PART I - FINANCIAL INFORMATION

ITEM 1. FINANCIAL STATEMENTS

The accompanying consolidated financial statements of PNB and subsidiaries have been prepared in conformity with the generally accepted accounting principles and are filed as part of this SEC Form 17-Q report (please refer to pages 8 to 14), viz:

- Consolidated Statements of Condition (p. 7)
- Consolidated Statements of Income (p. 8)
- Consolidated Statements of Changes in Capital Funds (p. 9)
- Consolidated Statements of Cash Flows (p. 10)
- Selected Notes to Consolidated Financial Statements (p.11-14)

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS/PLAN OF OPERATIONS

A. Financial Condition

As of March 31, 2004, the Bank's consolidated resources aggregated P213.87 billion, higher by 8% or P15.08 billion as compared to the P198.79 billion posted as of December 31, 2003. The increase in resources was fueled by growth in customer deposits and proceeds from the Tier 2 Capital – P3.0 billion, 12.5% Subordinated Notes issued on February 16, 2004.

Significant changes were registered in the following accounts:

- Investment and Trading Account Securities increased by P7.11 billion from P48.33 to P55.44 billion due to purchases of government securities.
- Interbank Loans Receivable increased from P13.79 billion to P17.91 billion or by P4.12 billion accounted for by the increase in lendings to other banks.
- Due from Other Banks grew by 2.79 billion, from 25.81 billion to 28.60 billion. The increase pertains to foreign bank transactions under a cross currency swap transaction.
- Due from Bangko Sentral ng Pilipinas went up by ₽2.56 billion, from ₽1.12 billion to ₽3.68 billion due to increase in reserve requirement attributed to increase in deposit liabilities.
- Securities Held Under Agreements to Resell was higher by P0.9 billion, from P5.40 billion to P6.30 billion due to increase in lending to BSP.
- Total deposits grew by 5% or ₽7.71 billion for the first three months of 2004, from ₽145.92 billion to ₽153.63 billion due to additional low-cost funds generated during the quarter. The improvement is reflected in demand and savings deposits which increased by 8%and 2%, respectively, partly offset by the 5% decrease in time deposits.

- Major changes on other liability accounts are as follows:
 - Bills and Acceptances Payable increased by P4.89 billion, from P12.55 billion to P17.44 billion due to increase in interbank borrowings under cross currency swap transaction.
 - Margin Deposits and Cash Letters of Credit was higher by P46 million, from P202 million to P248 million accounted for by increase in cash letters of credit.
 - Other Liabilities grew by P1.53 billion, from P6.40 billion to P7.93 billion, on account of collections from large taxpayers for remittance to BIR and domestic bills purchased line availments.
 - Accrued Taxes, Interest and Other Expenses dropped by ₽1.71 billion, from ₽8.31 billion to ₽6.60 billion due to payment of interest on matured deposit accounts.
 - Manager's Check and Demand Drafts Outstanding was lower by P194 million from P633 million to P439 million on account of negotiated checks.
- On February 16, 2004, the Bank issued P3.0 billion, 12.5% Subordinated Notes due in 2014. With this new Tier 2 capital, the Bank's capital adequacy ratio on consolidated basis reported to the Bangko Sentral ng Pilipinas improved to 15.5% as of end of March 2004.
- The Bank has maintained a solid capital base and is positioned for continued growth with total capital funds of P24.36 billion at quarter ended March 31, 2004.

B. Results of Operations

- PNB posted a net income of P20 million for the first quarter of 2004, as the Bank continued to post gains under the rehabilitation initiatives that it started to pursue in mid-2002. The Bank's first quarter profit is the seventh consecutive profitable quarter after five years of successive losses. The P20 million net income for the quarter is lower than last year's figure of P53 million due to some non-recurring effects of tax changes, the rise in interest rates during the quarter, and the timing difference in the deployment of Tier 2 funds. The lag in the actual placement of these funds allowed the Bank to access higher yield on its investments, benefits of which have begun to be recognized in the second quarter.
- Net interest income climbed by 9% to P525 million in the first three months of 2004 from P483 million in the same period last year boosted by an increase in interest income by P72 million from P1.86 billion to P1.93 billion and a reduced interest expense on deposits by P33 million from P1.13 billion to P1.33 billion. The improvement was driven by the Bank's continued campaign to expand its low-cost deposit base, rationalized pricing of loans and re-focused lending to the more profitable SMEs. Collections on past due accounts as a result of more directed restructuring strategies likewise contributed to improved margins.
- Interest expense on bills payable and other borrowings grew by P63 million from P210 million to P273 million due to higher interest rate levels and interest expense on the unsecured subordinated debt the Bank raised earlier this year.

- Fee-based and other income was slightly higher by P23 million from P1.51 billion to P1.53 billion, largely because of the strong asset sales performance, remittance business and trading gains on investment securities, however, offset by the income gap left by the transfer early this year of the Marcos funds held in escrow by the Bank.
- Administrative and other operating expenses increased by P143 million this quarter to P1.88 billion compared to the P1.73 billion for the same quarter last year, mainly due to higher consolidation expenses related to foreclosure of properties.
- Provision for probable losses was P39 million this quarter and P84 million for the same period last year.
- Provision for income tax amounted to P115 million and P117 million for the quarters ended March 31, 2004 and 2003, respectively.

C. Other Bank Performance

- Total incoming foreign remittances for the first quarter of 2004 amounted to US\$673 million higher by P21 million compared to US\$652 million for the same period last year.
- Volume of foreign finance transactions totaled US\$82 million for this quarter, with letters of credit opened at US\$41 million and export negotiations at US\$41 million.
- Trust assets totaled P11.8 billion as of March 31, 2004. Trust income was P64 million for the first quarter of 2004.
- Other activities during the quarter:
 - Originally intended to "bring home" Middle East-based OFWs at the height of the US-Iraq War last year – through state-of-the-art videoconferencing facilities, PNB's Tele-Ugnayan: Rapid Connect Sa Middle East won a Gold Quill Award of Merit from the International Association of Business Communicators (IABC)-Philippines. PNB's sole entry to this year's tightly contested Gold Quill competition won in the Strategic Management Communications Category which measures a communications project's effectiveness in conveying an institution's strategic directions to a targeted market.
 - 2) The Bank also received the Highest Network Performance Award for 2003 from Megalink, a consortium of 17 commercial banks with a combined network of 1,500 ATMs nationwide, during its 14th Anniversary celebration held last March 24, 2004. PNB was cited by Megalink as having registered the highest ratings in host availability at 99.82 per cent representing unplanned ATM host downtime of only 16 hours or an average of 2.6 minutes per day for the whole year; the highest rating for controllable approval rate of 99.84 per cent indicating that only 16 out of 10,000 transactions made by PNB cardholders on other banks' ATMs were rejected due to reasons within the bank's control; and second to the highest rating for reply rate at 99.61 per cent indicating that only 39 out of every 10,000 transactions made by PNB cardholders on other banks' ATMs did not receive a reply from the PNB bank host.

D. Known trends, demands, commitments, events or uncertainties that have had or are reasonably expected to have a material impact on the Bank's liquidity/ revenues/net income

- About P7.5 billion Double-Your-Money deposit accounts will mature on or before June 30, 2004. This will have a significant impact on the Bank's liquidity position, but in anticipation the Bank has earmarked funds/marketable securities for this.
- As a result of the transfer to the National Government in January 2004 of certain fund previously in escrow with the Bank, the income generated by the Bank from trust banking services has been materially affected by such transfer.
- The Bank's income, results of operations and the growth of its assets depend to a large extent on the performance of the economy. The recent volatility in the exchange rate and the ensuing increase in the interest rate to avert currency speculation may derail the momentum of the Philippine economic growth. The environment of political uncertainties has adversely affected business sentiment.

E. Capital expenditures

The Bank has material commitments for capital expenditures on IT-related projects, major repairs of existing branch infrastructures, acquisition and major repairs of furniture, fixtures and equipment needed to bring the Bank at par with competitors. These projects are expected to be funded thru proceeds from the sale of acquired assets.

F. Significant elements of income or loss

There are no significant elements of income or loss that did not arise from the Bank's continuing operations.

G. Seasonal aspects

There are no seasonal aspects that had material effect on the Bank's financial condition and results of operations.

H. Plan of operations

The results of operations of the Bank for the first quarter of this year were better than target and is expected to gain further momentum in the 3^{rd} and 4^{th} quarters. To improve topline growth for the year, the Bank will continue to invest in programs and initiatives that will propel future growth in key areas, improve profitability, and strengthen overall performance.

For the rest of 2004, PNB is committed to remain focused on further advancing its gains and accelerating growth of its core businesses. It will continue to pursue its Good Bank-Bad Bank strategy and introduce more innovative programs directed at both its customers and workforce. Emphasis shall be given to the retail and SME markets. Combining the powers of technology and people, PNB is eyeing to further improve its market position this year.

New Products

Following are the new products currently being developed and will be launched in the next twelve (12) months:

- **e-Statement** a facility to automatically send Bank statements of enrolled client accounts as email attachments.
- **eXecutive Checking Account** a checking account that comes with a PC-based checkwriting software that electronically processes vouchers and prints checks at the client's place of business.
- e-Check Management an outsourced disbursement solution for the client's payables, that is, electronic check preparation and check-cutting for release thru PNB branches.
- **e-Finance Management** a sweeping facility which will allow the transfer of funds from one account to another while maintaining a specified balance in the client's accounts.
- **e-Check Depot** a facility wherein the Bank will serve as the custodian of the clients' post-dated checks.
- **QuickLink** a facility for PNB ATM account holders to transfer funds to another PNB account or to accounts from other Megalink member banks.
- **PNB Gift Card** –an ATM card loaded with cash, a special gift ideal for any day, any occasion.
- Women's Account a checking account with fully packed features, including a rewards system, a special discount program and so much more.
- **Budget Checking** a non-interest earning checking account and does not require a maintaining balance.

D. Aging of Receivables From Customers

The schedule of aging of receivables from customers as required by Philippine Stock Exchange (PSE) per its Circular No. 2164-99 and letter dated August 23, 2001 is shown on page 15.

1) Accounting Policies and Methods

The accompanying consolidated financial statements of PNB and Subsidiaries (the Group) have been prepared following the same accounting policies and methods of computation applied in the annual financial statements for the year 2003 in conformity with the generally accepted accounting principles.

2) Issuance of Subordinated Notes

On February 16, 2004, PNB issued P3 billion, 12.5% Subordinated Notes due in 2014. Among the significant terms and conditions of the issuance of such Notes are:

- (a) Issue Price of 100% of their principal amount;
- (b) The Notes bear interest at the rate of 12.5% per annum from and including February 16, 2004 to but excluding February 16, 2009. Interest will be payable semi-annually in arrears on February 16 and August 16 of each year, commencing on August 16, 2004 unless the Notes are previously redeemed, interest from and including February 16, 2009 to but excluding February 16, 2014 will be reset at the equivalent of the five-year MART1 FXTN as of February 9, 2009, plus a spread of 5.272% per annum. The stepped-up interest will be payable semi-annually in arrears on February 16 and August 16 of each year, commencing on August 16, 2009;
- (c) The Notes constitute direct, unconditional unsecured and subordinated obligations of the Bank and at all times rank pari passu without preference among themselves and at least equally with all other present and future unsecured and subordinated obligations of the Bank;
- (d) The Bank may redeem the Notes in whole but not in part at a redemption price equal to 100% of the principal amount together with accrued and unpaid interest on the day following the last day of the tenth interest period from issue date, subject to the prior consent of the BSP. The Notes may not be redeemed at the option of the noteholders; and
- (e) Each noteholder, by accepting a Note, irrevocably agrees and acknowledge that: (1) it may not exercise or claim any right of set-off in respect of any amount owed by the Bank arising under or in connection with the Notes; and (2) it shall to the fullest permitted by applicable law, waive and be deemed to have waived such rights of set-off.

3) Segment Information

The Bank provides a full range of banking and other financial services to corporate, middle-market and retail customers, the NG, local government units (LGUs) and government-owned and controlled corporations (GOCCs) and various government agencies. Its principal commercial banking activities include deposit-taking, lending, exchange dealing, investment bills discounting, foreign banking. fund transfers/remittance servicing and a full range of retail banking and trust services through its 324 domestic and 32 overseas branches and offices. The Bank's international subsidiaries have a network of 62 in key cities of the United States, Canada, Western Europe, Middle East and Asia.

Through its subsidiaries, the Bank engages in a number of diversified financial and related businesses such as merchant banking, remittance servicing, non-life insurance, leasing, stock brokerage, foreign exchange trading and related services. The Bank, through its affiliates, is also engaged in other services such as financing of small and medium-sized industries, life-insurance, and financial advisory services.

Although the Group's businesses are managed on a worldwide basis, the Group operates in 5 principal geographical areas of the world. The following table shows the distribution of the consolidated revenues by geographical market:

Of the P46.7 billion of funds managed by the Trust Banking Group (TBG) as of December 31, 2003, approximately P39.5 billion (the Escrow Funds) was held by the Bank in escrow on behalf of the National Government (NG) and other claimants in respect of the Escrow Funds. The ownership of the Escrow Funds has been subject of dispute and litigation for a number of years. On July 15, 2003, the Supreme Court decided that the Escrow Funds belong, and should be transferred, to the NG. In January 2004, the Escrow Funds were transferred to the NG. As a result of the transfer, aggregate amount of assets managed by the TBG declined by the full extent of the Escrow Funds.

5) Existence of Material Contingencies

In the normal course of business, the Bank makes various commitments and incurs certain contingent liabilities that are not presented in the accompanying financial statements. These commitments and contingent liabilities include various guarantees, forward exchange contracts, commitments to extend credit, standby letters of credit, pending litigation including litigation involving redemption of foreclosed properties already sold to third parties and contested tax assessments. Several suits and claims remain unsettled. The Bank and its legal counsel believe that any losses arising from these contingencies which are not specifically provided for will not have a material adverse effect on the accompanying financial statements.

6) Earnings per share

Basic earnings per share is calculated by dividing the net income for the period attributable to common shareholders by the weighted average number of common shares outstanding during the period.

Diluted earnings per share is calculated by dividing the net income attributable to common shareholders by the weighted average number of common shares outstanding during the period adjusted for the effects of dilutive convertible preferred shares.
