## PILTEL RETURNS TO PROFIT - NORMALIZED NET INCOME AT #4.9 BILLION

Reported net income of P9.8 billion; Subscriber base at 4.6 million

Manila, Philippines, 1<sup>st</sup> March 2005 - Pilipino Telephone Corporation ("Piltel") (PSE: PLTL) today announced its audited financial results for 2004, as it recorded a net income of ₽9.8 billion (inclusive of the impact of recent changes in management agreements) compared with a loss of ₽3.4 billion last year. Both numbers reflect as well the adoption by Piltel of various International Accounting Standards (IAS). Piltel's normalized net income for 2004 was ₱4.9 billion.

This marks the first time Piltel has reported a profit since 1996.

#### Subscriber Growth

Piltel's GSM brand, *Talk 'N Text*, recorded net additions of approximately 1.7 million subscribers in 2004, exceeding the 1.1 million net increase in subscribers recorded in 2003. This raised the total *Talk 'N Text* subscriber base to 4.6 million at the end of 2004 compared to 2.9 million subscribers at the end of 2003, an increase of 61%. The average monthly subscriber churn rate in 2004 fell to 3.5% from 4.2% in 2003. *Talk 'N Text* was launched in April 2000 under a reseller arrangement with Smart and is the country's third largest GSM service.

Piltel also had 45,992 landline subscribers as of the end of 2004.

#### Operating Results

Piltel's gross service revenues in 2004 grew 40% to ₽13.7 billion, compared to ₽9.8 billion in 2003, as a result of the continued growth in the Talk 'N Text subscriber base. Net service revenues in 2004 more than doubled to ₽9.4 billion however, compared to \$\textstyle{24.3}\$ billion in 2003, as Smart's share of revenues In December 2004, the Boards of Directors of decreased from 50% to 20%. Smart and Piltel, after extensive study and in consultation with an international telecommunications advisor, agreed to enter into a new omnibus agreement that would supersede and replace previous management agreements. The omnibus agreement covers the provision of all the services under the previous agreements, in consideration of a simpler revenue sharing arrangement of 80-20 in favor of Piltel. Net GSM service revenues, after deducting the P2.3 billion paid to Smart under the omnibus agreement, interconnection expenses and preloaded airtime, increased by 143%, to ₽8.6 billion in 2004 from ₽3.5 billion in 2003, when Smart's share was P4.3 billion. GSM revenues now make up 95% of Piltel's net revenues.

PAGE 3 OF 8

Total expenses decreased by 28%, from P9.6 billion during 2003 to P6.9 billion in 2004, mainly as a result of no provision for impairment losses in 2004 against an impairment loss of P1.7 billion in 2003, amendments in the management agreements with Smart (as set out in the terms and conditions of the omnibus agreement), and lower financing costs. The decrease in these expense items was partially offset by a 29% increase in selling and promotions expenses to P653 million due to the rise in Pittel's GSM subscriber base and a 14% increase in cost of handset and SIM packs.

Financing costs declined by 24%, to \$\mathbb{P}1.9\$ billion in 2004 from \$\mathbb{P}2.6\$ billion in 2003. Foreign exchange losses were down 59%, mainly as a result of a \$\mathbb{P}1.2\$ billion foreign exchange loss taken in 2003 relating mainly to the revaluation of the Company's US Dollar and Japanese Yen debts, compared to a foreign exchange loss of \$\mathbb{P}517\$ million in 2004.

In accordance with IAS 12 – Income Taxes, Piltel recognized a deferred tax asset of P1.2 billion in 2004 which resulted in an equivalent benefit in the provision for deferred income tax. The standard provides for the recognition of a deferred tax asset when it is probable that taxable income will be available against which the deferred tax asset can be used. Given Piltel's return to profitability, IAS 12 was applied accordingly.

As a result of the improved operating results and changes discussed earlier, the Company posted a net income of \$\mathbb{P}9.8\$ billion.

#### Other Developments

On 9<sup>th</sup> July and 29<sup>th</sup> December 2004, Smart completed the conversion of 4.825 million and 54.468 million shares of Series K Class I Convertible Preferred Stock to 10.080 billion common shares, respectively, for a total ownership in Piltel of 85.6%. This followed the approval by Piltel's stockholders, at a special stockholders' meeting in September 2004, of an increase in the Company's authorized capital stock from 2.76 billion shares of common stock to 12.06 billion shares. In aggregate, Smart and PLDT currently own 92.1% of Piltel.

Piltel President and Chief Executive Officer Napoleon L Nazareno said: "I take quite a measure of pride in Piltel's return to profitability, after the struggles of the past few years. We must now ensure that Piltel sustains its profitability over the longer term so that it continues make a positive contribution to the PLDT Group."
