The difference between the number of shares issued assuming the exercise of the warrants, and the number of shares calculated based on the above, is included in the calculation of the income per diluted share.

| | 2013 | 2012 |
|---|---|---|
| Profit for the year | | |
| - Profit from continuing operations attributable to equity holders of the company | 102,040 | 24,172 |
| - Profit from discontinuing operations attributable to equity holders of the company | (595) | 31,198 |
| - Adjustments to attributable profit | - | - |
| **Profit used to determine the diluted earnings per share** | **101,445** | **55,370** |
| | | |
| Average weighted number of ordinary shares outstanding (thousands) | 595,905 | 538,063 |
| - Warrants adjustments (average weighted number of shares in outstanding since issue) | 19,995 | 20,021 |
| **Average weighted number of ordinary shares affecting the diluted earnings per share (thousands)** | **615,900** | **558,084** |
| | | |
| Diluted earnings per share from continuing operations (€ per share) | 0.16 | 0.04 |
| Diluted earnings per share from discontinuing operations (€ per share) | - | 0.06 |
| **Diluted earnings per share to the profit for the year (€ per share)** | **0.16** | **0.10** |

# Note 33.- Other information

## 33.1. Average number of employees

The average number of employees classified by category during 2013 and 2012 was:

| | Average number of employees in 2013 | | | Average number of employees in 2012 | | |
|---|---|---|---|---|---|---|
| **Categories** | **Female** | **Male** | **% Total** | **Female** | **Male** | **% Total** |
| Directors | 73 | 536 | 2.3 | 76 | 583 | 2.5 |
| Management | 426 | 1,512 | 7.2 | 391 | 1,724 | 7.9 |
| Engineers | 1,278 | 3,268 | 17.0 | 1,108 | 2,485 | 13.5 |
| Assistants and professionals | 1,128 | 1,507 | 9.8 | 1,255 | 1,904 | 11.9 |
| Operators | 925 | 15,648 | 61.8 | 975 | 15,640 | 62.3 |
| Interns | 230 | 287 | 1.9 | 214 | 299 | 1.9 |
| **Total** | **4,060** | **22,758** | **100** | **4,019** | **22,635** | **100** |

The average number of employees is 27% in Spain (29% in 2012) and 73 % abroad (71% in 2012).

The average number of employees during the year with disabilities above or equal to 33% is 107 (115 in 2012).

The total number of people employed at the end of 2013 was 24,748 (26,402 in 2012).

## 33.2. Related parties

The account held by Abengoa with Inversión Corporativa I.C., S.A., as of year-end 2013 and 2012 has a nil balance.

Dividends distributed to related parties during 2013 amounted to €17,182 thousand (€17,212 thousand in 2012).

During 2013 the only transactions associated with related parties were the following:

- Share lending agreement signed by Abengoa with Inversión Corporativa IC, S.A. for a total of 11,047,468 Class B shares in order to improve the liquidity in lending these shares to investors of the convertible bonds maturing in 2019. This loan was repaid in July 2013 with a consideration of €670 thousand.
- Service provision agreement signed between Centro Tecnológico Palmas Altas, S.A. and Ms. Blanca de Porres Guardiola, which involved a consideration of €72 thousand.

As indicated in Note 18.1, Inversión Corporativa is Abengoa's main shareholder, and issues its own separate Consolidated Financial Statements.

These operations were subject to verification by the Abengoa Audit Committee and the consideration paid for the different transactions has been determined by third parties.

## 33.3. Employee remuneration and other benefits

Directors are remunerated as established in article 39 of the Bylaws. The remuneration of Directors is made up of a fixed amount as agreed upon at the General Shareholders' Meeting, and is not necessarily equal for all directors. Additionally, they may participate in profit sharing programs, for a percentage between 5% and 10% (maximum) of the net income of the Company after the declaration of the dividends for the year. Travel expenses related to work undertaken by the board are reimbursed to Directors.

Salary (both fixed and variable) and allowances paid to the members of the Board of Abengoa S.A. in 2013 were € 15,421 thousand (€13,887 thousand in 2012).

Detail on individual salaries and benefits in 2013 paid to the Board of Directors are as follows (in thousands of Euros):

| Name | Salary | Fixed remuneration | Daily allowance | Short term variable remuneration | Compensation as member of Board Committee | Compensation as officer of other Group companies | Other concepts | Total 2013 |
|---|---|---|---|---|---|---|---|---|
| Felipe Benjumea Llorente | 1,086 | - | 93 | 3,304 | - | - | 1 | 4,484 |
| Aplidig, S.L. (1) | - | 202 | 93 | 2,804 | - | - | - | 3,099 |
| Manuel Sánchez Ortega | 1,086 | - | 93 | 3,304 | - | - | 1 | 4,484 |
| Javier Benjumea Llorente | 263 | - | 78 | 1,183 | 200 | 38 | 108 | 1,870 |
| José Borrell Fontelles | - | - | 176 | - | 124 | - | - | 300 |
| Mercedes Gracia Díez | - | - | 160 | - | 40 | - | - | 200 |
| Ricardo Martínez Rico | - | - | 121 | - | 15 | - | - | 136 |
| Alicia Velarde Valiente | - | - | 110 | - | 40 | - | - | 150 |
| José Joaquín Abaurre Llorente | - | - | 110 | - | 40 | - | - | 150 |
| José Luis Aya Abaurre | - | - | 110 | - | 40 | - | - | 150 |
| María Teresa Benjumea Llorente | - | - | 78 | - | - | 24 | - | 102 |
| Claudio Santiago Ponsa | - | - | 62 | - | - | - | - | 62 |
| Ignacio Solís Guardiola | - | - | 78 | - | - | - | - | 78 |
| Fernando Solís Martínez-Campos | - | - | 78 | - | - | - | - | 78 |
| Carlos Sundhein Losada | - | - | 78 | - | - | - | - | 78 |
| **Total** | **2,435** | **202** | **1,518** | **10,595** | **499** | **62** | **110** | **15,421** |

Note (1): Represented by Mr. José B. Terceiro Lomba

Detail on individual salaries and benefits in 2012 paid to the Board of Directors is as follows (in thousand of Euros):

| Name | Daily expenses for attendance and other remun. as officer | Compensation as member of Board Committee | Compensation as officer of other Group companies | Compensation for Sr. Mgmt. - Executive Officer Duties | Other remunerations | Total 2012 |
|---|---|---|---|---|---|---|
| Felipe Benjumea Llorente | 93 | - | - | 4,390 | - | 4,483 |
| Aplidig, S.L. (1) | 295 | - | - | 2,804 | - | 3,099 |
| Manuel Sánchez Ortega | 93 | - | - | 4,390 | - | 4,483 |
| Carlos Sebastián Gascón (2) | 33 | 28 | - | - | - | 61 |
| Mercedes Gracia Díez | 160 | 40 | - | - | - | 200 |
| Alicia Velarde Valiente | 110 | 40 | - | - | - | 150 |
| José Borrell Fontelles | 200 | 100 | - | - | - | 300 |
| Ricardo Martínez Rico | 107 | 10 | 13 | - | - | 130 |
| Claudio Santiago Ponsa (3) | 55 | - | - | - | - | 55 |
| José Luis Aya Abaurre | 110 | 40 | - | - | - | 150 |
| José Joaquín Abaurre Llorente | 110 | 40 | - | - | - | 150 |
| María Teresa Benjumea Llorente | 78 | - | 24 | - | - | 102 |
| Javier Benjumea Llorente | 78 | - | - | - | 220 | 298 |
| Ignacio Solís Guardiola | 78 | - | - | - | - | 78 |
| Fernando Solís Martínez-Campos | 78 | - | - | - | - | 78 |
| Carlos Sundhein Losada | 70 | - | - | - | - | 70 |
| **Total** | **1,748** | **298** | **37** | **11,584** | **220** | **13,887** |

Note (1): Represented by Mr. José B. Terceiro Lomba
Note (2) To 23.02.12
Note (3) From 24.02.12

Additionally, in 2013 overall remuneration for key management of the Company (Senior Management which are not executive directors), including both fixed and variable components, amounted to €14,656 thousand (€13,574 thousand in 2012).

No advanced payments or credits are granted to members of the Board, nor are any guarantees or obligations granted in their favor.

As of December 31, 2013 there existed € 29,789 thousand in non-current personnel compensation obligations (€70,599 thousand in 2012).

**33.4.** On May 3, 2012 Mrs. Mercedes Gracia Díez was appointed as president of the Audit Committee.

**33.5.** In compliance with Royal Decree 1/2010 of July 2, that approves the Capital Corporations Law, the Company informs that no member of the Board of Directors of Abengoa, S.A. and, to its knowledge, none of the individuals related parties as referred to by article 231 in the Capital Corporations Law Act maintains any direct to indirect share in the capital of companies with the same, analogous or complementary kind of activity that the parent company's corporate purpose, nor has any position in any company with the same, analogous or complementary kind of activity that the parent company's corporate purpose. In addition, no member of the Board of Directors has accomplished any activity with the same, analogous or complementary kind of activity that the parent company's corporate purpose.

As of December 31, 2013, members of the Board of Directors who are in turn directors or management in other subsidiaries included in the consolidation group are:

| Name | Company | Charge |
|---|---|---|
| Prof. José B. Terceiro | Bioetanol Galicia S.A | President |
| D. Javier Benjumea Llorente | Abengoa Bioenergía, S.A. | President |
| Dña. María Teresa Benjumea Llorente | Sociedad Inversora en Energía y Medio Ambiente, S.A. | Member of Board of Directors |
| D. Manuel Sánchez Ortega | Abengoa Bioenergía, S.A. | Member of Board of Directors |

In accordance with the record of significant holding in the Company, and as required by the 'Internal Rules and Regulations for Conduct involving Stock Exchange Matters', the shares and the holding percentages of the Company Directors as of December 31, 2013 are:

| | No. of direct class A shares | No. of indirect class A shares | No. of direct class B shares | No. of indirect class B shares | % Total |
|---|---|---|---|---|---|
| Felipe Benjumea Llorente | - | - | 414,170 | 4,300,905 | 0.0513 |
| Aplicaciones Digitales S.L. | - | - | 4,737,756 | - | 0.0516 |
| Manuel Sánchez Ortega | - | - | 913,167 | - | 0.0099 |
| José Joaquín Abaurre Llorente | 1,900 | - | 7,600 | - | 0.0022 |
| José Luis Aya Abaurre | 65,609 | - | 262,438 | - | 0.0743 |
| Mª Teresa Benjumea Llorente | 12,390 | - | 49,560 | - | 0.0140 |
| Javier Benjumea Llorente | 3,888 | - | 15,552 | - | 0.0044 |
| José Borrell Fontelles | - | - | 41,695 | - | 0.0005 |
| Mercedes Gracia Díez | - | - | 2,500 | - | - |
| Ricardo Martínez Rico | - | - | 2,565 | - | - |
| Claudio Santiago Ponsa | 200 | - | 800 | - | 0.0002 |
| Ignacio Solís Guardiola | 17,000 | - | 68,000 | - | 0.0192 |
| Fernando Solís Martínez-Campos | 50,832 | 34,440 | 203,328 | 137,760 | 0.0965 |
| Carlos Sundheim Losada | - | - | 247,118 | - | 0.0027 |
| Alicia Velarde Valiente | 400 | - | 1,600 | - | 0,0005 |

Throughout out 2013 and 2012 there was no evidence of any direct or indirect conflict of interest situation, in accordance with what is envisaged in Article 229 of the Capital Corporation Law.

## 33.6. Audit fees

The fees and costs obtained by Deloitte, S.L. and other auditors are the following:

| | 2013 | | | 2012 | | |
|---|---|---|---|---|---|---|
| | Deloitte | Other auditors | Total | Deloitte | Other auditors | Total |
| Audit services | 3,541 | 270 | 3,811 | 3,622 | 549 | 4,171 |
| Other verification services | 245 | 1 | 246 | 305 | 1 | 306 |
| Financial consulting | 636 | 3,934 | 4,570 | 1,488 | (*) 2.674 | 4,162 |
| Other audit complementary services | 886 | 246 | 1,132 | 544 | 840 | 1,384 |
| Other services | 680 | 2,137 | 2,817 | 219 | 2,272 | 2,491 |
| **Total** | **5,988** | **6,588** | **12,576** | **6,178** | **6,336** | **12,514** |

(*) From this amount, €845 thousand correspond to tax advisory services provided by Deloitte, S.L. prior to their appointment as Group auditors.

## 33.7. Environmental information

The principles of the environmental policies of Abengoa are based on compliance with the current legal regulations applicable, preventing or minimizing damaging or negative environmental consequences, reducing the consumption of energy and natural resources, and achieving ongoing improvement in environmental conduct.

In response to this commitment to the sustainable use of energy and natural resources, Abengoa, in its Management Rules and Guidelines for the entire Group, explicitly establishes the obligation to implement and certify environmental management systems in accordance with the ISO 14001 International Standard.

Consequently, by year-end 2013, the percentage of Companies with Environment Management Systems certified according to the ISO 14001 Standard per sales volume is 92.92% (91.98% in 2012).

The table below lists the percentage of distribution of the Companies with Certified Environmental Management Systems, broken down by business unit:

| Business unit | ISO 14001-certified companies (% of revenue) |
|---|---|
| Engineering and Construction | 96.35% |
| Industrial Production | 89.46% |
| Concession-type Infraestructure | 27.20% |

## 33.8. Subsequent events

After the end of the year 2013 and following the so-called "regulatory reform of the electric sector", the Ministry of Industry, Energy and Tourism submitted to the National Competition and Markets Commission a proposal of Ministerial Order establishing a set of compensation parameters regarding energy-generation facilities from renewable sources, cogeneration and waste. Among other parameters, there are those related to benchmarks of investment and operation of thermosolar facilities (both solar power tower and parabolic-cylinder technology), photovoltaic and cogeneration plants of the Group. This new regulatory development, since it represents an additional evidence regarding some conditions that existed prior to the closing date of the financial year and, in particular, allows us to estimate future cash flows from the abovementioned facilities, has been taken into account when preparing these Financial Statements.

Since December 31, 2013, apart from what is detailed above, no other events have occurred that might significantly influence the information reflected in the Consolidated Financial Statements, nor has there been any event of significance to the Group as a whole.

| Solar Power Plant One (SPP1) | Argel (DZ) | (5) | Operational |
| Solar Processes, S.A. | Seville (ES) | (6) | Operational |
| Solargate Electricidad Tres , S.A. | Seville (ES) | (6) | Construction phase |
| Solargate Electricidad Cuatro , S.A. | Seville (ES) | (6) | Construction phase |
| Solargate Electricidad Cinco , S.A. | Seville (ES) | (6) | Construction phase |
| Solnova Electricidad Cuatro, S.A. | Seville (ES) | (6) | Operational |
| Solnova Electricidad Cinco, S.A. | Seville (ES) | (6) | Construction phase |
| Solnova Electricidad, S.A. | Seville (ES) | (6) | Operational |
| Solnova Electricidad Dos, S.A. | Seville (ES) | (6) | Construction phase |
| Solnova Electricidad Tres, S.A. | Seville (ES) | (6) | Operational |
| Solnova Electricidad Séis , S.A. | Seville (ES) | (6) | Construction phase |
| Transmisora Baquedano, S.A. | Santiago de Chile (CL) | (9) | Construction phase |
| Transmisora Mejillones S.A. | Santiago de Chile (CL) | (9) | Construction phase |

(*) Actividad Eléctrica según las descritas en la Nota 2.29) al amparo de lo establecido en la ley 54/1997.

(1) Producción en Régimen Especial: Cogeneración.Tipo de energía primaria: Fuel.
(2) Producción en Régimen Especial: Eólica.Tipo de energía primaria: Viento.
(3) Incluye Producción en Régimen Especial: Cogeneración. Tipo de energía primaria: Gas Natural.
(4) Producción en Régimen Especial: Cogeneración. Tipo de energía primaria: Gas Natural.
(5) Producción en Régimen Especial: Solar Fotovoltaica. Tipo de energía primaria: Luz Solar.
(6) Producción en Régimen Especial: Solar Termosolar. Tipo de energía primaria: Luz Solar.
(7) Producción en Régimen Especial: Hidraúlica. Tipo de energía primaria: Agua.
(8) Producción en Régimen Especial: Otras: Tipo de Energía primaria: Residuos industriales (Aceites usados).
(9) Transporte.
(10) Producción Energía Eléctrica: A partir de hidrógeno. Tipo de energía primaria: Hidrógeno.

# Appendix XI.- Companies taxed under the Special Regime for Company Groups at 12.31.13

| Abengoa Tax Group Number 02/97 | | |
|---|---|---|
| **Company Name** | **Tax Address** | **Shareholding** |
| Abengoa S.A. | Seville (ES) | Sociedad Dominante |
| Abeima Agua Internacional, S.L. | Seville (ES) | Abeinsa Infraestructuras Medio Ambiente/Construcciones y Depuraciones, S.A.(Codesa) |
| Abeinsa Asset Management, S.L. | Seville (ES) | Abener Energía, S.A./Negocios Industriales y Comerciales, S.A. |
| Abeinsa Business Development, S.A. | Seville (ES) | Abeinsa Ingeniería y Construcción Industrial, S.A./ Negocios Industriales y Comerciales, S.A. |
| Abeinsa Engineering, S.L. | Seville (ES) | Abener Energía, S.A. |
| Abeinsa EPC, S.A. | Seville (ES) | Abeinsa Ingeniería y Construcción Industrial S.A./Teyrna Gest. Ctos. de Const. e Ing., S.A. |
| Abeinsa Infraestructuras Medio Ambiente, S.A. | Seville (ES) | Abeinsa, Ingeniería y Construcción Industrial, S.L./Negocios Industriales y Comerciales, S.A |
| Abeinsa, Ing y Const. Ind., S.A. | Seville (ES) | Abengoa, S.A./Siema AG |
| Abencor Suministros S.A. | Seville (ES) | Negocios Industriales y Comerciales, S.A./Abeinsa Ingeniería y Construcción Industrial, S.A. |
| Abener Argelia | Seville (ES) | Abener Energía, S.A./Abeinsa Ingeniería y Construcción Industrial, S.A. |
| Abener Energía, S.A. | Seville (ES) | Abeinsa, Ing. y Const., S.A./Abeinsa Business Development, S.A./Negocios Ind. y Com., S.A. |
