FIFTH REPORT OF THE MONITOR

January 13, 2017

INTRODUCTION AND BACKGROUND

1. (“**PSG**”) and certain of its subsidiaries and affiliates (collectively, the “**Applicants**”)¹ were companies to which the *Companies’ Creditors Arrangement Act* (“**CCAA**”)² applied; (ii) granting certain relief including, *inter alia*, a stay of proceedings in favour of the Applicants (the “**Stay of Proceedings**”); and (iii) appointing Ernst & Young Inc. (“**EY**”) as monitor (in such capacity, the “**Monitor**”) of the Applicants.

3. PSG is a public corporation whose securities were traded on the New York and the Toronto Stock Exchanges under the symbol “PSG” before trading was suspended by both exchanges on October 31, 2016. The Toronto Stock Exchange delisted the securities effective December 8, 2016, and the New York Stock Exchange has announced that it will apply to delist the securities.

20. COMPARISON OF ACTUAL AND PROJECTED CASH FLOW RESULTS

21. Pursuant to its duties as set out in the Initial Order, the Monitor has monitored the Applicants' receipts and disbursements since the commencement of the *CCAA* Proceedings. Attached as **Appendix "A"** to this Fifth Report, and summarized below, is a comparative analysis of the statement of receipts and disbursements covering the period from October 31 to January 6, 2017, (10 weeks).

Term Loan DIP availability	11,946	25,687	13,741
Total Availability	19,446	46,462	27,017

22. The actual results for the 10-week period from October 31 to January 6, 2017 indicate a favourable variance in receipts and disbursements of \$45.5 million and a variance arising from the additional opening cash on hand at October 31, 2016 of \$3.2 million. These variances do not result in additional liquidity of \$48.7 million, as the favourable variances in receipts caused a decrease in the borrowing base and thus on the available credit. The additional liquidity generated from the favourable variances is reported to be \$27.0 million⁵.

⁵ The report prepared by the Applicants indicates a surplus availability of \$28.9 million. The difference relates to cheques in circulation that are added back to the availability in the Applicants' reporting. Considering that these funds have already been allocated, the Monitor does not consider that they form part of the available funds.

23. Although the aggregate favourable variance in receipts and disbursements is reported to be \$45.5 million, the cash on hand at January 6, 2017 is \$1,312,000 lower than the projected amount, in view of the fact that the Applicants repaid amounts greater than budgeted on the ABL Facility and drew lower amounts under the ABL DIP Facility (each as defined in the Initial Order) for a combined variance of \$36.3 million, excluding an opening favourable ABL variance of \$2.7 million, and an unfavourable foreign exchange variance of \$500,000 on disbursements clearing, and borrowed less than projected on the Term Loan DIP Facility (as defined in the Initial Order) by \$13.7 million.
24. Overall, the Applicants report a more favourable liquidity position as at January 6, 2017 than originally projected, by \$27.0 million. The Applicants are of the view that the improvement in liquidity is attributable to a combination of timing differences and permanent favorable variances. Based on the results to date, the Monitor has no reason to believe that there has been a substantial adverse change in the Applicants' cash flow.

QUARTERLY REPORTING

25. The CCAA provides (*inter alia*) that the Monitor must file a report with the court on the state of the companies' business and financial affairs containing the prescribed information, if any, not later than 45 days, or any longer period that the court may specify, after the day on which each of the company's fiscal quarters ends (the "**Quarterly Report**").⁶ There is no information in the *Companies' Creditors Arrangement Regulations*⁷ prescribing the form or contents of the Quarterly Report.
26. The Applicants' fiscal year-end is May 31, and as such the most recent fiscal quarter ended on November 30, 2016 and the deadline to file the Quarterly Report is January 14, 2017.
27. The Applicants advised the Monitor that their financial statements for the quarter ended November 30, 2016 are not available, due to the fact that the financial statements for fiscal 2016 (ending May 31, 2016) have not yet been finalized and that management's main focus has been on managing the sale process since the inception of the Restructuring Proceedings. The Applicants indicated to the Monitor that the only financial information that is available at this time, and that

⁶ Section 23(1)(d)(ii) CCAA.

⁷ SOR/2009-219.

will be available by the deadline to file the Quarterly Report, is: (a) a comparison of actual and projected receipts and disbursements; and (b) a monthly operating report for November 2016, which presents the results of operations for the period October 31 through November 30, 2016 and the balance sheet as at November 30, 2016. These documents are attached to this report as **Appendix “A”** and **Appendix “B”**, respectively.

28. The Applicants advise that the above-mentioned financial information has not been subjected to an audit and reflects the best information available to the Applicants and the Monitor at this time, and that the information is preliminary and subject to adjustments. The Applicants advise as well that the financial information does not necessarily comply with generally accepted accounting principles in the United States (“GAAP”), in that the information does not include all of the disclosures that would be required under GAAP, was prepared on the basis of the Applicants as a going concern and does not reflect any adjustments that might be required as a result of the restructuring process. Notwithstanding that the information provided may not conform to GAAP and may be subject to change, the information contained in Appendix “A” and Appendix “B” represents the best report on the state of the Applicants’ business and affairs that can be presented at this time.

SALE OF THE INARIA BUSINESS

29. The Applicants request that the Court approve the asset purchase agreement dated December 30, 2016 (the “**Inaria APA**”), between Bauer Performance Sports Uniforms Corp., Bauer Performance Sports Uniforms Inc., and Mr. Saverio Michielli and a company to be formed by Mr. Michielli (the “**Purchaser**”).
30. The background and circumstances of the proposed sale are described in greater detail in the affidavit of Brian Fox sworn January 3, 2017 and filed in support of the Applicants’ motion (the “**Fox Affidavit**”). According to the Fox Affidavit, the Inaria Business is a non-core component of the Applicants’ overall business and has been generating negative EBITDA since it was acquired in 2012, with the exception of 2014 in which it generated slightly positive EBITDA. The Applicants expect that the Inaria Business will continue to incur losses. The Applicants were considering closing down this business prior to the start of the Restructuring Proceedings, but identified the possibility of selling the Inaria Business back to Mr. Michielli who was one of the former owners of Inaria International Inc., the company from which the Applicants acquired the Inaria Business. Mr. Michielli is currently an employee of the Applicants involved in the day-to-day management of the

Inaria Business. Pursuant to the Inaria APA, the Purchaser will purchase the Inaria Business for approximately CAD\$2.1 million (plus an assumption of certain liabilities and other consideration). The Applicants believe that this result is superior to a liquidation and are asking that the Court authorize them to complete this sale.

31. The *CCAA* provides a non-exclusive list of factors⁸ that the Court should consider in granting a request to sell assets outside of the normal course of business, which are as follows:
- a) the reasonableness of the process leading to the proposed sale or disposition;
 - b) whether the sale or disposition would be more beneficial to the creditors than a sale or disposition under a bankruptcy;
 - c) whether the consideration to be received for the assets is reasonable and fair, taking into account their market value;
 - d) the extent to which the creditors were consulted; and
 - e) the effects of the proposed sale or disposition on the creditors and other interested parties.

The Fifth Report provides the Court with the Monitor's comments regarding the above-mentioned factors.

Process leading to the proposed sale

32. The Fox Affidavit discloses that the Applicants did not put in place a marketing process before negotiating the Inaria APA. That decision was based on the Applicants' assessment that the value of the assets did not justify the cost of a marketing process and that the party most likely to provide the highest and best offer had already been identified. That assessment is supported by the advice of the Applicants' investment banker, Centerview Partners LLC ("**Centerview**"), who indicated that in their view, the cost of carrying out a sale process would not be justified in the circumstances.
33. The special committee of the PSG board of directors (the "**Special Committee**") has had oversight of the Inaria transaction throughout the process. Once the Inaria APA was substantially finalized, it was considered and approved by the Special Committee.

⁸ See section 36(3) of the *CCAA*. The *CCAA* also provides additional considerations when the sale or disposition is intended to be made to a related person.

34. Based on the explanations received, the Monitor is satisfied that the decision to forego testing the market through a sale process was reasonable in the circumstances.

The proposed sale is more beneficial than a sale or disposition in a bankruptcy context

35. The Applicants assert that the sale price to be received, approximately CAD\$2.1 million, is superior to the value that can be expected in a liquidation carried out in the context of an outright bankruptcy. The information supporting this assessment is based on management's assessment of the liquidation value of the assets of the Inaria Business. Approximately 90% of the carrying value of the assets to be sold under the proposed transaction consists of inventories. Management's assessment of the liquidation value of the assets is based in large part on the results of a recent appraisal of the inventories by a third party appraisal firm.

36. The Monitor reviewed the estimates and assumptions made by the Applicants regarding the liquidation value of the assets and considers these to be reasonable in the circumstances. As such, the Monitor believes that the sale price of approximately CAD\$2.1 million is higher than the value that could be expected to be received in a liquidation, including one performed in a bankruptcy context.

37. Furthermore, the proposed transaction contemplates that the Applicants will derive the following additional benefits:

- a) the Purchaser will assume certain trade accounts payable specifically relating to the Inaria Business, which are estimated to total approximately CAD\$480,000;
- b) the proposed transaction will provide continued employment to approximately 26 employees who are currently working in the Inaria Business. The Purchaser will assume the employment obligations of the employees who accept its employment offer, thereby assuming any severance, vacation pay or wages; and
- c) the sale will also settle a dispute that exists since the acquisition of the Inaria Business regarding certain purchase price adjustments relating to the acquisition. The settlement of this dispute will allow the Applicants to retain approximately CAD\$367,000, the full amount of the disputed funds.

38. In view of all of the above, the Monitor believes that the proposed transaction is more beneficial for the creditors than a sale or disposition in a bankruptcy context.

Reasonableness of the consideration to be received

39. The Applicants believe that the consideration to be received is fair and reasonable as compared to the fair market value of the assets. This assessment is based on advice from Centerview that indicated it is unlikely that a superior offer could be obtained from another prospective purchaser in view of the fact that (a) the Inaria Business has been generating EBITDA losses consistently since its acquisition in 2012, except for a small positive EBITDA in 2014; (b) the Inaria Business is expected to continue generating negative EBITDA in 2017; (c) the Inaria Business has had stagnant or decreasing revenue since fiscal 2014; and (d) the Applicants do not see significant growth potential with the Inaria Business.
40. While no information is available on the fair market value of the assets to be sold in the context of the proposed going concern sale transaction, the Monitor considers that the Applicants' and Centerview's reasoning regarding the value of the Inaria Business is reasonable.

Other considerations

41. The Monitor understands that the Applicants have discussed the proposed sale with the UCC and Equity Committee and the Applicants are not aware of any objections being raised.
42. The assets used in connection with the Inaria Business have been specifically excluded from the stalking horse sale process that is presently underway and the assets described in the SH Agreement are excluded from the Inaria APA. The proposed sale of the Inaria Business to the Purchaser is unlikely to affect the current stalking horse sale process and will provide additional value for the Applicants' assets. In view of the above, the sale appears to be in the best interest of the stakeholders.

OVERALL COMMENTS AND CONCLUSIONS

43. The sale of the Inaria Business is not likely to affect the value of the remaining assets, which represent the most significant value to the stakeholders. The proposed sale will (a) provide additional recoveries that will benefit the stakeholders; (b) provide continued employment for the workforce presently employed in the Inaria Business; (c) provide a continued supply chain link for the Inaria

Business' suppliers; (d) provide meaningful recoveries for the trade accounts payable creditors' whose debts will be assumed; and (e) allow management of the Applicants to devote all of their attention to operating the remaining business and concluding the sale process; and (f) allow the Applicants to retain funds that are subject to ongoing litigation.

44. The Monitor considers that the limited marketing process leading to the proposed sale is reasonable in the circumstances and believes that the sale is more beneficial than an outright liquidation in a bankruptcy context.

45. In view of the above, the sale appears to be in the best interest of the stakeholders, and the Monitor recommends that the Court grant the relief sought.

All of which is respectfully submitted this 13th day of January, 2017.

Case No. 16-12373 (KJC)
Reporting Period: October 31, 2016 to November 30, 2016

GENERAL NOTES

Debtor-In-Possession Financial Statements

The financial statements and supplemental information contained herein are unaudited, preliminary, and may not comply with generally accepted accounting principles in the United States of America ("U.S. GAAP") in all material respects. The statements are presented on the basis of a going concern, but there is an offer to sell substantially all of the assets and once complete, the values may differ from those presented. All amounts are in US dollars. Amounts not in US dollars were converted at the applicable exchange rate.

Financial Accounting Standards Board Accounting Standards Codification 852, (Reorganizations) ("ASC 852"), which is applicable to companies in Chapter 11, requires that financial statements for periods after the filing of a Chapter 11 petition distinguish transactions and events that are directly associated with the reorganization from the ongoing operations of the business. The financial statements have been prepared in accordance with ASC 852. The unaudited financial statements have been derived from the books and records of the Debtors. This information, however, has not been subject to procedures that would typically be applied to financial information presented in accordance with U.S. GAAP, and upon application of such procedures, the Debtors believe that the financial information could be subject to changes, and these changes could be material. These statements do not include non-debtor entities controlled by the Debtors and therefore do not represent the consolidated financial results of Performance Sports Group Ltd.

The results of operations contained herein are not necessarily indicative of results which may be expected from any other period or for the full year and may not necessarily reflect the results of operations, financial position and cash flows of the Debtors in the future. None of the asset values have been adjusted to reflect the sale proceeds or related gains and losses.

The information contained herein is provided to fulfill the requirements of the Office of the United States Trustee.

Liabilities Subject to Compromise

As a result of the chapter 11 filings, the payment of prepetition indebtedness is subject to compromise or other treatment under a plan of reorganization. The determination of how liabilities will ultimately be settled or treated cannot be made until the Bankruptcy Court approves a chapter 11 plan of reorganization. Accordingly, the ultimate amount of such liabilities is not determinable at this time. ASC 852 requires prepetition liabilities that are subject to compromise to be reported at the amounts expected to be allowed as claims, even if they may be settled for lesser amounts. The amounts currently classified as liabilities subject to compromise are preliminary and may be subject to future adjustments depending on Court actions, further developments with respect to disputed claims, determinations of the secured status of certain claims, the values of any collateral securing such claims, rejection of executory contracts, continued reconciliation or other events. The values reflect payments made on account of First Day Orders but do not reflect any liabilities potentially assumed by the buyer.

Reorganization Items

ASC 852 requires expenses and income directly associated with the Chapter 11 filings to be reported separately in the income statement as reorganization items. Reorganization items includes expenses related to legal advisory and representation services, other professional consulting and advisory services, expenses associated with the rejection of unexpired leases and changes in liabilities subject to compromise recognized as there are changes in amounts expected to be allowed as claims.
