Chapter 11  
Judge Thomas J. Tucker

**PATIENT CARE OMBUDSMAN'S SEVENTH REPORT**

Deborah L. Fish, patient care ombudsman, appointed by order dated February 17, 2016 (Docket #35), in accordance with Section 333 of Title 11 of the United States Bankruptcy Code (the "Code"), submits this seventh report on the status of the quality of patient care in the Chapter 11 case of Cadillac Nursing Home, Inc., d/b/a St. Francis Nursing Center (the "Debtor"). This report covers the period from November 8, 2016 to January 4, 2017, and is based upon site visits and discussions with the administrator, nurses, and the presidents of the residents' council.

**INTRODUCTION**

The Debtor filed a petition under Chapter 11 of the Code on February 8, 2016. The Debtor is a privately owned and licensed long-term skilled nursing facility located at 1533 Cadillac Boulevard, Detroit, Michigan 48214. It consists of 81 licensed beds, located within the Debtor-owned facility. The Debtor currently has 63 residents. It employs nearly 84 full and part-time employees

The Debtor's facility continues to offer the same services for residents and continues to be financially managed by Mission Point Management Services, LLC ("MPMS"). All day-to-day operations of the facility are still managed and handled by Brad Mali and the Debtor's administrative staff.

## **PATIENT STAFFING AND SERVICES**

The Debtor has added two registered nurses to the staff and is in the hiring process for two additional licensed practical nurses. The Debtor remains in compliance with staffing ratios during all shifts.

## **QUALITY OF CARE**

Since my last report, the Debtor has maintained all of its services and is delivering similar quality care to essentially the same patient population.

### **Facility**

During my site visits, I walked through the facility and the hallways. I checked the dining rooms, activity rooms, physical therapy room, laundry, bathrooms and residents' rooms. All of these locations were clean. There were no strong foul odors.

### **Resident Care**

During each of my visits, many of the residents were watching TV, sitting in the activity room or outside for the smoking time. The residents outside were dressed appropriately for the cold conditions with coats and hats. At each of my visits, the residents were groomed and wearing clean clothes.

### **Security**

There have been no significant changes to security since my last report.

### **Supplies**

The administration and the nursing staff have confirmed that the Debtor has maintained its relationship with its suppliers and that there were no interruptions in service, nor any changes in medical supplies.

**CONCLUSION**

The Debtor has continued the same quality of care post-petition as it did pre-petition.

Monitoring will continue.
