

**IN THE UNITED STATES BANKRUPTCY COURT
FOR THE DISTRICT OF DELAWARE**

In re:

NJOY, INC.,

Debtor.

Chapter 11

Case No. 16-12076 (CSS)

Related to Docket No. 406

Hearing Date: TBD

Objection Deadline: March 9, 2017

**OBJECTION OF JACOBSON WAREHOUSE COMPANY, INC.
TO DEBTOR'S NOTICE OF ABANDONMENT OF PROPERTY [DOCKET NO. 406]**

Jacobson Warehouse Company, Inc. ("Jacobson"), by and through its undersigned counsel, hereby submits this Objection to Debtor's Notice of Abandonment of Property [Docket No. 406], and in support of this Objection, respectfully represents the following:

RELEVANT FACTS

1. Jacobson is a party to a warehouse agreement with the Debtor signed by the Debtor on March 14, 2013 (the "Warehouse Agreement"), pursuant to which Jacobson stores inventory and performs certain related services for the Debtor from a Jacobson warehouse in Plainfield, Indiana (the "Warehouse").

2. On the petition date, significant amounts of the Debtors' electronic cigarette inventory containing lithium batteries, were stored in the Warehouse. Upon information and belief, a portion of such inventory is damaged or obsolete (collectively, the "Obsolete Inventory").

3. After the petition date, the Debtors shipped additional electronic cigarette inventory containing lithium batteries to the Warehouse, a portion of which remain in the Warehouse and are included in the inventory the Debtor seeks to abandon.

4. After the petition date, the Debtors repeatedly represented to Jacobson that that they were addressing the disposition of the Obsolete Inventory.

5. On October 26, 2016, the Debtors identified the Warehouse Agreement as a contract potentially to be assumed and assigned in connection with the proposed § 363 sale. *See* Notice Of (i) Potential Assumption Of Executory Contracts and Unexpired Leases, (ii) Fixing Of Cure Amounts, and (iii) Deadline To Object Thereto [Docket No. 195].

6. Since the petition date, the Debtors have removed the certain electronic cigarette inventory from the Warehouse (the “Removed Inventory”). Upon information and belief, the Removed Inventory is the inventory the Debtors and proposed purchaser deemed most valuable. A list of the Removed Inventory is attached hereto as Exhibit A.

7. Approximately 3400 pallets of electronic cigarette inventory, most of which contains lithium batteries, remain in the Warehouse (the “Remaining Inventory”). A list of the Remaining Inventory is attached hereto as Exhibit B and photos of the Remaining Inventory illustrating the hazardous nature of the lithium batteries is attached as Exhibit C.

RELIEF REQUESTED

8. Jacobson requests entry of an Order denying the Debtor's notice of abandonment of the Remaining Inventory.¹

BASIS FOR RELIEF REQUESTED

A. The Debtor Has Failed To Meet The Standards For Failure To Meet Standards For Abandonment

9. Bankruptcy Code § 554(a) and (b) provides in pertinent part:

- (a) After notice and a hearing, the trustee may abandon any property of the estate that is burdensome to the estate or that is of inconsequential value and benefit to the estate.
- (b) On request of a party in interest and after notice and a hearing, the court may order the trustee to abandon any property of the estate that is burdensome to the estate or that is of inconsequential value and benefit to the estate.

10. However, the burden is on the Debtor to prove that the Remaining Inventory is of inconsequential value and benefit to the estate or burdensome to the estate in order to abandon any property pursuant to 11 U.S.C. § 554.

B. The Remaining Inventory May Not Be Abandoned Because It Contains Highly Flammable Lithium Batteries, The Disposal And Transportation Of Which Pose A Risk To Public Health And Safety

11. The Debtor may not abandon property in contravention of state or local laws designed to protect public health or safety. *Midlantic Nat'l Bank v. New Jersey Dept. of Env'tl. Protection*, 474 U.S. 494, 502 (1986)

¹ The Debtors have recently filed a motion to reject the Warehouse Agreement nunc pro tunc to the petition date. See Docket No. 403. Jacobson will timely respond to the rejection motion and reserves all rights related thereto, including its right to seek allowance of all unpaid postpetition obligations of the Debtor pursuant to the Warehouse Agreement as an administrative expense.

12. The Remaining Inventory contains lithium batteries, which in the volume of the Remaining Inventory are dangerous and hazardous substances. Furthermore, lithium batteries must be disposed of in accordance with applicable state and federal laws and regulations governing their disposal and transportation to protect the public health and welfare.

13. The hazards and volatility of lithium batteries in electronic cigarettes has been widely reported. For example, in a publication of the National Fire Protection Association issued in April 2016, multiple incidents described as explosions or ignitions were reported. *See <http://www.nfpa.org/news-and-research/fire-statistics-and-reports/fire-statistics/fire-causes/electrical-and-consumer-electronics/electronic-cigarette-explosions-and-fires-the-2015-experience>*. The United States Fire Administration and FEMA have published similar warnings. *See https://www.usfa.fema.gov/downloads/pdf/publications/electronic_cigarettes.pdf*. Recent news has reported an increase in injuries from electronic cigarettes and attribute the explosions to the lithium batteries they contain. *See <http://www.healthline.com/health-news/concern-growing-over-e-cigarette-explosions>*. In addition, the Food and Drug Administration has commenced an investigation of lithium battery safety in electronic cigarettes such as the Remaining Inventory. *See <https://www.fda.gov/TobaccoProducts/Labeling/ProductsIngredientsComponents/ucm456610.htm>*.

14. As a result of the special environmental issues and risk of explosion associated with the disposal of the lithium batteries in the Remaining Inventory, the Court should impose an affirmative duty on the Debtor to dispose of the Remaining Inventory and prohibit abandonment. *In re Unidigital, Inc.*, 262 B.R. 283 (Bankr. D. Del 2001).

CONCLUSION

Based upon the hazardous and dangerous nature of the lithium batteries in the Remaining Inventory, Jacobson respectfully requests entry of an Order denying abandonment of the Remaining Inventory, and affording Jacobson such other and further relief as equitable and just.

Dated: March 9, 2017

Respectfully submitted,
