A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. The review must discuss any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors. It must also discuss any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial year reported on.

The Group's turnover for the six months ended 30 June 2006 declined by 15% to \$\$35.1 million compared to \$\$41.3 million for the corresponding period in 2005. This was due to lower revenue from facade engineering business as the Group is focusing on core competency in window and door fabrication and manufacturing and marketing of aluminium extrusion.

The Group's loss before taxation of S\$3.6 million for the six months ended 30 June 2006 reflected a reduction of S\$6.2m as compared with loss before taxation of S\$9.8 million for the corresponding period in 2005. This was mainly attributable to lower claims by main-contractors of S\$2 million, cost over-run of S\$2.8m in the six months ended 30 June 2005, provision for doubtful debts of S\$0.5m and a gain of S\$1.6 million from the sale of its entire shareholding in an associate company in the six months ended 2006.
