TERRESTAR CORPORATION, ET AL.

Debtors-in-Possession

Notes to Condensed Consolidated Financial Statements

1. Background and Bankruptcy

Background - TerreStar Corporation (“*the Company*,” “*TSC*,” “*we*,” “*us*” or “*our*”) is a Delaware corporation whose main assets are its rights to use 1.4 GHz terrestrial spectrum (“*1.4 Spectrum*”) pursuant to 64 FCC licenses held by TerreStar 1.4 Holdings LLC (“*1.4 Holdings*”), a non-debtor that is wholly owned by TerreStar Holdings Inc.

In September 2009, 1.4 Holdings entered into a lease agreement (the “*Spectrum Lease*”) with One Dot Four Corp. (“*One Dot Four*”), pursuant to which One Dot Four leases the right to use the 1.4 Spectrum for which 1.4 Holdings holds the FCC licenses. Pursuant to the Spectrum Lease, One Dot Four pays 1.4 Holdings \$2,000,000 per month. One Dot Four has prepaid the Spectrum Lease through June 2011.

Although TSC, through its wholly owned subsidiary Motient Ventures Holding Inc. (“*MV Holding*”), has an indirect 89% ownership interest in TerreStar Networks Inc. (“*TSN*”), which operates a separate and distinct mobile communications business, it is expected that this ownership interest will be divested through TSN’s chapter 11 proceedings.

Chapter 11 Cases – On October 19, 2010 (the “*October Petition Date*”), the Other TSC Debtors each filed a voluntary petition for relief in the United States Bankruptcy Court for the Southern District of New York (the “*Court*”) under chapter 11 of title 11 of the United States Code (the “*Bankruptcy Code*”). On February 16, 2011 (the “*February Petition Date*”), the February Debtors each filed a voluntary petition for relief under chapter 11 of the Bankruptcy Code with the Court. On February 23, 2011, the Court entered an order approving the joint administration of the February Debtors’ cases with the Other TSC Debtors’ cases [Docket No. 11].³ In addition, the Court entered an order applying certain orders that were entered in the TSN Debtors’ chapter 11 cases to the February Debtors [Docket No. 13, 41].⁴

The TSC Debtors are operating their businesses and managing their property as debtors in possession pursuant to sections 1107(a) and 1108 of the Bankruptcy Code. No request for the appointment of a trustee or examiner has been made in these chapter 11 cases.

On the February Petition Date, the February Debtors and MV Holding sought approval of ongoing access to cash collateral as well as approval to enter into an aggregate \$13,368,421.05 secured debtor-in-possession financing facility (the “*DIP Facility*”), with the February Debtors as borrowers and MV Holding as guarantor. The DIP Facility is secured by a first lien on all of the February Debtors’ assets, subject to certain existing liens.

³ In connection therewith, on February 23, 2011, the Court entered an order modifying the joint administration order in the TSN Debtors’ cases to provide that the Other TSC Debtors’ cases would no longer be jointly administered with the TSN Debtors’ chapter 11 cases.

⁴ The orders entered in the TSN Debtors’ chapter 11 cases that the Court made applicable to the February Debtors’ cases included orders regarding the cash management systems, interim compensation procedures, creditor matrix, case management, insurance coverage and payment of taxes. The Court also applied orders covering the retention of Akin Gump Strauss Hauer & Feld LLP, The Garden City Group, Inc. and various law firms and professionals to the February Debtors.

The DIP Facility carries a 12.5% interest rate. The DIP Facility contains negative and affirmative covenants standard for debtor-in-possession financing facilities, as well as various operational performance covenants. The DIP Facility contains various events of default, including, without limitation, that on or before November 30, 2011, the Court shall have entered an order confirming a plan of reorganization for the February Debtors.

On March 9, 2011, the Court entered an order approving the TSC Debtors' entry into the DIP Facility on a final basis [Docket No. 43].

1. Significant Accounting Policies

Basis of Presentation - The condensed consolidated financial statements are prepared in accordance with generally accepted accounting principles in the United States of America ("**GAAP**"). The financial statements include the accounts of the Company and its wholly owned subsidiary TerreStar 1.4 Holdings LLC.

The accompanying condensed consolidated financial statements do not include any adjustments that results in connection with our filing for reorganization under Chapter 11 on February 16, 2011.

Use of Accounting Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The Company's most significant estimates relate to the fair value of stock-based compensation, and long-lived assets. Due to the inherent uncertainty involved in using estimates, actual results reported in future periods could differ from those estimates.

Cash and Cash Equivalents - The Company considers all highly liquid investments with original maturities of ninety days or less to be cash equivalents. The carrying amount of cash and cash equivalents approximates fair value because of the short maturity of those instruments.

Concentrations of Credit Risk - Financial instruments, which are potentially subject to concentrations of credit risk, consist principally of cash and short-term investments. We periodically invest funds in short-term investments primarily in United States Treasury money market funds. At March 31, 2011, we had approximately \$8.6 million in highly liquid short-term investments. To date, we have not experienced any losses on cash or investments.

Fair Value of Financial Instruments - The carrying amounts of certain of our financial instruments, such as cash and cash equivalents, restricted cash, investments, receivables, accounts payable and accrued liabilities approximate their fair values based on their short maturities. The fair value of certain financial instruments such as our Series A & B Preferred Stock differs from its carrying value recorded in the accompanying condensed consolidated financial statements.

Intangible Asset - Intangible assets consists of the value of indefinite lived 1.4GHz spectrum licenses. No impairment, if any, is recorded, pursuant to Chapter 11 filing by the TSC Debtors on February 16, 2011.

Equity Investments - Our equity investment in affiliates primarily consist of approximately 89.3% and 86.5% interest in TerreStar Networks Inc. and TerreStar Global Ltd., respectively.

Revenue Recognition - Our revenue currently is derived primarily from a spectrum-leasing agreement. We recognize spectrum lease revenue over the term of the lease.

Income Taxes - Income taxes are accounted for using the liability method of accounting. Deferred tax assets and liabilities are recognized for future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes that enacted date. If it is more likely than not that some portion of all of the deferred tax assets will not be realized, a valuation allowance is recognized.

Series A and B Preferred Stock

Pursuant to the outstanding redemption obligation as of April 15, 2010, we account for Series A and B Preferred Stock as current liability under the applicable accounting standard guidance. Dividends on Series A and B Preferred Stock are due bi-annually in April and October, payable at TSC's option in cash at a rate of 5.25% per annum or in common stock at a rate of 6.25% per annum through April 15, 2010. Per the terms of the issuance, on April 15, 2010, we had a redemption requirement of \$408.5 million in principal plus unpaid dividends accrued. We did not redeem the Series A and B Preferred Stock on the redemption date.
