IN RE:	§	
	§	
DOMINION GROUP, LLC	§	CASE NO. 19-_____
	§	
Debtor	§	CHAPTER 11
	§	

**DECLARATION OF JOE CLINE IN SUPPORT OF
DEBTOR'S BANKRUPTCY PETITION**

I, Joe William Cline, III, pursuant to 28 U.S.C. § 1746, hereby declare that the following is true to the best of my knowledge, information and belief:

1. I am the Chief Executive Officer (CEO) of Dominion Group, LLC (“Dominion”), and Cape Quarry, LLC (“Cape Quarry”) (collectively, “Debtors”) and have held said position since September 11, 2017.
2. As CEO of the Debtors, I have extensive knowledge of the Debtors’ operations and financial condition from at least September 11, 2017 to present.
3. Dominion is a turn-key bulk materials producer and provider, which operates marine terminals and provides transportation and logistics support serving businesses on the Mississippi River and Gulf Coast.
4. Dominion is one of the few fully integrated limestone producers in the Mississippi River Valley/Gulf Coast market. Dominion has strategically located terminals in Southern Louisiana to service its customers for the current industrial infrastructure demand and growing future opportunities in coastal restoration. The location of these terminals gives the debtor a distinct advantage over its competitors.

5. Cape Quarry, a wholly-owned subsidiary of Dominion, owns and operates a limestone quarry (herein after, the “Quarry”) in Cape Girardeau County, Missouri. Mr. Cline formed both Dominion and Cape Quarry on September 11, 2017.

6. The Quarry is the southern-most location on the Mississippi River that produces limestone. This results in giving the company a competitive advantage in lower transportation and logistical costs. The operational life of the quarry is in excess of 50 years given its substantial proven recoverable reserves.

7. The Debtors’ businesses were built to become a completely vertically integrated limestone distributor by self-performing all aspects of the business operations from mining, processing, marine freight, logistics, unloading, stockpiling, marketing, retail and final mile delivery to the client. Dominion is currently poised to bring on line several additional terminals servicing major construction projects and team with local vendors in the effort to further vertically integrate the company.

Goals for Chapter 11 Filing

8. The intent of the Chapter 11 is to provide sufficient capital to a viable business operation. The company currently has a backlog of approximately \$6.5MM in addition to outstanding bids in excess of \$400MM of products delivered over several years. The Debtors have opportunities from several strategic capital providers to make an investment that will allow the company to operate in a large-scale professional manner. The Chapter 11 restructuring will provide for settlement of various matters, working capital, and long-term capital.

9. With the proper capitalization, the Debtors are both well positioned to be an industry leader in the aggregates and marine logistics industry. As previously stated, Cape Quarry is the southernmost limestone quarry on the Mississippi River, which gives Dominion and Cape

Quarry a significant advantage over competitors. Cape Quarry's close proximity to petrochemical and other industrial sites allows Dominion to reduce transportation costs to Mississippi River clients. Further, Dominion has already secured multiple purchase orders for material pending reorganization. There is significant opportunity to service petrochemical and other industrial projects scheduled to begin work. Dominion, since its recent inception, has been able to develop and maintain numerous relationships. As a result, the debtor is being considered for and is negotiating multi-year contracts with multi-national and Fortune 500 companies for industrial and construction related projects with several opportunities in excess of hundred million dollars per year.

10. Moreover, the State of Louisiana, through the Coastal Restoration and Protection Agency (hereinafter, the "CPRA") is investing heavily in coastal protection, which utilizes a variety of aggregate materials for use in shoreline protection, levee and other infrastructure works. Cape Quarry is capable of producing such material, and business development efforts are underway with the CPRA to source Cape Quarry material.

11. The Debtors filed for relief under the Bankruptcy Code in an effort to allow the Debtors to refinance its secured debt and to provide sufficient capital to complete the Debtors' initial capitalization and to bring the Debtors' operations to the optimal levels in order for the Debtors to realize the significant value of the Quarry's reserves, which represent the substantial assets of the Debtors, for the benefit of all constituents with an interest in the success of the Debtors' reorganization.

12. Prior to forming Dominion and Cape Quarry, I was a founding member and co-owner of Five S Aggregate, LLC, Five S Developments, LLC, Five S Group, LLC, Five S Industrial, LLC, and Five S Transport, LLC (hereinafter, "Five-S Companies"). The Five-S

companies are engaged in the sale of aggregates, site civil prep work, concrete work, heavy hauling, and real estate development. Under my leadership, the Five-S Companies generated approximately \$30,000,000 of revenue a year.

13. Despite my best efforts, a dispute between my former business partner and I arose regarding the direction and management of the Five-S Companies. I decided it was in my best interest to leave the Five-S Companies and start Dominion and Cape Quarry

14. My former business partner and I agreed to dissolve my ownership of the Five S Companies by way of a Redemption Agreement (hereinafter, the "Agreement"). The Agreement took months of extensive negotiations, three separate Memorandums of Understanding (hereinafter, "MOUs"), which were not honored by my former business partner, and extensive legal fees were incurred as a result.

15. The Agreement was ultimately executed and became effective on October 13, 2017. It was expected that upon the redemption of my ownership interest in the Five-S Companies, I would receive adequate funding to start my new businesses, which did not immediately materialize.

16. The Agreement provided, in part, upon the execution of the Agreement, that I would receive \$1,700,000 from my former business partner. My former business partner delayed payment for several months causing additional capital shortage.

17. Furthermore, the Agreement provided, in part, upon closing, that I would receive property valued at approximately \$1,000,000.00-\$1,500,000.00 upon the execution of the Agreement. Nevertheless, my former business partner did not transfer the property, which is now the subject of the lawsuit. Only recently has my former business partner offered to transfer the

property; however, at this point it has been significantly devalued based upon the land being materially altered.

18. Litigation ensued between my former business partner and I, which is still ongoing. During the course of the litigation, my former business partner asserted unfounded tort claims against me.

19. By failing to honor the Agreement, dragging on the litigation and asserting unfounded claims in the litigation, my former business partner created a condition whereby: a) I was without sufficient capital to begin my new ventures; b) I was unable to obtain credit from typical lenders in order to provide sufficient capital to begin my new ventures; and c) I was forced to divert personal funds from the capitalization of the Debtors in order to attempt to resolve the dispute with my former partner.

20. All of the above, caused the Debtors to lose valuable business contacts and relationships. The Debtors lacked business continuity, credit, financing, bonding, and other industry performance indicators that are only achieved over time.

21. Despite this, the Debtors continued moving forward to becoming fully operational, using personal funds as capital. Once the Debtors' operations began, the Debtors' start-up costs to bring the Quarry to an operational state and other costs associated with terminal developments drew from limited capital as result of the initial capitalization plan not materializing for reasons stated above.

22. As a result, the Debtors were unable to timely pay contractors, which lead to work stoppage and additional litigation.

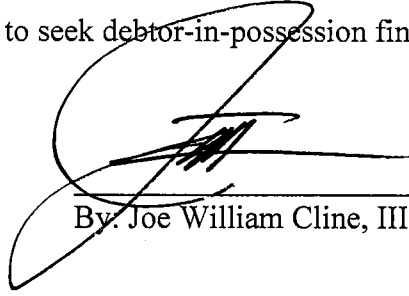

23. Further complicating matters, the Mississippi River was faced with record flooding in 2018/2019. The flooding caused Mississippi River traffic to be halted to the point where

deliveries for customers that relied on the river for business were delayed. Most importantly, the flooding caused many customers to shut their terminals down until the water receded, thus significantly reducing revenue.

24. As a result, the Debtors were unable to pay their secured and unsecured creditors, and additional litigation ensued.

25. In order provide the Debtors with sufficient capital moving forward, prior to filing for bankruptcy protection, the Debtors engaged Chiron Advisory Services, LLC (“Chiron Advisory”) as financial adviser and Chiron Financial, LLC (“Chiron Financial”) (collectively “Chiron”) as exclusive investment banker.

26. Chiron’s job, inter alia, is to examine the Debtors’ financials and work with the Debtors to determine the best path to obtaining adequate financing. After discussions with Chiron and counsel, it was determined that the best means to obtain financing and reduce costs associated with litigation would be to seek debtor-in-possession financing.
